Vol. VII. No. 51 3 Seniti

Bananas Left On Wharf Because Of Sunday Law

Because of the Sunday Laws, 542 cases of bananas for New Zealand were left behind last Saturday night by the "Taveuni", the Manager of the Tonga Produce Board, Mr A. Johansson said yesterday.

Under the Constitution, Chapter 2, Clause 6, the following law concerning Sabbath observances is in force:

"The Sabbath Day shall be sacred in Tonga for ever and it shall not be lawful to do work or play games or trade on the Sabbath . . ."

Mr Johansson said the dockworkers managed to load only 3424 cases and the rest were left behind as it was getting near Sunday.

He said that the dockworkers could have loaded 542 cases in 30 minutes but the Sunday Laws came into force.

Mr Johansson is awaiting for a reply from Pago Pago where he has offered the left-over bananas for sale.

Arrangements have been made with Mr Peter Warner to charter his vessel the "Ata" to take the 542 cases to Pago Pago if the offer is accepted.

First Tongan President

The Rev. Dr. Sione 'Amanaki Havea was yesterday morning elected the first Tongan president of the Free Wesleyan Church at their annual conference in Vava'u.

The Rev. Sitaleki Manu was acting president in 1926.

The appointment has yet to be confirmed by His Majesty King Taufa'ahau Tupou IV.

The Rev. Siupeli Taliai was elected secretary of the conference. Dr. Havea is the former secretary of the conference and the principal of Sia'atoutai Bible College.

Talks In N. Z.

New Zealand will host a meeting of heads of Government of independent South Pacific countries and an Austtralian delegation later this year, says the N.Z. Information Service. The meeting follows a desire among the leaders of Tonga, Fiji, Western Samoa and the Cook Islands to hold informal talks on subjects like aid, trade and shipping.

Last year's revaluation of N.Z.'s Pacific policy and the more recent upgrading of Australia's policy toward the region, has also indicated the need for a forum.

Construction Instead Of Destruction

The NZ$10 million spent annually by the New Zealand Government in Vietnam should be used for aid in the Pacific, say the Labour Member of Parliament for New Lynn, Auckland, Mr J. L. Hunt.

He said the money used in Vietnam for destruction should be used for construction in the Pacific.

Establishment of a Minister for Pacific development and a Pacific council including Australia, N.Z. and the Pacific countries were other moves recommended by Mr Hunt.

He also said N.Z. should contemplate offering a seat in Parliament to the Cook Islands.

Search For Oil To Continue

By the EDITOR

The search for oil in Tonga is to continue. This was decided at a meeting of the Tonga Oil Participants in The Hague, Holland, at which the results of the first year's surveys were considered and discussed, the general representative for the participants in Tonga, Mr Alan Jackson has reported from the Hague.

The meeting also decided on a programme of exploration for the second year of the agreement.

To further the search for oil in the Tonga area, it was decided to carry out detailed gravity and magnetometer surveys on Tongatapu, to be followed by an exploration well on the island. At the same time additional detailed seismic will be shot offshore to better outline features of possible interest revealed by the original offshore reconnaissance survey.

Although this announcement is significant for Tonga, it would be a mistake if the impression was gained that oil was about to come gushing out of the ground.

Oil is a very emotional word in the Kingdom and from previous experience any announcement is inclined to produce premature excitement. Therefore it should be appreciated that oil research is an extremely complex and prolonged business and that even after years of exploration the results may not be encouraging enough to make it worthwhile continuing.

Tongans would be wise not to build their hopes too high on oil being discovered in commercial quantities.

Mr Jackson is due back in the Kingdom on June 5 and may be in a position to give more details about the proposed programme of exploration for the second year.

"They made a completely new sound, like an organ playing when heard from a distance."

This is how the Chronicle's correspondent at the conference of the Free Wesleyan Church at Vava'u, Lupeti Tulua, described the singing of the Tongaleleka Choir from Ha'apai, conducted by Peace Corp Volunteer Marshall Wimberly (24).

Lupeti said not only was the sound unlike anything heard before, but the way Mr Wimberly conducted was totally new to those present. "People are flocking to see and hear the Tongaleleka Choir."

Mr Wimberly lives at Tongaleleka and teaches at the Government primary school at Pangai. He is due to end his two-year term as a Peace Corp volunteer in December this year.

"DEAR SIR..."

Letters to the Editor.

That Name

Dear Sir.—I have the honour to write on the origin of the name Nuku'alofa.

During the era of 'Ulukalala II or 'Ulukalala Feletoa as he was commonly called, there was chaos within the Group. The warriors from up North constantly raided many parts of Tongatapu in an attempt by their leader 'Ulukālala II to rule the whole of Tonga. Battle after battle was fought and yet there was no overall victory on the mainland.

In Tongatapu there was a chief by the name of Tākai who made his name renowned in the battlefields of Tongatapu. 'Ulukālala, being a shrewd general, decided to combine his force with those of Tākai. The two leaders then agreed to headquarter at a newly built fort on the mound at Nuku-'alofa, now called "Sia ko Veiongo".

During this time word came from Vava'u that the people were waiting to present their "polopolo" or "first fruits" to their chief. 'Ulukālala then decided to sail up North to attend this important occasion but he left all responsibility for the safety of the fort with Tākai. The Vava'u chief was hardly out of sight from Tongatapu when Tākai burnt the fort down and ordered his men to start evacuating back to Pea, his home village.

When 'Ulukālala saw what has happened, he promised himself that this must be revenged and soon. On arriving at Vava'u he sent, four of his braves back to Tongatapu to see that Tākai was disposal of. The braves took a "nuku", as the war canoes were then called, and set sail for the main island. It should be noted that a nuku was usually rowed by not less than 10 rowers. Only the braves sailed the nuku at a lesser number.

When the nuku appeared in the horizon of Nuku'alofa harbour, word reached Tākai that a war canoe was in sight with only four rowers on board. In the Tongan language the report would be something of this kind: "Ko e nuku-'alo-fā or to be more clear, Ko e nuku 'oku 'alo-'alo pē 'e he toko fā".

Tākai knew that 'Ulukālala was after him and he therefore ordered his men to slaughter the braves as soon as they run ashore. The order was carried out and hence the name of our harbour has been "Nuku-'alo-fa".

TEVITA H. TAPUELUELU.

Traffic Signs

Dear Sir.—At road junctions stands a board with words "Give Way" printed outstandingly in capital letters. Only those who read English understand these words but those who cannot read English do not understand what these words mean.

Why don't the authorities write Give Way in Tongan as well. Should there be an accident, I believe that misunderstanding of these English words could pass as an excuse.

Why should a Tongan-speaking country giving its official directions in a foreign language?

P. 'AHOMANA.

Loan Scheme

Dear Sir.—In reply to Fa'a's letter pertaining to the loan scheme, the Director of Agriculture said he was only too sorry that the scheme had not got under way. It was originally intended that land should be used as security, but this had not been possible as land, by law, was not an asset which could be used in this manner at present. But efforts was being made to overcome this, or find alternative security, which was not simple in the Tongan context.

Thanks for the apologies, and I do believe the Director sincerely wants the Agricultural Credit Scheme to get under way, but the lack of securities would not permit him to carry it out. It is only a third of the tax-payers that have land while the other two-third have none. Why must we insist on only land as security, which is prohibited under the Law? I believe that during the last decade or so there have been numerous registered agreements in the Magistrate and Surpreme courts without land as security. I also believe there are quite a number of people without land that are making their life from fishing. How are they supposed to get loans? Aren't fishermen classified under the Agriculture Department?

If these loans are only available to people with securities, then it means that the department would only be helping the richer to be richer, and neglecting the poor, needy Tongan with no allotment as security to get poorer.

Out of the 2000 applications the Director received, he said that 20 were presented in a form that was acceptable. May I bring to his attention the fact that this financial year will be coming to a close soon and I believe the Legislative Assembly is expecting him to have used this fund.

S. POUSIMA AFEAKI.

Pen Names

Dear Sir.—I gather that Tevita Tupou Mafi is rather upset with the use of pen names, including my name "Dr Taliefu". This name was given to me by the Hon. Tu'i'āfitu in 1958. It is true that it does mean the collector of all rubbish including dust, dirt and filth of every sort. This definition is fitting since I'm fond of keeping things clean and doing my best with everything.

Dr TALIEFU.

Calendar

Dear Sir.—Please see our Government Calendar and note an error which I think should be corrected. Since April I have been aware that the calendar says that a new moon will rise on May 5 and by the 21st it will be a full moon. However, this has not been the case since the moon was full on the 10th or the 11th.

This is a major error and I think it is very unreliable to use an erroneous calendar such as this.

I shal be most grateful if you will let me know the correction.

ASTONISHED.

Mistakes have been found in the calendar for this year and amendments were printed. Apparently the writer has not received his amendments. They should read:

May 2 - First quarter
May 10 - Full moon
May 17 - Last quarter
May 24 - New Moon.

EDITOR.

Fertilizers

Dear Sir. — It is a pity there is no money, equipment or experts for a soil fertility survey before fertilizer is applied to the soil. However it is encouraging if the Coconut Replanting section and the Produce Board can supply cheap fertilizers.

The questions which I wanted an answer for was whether or not it is sensible to apply fertilizers to the soil before a preliminary survey of soil fertility. I do not think a general test, depending on rough estimation of how fertile a piece of land is, would be sufficient preparation for a soil fertilizing programme as wide as this; knowing that with every two or three steps one takes soil fertility changes.

If we don't have the money, equipment and experts for this job why don't we wait until such time when we can afford them and then go on with the programme. It is better to be "slow but sure" rather than quick and get the work done anyhow.

I am sure that fertilizing the soil without a preliminary survey of its fertility is exactly the same as diagnosing a patient without examining him first to see what is good for him. In a case like this I doubt if the patient has much chance of recovering.

Will this programme benefit the overall fertility of Tonga's soils in the future? And if this programme is aimed at improving the soil to a standard suitable for coconuts and bananas only, what then will happen to other food crops?

What about the constitution of the soil; will it be affected? Will this fertilizing method reach a stage where the soil will be so poisonous as to ruin plant life?

Will all growers who use the same type of fertilizer get the same harvest? During droughts, will the fertilizers suck water out of plant roots as to cause them to wither and die? Is it possible to use the same type of fertilizer, for two or three consecutive years and still get the same harvest?

Is this programme economical? Do fertilizers spoil the work that elements which are vital to the life of the plant do?

A touch of Glamour

A fashion parade, to be held on June 11 at the Dateline Hotel and organised by the Siale Boutique, will bring to the Tongan public, something of the glamorous world of fashion.

A variety of outfits ranging from beachwear to evening gowns, will be modelled by Misses Dateline Hotel, Ma'ata Mafi, 'Anau Fanua, Mele Tu'ipulotu and Mrs K. Brosig, wife of the hotel manager.

The initiator of the idea, and designer, Mrs Batemann said the evening gowns will be made from local material.

The traditional Tongan dress and vala will also be modelled.

The vala instead of the usual log piece of material will be like a long skirt, which saves material, Mrs Batemann said.

She added that the Tongan outfits modelled will show that national costume can be just as fashionable for evening wear as an evening dress.

Happy Reunion

Sister Christine, formerly Miss Lavinia Finau of Kolofo'ou, after spending 5½ years abroad, is back in the Kingdom on a six-week visit to family and relations.

A former teacher of St Andrew's School, she was admitted in 1966 to the Anglican Community of the Sacred Name in Christchurch, New Zealand.

In the Community, she helps organise work done at the cathedral, the main centre of the Anglican Church in Christchurch.

When she returns, Sister Christine will be trained in social work before working in close association with the drug addicts.

Women's Page

Farming Not Only A Man's Province

A sample from the gigantic harvest, Mrs Timote Fukofuka of Fanga, Kolofo'ou, recently gathered from her yam plantation.

Mrs Fukofuka said, it took three trucks and 13 cart loads to cart all the yams from the plot.

Most of the yams harvested were of the favoured variety known as "kahokaho".

The longest yam, measured 4½ feet in length.

Although outside help was recruited during the planting season, the bulk of the work was done by Mrs Fukofuka alone.

A mother of two children, she still had time to pay regular visits to her plot, nine miles away from her home.

Her husband, a clerk at the Government Treasury, helped whenever he had time off work.

Mrs Fukofuka is not the type that dwells on one success. Already she has used the yam plot for planting watermelons.

Flour Tip

Advice to housekeepers to assist them in having a readily available supply of fresh flour on hand.

Flour becomes musty and weevil-infested in time when the following conditions exist: Excessive moisture, air, excessive heat, proximity of other food.

Where any of these factors are absent, weevil growth and mustiness are very much retarded.

1 .Purchase flour as fresh as possible, 2. Buy only the quantity you feel you will require until the arrival of a new shipment, 3. To conserve space, place one-half or two-thirds of the flour purchased in a clean, screw-top container in the warmest part of the refrigerator. Use the remainder of the flour first.

When using refrigerated flour, remember to remove the amount required for immediate use from the refrigerator about 15 to 20 minutes before it is required for preparation.

This applies to both plain and self-raising flours.

A Fitting Prize

Holidaying in the Friendly Isles recently, was Miss Charity Queen of Vuda Methodist circuit, Vuda, Fiji.

Miss Aliti Navunicagi, sponsored by her tribe, raised $1010.

A teacher at Vuda district school, Miss Navunicagi was given the choice of a trip either to Auckland or Tonga as a winning prize.

Asked why she picked Tonga, Miss Navunicagi said: "I have learnt a great deal about Tonga through books and meeting Tongans in Fiji, so I had to see the place sooner or later."

She left on Monday with many memories of her stay, but before she left she told the Chronicle she will be back before the end of the year.

Commentary

BANANAS

Bananas have come under heavy fire in recent issues of the Chronicle. First the growers were told "Get better or get out" and then "Too many bad bananas".

While there may be much room for improvement there is no doubt that the actual handling and carriage of the fruit leaves a lot to be desired and quite an amount of damage is caused by the method employed.

Bananas require a specially built vessel or container, as they respire a lot and need a large refrigeration plant, because of the much higher rate of air flow to be maintained. They are shipped green and should arrive green; but they tend to give off traces of ethylene, which can trigger off premature ripening, hence the air flow needed to prevent concentration of this gas building up.

The temperature at which green bananas must be carried is laid down as 58 degrees F. and as fruit dries out quickly the air flow must be humid with a relative humidity of 70 to 75 per cent.

Only similar fruit cargoes should be carried in refrigerated compartments to avoid tainting and it is advised never to carry meat and fruit in adjoining chambers. The task of conveying fruit across thousands of miles of sea is made much easier if the fruit is pre-cooled ashore.

The Tonga Shipping Agency is investigating a new concept in the carriage of bananas and there appears to be merit in the scheme.

Refrigerated containers. each capable of carrying 420 cases of the present size, could be plugged into the electric system at each packing centre; and the cases. after packing, inspection and dipping would be loaded directly into a pre-cooled atmosphere. The containers are then transported to the loading area and if necessary can be plugged in again to hold until ready to load.

On the ship they remain plugged to the electrical system and when landed are transported directly to the ripening rooms. This would mean that the bananas would be handled only twice and would not be subjected to over exposure, to heat, careless handling and stacking, dirt and damage.

Such a system would readily identify the packing shed that failed to ensure proper size and efficient packing, and could well lead to greater economy in transportation and a better return to the grower.

Ships capable of carrying out his type of operation are at present under construction and the Tonga Shipping Agency is being kept fully informed of progress.

Move On Regional Shipping Talks

The secretariat of the Pacific Islands Producers' Association (PIPA) has set the wheels in motion for the next stage of the plan to create a regional shipping line, the Fiji Times reports.

It has sent out circulars to the six member governments suggesting that the first meeting of a joint working party should be held in Nuku'alofa.

The executive secretary of PIPA, Mr H. P. Elder, hopes to receive nominations from the governments soon for membership of the working group.

The working party wil be set up as a result of a decision taken at the PIPA conference in Nuku'alofa last month.

Its job will be to consider fully the establishment of a regional shipping line, based on the facilities of the Tonga Shipping Agency.

Mr Elder said: "If the shipping line is to based on the Tonga Shipping Agency, it seems to me it would be logical to have the first meeting in Nuku'alofa."

It is expected that it will be several weeks before a meeting can be held. Nomination procedures will have to be gone through by the six governments. It can be assumed that because government leaders are personally giving the project backing, the nominees will be top officials.

Because of this, it could be difficult - because of the tight schedules these officials usually keep to get them altogether in one place. So it may be several weeks, or longer, before a meeting can be convened.

The shipping line project is significant mainly for two reasons :

1. It is the first major scheme to be tackled as a truly regional effort by the island governments. The formation of PIPA itself was perhaps the first regional project of international significance.
2. It could have an important effect on the economies of the PIPA territories if it achieves one of its prime objectives – the stabilisation of freight rates.

A regional shipping line would mean also that trading patterns which have almost become part of the island life may disappear.

FULLBACK LASIKE KICKS TAVATU'UTOLU TO VICTORY OVER KOLOMOTU'A

By ROBBIE

A mighty penalty kick by Lasike gave Tavatu'utolu a well earned victory over Kolomotu'a by 3 points to nil in an otherwise scrappy game.

Both forward packs were evenly matched with Fakavā and Malolo again showing up well for Tavatu'utolu and Sēlupe leading by example in Kolomotu'a. But neither sets of backs could penetrate for that break necessary to set up a try.

Lasike had a good game at fullback and some of his penalty attempts from far out came close to adding extra points. He had height and distance, but was just outside the uprights.

Tavatu'utolu centre, Sitalin, was responsible for the most exciting movement of the game when he kicked through and he and Piko had a race for the ball which beat them both into touch in goal.

Tali Kavapalu who has been nursing a muscle injury came on to replace his brother early in the second half but could not move freely and I thought ran the risk of more damage to his leg.

Fatai Kefu had a good game at first five and his long-raking touch-finding kicks must have helped to wear down the Kolomotu'a forwards.

Certainly not the best game on No. 1 but it put the yellows into third place in the competition.

Tavatu'utolu 3 (penalty to Lasike) Kolomotu'a 0.

KAUVAI "XIV" TOO GOOD FOR POLICE B "XV"

Within minutes of the start of the match one of the Kauvai forwards received his marching orders from the referee and from then on we saw a really determined Blue team defend desperately in the first half to hold the Police to a penalty by fullback Laipeli (3 nil) at half time.

I am convinced that if the Police had used their vastly superior weight to more advantage the score at half-time could have been much more. The forwards lacked fire and were not pushing in the scrums and rucks.

Soon after half time Police were penalised in a good kickable position and Maile Sōnasi made no mistake in placing the ball between the posts to make the score 3 all.

Both teams settled down to some good rugby and play ranged from one end to the other. From a really bustling forward rush by the Blue forwards Mofuike picked up a loose rolling ball and dived over between the posts for a good try. Maile Sōnasi missed the conversion from right in front.

The Police realising that they were down 6 - 3 came alive and for the first time in the game really used their weight and pushed the Blue pack back yards at a time, but despite the advice and encouragement of the Women Police Constables on the sideline, they could not break through the Kauvai defence.

Bad handling by Police backs in the exciting last few minutes lost them a scoring chance.

Right on the final whistle a further opportunity to level the scores came when Kauvai were penalised and veteran Samiu came up to take the kick. I have seen him make better attempts and the ball just refused to rise the necessary height.

A good game especially in the second half with both teams neither asking or giving any quarter.

Kauvai 6 (try by Mofuike and penalty M. Sōnasi) Police 3 (penalty Laipeli).

FASI BEAT MU'A IN BEST GAME OF THE DAY 11 NIL

The make up of both Fasi and Mu'a pointed to a good game and this is exactly how it turned out; forwards loose and fast and both back lines prepared to have a go every time they received clean ball.

The score perhaps flattered Fasi. I don't think there was 11 points difference between the two teams, but they took the chances and they came off.

Pānuve produced some of his best form and Vave on the wing for Mu'a again proved that he is going to be right up for final selection when the good sides are selected. Fetu'utolu and Mālafu were the best of the pack I liked the way Mālafu controlled the ball when he charged down Siketi's kick and took off for the line. Only bad luck stopped him from scoring.

The Leger brothers always on the ball for Fasi and Hala making the breaks for winger 'Alani to score the tries. Good rugby all of it.

The first points of the match came when Tevita Leger made one of his very fast breaks to dive over under the posts for a good try which he converted himself.

Then we saw Kesi, who has been playing steady game at first for Mu'a all season, take an interception at half way which almost ended in a try.

Fasi then hooked good ball from a scrum which set 'Uhila away and Hala sold a dummy pass to make the break which left 'Alani to let him in for his second try of the match. The kick missed.

I mentioned a couple of weeks ago how I liked the look of the young Fasi backs they looked even better on Saturday against a very formidable Mu'a back line.

Fasi 11 ('Alani 2 tries, T. Leger 1 try and a conversion) Mu'a nil.

Fasi winger 'Alani beats Mu'a's Vave to the corner for his second try.

KOLOFO'OU HARD PUT TO BEAT HIHIFO IN UNINTERESTING TUSSLE

Kolofo'ou certainly did not look like dual competition leaders against Hihifo. I don't know when I have seen so many dropped passes and aimless running before.

Both Kolofo'ou wingers have the speed to out manouevre their defenders and yet on Saturday with plenty of room to move they would persist in running back into mid field where all the defence was. Nobody at all seemed to realise that the only way to stop a rolling ball going back towards the goal with defenders close behind is to fall on it and give the rest of the team time to get back. Hihifo were no better but they have the excuse of having only one really experienced player in the side.

Tempers were a little strained at times and two of the Hihifo boys saw most of the game from the sideline.

I thought Sēlē had his forwards moving nicely to upset the White

DANCING SEKONA OUTCLASSES VETERAN VEA

The dancing Fo'ui heavyweight Fonomanu Sekona (183lb) had a unanimous points decision over veteran Semisi Vea (203lb) of Kolonga, last Friday in a 10-round bout at the Hauhau-'o-Taufa'ahau Theatre.

Vea was clearly outclassed from the outset as Sekona dominated the fight with his lightening, shock-punching left and brilliant footwork.

Sekona kept Vea at arm's length as he did to Toni Pulu in his first professional fight two months ago. He danced and used mostly his solid left, closing the veteran's right eye early in round nine.

Vea, inspite of his courageous efforts, appeared as harmful as a punching bag to the 19-year-old Sekona.

In round-eight, Vea threw several telling blows which hit only the air. His only best round was the fourth when he landed several left hooks to Sekona's body.

Blood appeared in Vea's eye which forced referee A. Johansson to call Dr. Lutui Fonua to check.

The referee and the two ringside judges scored the bout in favour of Sekona. Mr Johansson scored 49 - 42, Judges Don Meister and Walter Skudder gave 50 - 42 and 50 - 40 respectively.

Before the bout, heavyweight boxer, Maile Haumono of Kolomotu'a issued a challenge to fight with the winner of Sekona and Vea bout.

Amateur Semi-Finals Tomorrow

The semi-final of the Tongatapu amateur boxing championship will be held at Hauhau-'o-Taufa'ahau Theatre tomorrow at 5 p.m..

The association's president, Mr A. Johansson, wants these boxers in each division to report to his office at Tonga Produce Board for medical check-up and weigh-in at 9 a.m. tomorrow.

Light-welterweight (129lb 5oz - 139lb 15oz) : Matekihelea Lui, Fua'amotu: Solomone Nāmoa, Fo'ui; Hikifo'ou Nai, Fua'amotu; Kitione Talanoa, Ha'amea.

Welterweight (140lb - 147lb 11oz) : Sione Mafi Fifita, Kolomotu'a; Fine Lavaka, Veitongo; Katiloka 'Ale, Vaini.

Light-middleweight (147lb 12 oz - 156lb 8oz) : Maile Peti, Fua'amotu; Mavoni Senituli, Lakepa; Latahe'ea Tonga'uiha, Houma; Hainite 'Aholelei, Kolofo'ou; Soane 'Epalahame, Kolomotu'a.

Middleweight (156lb 9oz - 165lb 5oz) : Semisi Tongotongo, Hofoa; Bruce Sovaleni, Kolofo-'ou; Tevita Hafoka, Houma; Siale Makoni, Fua'amotu; Mā Lelei, Vaini.

Light-heavyweight (165lb 6oz - 178lb 9oz) : Uaiselē Lātū, Tokomololo: Viliami Sovaleni, Kolofo'ou; Fine Solomone, Fo'ui.

Heavyweight (Any weight above 178lb 9oz) : Sana Sekona, Lapaha; Lopeti Fifita, Houma; Luke Veikoso, Houma; Moniti Fifita, Fatai; Haini Muller, Fo'ui.

18 Team, Two Fields, In "West Star" Cup

The soccer competition for the "West Star" Cup, which was scheduled to open last Saturday, was postponed until this Saturday.

The football association's secretary, Siō Motu'apuaka said that the association had difficulty in finding a ground for the competition last week when 18 clubs entered.

He said that two grounds at Tonga College were arranged early this week. The competition will be held there, not at Pangai.

The association had divided the 18 clubs into two divisions known as Lion and Eagle.

The women's competition will start on June 5. Registrations close next Tuesday, June 1.

The following is the draw for Saturday's play :

No.	1	1.30 p.m.	Toafaka'amu v Navutoka
	2	1.30 p.m.	Langileka v 'Eua
	1	2.30 p.m.	Royal Guards B v Veitongo A
	2	2.30 p.m.	Sopu v Ma'ufanga
	1	3.30 p.m.	Ngele'ia A v Kolomotu'a
	2	3.30 p.m.	Kolofo'ou B v Hala Tu'i
	1	4.30 p.m.	Kolofo'ou A v Royal Guards A
	2	4.30 p.m.	Ha'ateiho v Ngele'ia B.

RESULT DEPENDS ON KICKING

(Continued from Page 7)

backs who did not seem to be able to handle the situation.

With both the Police and Kolofo'ou going through a bad stage I would not like to forcast the outcome when they meet in two weeks' time.

Kolofo'ou 9 (Mōsese 1 try, P. Taumoepeau 2 penalties, Hihifo 6 (Sēlē a penalty and Pauli Ma'afu a dropped goal).

Ma'ufanga played well to beat Hahake by 10 points to 6 after a rather shaky start. Both teams played good rugby and the result depended on good kicking by Tupou at half. He has played consistently well this year.

Ma'ufanga 10 (tries by Manase and 'Osikā 1 each and 2 conversions by Tupou, Hahake 6 (tries to Fuka and Lolo Vili).

COMMENT: Be sure and see Ma'ufanga and Vaini on Saturday it should be a good game.

The Rugby Union now have rooms in Tungi Arcade and are interested in building up a photographic record of past teams. Any old players having photographs of past representative and club teams are asked if they could let either myself or Siaosi Pālelei have a look at them for possible reproduction.

The British Lions won their first match of the N.Z. tour when they beat a combined Counties side 25 - 3 at Pukekohe last Saturday.

Saturday's results are:

JUNIOR: Kolomotu'a 0, Tavatu'utolu 0; Ha'ateiho 16, Vaheloto 0; Kolofo'ou 6, Hihifo 0; Fasi 3, Mu'a 0.

SENIOR: Ha'ateiho 3, Vaheloto 0; Kolofo'ou 9, Hihifo 6; Police A 14, Nukunuku 3; Fasi 11, Mu'a 0; Ma'ufanga 10, Hahake 6; Houma 6, Lōtolu 3; Tavatu'utolu 3, Kolomotu'a 0; Kauvai 6, Police B 3.

POINTS TABLE

SENIOR A

	P	W	L	D	P
Police	6	6	–	–	12

TOURIST PLAYGROUND: Bikini Atoll, the site of the first American postwar atomic bomb tests, has been proposed as an attraction for the Pacific Islands' tourist trade.

TONGA COULD BECOME MARKET GARDEN OF THE PACIFIC

Tonga could become the market garden for the South Pacific, the marketing adviser, Mr Ken Masters, said on his return from the Conference on Regional Trade which met in Noumea for two weeks under the auspices of the South Pacific Commission.

Mr Masters said valuable trade contacts has been made for Tonga and all member territories showed interest in buying from Tonga.

Already Tongan vegetables were in heavy demand in Fiji.

Mr Masters said: "The Cook Islands, for instance would like to send us a shipload of canned fruit juices and take back a load of fish, which is very hard to get there. Tahiti also wants our tomatoes. The Gilbert and Ellice Islands are interested in our tobacco and we are sending some samples."

Transport was one of the greatest problems in promoting this regional trade and another handicap was the obsolete quarantine regulations, but Mr Masters said he thought these could be overcome.

His overall impression of the conference was the desire for regional cooperation in every aspect of trade by all territories.

The conference was attended by 28 representatives from 10 countries and territories. Tonga's other delegate besides Mr Masters was Assistant Secretary Sione Kite.

The conference noted the emphasis placed on the need for the South Pacific Commission to undertake research projects in the field of trade development by the 1967 technical meeting on trading relations and the inadequacy of resources allocated so far for this work.

It was considered that the need for such research projects was urgent and that any further delay in strengthening the commission's efforts in the field of general economic research could impede regional trade development.

The conference strongly recommended that an additional economist on trade be appointed to the commission staff in 1972, and that this be considered a project of the highest priority.

The conference also recommended that in an early report of their findings, the United Nations Development Programme team which is shortly to undertake a regional survey of transport needs, should detail current shipping capacity and facilities and suggest the most effective means of using these in the short term.

The conference further recommended that the South Pacific Commission request the Pacific Islands Producers' Association to facilitate full consultation and cooperation between their survey team and the regional transport survey to be undertaken under the auspices of the U.N.D.P.

An approach is to be made to the UN by the SPC for an expansion of the services of the UN team which is to examine plant and animal quarantine regulations and practices to include in the survey those territories in the area which are not members of PIPA.

NUCLEAR TESTS: New Zealand has expressed deep concern at France's decision to resume atomic weapon tests in the South Pacific atmosphere.

Tonga Is Progressing According To Plan

Tonga is developing, according to a plan; in fact the 1970 – 1975 Development Plan which has nearly completed its first year.

This is the second Development Plan and its basic objectives are:

* To increase the productive capacity of the Kingdom.
* Reduce dependency on external aid.
* Raise the standard of living.

The first development plan successfully achieved most of its main objectives, as the Prime Minister, Prince Tu'ipelehake has said. Urgent social needs were largely met and an important start was made on the rehabilitation of the coconut industry and on the modernisation of agriculture. Tonga will soon benefit from the operation of a modern, well-equipped hospital in Nuku'alofa, and a new police training centre is already turning out well-trained police recruits.

The Queen Salote Wharf, constructed during the plan period, has in a short time made a substantial contribution to the economy of the Kingdom both in facilitating shipment of its major export crops and in encouraging the cruise ship tourist trade.

The second development plan, although still relatively simple, is an advance on its predecessor. Its major objective is to develop on significant scale the economic potential of Tonga. The expansion and diversification of agriculture, and the establishment of training facilities in agriculture, are given high priority.

Other economic activities, in particular tourism, are also to be encouraged. Considerable expenditure is to be devoted to improving transport and communication within the Kingdom.

The Prime Minister has said that although less emphasis is to be given to social and community services in this second development plan, they will still benefit from significant expenditure. Education, in particuar, has high priority since this must provide the basis for training the skilled manpower that will be urgently needed as the economy expands.

As was the case with the first plan, the financing of the 1970-75 plan depends heavily on external, particularly British Government, assistance. It is expected, however, that the successful implementation of the present plan will make Tonga less dependent on foreign aid in the future.

Already changes are expected in the form of British aid. The Minister of Finance, the Hon. M. U. Tupouniua, says he knows U.K. aid in its present form will continue this year but it is not expected to continue on the same basis next year.

Nearly all U.K. aid has come to Tonga in the form of a grant, but next year it is expected to come partly as a grant and partly in the form of a loan.

S. TAMATA'ANE TUPOU

Bishop Rodgers Relieving In Cook Islands

Owing to the resignation of the Catholic Bishop of Rarotonga, Bishop Henry de Cocq, His Holiness Pope Paul VI has been pleased to appoint Bishop John Hubert Rodgers of Tonga, the Apostolic Administrator (Pisope Fakale'o) of Rarotonga, Cook Islands, until such time as a new bishop is appointed.

Bishop Rodgers retains his position as Bishop of Tonga but his new appointment will necessitate visits to Rarotonga and he left Tonga last week.

During his absence from the Kingdom, Father P. Finau Vicar General of the Diocese, will be in charge.

Advice has been received from the University of Manila (Ateneo di Manila) that Father Finau has been awarded the degree of Master of Arts in religious education. He undertook special studies on this question and his thesis was on the subject of : A Christian Communities Programme in Tonga.

Seven Tongans Earn Degrees

Seven Tongans were amongst the 144 graduates who received bachelor's degrees in the graduation ceremonies at the Church College of Hawaii last Friday.

They are : 'Alifeleti Ma'ulupe, Vainī; 'Ofisi Kimoana Pututau, Tokomololo and Patiola Tauteoli Tāufa, Ha'atteiho graduated Bachelor of Arts. Siosifa Hopoate, Fua'amotu; Telusila Mahu-'inga, Sione 'Ulu'ave, Halaloto and Peter Ranchod Vamanrav, Kolomotu'a received Bachelor of Science degrees.

DEATH OF TWO PROMINENT MEN

The legal advisor to the Free Wesleyan Church and a conference delegate for Tongatapu, Siosaia Tamata'ane Tupou, died on Sunday night while attending the Church's annual conference at Neiafu.

Tamata'ane was born in 1912, the son of Tevita Tupou and 'Amelia of Houma. Being the eldest in a large family, he showed himself not only as a family leader but also as a well-known personality in Government, Church and community.

In 1925 he entered Nafualu College where he passed Matriculation. In 1928 he went to Australia together with His Majesty, then Crown Prince Taufa'āhau, in the college concert party. On his return he was awarded a Tonga Government Scholarship to the Fiji School of Medicine.

In 1931 he took up teaching at the Free Wesleyan Primary School at Fua'amotu. He passed the local law examinations in 1945 and since then has been practising in the courts.

His body was brought back to his family at Houma on the "'Olovaha" on Tuesday night. He was buried at Houma yesterday afternoon.

ROYAL MOURNERS

Their Majesties the King and the Queen together with H.R.H. Prince Tu'ipelehake and hundreds of people were at Lapaha on Friday afternoon to attend the burial of Siosaia Lausi'i Hopoate.

A well-known personality in the Hahake district, Lausi'i was district officer in the Lapaha district for the last six years. He was one of the two candidates for the present town and district officers election.

He was born in 1913 and being the eldest son of the family spent most of his life at home looking after his parents, Hopoate and Kaufo'ou of Lapaha. His father was second cousin of Queen Sālote.

Lausi'i died at Vaiola Hospital early on Thursday night from pneumonia.

He is survived by his wife Fele'unga and three children.

SIOSAIA LAUSI'I HOPOATE

Fight Never Came Off In Pago

The South Seas light-heavyweight championship fight between title-holder Ma'ulupe Ta'ufo'ou of Tonga, and Fiji's Jioji Ramasima in Pago Pago never came off, it has been learnt,

Chief Moore, who is looking after Ramasima in Pago Pago, told the Fiji Times this by telephone, last Wednesday.

Chief Moore said Ta'ufo'ou had been delayed in Hawaii and the fight had been postponed for two weeks.

As a warm-up, Ramasima will appear in a 10-round contest this weekend against another Tongan light-heavyweight, Speedy Havili, who is unbeaten in four fights in American and Western Samoa.

Ramasima is still unbeaten after five contests in the Samoas.

Official Opening Of Hospital

His Majesty King Taufa'ahau Tupou IV will open the new Vaiola Hospital at Tofoa, on Friday, June 4, at 10 a.m.

The King will unveil a commemorative plaque on the lawn in front of the main entrance to the hospital and then make a tour of the hospital departments.

The building work on the hospital will be substantially finished by June 4 and most new furniture and equipment will be in position. However, the whole hospital will not be ready for use by the public until later in the year.

The Hospital Ball will be held on the night of June 4 at the International Dateline Hotel.

The occasion is formal, there will be two string bands, bright lights and a special supper. "The ball promises to be the social event of the year in Nuku'alofa," members of the organising committee told the Chronicle.

The Tonga Chronicle

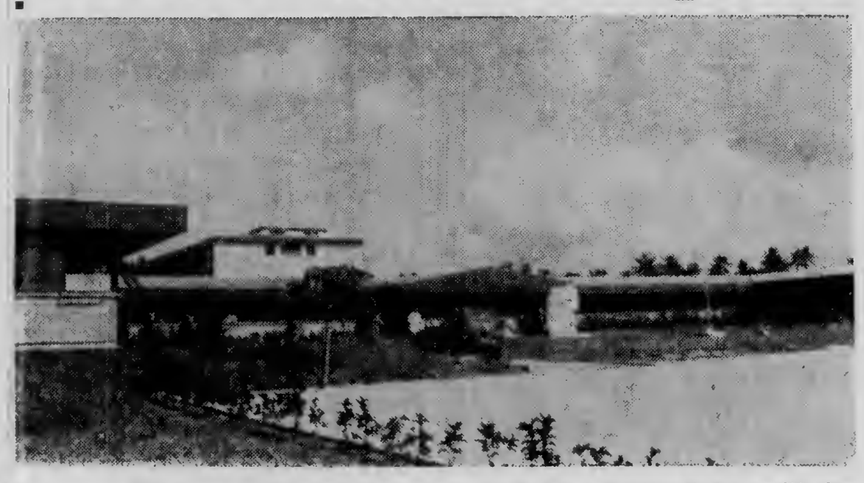
Where Time Begins

Nuku'alofa, Thursday, June 3, 1971 — Vol.VII. No. 52 3 Seniti

CELEBRATIONS TOMORROW

Independence Day

New Vaiola Hospital — Tailulu College



The new Vaiola Hospital at Tofoa, Nuku'alofa, will be opened tomorrow, Independence Day, at 10 a.m. by His Majesty King Taufa'āhau Tupou IV.

This is only the official opening; patients will not move into the new hospital until later in the year and all medical treatment will continue to be given at the old hospital until a complete move can be made.

The Medical Department emphasises that there is no medical staff at the new Vaiola Hospital and no treatment is being given there.

The opening ceremony tomorrow morning will begin with a dedication service conducted by the Royal Chaplain, the Rev. Dr Sione 'Amanaki Havea. The Maopa Choir will lead the singing of a hymn.

Following a speech by the Minister of Health, the Hon. Dr S. Tapa, His Majesty will speak and unveil a commemorative plaque set into a large rock in front of the entrance to the hospital. His Majesty and party will then move to the hospital entrance for the presentation of scissors by the manager of the Tonga Construction Company, Masiva 'Ofa. His Majesty will cut the tape and declare the new Vaiola Hospital open.

A tour of the hospital by His Majesty and party will follow. The remaining guests will also be conducted on a tour of the hospital, in groups, by the hospital staff.

Refreshments will be served to the official party in the nurses' common room and the remaining guests will be served in the nurses dining room.

Before His Majesty leaves at 11.30 a.m. a traditional Tongan presentation will be made.

TAILULU COLLEGE OPENING

From the new Vaiola Hospital, His Majesty goes to open the new Tailulu College, almost across the road.

The new T$80,000 school, run by the Free Church of Tonga, has 12 classrooms, a library and a hall. The school will accommodate 800 pupils.

The official opening ceremony is due to take place at noon followed by a feast at 1 p.m.

From 2 p.m. onwards there will be dancing and singing.

THE PICTURE above shows pupils at Tailulu practising lakalakas for tomorrow's celebrations.

Price Of N.Z. Butter To Rise To 47 Seniti A Pound

An increase of seven seniti a pound for butter in Tonga is expected by the end of the month.

Riechelmann Brothers', Morris Hedstrom and Burns Philp have been officially told of the increase by the New Zealand Dairy Board Other big stores says they have yet to be notified.

In view of the increase, a spokesman from Riechelmann Brothers' said they would be looking into the possibility of importing Fiji butter although the price had always been dearer than the present price of New Zealand butter (40 seniti).

Immediately they learnt of the increase, Morris Hedstrom sent an order for Fiji butter which is expected to arrive on the "Taveuni" on June 14.

There is a current shortage of butter in Nuku'alofa and it appears that butter will continue to be absent from many a table when the new price becomes effective.

One Nuku'alofa housewife said her family will have no option but to use coconut oil and table margarine, which costs 26 seniti a pound, as major butter substitutes.

Ready For Trouble

Strict measures will be taken to ensure that troublemakers are not admitted into the Dateline Hotel, says the manager, Mr Karl Brosig, following an incident on Saturday night.

A fight broke out at about 10 o'clock and the police were called in. The troublemakers were thrown out, but they came in again and the fight started afresh when the police left. Glasses were thrown and tables were overturned.

The manager said he had no other choice but to close down the hotel at 10.30 p.m., after the first floor show.

He said some of the hotel patrons arrived at the hotel drunk.

Opening of Parliament

The 71st session of Tonga's Legislative Assembly will be officially opened by His Majesty King Taufa'ahau Tupou IV next Tuesday morning at 10.30.

A by-election for a vacant seat in the House will be conducted next month. Full details on the back page.

TAPED 8 PAGES

"DEAR SIR..."

LETTERS TO THE EDITOR.

Pen Names

Dear Sir.—I wish to refer to a letter writtenn by Tevita Tupou Mafi on pen names.

The editor of the Chronicle has authorised the use of pen names such as Fūiku, Mongomonga Tu'aniu, Toketā Taliefu, 'Akalusi and so on. All these names are chosen to fit the subject of a particular piece of writing.

I think that these names are all right as long as they are not vulgar.

BARE TRUTH.

Fertilisers

Dear Sir.—Once again I notice that "Stick Insect" has been active. As pointed out in my reply to his original letter, there is insufficient space in your columns to provide an adequate answer and he was invited to contact my office to obtain a full reply, but he has not done so. The invitation still stands.

There is one point, however, that I will answer as briefly as possible now.

The optimum uptake of the main nutrient by the two major export crops is known, irrespective of the actual soil fertility, so that if this quantity can be replaced, we know that the total soil fertility is not being reduced. This does not mean that the best possible fertiliser application is being made to all soils, but at least we know that by applying the recommended dose of fertiliser we shall not be diminishing the sole fertility, insofar as the maior nutrient supplies are concerned.

J. H. N. PITMAN,
Director of Agriculture.

Sunday Law

Dear Sir.—There has been in the Chronicle this year several stories about the Sunday Laws. These have prompted me to think over the pros & cons of the matter. I decided that the principle of the laws was sound, but that the wide disrespect for these laws and the inconsistency with which they are enforced do not justify their remaining as law.

Surely, on such a personal matter as religion, a person should be able to make up his own mind as to which path to salvation he or she will pursue.

To illustrate the disrespect for the Sunday Laws I refer to a recent incident.

On Sunday night, while in the vicinity of the Police Training Barracks, I saw a policeman hanging his washing on the line. This tends to suggest that he had also washed them on the Sabbath.

I cannot blame the policeman for such action as on several occasions I have wished to do the same thing myself. But I consider this incident and others unmentioned, to be a reminder to Parliament that the Sunday Laws are being rejected by the people.

Parliament meets next week and the Sunday Law is probably due to come up for discussion. I would like to voice my support for the repeal of the Sunday Laws.

HAWK EYE.

Nurses Barred?

Dear Sir.—I would like to ask the Minister of Police the following questings :

1. Are the nurses who went on strike barred from travelling overseas ?
2. If this is so, what shall they do in order to acquit themselves of the punishment imposed.
3. Is the punishment temporary? Maybe there is a law, much to my ignorance, which denies persons engage in strike action, the liberty of going abroad. I have talked to a number of lawyers and expatriates about this and they assured me that such is not justified legally.

A few weeks ago, an officer from the Immigration Office, Mr I. Lavaki said in a talk over ZCO, "To take part, to be instrumental or to initiate a strike could lose one's chances of travelling abroad." Although Mr Lavaki was not being specific, one, however understood the full implications of the statement.

If the nurses then are barred from going overseas on the grounds that they have done something hideous, let me point out that there are others who have committed crimes far worse than this and yet still retain the liberty to travel.

CORRUGATED IRON.

Dental Treatment

Dear Sir.—I have heard mothers saying that the following may spoil the generous nature of the work our Dental Department is doing:

1. The dental officers always scold the patients.
2. They treat the patients recklessly.
3. If the Dental Department does not improve in this, I'm sure mothers will no longer go to the itinerant officers.

I know of one woman who, after receiving a dental operation, could not eat any food for three days. Another woman was told to come back the following day for another dental check-up, but she never did. She said that the first ordeal was enough.

If the Dental Department improved on its present method of treating the patient there would be no need for any advertisement to summon the public to the itinerant dental officers.

J. O. FISHER.

Dateline Hotel

Dear Sir.—I have heard of the broken glasses incident in the International Dateline Hotel last Saturday and the fact that management had to close the hotel at 1030 p.m. due to their inability to control their customers.

I was staying at the hotel and I was amazed at the decline in standards with regard to the entry of the public. Prostitutes invading the place with no effort to disguise their intent, drunken, half-dressed, members of visiting ships becoming exhibitionists on the dance floor, police standing around enjoying the exhibition and, it would appear, no effort is being made by management to control these activities.

I have been visiting Tonga ever since the hotel opened and it used to be a great pleasure to invite friends for a meal and evening's entertainment. I regret to say this is my last stay in the hotel. I would not embarrass my friends by inviting them to such sordid conditions. It was also a pleasure to recommend the hotel to my business associates over the Pacific area - I can no longer do this.

I have been given to understand the hotel is now making money. I wonder if the management realises that in the past, although not a large book profit was shown, monied people were enticed to visit Tonga assured of excellent accommodation and in return spent a considerable amount both inside and outside the hotel to the benefit of the economy.

As a visitor, I feel very sad to have to write this letter but my memories prompt me to do so when I see such deterioration of a hotel which was known throughout the Pacific as the best in the region for its service, friendliness sophistication and comfortable atmosphere.

VISITOR.

New Hospital

Dear Sir.—Now that the hospital is to be shifted to Havelu, I'm rather concerned that the Out Patient's Department is going be shifted with it.

I believe it would be most unwise to shift the Dispensary because people would then have to go to the new hospital by taxi. Also it is important to have an urgent dispensary here in town to accommodate the thousands of people who are living in as well as commuting to Nuku'alofa. The various sporting associations would appreciate it very much that there be nearby first-aid assistance, at the present Dispensary, for injured players.

If it's not possible to leave it at its present site then a room at Tungi Arcade would be more appropriate.

Another good reason is the unavailability of taxis on Sundays. If the people living in Nuku-'alofa need medical care on a Sunday then they would only have to go to the arcade.

WILLING HELPER.

* * *

Dear Sir.—

VAIOLA HOSPITAL
4 JUNE, 1971.

In David's town on Christmas morn.
In stable bare, a babe was born.
No normal child, but Christ the King
Come to this world God's love to bring.
His love for man He clearly showed –
A love so willingly bestowed
To rich and poor; to young and old;
Like Shepherd caring for his fold.
He healed the sick and banished pain;
Gave back the blind their sight again;
Compassion, He always showed,
As healing waters from Him flowed.
In this small island realm today,
Our King on earth will with us pray
That God above, Heavenly King,
Will let His healing waters spring
From this new site, this new creation,
A new Vaiola for the nation.

BARNEY BARNARD.

VE'EHALA WAS AN HONOURED VISITOR IN UNITED KINGDOM

The Hon. Ve'ehala returned to Tonga on Saturday.

Before he left Britain he had lunch at the House of Commons with Members of Parliament Captain Elliott, who visited Tonga in 1969, and Mr Joseph Harper. They talked about Tonga's copra, shipping and banana industries and watched a typical debate in process.

Over the past two weeks the the Hon. Ve'ehala has been in the English provinces getting a general view of social life and local government.

He visited the new town at Crawley - a complete town built since the last war to accommodate London's overspill population and was shown round by Social Relations Officer G. Goepel, who spent more than 20 20 years in Government service in Fiji. They talked together in Fijian.

At the south-coast resort of Brighton he was interviewed by the local B.B.C. radio station about his tour of Britain — and gave farewell greetings in Tongan. He went on to inspect a nuclear power station at Dungeness, where he saw the Tongan flag flying, in his honour, alongside the Union Jack. At Canterbury, centre of the Anglican faith, he met the Dean and Archdeacon and saw the font where Ethelbert, first converted King of England, was baptised.

He saw round Cambridge University, and in Cambridge visited the Leys School, the younger brother of whose founder, Dr. J. E. Moulton, founded Tupou College, Tonga's first secondary school where the Hon. Ve'ehala was himself educated. Headmaster Alan Barker visited Tonga in 1969.

While touring the east of England, Hon. Ve'ehala went to Ely Cathedral and had tea at the Bishop's palace.

In Norfolk he was in the typical country town of Kings Lynn and the Perkins Diesel Factory at Peterborough. He was shown over the Royal Estate at Sandringham, inspecting the gardens under the guidance of the head gardener, and saw the church the Queen attends when in residence there.

Other highlights of his varied tour of Britain have included Windsor Castle, where the Queen resides at weekends; Eton College, a famous public school; and the B.B.C's Television Centre in London, where he watched the news going out.

The Hon. Ve'ehala attended a cricket match at Lords, where the Pakistani touring team was playing the M.C.C. He was received by M.C.C. President Sir Cyril Hawker, the Secretary S.C. Griffith and several M.C.C. selectors.

The Hon. Ve'ehala inspects handicraft from Tonga given to Captain Cook and later saw gifts presented to other navigators in the Pacific, when he visited the British Museum in London during his recent tour of Britain. With him is the Deputy Keeper of the British Museum, Mr B. Cranstone.

Smallpox Results Eagerly Awaited

More than 600 blood specimens from Tonga are now on their way to the Centre of Disease Control, Atlanta, Georgia, for analysis. The result will determine whether Tonga is still protected from smallpox after a seven-year vaccination.

Two American physicians, Drs Goldstein and Friedmann, who have been conducting a smallpox programme in the Kingdom said. the result, if it turns out as they hope, will be of world wide importance.

At present countries receiving smallpox vaccination are vaccinated every three years. "But a new finding will mark a formal break from tradition," said Dr Goldstein.

Both doctors were impressed with the co-operation they received from the people of Tonga, and said this would be virtually difficult to find anywhere else in the world.

"The members from the local branch of WHO were a great asset. Without them the programme would not have been a success," said Dr Friedmann.

The two physicians returned to the United States on Saturday after working in Tonga for a month, during which time 160 children were revaccinated since the 1964 campaign, and were also asked to give several blood samples.

During their stay in the Kingdom, the doctors vaccinated 300 prospective travellers free of charge as a token of appreciation for the co-operation received from the people of Tonga.

Youth Club's Big Night

St Paul's Youth Club hold their annual ball tonight at St Andrews Hall.

Dress is formal and the subscription is T$1 for a double ticket. Tickets may be bought from Siō Motu'apuaka, St Andrews School.

Food will be provided.

Hospital Ball Should be Memorable

A Hospital Ball, to mark the opening of the new Vaiola Hospital, will be held at the Dateline Hotel tomorrow night from 8 o'clock to 1 a.m.

The secretary of the organising committee, Major D. McGregor, said a most entertaining programme has been arranged and novelty prizes will be donated by the chairman, Princess Melenaite.

The occasion is formal, there will be two string bands, a floorshow and supper will be served, buffet style, around the pool.

The Police Band will be there to welcome the arrival of the Prime Minister.

The secretary added that a few tickets were still availble and those interested are ask to contact him, or telephone 190.

CROWN FILTER

•

KING OF ALL THE FILTERS

MADE IN FIJI BY CARRERAS MFD.

Law Prohibits Taking Historic Objects From The Kingdom

A request from Mr T. J. Neerings of Liahona High School to ship this old cannon to the United States was not approved by His Majesty's Cabinet because the cannon comes within the scope of the Act which provides for the Preservation of Objects of Archaeological Interest (Act No. 15 1969).

Mr Neerings told the Chronicle that when he saw the cannon lying in the mud at Kolovai, he thought it would be a valuable piece of decoration at his homestead in a remote canyon in Utah, where the Mormon pioneers used to camp more than a 100 years ago.

Mr Neerings negogiated with the local people to buy the cannon. A village council was convened and approved that the cannon be sold to Mr Neerings. However, before the purchase was made, he inquired into the legality of taking the cannon out of the country. His inquiry always met with favouable answers, from people of every rank including a grower, a nobleman and a police officer. All said there was no law to prohibit taking the cannon out of the country.

Mr Neerings told the Chronicle that what he did was done in good faith and not until the cannon was taken to the wharf to be loaded to the ship did he find it was against the law to take artifacts out of the country. He was prevented by Customs from doing so.

All this "fuss" as Mr Neerings described it, was the result of an Act passed by the Legislative in 1969 in which "objects of archaeological interest" are clearly defined. In section Six of the Act, the Legislature has specifically pointed out that "No object of archaeological interest may be removed from the Kingdom unless such removal has been authorised by the Committee with the approval of Cabinet . . ."

Committee is defined in the Act as the Committee on Tongan Traditions appointed by His Majesty in Council.

The public is therefore reminded of this legislation in order that a similar case may not cause such misunderstanding in future.

School News

St. Andrews

The establishment of the new library of St. Andrew's School has pleased the students of the school. They will be able to borrow books to read and in it they will find all kinds of magazines and pictures, so they will be able to get information on many subjects.

The library is not yet open to the students because the librarians are still working in it, putting the books in order on the shelves and cataloqueing them. It is hoped it will be opened in a week's time.

There wil be room for 9000 books but at the present the school possesses about 1500 books of various kinds. There is seating room for about 70 pupils.

When the library is open it is hoped the students will use it properly and satisfy their need to read all kinds of books — MOKA HĒLAMI.

Liahona

The pupils of Liahona High School welcomed four important visitors from Salt Lake City on May 20. They were Dr Beasley, Dr Oakes, Dr Mason and Bro. Anderson. They are the administrators of Mormon education all over the world.

The school had a general assembly at 10 a.m. that day, attended by Superintendent Orson White, the general director for Church schools. Also present were Dr Cornell Thomas, Principal of Liahona High School, and Harman Wolfgram, the assistant principal. The tutors of the school were all there, some of the workers and all the pupils. The attendance totaled about 1000.

The meeting was conducted by 'Iki Talaiasi Tuli, the president of the school's theology department.

The meeting started with the hoisting of the Tongan flag as a respect to prominent men. As the flag was being hoisted the band played the National Anthem.

The president of theology then made the welcoming speech. Hymns were sung and a prayer was said by Talo Folau Maluʻinga at the end of which Dr Cornell introduced the visitors who each gave a speech when introduced. The band then played two favourite tunes.

The meeting ended with a hymn and a prayer.

Tongans "A Sensation"

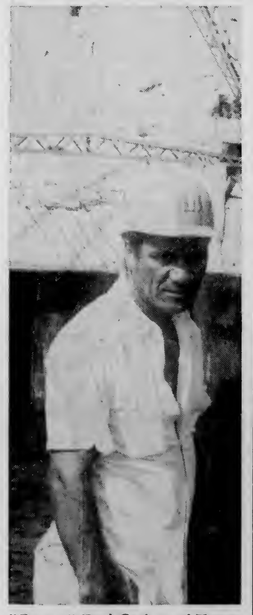
A Tongan musical group, "Sione 'Aleki and Islanders", were a sensation at a performance they gave at the Otintai Hotel, Bikenibeu, on Saturday, May 15, reports the Gilbert & Ellice Islands Colony Information Notes.

The group was on its way to Nauru at the invitation of the Republic to perform at its Constitution Day celebrations but, owing to unfavourable weather reports at Nauru, the Fiji Airways plane was unable to leave and spent the night at Tarawa.

The Tongans, comprising of three men and two girls, provided music at a dance attended by about 100 people. They were described as natural entertainers with no false airs or pretences. They played a number of Tongan songs, instrumental numbers and some modern rock-n-roll music.

Tongans Helping New Hebrides

Surveyor Frank Baker, one of the skilled Tongan workers helping to build the new Vila Wharf.



"Ganger" Fred Cocker, of Tonga.

Tongans are helping to build the new wharf at Vila, New Hebrides, which is expected to be completed about April next year.

They were brought in following difficulties in recruiting skilled labour in the New Hebrides and include tradesmen such as surveyors and welders. Some have brought valuable experience from the Nuku'alofa wharf.

Such a worker is "Ganger" Fred Cocker. The Resident Engineer, Mr Ralph Hannan, said: "He's one of the best workmen I've ever worked with. His experience on the Nuku'alofa wharf has proved invaluable, and he has amazing energy. He works flat out all the time."

Construction on the wharf is about a third finished, with 40 per cent of the piles driven.

Eighty-thousand cubic yards of earth have so far been shifted at the site, just over half of what will be excavated by the time the project is completed. Compared with the original estimate, twice the amount of earth moving will have to be carried out.

Much of the earth is being used to reclaim land along Vila waterfront, and this will be used for off-street parking and gardens.

When finished, the wharf will be capable of holding two medium-sized cargo ships, or one vessel of up to 30,000 tons.

Beulah College Given Internal Phone System

Beulah College is the first school in Tonga to have an internal telephone system.

It is a gift from the General Telephone Co., Hemet, California, U.S.A. as a result of negotiations made by Mr Ray Rusthoi, a recent visitor to the College.

Mr Rusthoi made inquiries from the General Telephone Co., about purchasing a secondhand telephone system to be given to Beulah College. The Company was willing to give it free to the school to help Tonga and its people.

The gift has also aroused interest in the Kingdom and two articles and photographs on Tonga have been published in the Hemet newspapers.

The telephone system, which consists of eight telephones operated by an operator at the switchboard in the school office, is in the final stage of installation. It is hoped the system will be operating soon.

VAINI BEATS MA'UFANGA TO WIN FIRST ROUND OF SENIOR 'B'

By ROBBIE

The match between Vaini and Ma'ufanga did not produce the type of game expected but the score of 9 – 5 indicates the evenness of both sides.

I thought that Ma'ufanga could have made better use of the feast of ball won from the scrums by hooker Molou, hurriedly brought back from Vava'u for the big game, and the brisk service given by Tupou from half back.

Tupou again played his usual steady game and was responsible for all five points in scoring a try and putting the conversion over. His one blemish of the day was the penalty he missed from right in front.

Vaini breakaway Afeaki and first-five Mākoni had good games, with Afeaki making some good breaks.

Viliami Hōsea, ex-rep front-row forward making comeback did some useful work in the scrum and surprised me by kicking a reasonably good penalty.

Sosaia Makolo at centre and Vaka'uta Liki on the wing showed plenty of dash that earned them both good tries.

An even hard game played in good spirit with Vaini deserving the win on the day.

Score: Vaini 9 (tries by Makolo and Liki and a penalty by Hōsea) Ma'ufanga 5 (try and conversion by Tupou).

TAVATU'UTOLU CONTINUE ON WINNING WAY – FASI DOWNED 10 – 6.

Play ranged from one end of the field to the other in quick succession very early in the game and Tevita Leger missed putting Fasi into an early lead when he missed an easy penalty after a scrum infringement.

The yellow pack were quick to show they meant business when Fakavā was held up in the corner, but seconds later Tava Helu picked up from broken play and dived over for a good loose forward try. Lasike made no mistake with the kick.

Handling on both sides was letting them down and some good movments were spoiled by dropped passes. One break by Leger should have ended over the line, but his pass could not be held.

Tavatu'utolu were a little eager in lifting the feet in the scrum and for a second time we saw them penalised in a kickable position. This time Siketi made no mistake with the kick to make the score 5 – 3 with half-time on the board.

Time and time again movements broke down because the man waiting to receive the pass was running in front of his man and the ball was forward. An occasional penalty for deliberately playing the ball from an offside position may stop some of this.

Early in the second half there was a misunderstanding among the Fasi backs which Talilotu, playing an outstanding game at centre for Tavatu'utolu, took full advantage of and sped through showing tremendous pace, for a good try. Lasike was again on target and placed the ball between the posts . . . 10 – 3.

Hala who had been moved in to the position, with 'Alani outside him at centre, made some good breaks. Once he was pushed out just short of the line, but the yellow defence was holding well.

Another penalty to Fasi, and Siketi, who had taken over the kicking at this stage, raised the flags to make the score 10 – 6.

Fasi then began to play some bustling rugby and pressed hard, but poor handling again let them down.

Talilotu showed time and time again how dangerous he was in scooping up the loose ball and using his speed.

Lasike at fullback for Tavatu'utolu had a good game and was always a danger with his kicking.

Leger (right) and Saluni of Fasi blocked by Moala Vaha'akolo, the Tavatu'utolu winger.

Sporting Scene

Talilotu, an up and coming centre and Fakavā had another good game in the forwards.

For Fasi, T. Leger led well, with Hala and 'Alani trying everything in the backline, but they appeared to find their new positions strange.

Hala took a nasty knock near the end of the game and had to leave the field looking slightly concussed.

A good, interesting game finishing with honours to Tavatu'utolu 10 – 6. For Tavatu'utolu (tries by Tava Helu and Talilotu, 2 conversions to Lasike) and Fasi (2 penalties to Siketi).

POLICE HAVE EASY RUN WITH HA'ATEIHO 28 – 0.

Two very wet and muddy patches on No. 2 field made good back play difficult but the Police looked as though they could have scored a lot more tries if they had really pulled all the stops out. They won't be able to take the picnic-game attitude this week.

Selupe II, was in fine form and his leg looked right.

Tevita Havili was a surprise in the Ha'ateiho pack and he showed that age is no real disadvantage combined with fitness. His play was always hard and heady.

His nephew, playing his first game for the Police on the wing, scored three tries, Siope, Selupe, Vainikolo and Tu'ihalamaka one each and 'Ilavalu kicked a penalty and two conversions for the 28 points.

A good training run for Police.

COMMENT: Police at the head of the competition have only had six points scored against them, both penalty kicks, while Kolofo'ou have had 18.

It is interesting to note from the table that the indications are that the team with the least points against is usually the winner. Could this be a guide to this week's result? If so it is the only one because on playing form at the moment I would still not like to pick the winner.

Coaches at training must insist that players keep behind the ball when practising passing movements. There are too many forward passes caused from this habit.

Saturday's results are:

JUNIOR: Tavatu'utolu 0, Fasi 0, Kolomotu'a 11, Hihifo 0; Kolofo'ou 3, Vaheloto 0; Nukunuku 8, Mu'a 0.

SENIOR: Police B 20, Houma 3; Hahake 8, Kauvai 5; Vaini 9, Ma'ufanga 5; Kolomotu'a 3, Hihifo 3; Kolofo'ou 44, Vaheloto 0; Mu'a 8, Nukunuku 5; Tavatu'utolu 10, Fasi 6; Police A 28, Ha'ateiho 0.

POINTS TABLE

SENIOR A

	P	W	L	D	F	A	P
Police	7	7	–	–	101	6	14

YOUTH CLUB RUGBY

Full of enthusiasm, the teams in the Kolomotu'a Youth Clubs rugby competition displayed some good rugby on the third week of the competition.

Four teams are competing and two other teams are expected to join in this Saturday.

A committee comprising Malolo Fuka, Tevisi Pelesikoti, and Penisimani Tapueluelu has been formed.

It is hoped a trophy will be donated for the competition.

The draw for this Saturday is: 'Ametisi v Simana, Tufuenga Jr v 'Ametisi Jr., Hala-o-Vave v Maileua.

The games will start at 8 a.m. at the Free Wesleyan Primary School Grounds.

The following is the draw for Saturday's play:

JUNIOR GRADE

No. 1	8.00am	Kolomotu'a v Fasi
2	"	Houma v Ma'ufanga
1	9.00am	Mu'a v Ha'ateiho
2	"	Hahake v Vaini
1	10.00am	Lōtolu v Kauvai
2	"	Tavatu'utolu v Nukunuku
1	11.00am	Hahake v Niuvākai
2	"	Hihifo v Vaheloto

SENIOR GRADE

No. 1	12 noon	Polisi B v Vaini
2	"	Tavatu'utolu v Nukunuku
1	1.20pm	Lōtolu v Kauvai
2	"	Hihifo v Vaheloto
1	2.40pm	Kolomotu'a v Fasi
2	"	Mu'a v Ha'ateiho
1	4.00pm	Kolofo'ou v Polisi
2	"	Houma v Ma'ufanga

T.V. LIGHTWEIGHT TITLE WON BY MANNY SANTOS

Tongan born and former British Empire lightweight champion, Manny Santos of Auckland beat Victorian Hilary Connolly in the final of a television sponsored lightweight final contest at Festival Hall Melbourne on May 10.

Santos fought a methodical, sharp-punching tussle against the bustling Victorian, who scrambled many of his punches.

Connolly was marked noticeably on the face after three rounds but Santos came out of the bout unmarked.

Connolly (9.8½) tried to grind down the veteran Santos (9.8) with persistent aggression but he paid the the penalty of a poor defence.

From the eighth round Santos was in control and was content to weave away from Connolly's leads to straighten up sharply and then pick off the Victorian with punches in the face.

Connolly, realising success was slipping away from him, fought desperately in the final two rounds but just did not land enough blows to take the points.

Ten days later Manny's young brother Joey in Wellington stopped the Australian aboriginal Terry Tears in the fourth round of their 10-round lightweight contest.

Tears, who lead on points after three rounds, was twice knocked to the canvas in the fourth round and the referee Alan Scaife stopped the fight.

...But the game 23-year-old Australian labourer was cheered from the ring after scaring the slow-starting Santos.

After an even first round, in which Santos had Tears wobbling at one stage after a meaty right hand had homed on Tear's nose, Tears came back to win both the next two rounds.

...In the fourth round Santos almost flattend Tears early on, then caught him with a good right hand to knock him to the floor.

Tears stood up, Santos bored in with both arms swinging, but Tears, all heart, teetered to the ropes and stayed up till Santos ripped a couple into the body and then finished him off with a right cross to the forehead.

Before the referee could make any decision Tears' handlers had entered the ring to assist the Australian.

Speedy Havili Lost By TKO To Fijian

Fiji's Joiji Ramasima outboxed and stopped Tonga's light-heavyweight Speedy Havili in the third of their scheduled 10-round contest at Pago Pago last week.

The Fijian put Havili down in the first round with a beautiful one-two and again in the second with a powerful right to the face.

Havili went down again in the third and got up at the count of eight but was unsteady on his feet and the referee stopped the contest.

School Rugby Opens Today

The 1971 inter-collegiate rugby competition will open at Teufaiva today at 12.30 p.m.

The competition is also held on various school fields where the intermediate, junior and midget grades will be played.

Only the open and senior grades matches are played at Teufaiva and Tonga High School rugby ground.

Draws for today's play are:

OPEN GRADE

No. 1	12.30 p.m.	Tupou College v Liahona High School
2	12.30 p.m.	'Atenisi College v Tonga College
2	1.45 p.m.	St. Andrew's v Tupou High School
	12.30 p.m.	Teachers Training v Tonga High School at Tonga High School.

SENIOR GRADE

No. 1	1.45 p.m.	Tonga College v St. Andrew's School
1	3.00 p.m.	Tupou College v St John High School
2	3.00 p.m.	Liahona High School v 'Atenisi College

Creditable Performances By Amateur Boxers

Highly creditable and promising performances were a feature of the semi-finals of the Tongatapu amateur boxing championships last Friday at Hauhau-'o Taufa'ahau Theatre.

Among them were young Bruce Sovaleni, of Kolofo'ou, who did most of the attacking to gain decision over veteran Latahe'ea Tonga'uiha of Houma. And Maile Peti who scored an easy win over Tongotongo of Hofoa when referee A. Johansson stopped the fight early in the second round.

In the light-welterweight division, Tonga's representative at the Port Moresby games, Solomone Namoa of Fo'ui, narrowly outpointed the young, stylish boxer Hikifo'ou Nai of Fua'amotu.

Luke Veikoso clearly outclassed and outboxed Haini Muller in the heavyweight division. Veikoso twice knocked Muller to the canvas before the fight was stopped.

Results of the Tongatapu semi-finals:

Middleweight: Siale Mākoni, Fua'amotu defeated Tevita Hafoka, Houma on points; Bruce Sovaleni, Kolofo'ou defeated Latahe'ea Tonga'uiha, Houma on split-decision; Maile Peti, Fua'amotu defeated Semisi Tongotongo, Hofoa by TKO in the second round.

Light-welterweight: Solomone Namoa, Fo'ui defeated Hikifo'ou Nai, Fua'amotu on split-decision.

Light-heavyweight: Fine Solomone, Fo'ui defeated Uaisēlē Lātū, Tokomololo on points.

Heavyweight: Luke Veikoso defeated Haini Muller, Fo'ui by TKO in the third round.

New Soccer Competition

The soccer competition for the "West Star" cup got underway at Tonga College last Saturday, but the Chronicle had not received any results when this page went to press.

The following is draw for next Saturday's play:

No. 1	1.00pm	Kolofo'ou A	v Ngele'ia B
2	"	'Eua	v Kolomotu'a
1	2.00pm	Veitongo B	v Sopu
2	"	Ha'akame	v Royal Guards B
1	3.00pm	Hala Tu'i	v Veitongo A
2	"	Ha'ateiho	v Royal Guards A
1	4.00pm	Ngele'ia A	v Langileka
2	"	Navutoka	v Ma'ufanga

INFORMATION

UNIVERSITY OF THE SOUTH PACIFIC
SENIOR LECTURER/LECTURER/ ASSISTANT LECTURER IN ECONOMICS

Applications are invited for two posts in Economics and candidates with interest in any field of Economics. Preference will be given to those with interests in some aspect of Applied Micro-Economics.

Salary according to experience and qualifications in the following ranges:

Assistant Lecturer	$F3,000 – $F4,000
Lecturer	$F4,300 – $F6,100
Senior Lecturer	$F6,300 – $F7,500

10% gratuity for contract appointment, superannuation contributions, partly furnished housing at rental of 15% of salary, appointment and termination allowances.

Formal applications should contain full name; date of place of birth; nationality; marital status; educational qualifications; employment history and experience; names and addresses of three referees; general statement of physical fitness; date appointment could be taken up. A passport-size photograph should be sent.

Further particulars including Outline Terms of Service are available from the Registrar (71/16), University of the South Pacific, G.P.O. Box 1168, Suva, Fiji, to whom completed applications should be returned by August 1, 1971.

VACANCIES
TELEGRAPHS AND TELEPHONES DEPARTMENT

Applications are invited for two vacant posts of Telegraphist Trainees.

Qualifications: The minimum qualification for the post is the Higher Leaving Certificate with a pass in English and Mathematics. Preference will be given to applicants with higher qualifications, and those who have studied radio and electronics. A good knowledge of both written and spoken English is essential.

Duties: The successful applicants will be trained in telegraphy and associated work at Nuku'alofa. Applicants must be prepared to accept posting to any of the Department's stations through out the Kingdom on completion of their training. The training period will be approximately two years.

Applications: Applications should be addressed to the Superintendent, Telegraphs and Telephones Department, Nuku'alofa. Originals of testimonials and educational certificates must not be forwarded with applications; copies only should be submitted. Applications will be accepted up to Friday, June 18, 1971.

Salary: The commencing salary for the positions is $300 per annum.

FOR SALE

A Landrover, still in good condition. Contact Mrs Leata Tautua'ā or Phone No. 233B.

Washing machine - Whiteway automatic time heater. Still in good conditions - T$140. Contact 'Uliti Uata's shop at Salote Road, Nuku'alofa.

NUKU'ALOFA YACHT & MOTOR BOAT CLUB

Members are reminded that an Aloha Dance will be held this evening, Thursday, June 3, commencing at 8pm. Male members are asked to bring a plate of supper.

Hon. Secretary.

RHINOCEROS BEETLE FOUND IN HA'APAI GROUP

Rhinoceros beetle has been found in the Ha'apai group on Mango Island and it has been declared infested.

Seven grubs brought to the Nomuka Police Station prompted a search by beetle inspector 'Amalani from Nuku'alofa in April. With the help of the men of the island 45 more grubs were found.

In May, Inspector 'Amalani and Inspector T. Tākai of the Department of Agriculture went to Mango Island, organised the male population and destroyed every possible breeding site on the island for the rhinoceros beetle. breeding site on the island for the rhinoceros beetle. Only one more grub was discovered.

Following this search, searches were also carried out on Mango Iki, Fonoi, Nomuka and Nomukeiki islands with negative results.

The Department of Agriculture says the arrival of the beetle on a small island in the Ha'apai group must have happened because a small boat travelled to an infested island, either Tongatapu or Va'vau, and left without having the vessel searched by an inspector.

Such "irresponsible" behaviour, the department says, could rapidly introduce the rhinoceros beetle to non-infested islands where control may not be so quickly or efficiently carried out.

Boat owners are requested not to travel to and from islands without submitting their boats to searches on departure and arrival.

District and Town Officers are also requested to watch for this and immediately report to the department any infringment of the Rhinoceros Beetle Regulations.

Copra and Coconut price drops again

The price of copra and coconuts will be reduced again for June, the Tonga Copra Board advises.

The new price for copra is:
1st grade T$92.75 a ton
2nd grade T$80.75 a ton

These prices, which are T$7.85 a ton less than for May, will be paid throughout the Kingdom.

The price to be paid in Tongatapu for coconuts this month will be reduced to 1.2 seniti a nut.

The board says the decline in the world copra market has continued during May. This is mainly attributable to an increase in copra shipments from the Philippines. A large quantity available for purchase with only a limited demand always has the effect of decreasing the price which buyers will pay. At April 16, a CIF price of US$204 a ton was being obtained, but by May 14, this had dropped to US$192.50 a ton.

The latest notification from the board's London agents says that the market continues to be weak.

BY-ELECTION NEXT MONTH FOR SEAT IN PARLIAMENT

Writs have been issued for a by-election next month for the vacant seat in the Legislative Assembly for the electoral district of Tongatapu, including 'Eua and the Niuas.

The seat was held by Vili 'Ahio Vaipulu who resigned early this year. The election will be for the balance of this term. A general election is scheduled for next year.

Voting will take place on July 23 in Tongatapu and 'Eua and between July 14 and 23 on Niuatoputapu and Niuafo'ou.

Nominations for candidates for the election will be received at the Prime Minister's Office, Nuku'alofa, on June 25, between 10 a.m. and 3 p.m.

Slowness Blamed For Bananas Not Being Loaded

Slow handling and slowness in transporting from the Produce Board's wharf stacking area to the ship's side for loading was the reason 542 cases of bananas could not be loaded on the "Tarawera", on Saturday night, May 22, says the Acting Resident Agent of the Union Steam Ship Company, Mr S. L. Faupula.

He was commenting on a statement in last week's Chronicle by the manager of the Tonga Produce Board, Mr A. Johannson, that the bananas had to be left behind because the Sunday Law prevented them being loaded before midnight.

Mr Faupula said that at 5 p.m. three hatches, capable of handling 500 cases an hour, were readied for loading bananas. On normal fruit loading figures for the "Tarawera", 6500 cases would have been loaded by 10 o'clock in three hatches if the bananas had been at the ship's side.

"It is not correct to say that the dock-workers managed to load only 3424 cases and the rest were left behind because it was getting near Sunday. The bananas could have been loaded if they had been there," said Mr Faupula.

NOT WANTED

The surplus bananas were offered to Pago Pago last week, but were declined because they already had enough, said Mr Johansson.

Since last Thursday the 542 cases have been on sale to the public in Nukualofa at 40 seniti a case or one seniti a pound.

About 100 cases have been sold, returning about T$52. On the New Zealand market, for which they were destined, they would have been worth about T$1600.

The remaining cases are still on sale at the Tonga Produce Board in Nuku'alofa.

TWO DEAD 11 INJURED IN BUS COLLISION

Two people were killed and 11 injured about noon yesterday when two buses collided at Hoi, according to the police at Nuku'alofa.

Those killed were:

Siaosi Pōhahau of Niutōua, the driver of one of the buses, and a six-month baby boy, Siaki Tatola, son of Mr and Mrs Paea Tatola of Mu'a.

The other bus driver, Peni Toa of Kolonga, was still unconscious in Vaiola Hospital at the time of going to press.

The other 10 injured people were also at the hospital awaiting treatment at the time of going to press.

The buses involved belonged to Sione Tualau of Kolonga and Maile Finau of Kolomotu'a.

The two drivers were thrown out of their buses in the collision.

Two police landrovers, a truck and a bus brought the injured to hospital.

The driver of this bus was killed in yesterday's two-bus smash.

NOW WE ARE SEVEN

This week the Chronicle celebrates its seventh birthday.

Life Sentence For Murder

A sentence of life imprisonment was imposed on Sione Tupola Angahā Langoia (20) of Tufuvai, 'Eua, after a three-day trial by jury before Mr Justice Roberts.

Langoia was found guilty of the murder of Suli Vaoahi of Ha'apai, residing at Pangai, 'Eua, last October. At a Kava party the accused stabbed the deceased in the back, as a result of which Vaoahi died, in spite of hospital treatment.

Inspector Sione Falepapālangi prosecuted for the Crown and Sitiveni Fine and T. Palavilala Tapueluelu appeared for the accused.

Legislative Assembly By-Election 1971

WRIT OF ELECTION

Representative of the People for the Electoral District of Tongatapu (including 'Eua and the Niuas)

By the Hon. Ma'afu, Speaker of the Legislative Assembly.

MA'AFU,
Speaker of the Legislative Assembly

To: The Returning Officer for the Electoral District of Tongatapu, including 'Eua and the Niuas.

WHEREAS Vili 'Ahio Vaipulu a member of the Representatives of the People for the Electoral District of Tongatapu (including 'Eua and the Niuas) has resigned his seat from the Legislative Assembly;

AND WHEREAS by virtue of the Legislative Assembly Act, it has become necessary to hold a by-election for a member to hold office for the balance of the term of the said Vili 'Ahio Vaipulu

NOW THEREFORE in exercise of the powers vested in me by section 6 of the Legislative Assembly Act I command you that you do cause an election to be made according to law of a member to sit and vote in the Legislative Assembly as a Representative of the People for the Electoral District of Tongatapu, including 'Eua and the Niuas, and that on or before 30th July 1971 you make a return to me of the name of such a member when so elected.

Given under my hand and seal this 3rd day of June 1971.

MA'AFU,
Speaker of the Legislative Assembly

NOMINATION OF CANDIDATES

(Electoral District of Tongatapu, including 'Eua and the Niuas)

Notice is hereby given that pursuant to the Writ of Election issued by the Speaker of the Legislative Assembly on the 3rd day of June, 1971 I will attend at the Prime Minister's Office, Nuku'alofa, on Friday, the 25th day of June 1971, between the hours of 10 o'clock in the forenoon until 3 o'clock in the afternoon to receive nominations for a candidate for election as a Representative of the People for the Electoral District of Tongatapu, 'Eua, Niuatoputapu and Niuafo'ou.

Done at Nuku'alofa, this 3rd day of June 1971.

SIOSAIA P. VAEA,
Chief Returning Officer.

LEGISLATIVE ASSEMBLY BY-ELECTION 1971

To: The Returning Officer for the Electoral District of Tongatapu, including 'Eua and the Niuas.

WHEREAS, pursuant to section 6 of the Legislative Assembly Act, the Hon. Ma'afu, Speaker of the Legislative Assembly, on the 3rd day of June 1971 issued a Writ for the election of a member to sit and vote in the Legislative Assembly as a Representative of the People for the Electoral District of Tongatapu, including 'Eua and the Niuas

NOW THEREFORE, in exercise of the powers vested in me by section 6 of the Legislative Assembly Act, I HEREBY direct that the places and times at which you or your assistants shall receive the votes of the persons entitled to vote at such a by-election shall be as follows:—

At the Fono Meeting Places at Kolonga, Talafo'ou, Lapaha, Tatakamotonga, Fua'amotu, Vaini, Pea, Pangai, Kolofo'ou, Kolomotu'a, Ma'ufanga, Nukunuku, Houma, Te'ekiu, Kolovai, Kanokupolu, 'Ohonua and Futu in the Island of 'Eua, between in the hours of 9 a.m. and 4 p.m. on Friday, the 23rd July, 1971.

At the Fono Meeting Places at Hihifo and Tafahi, Niuatoputapu, and Sapa'ata and Tongamama'o, in the Island of Niuafo'ou, between the hours of 9 a.m. and 4 p.m. on the arrival of the Chief Returning Officer expected between the 14th and 23rd of July 1971.

Done at Nuku'alofa, this 3rd day of June 1971.

TU'IPELEHAKE,
Prime Minister.

YEAR OF PROGRESS PAST, PROMISING DAYS AHEAD

His Majesty King Taufa'āhau Tupou IV reading the Speech from the Throne at the opening of the 71st session of the Legislative Assembly last Tuesday morning. In the foreground of the picture are the Assistant High Commissioner for New Zealand, Mr Mike Mansfield, the Acting British High Commissioner, Mr Humphrey Arthington-Davey, His Royal Highness Crown Prince Tupouto'a and the President of the Free Wesleyan Church of Tonga, Dr Sione 'Amanaki Havea.

His Majesty Opens Legislative Assembly

Tonga could look forward to the year with hopes of prosperity and a future that looks promising, said His Majesty King Taufa'ahau Tupou IV in the Speech from the Throne at the opening of the 71st session of the Legislative Assembly on Tuesday morning.

His Majesty recalled that the past year had been an eventful one and noted as important signs of progress the services of the fast inter-island vessel "'Olovaha", the new fishing vessel "Ekiaki" and the opening of the new Vaiola Hospital.

The Kingdom was about to experience the most important part of the oil survey currently being carried out, he said. Between this session and the next, Tonga would see the drilling of an exploration well.

Should the oil research prove productive, it would mean Tonga would have capital to use on development projects.

SHIPPING.

His Majesty said it was hoped to enlarge the Kingdom's shipping to provide opportunities not only for Tonga but for its neighbours in the Pacific.

Recommendations were being made to form the Tonga Shipping Agency into a commercial company with the hope of running a regional shipping line using the present ships and chartering other vessels. The Kingdom should be ready to enter the regional shipping project with larger vessels, the King said.

Tonga had also received offers from large overseas shipping lines for the Kingdom to register and and run large ships for them. These would be manned entirely by Tongans.

This year's Estimates show an allocation for the construction of a new slipway. With the increasing size of the fleet it would save Tonga a lot of money to repair and maintain its ships on its own slipway, instead of sending them overseas, as was done at present.

The Estimates also show an expense for a patrol boat which would be used to guard the Kingdom's sea boundaries from the many foreign fishing boats that enter without permission.

This boat would be manned by the Tonga Defence Force, but if a larger vessel was necessary sea-going officers would have to be trained to man it.

A major task ahead was to improve the airport at Fua'amotu and construct an airport on Va-va'u. The King said he was grateful for the aid given by the governments of Great Britain and Australia on the airports.

Referring to new hotels being built in Vava'u and 'Eua and

(Continued on back page)

"DEAR SIR..."

Left Bananas

Dear Sir.—There appears to be a difference of opinion between the Acting Resident Agent of the Union Company, Mr S. Lulu Faupula, and the writer in regard to the reason why 543 cases of bananas were not uplifted by "Tarawera" on Saturday night, May 22.

The point which I had made was that given another half-hour, the 543 cases would have been loaded, but because of our Sunday Law, loading had been stopped at 11.30 that evening so as to enable the Union Company labourers on board the "Tarawera" to finish-off their work in time to enable the ship to leave the wharf before midnight and anchor in the stream.

Mr Faupula overlooked the fact that the "Tarawera's" expected time of arrival in Nuku'alofa had been delayed by nine hours (instead of arriving here at 7 a.m. on Saturday 22, it did not berth until after 4 p.m. the same day). We were advised by the Union Company at 10.15 a.m. on Friday 21 that "Tarawera" was delayed and was not expected to arrive until 3 p.m. on Saturday 22.

This delay resulted in our work programme being altered, which only adds to our overhead. In order to keep our bananas as fresh as possible prior to loading and also to conform to an agreement made with the New Zealand buyers of our bananas, Fruit Distributors Ltd., the time space between cutting and loading of the bananas must be kept to the bare minimum and certainly no longer than 24 hours from the time of cutting to the time of loading. It was for this reason that our cutting and packing had been delayed from Friday 21 to Saturday 22 because of the delay of the "Tarawera".

Three hatches were not ready to load bananas at 5 p.m. on Saturday 22, as stated by Mr Faupula. The actual times of commencement at each hatch for this occasion were :

No. 2, Lower Hold, commenced work at 5.30 p.m., No. 5, Lower Hold, commenced work at 5.45 p.m., No. 4, Lower Hold, commenced work at 7.10 p.m.

It will be seen that the Union Company expected to have all cargoes discharged and bananas loaded within the space of six hours.

There is no doubt that the directors of the Union Company would be pleased that "Tarawera" was able to make-up some of her lost time in Nuku'alofa, but it is doubtful that the rate of discharging and loading of the "Tarawera" in Nuku'alofa on this occasion would be emulated in Auckland.

A. JOHANSSON,
Manager, Tonga Produce Board.

Letters to the Editor.

Church and State

Dear Sir.—I was rather amused by Felix Anthony's letter in which he said the churches interfere too much on Government's policies and are advertising false beliefs.

In Tonga, Church and State are looked at as dual olives that are dependent on and indispensible to each other.

The founder of the Kingdom of Tonga, King Tupou I gave back Tonga to the Almighty for His safekeeping because he believed that Church and State must go hand in hand.

This relationship can be compared to a husband and wife. For instance, when the State (law) imposes a penalty on a member of the community and this penalty is too harsh, the Church will intervene to protect this member in a similar way as a mother would try to protect her child. But if the father (State) is determined that the penalty be carried out, and although the mother (Church) disagrees vehemently, the penalty would nevertheless be carried out since the father is the head of the family.

Tonga has not witnessed assassination of leaders and the rejecting of coloured people which other countries are practising, simply because in Tonga, Church and State both support Christianity.

I believe that if the relationship between the Church and the State is nearer, then the dangers which I have mentioned above could be reduced. If the leaders of the State draw themselves nearer to Christianity the State and the people will benefit from it.

PATRIOT.

Merger

Dear Sir.—I do not support the plan that the Tonga Construction Company be merged with the Ministry of Works. There are many reasons for this but uppermost is the aims it was intended to achieve when the company was founded by His Majesty when he was Premier. I believe that instead of merging we should persist in order to achieve these aims.

The company lent money to prepare for the Pan Pacific Women's Conference. It also made money available for private loans and allows credit to the top echelon of our Government.

The Company employs hundreds of people and if the merger plan suceeds where will these people find work?

WILLING HELPER.

School News

Queen Salote

A Parent/Teacher Association will be started at Queen Sālote College on Saturday. The meeting is due to begin at 9 a.m., with Her Majesty Queen Halaevalu Mata'aho in the chair. The school is grateful to Her Majesty for the interest she has shown in helping to form this new association.

Mothers of students and interested friends are welcome to attend the meeting.

The association aims to assist the school by providing finance for equipment and other projects. Plans are already in hand for a new classroom block to be built at the College later this year, and the Parent/Teacher Association will be busy working for equipment for this new block.

Additional information regarding the Parent/Teacher Association may be obtained from the Acting Head Tutor Miss Siniva Helu. Miss Helu is filling the position of Head Tutor during the absence of Mrs Manu Faupula who is in Australia on Study leave.

END OF LIFE OF SERVICE TO THE KINGDOM

Well-known personality Kaliopasi Fe'iloakitau Kaho, better known as Sione Fe'iloakitau Kaho, died at his home at Kolofo'ou last Thursday.

Sione Fe'iloakitau Kaho was born on May 17, 1882, at Tongaleleka, Ha'apai, the youngest son of Manase Kaho-mo-Vailahi and 'Ana Seini Talau-mo-Te'emoa.

After school at Tonga College, he was appointed a tutor of the college. In 1913 he became acting clerk in the Education Department. In May 1920 he was acting principal of Tonga College as well as Acting Director of Education. In 1921 he was appointed senior tutor of the college.

After serving in Tonga College for 24 years, Fe'iloakitau was appointed a police magistrate in 1933. In 1937 he was Acting Governor of Vava'u.

At an early age his father gave Sione Fe'iloakitau to Sūnia Foliaki, the eldest son of the Hon. Malupō, and his wife Sela to be adopted as their son with the intention that he would one day become Malupō, the noble of 'Uiha. As things did not turn out as his father expected, Fe'iloakitau was brought back to enter Tonga College by his eldest brother, Tevita Poutele Kaho, prominent in the Government of those days and who later became Premier.

At one time three of Fe'iloakitau's brothers were all in Parliament. His eldest brother Tevita Poutele Kaho was then Minister of Police, Siua Kaho was Judge of the Supreme Court a post which in those days entitled him to sit in Parliament, and Manase Kaho the people's representative for Ha'apai.

Fe'iloakitau was devoted to his work for 45 years until he retired from the Civil Service in 1954.

A Great Day For Tonga

By the Editor.

Last Friday was a great day for Tonga. The first anniversary of independence could not have a better day for the official opening of the new Vaiola Hospital at Tofoa.

The completion of a project worth just over T$1 million must surely be something for a nation the size of Tonga to celebrate.

The opening ceremony was one of those occasions which Tonga does so well.

Following speeches by His Majesty and the Minister of Health, Dr. S. Tapa, the King cut the red and white ribbon accross the entrance of the main building and formality fell away. There were cheers from the excited nurses and hospital staff. Besides the patients, these are the people who are going to benefit most from the improved conditions of the new hospital.

After His Majesty had inspected the hospital, the hundreds of guests were given a chance to look it over, guided by members of the staff.

While this was going on Tongan tradition took over and His Majesty, seated in a shelter on the area between the main building of the hospital and the nurses' home, received gifts of a fat pig, kava roots, tapa and mats. This was another opportunity for the hospital staff to show their happiness at the occasion.

The question everyone was asking during refreshments was, "When will the hospital really be open? When will patients be accepted?"

This is not known, but it is hoped it will be before the end of this year, I was assured.

Even in the time available on Friday to look around, it was obvious there is still finishing-off work to be done, but it was much more complete than many had expected.

Although it has not yet got the gleam, or the clean smell of a brand new hospital, it is near enough to this to be able to appreciate that the new Vaiola must be one of the finest hospitals in the Pacific, outside of Australia and New Zealand.

His Majesty speaking at the opening of the new Vaiola Hospital before he unveiled the plaque on the limestone rock in front of the entrance.

Their Majesties being shown around the hospital by the Minister of Health, Dr. Tapa.

A LUXURY PRIZE IS PROMISED FOR MISS TONGA 1971

Women's Page

The holding this year of a Miss Tonga contest has been approved by H.R.H. Prince Fatafehi Tu'ipelehake, President of the Tonga Amateur Sports Association.

The contest has a two-fold objective, the selection of the Kingdom's beauty queen and the raising of funds to send a team to the South Pacific Games in Tahiti in September.

The size of Tonga's contingent will depend almost entirely on the support given to the Miss Tonga contest.

At a meeting held last week, attended by Mr. Carl Riechelmann (chairman), Barney Barnard (secretary) and members Mrs. Bateman, Hon. Hahano. Messrs. Geoff Suttle, Karl Brosig, and Jack Barnard, the rules governing the contest were agreed.

The contest is open to any single Tongan national girl between the age of 16 and 25 living in the Kingdom.

An entrance fee of $100 must be paid for each contestant.

All entries must be notified to Mr. Jack Barnard, P.O. Box 450, Nuku'alofa by Friday, July 16, using the form which appears in 'The Chronicle', and accompanied by the entrance fee. Late entries will NOT be accepted.

The committee reserves the right to reject any proposed contestant who does not qualify under the rules governing the contest or where it considers that her acceptance would not be in the best interests of the Kingdom.

It is hoped that many firms, boards, clubs, organisations and villages will enter contestants.

There is no limit to the number or contestants any particular group can enter, provided the entrance fee of $100 is paid for each.

Organisations should start conducting now functions to select their contestants.

MOST ATTRACTIVE

Judging will concentrate on selecting the most attractive girl to be Miss Tonga, 1971. Contestants will not be subject to an interview, hence there is no necessity for them to be able to speak English.

All contestants will be required to be in Nuku'alofa by August 14. Judging will be spread over three days, Monday 16, Wednesday 18 and Friday, August 20. On each of these days, contestants will parade in different costumes — Monday, in old time traditional Tongan dress, Wednesday, in presently accepted Tongan day dress with ta'ovala, Friday, in long evening dress.

Contestants or their sponsors will be responsible for providing their own costumes, also for transport charges to, and accommodation in Nuku'alofa.

Miss Tonga, 1971, will be crowned at a ball to be held at the International Dateline Hotel on Friday, August 20, the total number of points awarded to each contestant in the three parades will decide the winner.

OVERSEAS HOLIDAY

The winner will receive a holiday overseas for herself and chaperon with free air transport, board and accommodation and spending money. There will also be special prizes for girls placed second and third in the contest as well as mementos for all contestants.

Progress reports on the contest will be given in the Chronicle and over ZCO.

The committee emphasises that the size of the contingent to represent Tonga at the South Pacific Games depends upon support of this contest.

Former P.C. Volunteer Married

Mr. & Mrs. Edward Heckman jr. after their wedding in Pennsylvania, United States.

The bride formerly Miss Caroline De Berti is the only daughter of Mr. & Mrs. J. De Berti of York, Pennsylvania, and was among the first intake of Peace Corps Volunteers to the Kingdom. In Tonga, she was affectionately known as Miss Kalo Luani, and was working as a nurse aid in the western district of Vava'u.

Her husband is an officer in the U.S. Navy.

The couple spent their honeymoon in California.

KOLOFO'OU DOWNS POLICE TO TAKE LEAD AS TEAMS VIE FOR SHIELD

By ROBBIE

I advised you to come and see it If you were not there you missed the best game since the New Zealand touring team played the Rest after the '69 tour. Congratulations to both teams for a good game played in the best possible spirit.

A few weeks ago I commented about the Police, "How lucky can you be". After Saturday I feel like commenting "How unlucky can you be". Why?

If Kei had been fit to play he certainly would have scored in the wide open spaces after Tu'uaki made a good break. But the ankle which has kept him out of most play this season would not allow him to be where even he knew he should have been, and if Malakai had looked for the line instead of trying to pick up a greasy ball he must have scored instead of knocking on "in goal".

However, this is the way the game goes.

I don't know how the Police select their teams, but I cannot understand why they persist in putting Kei on the field when it is obvious his ankle should have been immobilised many weeks ago.

What a pity to see such a player used in this way, even his representative colleague at centre would not pass him the ball because he could see there could be no advantage.

Only last week I watched a most promising young winger playing his first game score three tries for Police. Perhaps he was injured too, but if fit he could have retained the winning run for the Red and Black.

What defence from the Whites! Mētui hardly waiting to see if his hooker won the scrum before heading for his own goalline to support his fullback, who on the day hardly needed any assistance. A very good game also by Peni; and Valita whipping the feet from under 'Ilavalu and Malakai to stop the flow along the Police back line.

It was the White defender rather than their attack which won the honours. Kuluni, having an enjoyable day, made good breaks from lineouts and loose play, proving he is a much better player now that he has mellowed. Kimbu must be the worry of all referees, to know whether or not he is off side from the lineouts. But he makes the best of every opportunity and is mighty hard to bring down once he sets off for the line.

Alele on the side of the scrum for Police played another grand game. Pāhulu, probably the best lineout forward of the day, was always hard at it, well supported by Tu'ihalamaka when he came on as replacement. 'Inoke, the diminutive hooker, had a real feast of ball from the scrums. Nothing much between the backs, perhaps the speed of Mōsese was the deciding point.

Kolofo'ou Winger, Mosese Vea outpaced Siope to zoom over the the first try of the season against Police.

THE PLAY

From the first whistle both sides showed they were going to throw the ball around. First, Kolofo'ou made a good run but lost the ball at a vital stage. Police then came back and a good-looking kick-through by Sami looked to be falling just short of the Kolofo'ou fullback, which would have been really dangerous, but Peni, with a tremendous burst of speed was there to take it and make a good break, saving the situation.

Shortly after Kuluni made a break from a scrum, but was stopped short of the line, but a quick heel to Mētui sent Mōsese away on the blind side to score the first try of the season against Police.

Valita kicked the goal to put Kolofo'ou in the lead by 5 – 0.

The Police kept up a steady attack and several movements were held up by strong defence and good kicks by Peni and Sione Sā.

Kuluni and Pāhulu at this stage were having a great duel for possession from lineouts with Pāhulu perhaps getting slightly more clean ball back.

It was here the Police made a good break and had a wide open corner clear of defenders, but no winger was in position to accept what looked as though it would have been the easiest sideline.

Kei was obviously distressed and soon after limped to the sideline.

Siope was the next to have a dive at the corner after a break by 'Ilavalu, but went out just short.

Police then had a few anxious moments when Malakai tried to beat too many men on defence and was caught. Mōsese kicked through but Sēlupe was back to make a good save.

Kuluni broke from the back of the scrum and sent the White backs away but a knock-on short of the line spoilt the movement.

Kolofo'ou were looking dangerous at this stage and Kimbu was almost over.

Half-time was called with the score at 5 – 0 and the large crowd

IMPROVED SOCCER IN NEW COMPETITION

By CHRIS

Some good soccer was seen on the grounds of Tonga College last Saturday in the competition for the West Star Cup, in the presence of His Majesy and a most enthusiastic crowd of spectators.

The play started at 1 p.m. between Kolofo'ou A team and Ngele'ia B and was marked by some even exchanges which clearly indicated that the supremacy once enjoyed by Kolofo'ou is being seriously threatened by some of the new teams which have concentrated on soccer.

The final result was a hard-won 2 - 0 victory for Kolofo'ou.

The next game was between Veitongo B and Sopu who were both well turned out and gave a fast exhibition of clean football.

There was a little too much bunching by both teams and some more attention needs to be paid to positional play.

The result was a draw with one goal each, a fair reflection of the game.

Soccer history was made by the appearance of the Tonga College XI, who were very smart in appearance and reflected great credit on their school.

They played Ha'akame, and although the school team lost 2 - 0 there is no doubt that with more practice Tonga College will develop into a good team.

The champion team from last season, Veitongo A met Hala Tu'i and after being well held for the first 15 minutes showed the form that took them to the top before. They won comfortably 3 - 0. This was a very fast game and Hala Tu'i were in no way disgraced.

Ngele'ia A and Langi Leka produced some good play with Ngele'ia A just getting the edge with a win of 1 - 0.

Navutoka and Ma'ufanga, both looking extermely smart in their uniforms, played a one goal draw.

This was the best of the afternoon, with both teams showing good positional play and excellent defences. A draw was fitting result and both teams are to congratulated for a fine exhibition.

The Veitongo and Ma'ufanga girls teams played a friendly game resulting in a 2 each draw.

At the conclusion of the afternoon His Majesty expressed his appreciation of the efforts of the teams and spoke of the great improvement that was evident.

Police Beaten In Good Game

(Continued from Page 9)

showed their appreciation of a very good first half.

From the restart of play the Police immediately attacked and only good defence by Mētui kept them out. They kept pressure on the olofo'ou line until againg Kuluni made a typical break to drive them back over half way.

Police were getting plenty of ball from the lineouts and scrums, but the deadly tackling by Valita, the Police first-five, kept disorganising the back line and they could not settle down.

Kolofo'ou came back with an interception by Sione Sā, but he did not have the pace to really break clear. Then in perhaps the best forward movement of the day we saw Kinbu break clear and run hard down the line. When checked he passed in field to Kuluni the ball came back to Kimbu who continued to the line until forced out by Siope. Great play this.

Play continued to move from one end of the field to the other. Sāteki the Police half made a good break and from the kick ahead the ball just beat him and Alele into touch in goal.

The the excitement when, from a good back movement by Police, White winger Mōsese intercepted on his own 25 and raced away like the wind, closely followed by a gallant Siope, who in trying to gauge his dive, overbalanced and Mōsese was in the clear to score a grand solo try. The conversion attempt with a wet ball failed.

Kolofo'ou 8 Police nil.

Police came back with renewed vigour, determined to decrease the lead and perhaps even get the two converted tries now necessary to win the match.

Three Police backs went on a good break and when one stooped to pick up the wet ball knocked it on. The referee, who was right on the spot, immediately awarded a dropout 25 which could mean only that the ball was already over the goal-line when knocked on. A simple drop on it could have been the first of the much needed tries. Bad luck indeed.

Soon after we saw a very good kick through which bounced over Mōsese's head. It was gathered quickly by Malakai who passed to 'Ilavlu straight on to Siope who scored under the posts. 'Ilavalu made no mistake with the kick and the score was 8 -- 5

The Police attacked relentlessly, but Kolofo'ou were determined that no red-and-black player would again cross the line during the game and they were successful in keeping them out.

The final whistle went and both team srecceived a great ovation from the crowd for the best display of rugby this season.

The Police were beaten but far from disgraced.

Result. Kolofo'ou 8 (7 tries to Mōsese conversion by Valita), Police 5 (Try by Siope conversion by 'Ilavalu).

Boxing Finals Next Friday

The Tongatapu amateur boxing championship final will be held at Hauhau-'o-Taufa'ahau Theatre on Friday, June 18.

Tomorrow will see the end of the middleweight division semi-final as Siale Mākoni of Fua'amotu meets Mā Lelei of Vaini.

The programme also includes several exhibition bouts.

Trophies For Youth Competition

The committee of the Kolomotu'a Wesleyan youth clubs rugby competition held its first fully representative meeting on Monday night. Two representatives from each member club attended.

Chaired by Mr Tevisi Prescott, the meeting decided on issues such as subscriptions, trophies for the winning teams and referees.

Nine clubs will compete for two cups, starting this Saturday. The seniors will compete for the Tapueluelu Cup, donated by Mr Tevita Tapueluelu of Kolomotu'a, and the juniors for a cup, bought with donations from member clubs.

Entries have closed and the clubs competing are : Tufuenga, 'Ametisi, Maileua, Hala-o-Vave, Simana, Pētele, Satisi, Vaolōloa and Pētani.

The draw for this Saturday for seniors and juniors is: Tufuenga v. Vaolōloa; Maileua v Sātisi; Hala-o-Vavé v Simana; 'Ametisi v Pētele; Pētani (bye).

The games will start at 8 a.m. at the Free Wesleyan primary school grounds.

INFORMATION

WOMEN'S MEETING

The local branch of PPSEAWA will hold its general meeting at 3 p.m., tomorrow at Langafonua House. A number of Tongan legends will be enacted for the benefit of everyone. There will also be a bring and buy and prices of goods are not to exceed 50s. A reminder to the public of the picture evening to be held at the Hauhau cinema on June 17.

POLICE NOTICE

Pursuant to section 8 of the Traffic Regulations, 193, persons planning to import or construct vehicles exceeding seven feet in width or twenty feet six inches in length, are cautioned to abide by this section which declares that no person shall without the consent of Cabinet operate any motor vehicle or trailer exceeding the above measurements.

2. It is regretted that vehicular owners frequently import buses and trucks exceeding the prescribed measurements, expecting Cabinet to grant automatically, permission to register their vehicles. Indeed, due to the rapidly deteriorating roads of Tongatapu, Cabinet has made it known that no consideration will be given to persons who import or construct such vehicles without prior approval to operate.

3. Therefore any person acting contrary to this section is liable to possess a vehicle which is prohibited from being operational. Appreciating the very great difficulties encountered in raising such capital, this department specially requests prospective owners to exercise care.

'AKAU'OLA.
Minister of Police

CULTURE COURSE

The university division at 'Atenisi has established a Tongan Culture Department. Courses on **Tongan Traditions, Tongan Dances, and Poetry of Tonga** will be available to interested members of the public. Tongan Culture can be a majoring subject.

Lectures will start on Monday, June 14, at 8 p.m. Tongan Astronomy, Tongan Medicine and Tongan Agriculture will be added to the course later.

Registration for Tongan Culture 1, also for Philosophy 1, Pure Mathematics 1 and Applied Mathematics 1 will close on Monday, June 14.

VACANCIES

PRINTING TRAINEE

Applications are invited for the vacant position of Printing Trainee at the Government Printing Office, Nuku'alofa in the salary scale $300 x 30 – 360. 'OLOVAHA : Thursday to Vava'u and Ha'apai.

Tongan Delegation Among Most Active At Baha'i Conference

A Tongan delegation of 55 took part in the South Pacific Conference of the Baha'i Faith in Suva and was reported to be one of the most active delegations.

The conference was attended by Baha'i representatives from 27 countries, territories and island groups. Included were Australia and New Zealand, all major islands of the South Pacific, the Hawaiian, Caroline and Mariana Islands of the North Pacific, Japan, England, Switzerland Canada, the United States, Bermuda and Iran.

English was the official language of the conference; translations were made simultaneously and relayed by earphone to the seated delegations, in five languages: Fijian, Tongan, French, Gilbertese and Samoan.

A highlight of the conference was a telephone hook-up and exchange of greetings with members attending a twin conference in Kingston, Jamaica.

The South Pacific Baha'i conference was one of a series of conferences being held during this year in many parts of the world.

After the conference in Suva, a distinguished Baha'i teacher, Dr. Rahmat Mohajer, came to Tonga to assist the members of the faith in this area.

Dr. Mohajer is one of a special group of 18 eminent and dedicated Baha'is of the world who have been designated "Hands of the Cause of God". He was beginning a six-month teaching tour of the Pacific.

The visitor addressed a public meeting at Fa'onelua Gardens in Nuku'alofa. Speaking on "The Promised Day Has Come", Dr. Mohajer portrayed this era as the age of fulfillment of the prophecies of all the great religious founders of the past and referred to Baha'u'llah, the founder of the Baha'i faith, as the "promised one of all religions".

The speaker described religion as one great school with God at the head. Different messengers or manifestations of God appear in turn at different periods of history to guide and teach the people.

Each of these messengers, Dr. Mohajer said, has reaffirmed the spiritual teachings of the one before and given added teachings corresponding to the needs of mankind in each successive age.

Tongan delegates to the Baha'i Oceanic conference in Suva, Latu Tu'akihekolo and H. Vaohingano, hold a tapa banner made by a member of their party, 18-year-old Mosese Taufeulungaki. The 7½ft by 6½ft banner took Mosese a day to make. It depicts temples of the faith in different parts of the world and also the symbol of the Baha'is.

HAUHAU-'O-TAUFA'AHAU

SATURDAY TO WEDNESDAY ONLY

CO-FEATURE : "LAST MAN ON EARTH"
MATINEE AT 5.30 P.M. TODAY

Tailulu College Opened

His Majesty accompanied by Queen Mata'aho, speaking before he opened the new Tailulu College building on Friday.

The ceremony began with a prayer of dedication by the president of the Free Church of Tonga, the Rev. Lēlēa Fonua. The singing was led by the school choir, conducted by Mr 'Alipate Tupouniua.

The key to open the building was presented to His Majesty by the architect, Mr Sunia Filikitonga.

After the building was declared open, His Majesty was shown to the royal dais where he received traditional gifts of kava and pig. This part of the ceremony was led entirely by the students.

During the feast, the Minister of Finance, the Hon Mahe Tupouniua spoke on behalf of the church.

More than 2000 pigs were killed for the feast.

Guests were afterwards entertained by traditional dancing.

THE CAMERA CLUB of Tonga

The next meeting will be held on Monday June 14, at 8 p.m. at the Simmon's residence.

Programme: A little of the theory and a practical demonstration of film developing.

Members are asked to bring slides for selection for the return bout with the Nelson P. S.

July Competition: 10 slides on the Coconut Industry.

N.Z. YACHT TOLD TO GET OUT OF NUKU'ALOFA

The police told a New Zealand yacht, the "Rosina", to leave Nuku'alofa last Monday following complaints about the behaviour of crew members.

The "Rosina" came from Tauranga in New Zealand and was presumed to have set sail for the same port. The owner and captain was Mr Peter Luxmore and he had a crew of five men.

The Harbourmaster, Captain Chris Hill-Willis said complaints followed an evening of "drunken noisemaking" in Faua Harbour which disturbed the whole area and a bathing party on Saturday off Pangaimotu where a number of Tongan girls where present and members of the crew bathed naked.

Captain Hill-Willis said: "While more than normal excuses are made to allow visiting yachts to enjoy their visit to Tonga, it is becoming evident that some of them do not know how to behave and it may be necessary to place restrictions on the visits of those who have shown ungentlemanly conduct.

"Nobody objects to people having a party and making noise, provided the common decencies are observed; but when the law of Tonga is completely ignored and hooliganism takes over, it is time to call a halt.

"Most yachts visiting the Kingdom are welcome and show the flag of their country and club in a manner befitting such visits, but their image becomes tarnished by the few who fail to realise that, as visitors, they are expect- to uphold certain traditions and modes of behaviour," Captain Hill-Willis said.

SPEECH FROM THE THRONE

(Continued from front page)

others in Tongatapu, His Majesty said it was important to pay attention to the need for suitable accommodation for tourists, however, he was concerned at the disorderly behaviour of local people in the International Dateline Hotel.

He said parents should see their children did not behave badly in these places, otherwise tourists would take away a bad impression of Tonga.

The number of Tongans employed in countries like New Zealand, New Hebrides, New Caledonia and the United States was increasing, His Majesty said. This was a tremendous substitute for finance from primary exports. The money these people send back to the country was helping supplement a declining income from copra and bananas.

EMPLOYMENT

The Government would continue to find ways of employing more people overseas.

His Majesty also said there was a plan to establish factories to manufacture clothing and other commodities in Tonga.

It was pleasing, he said to note the number of Tongan students being educated overseas. He recommended that these students should not concentrate too much on academic subjects but also take up technical training which would be useful for a developing nation like Tonga. By technical training, His Majesty said he meant engineering, industrial chemistry and agriculture.

Members of the Legislative Assembly used for the first time chairs given by the Republic of Nauru to mark the independence of Tonga last year.

Badly Dressed May Be Left Out In Rain

Some people had to stay outside the Dateline Hotel in the rain on Saturday night because they were not properly dressed.

The manager of the hotel, Mr Karl Brosig, announced last Saturday morning on ZCO that no person would be admitted to the hotel on a Saturday after 6 pm if he or she was not correctly dressed. For men its tie and jacket and for women it is expected to be something suitable for the occasion, Mr Brosig said.

What clothing is considered correct or suitable is entirely at Mr Brosig's discretion.

The new dress rule is an effort to improve the behaviour of some of the patrons of the hotel on Saturday nights, following the glass-throwing incident of the previous week.

Police supervision at the hotel was also strengthened last week – constables, CID officers and trainees from the Police Training school were on duty.

But is was one of the quietest nights at the hotel for a long time.

Mr Brosig hopes to be able to relax the clothing rule should the situation improve. He said he appreciates it would be almost unbearable to have to wear suit and tie in the hot weather, but he cannot be more lenient unless the irresponsible elements who sometimes come to the hotel are prepared to change.

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, September 2, 1971 Vol. VIII No. 13 3 Seniti

25TH IS M (MOVING) DAY FOR HOSPITAL

The Health Departmentwill be moving its services from the old to the new Vaiola Hospital at Tofoa on Saturday, September 25.

Some sections, such as offices, M.C.H. Nursing and Medical Records may move on the Friday, September 24, but the main hospital departments including wards and patients will be transferred on the Saturday, commencing immediately after breakfast. It is hoped that the whole move will be completed by the end of that day.

All outpatient hospital and emergency services will be operating at the new hospital from 8.30 a.m. on Saturday.

The moveover of patients, equipment, furniture and stores will be a very complicated process and all the hospital and Health Department staff wil be extremely busy making the transfer as quickly as possible with the least inconvenience to the sick.

The public are asked to assist as much as possible by keeping away from both hospitals over this whole weekend unless, of course, they have to attend because of some emergency.

Patient's relatives and attendants are also asked to stay away from the hospital unless there is an urgent reason to be with the patient.

On Saturday morning, relatives of patients should collect and take away with them all personal belongings not required at the new hospital. Ward staff can explain what will be needed in the new wards.

Details of the arrangements for the new services at Tofoa will be published in full in next week's Chronicle.

The Dental section of the Health Department moved into the new Vaiola Hospital on Monday and since then business has been brisk. The picture shows patients receiving attention in the bright new large surgery. There are two other smaller surgeries and a special one for children.

Spread Your Butter A Bit More Thinly

Tongans have again been struck by rising prices in New Zealand. Butter has gone up and Tongans can expect to pay at least 5 seniti more, making a pound of butter about 50 seniti.

This is the second time in two months that butter has increased in price.

Some stores in Nuku'alofa have received advice from New Zealand that the price would rise with this week's shipment on the "Tofua". Other stores said they had not received advice and would be selling at the old price until they did.

Riechelmann Bros said their new price would have to be 50 seniti, 5 seniti more than the old price . . . an 11% increase.

E. M. Jones Ltd. and Lipoi Tupou said they would have to increase the price of butter but had not been able to fix a new price yet.

Morris Hedstrom, O. G. Sanft and Burns Philp said they had not been advised of an increase and would still be selling butter at 45 seniti a lb.

Maximum prices are fixed by Government and price mark-up of butter is 5% over landed costs for wholesalers and 7½% over wholesale price for retailers, within the Nuku'alofa area. In country areas the retail mark-up can be increased by 1¼%.

A variation from the advertised price of cigarettes has been the cause of comment to the Chronicle. One popular brand advertised at 11 seniti for a packet of 10 seems to be selling widely at 12 seniti, mainly in the smaller stores. The larger stores were selling according to the advertised price.

Next week's Chronicle will contain the full list of authorised price mark-ups for the benefit of the many readers who are apparently concerned about the prices some stores are charging for their goods.

Boy (16) Jailed For Manslaughter

A 16-year-old L.D.S. mission schoolboy, 'Aisake Mafi Kioa of Tokomololo, charged with the murder of a schoolfellow, was tried by Mr Justice Roberts in the Supreme Court last Friday, found guilty of manslaughter and sentence to nine months imprisonment.

'Aisake, in the course of a schoolboy fight at Mailetaha last April, threw a piece of piping at two boys with whom he had quarelled. Without intending to do so he struck Mahe Niuafe on the back of the head, killing him instantly.

In passing sentence, Judge Roberts said that although he was satisfied that the killing was unintentional, throwing any hard object at another person was made an offence by the Criminal Offences Act in order to prevent such tragedies.

The judge said he had taken into consideration the age of the accused and hoped the case would be a warning against such violence.

British Gift

The British House of Commons is to present a Speaker's table to the Tonga Legislative Assembly.

"DEAR SIR..." LETTERS TO THE EDITOR.

Coconut Price

Dear Sir.—I refer to Concerned's letter in last Thursday's 'Chronicle' in which he considers that I have been misleading in my reply to his original query. As space in your newspaper at that time was limited, I had no choice other than to condense my reply. However, his recent letter calls for more precise information which I trust space will permit you to print.

'Concerned' is extremely fortunate to be able to sell his coconuts to the Board, a privilege which is not extended to producers in the other islands.

As explained in my previous letter, 10,193,193 nuts were purchased in 1970 fo the production of desiccated coconut from which the Board made an apparent net profit of $5227.83. This net profit figure takes into account sales of copra made from coconuts found to be unsuitable for desiccated coconut ($12,390.44) and sales of husks, shells and peelings ($597.75). A large proportion of the shells and husks were used as fuel for the machinery.

'Concerned' did not refer to sales of husked coconuts in his original letter, hence I refrained from mentioning them in my reply. However, I am pleased to state that we made an apparent net profit on such sales in 1970 of $12,811.02.

Uufortunately the market for whole coconuts is not a very large one and we have almost reached the maximum export potential of this commodity.

I wish to assure 'Concerned' that the Board is operating for the benefit of all coconut producers and the prices it pays for copra and coconuts are fair and reasonable for all concerned. We would like to increase these prices but we must be guided by the world market.

If "Concerned" considers that he is not getting fair treatment from the Board I would be pleased to see him at my office to explain in more detail how we operate, that is if he does not mind revealing his identity.

S. KINAHOI,
Acting General Manager,
Tonga Copra Board.

M.P.'s

Dear Sir.—Before voters vote for a candidate to represent them in Parliament, they should first know his capabilities and shortcomings while he is in the House. Whether his motions are proper to the needs of those whom he represents, so that they are able to decide whether he is fitting as a representative or whether he should be replaced.

The parliamentary minutes are the only source of information which enable the voters to assess the capabilities of their representatives in Parliament.

I therefore propose that more parliamentary minutes be sent to northern islands for the people to read and know what kind of people are representing them and whether they are suitable to go back to Parliament after next year's general election.

BARE TRUTH.

The Chronicle

Dear Sir.—I wish to refer to the letter written by "Lisiate in the Chronicle of August 12, in which he deemed the letters to the editor as a means whereby the "people can express their views so that the Government knows the hearts of the people and react accordingly."

I think this is a very marked progress in our newspaper. As long as the people or the government departments concerned are made aware of any curiousity or complaint against them so that they can reply and explain to the people the issue which needs clarifying. This will avoid any misunderstanding between the people and their government.

I would ask the head of a department to whom a complaint has been voiced to consider the complaint and explain to the people what is being questioned instead of just putting the complaint aside with indifference.

Attention should be given to the people's views which are published in the newspaper insofar as to clarify the unclean, correct what is wrong and adopt what is good.

This of course does not necessarily mean that the government has to do what the people want.

LUPETI TULUA.

"Miss Tonga"

Dear Sir.—I would like to congradulate the 22 girls who took part in the "Miss Tonga" contest.

It's very pleasing to note the most devoted attitude and effort with which they entered the contest.

This was justified by the excellent result which financies a sports team to represent Tonga in the South Pacific Games in Tahiti this month..

Now that the people have done their part in collecting money to send the team to the Games. It's only up to our athletes and boxers to do their best and remember that the whole of Tonga will listen to the radio for the results of their performances.

The "Miss Tonga" committee and the judges should also be congradulated for their most devoted efforts in running and judging the contest.

POPULAR VIEW.

Crime

Dear Sir. — I wish to make a statement regarding increasing criminal offences here in Tonga.

There are many youths who do nothing during the daytime and at night they go around people's homes and steal or locate something to steal.

After they have successfully stolen something, these youths then look for someone to buy the stolen goods.

People cannot sleep well at night because of the fear that these thieves might break into their houses or their shops and steal.

This thieving is encouraged by the popular attitude that every crime should be left for the Police Department to deal with. Obviously there are not as many policeman in the Department as we may think to deal with every single crime committed.

With the cooperation of our town and district officers, we should be able to decide on measures which would reduce this high crime rate.

Measures such as appointing nightwatchmen would be most suitable for the towns and villages.

The Chronicle and ZCO recently advertised that Education Department would like two nightwatchmen, for Tonga High School and the Nuku'alofa Primary School. This is the right method and we should therefore adopt it.

THUNDEROUS.

Pilfering

Dear Sir. — I wish to refer to "Disgusted Observer's" article on pilfering.

For many years I have been a purser and a telegraphist aboard Tongan boats and have the opportunity of observing cargoes being discharged in perfect condition. The same cargoes would later be reported to have been damaged. The damage did not occur on the boat; the damage could only have occurred between the discharging point on the wharf and the customs shed, which at Apia is about 100 yards.

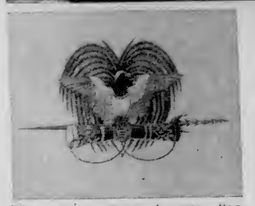
If "Disgusted Observer" spent a longer period of time at each port of call, observing the wharf labourers at work, he will tend to accept my view.

The Tonga Chronicle is the only medium where the voice of the people can be heard and through which we can air special opinions that may help the Government to overcome our sagging economy and improve our standard of living.

S. KAVA 'ALOUA.

News Tip

Ring the Chronicle, Nuku'alofa 302B, or come to the Chronicle office, Premier's Office, if you think you know of a news items or have a news picture.



The Papua New Guinea flag (top) flew for the first time in Australia on August 12 over the Papua New Guinea exhibit in the Manufacturers Pavilion at Sydney's 1971 International Trade Fair.

The flag has been adopted by the Papua New Guinea House of Assembly.

It is divided diagonally from the top left-hand corner to the bottom right-hand corner into two triangles.

The top triangle is red and bears a golden bird of paradise.

The bottom triangle is black and carries the five stars of the Southern Cross in white.

The flag was designed by a 15-year-old girl, Susan Karike of the Catholic Mission School at Yule Island, Papua.

The Papua New Guinea coat of arms (left) has a widespread bird of paradise in display with head turned to its left seated on the upturned grip of a horizontal kundu drum, the drumhead to right of the bird. Behind the drum a horizontal ceremonial spear projects with head to left of the bird.

Tongans Learn New Craft With Wool

BELOW: Girls at St. Mary's spinning wool under the supervision of Mrs O'Reilly (right).

A new kind of industry, home spinning woolcraft, has been introduced in schools and several village women's association. Mrs Marama O'Reilly, a Corso voluntary worker from Auckland, New Zealand, is in Tonga for six months, conducting a series of training classes throughout the Kingdom.

Mrs O'Reilly trained at the London School of Spinning. She has conducted training classes in Indonesia and several other Asian countries.

She said she does not only teach woolcraft but also helps to promote New Zealand wool worldwide.

At the St. Mary Technical School, where she is spending most of her time, she takes several classes, on woolcraft and the chemistry of wool.

Commenting on the pupils she said they were keen and eager. They were quickly learning the process and many were starting on making rugs with twisted wool on calico, drawing their own designs.

Some pupils were making blankets, sweaters, stoles, cardigans and baby-wear.

To produce various colours, vegetables dyes are used. This includes a very colourful green and yellow effect produced from lichens.

Mrs O'Reilly said, jokingly, that men did not seem to be interested on woolcraft yet, but she had one senior boy in her class at the St. Andrew's School.

She was very thrilled with the co-operation of the women at the Fasi Free Wesleyan ladies group and the Kanokupolu village Women's Association. They were all willing and were starting on more complex process than at schools, she said.

Having been to 'Eua to take training classes, she said that there was a possibility of reintroducing sheep to the island primarily for its wool. There had been no objection from the Agriculture Department to the idea, and she had the support of the Principal of Hango Agricultural College.

All equipment and materials she uses for training had been donated by Corso and the New Zealand Wool Board.

Reward For Information On Yacht

A substantial reward is being offered for information leading the finding of the missing yacht "Votan" with three people on board. They are Adolf Ruoss (32), Marianne Ruoss (30) and a two-year-old child, Natasha.

The "Votan" probably sailed from the New South Wales coast on July 26 for South Pacific, North Australian, New Guinea or Indonesian ports; or for inhabited or uninhabited South Pacific Islands.

The yacht is two-masted, 32ft long with a welded steel hull, probably painted white.

The Chronicle has received a request from the father of Mrs Ruoss, Mr Orwell H. Gepp, of Toorak, Melbourne, to publish this information. Further details of the yacht and the people on board are available from the Chronicle.

Any persons seeing or knowing the whereabout of the missing yacht or persons are asked to forward notification urgently by cable or airmail letter to: Ridgeway, Pearce and Freadman, solicitors, 419 Lonsdale Street, Melbourne, Australia.

TONGA DOING SOMETHING ABOUT TOURISM, OPERATORS TOLD

Tourist operators in Fiji and Samoa now know that Tonga is doing something about tourism and has "come off the ffence", says the tourist officer, Mr Peter Wallis. "In the past there was a total lack of information".

He was talking about his visit to Western Samoa and Fiji where he met major tour operators and aitline managers to discuss cooperation in tourism.

In Samoa, Mr Wallis said he particularly wanted to find out how to cooperate in getting tourists from Apia to fly to Tonga and not over it.

Until his visit, the Samoan authorities did not know what Tonga was doing about tourism, Mr Wallis said, consequently they expressed interest in the Tonga Visitors' Bureau and the fact that the Kingdom was seeking to establish a definite policy.

Mr Wallis said tour operators in Apia want to cooperate with private tour operators in Tonga. It was hoped to arrange exchange visits between operators and this would help tourism in both countries.

In Fiji, Mr Wallis met regional managers of the main airlines and Pacific and the major tour operators. The response was encouraging.

Mr Wallis said the operators were prepared to further the cause of regional development in the Polynesian triangle . . . Fiji, Tonga and the Samoas.

Major airlines flying into Fiji were also prepared to help the Tonga Visitors' Bureau with promotion efforts, financially and in kind. without committment, he said.

Mr Wallis also told the Chronicle he had received a letter from the managing-director of Horizon Holidays of Britain, Mr Martin Wright, who recently visited the Kingdom, saying that his company and another tour operator planned to promote tours to Tonga in the 1972–73 season, based on the existing hotel accommodation.

Mr Wright went on to say in his letter that he was extremely optimistic about the tourist potential in the South Pacific for people from Britain and Europe. Tonga had an important part to play in future developments, he said.

Dr Havea Elected A President Of World Council

The President of the Free Wesleyan Church of Tonga, the Rev. Dr. Sione 'Amanaki Havea, returned this week after attending the 12th World Methodist Conference, at Denver, Colorado, U.S.A.

This world Methodist conference is held every five years, the last one in London, in 1966. More than 800 delegates and participants attended this conference from more than 55 countries in which Methodism is opearting all over the world.

At this conference there was a need for restructuring the functions of this world body, and there was an amendment to the constitution so that there should be a wider participation in responsibilities of leadership. This necessitated an election of a presidium of eight to preside in official assemblies of the council during the next five years The President of the Tonga Conference was elected as one of the eight presidents and his office extends over the whole of Australasian Methodism.

The administration of this World Methodist Council is carried out by a Council of 103 Executive members, and 20 officers. It was decided that the first meeting of these 20 officers be held in Tonga after Christmas this year for five days. This will give Tonga an opportunity to meet world leaders of Methodism.

Tonga was also represented by Mrs 'Ungatea Fonua who was a delegate for the World Federation of Methodist Women, and Mr Charles Havea who was chosen by the Methodist Youth of Texas as their representative.

NEWS IN BRIEF

TESTS TO GO ON: The French armed forces chief of staff, General Francois Maurin, says French nuclear tests will continue until 1976. Two or three low-intensity nuclear devices would be exploded each year in French Polynesia, the general said.

TEST THREAT: Peru will automatically break off diplomatic relations with France if it explodes another nuclear bomb in the South Pacific as part of a current series of tests, President Juan Velasco Alvarado says.

ROYAL VISIT: Relations between the Netherlands and its vast former colony of Indoneasia reached a historic point of friendship this week when Queen Juliana arrived in Jakarta for the first visit by a Dutch monarch.

NKRUMAH ILL: The Ghana News Agency says there are reports from Guinea, where he took refuge that, Ghana's exiled former president, Dr Kwame Nkrumah, is seriously ill with cancer.

SISTER CITIES: The Taipeh City Council has approved a proposal to establish sister-city ties between Taipeh and Sydney, a council spokesman has announced. Sydney has a population of more than 2.2 million including some 12,000 overseas Chinese, he said.

MEETING IN NZ: A meeting of the executive committee of the World Council of Churches is to be held in New Zealand in February next year. It will be the first meeting in New Zealand for the committee which represents Churches all round the world, and meets twice yearly.

EXPECTING BABY: Mrs Margaret Trudeau, wife of Canadian Prime Minister Pierre Trudeau, is expecting a baby in December. The couple were married on March 4. Mrs Trudeau was then 22 and the Prime Minister 51.

LEAVING VIETNAM: The withdrawal of New Zealand combat units in South Vietnam will be completed by about the end of this year, says the Prime Minister, Sir Keith Holyoake. This decision was taken after consultations with the Governments of South Vietnam, the U.S. and Australia. About 3430 members of the NZ Armed Forces have served in Vietnam from early 1965 to July this year and 35 N.Z soldiers have been killed.

•

KING OF ALL THE FILTRS

Tongan visitors to the Royal Far West Children's Health Scheme Hospital in Manly, Sydney, were Mr and Mrs Faleola. They met another Tongan, Nurse Mētuisela who is on the staff of the hospital and the picture shows them all in the nursery with some of the children.

Offered To Tonga

The broad-beamed, 87ft long, top-sail schooner, "Walborg", built in Denmark 74 years ago, has been offered to the Tongan Government as a cadet-training ship.

The "Walborg" arrived in Nuku'alofa about three weeks ago from Auckland and is berthed at Fāua Harbour.

The owner, Mr Desmond Sanft, a Tongan who has been absent from the Kingdom for 22 years, said he would like to see the boat put to good use and hopes the Government will be able to take advantage of his offer. The offer has been discussed with the manager of the Tonga Shipping Agency, Captain C. Hill-Willis.

Mr Sanft said he does not want to make any profit out of the "Walborg", but he wanted to see the boat well maintained and not allowed to deteriorate.

The boat arrived in the Pacific six years ago under Swedish ownership and Mr Sanft, a scrap-metal dealer in Auckland, bought it three years ago.

Prince To Find Sea Legs Under Captain Cook

The Prince of Wales will spend six weeks at the Royal Naval College, Dartmouth, from September and then serve nine months at sea under an officer with the stirring name of Captain Cook.

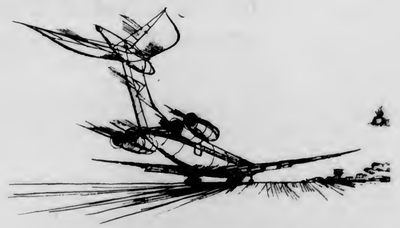
Prince Charles will join the college on September 14, leave on October 29 and then serve under Captain J. W. D. Cook on board the "Norfolk", a County class guided missile destroyer launched in 1967.

"We hope that he will be treated as much as possible like anyone else here", Captain Gordon Tait, captain of the college, said.

The heir to the British throne will join the seamen's branch, as one of 40 graduate entrants coming to Dartmouth next term, and will be placed along with 13 others in the class for those "with some experience".

Probably he will sleep in Blake's senior sub-lieutenant's cabin, a commodious modern single room.

"I always fly VC10. Superbly comfortable, serenely quiet. And a choice of ten flights a week."



For some people there is only one airline.

BOAC fly the smooth, silent VC10 from Fiji ten times a week – five one way, five the other. To Sydney or to Hawaii, Los Angeles, New York and London, with world-wide connections.

You relax in the world's most comfortable economy class seat, in a cabin that's as quiet as a library – because the four giant jets are mounted in the rear, leaving the noise behind you.

Plan your next flight now by BOAC VC10.

BOAC takes good care of you

ROUND THE WORLD RECORD FOR WRONG WAY CHAY

The lone British yachtsman, Chay Blyth, stepped ashore at Hamble, in Southern England, on August 6, after completing one of the most severe tests of man and boat ever undertaken in sailing – going non-stop round the world from East to West, "uphill" against prevailing winds and currents.

The 31 year old British ex-paratrooper covered the 30,000 mile voyage in a record 292 days and for most of the time he was without the yacht's self-streeing gear, which was smashed in a gale off Cape Horn on Christmas Day.

Battling against prevailing winds and current his 59 foot ketch-rigged yacht "British Steel" has undergone a harsher battering than most other large yachts undergo in ten years of normal sailing.

But although masts, sails, rigging and other equipment all bear evidence of the power of the sea the steel-hulled yacht, specially designed to sail fast to windward in ocean conditions, will provide boat builders and designers with valuable new information about anti-corrosive techniques.

PROTECTIVE SYSTEMS

The British Steel Corporation, as main sponsors of the venture, used special protective systems on the hull and these will be examined by a team of anti-corrosive experts in the next few days to provide a detailed study.

Chay Blyth, who rowed the Atlantic with fellow-paratrooper John Ridgway in 1966, decided to make the voyage the "uphill" way round the world during a previous solo ocean venture.

On that occasion, he had to abandon his attempt at an easterly circumnavigation because his yacht was unequal to the task, and he decided that only a steel yacht would be strong enough.

The early part of the voyage, in the North East trade winds, gave Chay a foretaste of troubles to come. "British Steel's" great running sails providing a combined area of nearly 1300 square feet proved very difficult to handle solo.

Rounding Cape Horn, the most southerly point of land he had to clear, was a "terrifying experience". Gigantic waves pounded the yacht, and one immense blow damaged the main part of the self-steering gear beyond repair. Chay himself was flung across the cockpit and gashed his head – a wound that took some time to heal.

DRIVEN OFF COURSE

It was in late April in the South Indian Ocean that "British Steel" was hit by the worst storm of the voyage. For days hurricane force winds battered the yacht and drove her hundreds of miles off course.

Chay Blyth said : "I could not sleep: I could not eat. I just jammed myself by the chart table and stayed there for 36 hours . . . if ever I have nightmares they will be about that storm".

When he reached home Chay's wife, Maureen, and four-year-old daughter, Samantha, joined him on board before it berthed at Hamble, where Prince Philip, along with Prince Charles and Princess Anne, was present to greet him. The British Prime Minister, Mr Edward Heath, conveyed the congratulations of his own Admiral's Cup yachting team.

There was also a special word of praise from Robin Knox-Johnston, previous record holder with a solo, non-stop voyage around the world taking 312 days sailing from West to East. Chay Blyth had bettered this by 20 days going the hard way.

TAHA-KAE-AFE GUEST HOUSE 'Ohonua. 'Eua Island,

(25 miles from Nuku'alofa)

Boats depart Fāua Wharf 7 a.m. Monday, Wednesday, Friday, returning same days.

Bed and breakfast $3. Lunch and dinner a la carte,

SHORT WAIT BEFORE "MISS TONGA" CAN FLY TO N. Z.

"Miss Tonga", Tupou 'Ahome'e Tuita (18), will not be able to start her prize-winning flight to New Zealand as soon as she would have liked. Immigration formalities for herself and her chaperone, air bookings and the reservation of accommodation will take a little time to finalise.

The "Miss Tonga" Committee has agreed that the chaperone for Tupou 'Ahome'e should be chosen by her parents, the Hon. Laufilitonga Tuita and Fatafehi.

"Miss Tonga" and her chaperone will fly to Auckland by Air Pacific and American Airline. Accommodation in Auckland is being provided by Trans Tours of N.Z.

Another "Miss Tonga" contest is to be held next year organised by the Fa'onelua Garden Committee.

The "Miss Tonga" contest has already raised $5478.86 for the Tonga Amateur Sports Association, comprising :—

	$
Entrance Fees	2200.00
Fa'onelua 16 August (net)	1080.00
Dance and Ball 18 - 20 August (net)	458.00
Donations :—	
Tonga Amateur Boxing Association	900.00
Ministry of Education	114.04
Nuku'alofa Club	100.00
R. Vallabh	50.00
Hotel Moana	50.00
D. C. Rajaram, Suva	25.00
Oil Consortium	150.00
Queen Salote College	30.35
Miscellaneous	21.47
Union Steamship Co. (N.Z.) Ltd.	100.00
Mobil Oil Co. Ltd.	100.00
Soccer Association	30.00
Allied Mills	25.00
Ha'apai Boxing Assn.	20.00
Secondary School Sports	25.00
	$5478.86

There is also a little over $300 promised but not yet received, including $100 from Shell Co. (P.I.) Ltd.

The above, together with the Government Grant of $600 has assured that adequate funds are now available to pay all the expenses connected with Tonga's participation in the South Pacific Games.

The committee secretary, Mr Barney Barnard told to the Chronicle this is first-ever Miss Tonga contest was a great sucess in many ways and it was to be hoped that the contest to be held next year to select Miss Tonga, 1972, would receive the same warm hearted support.

Next year's contest will be organised by the Fa'onelua Garden Committee to obtain funds to provide the garden with additional amenities and to cover maintenance expenses. Details of the contest will be announced in early 1972, thus giving villages, clubs, organisations etc. ample time in which to select their contestants.

World copra market is very depressed

The Tonga Copra Board announces that during the period July 16 to August 15, this being the period on which the local copra prices for September are calculated, the world copra market was very depressed and there was a sharp decline in prices.

On July 16 the world price was US$199.00 a ton, but by August 15 this had dropped to US$177.00, the lowest price for over four years. This has been due mainly to the continued selling pressure of copra from the Philippines and to the fact that there are still plenty of offers of copra already afloat.

Towards the end of the period under review, the market was dormant owing to currency uncertainties.

Next month, the "Lindenbank" will be loading 1600 tons of copra which has been sold at £69 C.I.F., the lowest price obtained since May 1967.

The future of the market cannot be forecast but it is only to be hoped that this is a temporary depression resulting from a combination of adverse factors.

The Board has decided that the prices to be paid to local producers throughout the Kingdom during September, 1971, will be calculated on the average price formula even though this is higher than the selling price of the "Lindenbank" shipment.

These will be :

1st Grade T$84.20 a ton.

2nd Grade T$72.20 a ton.

which is $11.60 a ton less than the current price.

The price to be paid for coconuts will be maintained at the present level of 1.2 seniti a nut.

UNIVERSITY OF THE SOUTH PACIFIC

DIRECTOR OF EXTENSION SERVICE

(Reader/Senior Lecturer)

Applications are invited for the post of Director of Extension Services in the School of Education. Preference will be given to applicants with University teaching experience who have proven administrative skills and experience. Experience in University extension work an advantage. Responsibilities will include administration of the University centres, provision of extension courses, and non-credit courses, and organisation of public lectures.

$F7900 to $F8400

Senior Lecturer— in the scale $F6300 x 200 – $F7500.

Other Conditions of Service - - contract (2, 4 or 6 years) or permanent appointment: 10% annual taxable gratuity for contract appointment: contributions up to 10% of salary to an approved superannuation scheme: partly furnished accommodation at rental of 15% of salary (with upper limit of $1152 per annum), appointment and termination allowances; passages on appointment, long leave and termination.

Formal applications should contain full name; date and place of birth; nationality; marital status; educational qualifications; employment history and experience; names and addresses of three referees; general statement of physical fitness; date appointment could be taken up. A passport size photograph should be sent.

Further particulars including, Outline Terms of Service, are obtainable from:

The Registrar, (71/22),
University of the South Pacific,
Box 1168,
Suva,
FIJI.

to whom completed applications should be returned by October 5, 1971.

VACANCIES

The Ministry of Works has vacancies for two truckdrivers. The suitable applicants should be over 25 years of age and have at least three years continuous truckdriving experience. All persons who have previously applied to M.O.W. (Ministry of Works) for a truckdrivers job but failed to get a job are invited to reapply.

Applicants to all at the Engineer's Office with their references and drivers licence in working hours. Applications close on the September 16, 1971.

Steinlager sign of good beer

KOLOFO'OU TAKE SHIELD AND SHARE CUP WITH POLICE

By ROBBIE

The 1971 rugby season finished on Saturday with a fine display of back play by the Police in their 33 - 35 defeat of Hihifo, and very even struggle between the two top Senior B sides, Vaini and Ma'ufanga.

A good penalty kicked by Viliami Hōsea was the only score in the main senior B game of the day in which Vaini won 3 - 0 to retain their close lead and win the shield from Police B.

This was a good even struggle with the strain of a final showing in the nervousness of both sets of backs. Bad handling and reluctance to "have a go" lost both sides valuable scoring opportunities. Congratulations to both sides for a good hard clean game.

Police B came from third position in the first round to take the Senior B cup, being unbeaten in the second round.

Kolofo'ou must surely have chalked up a third win for the season, this being by winning the most games by default. Four of their last five games have been won without having to play. This situation must have the union thinking of new ways to keep the interest of the continual losers.

In the main match of the day the Police played with gay abandon and showed that their backs were capable of all kinds of manoeuvres which produced the very best of tries. Perhaps it was the knowledge that even had they lost the competition, points must have been awarded to them; but they played a brand of rugby that they should have been playing all season. After all their opponents were third place getters and could not have been considered a walk over. Why top clubs persist in "trying" it on I will never know.

Kalisi who was brought back from retirement to play the odd game for Police, and managed to get mentioned more for his attitude to the game rather than for his play, turned out with a big smile for the opposition. The referee allowed him to play even after being advised that he was not transferred.

Where is the discipline required by the rules? This indifference by players and officials can only be harmful to the sport as a whole.

However the game, although one sided, was full of interest, and full credit must go to Captain Sēlō for keeping his side together and for keeping the pressure on until the final whistle.

The first try of the match came when 'Ilavalu made a break and passed and swerved and sidestepped his way to score after when Kei, playing at centre, ran hard and kicked ahead, Sami was there to scoop up the ball at top speed to score in the corner.

Sione Havili made the next move when he broke down the line, centre kicked for the ever-alert 'Alele to take and score.

Hihifo were always trying for the break and at times had Police pinned down near their own line. From broken play Taufu'i ran hard then sidestepped in field, passed to Paula Koloa who scored under the posts to give Tavake an easy conversion, to make the score 11–5.

Malakai proved the worth of a good attacking fullback when he joined the line making the overlap for Siope to score. Sami went in for his third try after taking an in pass from 'Ilavalu in one of the best movements I have seen on the park this season.

By this time the Police backs were having a "ball" and we saw Kei back to top form, use all his skills to run, swerve, bump and sidestep his way for two tries, one from his own 25. 'Ilavalu placed both conversions.

Sīosi Sēlure playing his usual steady game from the back of the scrum broke wide, passed back to half Sāteki who ran hard to go in for yet another try under the posts. Sami who had been promoted to kicker missed the sitter. He also missed his fourth try, when with an open line ahead he stumbled and the ball flew from his hands.

Tu'ihalamaka, a player of great promise, started the other scoring movement when he picked up a rolling ball at speed and drew the opposition to send side-row man Kava flying away for a try. Kei missed the easiest of kicks.

The final whistle went with Police winning 33–5.

SUMMING UP

To sum up the season. We saw some very good rugby at times. We saw complete lack of interest by some of the teams at the bottom of the ladders. The number of defaults by these teams must have had an effect on the top sides and caused a drop in the overall stanard of play.

Perhaps the union wou'd be well advised to have a good look at the applications for registration next year. What is the main goal, surely an improvement in standard or at least maintaining the standard that N.Z. and Fiji recognise at the present time.

I think that it is now obvious that the season should not be disturbed to play the district matches. There is a great lack of spectator interest in these teams must have had an effect on the top sides and caused a drop in the overall standard of play.

Perhaps the union would be well advised to have a good look at the applications for registration next year. What is the main goal, surely an improvement in stanard or at least maintaining the standard that N.Z. and Fiji recognise at the present time.

I think that it is now obvious that the season should not be disturbed to play the district matches. There is a great lack of spectator interest in these matches, and the players not selected do not have much incentive, except their own enthusiasm to carry on trying for further selection.

Our competition deteriorated after the break for these games. They should be played at the end of the season and the sub-unions shuld be asked to arrange their season to coincide with the season in Tongatapu. This would make selection of National teams easier.

We also saw some good refereeing and some indifferent refereeing, especially in the Junior or Senior B games. These grades need the top men controlling their games at times if the standard is to improve.

All in all a reasonable season, but we must remember that our greatest rugby rivals are due back next season and we will have to be in top form to beat them.

TOP PLAYERS

May I be permitted to select my top players for the season. These are from Tongatapu only because I did not see enough of the Northern players to gauge their consistent performance. (Some good forwards from Vava'u and Ha'apai and a good centre from Vava'u). Some of the good players from the lower sides miss because of the lack of games played.

Here we go — Fullback: Malakai. Wings: Siope and Mōsese. Centre: Kei. Second: Sami Lātū. First: Valita. Half Mētui. No. 8: S. Sēlupe. Side row: Kinmbu and T. Ledger. Second row: Kuluni and Fakavā. Props: Manulevu and Ualeni Pāhulu. Hooker: Lūpina. Reserves: 'Alele, Fetu'utolu, Siō, Tu'ihalamaka, 'Uhila, P. Taumoepeau and Pānuve.

Most consistent referee for the season: Sione Mōleni.

Fehoko, S. 'Teu, T. Mahu'inga, T. Lātū. S. Lōtaki, O. T. Finau, P. Pua (Coach). Front : L. Fia, T. Uipi, L. Latailakepa, P. Tupouniua (Principal), L. Mafi (Captain), S. Pāongo (Coach), F. Fonua, K. Pale, S. Puloka.

Scientists Take Over Unique Coral Atoll

Aldabra—the only coral atoll in the Western Indian Ocean which has escaped the interference of man—has been leased to the Royal Society for a major study of the island's wild life.

A Seychelles business firm, who hold the lease from the Commissioners of the British Indian Ocean Territory, have assigned it to the Society. The lease runs until 1985 so the Royal Society will be able to organise research on Aldabra at least until then.

There is an option for the next 20 years, and the Society is now negotiating for a new lease on different terms from the present one which allows for some commercial activity.

In 1967 it looked as if Aldabra's undisturbed state was at last to end because an airfield was proposed there. This was eventually cancelled and the Royal Society has since built a research station to study the island's ecology—in other words the relationship between the populations of plants and animals and their environment.

Mani Vaka . . . next South Seas champion?

VAKA'S WIN OVER WAQA WAS NARROW

Tongan heavyweight boxing champion Mani Vaka beat former Fiji champion Leweni Waqa on a split points decision at Laucala Bay Hangar, Suva, on Saturday night.

The two judges and referee had it 350 points to 347 in Vaka's favour. There was a crowd of about 3400.

According to the Fiji Times boxing writer, Frank Tinsley, Vaka's manager, Mr Bill Wight, said after the fight: "Waqa is a terrific fighter. He can stay top of Fiji's ring drawing cards for years yet.

"We expected a knockout win, but by the fifth round I had to tell Vaka 'Forget the knockout. Trust in your speed. This man is murder. Take no chances and keep away from him'."

Tinsley said that throughout the fight there were perhaps half-a-dozen really momentous blows landed—the majority by Waqa fists. Any one could have ended proceeding abruptly.

A mighty right upper-cut from Vaka in the second, perhaps mercifully for Waqa, was just off target, a glancing rather than a full-blooded hit.

A right-cross to the jaw from Waqa soon afterwards shook Vaka, but he laughed it off. In the fourth, Waqa planted a shuddering body left and in the ninth a great left-hook on the Tongan's jaw . . . the best blow of the evening.

In the crucial 12th, Waqa whipped over two terrific right-crosses in rebuttal of Vaka's fast but less effective rights and left jabs.

Tinsley said a couple more like this would have settled any post-fight arguments as to which man had won. But they did not come.

Vaka's footwork lacked the sparkle that so impressed against Fiji champion Filimone Naliva, whom he recently knocked out, Frank Tinsley said. Waqa stayed too close in for much of the time to allow the Tongan to move around at will.

But Waqa's mistake seemed to be in too often withholding his right-cross. Repeatedly Vaka was wide open for it but it did not flash over often enough.

Vaka fought his 12 rounds with Waqa with a broken finger. He said he disobeyed doctor's order to fight.

The finger was broken a few week ago, but when Saturday's fight promoter, Mr Nazir Khan of Ba arrived in Tonga last week to Vaka and Mr Wight to explain that to postpone the fight at so late a date would be disastrous, Vaka agreed to box.

Mr Wight left the decision to Vaka who explained that because of his finger he did not use his right on Saturday more than he could possibly help.

Mr Wight said he wanted to record his thanks to the committee members of the Fiji Boxing Association and the promoter for their kindness and hospitality during the time he and Vaka were in Suva.

OCTOBER FIGHT WITH TITLEHOLDER NAIVALU

A fight has been arranged between the Tongan heavyweight champion, Mani Vaka, and the South Seas heavyweight titleholder Marika Naivalu of Fiji for the title, in Suva on October 18, Vaka's manager, Mr Bill Wight, told the Chronicle yesterday.

Mr Wight also said he was arranging a match for No. 2 heavyweight Toni Pulu, against Nadumu of Fiji, late this month or early next.

Negotiations were also going on, Mr Wight said, for Ma'ulupe Ta'ufo'ou, at present in Hawaii, the present South Seas light-heavyweight titleholder, to defend his title against the winner of a bout between Fijians George Ramasima and Sunia Cama.

On the local scene, the Ha'apai Boxing Association has arranged fights today, tomorrow and Saturday.

Today, Hainite 'Aholelei meets Kalasi 'Osai; tomorrow, Mosese Taufa versus 'Aisea Funaki; Saturday, Lopeti Fifita versus Sione Uhi.

Next Friday in Nuku'alofa Tevita Piu and Pongi Lie will meet in a 15-round bout for the vacant middleweight title.

The preliminaries will be a six-round bout between Sione Uhi and Lopeti Fifita; and a 10-round bout between Sione Uaine and Tevita Vaka.

CHRONICLE

English and Tongan editions published at Nuku'alofa each Thursday by the Information Office, Government of Tonga. Authorised for transmission by post as a newspaper.

This And That

CHRONICLE DIARY

Promoter of Saturday's Mani Vaka – Leweni Waqa fight, Mr Nazir Khan, told us in Tonga last week he was most impressed with the way Tongan boxers train. He would like to bring more fighters to Tonga, but the purses are not large enough. Admission charges would have to be more than the average Tongan could afford.

Messages of congratulation were received by "Miss Tonga" from New Zealand the day after her crowning. Tongan friends in Auckland heard the result by listening to ZCO and they telephoned friends around the city. Next day the messages started arriving in Nuku'alofa.

* * *

The Manager of Tonga's South Pacific Games team, Mr Jack Barnard, says he is taking away to Tahiti next Monday "a boy who will play for Tonga in the next Rugby test against Fiji" . . . Talilotu Ngaluafe.

* * *

The owner of the closed Italia restaurant, Mr Bill Wight, says he hopes to reopen it on Saturday under a new name, 'Ofa atu Italia.

7. Where have 15 Tongan sportsmen gone? (Page 1)

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, September 9, 1971 Vol. VIII No. 14 3 Seniti

NO PLACE FOR THE CURIOUS

"What are you looking for, Mister?"

Although the children in the picture are Tongan and the two men Dutch and didn't understand each other's language, obviously the children were curious and probably asked this question when the two men stopped their minimoke alongside a vacant 'api on the by-pass road in Nuku'alofa, got out and walked over the 'api with their eyes on the ground.

The 'api wasn't just any ordinary 'api, it is where the first exploratory oil well is going to be sunk in the next few weeks. The two men are from the Shell Oil Company (centre picture) Mike Zwager, the senior petroleum engineer, and John van Delden, geologist/palaeontologist.

They were'nt looking for oil at that particular moment, but checking on the pegs which mark the area where the drilling rig will be erected.

Soon the site in the picture will be one of great activity and one of great danger for onlookers. To protect the curious, like the children in the picture, a fence will be erected.

For the full story of the latest stage in the search for oil in Tonga, turn to Page 8.

STRONG GAMES TEAM

A strong team of seven athletes, and six boxers left Tonga on Monday for Tahiti to take part in the fourth South Pacific Games which starts on Saturday.

With the team is Mr Jack Barnard, the team manager, and Mr Adolf Johansson, boxing manager.

Also accompanying the team is American Peace Corps worker, Mr George Fernigsohn, who has been coaching the athletes.

During the athletes' final training last Saturday, Mr Fernigsohn said they ran very good times.

Peni Tu'ipulotu recorded his best time of 14.4 seconds for 110 meters hurdles, 10.6 seconds for 100 meters dash, and 55.5 seconds for 440 yards hurdles. Sanitesi Latu's best time for110 meters hurdles was 14.5 seconds.

Talilotu equalled Tu'ipulotu's best time of 10.6secs. for 100 meters dash and recorded his best time for 440 yards hurdles in 56.6 seconds. Middle distance runner Sosifa Tokolahi ran the 800 yards in 2.04 minutes and Peauafi Haukinima recorded a time of 10.04 minutes for 3000 meters steeplechase.

The 'Iongi sisters Keta and Kalasi are the only women in the team. Keta in training ran a 100 meters in 12.5 seconds and Kalasi recorded 13.0 seconds for the same event.

At the last games in Port Moresby in 1969 the athletic team

(Continued on back page)

How You Can Help The New Hospital

On Pages 4 and 7 is information about the new Vaiola Hospital at Tofoa, prepared by the Health Department to help the public become familiar with the arrangements at the new hospital.

Although there is still some work to be done at the new hospital, the Health Department feels that rather than delay the use of the buildings any longer, the public should be given the opportunity of using these improved facilities now.

The public are asked to cooperate in helping the services to run smoothly while the contractors are completing the outstanding work.

The new services at Tofoa will take some time to settle down. If members of the public have any useful suggestions for the improvement of the running of patient facilities, the Director of Health would be interested to know. Send your ideas in by letter to him.

Tonga's team to the SouthPacific Games in Tahiti boarding the Air Pacific flight to Suva on Monday afternoon.

"DEAR SIR..." LETTERS TO THE EDITOR.

Fish Market

Dear Sir. — I wish to explain to "Doctor Sandals" the way the Department of Agriculture sells fish.

With regard to "favouritism" in selling the fish, I appreciate that favouritism is an indispensible character of a human being; without favouritism one would be superhuman.

"Doctor Sandals" should have gone back home if he was crushed in the queue because you can find meat somewhere else.

He only complained probably because he does not have a relation in the staff at the market to serve him as he would have liked. If he does not have a relation there then he must teach himself that fish is not that much important as to let himself get crushed in the queue at the market during fish-selling days.

I am absolutely certain that if "Doctor Sandals" was a member of the staff which sells fish at the market his favouritism would be as bad as those who are working there. Favouritism of relations and friends is the weak point of every working man.

"Doctor Sandals" should have complained that the price of the fish is too dear for this can be dealt with.

ANYTHING.

Beauty Contest

Dear Sir. — As announced in the Chronicle and ZCO, the 1968 beauty contest was the first ever contest to choose the most beautiful girl in Tonga and the winner was named "Miss Nuku'alofa".

During the past weeks the Chronicle and ZCO claimed that the "Miss Tonga" was the first beauty contest to choose the most beautiful girl in Tonga.

This is erroneous because the first contest was in 1968. It would be better to say this was the first feauty contest to choose the most beautiful girl in Tonga and to be given the title "Miss Tonga".

P. DAVID FA'APOI.

REPLY: The Chronicle has never claimed that the "Miss Tonga" contest was the first beauty contest in Tonga, only the first "Miss Tonga" contest.

Scholarships

Dear Sir. — It was a glorious moment for students, especially those sitting University Entrance, when it was published in the Chronicle that more scholarships were being offered by the Tongan Government for 1972.

What concerns me is the way in which the scholarship are awarded to the successful candidates.

Ever since Tonga High School has had a University Entrance class, they have had the first choice of the scholarships.

Why is a scholarship not awarded to a student of Tupou High School who has obtained University Entrance (Melbourne) with a pass in four subjects or more, the required subjects for the scholarship. Apparently a scholarship can be awarded to a student of Tonga High School who obtains UE with 50% pass and has not taken the required subjects for the scholarship.

I have come to the conclusion that the first requirement to get a scholarship is to be a Tonga High School student.

'ISILELI FALEKĀONO.

Another View

Dear Sir.—In his article reprinted in the Chronicle of August 19, Alan Daniels erroneously viewed the character of the ordinary Tongan.

By "erronneously" I mean Daniels had forgotten that a large country and a small country both have their own defects. Tonga has her own weakness and "rascals" (if we may call the accuseds that) in a much smaller scale than the weakness and rascality of bigger countries.

I was once unjustly treated by a taxi-driver in a foreign country which is a hundred times larger in size than Tonga. On taking me back to the ship on which I worked, the taxi-driver drove on the longest way to the wharf not knowing that I knew the area quite well.

On reaching the wharf, he demanded the payment of a sum four times the usual fare. I simply paid him the right fare and when he pressed me for the amount he wanted I told him that what I had given him was better than nothing. He just laughed it off and drove away thinking I was stranger to the place.

Another paragraph i n the article mentioned how desirous it is to visitors to be granted audience with His Majesty King Taufa'ahau Tupou IV.

On reading this one could suspect that this was either a misprint or a defect in the composition but apart from this it could be rightly interpreted as straightforward disrespect.

The Tongan man who showed Daniels and his party around Tonga bought three bottles of beer and extracted from them later the price of a dozen of beer. This is not unusual for it is how human beings react. You may lose today and gain tomorrow and vice versa.

S. KAVA 'ALOUA.

Rugby

Dear Sir. — What are the reasons for the fall-off in interest causes for the fall-off in interest in rugby in Tonga?

1. Members of the Union: At its annual meeting some people who seem sensible and capable of carrying out the job were elected to the union. Clubs then expect them to organise and contribute towards the improvement of the sport. A lot of them stay at home and never go to the field (Teufaiva)to witness for themselves the standard of playing.

The union should see whether the standard of play is improving and if not should find out the real cause of the fall-off.

2. Decisions by the union: During the absence of the President of the Rugby Union, Lupeti Finau, it was decided to have the inter-district games, which interrupts the Tongatapu competition. At these games, some players were ordered off the field and were barred by the union from club rugby for several months. The players seem to lose interest when barred from playing, for trivial offences.

3. Referees: I congratulate the referees for carrying out their duties. I regret that a lot of them have never played representative rugby to understand the tricks of the game. Some of their decisions cause players to lose interest in the game.

PATRIOT II.

Dear Sir. — Although I agree with Robbie's selection of a national rugby team last week I think his team will only be suitable to play a clubside from Samoa, Vava'u, Ha'apai, 'Eua or New Zealand.

This is the team I would have chosen to play against the Fijians if their tour was to be this year and not next year.

Fullback: 'Ilavalu Taufa, Wings: Kei 'Iongi, Siope Matāpule; Centre: Pānuve Fakaua; Second: Malakai 'Alatini; First: 'Uhila Tai; Half: Feleti Muller; No. 8: Siaosi Selupe (2); Breakaway: Kimipū 'Inoke, Tevita Lēsila; Locks: Kuluni Motu'apuaka, Uaiselē Latukefu; Props: Manulevu Koloamatangi, Joe Motu'apuaka; Hooker: 'Inoke Lūpina; Reserves: Henelī Bloomfield, Ualeni Pāhulu; (forwards) Mosese Tu'ipulotu, Vainikolo Vānisi; Taufu'i Moala.

. This team is experienced in the field and would endure the rough and hard play the Fijians are likely to produce.

DEAD RIGHT.

The cooperation of Tongan fisherman is sought by Papua New Guinea in gathering information on Skipjack.

In July of this year, 10,000 tagged Skipjack were released in New Guinea waters. All tags returned will yield valuable information on growth and migration patterns of the species.

Each fish carries one of two tags (shown in the picture), bearing the following lettering:

D.A.S.F. PORT MORESBY

Each tag also carries a specific number in duplicate.

Fifty cents (Australian) will be paid on receipt of the tag and the following information.

If the tagged fish is caught, please record:

1. The number on the tag/tags.
2. Date of capture.
3. Place of capture.
4. Fish length (from tip of snout to fork of tail)
5. Type of gear used (pole, longline etc.)

Cooperation is sought in returning this information and tags (if possible) to the following address:

The Director,
D.A.S.F.
Konedobu,
Papua New Guinea.

It Does Not Have To Be Hot To Grow Watermelons

In the cooler season watermelons are a rarity in Tonga, but Mr 'Ofa Motuliki (40) of Ha'ateiho believes that given the right treatment and care, watermelons could be grown all the year round and he is holding the melons that prove it.

In August when the cool season is at peak, Mr Motuliki is able to produce large watermelons that are seen in the market only in the summer months, December to March.

When asked how he grows his watermelons, Mr Motuliki told the Chronicle there were no new techniques involved.

"However, one has to be very careful with the young plants since they are more delicate than they would be during the warmer season", he said.

Mr Motuliki is a diversified grower who plants food crops such as taro, yams and manioke to sell in the market.

He hopes to be planting bananas for export very shortly, but is waiting for fertilizers from the Department of Agriculture.

Australian Policy On Tongans

Tongans were considered for entry into Australia in accordance with policies for non-Europeans, immigration officials said in Canberra.

They said Tongans could come to Australia to do study courses or gain experience leading to qualifications of benefit to their own country under overseas student programmes.

The officials were commenting on a letter in a Sydney newspaper which claimed that Maoris from New Zealand were permitted to enter Australia without formality, but this did not apply to Tongans.

The writer said Australia could not consider Tongans to be "coloured" and Maoris "not coloured" because both were part of the Polynesian race.

The immigration officials said New Zealand citizens of "New Zealand descent" could, in general, come to Australia without appropriate permission.

Since 1905 this provision had included Maoris, they added.

Red Cross News

Miss Ann Sopper of the British Red Cross Society is at present in Nuku'alofa conducting practical first aid courses. Miss Sopper is very willing to give talks on Red Cross matters before she leaves the Kingdom on Saturday, September 18. Anyone interested should contact the secretary at 332B.

Now is the time to think of buying your Christmas cards. They are available from Nuku'alofa, Neiafu and Pangai branches of the Tonga Red Cross at 5 seniti each or 40 seniti for 10 cards and envelopes. Please contact a committee member of your branch of the Tonga Red Cross and they will be pleased to help you.

There will be a Red Cross first aid shelter at the Agricultural Show on Friday and Saturday September 10 & 11.

New Attraction At Tourist Office

Fusi Tonga (20) has been transferred to the Tonga Visitors Bureau as an information assistant, where she will work with the yet to be recruited public relations and information officer.

Her duties will include answering enquiries from overseas, assisting visitors with information about the Kingdom and looking after important travel personnel. Miss Tonga had her first orientation visit to 'Eua recently.

Miss Tonga has been in the Government service since April 1969, and has worked mainly on the clerical relieving staff.

"Hiva ke tau hiva 'a e hiva 'oku 'i he ngutu 'o e tangata kotoa pe"

Ko e Tapaka GREYS he tapaka lelei!

How you can help the new hospital to run smoothly

The new Vaiola Hospital should be ready for operation on Saturday, September 25, when the patients, staff and equipment from the old hospital will be moved over to Tofoa. The transfer will begin early the Saturday morning the 25th and carry on throughout the day and on into Sunday if necessary.

The public are asked not to use the hospital facilities over this weekend unless it is a matter of real emergency, as all the Health Department staff will be very busy making the moveover and settling in to their new wards and sections. The Dental Section moved over on Monday, August 30.

All the hospital services will be operating as normal again at the new Hospital from 8.30 a.m. on Monday morning the 27th. All outpatients and admissions should report to the new hospital after 8.30 a.m. on Saturday 25th.

HEALTH SERVICES :

All work now carried out at the old Vaiola Hospital will be transferred to the new site except :

The Central Medical Store.
The Tonga Water Board.

The new hospital therefore will provide the following services :

Inpatients : Children, surgical, medical, maternity and isolation wards.
Outpatients : General, specialist clinics, ante-natal, family planning and infectiouse diseases.
MCH Nursing.
Public Health : Inspectors, garbage collection, health education (Public Health labourers will remain at the old hospital).
Eye.
Dental.
Dispensary for inpatients and outpatients.
X-ray, pathology and blood bank.

Outpatient physiotherapy will continue to the carried out at the Red Cross Hut.

In addition the hospital will have a laundry and kitchen for the inpatients and resident staff, the nurses home and accommodation for the Queen Sālote School of Nursing.

The plan shows the position of the various sections of the hospital and the entrances which should be used by the public for access to the different services. It will be particularly important for the public to use the correct entrance to get to the service they need, to avoid confusion and waste of time and to avoid disturbing the work of other sections.

INQUIRIES AND TELEPHONES :

There will be an inquiries desk at the main entrance to the hospital and the receptionist-telephonist will be able to direct the public to the various sections of the hospital. The receptionist will also act as telephonist and the hospital's telephone numbers will remain the same, (200, 201, 202, 203, and 204).

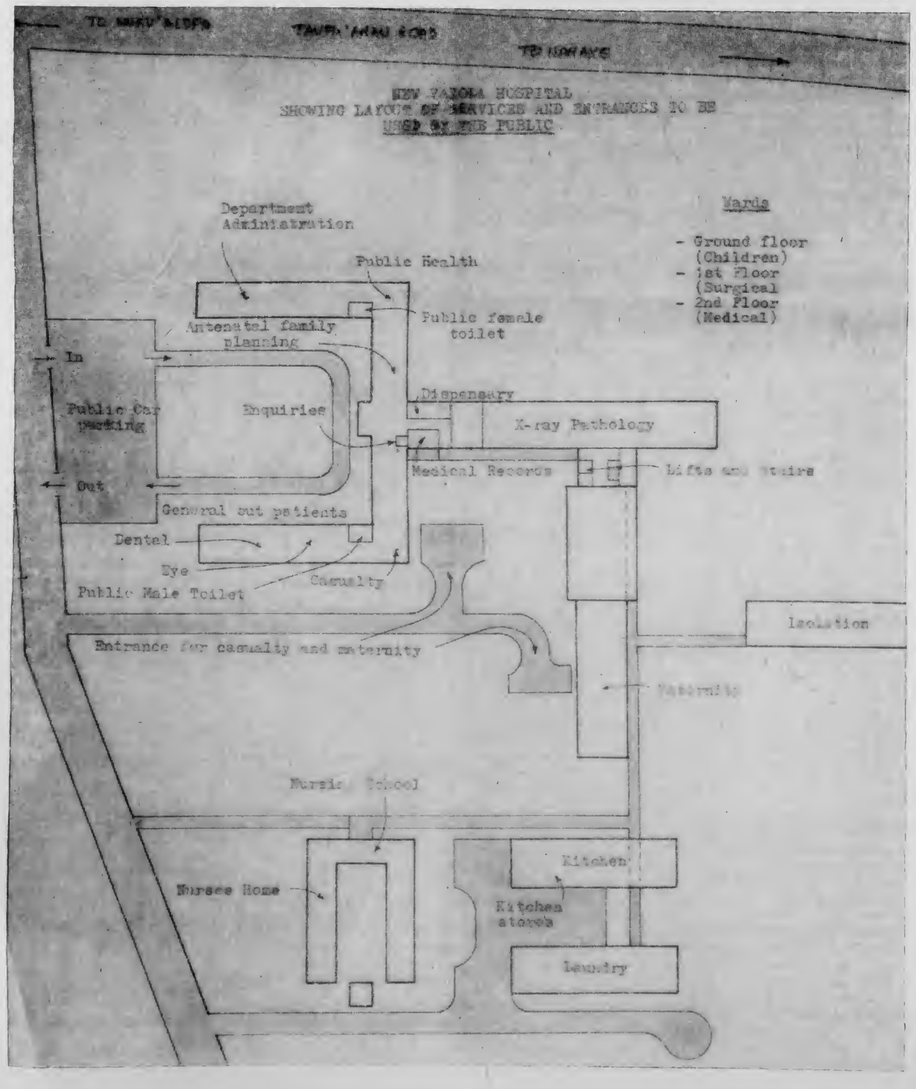
The new Dental Section can be called through the Hospital switchboard.

OUTPATIENTS :

Outpatients will be seen in the new outpatients department using the same system as at present, except all services will be in the one building.

During the day, the public will go to the main entrance and then right for the general outpatients doctors and specialist clinics, and left for the antenatal and family planning clinics. Each section has its own waiting area with seats and the nurse or sister on duty will check the patients through to the doctor. Treatment rooms are opposite the consulting rooms.

(Continued on Page 7)



TONGAN IN US ARMY IN "TOP FIVE"

Sione Tūlua (28) of Nukunuku (right) a soldier in the United States Army, will not now go to Vietnam.

In our story on July 8 issue we said Sione was to go to Vietnam after being trained at Fort Ord California. We have received further advice that instead of going to Vietnam, Sione is now training at Fort Benning.

Sione was among the five top soldiers from Fort Ord who were chosen to udergo special training, lasting some 12 weeks, to be non-commission officers. After the first eight weeks he became an acting-sergeant.

If Sione succeeds after this 12-week training he would be posted to army camps throughout the United States for another 12 weeks. On completing this more specialised course he would then be elligible for posting to any U.S. Army unit anywhere in the world.

Maximum Prices Which Can Be Charged

For the benefit of consumers, the following is a list of the maximum prices to be charged for goods, imposed by the Government under the Prices of Goods and Services Act. The prices are ascertained by the calculations as shown.

Note : The abbreviation LC means Landed Cost; WP means Wholesale Price; RP means Retail Price.

ARTICLE	WHOLESALE	RETAIL
Biscuits (cabia) per tin	5% over LC	2½% over WP
per lb	–	.01c lb over RP per lb in tins
Bread per 1 lb loaf	.01c lb below RP	same price as for 1 lb flour
Buns	.02c lb above bread price	.02c lb above bread price
Butter & Margarine (fresh and tinned)	5% over LC	7½% over WP
Condensed Milk	5% over LC	7½% over WP
Flour per bag	5% over LC	3½% over WP
per lb	–	.01c lb over RP per lb in bags
Meat (imported fresh) including ham, bacon and small goods.	10% over LC	12½% over WP
Meat (imported fresh but ordered prior to importation)	–	10% over LC
Meat (salted)	–	same price as for fresh meat
Meat (tinned)	7½% over LC	10% over WP
Sugar per bag	5% over LC	2½% over WP
per lb	–	.01c lb over RP lb in bags
Tea	5% over LC	7½% over WP
All Other Foodstuffs	12½% over LC	15% over WP
Beer and Ale	–	10% over LC
less than cartons sales	–	add .01c per bottle or can
Whisky and Gin	–	15% over LC
Other Fermented and Spiritous Liquors	–	30% over LC
Cigarettes & Tobacco	5% over LC	7½% over WP
Cosmetics Perfumery Toiletries, Medicines and Pharmaceuticals (excluding toilet soap)	20% over LC	25% over WP
Drapery – Calico, khaki drill & white drill	10% over LC	12½% over WP
Drapery – textile piece goods if LC does not exceed .30c	10% over LC	12½% over WP
Footwear	20% over LC	17½% over WP
Glass & Crockery	20% over LC	15% over WP
Motor Vehicles and Motor Cycles	–	15% over LC
Soap, Soap Powders and Detergents	10% over LC	12½% over WP
Watches, Cameras, Radios, Tape Recorders and Record Players	20% over LC	25% over WP
White Benzine per galn.	5% over LC	5% over WP
per reputed quart bott.	–	One sixth retail price per gallon to the nearest seniti above plus .02c bottle.
All Other Goods	12½% over LC	15% over WP

NOTE : PETROLEUM PRODUCTS— Retail prices are determined by His Majesty's Cabinet in consultation with the supplying Oil Companies.
LOCALLY-GROWN AGRICULTURAL PRODUCE AND RESH FISH— Not subpect to price control.
EX BOND SALES— Not subject to price control.
COUNTRY SALES— Retail Mark-ups to be increased by 1½%.
TONGATAPU AND VAVA'U SALES— Mark-ups to be increased by 2½%.
NIUATOPUTAPU SALES— Retail Mark-ups to be increased by 5%.

Tomato growers!

Diseases cost you money. Powdery Mildew, Leaf Mould and Botrytis cause severe damage and even death to tomato plants, reducing yield and affecting quality of the fruit.
In the past, fungicides have failed to give good control of these diseases, BUT NEW DU PONT "BENLATE" fungicide has proved excellent for controlling problem diseases of tomatoes and will give you bigger and better harvests. Apply 6-8 oz "BENLATE" to 100 gallons water applied every 7-14 days.

DISTRIBUTED IN THE PACIFIC ISLANDS BY:—
Neill, Cropper & Co. Ltd.,
G.P.O. Box 1440
Tel.: 381-772 Suva, FIJI.

Consult your local SHELL DEPOT for supplies and advice.

BENLATE® gives better and bigger harvests.

SMOOTH—RUNNING HOSPITAL

(Continued from Page 4)

This day time service will work from 8.30 a.m. to 4.30 p.m. Monday to Friday and 8.30 a.m. to 12.30 p.m. on Saturdays. At all other times, at nights and weekends, outpatients and emergencies will use the casualty entrance and be seen by the doctor on duty in that area.

The dispensary faces the main entrance hall and outpatients will collect their prescription through the serving hatches.

X-ray, pathology and blood bank are a short distance down the main hospital corridor.

INPATIENTS :

Normally, inpatients will be admitted during the day 8.30 a.m. to 4.30 p.m. and whenever possible will go to the admissions office first to have their medical records prepared. At other times and in emergency the patient will go straight to the ward on admission.

Maternity admissions will go straight to the maternity ward entrance and will be documented there.

Admissions to the infectious disease disease ward will also go straight to that ward.

In the new hospital all food, domestic services and linen will be provided and therefore the present attendant system will no longer be needed. Patients. relatives will be allowed into the wards only at set visiting times which are given below. In special cases, for instance where the patient is dangerously ill, the sister will be able to give permission for relatives to stay with the patient.

In the children's ward, parents will be able to visit at any reasonable time.

The only personal items patients should now bring in with them on admission, are :

Night wear, slippers, face cloths, toothbrushes, toothpaste and soap.

Maternity admissions will need other items and mothers will be told what these are by the MCH Nurse.

The traditional attendant system at Vaiola Hospital has been of very great help for many years. It is with regret that the department has to discontinue the arrangement, but with modern nursing and medical methods the presence of patients' relatives in wards is more of a hinderance than a help.

EYE AND DENTAL SECTIONS :

The eye and dental sections will be housed together in adjacent suites in the outpatients block. The dental section has therefore vacated its building on the Malae. Both sections will operate in the same way and at the same times as at present and patients will go direct to the appropriate entrance for treatment.

PUBLIC HEALTH :

Offices of the public health staff, Public Health Officer, Chief Health Inspector, MCH Nurses and the Assistant Health Inspectors are in this area. The section has its own entrance and waiting space. In addition infectious disease out-patients will be seen in the consulting room here.

People requiring medical examinations, X-rays and vaccinations for visas and employment applications will also be seen here at set times each week.

ADMINISTRATION :

The hospital office, where fees will be paid for instance, and the offices of the senior doctors such as the surgeon, the medical officer in charge of the hospital and the paediatrician will be on the ground floor of the ward block.

The offices of the department staff and the Minister and Director of Health will be in the administration block to the left of the main entrance. This also has a separate door and reception area.

KITCHEN AND LAUNDRY :

The kitchen and laundry are large well equipped buildings and will serve all inpatients and resident staff.

All meals and special diets will be provided for patients and the hospital will provide bed linen and towels in the wards, which will be laundered in the laundry.

Much larger quantities of food will be required for the new hospital, especially local produce, and before the hospital opens the Assistant Dietitian will be negotiating with local suppliers for the purchase and regular delivery of produce for the hospital.

VISITORS :

As the present attendant system will no longer be used in the new hospital, the public will have to adapt their visiting of relatives to the new visiting times. These will be :

Surgical, medical, infectious diseases and maternity wards :

Monday to Friday—
Afternoons - - 2.30 to 3.30.
Evenings - - 7.30 to 8.30.
Saturday and Sunday—
Afternoons - - 2.30 to 4.30.
Evenings - - 7.30 to 8.30.

Children ward— Parents visiting at all reasonable times.

It will be extremely important for the smooth running of the hospital and the wards in particular, that the public visit at only these times. Relatives and friends should not enter the hospital until the time visiting begins and should leave promptly at the end of the hour.

Visiting of all patients is at the discretion of the nurse in charge of the ward.

Visitors should be quiet and orderly about the hospital and should help to keep it clean. Gifts of foods and flowers will be welcomed, but should be given to the sister in case the food, for instance, is not suitable for the condition of the patients.

There will be no smoking allowed within the hospital.

CAR PARKING :

All cars, buses taxis and three wheelers must park in the car park facing the outpatients block and not in the hospital drive-ways.

PRIVATE PATIENTS :

The new Vaiola Hospital has no separate private ward. Patients who request private accommodation will be housed in the one and two bedded rooms which are provided in each ward. These patients will pay a higher rate appropriate to the private accommodation.

FEES :

Fees will be charged for all patient accommodation in the new hospital to cover the cost of the food and domestic services which were previously provided by attendants.

Full details of all the new charges and other revised fees for Health Department services will be published in the Chronicle.

KUMIFONUA No. 1 OIL WELL SITE CHOSEN, EQUIPMENT ARRIVING

The first exploration well in continuance of the search for oil in the Kingdom will go down in Nuku'alofa, near the by-pass road, south of Ma'ufanga and close to the new Ministry of Works quarry, and will commence at the beginning of next month.

The work is being carried out by Tonga Shell N.V. for the Tonga Oil Participants, who said a second well on Tongatapu may be drilled, but this will depend on the results of the first.

The drilling of the first well, to be known as Kumifonua No. 1, is expected to take about four weeks, provided no unusual problems, such as excessive loss of circulation or high pressure, are encountered.

The large quantities of materials required are commencing to arrive in Nuku'alofa from various sources. Eight hundred and fifty tons of steel piping and mud chemicals arrived on Monday in the chartered vessel "Holmdale" from New Zealand. Another 450 tons of steel piping, mud chemicals special cement and other equipment is due on the "Niuvakai" tomorrow from Sydney.

The heavy items of equipment —the drilling rig, machinery, pumps, tanks, oilfield truck, electric logging truck, cementing outfit and other items are coming from Brisbane in a specially chartered LCT, the "Sir Allen", of 300 tons capacity. The LCT is being used because the large individual weights involved (up to 30 tons) cannot be handled at the Queen Salote Wharf and the units must be landed by LCT at the Faua harbour, from where they can proceed under their own power to the location site.

About 20 specialist staff from the contractors will be arriving later this month. In addition Shell technical exports seconded to Tonga to liaise with contractors and monitor the work will comprise a senior petroleum engineer, a drilling superintendent and a geologist/palaeontologist.

The depth to which the well will have to be drilled to comprehensively examine the geological section present is not known accurately, but provision has been made to drill to 5000 or 6000 feet if necessary.

Local preparations for the drilling include provision for storage of steel pipe, dry chemicals and other equipment, and the preparation of the well site. In addition to involving clearing, and partial grading of an area of roughly an acre it is planned to dig a water-well for the constant supply needed during drilling.

A special problem is the penetration of the porous limestone which underlies the whole island. In order to avoid any pollution of this layer (which will be eased off when it has been penetrated) the fluid used for drilling it will be plain water, not the usual drilling mud.

No Certainty Of Success

With exploration drilling about to start, it is appropriate to recall the statement made by the resident manager of the Tonga Oil Participants, Mr A. Jackson, a few weeks ago, and published in the Chronicle.

There is no certainty of finding oil or gas, he said, its presence can only be proved or disproved by the drill, and even if present quantities may prove to be too small for commercial development. ...

In addition to testing the geological section an exploration well provides geological information unobtainable by other means.

Whether or not oil or gas is found this information adds very substantially to existing knowledge and will greatly influence any decisions on future work.

Although it is realised that the well, is Tonga's first exploration well and will thus be an object of interest and curiousity, it must be stressed that only authorised persons will be permitted to visit the drilling site.

Unauthorised visitors as well as seriously inconveniencing the work, run considerable risk of serious injury because of the heavy and complex equipment being used.

INVITATION TO READ

The public is reminded that the reading room at the British High Commission Office is open till 6 p.m. on all working days and from 9 a.m. till midday on Saturdays. **All are welcome to make use of the reading room.**

The reading room contains a selection of British daily, weekly and Sunday nwspapers which are received by air and are reasonably up-to-date. A selection of British magazines and a limited number of trade publications, received by sea mail, are also available.

Some of the publications available are :

Daily Newspapers — The Times, Daily Telegraph, Guardian, Financial Times.

Weekly Newspapers – Economist,Spectator, New Statesman.

Sunday Newspapers — Sunday Times, Observer, Sunday Telegraph, Sunday Express.

Magazines : Punch; Vogue, Illustrated London News; Geographical Magazine; Country Life; New Scientist; The Motor; World Sports.

SCHOLARSHIPS FOR 1972

Applications are invited for these two scholarships :

1. **Geology** – this is a four-year course leading to a geology major B.A. or B.Sc. degree. Candidates should have as a minimum University Entrance including Mathematics Physics. Chemistry and Geography.
2. **Dental Science** – this is a diploma course tenable at the Fiji School of Medicine which takes 3½ years to complete. Candidates should have a School Certificate, and preferably University Entrance, including the basic science.

The dentistry award is a re-advertisement and candidates who applied in August need not sed in another application.

Application forms may be obtained from the Education Office, Nuku'alofa. They are also available from the Area Organizers in Vava'u and Ha'apai.

Civil servants and statutory board employees should submit their applications through their Head of Departments. Candidates who are still attending school must submit their applications through the principal.

All applications must reach the Director of Education not later than Wednesday, September 15 1971.

HOUSE FOR RENT

At Mailetaha facing Taufa'ahau Road. Please contact Mr J. Leger at Mailetaha, Nuku'alofa. Inspection of the inside is welcome. J. LEGER.

ST PAUL'S LADIES' GUILD

Next meeting at 3 pm on Monday, September 13 at Mrs Jackson's residence, Haveluloto. Please bring something for White Elephant table. New members welcome.

THE CAMERA CLUB of Tonga

The annual general meeting will be held at the residence of Mr & Mrs J. Miles, Haveluloto on Monday September 13.

All members are requested to attend this important meeting.

Thanks.

John Miles,
Acting Secretary.

CUSTOMS NOTICE

Importers are advised that any cargo from "Tofua" not cleared by 3 pm, Friday, September 10 will be bonded by Customs.

Collector of Customs.

Where The $50 Gift Went

The proprietor of 'Oholei Beach, Mr Oscar Kami has distributed the $50 which he received from the Australian Parliatary delegation last week as a gift to the people of Ha'asini, Fātumu and Lavengatonga.

He gave $20 to the Ha'asini floorshow as a contribution toward the expenses for musical instruments and costumes.

To Lavengatonga, Mr Kami gave $20 as a donation to the purchase of a water pumping machine for the village's water supply project which is currently underway.

The remaining $10 was given to Mr Kalisitian Finau of Fātumu to help buy school materials for the school children of the village and to pay for their school fees.

High Priority Urged On Regional Shipping Plan

The first meeting of the Pacific Island Producers Association (PIPA) joint working party on regional shipping was held in Nuku'alofa, last week. The Hon. Mahe Tupouniua, Tongan's Minister of Finance, presided.

The working party was appointed by the PIPA conference held in April, 1971, "to investigate fully the organisation and operation of a regional shipping line based mainly on the existing facilities of the Tonga Shipping Agency so as to encourage such development into a fully representative regional shipping line."

The participants at the meeting were representatives of Fiji, Gilbert & Ellice Islands, Western Samoa and Tonga.

Among the subjects discussed in detail, and unanimously agreed upon for recommendation to the PIPA member countries were :

The general structure and nature of the proposed regional shipping line, together with its name.

The proposed composition of the board of directors.

The allocation of the shareholding among the PIPA member countries.

The registration of the line's vessels and the flag the vessels would wear.

The fair distribution of employment opportunities, within the proposed regional shipping line, among the participating PIPA member countries.

The working party, recognising the urgency of forming a regional shipping line, recommended that participating PIPA member countries give this subject the highest priority.

The joint working party of the Pacific Island Producers' Association, meeting on the regional shipping line plan at the International Dateline Hotel.

Games Team Looks Good

(Continued from front page)

won six gold medals, two silver and two bronze. The boxers won two silver.

At these games, Peni Tu'ipulotu will compete in the 100, 400 meters hurdles and also the 100, 200 and 400 meters dash. Also entering for the 100, 200, '00meters dash and 400 meters hurdles is Talilotu Ngaluafe.

Sanitesi Lātū who contested in the third South Pacific Games as a high jumper will enter for 110 meters hurdles, high jump, long jump and decathlon.

Middle-distance runner Peauafi Haukinima will enter for the 3000 meters steeplechase and 5000 meters. Sosifa Tokolahi will compete in the 400 and the 800 meters.

Keta 'Iongi who has described by the overseas Press as "undoubtedly one of the outstanding competitors" of the last games will contest in the 100 and 200 meters dash, 100 meters hurdles, long jump and pentathlon. Her young sister, Kalasi, will be a second string to Keta in the 100 and 200 meters.

Mr Johansson said he has some good prospects in the boxing team, especially in the heavyweight. The sole survivor from the last game is Solomone Namoa who would be fighting in the light-welterweight.

The other boxers are 'Asipeli Potauaine, welterweight; Maile Peti, light-middleweight; 'Elaiuti Longani, middleweight; Viliami Sovaleni, light-heavyweight; Moniti Fifita, heavyweight.

The team is expected to return to Tonga on September 24.

Tongatapu Show

The Tongatapu combined annual Agricultural and Langafonua Show will be held tomorrow and Saturday at Teufaiva Sportsground.

Exhibitors are requested to enter each article at the show office, to be located at the main entrance, between 6 p.m. today and 11.30 a.m. tomorrow. No entry will be accepted after this time.

The programme is :

TOMORROW

1.45 p.m. — Official guests are requested to be seated.
1.50 p.m. — Arriving of Hon. Minister of Agriculture, H.R.H. Prince Tu'ipelehake.
1:55 p.m. — Arrival of the Acting British High Commissioner.
2.00 p.m. — Their Majesties King Taufa'ahau Tupou IV and Queen Halaevalu Mata'aho arrive, then a short prayer to be conducted by the Royal Chaplain.
2.05 p.m. — Introductory speech by Hon. Minister of Agriculture.
2.15 p.m. — His Majesty King Taufa'ahau Tupou IV opens the show.
2.25 p.m. — Their Majesties taken on tour of exhibits accompanied by Hon. Minister of Agriculture, Director of Agriculture, followed by the official guests.
2.50 p.m. — Field display of livestock.
3.20 p.m. — Displays by T.D.F. and Police trainees, horse jumping, hiko competition, coconut climbing and dressage. Afternoon tea.
4,20 p.m. — Awards of prizes by His Majesty.
4.30 p.m. — Their Majesties depart.
The public will be invited to inspect the exhibits as soon as the official inspection is completed.

SATURDAY

8.00 a.m. — Show ground opens to public.
1.30 p.m. – 4.00 p.m. — Horse racing
Bicycle racing
Flag race (horse)
Light cart race.
5.00 p.m. — Show ground closes.

This And That

CHRONICLE DIARY

"Kumifonua" is the name given by His Majesty to the first exploration oil well (see Page 8). For the benefit of palangis, a straight translation means exploring or prospecting the land. There could be a deeper meaning. The word "fonua" is often used in Tongan poetry and in a religious context, as the land, the place of rest and peace; the place where one would find what he has been longing for; where one's dreams come true.

* * *

It's been an ill wind during the past week, but for young kite-flyers it has been a delight. We doubt that the power board is as delighted; notice the number of kites wrapped around power lines.

* * *

We can't help wondering what effect the company of older prisoners during the next nine months is going to have on a 16-year-old boy. Common practice overseas is to segregate juvenile offenders so as they are not influenced by experienced criminals.

* * *

Travellers with His Majesty's party which returned this week from the shows in the northern islands tell us they were the best they have ever seen.

* * *

Stern measures are being taken with next week's shipment of bananas to New Zealand on the 'Taveuni". The Produce Board is increasing the number of inspectors from 26 to 50 and placing one in each packing shed. We are told that if one bad case of bananas arrives in New Zealand the inspector concerned will get the sack and the shed closed.

* * *

Fiji reaction to the increase in price of New Zealand butter has been angry. Local merchants want the Government to lift the embargo on Continental butter so they can import cheaper from Denmark and Holland. In Tonga we seem to be accepting the increase without protest. For a few cents, New Zealand must be losing a lot of friends in the Pacific because of repeated price rises.

* * *

Tonga Rugby Union please note : The Fiji selectors have decided that a Fiji team should be chosen and tried out this season as part of preparations for next year's tour of Tonga.

Banana growers!

Weeds and grasses cost you money. When you first plant your bananas, weeds and grasses severely affect the growth of the crop. By spraying the ground with DU PONT "KARMEX" at 1½-3 lb per acre at planting time, bananas will make maximum growth which means easier harvesting and BIGGER YIELDS. In established bananas, an application of "WEEDFREE" 235 at 4 pints per acre plus "KARMEX" at 2-4 lb per acre will kill established weeds and grasses and also keep the ground clean for a long time.

"WEEDFREE"® 235 is a contact weedkiller which 'burns-off' weeds and grasses to ground level.

"KARMEX"® is a residual weedkiller which keeps the soil free of weeds for a long time.

no weeds — quicker growth — bigger crops.

QUIZ

1. How can you get the Chronicle free for a year? (Answer Page 10)
2. How much a day is it going to cost a patient in the new Vaiola Hospital? (Page 8)
3. How can you drink bananas? (Page 7)
4. Which village won most prizes at the Tongatapu show? (Page 4)
5. Two strange craft are due to arrive soon, name them. (Page 1)
6. How many people were estimated to have attended the Tongatapu show? (Page 10)

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, September 16, 1971 Vol. VIII No. 15 3 Seniti

Heavy oil drilling equipment being unloaded from the "Niuvākai" on to a trailer truck on Tuesday for moving to the drilling site.

Increasing Activity On The Oil Scene

The site at Ma'ufanga has been cleared of trees, a well for water has been dug and the equipment continues to arrive for Kumifonua No. 1, Tonga's first exploratory oil well.

On Tuesday the "Niuvakai" arrived from Sydney with 450 tons of contractors drilling equipment, casing and cement and chemicals. Next Tuesday the specially chartered LCT, the "Sir Allen" is due with 300 tons of heavy equipment from Brisbane.

Last week 700 tons of equipment and mud chemicals which arrived from New Plymouth in the "Holmdale" was moved and stacked in storage in 20 hours. It took 230 truck movements from the Queen Salote wharf with a turnaround of 11½ trucks an hour.

At the rate of three tons of mud chemicals on each truck, it took just over five minutes to unload a truck.

N.Z. Will See "Miss Tonga" Next Week

"Miss Tonga", Tupou 'Ahome'e Tuita, will leave Tonga on her prizewinning flight to New Zealand next Thursday.

Travelling by Air Pacific and American Airlines, she is due to arrive in Auckland the same night and will be met by "Miss New Zealand", Linda Ritchie.

"Miss Tonga" will be away for two weeks and has a busy round of engagements ahead of her in Auckland.

Two Gold & One Silver... So Far

Two gold medals and one silver is Tonga's score, at the time the Chronicle went to press, at the fourth South Pacific Games in Tahiti.

The gold medals were won by team captain Peni Tu'ipulotu and Keta 'Iongi. Peni won his in the 100 metres and Keta in the 100 metres. The silver medal was also won by Keta, in the 80 metres hurdles.

Peni's time in the 100 metres was a record, but is not known yet. The former record was created by J. Pothin (New Caledonia) in 10.6sec at Suva in 1963.

Keta is also entered for the 200 metres and according to a cable from Tahiti has qualified for the final. Her winning time in this event at the last games was 25.7sec.

News from the games is scanty and slow in reaching Tonga, however, it is known that five boxers have qualified for the semi-finals. They were due to be fought Tuesday morning and night, Tonga time.

All those who are successful in the semi-finals of the boxing are assured of a medal, bronze, silver or gold.

The great setback for Tonga's games team has been to lose Viliami Sovaleni, light heavyweight boxing contender. He was struck by a car soon after arriving in Papeete and broke a leg. He is in hospital but expects to return with the team on September 24.

This And That

A New Zealand parliamentary delegation is due to arrive in the Kingdom on Sunday, September 26 . . . in their own aircraft! They will be staying until September 28. This is a similar fact-finding mission to the Australian delegation of MPs who were here in July.

* * *

Also arriving in the Kingdom for a three-day visit on September 30 is an Australian submarine, the "Onslow".

* * *

The Wesleyan schools in Tongatapu have ordered one copy each of the Tongan and English Chronicle to be delivered each week. The 25 primary and middle schools will use the Chronicle in the classroom on Fridays.

CHRONICLE DIARY

The Nigerian Army detained more than 200 civil servants, including top officials, in Ibadan, as part of a crackdown on slackers habitually late for work. About 400 soldiers surrounded the 11 ministries and took the names of all latecomers.

* * *

Tonga has given T$250 for the relief of Pakistani refugees in India.

* * *

It struck us as funny during the inspection of the Tongatapu Show by official guests on Friday that the Family Planning stall should be packed with children.

* * *

Rome's worst drought for 51 years—it lasted 75 days—broke with lightning, thunder and a monsoon-like downpour soon after prayers for rain had been said in all the city's churches.

* * *

A sobering thought on oil wells is that only about three wells in every 100 sunk are successful and eventually produce, according to statistics we read.

P.M.'s FIRST GRANDCHILD

A 8lb 9oz son has been born to Princess 'Elisiva Fusipala and Hahano Vaha'i in Honolulu, Hawaii at 1 am yesterday, Tonga time at Kapiolani Hospital.

The Princess is the second daughter of the Prime Minister, Prince Tu'ipelehake and Princess Melenaite and the new baby is their first grandchild.

Princess Fusipala, her husband and mother went to Hawaii last month so that the Princess could receive specialist attention for the birth of the baby.

"DEAR SIR..." LETTERS TO THE EDITOR.

Happy Listeners

Dear Sir.—As a dedicated listener to the Tongan radio station ZCO, I would like to express how delighted we all are with the programms we listen to here in New Zealand. Although reception is not always the best what Tongan music we do hear reminds us all of a little bit of home.

However, may I ask the manager of the ZCO to give us overseas listeners more of the Tongan music which we so eagerly await.

TONGAN POP FAN.

Rugby

Dear Sir.—I wish to thank the president and members of the Tonga Rugby Union for their hard work in managing rugby football in Tonga. I am certain this standard of good work will be improved upon in the future.

I wish to ask the reason why TRU did not select a Tonga 1st XV to play a Remainders XV. This would have given us a fair idea of our strength against the touring Fiji side next year.

Fiji on the other hand is doing everything it could possibly do as preparation for their tour here next year. For instance they have forgotten the results of their past tours.

Fiji on the other hand is doing everything it could possibly do as preparation for their tour here next year. For instance they have selected a President's XV to play against guest players from overseas countries. This shows how concerned they are with their projected tour of Tonga.

INTERNATIONAL.

Constitution

Dear Sir. — I would like to refer to the news item broadcasted over ZCO concerning the House of Representative and their deliberation on proposed amendment of certain clauses of the Constitution. The news item went on to say that representatives of the people were excluded from discussing matters related to the Royal Family because under the existing Constitution they are not permitted to participate.

It is not my intention to question the authority of the Constituiton nor the rights of the people, but to pose a question which may contribute to the shaping of future political destiny of our country.

Before I do so, it must be appreciated that the Constitution was drafted at a time when there was need for strong measures to be taken, in order to gain the confidence and respect of authorities by the people. It must also be realised that when one starts to question the rights and wrongs of the established system, there will be implication, not only because it is associated with change and there will be people bound to be offected by the change, but a considerable number of the people are still very sensitive about criticisms and are also nervous about change of any form.

Since we have been taught and conditioned to accept Western attitudes and values there is real need for our system to be thoroughly and carefully examined to meet the requirement of time. Any change to be made must be planned now for it, to be systematically and gradually executed in future, so that the shock of the change can be easily absorbed in the system.

Now to come back to the question I would like to pose. By accepting the King as Head of the Royal Family, is He then the King of the Ministers and Nobles only, or is He the King of Tonga?

PURSUE WHAT IS GOOD.

The Shows

Dear Sir. — I would like to use your columns to express the appreciation of the Department of Agriculture, and in particular the appreciation of the various Agricultural Show secretaries, to the public of Tonga for the good-hearted and generous manner in which they participated in the shows.

I believe it is true to say that the 1971 shows have been an improvement upon those of recent years, and this can only be attributed to the many people who took part by entering produce or livestock in the competitive sections and to the great care taken to enter well presented produce of high quality.

I should also like to thank those who had the difficult task of judging the various sections, which was by no means a simple job.

To those who won prizes may I say well done, but remember that others who were not so fortunate will be trying harder next year, so it will not be wise to 'rest on your laurels'.

J. H. N. PITMAN,
Director of Agriculture.

Investment

Dear Sir. — No doubt that in the year 874 AD, within the time of King Eitumatupu'a (Tu'i Tonga), his main objective was the welfare of his people, particularly to give them the royal protection, abundance of wealth as well as spiritual aspirations. Again in the reign of 'Ulukalala the Great King of Vava'u and also George Tupou I, the Lion of the whole of Tonga, concerns were exercised to protect the Tongans from foreign domination. Although I am sad to report that we have lost some good traditions, one of which and perhaps the most paramount of all were our ancient Gods, let us all be in one soul to protect our Tonga.

Since then, up to the present time, our great leaders have always been on the lookout to preserve our motto "'Otua mo Tonga ko hoku tofi'a." "God and Tonga is mine heritage". In other words "Tonga for Tongans."

Now with the advent of invit- I can see beyond the horizon, 50 years ahead, thousands of educated and business-oriented Tongans looking around in vain for an opening for business venture. These opportunities will all have been blocked by foreign interests.

I fully support the idea of inviting foreign investments, but with at least some control.

This is how I would structure control, for the mutual everlasting happiness of the foreigners and the locals :—

1. To allow only 49% foreign participation in any industry established in Tonga.
2. For the Tonga Government to establish a development bank to facilitate paid shares to industries in which the locals cannot afford to partake.
3. For the development bank to hold on to these shares until such time as the locals can afford to buy them.
4. The assets required by the development bank as security can be made available from 49% foreign participation.
5. For the Government to form a department of industries and appoint a highly qualified man in this field, like the Minister of Finance, to be its chairman. The members to include the Statistician from the Government side and the rest from the local, sophisticated businessmen.
6. The sole purpose of this department is to control foreign investments and local participation.
7. This department is to report and make suggestions direct to Cabinet from which authority emanates.

FEHULUNI.

Scholarships

Dear Sir. — I wish to voice my disagreement with 'Isileli Falekāono and his concept on granting and distribution of scholarships to students.

Undoubtedly there are more scholarships today than there were in the past, but certainly there are not enough scholarships for every student who wants a scholarship. For this reason the students with the higher passes are given the first opportunity for scholarships.

It should be noted that top officials in Government comprise the Scholarship Board. The Board grants the scholarships to pupils reasonably and impartially.

The fact that a student passes his University Entrance examination in four subjects and has an overall result of 80% does not necessarily qualify him for a scholarship for scholarships have certain subject requirements which the student must satisfy, by scoring high marks in the required subjects in order to qualify for a particular scholarship.

If more scholarships are being given to the Tonga High School pupils than to pupils from any other school, then apparently the pupils from Tonga High School have higher passes than pupils from other schools.

DEALING WITH DISASTER

Chief Superintendent Toni Naufahu of the Tonga Police Force is in Australia attending a nine-week course in disaster services administration.

The course was arranged by the Australian Government in response to a request from the United Nations General Assembly for assistance in training and advice on disaster relief. The United Nations request for assistance came after the recent tragic natural disasters which struck at the Philippines, Malaysia and East Pakistan.

The disaster-relief course will take Superintendent Naufahu to many parts of Australia before it ends late this month.

For two weeks, with other disaster specialists from Malaysia, Nepal, Indonesia, Pakistan, Singapore and the Philippines, Superintendent Naufahu has been studying at the Australian Civil Defence School in the small township of Mount Macedon near Melbourne.

The town was a thriving mountain holiday resort for city dwellers in Melbourne before the advent of faster road and rail transport. What was once the town's foremost hotel has now been converted to a Civil Defence School.

At the Civil Defence School, Superintendent Naufahu watched simulated rescues of casualties from wrecked buildings, and fire-fighting techniques, and studied operational procedures needed for disaster areas.

The visit to Australia is Superintendent Naufahu's third overseas training course. In 1965 and 1969 he attended police training schools in Britain.

In the picture, Superintendent Toni Naufahu (centre) moves in for a closer look at a simulated rescue from a wrecked building at the civil defence school.

TRADE TALKS: The top-level trade meeting proposed at the South Pacific Forum of Island leaders in Wellington will probably be held in November, a spokesman for the N.Z. High Commission in Suva has said. It will be attended by senior officials from Tonga, Western Samoa, Fiji, the Cook Islands, Nauru, Australia and New Zealand.

Showtime 1971

Some of the mounted escort for His Majesty when he arrived at Teufaiva to open the Tongatapu show.

Lining-up for the start of the cycle race.

Prizes Presented By His Majesty

One of the most spectacular occasions of the year in Tongatapu attracted thousands to the annual combined Agricultural and Langafonua Show at the Teufaiva Sports ground on Friday and Saturday.

On display were agricultural produce, livestock, art, works from secondary schools, Tongan handicrafts.

Activities at the Show includes horse racing, light cart racing, cycling, coconut tree climbing. Also the Defence Force and the Police Force gave a spectacular demonstration.

One section of the show which most of the public were not able to see were the tax allotment, banana plantation, coconut plantation and vegetable gardens.

The village that received the most prices was Ha'avakatolo, Hihifo, and was presented with the Burns Philp Cup.

The prizes in these sections presented by His Majesty were :

Best planned tax allotment (Prince Viliami Tungi Mailefihi Memorial Shield —presented by H.R.H. Prince Tu'ipelehake) :

1. Semisi Bloomfield— Lakepa
2. Siu Taani— Veitongo
3. Semisi Manu— Ha'avakatolo
4. Fangpupō Puli'uvea— Lapaha
5. Tutone Ma'asi— Ha'avakatolo

Banana Plantation (Tonga Produce Board Cup) :

1. Tutone Ma'asi— Ha'avakatolo
2. Sisi Hangale— Fāhefa
3. Semisi Manu— Ha'avakatolo
4. 'Aloi Hā'unga— Fāhefa
5. Finau Poasi— Matahau

Banana Plantation - - not mature for packing (Lipoi Tupou Cup) :

1. Sione Uasikē— Lakepa
2. Tutone Ma'asi— Ha'avakatolo
3. Kama Lole— Lapaha
4. Semisi Manu— Ha'avakatolo
5. Sisi Hangale— Fāhefa

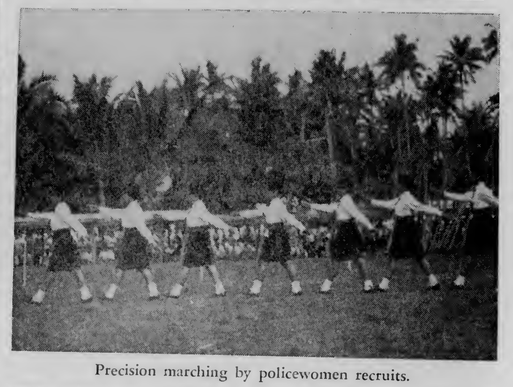
Most Attractive Floral Garden (E.M. Jones Cup) :

1. Mele Latai Samate— Tatakamotonga
2. Fatai Kanukapu— Kolofo'ou
3. Lose Rass— Toloa

Vegetable Garden - - Women (Tevita Kcni Taukolonga Cup) :

1. Silia Tauelangi— Vaini

Scenes At Teufaiva Friday And Saturday



Precision marching by policewomen recruits.

A policewoman about to deal with a difficult "customer" during a demonstration of unarmed combat.

Prizewinning livestock parades for the huge crowd.

2. Silua Fotu— Fo'ui
3. Uinita 'Amanaki— Ma'ufanga

Coconut Plantation (Riechelmann Bros. Cup) :

1. Pōhahau Naulu— Fo'ui
2. Iāfō Hāmani— Pea
3. Launga Tofua— 'Ahau
4. Semisi Manu— Ha'avakatolo
5. Saia Vaea— Kanokupolu

Vegetable Garden - - Primary Schools (Director of Agriculture Cup, Mr & Mrs Pitman) :

1. St Joseph— Fasi
2. Govt. Primary School— Matahau
3. Govt. Primary School— Lōtolu

Ploughing (Morris Hedstrom Cup) :

1. Fine Tukimaka— Veitongo
2. Palu Tuakala— Tatakamotonga
3. Sione Uhi— Kolomotu'a
4. Viliami Fisi— Experimental Farm (Vaini)
5. Tevita Kamipeli— Matāliku.

Showtime 1971

His Majesty comes ashore in a rowing boat, from the "'Olovaha" at Niuafo'ou.

Princess Pilolevu looking at some of the women's work at the Niuatoputapu show.

A lakalaka at the Niuafo'ou show.

Winning Youth Club

The Pēteli Youth Club which won the trophy of the Kolomotu'a Wesleyan Youth Clubs senior rugby competition.

The team is —

Back Row : H. Makakaufaki, O. Naitoko, M. Tāufa, S. Hema, Lotu P. Lolo, T. Hōlani, 'Isileli Tāufa (Coach), L. Tu'ipulotu, S. Nusipepa, S. Tu'ipulotu (manager).

Front Row : 'A. 'Akau'ola, S. Havea, S. Lolo (captain), M. Va-ha'akolo, M. Na'a.

First Banana Drink

Despite their ready availability and comparative cheapness, in most parts of the world, bananas have not been used for the manufacture of purees and beverages. A major obstacle has been the proneness of banana tissue to undergo oxidative enzymic browning. Also, the relatively low natural acidity of bananas prevents normal processing as an acid food.

These difficulties have been overcome at the Food Research Laboratory in North Ryde, New South Wales, where a pleasing, commercial prototype banana drink, either carbonated or non-carbonated, has been made and taste tested.

Production costs on a commercial scale appear to be very attractive. With bananas costing two cents a lb. the laboratory estimates that a 16-oz can of the beverage could be manufactured for less than 10 cents (in Australia).

The drink blends well with other tropical fruits such as passionfruit and pineapple.

Straight banana drink in cans has maintained its quality during storage over 18 months at ambient temperatures.

Volunteer Workers From Japan

Western Samoa has concluded an arrangement for Japanese Overseas Co-operation Volunteers. A request has been made for two engineers for the public works department.

Although Japan has sent about 1000 volunteers to Asia, Africa and Central America, this will be the first time any have been sent to the South Pacific.

News Tip

Ring the Chronicle, Nuku'alofa 302B, or come to the Chronicle office, Premier's Office, if you think you know of a news item or have a news picture.

Banana growers!

Weeds and grasses cost you money. When you first plant your bananas, weeds and grasses severely affect the growth of the crop. By spraying the ground with DU PONT "KARMEX" at 1½-3 lb per acre at planting time, bananas will make maximum growth which means easier harvesting and BIGGER YIELDS. In established bananas, an application of "WEEDFREE" 235 at 4 pints per acre plus "KARMEX" at 2-4 lb per acre will kill established weeds and grasses and also keep the ground clean for a long time.

"WEEDFREE"® 235 is a contact weedkiller which 'burns-off' weeds and grasses to ground level.

"KARMEX"® is a residual weedkiller which keeps the soil free of weeds for a long time.

no weeds — quicker growth — bigger crops.

REVISED CHARGES FOR MEDICAL AND DENTAL SERVICES

The following revised charges for Health Department services at the new Vaiola Hospital have been approved by His Majesty in Council :

I TONGAN SUBJECTS

		$
A.	Certificates.	
	(1) Health certificate required to fulfil Tongan Passport and Immigration requirements	0.75
	(2) Health certificate required to fulfil Passports and Immigration requirements of countries other than Tonga	0.50
	(3) Health Certificate required to obtain a job	1.00
	(4) Health certificate, other than for Passport and employments	1.00
B.	X-Ray Examinations for Passport and Immigration Requirements.	
	Film Size 17" x 14"	3.50
	15" x 12"	2.75
	14" x 14"	2.75
	12" x 10"	2.00
	10" x 8"	1.50
	8½" x 8½"	1.25
C.	Laboratory Examinations for Passport and Immigration Requirements.	
	Blood Test	0.50
	Urine Test	0.50
	V.D.R.L. or Kahn Test	1.00
	Sikes' Hydrometer Test	1.00
	Other Tests	0.50
D.	Vaccinations/Inoculations for Passport and Immigration Requirements.	
	Smallpox	0.75
	Typhoid	0.75
	Cholera	0.75
	Others	0.75
E.	In-Patients — Vaiola Hospital.	
	Food and Domestic Services— (Single Ward)	2.00 per day
	— (2-bed Ward)	1.00 " "
	— (4-bed Ward)	0.50 " "

These fees are not payable by :—
(a) Children up to the age of 12 years
(b) Patients in the Infectious Disease Wards.

For a patient in a 4-bed Ward the maximum fee payable will be $10.00, irrespective of the number of days the patient is in hospital at any one time. The fee of fifty senisi per day can be paid either in cash or in kind; if the latter, it should comprise root vegetables which are part of the hospital's diets and be to the approximate value of the patient's hospital bill.

The Director of Health will have discretionary powers to waive charges in the case of emergency and on being satisfied that a patient is unable to pay either in cash or in kind. The Director of Health may only use such powers when they relate to patients in 4-bed wards.

X-Rays laboratory tests, operations and other similar services rendered to an in-patient of the hospital will be free.

F.	Eye Clinic.	
	Eye Testing	Free
	Refraction	1.50
	Supply of spectacles and parts thereof	Landed cost
	Repairs to spectacles	Reasonable charge
G.	Dental.	
	Manufacture and fitting of complete set of dentures	40.00
	Partial denture - for first tooth and progressively less for each additional tooth	4.50

This scale will only operate when there is no private dental practitioner available and the work is done by a Government dentist without the right to private practice.

H. Fees payable by Government Servants.

An officer, his wife and children are entitled to free medical treatment. However, this privilege does not extend to cover tests, examinations, X-Rays, vaccinations/inoculations and certificates where there are required for overseas travel. Further, treatment does not cover food and domestic services for in-patients of Vaiola Hospital, the supply of dentures and spectacles.

II PERSONS OTHER THAN TONGAN SUBJECTS

		$
A.	Certificates.	
	(1) Health certificate required to fulfil Tongan Passport and Immigration requirements	0.75
	(2) Health certificate required to fulfil Passports and Immigration requirements of countries other than Tonga	1.00
	(3) Health Certificate required to obtain a job	0.50
	(4) Health certificate, other than for Passport and employments	1.00
B.	X-Rays.	
	(1) Film Size 17" x 14"	3.50
	15" x 12"	2.75
	14" x 14"	2.75
	12" x 10"	2.00
	10" x 8"	1.50
	8½" x 8½"	1.25
	(2) Special Investigations.	
	Barium Swallow, Meal and Enema-Screening and X-Ray	8.00
	Intravenous Pyelogram	10.00
	Retrograde Pyelogram	10.00
	Bronchography	8.00
	Cholecystography	6.00
	Others	4.00
C.	Laboratory.	
	Blood Test	0.50
	Urine Test	0.50
	V.D.R.L. or Khan Test	1.00
	Pregnancy Test	4.00
	Other Tests	0.50
D.	Vaccinations/Inoculations.	
	Smallpox	0.75
	Typhoid	0.75
	Cholera	0.75
	Others	0.75

E.	In-Patients.	Single Bed Ward	2-Bed Ward	4-Bed Ward
	(1) Vaiola Hospital			
	Food and Domestic Services	2.00 per day	2.00 per day	0.50 per day
	Accommodation	2.00 per day	1.00 per day	0.50 per day
	Charge at discretion of Matron for special nursing	1.00 per day	1.00 per day	1.00 per day

All supplies such as drugs, dressings etc. will be charged for at landed cost. and X-Rays/Laboratory tests in accordance with the scale of charges.

No fees are payable where the patient is accommodated in the Infectious Diseases Wards.

	(2) Hospitals other than Vaiola Hospital	
	Accommodation	1.00 per day
	Charge at discretion of Matron for special nursing	1.00 per day
F.	Midwifery. (to include ante-natal care, delivery and post-partum care	20.00
G.	Operations.	
	(1) Minor Operations	5.00 to 15.00 according to the severity of the operation
	(2) Major Operations	16.00 to 90.00 according to the severity of the operation.

The following shall be deemed Major Operations :—
(a) Major operations on eye, ear or nose;
(b) Operations on the lung, kidney, spleen, liver, gall bladder, intestines, stomach, pancreas and the genito-urinary system;
(c) Operations or amputations involving large bones or joints;
(d) Operations on the skull or brain;
(e) Operations in cases of empyema, cleft palate, fistula;
(f) Herniotomy, radical cure of hydrocele, tracheotomy, reduction of fractures and dislocations, ligaturing blood vessels.

(3)	Administration of Anaesthetics	3.00 to 10.00 according to technique used.
H.	Consultation/Medical Attendance.	
	(1) Consultation at hospital/dispensary	1.00
	(2) Consultation at place other than hospital/dispensary	
	(a) during normal office hours	1.50
	(b) outside normal office hours	2.00
	(3) Visit to any ships or vessel	
	(a) Alongside wharf	3.00
	(b) At anchorage	3.00 and cost of launch hire
I.	Eye Clinic.	
	Eye Testing	1.50
	Refraction	2.25
	Supply of spectacles and parts thereof	Landed cost
	Repairs to spectacles	Reasonable charge.
J.	Dental.	
	(1) Adults	
	Manufacture and fitting of complete set of dentures	40.00
	Partial denture - for first tooth and progressively less for each additional tooth	4.50
	Extraction per tooth	0.50
	Extraction complete	12.00
	Prophylaxis	1.25
	Filling each	1.25
	Treatment of Gingivitis	0.75
	Treatment of Nerve Canal	1.25
	(2) Children	
	Extraction per tooth	0.50
	Filling each	0.75

School children will receive free dental treatment, fillings, extractions and cleaning when this is carried out at schools.

This scale will only operate when there is no private dental practitioner available and the work is done by a Government dentist without the right to private practice.

K. Fees payable by Government Servants.

An officer, his wife and children entitled to free medical treatment under the officer's terms of service will be charged for tests, examinations, X-Rays, vaccinations/inoculations and certificates where these are required for overseas travel.

Further, treatment does not cover food and domestic services for in-patients of Vaiola Hospital, the supply of dentures and spectacles.

Entries close at 4.30 p.m. on Tuesday, September 28.

The following are excluded from entering the competition:

1. The people in the picture and their immediate families.
2. Employees of the Chronicle and the Government Printer and their immediate families.

Tongatapu Show Certainly Opened My Eyes

By Editor

Agricultural shows are very much a part of NewZealand life, but like many New Zealanders especially town-dwellers, I had lost interest in shows. I subscribed to the belief that if you've seen one you've seen the lot . . . that is until I went to the Tongatapu show last Friday and Saturday.

It was an eyeopener!

I don't know what I expected but I certainly didn't expect to see such good quality stock. The cattle, pigs and horses were most impressive animals to my layman's eye. I wondered where they were kept between shows because I had never seen anything like them in my travels around the island.

The produce, vegetables and handicrafts were as fine a display as I had ever seen at a comparable show in New Zealand. The stalls showed the wealth of Tonga as I believed it to exist.

But it was the entertainment on the arena that I will always remember. The displays of marching and playing by the policewomen and the police band were very polished; and there was humour, especially in the "secret weapon" of the Tonga Defence Force.

The large crowd obviously enjoyed the demonstrations of unarmed combat by the TDF and the policewomen, and so did I. You only had to notice the number of small boys trying it out on their friends afterwards to appreciate the influence it has had on them.

The horse-racing was more exciting than races I have seen in New Zealand and I was laughing hilariously along with the crowd during the musical ride.

The more-experienced tell me this was the best show for the last three years and the largest crowds. The estimate for Saturday was 8000 and Friday 6000. I for one am looking forward to next year.

NEWS IN BRIEF

The Department of Agriculture advises that people requiring day-old chickens should place their orders three weeks before the chickens are required, with the department office in Nuku'alofa.

The department also advises that it can supply up to 100 pullets for poultry farmers.

The Minister of Finance, the Hon. Mahe Tupouniua, is due to leave today for the Commonwealth Finance Ministers' conference in the Bahamas.

Tonga will be represented at the 11th South Pacific Conference to be held at the South Pacific Commission Headquarters in Noumea from September 21 to October 1 by the Secretary to Government, Taniela Tufui, and Assitant Secretary Sione Kite.

* * *

Chosen from potential candidates in the U.S.A, Britain, Switzerland, the Near East, Australia and New Zealand the Rev. Alan Quigley will be the new Principal of the Pacific Theological College when Dr. Knight retires at the end of this year.

Mr Quigey is a New Testament specialist.

He has been Minister of two parishes in New Zealand, Stokes Valley, Lower Hutt, and St. Paul's, Timaru. In 1967 he was granted leave of absence from Lower Hutt for the year to teach at the Pacific Theological College.

Mr Quigley will visit the P.T.C. the first week of October, but will arrive to reside on campus at the end of January, 1972. He will then be 40 years of age.

FEHU'I

SHELL COMPANY (PACIFIC IS.) LIMITED
TOULIKI DEPOT, NUKU'ALOFA

Tomato growers!

Diseases cost you money. Powdery Mildew, Leaf Mould and Botrytis cause severe damage and even death to tomato plants, reducing yield and affecting quality of the fruit.
In the past, fungicides have failed to give good control of these diseases, BUT NEW DU PONT "BENLATE" fungicide has proved excellent for controlling problem diseases of tomatoes and will give you bigger and better harvests. Apply 6-8 oz "BENLATE" to 100 gallons water applied every 7-14 days.

DISTRIBUTED IN THE PACIFIC ISLANDS BY:—
Neill, Cropper & Co. Ltd.,
G.P.O. Box 1440
Tel.: 381-772 Suva, FIJI.

Consult your local SHELL DEPOT for supplies and advice.

BENLATE® gives better and bigger harvests.

BACARDI, ice and what?

and ginger
BACARDI rum, ginger ale, and ice—a spicy, daring new way to drink BACARDI rum.

and Coke
Pour BACARDI rum over ice and add enough Coca-Cola to drown a thirst. A classic drink and something else.

and tonic
Pour one jigger of BACARDI rum into a highball glass with two or three ice cubes. Add tonic water, a zest of lemon or lime and . . . Wow!

and what else?
Try BACARDI rum with anything — lime, orange, bitter lemon, crushed mint. You'll find *anything goes with* BACARDI rum.

Anything goes with BACARDI rum.

BACARDI and the Bat Device are registered trade marks of BACARDI and Company Limited
'Coca-Cola' and 'Coke' are the registered trade marks of The Coca-Cola Company

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, September 22, 1971 Vol. VIII No. 16 3 Seniti

Injured Games Boxer Left In Papeete

Viliami Sovaleni, the boxer in the South Pacific Games team who broke a leg when he was struck by a car in Papeete before the games started, will not be able to return with the team tomorrow. He was to undergo another operation to his leg.

In a letter to the president of the Tonga Amateur Sports Association, Mr. Carl Riechelmann, the team manager, Mr. Jack Barnard, said he was seeking legal advice with a view to making a claim for damages for the injured boxer.

The letter said Viliami was crossing the road when he was struck by a car driven on the wrong side of the road. The woman driver has had her licence confiscated by the Tahiti police.

The manager of the boxers, Mr Adolph Johannson, was quoted in the letter as saying that Viliami, Tonga's light heavyweight contender, was a likely gold medal winner in his division.

As it was, the Tongan team of 13 boxers and athletes was the most successful team at the games, on a man-for-man basis. They won four gold medals, three silver and four bronze . . . a total of 11 medals for 12 competitors.

The next South Pacific Games will be held in Guam in 1975.

NEW JET: Air Pacific's first jet airliner is 90 per cent complete on the British Aircraft Corporation production line at Weybridge in England.

HELP FROM FIJI

Here for two weeks to help get the new Vaiola Hospital going are two experienced people from the Colonial War Memorial Hospital in Suva, Mr George Shah (left), a laundry supervisor, and Mrs Senimili Tuivanuavou, a dietitian. They are talking with the hospital administrator, Mr Vincent Williams.

Mr Shah is helping organise the the laundry at Vaiola and have it running properly for opening day on Saturday. Mrs Tuivanuanou is assisting the hospital's two dietitians with the catering and the functioning of the kitchen equipment.

Mrs Tuivanuavou left her leave and a newly-married husband to help Tonga. Her husband, a former A.D.C. of the Governor of Fiji, has gone to New Zealand where his wife will join him when her work is finished in Tonga.

Mrs Tuivanuavou is a sister of the Prime Minister of Fiji, Ratu Sir Kamisese Mara, and has relatives in Tonga.

Mr Shah and Mrs Tuivanuavou told the Chronicle they were most impressed with the new Vaiola Hospital, the building and the equipment.

The gleaming kitchen at the new Vaiola Hospital where food will be prepared for all the patients and nurses. Using the modern new equipment are cooks 'Ana Taumoepeau (foreground) and Temalisi Moimoi (rear). Supervising is dietitian Mele Malolo.

PLEASE STAY AWAY FROM HOSPITAL

The move to the new Vaiola Hospital at Tofoa takes place this weekened and the Health Department asks the public to keep away from both hospitals during the changeover.

All Health Department staff will be extremely busy making the arrangements for moving patients, equipment and stores and the public are asked not to use hospital services over this period unless it is absolutely necessary.

The main hospital services will transfer on Saturday starting about 8.30 am and this move should completed by early evening. Hospital offices such as Medical Records, the Director of Health's Office, the Hospital General Office and some other sections such as M.C.H. Nursing and Nursing School will be transferred tomorrow.

Normal emergency outpatient and inpatient services will be operating at the new hospital from 8.30 am on Saturday morning. All hospital and Health Department services will be operating normally from the new site by Monday morning.

The new telephone switchboard will be operating from today to assist staff in moveover arrangements. This will mean that two lines from the old hospital have been switched over leaving only three lines, instead of five, on the old board.

The public again are asked to cooperate by not making calls to the hospital unless it is absolutely essential over this period.

All emergency calls and emergency inquiries should be made to the old hospital up to Saturday 8.30 am and after then to the sew hospital on numbers 200 and 201.

The Dental Section is established at the new hospital, having moved over on August 30. The Public Health Section moved over yesterday.

"DEAR SIR..."

Scholarships

Dear Sir.—Every student receiving a scholarship has gone through very close screening by a scholarship board, whom I think, are aware of what they are doing.

A scholarship is granted according to qualifications so the mere passing of exams does not entitle any student to a scholarship unless the required subjects and the appropriate capabilities are seen in the student's records. The board also needs a student who can do well in the long run and pass tests through the years.

On the whole, Tonga High School students are very much younger than Tupou High School students. The Government needs younger prospective students. Tonga High School has chalked up more U.E. passes over the last two years, so they should get more scholarships. The most important point here is that we should trust the selectors for they know what they are doing. A great deal of money is spent on each student so it would be bad security to have a scholarship granted as a favour.

LISIATE II.

* * *

Dear Sir. — In connection with the granting of scholarships, I support J. O. Arnold's view.

Did 'Isileli Falekāono know that an 80% pass in Biblical study is inferior to an accounting scholarship requiring maths? A 51% in maths will be taken into notice for the scholarship rather than an 80% in any other subject. Why is this? All scholarships need basic subjects e.g. accountancy needs a pass in maths.

The scholarship board is not comprised of any ordinary people but of high officials and head of departments. They know whot they are doing and that is why they were chosen to do it.

S. L.

In Defence

Dear Sir, — as a regular reader of your paper, I notice in recent publications the agricultural growers, particularly the banana farmers, have been critised for the condition of presentation of their goods. I feel this is very unjust.

As a dairy farmer in New Zealand I wish to defend the growers and explain what I feel is the main reason for the condition of the fruit marketed here.

The long delay on the New Zealand waterfront I would say is the problem.

This must have something, if not everything to do with the over-ripe condition of the fruit, which in my opinion is the only point that the fruit could be condemned on.

Otherwise we New Zealanders find them most acceptable.

RON BRIDSON,
Te Awamutu, NZ.

LETTERS TO THE EDITOR.

Handigrafts

Sir, Handicraft vendors in Va'a'u on tourist boat days subscribe to inappropriate if not altogether repulsive methods. They virtually force their crafts on the visitors giving them very little or no chance to think about what they are buying. This is wrong. Witnessed cases have indicated that people who do not drag tourists around often sell more than those who do.

Vava'u has natural tourism potential and would soon be an incentive to calls by tourist boats. This would undoubtedly be of inestimable economic value to us. However, the above-mentioned trends in handicraft vending are already seen among those who deal with tourists off the "Tofua". If this is the case with only a handful – one wonders what it will be like with the bigger tourist boats.

BARE TRUTH.

Sunday Law

Dear Sir.—Is Sunday really being kept as it should be, in Tonga? I wonder what the Government thinks when they allow the Clubs to open every Sunday.

If the Government doesn't think this is illegal, I consider it rather funny, after all its the Government who states that no money-earning business whatsoever should be practised on Sunday.

I think it's about time the Tongan Government should direct their attention to this Sunday question, for not only it is unfair, but also it sets a bad example.

DISSATISFIED.

New Appointment

A career officer of the New Zealand Ministry of Foreign Affairs with long experience in Pacific affairs, Mr William Gary Thorp (above), took up his new appointment as New Zealand High Commissioner to Western Samoa and Tonga at Apia last Thursday.

He succeeds Mr Richard Taylor, who has returned to New Zealand for reassignment. Mr Thorp was formerly New Zealand Commissioner in Hong Kong and Minister to the Phillipines.

During his early years with the Ministry of Foreign Affairs, Mr Thorp served in the Pacific and Trusteeship Affairs Division. He later represented New Zealand at the United Nations on the Trusteeship Council and the Assembly Committee concerned with trust and non-self-governing territories.

He also represented New Zealand at Ottawa and Geneva and at many international conferences, including the South Pacific Commission, before his appointment to Hong Kong in 1968.

Mr Thorp, who is 48, is married with four children.

HOSPITAL WEEK COINCIDES WITH MOVE TO NEW VAIOLA

Coinciding with the move to the new Vaiola Hospital, the annual Hospital Week, organised by the Hospital Board of Visitors will be held from Saturday until October 3.

The aim of the week each year is to raise funds for the purposes of the board, but this year fund-raising activities will be on a reduced scale because the board thought it unfair to ask the public to make large contributions at this time when church payments are due and after such generous giving to the fund for the South Pacific Games team.

The Board of Visitors provides amenities for patients and staff of Vaiola Hospital in the way of services, equipment, furniture and other items which it is not the Government's duty to supply.

On the recommendation of the Director of Helth, the board also wants to raise funds to provide financial assistance to patients who, because of lack of facilities in Tonga, require to go abroad for treatment and are unable to meet the expenses.

Activities during 1971 Hospital Week are :

Saturday - - Changeover to new hospital;
Thursday, September 30 - - Film evening at Tali'eva Theatre;
Friday October 1 - - Dances at St Andrew's, St Josephs and 'Asisi Halls.
Saturday, October 2 - - Bazaar on the open area near Talamahu Market, opposite Morris Hedstrom, run by Mrs Jean Robertson.
Sunday, October 3 - - Nurses and hospital staff church service.

Tickets for the dances and film evening will be 20 seniti each. They can be bought from members of the Board of Visitors, the treasurer Lipoi Tupou or the secretary, Major McGregor of the TDF. Cash donations should be handed to either the treasurer or the secretary and a receipt obtained.

Donations for the bazaar should be given to Mrs Robertson or the secretary.

There will be no ball during Hospital Week; this was held on June 4 for the opening of the new hospital.

A BETTER TEACHER

Four teachers returned to the Kingdom early this month after completing a five-month observation - course in New Zealand on methods of teachings. They were : Mr Tevita Ma'ilei, Tonga College, Mr Tevita Fe'ao, Catholic Primary School, Miss 'Ana Peti, Nuku-'alofa Middle School and Mrs Setaita Panuve 'Ululua, Nuku-'alofa Government Primary School.

The picture shows Mrs Setaita Panuve 'Ululua, receiving a certificate from the inspector of schools for the Pacific Islands, Mr John Kennedy, at the end of the course. Mrs 'Ululua is the Infant Mistress at the Nuku'alofa Government Primary School.

The course was arranged by the New Zealand Government under a Commonwealth Education Scheme. Its intention was for teachers from the Pacific islands to study and observe the New Zealand syllabus and to further their teaching experience.

The observation-course took them to many primary and intermediate schools, mainly in the Auckland area.

For two months, with teachers from Fiji, Samoa, Gilbert and Ellice Islands, Tokelau, Nauru and Niue, they were at Ardmore Training College in the township of Paerata, near Auckland.

NEWS FROM HANGO COLLEGE

The second and third year students of Hango Agricultural College went on the first of their bi-annual trips to Fiji on the first week of July. They stayed at the Methodist Church Agricultural College, Navuso.

At the wharf they were shown three larvae which were preserved in a bottle, and were told that it was found in a case of capsicum from Tonga.

Some of the places they visited include the Rewa Dairy Factory and the copra mills. In the Government Buildings they were given a talk on Fiji's development by the Minister of Natural Resources the Hon. Doug Walkders Brown.

They also visited the Government Agricultural College, Koronivia, Lakena Hatchnay and the Cuest Mills Ltd where livestock and poultry feed is produced, Singatoka Research Station, Valley Industrial Co-operative Association Ltd., Lautoka Sugar Mills Experiment Station, and the Meteorological Service at Nadi Airport.

At the University of the South Pacific they were showed around by 'Inoke Faletau, a former secretary to government. In the science laboratory they saw various land and sea organism.

— T. MUSELE PALU.

Birth Control More Urgent

A representative of Unicef, the United Nations Children's Fund, has said in Sydney that help in birth control was more urgent to developing countries than aid in food production.

The Unicef representative in the Philippines, Mr Antony Meager, said that increased food production would only postpone widespread famine until later in the century.

Tongan Christian Fellowship In Melbourne

News about Tongan Christian Fellowship in Melbourne and a Tongan students success, is contained in letter from the secretary of the fellowship, Semisi Eti Lātū :

In the early part of 1969 the Tongans in Melbourne conferred to find ways in which they could be brought closer together to promote mutual assistance, individual relationship and closer understanding.

On the last Sunday of February, 1969, the Tongans in Melbourne held their first service in the Tongan language, conducted by the Rev. Dr. A. H. Wood, who worked as a missionary for many years in Tonga.

After the first service the Tongans in Melbourne agreed to hold a monthly service on the last Sunday of every month in the Wesley Church.

Since then the Tongan community has been keeping this fellowship and they have named it The Tongan Christian Fellowship.

The fellowship comprises Tongans from different Christian sects, with the majority of the members being Weslevans, Anglicans and Seventh Day Adventists.

We are fortunate to have the help and guidance of former missionsaries to Tonga including Rev. McKay, Rev. Woodgate, Dr. Wood, Rev. H. D. Secomb and Rev. G. C. Harris.

Apart from the monthly services, the Fellowship also interests itself with outside activities. Last year we collected $500 which we donated towards the building of the new hospital in Tonga and $200 to help Tongan students who have financial difficulties here in Melbourne.

We rejoice in knowing that what we do is useful to Tonga.

We would like to thank all the Tongans who helped us when they visited here. These include Rev. Siupeli Taliai, Rev. 'Isikeli Hau'ofa, Samiuela Ha'unga and Mrs Manu Faupula.

The Fellowship extends an invitation to any Tongan visiting Melbourne to share with us a Sunday afternoon starting at 4 p.m. in the Wesley Church, 148 Lonsdale St., Melbourne.

The secretary of the Fellowship, Mr Semisi E. Latu maybe contacted at the Methodist Lay Training Institute, 73 Walpole St., Kew. Phone 866945.

ACADEMIC ACHIEVEMENT

Liufau Vailea Saulala the son of Mr and Mrs Saulala of Leimātu'a, Vava'u has completed his BA. (Bachelor of Arts) degree. He was capped on Saturday night, August 14 by Australia's retired Prime Minister, Sir Robert Menzies.

Liufau is the first Tongan to graduate from Melbourne University.

He attended Tonga College and Tupou College where he passed the Higher Leaving Certificate Examination. He was the 1967 dux of Tupou High School from where he passed the University Entrance Examination with honours.

The Tongan Christian Fellowship held a thanksgiving service to mark Liufau's success on the night of September 14, conducted by Rev. G. C. Harris, a former President of the Free Wesleyan Church of Tonga.

High Education Achievement

Among some 14 students who graduated from the University of Papua and New Guinea during its last graduation ceremony was a Tongan girl Jeffrey Tāufa.

Miss Tāufa is the daughter of Bishop Sione Tāufa, a Tongan missionary who has worked in the Solomon Islands and Papua New Guinea for more than 20 years.

Jeffrey is not the only one in the Tāufa family with high education. A brother, 'Amalani, recently graduated as a doctor from the Papua Medical College and another brother Liuaki attends the Institute of Technology in Lae.

Venereal Diseases Spreading Pacific At Alarming Rate

Venereal diseases are spreading at an alarming rate and a critical situation has been reached in the treatment of gonorrhoea, says Dr. Francisco J. Dy, Regional Director of the World Health Organization for the Western Pacific.

Increased resistance of the gonococcus (organism causing gonorrhoea) to certain common antibiotics has been reported in many countries. As a result more expensive antibiotics are required for treatment.

Dr. Dy said that the possibility of the general spread of resistant organism is a matter of the greatest concern to health authorities throughout the Western Pacific."

In his Annual Report for 1970-1971, Dr Dy said that evidence from several countries does not support hopes for a rapid elimination of the venereal diseases.

"One great difficulty is that health authorities can seldom assess the situation properly due to non-reporting of cases and widespread self-treatment. This brings erroneous optimism in the statistics. Control is particularly difficult whenever larger scale movement of the people, tourism or military action are taking place.

"The traditional attitudes toward sex are also undergoing a profound change in Asia as elsewhere in the world. Modern living is characterized by increasingly casual sexual relations in large segments of the population and at a younger age.

"As in other parts of the world, one result is the disquieting increase of venereal disease in adolescents," Dr. Dy stated.

Dr. Dy explained that venereal disease control can be effective only on condition that appropriate legislation exists, properly trained venereologists or general practitioners are available, there are adequate epidemiological services, adequate facilities for serological diagnosis of syphilis and bacteriological facilities for diagnosis of gonorrhoea. Health education is important in order to obtain the co-operation of the public.

Dr. Dy added that "it appears necessary to remind some countries that they are required to provide facilities to merchant seamen for the treatment of venereal diseases, as provided in the International Agreement of Brussels.

"In some cases treatment centres at ports are not available, training of personnel is not conducted, equipment is not up-to-date and treatment is not always free."

Seventeen countries in the Western Pacific should be participating in this programme, Dr. Dy said.

Banana growers!

Weeds and grasses cost you money. When you first plant your bananas, weeds and grasses severely affect the growth of the crop. By spraying the ground with DU PONT "KARMEX" at 1½-3 lb per acre at planting time, bananas will make maximum growth which means easier harvesting and BIGGER YIELDS. In established bananas, an application of "WEEDFREE" 235 at 4 pints per acre plus "KARMEX" at 2-4 lb per acre will kill established weeds and grasses and also keep the ground clean for a long time.

"WEEDFREE" ® 235
is a contact weedkiller which 'burns-off' weeds and grasses to ground level.

"KARMEX" ®
is a residual weedkiller which keeps the soil free of weeds for a long time.

no weeds — quicker growth — bigger crops.

Tongan Biologist Honoured

John Fatu of Ma'ufanga has been informed by Dr. Harald A. Rehder of the U.S. National Museum, The Smithsonian, in Washington, D.C. that a sub-species of abalone is being named after him. The shell, a relative of the New Zealand paua shell, comes from the Ha'apai group and is now to be called, Haliotis sepiculata fatui Rehder, 1971. (fatui would be pronounced in Tongan, fatuai).

Mr Fatu has been honoured because it was through his efforts and preliminary investigation that the shell was brought to the attention of authorities outside of Tonga.

Mr Fatu is sure Tonga has various other species and sub-species that are markedly different from those known outside the Kingdom. Little work has been done on Tongan shells as compared with other islands of the Pacific, and according to Mr Fatu, Tonga should lay claim to the naming of species endemic to the local waters so that shell collectors will be drawn to the islands for longer periods than most tourists usually spend in the Kingdom.

Youth Club Champions

The Sātisi Youth Club team which won the trophy for the Kolomotu'a Wesleyan youth clubs' senior basketball competition. They are :

Standing : S. Niuvao (assistant coach), L. Kimo, M. Palu, P. Vete, 'A. Mafile'o, T. Silifou (coach).

Sitting : I. Skeen, S. Fulivai, L. Kaho.

Front : 'E. Tovo, L. Baker (captain).

Claim Against Chronicle

A claim for $100 damages against the Chronicle was heard in the Magistrates Court at Nuku-'alofa this week.

Boxer Sione Havili claims that the Chronicle published on June 3 a false report of a bout he had on May 20 in Pago Pago, American Samoa.

Magistrate Sione Malekamu Manu referred the case to the Supreme Court.

Information

Entries for the "Name the Faces" competition in last week's Chronicle close next Tuesday, September 28, at 4.30 p.m.

The winner will be announced in next week's Chronicle.

All entries are being numbered as they are received and the winner of the contest will be the first correct entry opened.

KINDERGARTEN

A Kindergarten general meeting for all parents of children on the roll and on the waiting list on Monday October 4, at 7.45pm at the residence of Mrs Kato Riechelmann. Please make an effort to be there.

EDUCATION NOTICE

The public is informed that information concerning external studies for 1972 from the Extension Services of the University of the South Pacific, is now available in the Education Office, Nuku'alofa, and from the area organisers of Ha'apai and Vava'u.

Interested persons should call in person at these offices where they may read the information booklet.

News Tip

Ring the Chronicle, Nuku'alofa 302B, or come to the Chronicle office, Premier's Office, if you think you know of a news item or have a news picture.

REGISTRAR GOING TO LONDON

Mr Viliami 'Unga Hafoka (45), the Registrar of the Supreme Court, has been appointed the Administration Officer of the Tonga High Commission in London.

Mr Hafoka entered the Government's Service as a junior clerk in October 1946 and has worked in various Government Departments until 1968 when he was promoted to the post of Registrar of the Supreme Court which he held until his new appointment.

Mr Hafoka was educated at Tonga College from where he passed the Leaving Certificate Examination in 1944 and the Public Service Examination Certificate in 1945.

Apart from being a prominent student in the classroom, Mr Hafoka also shone on the sporting field as an athlete and rugby player.

In 1966 he was chosen to attend a course on public administration in Canberra, Australia sponsored by ASPTAP (Australian South Pacific Technical Assistance Programme). He successfully completed the course and was granted a certificate in public administration.

In London, Mr Hafoka will be responsible for the general administration of the office of the Tonga High Commissioner, Baron Vaea, and will work with the secretary to the High Commissioner, Mr Tevita Tupou.

Mr Hafoka and his family will travel to London as soon as arrangements are made for their accommodation.

Elected To U.S. Police Association

Mr Lātū Popi Mafile'o (27) of Kolofo'ou has been elected member of the National Detectives and Special Police Association in the United States of America.

Lātū is the son of Mrs 'Aioema Fa'oa of Kolofo'ou and the late Mr 'Alipate Mafile'o. He left for Hawaii early last year to pursue training in his field.

He has just completed a course and passed the examination of the Association for which he was awarded a certificate of membership of the Association.

INTERPOL : Fiji has joined the international police agency, Interpol.

Constable, Two Customs Officers And Seaman Face Charges

A police constable, two Customs officers and a seaman are facing Court charges in connection with beer stolen from the "Niuvākai" last week, while it was berthed at Queen Salote Wharf.

The constable will face a police inquiry. All four men have been suspended from their jobs pending the hearings.

The four men are Viliami Makasini (constable), Vai Fetongi Lino and Sitiveni Vete (Customs officers) and Palei Finau (seaman).

The police were informed last wednesday by the second officer of the "Niuvakai", 'Esi Tonga that beer was missing. Following invetigations, the four men were taken into custody.

Commenting on the investigation, Inspector Sione Fetu'u of the Nuku'alofa Central Police said that members of the Criminal Investigation Branch found only empty beer cans but there was sufficient evidence to connect the four men to the misssing beer and charge them.

The police refuse to specify the exact nature of the charges at this stage.

Commenting, Acting Superintendent of Police, Sione Falepapalangi, said it was proper that the public should be informed of the case to deter those who habitually steal goods from ships berthed at the wharves.

100,000 CHILDREN DEAD: A British doctor working among East Pakistani refugees estimates that 100,000 to 150,000 children aged under eight have died in West Bengal's camps.

VISITOR FROM FRANCE

Paying his first visit to Tonga this week was the French Ambassador, His Excellency Mr Christian de Nicolay. On Monday he presented his credentials to His Majesty and the picture was taken at the palace. Mr de Nicolay is based in Wellington, New Zealand. Also visiting the Kingdom this week was the British High Commissioner, His Excellency, Sir Arthur Galsworthy.

Their Majesties' State Visit To India

His Majesty King Taufa'ahau Tupou IV and Queen Halaevalu Mata'aho leave on Monday on a State Visit to India. It will be their second official State Visit since Tonga's re-entry into the Comity of Nations. The first was to New Zealand.

Their Majesties and party will leave Tonga on Monday afternoon by Air Pacific for Nadi, Fiji resting there one day before departing for Singapore by Air-India on September 29. Their Majesties arrive at Madras on Friday, October 1 and depart on the morning of October 2 by Indian Air Force plane for New Delhi. The State Visit to Iidia officially commences on Their Majesties' arrival at New Delhi.

Their Majesties will be accompanied by :

Hon. 'Akau'ola, Minister of Police who will be Minister of State in Attendance during the Visit; Major the Hon. Kalaniuvalu-Fotofili, Aide-de-Camp to His Majesty the King; Miss Lātūniua 'Ahome'e, lady-in-waiting to Her Majesty the Queen; Miss Seini Vakasiuola, nurse to Her Majesty the Queen; Mr Toutai Tupou, valet to His Majesty the King: Mr Tu'a Taumoepeau, Assistant Secretary to Government.

The return journey to Tonga will follow the route to India but will begin from Bombay. At Singapore there is a three-day rest period. From Singapore Their Majesties transit Sydney to Nadi where there is a one-day rest period and arrival in Tonga is expected to be on October 16.

His Excellency Mr Bhagwan Singh, India's High Commissioner to Tonga, will be at New Delhi on Their Majesties arrival and will accompany Their Majesties throughout the visit. Similarly, Mr Lal of Air-India will arrive in Tonga on Saturday and will accompany Their Majesties on the journey to Sydney where another Managing-Director will take over to Singapore and another Director continue to India.

CHRONICLE

English and Tongan editions published at Nuku'alofa each Thursday by the Information Office, Government of Tonga. Authorised for transmission by post as a newspaper.

Next "Tofua" Indefinite

Butter and mutton may be short in the next few weeks and beer even scarcer than it is now, because the freighter "Tofua" is held up in Auckland by a strike of workshop staff.

A spokesman for the Union Steam Ship said its expected time of arrival in Nuku'alofa is indefinite.

The "Tofua" was loaded and 68 passengers were on board when it was delayed.

The Union Steam Ship island freighter "Taveuni" arrived at Nuku'alofa on Saturday as scheduled but could not leave on time. By midnight Saturday, all cargo for Auckland was loaded but all inward cargo for Nuku'alofa had not been discharged.

Because of the Sunday law, work stopped at midnight on Saturday and resumed at midnight on Sunday and the vessel was able to depart by 6.30 on Monday morning.

This And That

CHRONICLE DIARY

Owing to a prolonged electricity breakdown the printing of the Chronicle this week has been unavoidably delayed. We apologise to readers for being late.

* * *

Pacific Islands Monthly tells us that among the many things the Rev. Shirley Baker gave to Tonga was its own bank — something it does not have today. It was said to be a successful enterprise. The magazine has a picture of one of the cheque forms used by the bank. Can anyone tell us what happened to the Bank of Tonga?

* * *

Shame on the Nuku'alofa school (which shall remain nameless) which flew the flag of Tonga upside down all day on Tuesday.

* * *

We wonder what impression visitors to Tonga get when the Dateline Hotel bus in which they were travelling from the airport had to swerve to avoid three very drunk young men staggering along the middle of main street of Nuku'alofa at 11.30 in the morning.

* * *

The French Ambassador, Mr Christian de Nicolay, was most impressed with the playing of the French national anthem by the Tonga Police Band when he presented his credentials to His Majesty on Monday afternoon. "Please congratulate the band for me", he told us.

* * *

The captain of a Korean fishing boat in Suva literally thashed all 22 of his crew of the backside with a piece of timber when he found them asleep when they should have been working.

* * *

At the South Pacinc Games, the novice Cook Island's soccer team lost to French Polynesia 30–0 . . . and it could have been more. The Cook Island's goalkeeper saved at least 50 other possible goals. We wonder how Tonga would have fared.

* * *

A brand of crayons from Communist China, called Children's Friend, could be lethal to children because of a highly poisonous lead content. This and other brands from Comlysed in Fiji and may be banlysed in Fiji and may be banned. Children's Friend crayons have been sold in Tonga, and parents should keep all Chinese crayons away from children until the results of the tests are known. The yellow crayon is particularly dangerous, we've been told.

Banana growers!

Weeds and grasses cost you money. When you first plant your bananas, weeds and grasses severely affect the growth of the crop. By spraying the ground with DU PONT "KARMEX" at 1½-3 lb per acre at planting time, bananas will make maximum growth which means easier harvesting and BIGGER YIELDS. In established bananas, an application of "WEEDFREE" 235 at 4 pints per acre plus "KARMEX" at 2-4 lb per acre will kill established weeds and grasses and also keep the ground clean for a long time.

"WEEDFREE" ® 235
is a contact weedkiller which 'burns-off' weeds and grasses to ground level.

"KARMEX" ®
is a residual weedkiller which keeps the soil free of weeds for a long time.

no weeds — quicker growth — bigger crops.

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, October 14, 1971 Vol. VIII No. 19 3 Seniti

NO FEAR OF SHORTAGE OF FUEL: SUPPLIES COMING

The sinking of the oil barge "Lolomana'ia" last week has broken the vital fuel line from Suva to Tonga, but the Kingdom is not facing a fuel shortage. Four to five weeks supply is in storage and new supplies are on the way.

A meeting last Thursday of Government and suppliers, called by the Acting Prime Minister, the Hon Mahe Tupouniua, agreed there were adequate stocks of petrol, diesel and kerosene, provided there was no panic buying by the public. Retailers have agreed to maintain normal selling; to fill only petrol tanks in cars and not containers.

Present stocks are even adequate to meet the 600 gallons a day of diesel required by the oil drillers at Kumifonua No. 1. The 900 gallons a day used by the power board is also assured for some time yet.

Relief supplies of fuel are coming.

On Monday, the LCT "Sir Allen", which delivered the heavy oil-drilling equipment from Brisbane, left Nuku'alofa for Suva and will return on Saturday with 50,000 gallons of diesel.

The "Sir Allen" had been standing-by awaiting the outcome of the exploratory drilling.

Shell and British Petroleum oil companies are also negotiating to bring the tanker "Pacific Mariner" to Tonga and this could arrive within two to three weeks with fresh supplies of petrol and oil.

The "Pacific Mariner" is manned by a Tongan crew and is on the Pacific Circuit. At present it is believed to be on the New Guinea coast.

The "Pacific Mariner" could become the regular way of getting fuel to the Kingdom in future, but there has also been a suggestion of the Government chartering a vessel.

His Majesty, King Taufa'ahau Tupou IV, in his speech from the Throne at the closing of Parliament on September 23, said a modern tanker could ultimately replace the "Hifofua" and the "Lolomana'ia".

The "Lolomana'ia" is lying in 700 fathoms of water, 15 miles south-east of Vatoa Island in the Lau group. Fears of pollution from seepage have been expressed in Fiji, but the Tonga Marine Superintendent, Captain Chris Hill-Willis, told the Chronicle that the petrol and diesel should disperse at such a great depth, without polluting the beaches in the Lau group.

India Wants To Help With Oil

An offer of training facilities in oil exploration and drilling in Tonga and assistance in designing and constructing an oil refinery was made by the Indian Minister for Petroleum and Chemicals, Mr Sethi, when he called on His Majesty, King Taufa'ahau Tupou IV during the State Visit to India.

His Majesty had discussions with experts of the Oil and Natural Gas Commission in New Delhi and was told of the progress made by India in the exploration for oil. At the Institute of Petroleum Exploration at Dehradum, His Majesty was shown a film, "The Struggle for Oil".

His Majesty said if oil is struck in Tonga it would become "the Kuwait of the South Pacific".

An agent was appointed in India by His Majesty during the visit.

Books On Wheels

The U.S. Landing Ship Dock "Monticello" arrived on Monday with a mobile library for Tonga, a gift from the State of Hawaii to the Education Department.

In 1967 the Minister of Education, the Hon. Langi Kavaliku, discussed with Governor Burns of Hawaii the possibility of making available a mobile library to Tonga.

From then on correspondence had been carried out between the Education Department and representatives of State of Hawaii. In January 1970 the department was informed that a mobile library was available.

...Transport was the difficulty because the library was too heavy for cargo ships so Tonga had to wait for a suitable vessel coming this way. The "Monticello" was that vessel.

...The mobile library will be used to distribute books to the schools in Tongatapu.

On Monday afternoon the library was officially handed over to the Acting Prime Minister, Hon. Mahe U. Tupouniua by Captain Walter T. Spangeurg of the "Monticello", in the captain's cabin, in the presence of the American Vice Consul Miss Dolores Mann, at present visiting Tonga and the Senior Education Officer, Mr Na'a Fiefia. ...

...The picture shows the bookmobile being lowered on to Queen Salote Wharf from the U.S.S. "Monticello". ... ...

"DEAR SIR..."

LETTERS TO THE EDITOR.

Offenders

Sir.—As we are all aware there are certain of our offspring who are dubbed the 'Haua'. These show a general reluctance to earn a living through work but prefer the freer life of wandering about and doing nothing much. Along with these there is another group, commonly known as 'Lalekinis' who, behave more or less the same way all the time. Then there is a third group, the 'Fakafefine'.

Although these groups are rather badly behaved at times. I feel that our grounds for running these groups down are unfounded. The act of writing them off is unfair and does not allow for equal justice before our legal system.

I refer here to a present regulation of the Dateline Hotel which empowers the management to refuse entry to the 'Fakafefine" Perhaps some other person offended the management and thus brought wrath on the rest of us. I am appealing because nothing could be more embarrasing than for one to show up with a few overseas friends and then get kicked out for no reason apart from being told that the manager said so.

I therefore put it to the Dateline Hotel management that a list be kept of all who offend, thus facilitating the refusal of entry to these people should they show up again. It is only fair that law-abiding people should not have to suffer for the wrongs of a minority.

P. DAVID FA'APOI.

Scholarships

Dear Sir.—According to the letters written by J. O. Arnold, S. L. and Lisiate II, I would like to say that I completely disagree with them and I like to make it clear to them the following facts.

First, students of Tupou High School are doing Biblical Studies but they do other subjects too, such as Maths, Accounting, Physics and Chemistry. However, when they apply together with other students to a scholarship, the Tonga High School students automatically get that particular scholarship. Why is that?

Some students have passed their U.E. with more than 80% in Biblical Studies together with more than 50% in English, Maths and Accounting, but why does the scholarship committee just offer the B.Com. scholarship to a student just only passed in Maths without doing Accounting before?

Second, it is true that the scholarship committee is made up of Government high officials, but we should note that they are very conservative. Lack of scholarships is also true but if the best students with the best qualifications get the scholarships, there would be no complaints.

Finally if more scholarships are given to Tonga High School than other schools, apparently they are not better than other schools but obviously, there is a partiality in the scholarship committee.

REV. H. R. TEMER.

(This correspondence is now closed).

Work Chances

Sir.—The majority of the Tonga populace have practically no means of support. Only a few had the good fortune to share in the grants of land made by Tupou I.

These people should be given some help so they can travel overseas to places like New Zealand where they can find employment. This would in turn help relieve these persons of certain financial burdens. They have families to maintain, children to educate, poll tax to pay, besides a few other Government debts, but they have no land.

The allocation chances to people from co-operative societies only is unfair. Everyone is under the same burdens I have mentioned.

Today, we have to pay for medical treatment, thus only those with tax allotments can manage. I wonder how the landless will fare under the circumstances.

I believe that anybody with land could earn as much as the average person could by working in New Zealand.

The question of the 'haua' does not enter into my discussion. I refer in the main to responsible people with obligations but who are without reasonable means of support and who have all the rights to partake of the Tonga – New Zealand employment scheme initiated by His Majesty King Taufa'āhau Tupou IV.

A parting question to Secretary to Government: What standards to you have for selecting participants in this scheme? Dou you not feel that the people I have mentioned are the right choices?

SALESI TONGA.

Coconut Prices

Dear Sir.—Regarding coconut prices: the publication of marketing prices for desiccated coconut, husked coconuts, copra and even profits from growers.

Criticism and complaints are usually about whether there is any profit in the sales and how much; what expenses have to be paid off, how much goes in salaries and wages. Then there is also the matter of misappropriation of certain sums of money within departments.

The end product of it all is that the grower is left with next to nothing.

The blame, I believe, lies in certain restrictions and limitations which are being placed upon growers. This removes their basic freedom. As a result, certain provisions of the perfect Constitution granted by King George Tupou I, are contravened. It is this removal of freedom which invokes complaints.

CONCERNED.

Students Need To Mingle

A plea for Aucklanders to invite students from the Islands into their homes comes from Dr Joe Fanamanu in a letter to the editor of the New Zealand Herald. He writes:

"As newly appointed manager of the Tonga Government hostel in Epsom, I find that Tongan students are very much on their own at home and at Auckland University as well.

It appears that, after experiencing the shock of a foreign culture, they have difficulty in orienting themselves to their surroundings. This tends to bring them together in their free moments in a group of their own—a group that serves as a source of assurance in most of their social interactions with others.

Such a group ensures togetherness and confidence but certainly does not promote contact with New Zealand students, which would certainly help the Tongans in upgrading their knowledge and understanding of the difference aspects of culture and social etiquette consistent with life in New Zealand.

When Island students form their own clique, it will be very difficult for them to discern the best New Zealand intentions, as their interpretations of words and deeds will predominantly be based on their Island point of view and they will unreasonably feel slighted most of the time.

How wonderful it would be if some kind family would one day invite some of my students to their house for a meal and a talk about their studies, life in Auckland and life in Tonga.

If anyone is intending to visit Tonga, my students would certainly help them with some information.

Island students, not necessarily Tongans, would benefit greatly if they could visit the right sort of homes while in New Zealand."

PRODUCE MARKETS LTD, AUCKLAND, N.Z.

Rumour denied

Produce Markets Ltd., Auckland, New Zealand emphatically deny any rumours or statements circulating around Tonga that our company is contemplating starting a business in the Kingdom. We also deny that we intend bringing in equipment, building our own packing shed, or to grow vegetables and fruit for our market in New Zealand.

Rumours to this effect are entirely without foundation. ETA ETAO ETA

Nobody is authorised to act as our agent in the Kingdom, except Mr W. Wight.

WORKERS IN N.Z. RATED A CREDIT TO TONGA

By N.Z. Information Service.

The 10 Tongans employed at the Todd Motors car assembly plant at Petone, New Zealand, have proved to be "good, dependable workers, quick to learn and a credit to their homeland." The personnel manager of the Ford Motor Company plant at Lower Hutt, Mr J. S. G. Daniel, describes the nine Tongans in his charge as good workers with a good sense of responsibility.

This is the common view of all the foremen under whom they work. None of the foremen spoken to had any qualms at the prospect of more Tongans of the same quality working under them.

The Tongans employed at the assembly plants are part of a group of more than 60 men brought to New Zealand in May by the Hutt Valley Chamber of Commerce to work for six months in industry at Lower Hutt and Petone. Work was found for them at the Todd and Ford plants, a cigarette factory, a construction company and the New Zealand Railway workshops.

The scheme has proved so successful, both for the men from Tonga and for Hutt Valley industry, that it will continue, with a second group being brought to New Zealand in February next year.

One foreman said: "Anything you ask them to do they will do instantly. They get along well with other workers – Maoris, Samoans, Europeans – and they are accepted happily by all."

The Tongans are all mature men, most of them with wives and young families back in Tonga. Part of they pay each week is spent on food and accommodation and goes towards their fares to and from Tonga. Most of what is left is saved, and each man can expect to ammass up to $800 by the end of six months.

As Tonga is a land of small holdings and a largely pastoral economy, few Tongans could hope normally to save as much in short a time. Those working in New Zealand for six months under the scheme all have an objective.

Lata Pāhulu, of Talafo'ou, for example, will use his savings to help pay for the schooling of some of his 10 children. Mosese Hafoka, of Tokomololo, will start a business. Olioni Heu, a fisherman, will buy equipment for his boat. Siale Tonga, of Nautoka will build a new house.

Mr E. C. D. Watson, chairman of the Hutt Valley Chamber of Commerce's immigration committee, is most impressed with the ease with which the Tongans have settled down, in sipte of a climate, environment, food and working conditions utterly different from what they have been used to.

"Their work reports are very good and generally the scheme has been most successful," he said. "The only problem in the way of enlarging the scheme is accommodation. In their own interests, they must be housed as a group and hostel accommodation in the Hutt Valley is limited."

The Tongans are pleased with the accommodation offered at their hostel at Gracefield, but although the food is plentiful and good, they miss some food items which are daily fare back home.

In their off-duty hours, the visitors have made a considerable impact with a choir formed and conducted by the group's leader, Paini Sikuea, Methodist minister of Tofoa, who on weekdays assembles rear axles for Chrysler and Hillman cars at Todd Motors. The choir sings regularly each Sunday at churches of all denominations throughout the Hutt Valley and as far north as Otaki, some 47 miles from Wellington.

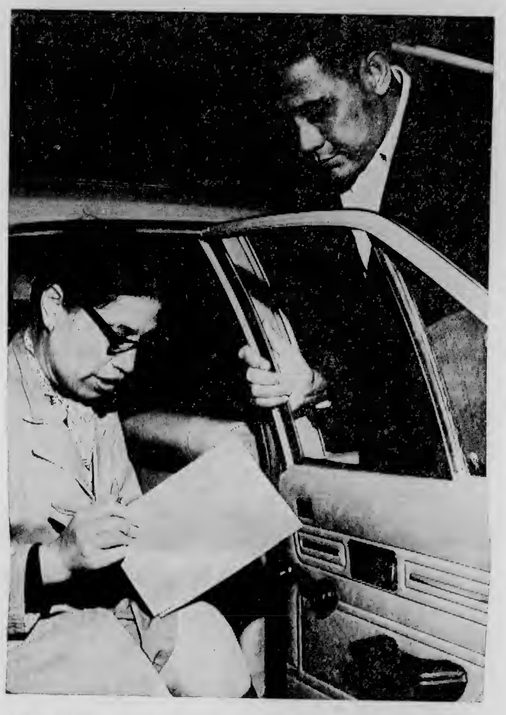
The General Motors car assembly plant, where 10 of the Tongans work, provides a bus free of charge for the choir's use each Sunday.

Recently the choir attended the combined Anglican and Methodist morning service at the Otaki All Saints Anglican Church, and in the afternoon sang at the Rangiatea Maori Anglican Church, where Paini conducted the service in Tongan.

"The choir gave a fine inspirational lead to the congregations at both churches," the Rev. Dr. M. A. McDowell, retired Methodist Minister of Otaki, who arranged the visit, said afterwards. "Paini displayed considerable ability in conducting and the singing of the 30-strong choir showed a very high order of musicianship. The choir had a very real and lasting impact on us all here at Otaki."

Paini, whose savings will go toward building a church for his village, is convinced that the Hutt Valley Chamber of Commerce scheme is a big success.

"Coming to New Zealand has been a tremendous experience for all the boys," he said. "Working conditions, food and accommodation have all been good and we have been shown nothing but friendliness. Only the climate has been a little unkind."



At Todd Motors car assembly plant at Petone, New Zealand, Paini Sikuea takes time off from assembling rear axles to chat with vehicle inspector Mrs Marama Furlong. Paini is a Methodist minister from Tofoa. Mrs Furlong, a Ngati-Te-Rangi from Tauranga, is probably the only woman inspector at car assembly plants in New Zealand.

BACARDI, ice and what?

and ginger
BACARDI rum, ginger ale, and ice—a spicy, daring new way to drink BACARDI rum.

and Coke
Pour BACARDI rum over ice and add enough Coca-Cola to drown a thirst. A classic drink and something else.

and tonic
Pour one jigger of BACARDI rum into a highball glass with two or three ice cubes. Add tonic water, a zest of lemon or lime and . . . Wow!

and what else?
Try BACARDI rum with anything — lime, orange, bitter lemon, crushed mint. You'll find anything goes with BACARDI rum.

Anything goes with BACARDI rum

Police Mobile Unit Ready For Emergencies

The first Police Mobile Unit of 24 has passed out of the Police Training School, Nuku'alofa having completed two years training on emergency cases.

The Inspector-in-charge of the school, Sione Ti'o, told the Chronicle that the unit had been thoroughly trained to counter any emergency that may arise.

He said the unit played a major role in dealing with the Burn's Philp fire last year and the heavy rain which flooded Tongatapu this time last year.

Commenting on the overall programme of training the Inspector indicated that emphasis was laid on theoretical training in the classroom and the practical side of the programme was only satisfied when a case of emergency arose.

The 24 policemen will be seconded to the Acting Superintendent of Police, Sione Falepapālangi, in the Central Police Station, Nuku'alofa who will be responsible for posting the men probably throughout the Kingdom, Inspector Ti'o said.

A fresh unit consisting of eight constables will begin the same type of training on October 19 and it is expected that the Chief Superintendent of Police, Penisimani K. Naufahu, who has just returned from a course on emergency cases and disasters in Australia, will be able to supplement the mobile unit on the practical side of its training, Inspector Ti'o told the Chronicle.

Charles Havea Awarded U.S. Scholarship

Charles T. Havea, who is a senior philosophy-religion major at Texas Wesleyan College, Fort Worth, Texas, U.S.A., has been awarded a United Methodist Scholarship by the Board of Education of The United Methodist Church. Mr Havea is the son of Dr. and Mrs Sione 'Amanaki Havea, President of the Free Wesleyan Church of Tonga.

Charles Havea is a member of Alpha Phi Omega, national service fraternity; Omega Chi, religion organisation; Council on International Relations and United Nations Affairs, political science organisation; and the Methodist Student Movement.

United Methodist Scholarship Awards cover tuition and fees up to $500 and are granted on the basis of superior academic standing, leadership ability, active churchmanship, character, personality and need.

About 500 such awards are given annually by the Board of Education of the United Methodist Church and its nationwide scholarship programme. More than 10,000 United Methodist Scholarships have been granted since the programme was started in 1945.

Funds for the support of United Methodist Scholarships are received from local churches on the basis of a church-wide offering on United Methodist Student Day, the second Sunday in June.

IT'S TIME YOU STARTED SHAVING

—REALLY SHAVING!

You only REALLY start shaving when you change to a Seven O'Clock Blade.

Smooth. Comfortable. Shave after shave after shave . . . . . .

Ask for a Seven O'Clock Blade at your usual store. Feel the difference.

MORE SIKALETI FOR YOUR MONEY

APPRECIATION

The Reverend Justin Gooderham, Past President of the Free Wesleyan Church, and Mrs Nance Gooderham, desire to express their sincere appreciation to Their Majesties, the Royal Family, Chiefs, Churches and People of Tonga, for the prayers and encouragement over the past six months during the sickness and passing of their little daughter Ilsa. Born at Prince Ngū Hospital, Neiafu, Vava'u, she was laid to rest with the singing of Tongan hymns by the Tongan community of Melbourne.

"For of such is the Kingdom of Heaven".

Tongan Service For Ilsa Gooderham

Ilsa, the daughter of the immediate past President of the Free Wesleyan Church in Tonga, the Rev. Justin Gooderham, died in Australia on September 27. Mr Gooderham wrote to the Chronicle :

Ilsa was born while we were still serving in the districts of Vava'u and Ha'apai as chairman, in the Prince Ngu Hospital in Neiafu. She was a wonderful little ambassador for my wife and I, and the people of Tu'anuku in Vava'u decided to call their boat the "Ilsa".

She had had perfect health while in Tonga, but showed signs of disturbance when my wife and I returned to Australia for the Mission Board in Sydney during February of this year. Neurolgists diagnosed her as having tumour (glioma) right on the brain and X-Ray therapy began immediately.

This was under the care of Dr. Minty, who was born in Nuku'alofa, and whose father was a resident doctor in Nuku'alofa during the 1920's.

Ilsa retained her consciousness right until the day she passed away.

A moving memorial service was held at the Noble Park Methodist Church in Melbourne, in which former missionaries of Tonga took part, including the Rev. Dr. Harold Wood, and the Rev. George C. Harris, a former President of the Free Wesleyan Church in Tonga.

It was most fitting that as Ilsa was laid to rest in the cemetery at Springvale, that the Tongan Community of Melbourne gathered around and sang a Tongan Hymn.

ANOTHER VERSION OF FIGHT

On June 3 the Chronicle published a story of a boxing bout in Pago Pago on May 20 between Sione Havili of Tonga and Ramasima of Fiji. The fight was awarded to Ramasima.

Havili claims the Chronicle report of the fight was incorrect and has sued for T$100 damages.

A letter from Pacific Promoters, Inc., Pago Pago, to the President of the Tonga Professional Boxing Association, Mr Bill Wight, says both fighters put up a good show when the first round started, but it was Havili who took control and should have sent Ramasima to the canvas if he had followed up a hard right combination which connected on Ramasima's jaw towards the end of the round.

Havili scored heavily in this round by all three judges.

The second round was also Havili's, but in a clinch towards the end Havili's eyebrow was accidentally cut by Ramasima's elbow and this caused Havili to slow down.

Round three was even, according to the judges, with Ramasima trying everything to do more damage to Havili's cut eye.

After this round the doctor inspected Havili's eye and ordered the fight to stop. The referee awarded the fight to Ramasima on a technical knockout.

"BRING YOUR TOOLS OF TRADE"

Men going to Auckland on a working holiday should bring their tools of trade with them, says a letter to the Chronicle from Mr J. Hauiti, at present clerk of works at the University of Auckland and formerly supervisor of the Tonga Construction Company.

He says many men with construction experience have asked him for a job but have to end up labouring because they are without tools.

"It's disappointing to me, knowing their capabilities, to offer them jobs as labourers."

Mr Hauiti says there is a shortage of carpenters, plasterers, painters and blocklayers in Auckland.

Wages average NZ$65 to NZ$85 a week.

Besides the high wages, the experience gained in high-rise modern architecture and other facets of construction in Auckland will be of immense value to Tongans at home.

Fashion Show

It was difficult to decide who was the proudest, the models or the parents, when the children of St. Mary's Technical School held a mannequin parade last Thursday.

The children modelled the clothes they had made and where they were either too small or too large to be worn by the maker they were displayed.

Even the boys were not left out and they modelled shorts a shirts.

The clothing ranged from nightwear to baptismal dresses.

In the picture the children begin the big parade.

Christian Education

A Christian Education Conference, the first of its kind to be held in Tonga, has been meeting in Nuku'alofa since Monday last week and closed today.

The conference was conducted by the Rev. John Mavor, Director of the Christian Education Programme of the Pacific Council of Churches, based in Suva.

The conference, comprising 19 members (see picture) from three different Christian sects —Anglican, Roman Catholic and Free Wesleyan Church of Tonga—discussed topics such as understanding different groups and envisaging ways of effectively promoting leadership.

Members were also taught and encouraged to study the Bible for themselves.

Mr Mavor told the Chronicle the conference was a great success. He also said he was here to teach as well as to learn about the needs of the people of Tonga.

Church Union Is Nearer

The abolition of five denominations though not their traditions, is envisaged in the plan for union released by the joint commission on church union on New Zealand.

Churches affected are Anglicans, Presbyterian, Congregationalists, Methodists and members of the Association Churches of Christ. Together they nominally represent more than half N.Z.'s population. The plan has yet to be approved by the churches.

Pineapple growers!

Weeds and grasses cost you money by using up the plant food and moisture which should be used by your pineapples. If weeds and grasses are killed and the ground kept free of weeds while the pineapples are growing, you will get a bigger and better crop. DU PONT "KARMEX" and "HYVAR" X have proven to be outstanding weedkillers for use in pineapples and both give control of weeds and grasses for long periods.

KARMEX® is a powder which you mix with water and spray onto bare soil to stop annual weeds and grasses growing. Use 4-8 lb "Karmex" per acre at planting and 2 lb per acre for follow-up applications.

HYVAR® X is a powder to be mixed with water and sprayed onto bare soil for the control of perennial weeds and grasses. Use 2-6 lb "HYVAR" X per acre after planting.

HOW OUR BOXERS PERFORMED AT PACIFIC GAMES

In the final in the series on Tonga's team at the South Pacific Games in Tahiti, TEAM MANAGER, JACK BARNARD, discusses the boxers and their performances :

SOLOMONE NAMOA (Lightwelter):
September 11—
Won 1st Round Kanai (SI)
Lost Points Onosai (AS)

'ASIPELI POTAUAINE (Welter):
September 11—
Won Points Steven (NH)
September 13—
Won KO 1st Waka (FJ)
Final Lost Points Kodeng (PNG
September 13—

MAILE PETI (Light-Middle) :
September 9—
Won Points Nebayes (NC)
September 10—
Won 2nd Round Vakacequ (FJ)
September 13—
Won Points Alfosio (AS)
Final Won RSC 3rd Richmond (FP)

'ILAIUTI LONGANI (Middle) :
September 11—
Won Points Tehio (PF)
September 13—
Won forefeit Vatou (NH)
Final Lost Points Blake (FJ)

MONITI FIFITA (Heavy) :
September 11—
Won Points Kafoa (NC)
Lost KO 2nd Fatealofa (WS)

MAILE PETI earned Tonga's first gold medal ever in the South Pacific Games. He was clearly the the best performer in the boxing and became a favourite with the Tahiti crowds. He had the toughest draw but he won each fight clearly and should prove an excellent entrant for the next Commonwealth Games in Christchurch. Our only worry with Maile was when in his semifinal he received an elbow in the eye which puffed up badly. Maile was taken to hospital where he was x-rayed and received treatment for the eye. Luckily the eye was all right for the final against Max Richmond the local here. Not one of the local people would hear of Richmond being beaten It was easy to see from the start Maile meant business and he went about his task with many two-fisted attacks to Richmond. Towards the end of round one Maile dropped Richmond to the canvas. The second round saw Richmond bleeding from a cut eye, nose and the mouth. It seemed strange that the fight was not stopped in this round as it was obvious that Richmond could not stand up to the punishment. The Referee stopped the fight in the third round with Richmond's face a bloody mess. Richmond only returned to Tahiti for the games after four years fighting in U.S.A. It is going to take a very good boy to beat Maile.

'ILAIUTI LONGANI was beaten in the final but not disgraced. His fight could almost be called an All-Tongan final as he fought Chris Blake of Fiji whose father is a well-known in Tonga. Blake only won by a point and it was his long reach and boxing skill that kept him in front. 'Ilaiuti tried hard to get his taller rival to close quarters but it was an extremely difficult to do this. 'Ilaiuti is young and has good potential. If he continues to improve he also could have prospects at the Commonwealth games.

'ASIPELI POTUAINE another of Va'a'u's two silver medalist did not fight very well in the final. If he had fought like he did in the semi-final he would have surely won the final. I could not understand his tactics in this fight and he would not follow his seconds instructions 'Asipeli is a good fighter but in some fights tends to bob his head down too low. He was lucky not to be disqualified in the final. He also has potential but must be prepared to fight as instructed.

SOLOMONE NAMOA fought well in his first fight but could not produce the form in his second fight because of stomach trouble. He did not report his sickness to the manager until after the fight. Solomone is a good, willing fighter who almost always turns on a good fight. With experience of Port Moresby and Tahiti under his belt he should be able to stay at the top of his division for some years.

MONITI FIFITA was able to gain a bronze medal but was not very impressive in doing so. If he had put more heart into his training he must have fought better. He had to ge pushed and will not improve further unless he can gain some enthusiasm for training.

Vava'u Champions

The Lolo-'a-Halaevalu team which won the Vava'u girls' soccer competition by scoring the only goal scored during the last season.

Mani Vaka Suva Fight Postponed

The contest between Tonga's heavyweight champion Mani Vaka and South Seas heavyweight titleholder Marika Naivalu of Fiji which was scheduled for next Monday, October 18, in Suva has been postponed until November 15.

Vaka told the Chronicle the reason for the postponement was the unavailability of the new Suva Town Hall in which the contest was to be held, due to official functions.

Vaka said he had been training enthusiastically for the bout and was rather disappointed at the postponement.

After Naivalu, Vaka will fight local No. 1 contender Fonomanu Sekona on November 26 and in mid-December, the Commonweauth - rated heavyweight champion will meet Leweni Waqa of Fiji for the second time.

INFORMATION

THANKS

Mr David Cocker, Willie Cocker and Joyce Faupula wish to thank all friends and relatives for your kind messages of sympathy, floral tributes and many other things received at the time of the loss of our dearly beloved mother.

Your thoughts, kindness and prayers were of much comfort to us all.

SOCCER

The Tonga Football Association met last Thursday and approved November 6, 1971 as the starting date of the competition for the Lion Shield Registration will close on October 30.

The association's annual meeting will be held on October 25 in the Police Magistrate's Court at 5.30 pm This meeting will elect the committee for the 1971–1972 season.

Would all clubs please send a representative to the meeting.

Secretary.

TONGA VISITORS BUREAU

The Tonga Visitors Bureau, is a government organisation and has three main roles:
- a research and planning role;
- a promotion, information and public relations role;
- a training role.

The Organisation is now seeking a **Public Relation and Information Officer** to head up the information and publication relations section. This officer will be responsible for disseminating information locally and overseas on all aspects of the Kingdom and acting as the Bureau's Public Relation Officer. The work will be stimulating and rewarding. The successful candidates will have:
- an excellent knowledge of spoken and written English;
- experience with dealing with people of all races and preferably have been overseas for a period of time,
- a deep knowledge of the economic social, political, and geographical aspects of the Kingdom;
- a sense of responsibility and enthusiasm.

Salary Scale: Will be in the range of T$654 x 54 - 762 - $816. The post is permanent and pensionable after an initial six months probationary period.

Written Applications are invited from Tongan Nationals (Officer already in Government service may apply) over the age of 24 years to the Tourist Officer, Tonga Visitors Bureau P.O. Box 37, Nuku'alofa before October 22.

The Tonga Visitors Bureau has a vacancy for a driver: The successful candidate will have:
- a several years driving experience with a clean driving licence;
- a good knowledge of spoken English;
- a good knowledge of Tongan customs and culture.

Starting Salary: T$300.

Written applications are invited from Tongan Nationals to the Tourist Officer, Tonga Visitors Bureau, P.O. Box 37, Nuku'alofa before October 22.

PART-TIME ACCOUNTANT

A vacancy exists at the International Dateline Hotel for a fully qualified part-time accountant. Duties would consist of the preparation of monthly trial balance and P. & L. Accounts.

Apply in writing, enclosing copies of testimonials to :
The Manager, International Dateline Hotel,
P.O. Box 39, Nuku'alofa.

THEIR MAJESTIES RETURN FROM INDIA SATURDAY

The State visit of Their Majesties, King Taufa'ahau Tupou IV and Queen Maa'aho is over and they are expected to return to Tonga on Saturday morning. They are at present having three days rest in Singapore.

The visit to India ended in Bombay on Ocober 11, and Their Majesties are on their way home by Air India.

In New Delhi His Majesty had an audience with President Giri and the Prime Minister, Mrs Indira Gandhi.

On October 2, His Majesty laid a wreath at Sanadhi of Mahatma Gandhi whom he described as one of the noblest men to have walked on this earth.

At a banquet, in honour of the royal couple, President Giri expressed the hope that the visit of the King and Queen of Tonga would strengthen ties between the two countries.

"People of India have always had deep interest in Pacific Island countries as all of them share common values and interest," the President said.

His Majesty in his reply said that India had played a significant part in the history of the world.

Her Majesty visited a doll museum where she was presented with a doll as a souvenir. There were about 5000 dolls in the museum from 82 different countries. The oldest doll is from Switzerland and is about 200 years old.

Her Majesty was also presented with about 60 books produced by the Children's Book Trust.

On October 4. His Majesty visited the Indian Agricultural Research Institute in New Delhi and was presented with samples of quality seeds.

Her Majesty visited Central Cottage Industries Emporium and took a keen interest in Jewellery silks and carpets. She was presented with samples of Indian perfumes.

Their Majesties held a reception on October 4 in New Delhi. Among those who attended were the President and his wife, the Prime Minister, and the Central Government Ministers.

The royal party arrived in Jaipur on October 5, for a day's visit. They were given traditional welcome at the airport by the Governor and the State Chief Ministers. Welcome arches had been put up at several points on the route from airport to the city.

Before their departure from New Delhi they were given a ceremonial send-off at the airport by the President and the Prime Minister.

In Poona, His Majesty reviewed a parade of cadets of the National Defence Academy. In Bombay, the King visited the Magazon Docks and had lunch aboard the India Naval ship "Mysore".

Fair Exchange

Two air hostesses from Trans-Australia Airlines with Fusi Tonga from the Tonga Visitors Bureau and the District Sales Manager for Air Pacific in Suva, Mr Peter Schaap, looking at baskets in Langafonua last Friday.

The two TAA hostesses are (left) Frances McPhee (24) of Melbourne and Lorraine Murphy (25) of Brisbane. On Thursday they flew to Tonga two-week air hostess exchange between the two airlines. During this time two Air Pacific hostesses are flying on TAA services in Australia.

Miss Murphy and Miss McPhee left Tonga to fly to Samoa. They will also fly on Air Pacific flights to the British Solomon Islands as well as Fiji.

For Miss Murphy this is her first trip to the Pacific. She has been flying with TAA for 2½ years. Recently she has been working on the New Guinea route and hopes to transfer to New Guinea shortly.

Miss McPhee has been a hostess with TAA for three years during which she has been based in Melbourne and flown all over Australia. She has already spent a holiday in Fiji.

FAMILY PLANNING WEEK

October 16 - 23

SATURDAY— Opening speech on radio, 8.20 p.m. by Minister of Health, Dr S. Tapa.

MONDAY— Film show and meeting in Nukunuku, 8 p.m.

TUESDAY— Radio interview with Dr J. H. Hirshman, WHO Representative, 1.20 p.m.
Public meeting to be addressed by Dr Hirshman, at Lopaukamea, 8 p.m.

WEDNESDAY— Roundtable conference with Dr Hirshman at Langafonua, 8 p.m.

THURSDAY— Film show and meeting in Vaini, 8 p.m.

SATURDAY, October 23— Closing talk on radio by President of Family Planning Association, Lūpeti Fīnau, 8.20 p.m.

This And That

CHRONICLE DIARY

The Australian oil drillers have had first-hand experience of our Sunday Law. Last Sunday, taxis carrying workers from the Dateline Hotel, where they are staying, to the drilling site, were stopped by the police and the drivers questioned. Apparently no one had told these particular policemen that the oil drillers have a dispensation from the Sunday Law and this includes travel by taxi. A spokesman for the drillers said it was all a misunderstanding and when it was explained to the police there was no further difficulty.

* * *

The rumour that oil has been found and that the company is only waiting for the return of His Majesty to announce it, is just one of many fantastic rumours about oil floating around at the moment.

* * *

Talking of rumours: One of the worst-kept secrets in Tonga lately must be that the true site of Ha'apai treasure has been revealed.... The rumours about the find sound like something out of a James Bond film. A party of police and Government officials went to Ha'apai to investigate and although lips are sealed we have good reason to believe there is nothing to get excited about. It would be a good idea, however, if an official statement could be made and put a stop to the wild stories.

* * *

"Name the Faces" competition winner Tu'ungafasi Maka is asked to get in touch with the Chronicle.

* * *

H.R.H. Crown Prince Tupouto'a had a particular affection for the oil-barge "Lolomana'ia": he launched it in Auckland, in 1960 when he was a pupil at King's School.

* * *

Ma'afu Enterprises inaugural "Sundowner" cruise on Nuku'alofa Bay in the "Just David" on Monday evening had everything to order—no wind, calm sea and a perfect sunset. Ma'afu Enterprises (Layton Zimmer and Peter Warner) plan to make this cruise a regular feature of life in Nuku'alofa, for local people and their families as well as tourists. How many locals get the chance of seeing just how beautiful Nuku'alofa looks from the bay in the evening?

Pineapple growers!

Weeds and grasses cost you money by using up the plant food and moisture which should be used by your pineapples. If weeds and grasses are killed and the ground kept free of weeds while the pineapples are growing, you will get a bigger and better crop. DU PONT "KARMEX" and "HYVAR" X have proven to be outstanding weedkillers for use in pineapples and both give control of weeds and grasses for long periods.

KARMEX is a powder which you mix with water and spray onto bare soil to stop annual weeds and grasses growing. Use 4-8 lb "Karmex" per acre at planting and 2 lb per acre for follow-up applications.

HYVAR X is a powder to be mixed with water and sprayed onto bare soil for the control of perennial weeds and grasses. Use 2-6 lb "HYVAR" X per acre after planting.

BACARDI, ice and what?

and ginger
BACARDI rum, ginger ale, and ice—a spicy, daring new way to drink BACARDI rum.

and Coke
Pour BACARDI rum over ice and add enough Coca-Cola to drown a thirst. A classic drink and something else.

and tonic
Pour one jigger of BACARDI rum into a highball glass with two or three ice cubes. Add tonic water, a zest of lemon or lime and . . . Wow!

and what else?
Try BACARDI rum with anything — lime, orange, bitter lemon, crushed mint. You'll find anything goes with BACARDI rum.

Anything goes with BACARDI rum

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, October 21, 1971 Vol. VIII No. 20 3 Seniti

What Do You Say?

The Sunday Law is the subject of most contention in the Chronicle's "Dear Sir" page.

Not all the correspondents are for changes in the law but most of them are.

Many people are afraid that changes in the law will have an adverse affect on the Tongan way of life; others feel it is holding back progress....

In the "Bakery Case" earlier this year, the law in some instances was shown to be unenforcable and unworkable and in a recent amendment who can work on Sunday and what is an offence under the Act has been more clearly defined.

What is the public reaction to the Sunday Law? Is it as unpopular as believed?

To try to find an answer to these questions, this week the Chronicle is conducting its first public opinion poll.

Turn now to the back page for full details.

INDIA HAS HELP TO OFFER TONGA

Technical assistance and trade with Tonga could be the outcome of the State Visit to India by His Majesty King Taufa'ahau Tupou IV and Queen Mata'aho.

The Tonga Government is to open negotiations with the Indian High Commissioner in Fiji, Mr Bhagwan Singh.

His Majesty returned from India on Saturday, most impressed with the industrial and agricultural development he had seen in India.

During the visit His Majesty inspected Indian industrial plants, large and small, and found several which he thinks could serve as models for similar projects in Tonga.

Talks are to be held with Mr Singh about bringing technical experts to Tonga to advise on specialised small industries.

His Majesty hopes to bring a small flock of specially-bred Indian sheep to Tonga to start a breeding programme. He saw in India sheep bred mainly for mutton and these could be a solution to the local meat problem.

India expressed interest to His Majesty in the oil exploration in Tonga and would like to buy crude oil for shipment to India for refining if the drilling proved successful.

Gifts from Tonga were presented to the chiefs of state of India by His Majesty.

The President, Mr V. Giri, was given a silver model of the Ha'amonga and the Prime Minister, Mrs Indira Gandhi, a crest of Tonga, carved from silver and mounted on marble.

Among the gifts for His Majesty was an alabaster model of the Taj Mahal.

(Pictures of Royal Visit to India, Pages 6 & 7)

His Majesty is welcomed home last Saturday morning at the airport by the Prime Minister, Prince Tu'ipelehake. Descending the steps of the aircraft are Her Majesty, Queen Mata'aho, His Majesty's aide de camp, the Hon. Kalanivalu, and the Minister of State in Attendance for the visit to India, the Minister of Police, the Hon. 'Akau'ola.

Whooping Cough Not The Baby-Killer

The whooping cough epidemic which has been affecting Tonga for over a month is relatively mild, says the Director of Health, Dr. Supileo Foliaki.

Dr Foliaki told the Chronicle some babies had died in the last few weeks but the cause of death was not whooping cough only its complications such as pneumonia, diphtheria and typhoid fever.

Dr Foliaki believes that the reason for the decreasing severity of whooping cough is because more infants are receiving the whooping cough vaccination.

It was most important that babies were given a full course of whooping cough injections during their first year of life, he said.

Children who suffer from whooping cough only are not admitted to hospital as in-patients because hospital care would be unnecessary, Dr Foliaki said.

The usual practice was to advise parents to isolate their children with the whooping cough from those who have not contracted it.

However, children who contract other diseases such as diphtheria, measles, pneumonia and typhoid fever together with whooping cough are admitted to hospital as in-patients, he said.

"DEAR SIR..." LETTERS TO THE EDITOR.

A change of policy on letters to the editor . .

After this issue only letters with the actual signature will be considered for publication.

In exceptional cases, at the discretion of the editor, a non de plume, may be considered.

Correspondents are reminded that letters should be on one subject only, concise and limited to 250 words. Many letters now are rejected because they do not conform to these rules.

Scholarships

Dear Sir.—I believe there would not be any favouritism if the Government would distribute scholarships evenly between both Church and Government Schools. This would only show that there is close co-operation between the two bodies.

No just government would be held together by selfishness. Responsible co-operation should be the mainstay and any grants from the Government to Churches would be most valuable.

The whole point is that, irrespective of age differences between Tonga High School and Tupou High School, pupils let us view the whole situation as one of close co-operation and mutual benefits.

'AISAKE FIFITA.

Sunday Law

Sir.—I am worried about the Sunday laws. Why is the "Aoniu" not allowed to berth on a Sunday? Why are certain overseas vessels and aircraft allowed into Tonga on Sunday? Certain Government Departments are allowed to work on Sundays. We are of the opinion that the "Aoniu" is part of an agency that functions for the common good.

When the "Aoniu" is not allowed to berth on a Sunday, does this imply that the crew should cease all duties at sea too? For example, if the "Aoniu" is at sea on a Saturday night, is the crew to switch off engines and stay idle from after twelve midnight until Monday morning? This does not make any sense.

From a Christian point of view, certain members of the crew should be enabled to come ashore and attend services. Moreover, a greater number also need to come ashore after having been at sea for so long.

This appeal is to request advice from the right sources lest the crew be jailed for ignorance.

ANTI-SUNDAY LAW.

Salary Revision

Dear Sir.—The recent salaries revision has been a source of both happiness and sorrow to us humble civil servants. The trouble has been stirred up mainly by the granting of back pay to a few and not to the lot.

A few others have been waiting for two years now. They have not partaken of the fruits of the salaries revision. As a consequence, they have suffered under price rises especially.

There is indeed a need for the Minister of Finance to make a clear statement regarding those who are still waiting.

K. K. T.

In Bad Taste

Dear Sir. — There is on sale in Tonga copies of my book "Shirley Baker and the King of Tonga". This book appeared in a dust jacket reproducing a cartoon which appeared in a Sydney newspaper in 1887. This cartoon was in bad taste when it appeared 90 years ago and has not improved since.

Authors have no control over such details as dust jackets, but I feel it necessary to apologise personally for what must appear as an offensive slight upon a man for whom I have the greatest admiration, as a monarch and as a man.

NOEL RUTHERFORD.

Parliament

Sir. — I can still remember an incident which took place during the opening ceremony of the last session of the Legislative Assembly. All of us invited guests presented our cards and were seated when I noticed that some third odd seats were still vacant.

A short while later, a whole group of people suddenly descended on these, and looking up, I recognised them to be the Honourable Members of the Assembly with their wives. Some two or three minutes later, the British High Commissioner came in. It then appeared to me that the Members of the House only come in during the ceremony to await just the Commissioner and His Majesty ignoring, the rest of the invited guests.

The same took place at the closing ceremony too where I made the further observation that while the invited guests were ushered into an empty House (with respect to authorities), the Honourable Members were still outside relaxing.

May I present my humble suggestion that the Members should be seated before any of the guests come in.

BROOM.

Vava'u Shelters

Dear Sir. — It is a pitiful sight to see the handicraft vendors in Vava'u sitting in the hot sun trying to sell their wares to the tourist. On rainy days the vendors are faced with the problem of trying to shelter in the best way they can from the rain.

This is the result of the Tonga Copra Board's decision to stop providing the shelters they used to provide for the vendors.

The practice now is that the individual is responsible for building his own shelter, which I think is unwise because the vendors build very shabby and unattractive shelters which help to degrade the beautiful scenery of the Port-of-Refuge harbour.

The fee of 10 seniti a foot of shelter is too dear.

I request that the board let the vendors use their shelters for it is not long before larger tourist boats visit Vava'u.

BARE TRUTH.

N.Z. AID TO PACIFIC ATTACKED

New Zealand's aid policies in the South Pacific have been attacked again by the Premier of the Cook Islands.

Mr Henry said in an interview with the political roundsman of the Fiji Times, Matt Wilson: "I believe the time has come when New Zealand must turn her face more to the Pacific where she belongs."

The Premier complained that too much New Zealand aid was going to South-East Asia compared with the islands.

"Comparing the aid New Zealand gives outside the region to what it gives to the region, New Zealand is not being fair to the area she really belongs to," Mr Henry said.

He said he did not think the help given by New Zealand and Australia to the territories to which they had special responsibilities should be regarded as part of their total aid to the region.

Mr Henry said New Zealand should help the region as well as the Cook Islands, the Tokelaus and Niue. These territories are dependencies of New Zealand.

TONGA INVESTS IN FIJI LOAN

The Tonga Government has invested $60,000 and the Tonga Copra Board $90,000 in the Fiji Government's 1971 development loan of $3.3 million.

Steinlager sign of good beer

SAFEST WAY TO REMIT MONEY FROM AMERICA

Advice on the safest way of sending money to Tonga from the United States has been prepared by the Minister of Finance, the Hon. Mahe U. Tupouniu. This follows a study he made in the U.S. and talks he had with Tongan nationals there when he became aware of apprehension among the remitters about the fate of their money once it arrived in Tonga.

The Minister said he was fully aware of the implications of the apprehension and also of the importance to the national economy of money sent home by Tongan living overseas; he hopes the advice he has to offer will dispell their apprehension.

Banks in the U.S. sell cashier's cheques for remitting money outside the country. They are not drawn on a personal or commercial account, but bought with cash over the counter. For this reason the Treasury in Tonga can pay on them without hesitation, provided they are properly made out in every detail and the payee has proof of identity or witness to his or her identity.

Cashier's cheques are the most convenient form of remittance because they are inexpensive and speedy. The payee and remitter, however, must take precautions to guard against loss. The cheque should be sent by registered mail to the payee. A record of the cheque number should kept and the payee advised of the particulars of the cheque by separate letter. The registered letter number under which the cheque was sent should also be included.

When the payee receives the cheque, he or she should go to the Treasury with passport, driving licence or some other document acceptable as proof of identity. If the payee has no such document, he must either be known personally to the Treasury paying officer or bring someone known to the paying officer who can vouch for identity. The cheque should then be endorsed (signing the payee's name on the back of it) in front of the paying officer and the money will be handed over.

The cheque should not be endorsed in the home and sent by messenger with a scrap of paper attached asking the Treasury to give the money to the messenger.

Apart from cashier's cheques, the only other instrument of payment of payment acceptable to the Treasury is the U.S. postal order and the advice on cashier's cheques applies equally to postal orders.

The Minister said none of the advice was absolute guarantee that the money would not be lost. "There is no foolproof defence against dishonestly and low cunning."

More Capital Required For Honey

The necessary legal processes have now been undertaken for the establishment of the Kintail Honey (Tonga) Ltd. Pending registration, however, capital investment is still required, says the Director of Agriculture, Mr John Pitman.

Many people who promised to invest have already subscribed and will soon be issued with share certificates, Mr Pitman said, however, a number of promises have not been honoured and to prevent over-subscription, the shares reserved by the promises are being held until the end of this month, after which they will be released on a first-come-first-served basis.

Potential investors are advised to make their investment as soon as possible with Mr D. L. Ward, Beach House, Mr P. J. Warner, Fathom Fisheries, or Mr H. V. Barnard, Treasury.

AIRCRAFT SEATS FOR "'OLOVAHA"

Eighty aircraft seats are to be fitted into the observation lounge of the "'Olovaha" to replace the bench-type seating in the centre of the lounge.

The aircraft seats have been bought from Qantas in Australia and are among the cargo on the "Niuvakai", due to arrive today.

The Marine Superintendent, Captain Chris Hill-Willis said: "This very comfortable type of seating, which is from Electra aircraft, will make the trip in the "'Olovaha" even more enjoyable than it is at present and with the advent of the new passenger terminal at Vuna Wharf, make interisland travel adequate and modern."

As the new seats are costly a surcharge will be made on the fare. Travellers between Nuku'alofa and Ha'apai/and Ha'apai and Vava'u will pay 50 seniti a seat each way and $1 a seat each way between Nuku'alofa and Vava'u.

ISSUE OF COINS TO MARK MEDAL AWARD

To commemorate the first investiture in Tonga in modern times, the presentation of the Royal Tongan Medal of Merit, two coins will go into free circulation on October 30.

Three thousand uncirculated pieces each of the one and two pa'anga regular coins of 1968, bearing the portrait of His Majesty, have been countermarked by hand "Investiture 1971". Additionally the coins have been gilded in pure gold.

From the entire remaining stock of the proof series of 1968, 1000 pieces of the one and two pa'anga proofs have also been countermarked and gilded. These proofs, originally struck by the Royal Mint in London in superb high mirror proof finish have, however, in three years been subjected to tropical climate changes. As a result toning faults have occurred and must be anticipated by potential purchasers.

Tongan Workers In New Zealand

A NEW CHURCH FOR TOFOA IS PAINI'S GOAL

From New Zealand Information Service.

The Tongan village of Tofoa will, in the fullness of time, have a new church built largely by the villagers with money earned in New Zealand by some of the village men.

Typically, Methodist minister Paini Sikuea chose to be one of the first to work in industry in New Zealand's Hutt Valley, not to enrich himself, but for the benefit of his church and his fellow villagers.

Paini is one of about 60 Tongans brought to New Zealand for six months by the Hutt Valley Chamber of Commerce. All were found jobs in Lower Hutt or Petone in car assembly plants, a cigarette factory, a construction company and the New Zealand Railways. So successful has the scheme proved that another group of Tongans will arrive in February next year.

The goal that Paini has set himself—a new church for Tofoa—is one that he pursues relentlessly and in a spirit of Christian seflessness.

He allows himself a mere 80 cents a week pocket money. A proportion of his pay goes in food and lodgings and to pay the cost of his fare to and from Tonga. Some is remitted home to support his wife and six young children. The remainder is saved.

Paini estimates that he will have amassed between $700 and $800 for his church building fund by the time he returns home. To achieve this, he works five days a week assembling rear axles for Chrysler and Hillman cars.

A natural leader and having an excellent command of English, Paini is in charge of the group wherever its members work. He has found the working conditions to be very good and the food at the hostel at Gracefield to be plentiful and good, but rather different from what he has been used to. Taro has given way to potatoes, for example, and bread every day Paini finds hard to take.

"In Tonga we have bread once or maybe twice a week," he said recently. "I have always been told that man cannot live by bread alone and I know now what that means.'

It is a measure of the quality of the men that Tonga has sent to New Zealand that they get along well with their fellow workers and are liked by the foremen under whom they work. They have already won a reputation as hard workers and loyal employees.

Each has set himself a goal—to earn money to help build a house or to improve a farm. Although most of them are keen rugby players, few of them have played in New Zealand for fear that injury might delay the achievement of their aims.

Tatau Pungatoa, of Mu'a, sanding the door panel of newly assembled Valiant at the Tood Motors car assembly plant at Petone.

Siale Tonga, of Nautoka, gives a newly assembled car its final polish at the Todd Motors assembly plant at Petone, New Zealand. Siale is saving to build a house when he returns to Tonga.

At Todd Motors car assembly plant at Petone, Paini Sikuea (left) takes time off from assembling rear axles to talk with fellow Tongan, Samuela Ma'u of Nuku'alofa. Paini, a Methodist minister of Tofoa, is in New Zealand for six months under the Hutt Valley Chamber of Commerce scheme. Samuela who did not come to New Zealand under the scheme, has worked at Todd Motors for about three months.

Agricultural Council Concern At Crises In Copra

Two major crisis in copra, the drop in price on the world market and rapid decline of local production were discussed by the Agricultural Council recently.

The Tongatapu grower's representative proposed a motion to import machinery to extract coconut oil locally.

The Acting Prime Minister, Hon. Mahe U. Tupouniua said he favoured the motion for the growers' benefit, but doubted whether Tonga would be able to afford to buy the necessary equipment to develop such an industry or whether the Kingdom would be able to produce 14,000 tons of copra annually to keep the industry going.

The Minister of Education, the Hon. Langi Kavaliku said a study of the oil industry would be necessary. If that was more profitable than dessicated coconut or copra, then he was in favour of the motion.

The Acting Prime Minister said the profit on a six-month trial period for the dessicated coconut industry was $5000, and this was not sufficient. It could not be presumed that the net profit would be the same for the next period."

A local industry in coconut oil extraction must also have a reliable market overseas, the Minister of Education said.

The Governor of Vava'u, Hon. Ma'afu Tupou said that while in London two years ago, Unilever proposed a fixed price for copra if Tonga could supply at least 20,000 tons annually.

The Director of Agriculture, Mr John Pitman, said there were 75 tons of oil stored in Havelu, which it had not been possible to sell them anywhere due to high percentage of fatty acid.

Great efforts were being made by the Coconut Replanting Scheme in an attempt to increase copra production, he said.

In Tongatapu a fair proportion of the coconuts were being used in the dessicated coconut industry.

The Director of Agriculture said a survey showed that an average family of nine consumes at least 35 coconuts daily. The greatest loss was due to wasteful drinking, feeding of livestock and cooking.

He said only about 25% of the loss was caused by rats, about 25,000 tons a year of potential copra.

It was possible to import machinery from Japan which could meet Tonga's copra production, the director said.

Banana growers!

Weeds and grasses cost you money. When you first plant your bananas, weeds and grasses severely affect the growth of the crop. By spraying the ground with DU PONT "KARMEX" at 1½-3 lb per acre at planting time, bananas will make maximum growth which means easier harvesting and BIGGER YIELDS. In established bananas, an application of "WEEDFREE" 235 at 4 pints per acre plus "KARMEX" at 2-4 lb per acre will kill established weeds and grasses and also keep the ground clean for a long time.

"WEEDFREE" ® 235
Is a contact weedkiller which 'burns-off' weeds and grasses to ground level.

"KARMEX" ®
is a residual weedkiller which keeps the soil free of weeds for a long time.

no weeds — quicker growth — bigger crops.

EARLY END TO FIGHT

By HOPO

The Ha'apai middleweight champion Kalafi 'Osai scored a second-round knockout win over Latahe'ea Tonga'uiha of Tongatapu in a 10-round contesa at the Hauhau-'o-Taufa-'ahau Theatre on Friday.

Right from the start the two boxers meant business. They brought the crowd to their feet when they were exchanging hard blows with each other throughout the first round. A minute into the second round Kalafi threw a quick combination of left and a right cross which sent Tonga'uiha on the canvas to end the fight.

Kalafi is seeking a fight with Pongi Lie, the national middleweight champion.

WANTED : MONEY FOR SPORT IN TONGA

By JACK BARNARD

Next year the Occeania boxing championships will be held in Papeete. These championships include New Zealand and Australia amateurs. Will money be available to get our boxers there?

Our teams at Port Moresby and Tahiti have placed Tonga high up the ladder of fame both in athletics and boxing. This has been done with a lack of equipment and facilities. Surely if these facilities become available Tonga's stars must improve further.

I hope that Tonga does not lose it stars like Peni, Keta, Maile and Sanitesi. Cannot scholarships he found for these people so that they can pass on to the younger generation their knowledge.

Peni Tu'ipulotu has had to borrow money to get back to USA to further his studies and training. The sports association brought him back from US, he should not have had to pay his own fare back.

Peni has undoubtedly been Tonga's No. 1 ambassador in sport, having represented the Kingdom at the 2nd South Pacific Games, Noumea, 3rd South Pacific Games, Port Moresby and the 4th South Pacific Games at Papeete. He has an outstanding record and must be considered as one of the most outstanding athletes of the South Pacific since the games started.

His record at the games stands at five golds and one silver. He certainly would have added another gold to this if he could have competed in the final of 400 metre hurdles in Noumea.

He has won the 110 metre hurdles and three successive games and the 400 metre hurdles at the last two. Each year he has broken his previous record. We do not want to lose an athlete of the calibre of Peni.

He still should be young enough to represent Tonga at the Commonwealth games at Christchurch. He should have been Tonga's first Commonwealth Games competitor at Edinburgh but the Sports Association's appeal for finance was apparently shelved by some Government official.

Funds also are needed to keep the sports association running. The games in New Guinea cost $7900 and the Tahiti games cost $6200. In a space of just over two years the Sports Association had to raise over $14,000.

Government's grant of $1200 is just 8.4% of the total. If the whole of the Government Grant goes to the games fund, then how does the association sponsor sport in the local scene?

The situation has become so bad that the association will have to decide whether its worthwhile going on. A debt of $3000 also has to be repaid to the Nobles' Trust Fund but it would be a noble gesture for them to give this amount for the magnificent effort by the Tongan contingent at the two games.

This is my last article in the Chronicle as I will have left the Kingdom when this is published. I do not want to leave but owing to employment being unavailable, I will have to move on.

I would like to thank His Majesty King Taufa'ahau Tupou IV, H.R.H. Prince Tu'ipelehake, the officials and athletes, boxers of Tonga for helping me perform my job of Secretary of the Tonga Sports Association and as Manager of Tonga's games teams to New Guinea and Tahiti.

FAMILY PLANNING WEEK

TONIGHT— Film show and meeting in Vainī, 8 p.m.

TOMORROW NIGHT— Theatre night.

SATURDAY NIGHT— Closing talk on radio by President of Family Planning Association, Lūpeti Fīnau, 8.20 p.m.

MPs Recommend More Shipping

A recommendation urging more regular shipping services to the Pacific Islands has been put to the New Zealand Government caucus.

The recommendation arises from the goodwill trip of the Pacific by a group of eight parliamentarians from both sides of the House of Representatives.

New Barclay Bank For Port Vila

The Barclays Group of Banks, has announced that Barclays Bank International Limited has been granted a banking licence and will establish a branch in Port Vila, New Hebrides.

This is the first branch banking operation in the Pacific by Barclays Bank International which has the bulk of its branches in Africa, the Caribbean and California. Barclays is the largest British bank.

INFORMATION

VACANCIES

JUNIOR CLERK

Applications are invited for Junior Clerical position n the Tonga Electric Power Board from applcants who have a minimum qualification of passing the Higher Leaving Certificate with a 50 per cent or over in English and Mathematics.

The Salary Scale is T$300 x 30 - 360EB 420 x 30 - 480EB 540 x 30 - 600.

Applications should be in the applicant's own handwriting in English stating also previous employments (if any) and age, with copies of testimonials and certificates attached.

Address all applications to Manager; closing November 4, 1971.

ASSISTANT SECRETARY

Applications are invited for the post of Assistant Secretary in the Ministry of Works and Education.

The basic qualification for the post of Assistant Secretary is a Degree from a recognised university. The salary of the post is in the scale T$1800 x 120 - 3360 and the entry point will depend upon previous comparable experience.

Applications should be adressed to the Secretary, Civil Service Staff Board, Prime Minister's Office, and should reach him by the October 27 1971 at the latest. Applicants should give their dates of birth and they should include in their applications a brief history of their academic careers and of any subsequent experience.

PICTURE NIGHT

Sunday Night Fire Draws Big Crowd

A fire in the kitchen at the Fasi home of Mr Feleti Koloamatangi and Pelēsila attracted a large crowd late on Sunday night.

The fire engine was called, but by the time it got to the scene, the fire had been quelled by neighbours.

Mrs Koloamatangi told the Chronicle the fire probably started about 10 p.m. but she and her husband did not know of it until about half-an-hour later when they heard the neighbours running outside the house, trying to put the fire out.

Mrs Koloamatangi said she did not know what caused the fire, but the explosion of the kerosene stove boosted it.

PUBLIC OPINION POLL ON THE SUNDAY LAW

What do you think about the Sunday Law in Tonga. Would you like to see some changes made?

Are you satisfied with the Sunday Law and don't want to see any changes?

The Chronicle is conducting this opinion poll to find out what you think?

Complete the following form by crossing out one of the alternative answers given to each question. For instance, if your answer is Yes, cross out the No and Don't Know.

YOUR NAME IS NOT REQUIRED, but we would like to know your village, your age and your sex.

When the form is filled in, return it to the Chronicle either by :

1. Posting it to Box 197, Nuku'alofa.
2. Handing it into the Chronicle Officer, Prime Minister's Department Building, Nuku'alofa.
3. Handing it to a member of the Chronicle staff.
4. Handing it to the driver on the Chronicle minimoke.
5. Handing it into the store where you buy your Chronicle, preferably in a sealed envelope.

EVERY READER OF THE CHRONICLE IS ASKED TO COMPLETE ONE OF THESE FORMS.

Please Answer These Questions On The Sunday Law

1. Do you think the law can be relaxed and the Sabbath Day still remain holy?
   Yes
   No
   Don't know
2. Should Sunday observance be left to each individual's conscience?
   Yes
   No
   Don't know
3. Should bus and taxi owners apply for a permit to be allowed to operate on Sunday?
   Yes
   No
   Don't know
4. Should an exemption from the law be given for busses and taxis to run to churches, hospitals and schools?
   Yes
   No
   Don't know
5. Should organised sport [illegible] rugby, soccer and cricket be allowed on Sunday?
   Yes
   No
   Don't know
6. Should the playing of unorganised sport such as tennis, golf, table tennis and croquet be allowed on Sunday?
   Yes
   No
   Don't know
7. Should bakers be allowed to bake bread on Sundays?
   Yes
   No
   Don't know
8. Should bakers be allowed to sell bread on Sundays?
   Yes
   No
   Don't know
9. What shops should be allowed to open on Sunday?
   All shops and stores
   Small shops only
   No shops
10. What radio broadcasting should be allowed on Sunday?
    Full weekday hours
    Present Sunday hours
    No broadcasting at all
11. Should tourist ships be allowed to come to Tonga on Sunday?
    Yes
    No
    Don't know
12. Should aircraft be allowed to land in Tonga on Sunday?
    Yes

This And That

CHRONICLE DIARY

The annual inter-school quarrel season is under way. Last Friday afternoon at the Hahake bus terminal, a large crowd wearing the uniforms of most schools were watching a fight between boys from St. Johns and Tailulu.

The situation was made worse by interfering adults and old boys who apparently wanted to take sides. They should know better; this sort of rivalry happens every year. The police eventually had to take charge of the nasty situation.

* * *

The New Zealand Volunteer Service Abroad field officer, Mr Tom Muir, arrives in the Kingdom tomorrow for a week to investigate new requests for volunteers from the Government and the missions. He also wants to see as many Tongatapu V.S.A.s as possible.

A new hazard for tourists! Young pickpockets! A visitor of our acquaintance told us that twice within a few days he caught a small hand in his trouser pockets. And when they were caught, they only laughed!

* * *

Nobody at the airport to welcome home Their Majesties on Saturday recognised the Minister of Police, the Hon. 'Akau'ola, when he emerged from the plane . . . he had disguised himself with a turban. It was presented to him by the Governor of Jaipur before the State dinner and the Minister was asked to wear it to the dinner where it caused him a little embarrassment, he told us. He had not been introduced to the ladies on either side of him who insisted in talking to him in the local language. They were giving him peculiar looks when he did not reply, until the High Commissioner to Fiji, Mr Bagwhan Singh, came to the rescue and explained to the ladies who the Minister was. The confusion was understandable, 'Akau'ola said, because he was told that his colouring and nose were Indian and the turban completed the picture. Our picture shows the Minister, with turban, talking to Chief Superintendent Toni Naufahu at the airport.

THE SCRIBES.

FEHU'I

1. Ko e hā e me'a 'oku fiema'u taha 'e he kau sipoti 'a Tonga ní? (Tali he peesi 10).

Kau Ngaue Tonga 'I Nu'u Sila

TAUMU'A KE LANGA HA FALELOTU MA'A TOFOA

Mei he Potungāue Faiongoongo 'a Nu'u Silá.

'Oku vavé ni mai pē ke langa ha falelotu fo'ou 'o e kolo ko Tofoá 'aki ha pa'anga na'e ngāue'i 'i Nu'u Sila 'e he kakai 'o e koló.

Hangē ko e faifekau Uesiliana ko ia ko Paini Sikuea he kuo ne fili ke ne ngāue 'i Nu'u Sila 'i he ngaahi ngāue'anga 'i Hutt Valley 'o 'ikai ko 'ene taumu'á ke ma'u ha pa'anga ma'ana ka ke ma'u ai ha lelei 'a hono siasí mo e koló foki.

'Oku kau 'a Paini 'i he toko 60 Tonga kuo 'omi ki Nu'u Sila ni 'e he Hutt Valley Chamber of Commerce ke ngāue māhina 'e ono. Na'e ma'u ngāue kotoa 'a e toko 60 ni 'i Lower Hutt mo Petone—'i he fale fokotu'u motokā, falengaohi'anga sikaleti, kautaha langa mo e Potungāue Lēlue 'a Nu'u Silá. Koe'uhi 'oku fu'u lelei 'aupito 'a e founga ni ko ia ai 'e folau atu mo ha toe kau ngāue 'i Fepueli 'o e ta'u fo'oú.

Ko e faka'amu ko eni 'a Painí —ki ha falelotu fo'ou ma'a Tofoa —'oku ne ngāue tōtōivi ki ai 'o fai foki 'aki 'a e māfana 'o e anga ta'esiokita 'o e kalisitiané.

Ko e seniti pē 'e 80 'oku ne ngāue'aki 'i he uike. Vahe'i e konga 'o 'ene pa'angá ki he'ene nofó, hano ki'i vala mo e totongi ene folau mai mo 'ene foki ki Tongá. 'Oku ne lī ha konga ki 'api ki hono ki'i fāmilí pea ko e toengá, 'oku ne tānaki.

'Oku fakafuofua 'e Paini 'e fe'unga mo e $700 ki he $800 ke tokoni ki he pa'anga langa falelotú 'i ha'ane foki ki Tonga. Koe'uhi ke fakaa'u 'ene faka'amu ko eni 'oku ne ngāue 'aho 'e nima he uike.

Ko e tangata natula taki pea fu'u lelei 'aupito 'ene lea faka-Pilitāniá 'oku ne taki-ngāue 'i he kau ngāue he feitu'u kotoa 'oku nau ngāue ai. 'Oku lelei 'aupito 'a e ngāue mo e me'a-tokoni 'oku nau ma'u 'i he hositele 'oku nau nofo ai 'i Gracefield neongo pē 'a e ki'i fo'ou 'a e me'a-tokoní kiate kimautolu. Ko e patetá eni 'oku 'i he tēpilé 'o 'ikai ko e talo pea 'oku fu'u fakaangaangata'a 'a e kau Tongá ni ki he mā he meimei taimi hono kotoa.

Na'e pehē 'e Paini, "Kuo tu'o lahi foki 'eku fanongoa 'a e lau ko ia 'oku 'ikai mo'ui 'a e tangatá 'i he mā pē ka ko 'eku toki a'usia eni." 'Oku mau kai mā tu'o taha pē pe tu'o ua 'i Tonga 'i he uike."

'Oku tupu pē mei he lelei 'a e 'ulungaanga 'o e kau ngāue ko ení kuo 'omai 'e Tonga ki Nu'u Silá ni 'oku fu'u lelei pehē ai 'enau feohi mo honau kaungāngāue pea sai'ia foki 'iate kinautolu 'a e kau foameni kotoa 'oku nau ngāué. Kuo 'iloa kinautolu 'i he ngāua mālohi mo e fai fakamāatoato.

'Oku nau taki tāuhi pē 'ae 'amanaki — ko e taha ke langa hano falé pea ko e taha ke fakalelei'i 'ene ngoue. Neongo 'oku tokolahi ha kau 'akapulu lelei 'iate kinautolu, ko e ki'i tokosi'i pē 'iate kinauotlu 'oku nau va'inga koe'uhi ko 'enau ilifia na'a nau lavea kae 'ikai fakakakato 'enau ngaahi faka'amú.

Ko Tatau Pungatoa ena mei Mu'a 'oku ne lolotonga fakahamolemole'i ha matapā 'o ha Valiant fo'ou na'e toki fokotu'u 'i he falengāue 'o e Todd Mofors 'i Petone.

Ko Siale Tonga ena mei Navutoka 'oku ne lolotonga fakangingila faka'osi ha motokā 'i he fale fokotu'u kā 'o e Todd Motors 'i Petone, Nu'u Sila. 'Oku tānaki sēniti 'a Siale ke langa hano falé 'i ha'ane foki mai ki Tongá ni.

Ko Paini Sikuea (to'ohema) 'oku ngāue 'i he fale fokotu'u'anga kā 'o e Todd Motors 'i Petone 'oku ne ki'i 'atā mai mei he'ene ngāue ko e fokotu'u 'akisela mui e kaá, ke pōtalanoa mo ha motu'a Tonga 'e taha ko Samuela Ma'u, mei Nuku'alofa. Ko Painí ko e faifekau Uesiliana 'o Tofoa pea 'oku ne lolotonga 'i Nu'u Sila 'i ha māhina 'e ono 'i he founga ngāue 'a e Hutt Valley Chamber of Commerce. Na'e 'ikai ha'u 'a Samuela 'i he founga ngāue ko ení pea ko e tolu māhina eni 'a 'ene ngāue 'i he Todd Motors.

Kalonikali

Tā mai ki he 'Ofisi Kalonikali, Nuku'alofa, 302B pe te ke lava mai pē, 'o kapau 'oku ke ma'u ha ongoongo pe ko ha me'a 'e 'aonga ki he'etau nusipepá ni.

Ngaue 'i Nu'u Sila

Ko Laimani Tevita ena 'oku ne lolotonga kasa'i 'a e ngaahi kongokonga 'o e sino'i motokā 'i he falengāue fokotu'u'anga kā 'a e Ford 'i Lower Hutt.

'I he falengāue 'o e Ford 'i he Lower Hutt 'oku lolotonga kasa'i e Hafoka Tāufa 'a e faliki 'o ha me'alele.

Ko hono faka'osi'osi ena 'e Siaosi Kumā ha motokā fo'ou na'e toki fokotu'u 'i he falengāue 'a e Ford 'i Lower Hutt.

TOULIKI DEPOT, NUKU'ALOFA

Banana growers!

Weeds and grasses cost you money. When you first plant your bananas, weeds and grasses severely affect the growth of the crop. By spraying the ground with DU PONT "KARMEX" at 1½-3 lb per acre at planting time, bananas will make maximum growth which means easier harvesting and BIGGER YIELDS. In established bananas, an application of "WEEDFREE" 235 at 4 pints per acre plus "KARMEX" at 2-4 lb per acre will kill established weeds and grasses and also keep the ground clean for a long time.

"WEEDFREE" ® 235 is a contact weedkiller which 'burns-off' weeds and grasses to ground level.

"KARMEX" ® is a residual weedkiller which keeps the soil free of weeds for a long time.

no weeds — quicker growth — bigger crops.

Distributed in the Pacific Islands by:—
Neill, Cropper & Co. Ltd.,
G.P.O. Box 1440, Suva, Fiji. Tel.: Suva 381-772.

Banana growers!

Weeds and grasses cost you money. When you first plant your bananas, weeds and grasses severely affect the growth of the crop. By spraying the ground with DU PONT "KARMEX" at 1½-3 lb per acre at planting time, bananas will make maximum growth which means easier harvesting and BIGGER YIELDS. In established bananas, an application of "WEEDFREE" 235 at 4 pints per acre plus "KARMEX" at 2-4 lb per acre will kill established weeds and grasses and also keep the ground clean for a long time.

"WEEDFREE"® 235 is a contact weedkiller which 'burns-off' weeds and grasses to ground level.

"KARMEX"® is a residual weedkiller which keeps the soil free of weeds for a long time.

no weeds — quicker growth - bigger crops.

QUIZ

1. What changes in Sunday observance were voted for in the public opinion poll? (Answer Page 1).
2. What are the four aims of the new manager at 'Atalanga, the Tongan student hostel in Auckland? (Page 3).
3. What services are provided at the new veterinary clinic and where is it? (Page 11)
4. Is the world copra price improving? (Page 9).
5. How many inaccurracies are there in an American radio script about Tonga? (Page 7).
6. When does the soccer competition start? (Page 12).

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, November 4, 1971 Vol. VIII No. 22 3 Seniti

Setback To Oil Prospects As Oil Well Is Abandoned

Exploratory well Kumifonua No. 1 is being abandoned and the well plugged, Tonga Shell NV have announced on behalf of the Tonga Oil Participants. Drilling of a second well on the site near Fua'amotu will also not take place.

Kumifonua No. 1 was spudded in about a month ago and the well reached a depth of 5525ft (more than a mile) before drilling was stopped. There were no indications of oil or gas in the section penetrated.

Before abandoning the well, extensive electrical logs were made and a seismic velocity check shoot carried out to prove the maximum geological information.

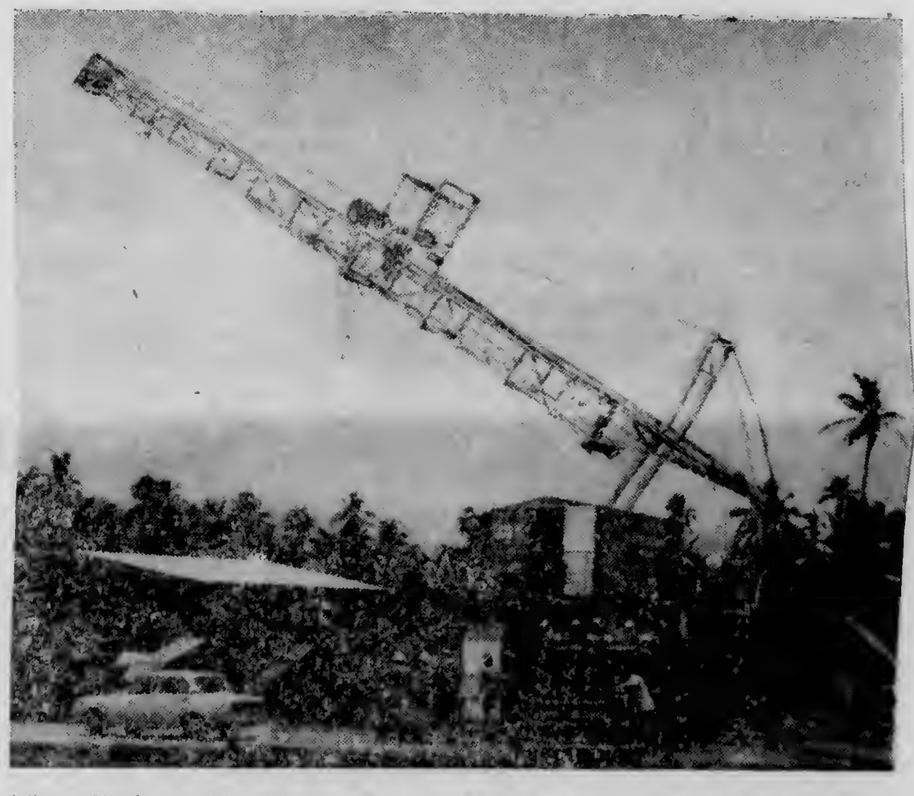
Abandoning is carried out by setting cement plugs in the well and sealing off the well-head at the surface.

The general representative for Tonga Shell NV, Mr Allan Jackson, said that although no oil or gas was found in Kumifonua 1, the detailed geological information obtained would be of great help in assessing prospects of the area as a whole and would considerably influence decisions on future work.

Preliminary study of results had made it clear that is was not recommended, on geological grounds, to drill, at the present, the Fua'amotu location, Mr Jackson said.

The Participants are still deciding what the immediate programme should be and at the time the Chronicle was going to press an announcement was expected at any moment.

Meanwhile, at Kumifonua 1, the drilling equipment is being dismantled ready for moving.



The oil rig at Kumifonua No. 1, Ma'ufanga, is lowered as drilling abandoned.

FEW CHANGES TO SUNDAY WANTED

Some changes to the Sunday observance laws are wanted but the consensus in the public opinion poll conducted by the Chronicle is for Sunday in the Kingdom to remain as it is.

Strong support came for buses and taxis being allowed to run on Sunday. Baking bread on Sunday met with approval but not selling bread.

Opinion was equally divided on whether Sunday observance should be left to each individual's conscience, but definite that the Sunday Law could not be relaxed and the Sabbath Day remain holy.

About 3350 Chronicles were sold in the Kingdom and 199 poll forms were returned. Of this number 123 came from men and 76 from women.

The teenage to 29-year-old group returned 76 forms, the 30 to 49 group 86 forms, the 50 to 69 group 35 forms and one form each from a 74 year-old and an 80 year-old.

The full results are :

1. Do you think the law can be relaxed and the Sabbath Day still remain holy? Yes — 123; No — 74; Don't know — 2.
2. Should Sunday observance be left to each individual's conscience? Yes — 98; No — 99; Don't know — 2.
3. Should bus and taxi owners apply for a permit to be allowed to operate on Sunday? Yes — 115; No — 84; Don't know — 0.
4. Should an exemption from the law be given for buses and taxis to run to churches, hospitals and schools? Yes — 137; No — 62; Don't know — 0.
5. Should organised sport such as rugby, soccer and cricket be allowed on Sunday? Yes — 49, No — 149; Don't know 1.
6. Should the playing of unorganised sport such as tennis, golf, table tennis and croquet be allowed on Sunday? Yes — 69; No — 130; Don't know — 0.
7. Should bakers be allowed to bake bread on Sunday? Yes — 113; No — 84; Don't know — 2.
8. Should bakers be allowed to sell bread on Sundays? Yes —90; No — 102; Don't know — 7.
9. What shops should be allowed to open on Sunday? All shops and stores — 34; Small shops only — 65; No shops — 100.
10. What radio broadcasting should be allowed on Sunday? Full weekday hours — 48; Present Sunday hours — 122; No broadcasting at all — 29.
11. Should tourist ships be allowed to come to Tonga on Sunday? Yes — 61; No — 138; Don't know — 0.
12. Should aircraft be allowed to land in Tonga on Sunday? Yes — 81; No — 114; Don't know — 4.
13. Should entertainment be provided for tourists on Sunday? Yes — 50; No — 147; Don't know — 2.

"DEAR SIR..."

LETTERS TO THE EDITOR.

Agricultural Council

Dear Sir,—Many thanks for the report you published regarding the deliberation of the Agricultural Council. For many weeks since the council sat for their second session this year, virtually nothing has emanated from it and been passed on to the public.

I wonder whether this lack of publicity is a good indication of the poor quality of subject matter discussed, which to my personal knowledge is frequently the case. Equally as bad is the repetition of the aged old motions, with practically nothing new introduced.

As a frequent reader of the Council's minutes it often makes me wonder what have the representatives been doing during the intervening periods. Many of the motions submitted appeared to have been collected on their way to attend the Councils meeting and can in fact be easily solved by the 'hauas' on the street. Additionally, a good number of them can be referred to as rubbish and should have never been submitted.

If the members themselves tried to put some constructive suggestions and arguments and never lost sight of our economic capability, I would be the first person to take my hat off to them.

Too often members try to use this meeting as a political tool for their own benefit without realising that each additional day is an additional hole in the growers' own pockets. How can one justify this? It costs thousands of pa'anga each year to stage the two sessions annually.

To aggravate the situation the price of copra is at present very low and our economy is still very sick; as a result growers are finding themselves sandwiched by the rising cost of living on one hand and a poor return for their crops on the other.

Would not it be better for everyone concerned if the session was limited to two weeks only to ensure that deliberate actions by members to prolong indefinitely is discontinued and the "fakamafana" of previously discussed matters is stopped.

As an alternative suggestion it would be better still to elect the representatives every three years and discontinue with the present system of life membership as it appears to be so at this stage.

In addition I have my doubt on the usefulness of the Agricultural Council and their contribution to the economy of Tonga. I am certain that if the cost and benefit is analysed for the Council, the answer is obvious.

SUNIA FAIVA.

Health Regulations

Dear Sir. — I am thankful to the Health Departmene for its instruction to paint the shops, use wire gauze in the bread boxes and demand that the doughnut boxes should have glass windows. Likewise the decision not to use newspaper for wrapping butter, for when the butter starts to melt the print of the newspaper appears on the butter.

All those instructions have been executed, but there are other things which need attention:

1. Flies are the carriers of filth in some of the smaller shops which are also used as dwelling quarters.
2. A knife that has been used at the back of the shop for cutting soap and other things has been used in cutting mutton and butter.
3. Sitting young children, fully dressed or half dressed, upon the counter of the shop.
4. The using of the counter for ironing because the convenience of the electric point in the shop permits the shopkeeper to wait on his customers. Perhaps the three things above demand more priority than painting the shops. Thanks to the Health Department for enforcing the health regulations.

S. K, 'ALOUA.

Working In N.Z.

Dear Sir. — It was with interest I read the letter of Paula D. Karalus on his views of Tongans working in New Zealand, but I was not misled by the Tongan name Paula, as it is obvious that this letter was written by a New Zealander.

Perhaps it is not a "magnanimous gesture" on the part of the New Zealand Government, but it is a gesture.

The Tongan people are appreciative to have the opportunity to earn money of this nature for their own benefit. The statistics given are interesting, but as the writer knows you can prove anything from statistics.

The fact remains that the Tongans are grateful and satisfied with the arrangements made.

It is one of the many types of aid given by New Zealand, and naturally New Zealand will benefit from this type of scheme, although in a very small way. It is a reciprocal scheme which is valued highly by both the New Zealanders and Tongans alike.

Why sow seeds of discontent?

G. H. DANIEL.

IT'S TIME YOU STARTED SHAVING

—REALLY SHAVING!

You only REALLY start shaving when you change to a Seven O'Clock Blade.

Smooth. Comfortable. Shave after shave after shave . . . . . .

Ask for a Seven O'Clock Blade at your usual store. Feel the difference.

University Symbol

The University of the South Pacific Council has chosen this symbol. The design emphasizes the place of the university in the South Pacific and incorporates a widespread natural product of the region (a palm tree) and a traditional mode of transport throughout the university region (a stylised takia).

The designer is Mitieli Bari of Suva, who was once a student at U.S.P. He was one of the joint winners of the symbol competition held earlier this year and he has developed his original design in consultation with a committee in the university.

This story appeared in the Auckland Star on Saturday, October 23, and was written by Jack Leigh. The photos are by Paul Anderson.

RIGHT: Dr Fanamanu (centre) with students. They are, from left, Kēlepi Makakaufaki (science), Pita Kupu (accountancy), Stafford 'Aho, who played at centre for the Manukau senior rugby team this year, and Jimmy Tekiteki (arts).

Toning up discipline and relieving social isolation are among the aims of a . . .

Revolution (And A Call For Help) From 'Atalanga

There's reform and whiff of student power in the air, behind the leafy palisades at Atalanga . . .

Internal problems are being worked out. There's been a sutle shift of authority. Barriers may be breached – if New Zealanders answer a call for help.

It all adds up to cultural revolution in South Seas Island setting, with the aim being to let Western influence in.

Atalanga is indeed an island, palmy with nikau, phoenix and cabbage tree. But it is lapped by fallen leaves; the only waves are those of the treetops.

And stretching unseen on every side are the lawns of Epsom. Atalanga is the Tongan royal residence and students' hostel in Auckland.

There has long been a feeling that this leafy sanctuary is a little piece of Tonga, isolated from the surrounding community. Inside it, students sent here to learn New Zealand skills think, speak, eat and act Tongan.

They commute between two worlds—university and Atalanga. Says one girl student: "It's like the two climates, New Zealand and tropical."

When they go out visiting, it is likely to be to Tongan homes. And being at Epsom, Atalanga is a long way even from these.

It has been worrying the Government back home — the isolation, and student performance in New Zealand generally. (The 20-year record: Five graduates out of about 30 students).

Clearly, it's time for a stir-up. Maybe a few new rules, more encouragement, more swot, more go-go-go.

So Nuku'alofa sent a trouble-shooter — a man with unlikely credentials for the job, you might think. He is a Philippines-trained doctors working mainly in public health, who comes fresh from a World Health Organization project on environmental sanitation.

His more important qualifications are in wisdom, understanding and good humour.

And the eyes of the kingdom are on Dr. Joe Fanamanu (49).

A stocky, deliberate man, he came here as hostel manager at the beginning of September.

He has set himself four aims:

To relieve the social isolation, tone up discipline, promote studies and render general improvements to hostel facilities.

It is a bit soon to measure headway, but he has arranged for a student council to be set up and is working on a constitution for it.

These steps have been notified to Tonga for approval.

It is planned to have evening study periods, outings by permission only and stay-at-home penalties for those who do not conform.

A read, a smoke, a laugh . . . girl students relax in their hostel lounge at Atalanga. From left: Lasale Finau (librarian scholarship), Kalo Kātoa (secretarial), Luseane Tonga (arts).

"People tend to take off in the evenings," says Dr. Fanamanu.

The world will come to Atalanga with daily newspapers and two TV sets—one each, boys and girls. At present, students wishing to see TV have to get permission to go into the normally out-of-bounds royal house where, being commoners, they must sit on the floor.

All the planned measures are being greatly helped by the students' own enthusiasm for change.

But most of all Dr. Fanamanu, who has an old-world esteem for the proprieties, is "looking for avenues of orienting the students to civilized etiquette."

He wants them to be invited out, to spend the day with New Zealand families.

"I thought they would hate me for suggesting visits to homes," he says. "I was waiting to be criticized. But no, they are eager to get invitations."

Comments Barbara Peleki (22), arts student: "We are very pleased. No one else has tried to integrate us. Tongan students came and go without absorbing much of this advanced culture."

Atalanga (loosely, "development"), once the home of Sir James Gunson, Mayor of Auckland 1915–25, was designed for gracious seclusion.

BP

There is only one BP—BRITISH PETROLEUM—the international oil company.

The BP letters, yellow in a green shield, is the symbol of the BP group of cf companies throughout the world. The symbol is found on installations, service stations, ships, road and rail trucks, at airports and on a complete range of packet products throughout the BP group's marketing network.

In Tonga the BP products now available for commercial use are super-grade petrol, auto diesel fuel and lighting kerosene.

Watch for the opening of the new Service Station to serve the needs of all Tongans.

Remember there is only one BP — BRITISH PETROLEUM.

BP South-West Pacific Limited, P.O. Box 475, Nuku'alofa.

Agents : E. M. Jones Ltd, phone 420.

BP Tonga Ltd.

BP

'Atalanga Revolution

(From Page 3)

The driveway to the property of nearly four acres tunnels beneath leafy boughs. There are lawns, a tennis court, rosebeds, archways and bowers.

There is a work force of three gardeners, three cooks and two drivers—all Tongan.

The main building is the Tongan royal residence in Auckland. Behind it, widely spaced, are the men's and women's hostel blocks and the manager's house.

There are now 15 students there — five girls and 10 boys. Four girls and six boys are at university. The others are secretarial, accounting and marine training students.

Student power? Well, there's only the merest suggestion.

Says arts student Miss Luseane Tonga (22) : "We're not politically minded. The things we want are trivial, like a timetable that makes sure meal times are appropriate to lecture times.

"The students' council will give us a bit of responsibility and a say in what is happening. And we haven't had that before."

Says Dr. Fanamanu : "There's been an unexpected response. They felt they were treated like primary pupils. Now they can minister to their own welfare, and they'll conform to the rules because they have formulated those rules."

With democratic notions infiltrating Atalanga to this extent, where is it to stop?

Well short of hippyism, to be sure.

"Hippy-type student dress does not appeal to us at all except to look at," says Barbara Peleki, who herself pleasantly alternates muumuu and mini ("You have to keep up with the pace of society here").

Says Dr. Fanamanu : "I tell our people that here, students do not set examples for the public. This is a highly developed society.

"But at home, Tongan students who have been to university do have to set examples of behaviour, dress and speech.

"In the village, if you have long hair, people will not know your mentality, but just observe how you dress. And they won't want their children to be like you."

"That word there . . ." says 20-year-old Ellen Mone (left) to fellow arts student Barbara Peleki.

But back to that sense of isolation, and it is something very real in the minds of the students.

Says Miss Peleki : "Our contacts at university tend to be very shallow. So we mainly stick together."

They feel outsiders — not because the big city is indifferent to them, as it is, but because they are insecure in their ability to cope with it.

Says Miss Lasale Finau (22), who is on a librarian scholarship: "There's this constant transition between two cultures. And when you go out into the true New Zealand community you don't know what to do. It is how you are to dress up, to behave.

"The main thing is to mix in with the Europeans and learn what will be useful to you."

That's the nub of it. This is a need, not mere sociability.

Says Barbara Peleki : "I believe to absorb the culture of this country we must get involved in it. It's not so much specific facts we need to know, but the whole way you think.

"It's difficult for Tongans to understand, for example, that kids move out of home here and go flatting. That's hard for us to justify.

"Our wish to know more is not just tourism . . . We want to learn values which we can ourselves put to use."

There's the immediately practical as well.

Says Luseane Tonga : "When we're eating out, we're not sure whether it is acceptable to leave food we cannot manage. And several knives, forks and spoons —that's a problem."

This matter of self-confidence could be a factor in the low pass rates of students in the past.

Other possible explanations — like poor pay at home, limited opportunity and inability to beat the hierarchial system—are given little credence.

Says Dr. Fanamanu : "They are well trained to fit the New Zealand curriculum. But coming here is a big jump, and adjustment takes time.

"They like the freedom they have and it seems that along the way some lose their perspective, forget their obligations to the Government that has sponsored them.

"What I want is that they work hard and get their degrees. The failures, to me, are those who pleased themselves. Study means missing out on a lot of fun."

Says Luseane Tonga : "We feel there's a gap between the students here and our Government and Education Department.

"We feel they haven't worried about us all year, then out of the blue will come an order for a student who has failed his units to go back home.

"It's very painful to see students called home like this. We think they should be put to other training here in New Zealand."

Any student breaking his agreement — and it's almost unknown — would forefeit a $20 bond.

If it was a big jump for the students to come here, so it was for Dr. Fanamanu, who brought his wife and two young sons.

But he does have his Rotary.

"I was a bit agitated, not knowing how I would be received," he says of his first visit to a local club. "But I've been twice now, and it gives me a lot of confidence. One member told me to ask for any help at any time, and that is a wonderful thing to me . . ."

Stafford 'Aho (left) and Jimmy Tekiteki enjoy a game of cards in the lounge of the boys' hostel.

POLICE NOTICE

HALF-YEARLY EXAMINATION OF VEHICLES

Attention is drawn to Section 7 of the Traffic Regulations, Chapter 99 of the Consolidated Laws of Tonga, 1967, Volume III, which requires motor vehicle owners to present their vehicles for the half-yearly test by the Mechanical Engineer at the Public Works Department, Nuku'alofa, Neiafu, Pangai and 'Ohonua, commencing on the December 1, 1971. Details are as follows :

NUKU'ALOFA (Tongatapu) - -
December 1, 2 and 3 - - Heavy trucks, tractors and buses.
December 6 — 10 - - Light trucks, motor-cycles and tri-cycles.
December 13 — 17 - - Private and taxi cars.
December 20 — 22 - - Government Vehicles.

NEIAFU (Vava'u) - -
December 6 — 22 - - All types of vehicles.

PANGAI (Ha'apai) - -
December 6 — 22 - - All types of vehicles.

'OHONUA ('Eua) - -
December 6 — 17 - - All types of vehicles.

The examination of vehicles will be held during Government working hours, Monday to Friday.

'AKAU'OLA,
Minister of Police.

New Store At Lapaha

Avery's store at Lapaha was opened by Princess Siukilikutapu on Thursday afternoon.

The distinctively modern building on the main road is owned and operated by Mr and Mrs John Avery.

It has a shop and storeroom on the ground floor and living accommodation upstairs. The builder was Mr Tutomu Nakao.

Avery's store is both wholesale and retail. Being the only wholesale store in the area it will give a special service to small shop owners and avoid the necessity of many of them having to travel to Nuku'alofa for supplies.

The picture shows the Princess, with Mr. Avery, cutting the ribbon at the opening ceremony.

WORLD COPRA MARKET STILL AT VERY LOW LEVEL

The world copra market prices last month appears to have stabilised at a slightly lower level than that of the previous month, the Tonga Copra Board reports.

The main factors affecting the world market price are the same as existed last month, namely the strike of United States longshoremen which has now extended to the East Coast, the flooding of the European copra market with supplies from the Philippines which would in normal circumstances have been shipped to US ports and the uncertainty over the US dollar rate of exchange.

President Nixon has invoked the Taft-Hartley Act forcing the stevedores on the West coast back to work but this applies only to certain ports. The East coast which recently became stricken bound has two ports only open to shipping, Houston and Galveston.

The board says there should be an improvement in the situation when the US ports are all operating smoothly, but when this will be, cannot be predicted.

"The board has the interests of producers very much in mind and appreciates the support it is receiving at this rather depressing period," the statement says.

The November local copra prices, which will apply throughout the Kingdom, are .85 seniti a ton less than in October. The prices for this month are :

1st Grade T$74.40 a ton
2nd Grade T$62.40 a ton

The price to be paid for coconuts will be maintained at 1.2 seniti a nut.

TONGA PRODUCE BOARD

All growers wishing to export their produce through the Tonga Produce Board please note the following vessels and their expected times of arrival in Tongan ports during November, 1971, and please call at the Produce Board Offices at Nuku'alofa, Angafā in 'Eua, Pangai in Ha'apai and Neiafu in Vava'u and submit your applications, stating the quantity and type of commodity you wish to ship on each occasion.

Please note that the quantities of commodities quoted hereunder are only our estimates and these figures may be altered in accordance with the total applications received. So, please make your applications realistic to assist us with negotiations with overseas markets.

WATCH STAMP ATTRACTS WORLD INTEREST

Tonga's watch-faced stamps, the first ever produced in the world, and showing a tuning-fork watch movement, are featured in articles in an American newspaper and the New Zealand.

The American article recalls that the set commemorates the first anniversary of man's first landing on the moon. While on the moon, U.S. astronauts Armstrong and Aldrin placed scientific instruments incorporating such a tuning-fork watch movement there.

The new issue was unusual, the U.S. article said, because the stamps are of the "no lick" self-adhesive variety. U.S. stamps have the gummed backing which requires wetting for application to envelopes.

The N.Z. Herald, says that the shape of the stamps and their slogan, "The Friendly Islands, Where Time Begins", emphasises the unique distiction of being the only country in the world that is 13 hours ahead of Greenwich Mean Time.

AS OTHERS SEE US

The following radio script was recently broadcast in America by John Furbay, "Radio's Voice of Travel". Mr Furbay tells us 35 million people heard the broadcast over 30 stations. The script is published exactly as broadcast :

This is John Furbay, on the island of Tonga, down in the South Pacific. You can hear the birds singing, and believe me, They've got a lot to sing about! This is one of those truly romantic South Seas paradises that you see in the movies. I'll tell you more about it, in one minute.

COMMERCIAL

The Tonga Islands, and there are about 150, are the last kingdom in the South Pacific. Though Great Britain looks after their foreign affairs for them, they are completely autonomous. The Tongans have a Parliament, modelled after the English one, but their king still holds great power.

When the famous Captain Cook explored the South Seas during his three great voyages, he named the Tonga group the "Friendly Islands" because the natives seemed to vie "with each other in doing what they thought would give us pleasure." And "friendly", they still are!

The people of Tonga look like other Polynesian islanders—like the Samoans, for instance, or the Hawaiians. They make their living primarily from the sale of copra—that's dried coconut meat; they export it to Japan and New Zealand. For their own food they harvest taro, pineapple, breadfruit, and the main staple of the South Pacific, which is yams.

The women of Tonga weave their own fabrics. It's called "tapa" cloth, and it's made from the inner bark of the paper mulberry tree. They take long strips of it, soak it until it's good and wet, and pound it until the strips widen into ten or twelve-inch bands. These are glued together until they reach the desired size. It's used for clothing, bedding and room dividers. For the coronation of their King, one village made a whole mile of tapa—enough to cover their main street, so that no one in the procession would have to touch the bare earth!

Here in the capital city of Nuku'alofa, most of the houses are European style, but on the outskirts of the town and also on the other islands, we found traditional Tongan houses : single-room dwellings of bamboo, with thatched roofs make of palm branches. Just like you'd expect to see! Sleeping quarters are screened off with sheets of tapa cloth, and the doors are kept open to let in the sea breezes.

"Civilization" surely is coming to this island paradise. Whether this is good or not, depends on your point of view. The small hotel where I'm staying is unique. They claim it sits right on the International Dateline, and if you go out one door it's Sunday—out another door, and it's Monday! There's grass landing strip for small airplanes. There are a few automobiles, and, there is a Rotary Club. One of its first service projects was a handbook for Tongan children—on safety in the streets!

But there's still a feeling of beauty and tranquility here. You can sit and watch how the sea pounds into the shore, across great coral reefs, where the waves burst through these natural blowholes and create the illusion that there are about a thousand whales spouting out there.

This is John Furbay, on the island of Tonga.

A Positive Response To Prime Minister's Appeal For Bananas

One of the first positive responses to the banana growing campaign which was conducted by the Hon. Prime Minister, Prince Tu'ipelehake, earlier in the year has come from his son-in-law Hahano Vaha'i when he packed 40 cases of bananas from the first harvest of his 33-acre banana plantation at 'Utukehe Beach, for shipment on the "Tofua" yesterday.

The plantation, one of the largest in Tonga, is expected to be able to pack 1000 cases early next year. At present there are over 4000 plants with fruit and it is estimated that by January these bananas will be suitable for export.

The plantation was started this time last year by Mr Hahano Vaha'i and Mr Carl Brahne. The land was cleared and the planting started. At the end of the fifth day of continuous planting, 33 acres were completely cultivated with 10,800 banana plants.

Commenting, Hahano said the work was aimed at encouraging banana growers to grow bananas and to experiment in countering the disease which is so rife throughout Tonga. A similar plantation, though smaller in size, was started by Mr Albin Johansson at Kolonga.

Under the Department of Agriculture's banana subsidy scheme the 'Utukehe plantation was fertilized and closely attended by the Department's staff working at the Hihifo Agricultural Extention outpost.

In between rows of bananas, eight acres of the plantation is planted in pineapples which should be ready for export early next year.

Veterinary Clinic Opened

The new veterinary clinic for the livestock section of the Agriculture Department was opened on Thursday by the Minister of Agriculture, Prince Tu'ipelehake.

The clinic which cost $7500, consist of a combined operating and demonstration room, reception room, two offices, drug store and laboratory.

The clinic will be used primarily as a centre from which to run livestock extension work and teaching of animal husbandry principles.

All surgical procedures for dogs and cats can be undertaken in the operating theatre, but it is not encouraged at present.

Visitors are welcome at the clinic and the staff are willing to help anyone who has any problem with their pets or farm animals.

Mr R. T. Knowles, the veterinary officer is in charge of the clinic. The second incharge is Viliami Petelō who is responsible for the pig subsidy scheme, pig extension, and the programme for eradication of bovine tuberculosis. Mr. Martin Nusbaum is working on the cattle subsidy scheme and Kali Vailahi is responsible for the poultry subsidy scheme and the hatchery.

STOWAWAY FROM N.Z. ACQUITTED BY COURT

A New Zealander who stowed away on the "Taveuni", Ronald Derek Brown (26), of Devonport, Auckland, was acquitted on a charge of unlawful entry into the Kingdom when he appeared in the Nuku'alofa Magistrate's Court on Tuesday.

Police Magistrate Mr Sekonaia Tu'akoi said the charge was inconsistent the evidence given by the police. Whereas the charge was of "unlawful entry", the police gave evidence along the line of "entering the country without lawful permit".

Defence counsel Mr Tomiteau Finau questioned the authority of the police to keep Brown in custody since his arrest on October 27. He also held that the law did not authorise the Magistrate to preside over cases involving an alien unless authority has been granted by the Chief Police Magistrate.

Mr Tu'akoi replied to Mr Finau that a precedent had caused amendments to the law to be made, giving the Chief Immigration Officer, the Minister of Police, authority to detain and book an alien. The amendments also authorised a magistrate to preside over such cases, Mr Tu'akoi said.

The magistrate ordered that Brown be kept in custody until the Minister of Police had made arrangements for his deportation.

Swam To Shore From "Taveuni"

New Zealand stowaway Ronald Brown told the Chronicle he swam ashore from the Union Steam Ship Co. freighter "Taveuni" on the evening of October 26, when the ship was in the stream waiting to berth.

He made his way to the home of a friend in Nuku'alofa where he was arrested the following morning by the police.

Brown said he had come to Tonga because he wanted to be with a Tongan girl with whom he had fallen in love while she was on holiday in New Zealand.

Brown would not say where he had hidden on the "Taveuni" or whether he had been helped by the crew. He said he went on board at Auckland with a gallon of water, a loaf of bread and some fruit.

The former wife of the stowaway is known to have sent a telegram to the "Taveuni" warning the master that Brown was on board, but a search failed to flush him out.

A telegram was also sent to the police by Brown's former wife informing them that Brown was on the "Taveuni" and would attempt to land in Tonga. When the vessel berthed the police went on board and conducted a search but he could not be found. All Tuesday night the police made inquiries for Brown and traced him the following morning at his friend's home.

Brown was carrying a passport but it had not been stamped by the Immigration authorities.

Following his appearance in Court, Brown said he would apply for bail and permission to remain in the Kingdom.

The Minister of Police, the Hon. 'Akau'ola, said yesterday he had not received an application, but if he did it would be considered. Brown would be required to put up the amount of the bail as well as the cash for his fare back to New Zealand.

The resident agent of the U.S.S. Co., Mr Randall Wiggs, said his company was responsible for getting Brown back to New Zealand and a seat had been booked for him on today's Air Pacific flight to Fiji and then on to New Zealand.

Piu — Namoa Fight Stopped In Round Four

By Hopo

Tevita Piu was declared winner of 10-round middleweight contest with Fetaiaki Namoa on Friday at the Hauhau-'o-Taufa-'ahau.

The two boxers went into the ring exchanging hard blows. Namoa took advantage of his longer reach by using effective straight left jabs. Piu always tried to move in at close range and managed to land a few effective right hooks.

In round three, Namoa continued to fight effectively from the distance. He threw in a quick right uppercut to put Piu on the canvas to the count of eight. Shortly after this, Namoa dislocated his left shoulder. From then on he used only his right with Piu taking advantage of this and starting to move in closer.

At the end of the round, the doctor called the fight off but Namoa wanted it to go on.

By round four Namoa could hardly move his left arm and was managing only single-handed. The referee then stopped the fight.

Piu and Namoa are expected to meet again on November 12.

A GOOD RESPONSE

Some of the first crop of bananas from Hahano Vaha'i's plantation at Utukehe Beach are packed for shipment on the "Tofua" on Tuesday. The plantation was developed in response to the Prime Minister's appeal to grow more bananas. (See story Page 11).

This And That

CHRONICLE DIARY

It was a great day at the 89th anniversary celebrations of Tonga College on Saturday. The feasting and speeches were over and the guests rose for the national anthem. But where was the band? Nowhere in sight. Undaunted, several lusty voices led the singing of the anthem, but they were not all in the same key or the time, with the result that section B finished first followed by A and C. It was all extremely unfortunate, to say the least, but these things happen at the best organised functions.

* * *

Don't try buying stamps to post a letter on a tourist boat day. It took us three attempts on Monday before we even got near the counter. When we did we were told there were no 10 seniti stamps at that particular counter, "try the one next door". The clerk next door also had no 10 seniti stamps, "go down to the end counter". The "end counter" had a long queue and was almost obscured with parcels. We decided to wait until Tuesday and left, not impressed with the Post Office service.

The model of the Taj Mahal, pictured in last week's Chronicle, was not among the gifts presented to Their Majesties during the State visit to India.

THE SCRIBES.

SOCCER STARTS ON SATURDAY

The new soccer season will be officially opened by His Majesty at Teufaiva on Saturday about 2.30 p.m. The King will also present trophies to last year's winners at this time.

Friendly games will be played this week from noon and the competition will start the following Saturday, November 13.

The annual meeting of the Soccer Association was held on Monday and the following officers elected :

President, Hāmeti Mataele; vice-president, Tom Newland; treasurer, Carl Riechelmann; secretary, Siō Motu'apuaka; comittee —Hon. Langi Kavaliku, John Carroll, John Hantōn (Referees Association representative), Sione Fifita (Hahake district representative), Hinakau Manukainiu (Hihifo), Pakola Mafile'o (town).

'Oku nau fe'alu'aki 'i ha fo'i māmani 'e ua — ko e 'Univēsitī pea mo 'Atalanga. Na'e pehē 'e ha ta'ahine ako 'e taha, "'oku hangē ha ongo 'ea kehekehe 'e uá, ko Nu'u Silá mo e talopikí".

Ka 'i he taimi 'oku nau ō ai ki ha feitu'u, ko e lahi tahá pē ko e ngaahi 'api Tonga. Pea ko e tu'u 'a 'Atalanga 'i Epsom 'oku fu'u mama'o ia mei he ngaahi 'api Tongá.

Ne fu'u hoha'a 'aupito foki e Pule'anga Tongá — 'i he fu'u mavahe 'a e 'apí, pea mo e ola 'o e ako 'a e fānau akó fakakātoa (ko e lēkooti ki he ta'u 'e 20: ko e kau paasi pē nima mei he kau ako 'e 30).

Kuo mahino leva kuo taimi ke fakalelei'i. Fokotu'u ha fanga ki'i lao, fakamālohi'i kinautolu, ako ke lahi, pea mo toe lahi pē e fakafiefiá.

Ko ia ne 'omai leva mei Nukuʻalofa ha tokotaha ke ne fai 'a e fakalelei ni — pea mahulo te ke fakakaukau ko ha tokotaha ta'e fe'unga eni mo e ngāué. Ko ha toketā ia na'a ne ako 'i Filipaini pea na'a ne ngāue lahi ki he mo'ui 'a e kakai. Ko 'ene toki mavahe fo'ou mai 'ana eni mei he fo'i ngāue ki he mo'ui 'a e Kautaha Mo'ui 'a Māmaní.

Ka ko e me'a mahu'inga 'a 'ene poto, femahino'aki mo 'ene angalelei.

Pea 'oku fakafalala mai e Pule'anga Tongá kia Dr Joe Fanamanu, ta'u 49.

Ko ha matāpule sino mālohi mo ngāue tōtōivi kuo 'omai ke ne pule'i e hositelé talu mei Sepitema.

Kuo ne 'osi fokotu'u ha taumu'a 'e fā: Ke fakalelei'i e ngaahi faingata'a fakasosialé, fakalelei'i e 'ulungaanga, fakalakalaka e akó pea mo fakalelei'i e ngaahi me'angāue fakahositelé.

'Oku fu'u vave pe foki ke tau fakahā hono olá, ka kuo ne 'osi fokotu'u foki ha kōmiti pule'i 'a e kau akó pea kuo kamata hano fa'ufa'u 'o ha konisiūtone ke ngāue'aki.

Ko e ngaahi fokotu'u ko ení kuo 'osi fakahoko ki he Pule'anga Tongá ke nau loto ki ai.

Oku fakaangaanga foki ke fai e ako po'uli, kole ha ngofua pea toki mavahe mei 'api pea tautea leva ke nofo 'i 'api kapau 'oku maumau'i 'e ha taha e laó.

Na'e pehē 'e Fanamanu. "Kuo nau anga kinautolu ki he 'alu he ciafi."

'E kamata leva ke 'unu'unu mai 'a māmani ki 'Atalanga 'i he nusipepa faka'ahó pea mo e televisoné – ko e taha ma'á e tamaiki fefiné pea taha ma'á e tamaiki tangatá.

Ko e ngaahi fa'ufa'u kotoa ko ení 'oku fu'u tokoni'i lahi 'aupito ia 'e he fānau akó 'aki 'enau loto ke fei mo fai ha liliu.

Ka ko e me'a tēpuú kuo matu'otu'a ange foki 'a Fanamanu pea kuo 'ne mahu'inga'ia 'i he ngaahi me'a lahi. "Ko ia kuo ne fai ha feinga ke toe fakapotopoto ange ai e fānau akó."

'Oku ne fiema'u ke nau mavahe atu pea mo nofo atu ha 'aho mo ha fāmili Nu'u Silá.

"Na'a ku pehē te nau fehi'a mai kiate au 'i he'eku fokotu'u ke nau 'a'ahi ki he ngahi 'api" ko e lau ia 'a Fanamanu. "Pea ne u fakaongoongo pē ki hano fakaanga'i au. Ka na'e 'ikai pea 'oku nau fiefia 'aupito kapau 'e fakafe'i kinautolu."

Na'e fakalea foki 'e Barbara

Fakafo'ou 'i 'Atalanga

(Mei he peesi 3)

Peleki (22) ia 'o pehē: "'Oku mau fu'u fiefia 'aupito. 'Oku te-'eki foki ke feinga ha taha ia ke ne fakatahataha'i kimautolu. Ko e tokolahi 'o e fānau ako Tonga 'oku nau ha'u pe mo 'alu 'oku te'eki ke nau ta'usia 'enautolu ia e fakalaka 'o e mo'uí."

Ko 'Atalangá ko e 'api nofo-'anga fuoloa ia 'o e pule kolo 'o 'Okalaní ko Sir James Gunson. 1915 – 25 pea na'e fa'u pē ia ki he mālōlō'anga.

Ko e fale lahi pē e 'afio'anga 'o e Tu'í. Mei mui 'oku tu'u ai 'a e hositele 'o e tamaiki tangatá mo e tamaiki fefiné, pea mo e fale 'o e pule 'o 'Atalangá.

'I he taimí ni 'oku 'i ai e fānau ako 'e toko 15 – nima fefine pea 10 tangata. Ko e tamaiki fefine 'e toko fā mo e tamaiki tangata 'e toko ono 'oku 'i he 'univēsití. Ko hono toé ko e kau sekelitali, ako tauhi tohi mo e ako folau tahi.

Ko e mafai 'o e fānau ākó. Pea kuo 'i ai ha fanga ki'i fakakaukau.

Ko ha lau eni ia 'a Luseane Tonga, ta'u 22: "'Oku 'ikai te mau fakakaukau fakapolitikale. Ko e fanga ki'i me'a 'oku mau fiema'ú 'oku 'ikai ke fu'u mahu-'inga, hangē ko e taimi tēpile ki he kai koe'uhi ke taimi lelei mo e taimi akó.

"Ko e kōmiti ko eni 'oku 'i ai leva hamau fatongia pea 'e 'i ai leva hamau le'o ke mau lea 'i he ngaahi me'a 'oku hokó. Ka na'e 'ikai lava ia 'i he taimi tuoloá."

Ko e lau eni ia 'a Fanamanu: "Kuo kamata ke 'i ai e ngaahi tali ki he kolé. 'Oku nau ongo'i 'oku nau hangē ha fanga ki'i tamaiki lautohi. 'I he taimí ni 'oku kamata ke nau pule'i pē kinautolu 'e kinautolu pea te nau fai leva ki he ngaahi lāo he ko 'enau fa'u pē 'e kinautolu."

Pea ko hono fakahoko ko eni 'o e ngaahi fakakaukau tau'atāina ki 'Atalangá, ko e hā nai hano ngata'anga?

Mahalo na'a nau hangē ha kau hipí.

"Oku 'ikai te mau pehē atu 'e mautolu ko e hā e fa'ahinga 'oku teuteu fakahipí", ko ha lau ia 'a Papa. "he 'oku ne fetongitongi foki mei he mini ki he mūmū. (Kuo pau pē ke te 'alu mo e kuongá.")

Ko e lau eni ia 'a Fanamanu: "Kuó u fakahā atu ki he kakai Tonga, 'i Nu'u Silá ní 'oku 'ikai ke fokotu'u 'e he fānau akó ia ha sipinga ma'á e kākaí. Ko e mo'ui eni ia 'oku fu'u mā'olunga 'i he sōsaietí.

"Ka 'i Tonga ko e fānau ako kuo nau 'i he 'univēsití 'oku 'ikai te nau fakahā 'enautolu ha sipinga 'i he 'ulungaanga teunga mo e leá".

"'I he fanga ki'i koló, kapau 'oku ke 'ulu loloa, 'e 'ikai ke 'ilo e he kakai ia ho tu'unga faka'atamai, ka te nau sio pē kinautolu ia ki ho'o teuteú. Pea 'oku 'ikai te nau fiema'u 'enautolu 'eatu fānaú ke hangē ko koé."

Ka te u toe foki mai mu'a ki he mavahé, ko e me'a eni ia 'oku toka 'i he fānau akó.

'Oku nau ongo'i hangē ha kau mulí – 'oku 'ikai ko e pehē 'oku fo'ou kiate kinautolu 'a e koló lahi ka 'oku nau ongo'i 'oku 'ikai ma'u 'enau fakakaukaú.

Ko Iāsale Finau, ta'u 22, 'oku ne ma'u ha faingamālie ke ako tauhi laipelí, pea na'a ne pehē 'e ia ia: "Kuo pau ke fai e fetongi ia mei he mo'ui 'e taha ki he mo-'ui 'e taha. Pea ko 'ete 'alu ki he ha'oha'onga 'o e kau papālangí 'oku 'ikai ke te 'ilo pe ko e hā 'a e me'a ke te faí. Pē te te teuteu fēfē, pe ko e hā hoto 'ulungaangá."

"Ko e me'a lahi ke te feohi mo e kau papālangí ke te ako me'iate kinautolu".

Ko e me'a mahu'inga'ia. Ko e me'a eni ia 'oku fiema'ú, 'oku 'ikai ko e fakasōsialé pē.

"Kuo pau ke te feohi mo e kakaí ka te lava 'o ma'u e mo'oni 'o e mo'ui ko eni. 'Oku 'ikai ke fu'u fiema'u ia ke te ma'u ha ngaahi mo'oni ka ko e me'a ko e fakakaukau", ko ha lau ia 'a Papa.

"'Oku fu'u faingata'a 'aupito ke mahino ki he kakai Tongá, hangē ko eni, 'i Nu'u Silá ni 'oku 'alu e fānaú ia mei 'api 'o nofo feleti. 'Oku faingata'a foki eni ia ke fakatonuhia'i.

Ko e lau eni ia 'a Luseane: "Ka mau ka ō 'o kai ki tua'ā, 'oku 'i-kai mahino kiate kimautolu pe ko e 'ulungaanga lelei pe 'ikai kapau e 'ikai 'osi e me'akai he emau kai. Pea mo e fokotu'u 'a e helé, sē-puni mo e huhú – ko e palopa-lema ia 'e taha."

Ko e taha 'o e 'uhinga 'o e fu'u lahi e ta'e lava 'a e fānau ako 'i he kuohili ko e ta'e lava ke nau mapule'i kinautolu 'e kinautolu.

Ko e lau foki 'e taha – ko e kovi e totongi 'i Tongá, si'isi'i e faingamālie mo e 'ikai lava ke ta-'ofi e ngaahi me'a tukufakaholó – 'oku 'ikai ke kei fai ki ai ha tui.

"Kuo 'osi fe'unga pē 'a 'enau teuteú 'anautolu ia ki he ngaahi silapa ako Nu'u Silá. Ka ko 'e-nau ō mai ki Nu'u Silá ní ko e fu'u faikehekehe lahi ia, pea kuo pau pē ke ki'i taimi pea nau toki anga ki ai," ko ha lau ia 'a Fanamanu.

"'Oku nau sai'ia 'i he tau'atā-ina ko eni ka 'oku ngalo ai leva 'a honau fatongia ki he pule'angá na'a ne 'ave kinautolú.

"Ko e me'a lahi 'oku ou fiema'ú ke nau ngāue mālohi ke ma'u ho-nau mat'itohí. Ko e fa'ahinga 'oku toó ko e fa'ahinga ia 'oku fakafieficmālié. 'Oku 'ikai te nau mahu'inga'ia 'i he akó."

"'Oku mau ongo'i hangē 'oku 'ikai te nau tokanga mai kinautolu iá, pea 'ohovale pē kuo nau faka-hā mai ko e fa'ahinga na'e toó ke nau foki mai ki Tongá ni."

"Oku fakatupu loto mamahi 'aupito kiate kimautolu 'a e faka-foki kinautolú. 'Oku mau pehē 'oku tonu ke nau ako fakafaiako pē 'i Nu'u Silá ni."

Ka mole 'a 'ete aleapau – 'e mole leva 'a 'ete $20.

Kapau ko ha liliu lahi ki he kau akó 'enau omí 'e pehē pē foki kia Fanamanu, kuo ne 'omai ai hono malí mo 'ene fānaú.

Ka 'oku 'ikai te ne kau ki he lotalí.

"Na'e ta'e mahino pe te na tali fēfee'i au," ko ha'ane lau eni 'i he'ene fuofua 'a'ahi ki he kalapú. Kuó u loto lahi eni 'i he taimí ni. Ne tala mai 'e ha tokotaha ke fakahā ange kapau 'oku ou fie-ma'u ha tokoni."

"'A e fo'i lea ko eé . . ." ko ha lau ia 'a 'Eleni Mone, ta'u 20, ki hono kaungāako ko Barbara Peleki.

Ko Sitāfooti 'Aho (to'ohema) pea mo Simi Tekiteki 'oku lolotonga faí ha'ana pele 'i he lotofale 'o e hositele 'o e tamaiki tangatá.

ROTHMANS

the world's largest selling King Size Virginia cigarette

Tomato growers!

Diseases cost you money. Powdery Mildew, Leaf Mould and Botrytis cause severe damage and even death to tomato plants, reducing yield and affecting quality of the fruit.
In the past, fungicides have failed to give good control of these diseases, BUT NEW DU PONT "BENLATE" fungicide has proved excellent for controlling problem diseases of tomatoes and will give you bigger and better harvests. Apply 6-8 oz "BENLATE" to 100 gallons water applied every 7-14 days.

DISTRIBUTED IN THE PACIFIC ISLANDS BY:—
Neill, Cropper & Co. Ltd.,
G.P.O. Box 1440
Tel.: 381-772 Suva, FIJI.

Consult your local SHELL DEPOT for supplies and advice.

BENLATE® gives better and bigger harvests.

Where Time Begins

Nuku'alofa, Thursday, November 11, 1971 Vol. VIII No. 23 3 Seniti

IF AT FIRST YOU DON'T SUCCEED...

Another Try For Oil, At Hofoa

Drilling of the second exploratory oil well, Kumifonua No. 2, is hoped to begin on the site at the corner of the Hihifo and Hōfoa roads tomorrow afternoon, the drilling superintendent for Tonga Shell NV, Mr Conelis Kamfens said yesterday.

The drilling rig used at the Kumifonua No. 1 site at Ma'ufanga is already on the new site and has been used to drill a water well to save time in digging one.

Most of the heavy equipment is already on the Hōfoa site and more will moving today. While awaiting location preparation the equipment has been temporarily kept on the seafront at Touliki.

Tonga Shell NV on behalf of the Tonga Oil Participants announced this week that the decision to drill an exploration well at Hōfoa followed further studies on the results of Kumifonua No. 1 and their geological implications.

Kumifonua No. 1 was abandoned and plugged after a month's unsuccessful drilling.

Manoeuvreing the oil rig into position on the new site at Hōfoa, ready to start drilling Tonga's second exploratory oil well.

The Shipping Scene

"Walborg" To Be Training Ship

The Government has approved the chartering of the schooner "Walborg" by the Marine Department, to begin a marine training school.

The Marine Superintendent, Captain C. Hill-Willis, said every effort was being made to have the school operating soon.

The broad-beamed, 87ft long, top-sail schooner, was built in Denmark 74 years ago and was offered to Tonga by Mr Desmond Sanft, a Tongan who had been absent in New Zealand for 22 years until his return in August with the "Walborg".

GOING TO JAPAN

The "Niuvākai" is expected to go to Japan next month for a special survey. It will take a cargo of copra.

During the absence of the "Niuvākai", a larger and faster vessel, on charter to Tonga, will operate the same service, with the inclusion of Melbourne.

The "Niuvākai" is booked for survey in the Hitachi dockyard, Kobe, from the middle of January. The length of time it will be there cannot be determined at this stage, Captain Hill-Willis said.

BEING REPAIRED

The Norwegian freighter "Lorena" is likely to be in Nuku'alofa for another 10–12 days before repairs are completed, Captain Hill-Willis said yesterday.

The "Lorena's" multi-gear box has been stripped down and awaiting parts and roller bearings from Germany and New Zealand. Also two shafts have been sent to Suva for metal spraying.

The repairs are being carried out by the staff of the Marine Department.

Last Wednesday the "Hifofua" returned to Nuku'alofa with the "Lorena" in tow after it broke down about 480 miles south of Tonga. It was on its way to the Cook Islands from New Zealand.

Originally it was thought repairs were required only to the "Lorena's" main thrust bearing, but a survey found a complete overhaul of the multi-gear box was necessary.

Meanwhile, the refrigerated meat cargo is being kept at the right temperature by the local power supply and for that reason the vessel has to remain at Vuna Wharf.

The New Zealand crew of nine has been repatriated.

NOMUKA INCIDENT ENDS IN COURT

Three Nomuka young men appeared in the Nuku'alofa Police Magistrate's Court yesterday following an attack on a girl in Nomuka and a call for assistance from the local policeman to the police mobile unit in Nuku'alofa.

Two of the three Nomuka men were convicted by magistrate Hingano Helu and the third was discharged.

'Olioni Lātū was fined $50 or 8 month's imprisonment. He was also fined $5 or one month's imprisonment for causing a disturbance in a public place.

His friend, 'Ofa-ki-Nafualu Visesio was fined $20 or four months imprisonment for causing a disturbance in a public place.

Taniela Finau was discharged by the magistrate who said he was doing so because although Finau was involved he did not know the origin of the trouble as he arrived at a later stage.

The Court told that on Saturday last at Nomuka, Miss Halamehi 'Akau'ola (23) was attacked by Lātū. She was out shopping when Lātū forced his attentions on her and when she would not respond he beat her.

When she screamed other men came to her help. Lātū knocked one of them down. Several other men then turned on Lātū and he was joined by Visesio and Finau.

The other men eventually subdued the three young men and they were taken into custody.

Because an even more ugly scene was developing beyond the control of Nomuka's sole policeman, he sent for assistance from Nuku'alofa.

"DEAR SIR..."

LETTERS TO THE EDITOR.

'Atalanga

Dear Sir.—Being an ex-'Atalanga student I feel it is my duty to clarify an issue on the article 'Revolution' (and a Call for Help) from 'Atalanga. Calling for help to relieve 'Atalanga's "social isolation", does injustice to many Aucklanders who come in contact with the Tongan students in Auckland.

There are plenty opportunities for the university students to mix with their fellow students. There are activities organised by the University Student Council for this purpose. There is a Students' International Association whose members include Europeans, Indians, Chinese, Japanese, Thai, Malaysians, Indonesians, Fijians, Samoans and Tongans. Among the aims of this association is the promotion of understanding between the students of various nationalities.

There are various sports clubs and religious clubs for those with such inclinations.

On Sundays, most 'Atalanga students attend the Epsom Methodist Church and there are many church members here who invite students to their homes. There is also the Sunday School which holds various functions apart from the Sunday classes.

There is no need for the present 'Atalanga students to call for help to relieve their "social isolation". The problem is not from the lack of invitations by New Zealand homes or the lack of opportunities for mixing with New Zealanders.

The opportunities are plenty and it is up to the individual student to make the best of it, and to strike a balance between integration and swot.

'I. L. SISIFA.

Board Employees

Dear Sir.—This is an appeal from employees of the Tonga Copra Board and Produce Board.

In 1969 a survey was conducted in which the cost of living in Tonga was assessed and there is a general belief that the salary revision of 1969 was carried out according to this survey.

The recommended percentage for the boards' salary revision was 12.5% whereas the junior clerks of the Civil Service got a salary rise of 25%.

Nevertheless, the boards' employees have the hame share as Civil Servants in meeting all financial obligations toward the Government, the Church and society.

Some board employees have worked for more than 20 years and they are still junior clerks.

Where is the right of board employees?

MAFILE'O TEVITA.

Family Planning

Dear Sir.—I would like to express my disappointment in your correspondent J. H. M. Rodgers for using your colum as his pulpit in an attempt to promulgate one of his Church's maxims – that forbidding contraception.

It is perhaps unfortunate that he used the word "propaganda" to describe the excellent publicity put forward by the local Family Planning Association, as this word has upleasant connotations with regard to the dissemination of any information.

Your correspondent then bewails the current situation where he states "the rich are getting richer, and the poor are getting poorer". This is an unfortunate fact of life to which the ever-increasing wealth in the Churches' coffers will bear a mute but damning testimony. This accumulated wealth could possibly be used to more effect in alleviating some of the world's problems with hunger and deprivations.

I will agree that the Church missions are doing a good job, but under their present policies they cannot hope to feed every hungry mouth. Contraception causes the number of hungry mouths to decrease, thereby increasing the food available to each individual. Contraception as an economic tool is a necessity, not only in Tonga, but throughout the world.

Your correspondent then lets the moral (or immoral) aspects of sex and contraception rear their ugly heads. I found his phrase "Use contraceptives . . . have all the fun you want and no fear of unwanted children to spoil everything" a litle repugnant. Has he considered the "unwanted child"?

He mentioned that in a Christian country such as Tonga our leaders should have urged more Christian self-control and self-denial on all married couples. I do not think I am alone when I consider that God intended the sexual act as an expression of love and tenderness between a man and a woman – something that only the participants could share and in doing so show their appreciation to God for His gift. I do not think that "control" or "denial" are words that can be realistically applied to the giving and receiving of love, both to our fellow beings and our respective God. If we were intended by our Maker to limit sexual expression to certain times then our women would come into season like the lesser animals.

The quotation from "Time" which your correspondent made, is as he says, to the point. However, the extract condemned without creating. We all accept that the world is full of unhappiness, let us not make it, and the future inhabitants any unhappier by overpopulation.

J. M. HORSLEY.

Agricultural Council

Dear Sir. — We would like to know whether the Agricultural Council still has any value.

The Law says the Council of Agriculture is the head of the commodity boards yet when did the commodity boards ever comply with any ruling of the Agricultural Council.

The council convenes for their meeting only twice a year, with hardly any progress made during the course of the meeting. They postpone their meeting and discussions for days and even weeks although they are continued to be paid for being present in the meeting. They are paid even on Saturdays and Sundays, thus incurring expenses to the growers which runs into hundreds and even thousands of pa'anga.

The amount of money paid to the members of the council exceeded the amount paid to members of the Parliament, which is second to His Majesty in power over the Kingdom. Furthermore, the Parliament does not postpone its discussions and meetings as much as the Council.

We the growers tend to consider it would be better to amend the Agriculture Organisation Act by eliminating the Council of Agriculture and substitute another form of organisation more useful to the growers and incurring less expense to the Kingdom.

Tonga at present is subject to economic difficulties due to drop in the prices of copra and bananas. Consequently the Agricultural Council should be put to rest because of the loss it has suffered.

Let us wait and see if we will strike oil in the future for then this issue will again be reconsidered.

'AKUILA SAMI,
representing many other growers in Tongatapu.

Commentary

Many inquiries have been received at the Chronicle asking the reason for the change of policy requiring that Letters to the Editor correspondents be prepared to have their names published. One suggestion has been that there had been pressure from Government to identify the writers. This is emphatically denied. When the "Dear Sir" page was introduced nearly a year ago it was a radical innovation for the Chronicle and Tonga. It gave an opportunity for expressing an opinion and even criticism, which has been accepted by readers with enthusiasm and responsibilty. The time had come for Tonga's only newspaper to take another step forward in its development and ask correspondent to publicy show their integrity, sincerity and sometimes courage by putting their names to their opinions. This is the practise on many overseas newspapers and magazines.

One motive for insisting on actual names was to avoid a situation that was developing where the wrong people were being identified as the person behind the non de plume; in a small community like Tonga this was embarrassment.

The inference was also becoming too widespread that some of the letters, especially the more controversial, were being written by the editor and members of the Chronicle staff.

The most disturbing suggestion following the change of policy has been that correspondents will be inhibited from expressing themselves for fear of victimisation or official action.

The Chronicle would like to hear of substantiated instances of this happening.

FIJI TOURISM CONVENTION WAS AWARE OF TONGA DELEGATION

Tonga had the largest island delegation of six at the Fiji Tourism Convention held in Suva from October 26 to 29. The convention attracted representatives from the travel, hotel and airline interests throughout the Pacific..

The Tonga delegation was :Mr P. D. Wallis, Government Tourist Officer; Mr John Lemoto, Teta Tours Ltd; Mr Uliti Uata, Tonga Holiday Tours Ltd; Mr Karl Brosig, International Dateline Hotel; Mr Ian McIntyre, Tonga Tourist and Development Co. Ltd; Mr Layton Zimmer, Ma'afu Enterprises.

Information and sales promotion literature was distributed and the impact on the delegates was noticeable, Mr Wallis said.

Some points of interest to Tonga arising out of the convention were outlined by Mr Wallis :

Don't develop tourism so fast that the customs and culture of the country is overun.

Don't pollute the culture and customs. The Government, the tourist and tour operator have equal responsibility to ensure that the customs and and culture of a country are sustained.

Identify what is custom and sacred ceremony. Do not allow the pollution of sacred ceremonies for tourist purposes.

Don't imitate other peoples and customs. Special reference was made to dances.

Tourism planning should not be a reason for delaying action.

An influential and respected national tourist organisation was essential if any country was to benefit from tourism development. If any country was to benefit from tourism, it had to do so socially and culturally as well as economically.

Mr Wallis said he thought Tonga's strong representation at the convention was invaluable. The convention gave Tonga's delegates a forum to talk to the Press, to acquaint travel agents and tour operators of the Kingdom's attractions and it exposed the delegates to the sophisticated operators in the industry.

"Some effect of Tonga's strong delegation must rub off on the travel industry attending the convention", said Mr Wallis. "The amount will be assessed when and if increased business is signed up".

Some of Tonga's tourist businessmen who attended the Fiji Tourism Convention. From left: Mr John Lemoto, 'Uliti Uata, Peter Wallis, Karl Brosig and Ian McIntyre.

Samoan Legislators On Pacific Tour

A group of 10 American Samoan legislators visited the Kingdom from Saturday until Tuesday in the course of a Pacific tour, studying political and parliamentary systems.

Their travels had taken them to Australia, New Zealand, New Guinea, New Caledonia and Fiji.

On Saturday night at the Dateline Hotel the visitors were the guests of honour at a Government reception hosted by the Governor of Ha'apai, the Hon. Ve'ehala.

The leader of the group, Chief Pele Tamotu, was resplendent in traditional dress of lavalava and lei a flower over his right ear and carrying the traditional fly swish and walking stick.

FIRST SHOWING OF TONGAN ART IN U.S.

America has had its first "Art Fakatonga", a two-week showing of contemporary Tongan art, held at the gallery Iron, Wood, Paper and Cloth in Pasadena, California.

Nearly 300 items of Tongan art were displayed, including ngatu (tapa), fine mats, shell and beaded curtains, baskets, embroidery, kiekies, ta'ovalas, wood and coconut carving, and jewelery.

More than 1000 artists, interior decorators, museum curators, anthropologists and lovers of the South Pacific and Polynesia, flocked to the show, including many Tongans and a former Governor of American Samoa, Mr John C. Elliott.

Miss Siale Vivili of Hihifo, Niuatoputapu, cut the ribbon to open the show. She is the past secretary of the Niuatoputapu Langa Fonua and was a houseguest of Dr. and Mrs J. Hitchcock who lived in Niuatoputapu for three years.

The art works represented all the island groups, but naturally was dominated by pieces from Niuatoputapu and Tongatapu collected by Dr. and Mrs Hitchcock.

Kava Tonga was served at the opening and on several occasions during the show. The kavá, from Tafahi and Tofua was prepared by Miss Vivili with the tokonaki kava of Dr. Hitchcock.

Dr. Hitchcock told the Chronicle the show was presented to foster better understanding and relations between America and Tonga and to develop an interest in and a market for Tongan handicraft.

Miss Siale Vivili cutting the ribbon to open the Tongan art show in Pasadena.

At the opening functions . . . Mrs Phyllis Lessin, an anthropologist who studied Sawana, a Tongan village in the Lau group; Dr. Hitchcock talking to a former Governor of American Samoa, Mr John C. Elliott; and Meleane, sister of Malakai Tea, formerly of Vava'u. The photographs were taken by Max V. L. Lent, International Expedition Photography.

CHRONICLE DISTRIBUTOR

'EUA CHRONICLE DISTRIBUTOR

The Chronicle requires an agent to distribute the newspaper in 'Eua. The person engaged must be prepared to deliver and sell the Chronicle in villages in the most populated part of the island, each week for a year. He must stipulate the number of papers he requires each week and payment will be made on the basis of 1 seniti for each paper sold and ½ seniti for each paper returned unsold.

Transport is the responsibility of the agent.

At present the Chronicle is sold on 'Eua only by Riechelmann Bros.

Persons interested in becoming the Chronicle agent should apply by November 26, in writing, to :

The Editor,
Tonga Chronicle,
Box 197, Nuku'alofa

or . . . The Chronicle Office, Prime Minister's Department.

ONLY 2½ HOURS FROM NUKU'ALOFA

Growing Knowledge

A Tongan, Mr Viliami Halapua, officer in charge of the Agriculture Department in Ha'apai District, is among 18 agriculturists from 10 Asian, African and Pacific countries taking part in a three-months international training course in seed improvement and certification in Queensland, Australia's nothernmost State.

In the picture Mr Halapua examines a tropical pasture legume with Australian scientist Dr Edward Mark Hutton, Chief of the Division of Tropical Pastures of the Australian Commonwealth Scientific and Industrial Research Organization during a visit to the CSIRO Research Station at Samford, near Brisbane.

LONG LIVE ALL OF US

Statistics show that there are 10 people a 100,000 in Russia who are over 100 years old, and that there are over 5800 such longlived people concentrated in areas of the Caucasian mountains. Depending on your feelings of the moment you may envy them or not, but the question of how they manage to live so long is an intriguing one.

Their living conditions show a number of similarities, many of them considerably different from modern urban life. Eighty-five percent live in rural areas and at medium altitudes (1500 – 4500 feet above sea level), or in the sub-tropical climate of Western Georgia.

The news for men is not as good as that for women — the men account for only a third of the old-agers. But only 45% of 9500 Georgians over 80, examined by a doctor, complained of some disease. So these people not only live long, but preserve their faculties and health.

It is no longer believed that the Caucasian abundance of ultraviolet rays and mild climate account for the phenomenon. More important, scientists maintain, are the habits of life. The majority of Geogians over 80 have not given up working. They work on tea and citrus plantations, take care of the cattle and poultry, ride on horse-back, go hunting and work in their gardens.

As a rule the old-agers are moderate in their diet. They neither become undernourished nor eat to repletion, and take their mixed diet, which includes fruit, honey, and berries, 3–4 times a day at regular hours. They have their meals in peaceful surroundings, never hurry, and abstain from tobacco and alcohol. Some drink wine, moderately. Strict personal hygiene, open air, and long walks help.

Scientists believe that longevity is an acquired characteristic rather than an hereditary one, and that a person's life may be long or short irrespective of his parents' experience.

Data proves that marriage greatly improves longevity,—only some one or two percent of the old-agers have never married.

An even temper and an optimistic disposition also seem to help.

Watermelon growers!

Diseases cost you money. Powdery Mildew, Gummy Stem Blight and Anthracnose kill the leaves of your watermelon plants causing them to produce fewer watermelons and eventually die. If you can control disease, you will get a bigger harvest and larger, better fruit.
DU PONT "BENLATE" fungicide gives excellent control of all the major diseases of watermelons.
Apply 6-8 oz "BENLATE" in 100 gallons water and apply by knapsack spray every 7-14 days.

N.Z. Gift Will Improve Tongan Horses

The Department of Agriculture had been given two Clydesdale stallions through arrangements made by Mr J. Acland of Mt. Peel Station, New Zealand.

The stallions are under the care of the livestock section, at the Government Experimental Farm and a scheme is being started to improve the breed of horses in Tonga.

The initial stage of the scheme is to take selected mares from the farm for crossing. Later, the stallions will be taken to the villages. A scheme of this kind has been operating with pigs and cattle.

One of the Clydesdale, four years old, was formerly owned by Miss Susan Butterick of Wakanui Asburton. She owns a registered stud which has been in her family for generations.

The other Clydesdale, two years old, was formerly owned by Mr C. T. McCallum of Waikouaiti, Otago.

The new Veterinary Clinic at Matāliku which was opened recently by H.R.H. the Prime Minister, Prince Tu'ipelehake.

One of the gift Clydesdale horses from New Zealand at the Government Experimental Farm at Vaini.

Learning To Improve Livestock

A training course on improvement of pastures, and livestock, which had been going on since Tuesday last week at the Government Experimental Farm, Vaini, ends tomorrow.

The improvements of livestock would have an emphasis on increasing of beef production.

The course, sponsored by the South Pacific Commission, brought three overseas consultants: Mr E. I. Hugh, a Food and Agriculture Organisation Agriculturalist; Dr. K. McIntyre from the Animal Production Research in Fiji; and Mr F. Kleinschmid, a senior lecturer in pasture agronomy from the Queensland Agricultural College.

The veterinary officer in Tonga, Mr R. Knowles, was also one of the consultants.

The 30 participants in the course included agricultural extension officers, agricultural teachers from the secondary schools and farmers.

Secretary – General Sworn In

Mr Frederick Betham, a former Western Samoan Cabinet Minister has been sworn in as secretary-general of the South Pacific Commission.

RUSSIANS IN THE PACIFIC

New Zealand defence announced late last week that a reconnaissance aircraft had photographed a Russian Z-class submarine cruising with a support vessel between New Zealand and Fiji.

LOOKING FOR WAYS TO PROMOTE HEALTH

The Mateaki'i Fonua 'o Tonga Women's Association left on Monday by the Hifofua for American Samoa on an invitation of the Public Health Women's Association of Pago Pago.

While in Pago Pago, the association will be observing the living conditions and looking for ways which can help to promote general public health in Tonga.

The association was formed a year ago when the Pago Pago Association paid a similar trip to Tonga, to observe the conditions of living in the Kingdom.

The executive of the association are: President, 'Olivia Havea Tu'iha'angana; vice-president, Vikatōlia Fetu'ufuka; Secretary, Mele Uasi Musika; Assitant Secretary, Veiongo Kolo; Treasurer, Felila Tāmano; Assistant Treasurer, 'Eseta Kaimani Finau.

The association is taking with them as a gift to the Pago Pago Association, 55 launima, 55 lōtaha, 46 fala, 200 bottles of Tongan oil, and other Tongan handicraft.

INFORMATION

TECHNICAL TRAINING

Applications are invited from young men wishing to attend a one year's vehicle mechanic training course to be run by Tonga Defence Force at Camp Taliai, Fua'amotu.

Aim of the Course:
To give selected Regular Force short service recruits basic military and technical training to prepare them for:
Trade Training Overseas (Scholarships)
Skilled jobs in Tonga
Permanent appointments with the Tonga Defence Force.

Requirement:
Applicants must be in good health and physically fit, between the ages of 17 and 25 and be either in possession of or sitting Higher Leaving Certificate this year.

Method of Application:
Candidates should apply in their own handwriting, in English to:
Commander
Tonga Defence Force
Box 72
Nuku'alofa.

Candidates who are in the Civil Service and Statutory Boards must submit their applications through their Heads of Department.

Closing Date:
The closing date for applications to be received by Commander, Tonga Defence Force is November 30, 1971

Look Out For Balloons And Instruments

Four-hundred balloons with instruments attached have been released in the Southern Hemisphere during a six-week period from September to October and some of them could be recovered in Tonga.

They are part of a French constant-level experiment and the balloons were launched from stations at Mendoza, Neuquen and Lago Fagnano in Argentinian territory. They were intended to float at approximately the 200 millibar level (12 kilometeres) and have a life expectancy of about three months.

Anyone finding an instrument container is asked to inform the T & T Department promptly and carry out the following instructions:

1. The identification number of the instrument as written on one of the parts of the package and consisting of a serial number and the place of launching.
2. The exact location of the place where the debris was found and the name and address of the person who picked it up.
3. Recover the parts which are not too damaged and forward them to the T & T Department for return to the French authorities.

FINAU THEATRE

HAUHAU - 'O - TAUFA'AHAU

SATURDAY TO THURSDAY

At last! The film you've been waiting to see - - It was a battle fit for heroes to fight in! The first and last complete war in the air! News Tip

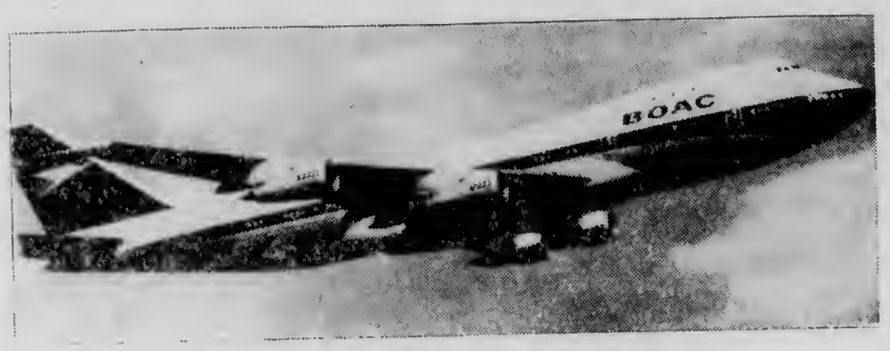
Ring the Chronicle, Nuku'alofa 302B, or come to the Chronicle office, Premier's Office, if you think you know of a news item or have a news picture.

OFF TO LONDON IN A JUMBO JET

The editor goes to London today on behalf of the Chronicle and this week's issue of the paper will be delivered personally to Tonga's High Commissioner to the United Kingdom, Baron Vaea, on Saturday.



The editor will be one of a group of 16 South Pacific and 40 Australian journalists, tourists and business people who have been invited to travel on the inaugural flight of BOAC's 747 (jumbo jet) from Sydney to London. The route is Darwin, Hongkong, New Delhi, Teheran, Beirut and Frankfurt.

While in London the editor hopes to meet Tongans who are working or studying nearby and to talk with Baron Vaea about the work of the High Commission, located in New Zealand House, the Haymarket, in the heart of London.

The Boeing 747 is one of the largest planes in the world carrying about 350 passengers.

The aircraft weights 316 tons, is 231ft 4in long, has a wingspan of 195ft 8in and its height is 63ft 5in from ground to the top of the tail.

BOAC has seven 747s and a further five on order and the introduction of these aircraft to the Pacific area by BOAC will bring Britain, Europe and the Orient much closer with greater ease, speed and comfort.

Spaciousness is the keynote of the 747. BOAC has divided the interior into five cabins—two first class and three economy. This means that passengers in each of the economy class cabins find themselves surrounded by fewer people that they do when travelling in the present Boeing 707. The ceiling in each cabin is eight foot high.

The BOAC 747 is equipped with two first-class and four economy-class galleys. The automomated ovens have sufficient capacity to heat 300 economy-class meals simultaneously. Mobile service trolleys make the serving of full-course meals easier and speedier.

When the editor returns from the BOAC 747 inaugural flight from Sydney to London, the story will be told in the Chronicle.

Watch Out For These Men And Their Strange Gear

This group of men with an orange coloured box sitting on a white minimoke, peering through a strange looking object on a tripod at an equally strange object on another tripod some distance away, will be seen around the Hihifo district during the next few weeks....Stay out of their way!

They won't do you any harm, but you could upset their work by driving a vehicle between the two tripods or getting in their way.

What they are doing has nothing to do with oil but what they will produce is just as important to Tonga.

They are a group of surveyors preparing a map of Tonga and using a very expensive piece of equipment called a Distomat which measures distance by modulated light waves. It come from Britain and is worth about T$10,000.

The Distomat is useful where it is impossible to measure with a tape — across water, busy roads or through a farm.

Farmers need have no fear for their property when they see the surveyors operating nearby, the man in charge of the operation Mr G. Bishop told the Chronicle.

The detailed maps of the Kingdom should all be finished next April, Mr Bishop said. The map of Tongatapu should be ready before Christmas. It will be in four sheets to the scale of 1 inch to the mile and will be a topographical photo map showing the contours, reefs and vegetation in colour.

The other islands of the Kingdom will be shown in 20 sheets to the scale of about 2½ inches to the mile.

A town plan of Nuku'alofa will also be produced to the scale of 25 inches to the mile and this will be particularly useful to the Ministry of Work and the Power Board.

The whole scheme to provide up-to-date maps of Tonga is being carried out as part of British technical assistance to Commonwealth and developing countries.

BANKERS COMING

As part of the Government's efforts to establish a bank in Tonga, six top overseas banking officials will be arriving in the Kingdom on Saturday.

They will be here until next Thursday and will have talks with Ministers and Government officers and also the Nuku'alofa Chamber of Commerce on the basic preliminaries of establishing a bank in Tonga with Government participation.

The visiting bankers have been granted an audience by His Majesty next Wednesday afternoon.

The bankers are: Mr D. M. Arnold, assistant general manager, Bank of New South Wales; Mr G. M. Hillerman, deputy chief account, Bank of New South Wales; Mr J. F. Earnshaw, general manager, Bank of New Zealand; Mr Mossman, chief inspector Bank of New Zealand; Mr C. D. Terry, president, Bank of Hawaii; Mr C. R. Klenske, executive vice-president, Bank of Hawaii.

This And That

CHRONICLE DIARY

Oil rumours are rife, but the best one is that oil has been found and it is being pumped to the Hague in Holland, through a secrect pipeline under the sea.

* * *

Another one from around the kava bowl is that oil has been found in Kumifonua No. 1; but the discovery is being kept a secrect. The general representative of Tonga Shell NV, Mr Alan Jackson, commenting, said to do this would be an illegal breach of the agreement among the participants.

* * *

Ever since it was announced that Kumifonua No. 1 well had produced no results, there had been a marked change in the attitude of the people to the oil drillers, one man told us. The Friendly Islanders had become not quite so friendly. This was not new to him, however. He said he had experienced the same reaction in other places when hopes had not been fulfilled and the locals seemed to hold the oil men responsible.

* * *

Two highly-rated heavyweights, Koli Vailea and Mōsese Tāufa will be featuring in a 10-round contest at the Hauhau-'o-Taufa'āhau Theatre tomorrow afternoon.

* * *

Going back to work on Friday after a holiday on Thursday is a good argument for "Mondayising" a public holiday where it falls on a working day during the week. Moving all public holidays to a Monday is a common and popular practise in other countries.

* * *

A word of warning on Nuku'alofa Post Office. If you ask the price of postage on a long envelope, make certain the clerk weighs it before you pay up. We discovered that some are inclined to charge 20 seniti on a long envelope and 10 seniti on a small envelope, without even checking the weight.

* * *

While on the subject of the Post Office, when are they going to supply a ferryboat service to get to the Post Office on a wet day? The moat around the building is most effective for keeping customers away.

* * *

Going home one night very late, we observed 10 prostrate bodies sleeping on the seats in the bus shelters at Talamahu Market. Is this usual and is it approved?

THE SCRIBES.

Watermelon growers!

Diseases cost you money. Powdery Mildew, Gummy Stem Blight and Anthracnose kill the leaves of your watermelon plants causing them to produce fewer watermelons and eventually die. If you can control disease, you will get a bigger harvest and larger, better fruit.
DU PONT "BENLATE" fungicide gives excellent control of all the major diseases of watermelons.
Apply 6-8 oz "BENLATE" in 100 gallons water and apply by knapsack spray every 7-14 days.

DISTRIBUTED IN THE PACIFIC ISLANDS BY:—
Neill, Cropper & Co. Ltd.,
G.P.O. Box 1440

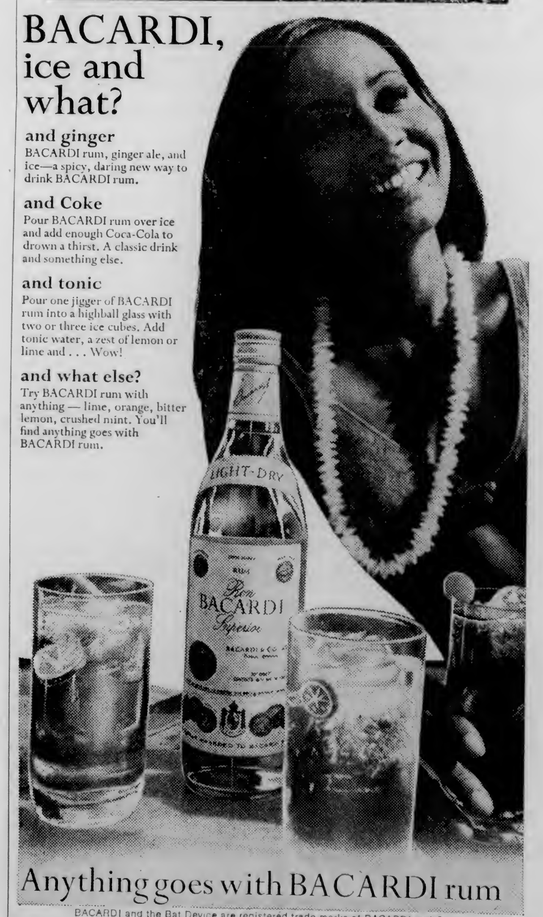
BACARDI, ice and what?

and ginger
BACARDI rum, ginger ale, and ice—a spicy, daring new way to drink BACARDI rum.

and Coke
Pour BACARDI rum over ice and add enough Coca-Cola to drown a thirst. A classic drink and something else.

and tonic
Pour one jigger of BACARDI rum into a highball glass with two or three ice cubes. Add tonic water, a zest of lemon or lime and . . . Wow!

and what else?
Try BACARDI rum with anything — lime, orange, bitter lemon, crushed mint. You'll find anything goes with BACARDI rum.



Anything goes with BACARDI rum

BACARDI and the Bat Device are registered trade marks of BACARDI and Company Limited.
'Coca-Cola' and 'Coke' are the registered trade marks of The Coca-Cola Company.

KUMIFONUA 2 STARTS DRILLING

His Majesty Spuds In New Well

For the second time, Tonga experienced the spudding-in of an oil well when, on Tuesday morning, His Majesty, King Taufa'āhau Tupou IV formally started drilling operations at the Kumifonua No. 2 exploration well at Hōfoa.

A large crowd of onlookers was present to see the brief ceremonial in which the Resident Manager of the Tonga Oil Participants, Mr Alan Jackson invited His Majesty to spud-in the well.

In his Address, Mr Jackson said, "all drilling is a risky business and there is never any certainty or guarantee that oil will be found".

"Everyone has followed the progress of Kumifonua I with great interest and understandably it has been a disappointment to all of us that nothing was found there".

"However, the absence of oil or gas did not unduly surprise us; we are used to such disappointment and know from experiences all over the world that we must accept the risks involved as one of the facts of life as far as oil exploration is concerned".

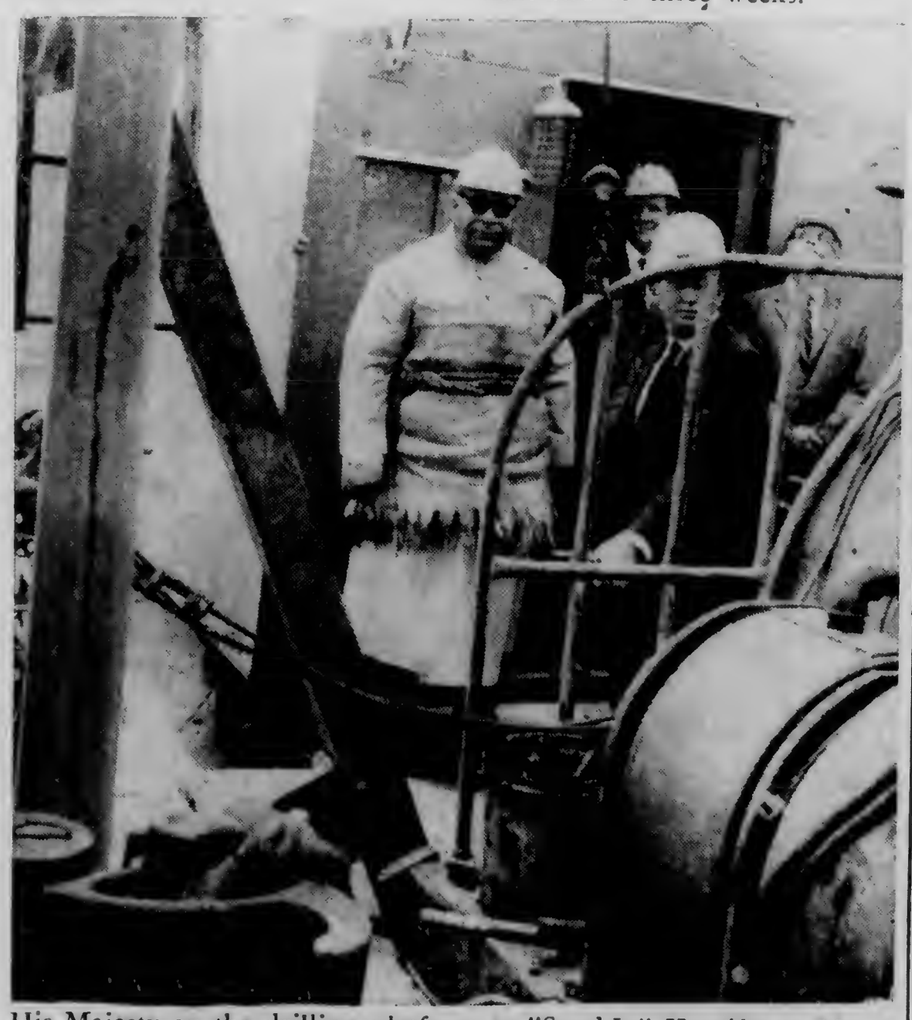
Mr Jackson emphasized that although oil may not be found his Organisation is certain that from this second well, "we shall obtain useful, perhaps vital, geological information".

Mr Jackson then invited His Majesty to start the drilling operations.

In a brief Address, His Majesty emphasized that Tonga is hopeful that oil will be found, but cannot rely on oil exploration as an answer to her problems, but must continue to work and develop her resources towards the future prosperity of the nation.

The King then mounted the drilling platform in the company of Mr Jackson and drillers of the contracting company, watched by the large gathering which included the Minister of Lands, the Hon. S. L. Tuita and Her Britannic Majesty's Acting High Commissioner, H. Arthington-Davy, to start the drill.

The drilling operation is now working 24 hours a day and is expected to be completed in the next two to three weeks.



His Majesty on the drilling platform to "Spud-In" Kumifonua No. 2 on Tuesday morning.

Visiting Bankers

Meeting Ends On Optimistic Note

High level talks concluded at the Dateline Hotel yesterday afternoon between Government and six top overseas banking officials representing banks in Australia, New Zealand and the United States of America.

Representatives of the Bank of New South Wales, Bank of New Zealand and the Bank of Hawaii, had arrived in the Kingdom last Saturday for exploratory talks with Government, aimed at establishing a bank in Tonga.

In a joint communique issued today the Hon. Mahe U. Tupouniua, Minister of Finance and Deputy Prime Minister and the representatives of the Bank of Hawaii, Bank of New Zealand and Bank of New South Wales were all extremely pleased with the friendly spirit of co-operation and understanding which had prevailed during the meetings which had been held this week in order to explore the possibility of establishing a Bank in Tonga.

From the outset the Bankers emphasised that their interest in establishing a Bank would not be inspired by the profit motive alone. While they would expect the bank to be established on a viable basis with reasonable profit expectance, they nevertheless felt that the major concern of everyone concerned with the bank should be the interests of the Tongan people and the extent to which a bank might be able to contribute to the future welfare and prosperity of the Tongan economy. At the same time they stressed that the people should not expect a Bank to achieve miracles. The national prosperity of the economy depends on the hard working capacity of the Tongan people to develop the resources at their disposal and the Bank could merely assist them in this direction.

In this spirit the Minister and his colleagues had been able to satisfy the Bankers of the desire of the Tongan people to support the operations of a bank and the bankers are all returning to their respective countries with the knowledge and confidence which will enable a prompt decision to be made.

For his part the Minister said he was encouraged to the point of optimism that the outcome of the meeting would be favourable and all indications point to the coming into being of the Bank of Tonga in the very near future.

The bankers have asked particularly that their appreciation of the generous hospitality and friendliness of the Tongan people be conveyed to the people and they leave warmest good wishes for the future welfare and prosperity of the country.

The visitors were accorded true Tongan style hospitality during their stay in the Kingdom by the Minister and staff of the Treasury Department who put on a Tongan "kaipola" at Monotapu beach on Saturday night.

(Continued at P. 10)

"DEAR SIR..."

Letters to the Editor.

Family Planning

Dear Sir. — On November 4 you published an article by Bishop Rodgers in which he quoted Muggeridge and 'Time' magazine on "Family Planning" as the only answer to Tonga's problems of over population.

I am a Tongan woman, married with three children. My husband is a labourer while I weave Tongan handicrafts to sell to tourists. We own a tax allotment which is fully cultivated. I am one of the women who use the contraceptive for birth control and I feel that it is good for me because it means that my problems during labour and in giving birth have come to an end.

We were advised by a Tongan doctor, who is also a minister of the Free Wesleyan Church, and although we don't belong to that church, we firmly believe in his advice because he is a Tongan, a father and is very experienced in family planning.

With only three children in the family, my husband and I are able to meet our obligations to our family, to the church and to the community as well.

The idea that land is not well distributed is wrong because the tax allotment owner has not been able to fully cultivate his land. The coconut replanting scheme is not being enthusiastically patronized by growers. The reason seems to be the declined copra price but who knows?—the future might offer a higher price for our copra.

Some people try to emigrate to a foreign country because Tonga is poor. My husband and I don't believe this because Tonga has abundant natural resources which are not being fully developed.

I therefore suggest that we should not compare the situation in Europe, as according to Muggeridge, to the situation here in Tonga. The doctor told us that the aim of "Family Planning" is "to sustain the balance of mental, spiritual and physical health".

I know this is true because I myself, as well as the hundreds of others who use the "family planning" methods benefit a great deal from them.

SIULOLOVAO HAITONI.

Workers In N.Z.

Dear Sir.—I feel that a few points should help to clarify my position following the comments of your correspondent G. H. Daniel on my previous letter.

I am a New Zealander.

It is disturbing to see that G. H. Daniel reverts to the Colonial mentality of "keep the natives happy and ignorant" in his criticism of my letter. Such views persist in European circles unfortunately: this includes "white" N.Z.

As a post-graduate research student (Victoria University, Wellington) of underdevelopment I suggest that studies of similar forms of "aid" show that the countries supplying short-term labour in fact do not benefit to the same extent as the countries receiving the labour (e.g. Greece in relation to W. Europe).

N.Z. in fact offers very little aid to Tonga compared to that given to W. Samoa, the Cook Is., the Tokelau Is. and Niue. Even V.S.A. is small (I was in Tonga in 1967 as V.S.A. Volunteer).

On what grounds does G. H. Daniel speak on behalf of the Tongans? Hopefully as a Tongan.

Why not sow the seeds of honesty?

PAULA D. KARALUS.

Agriculture Council

Dear Sir. — I am glad that at last someone has some courage to speak up and express his opinion, on the activities of the Agricultural Council. For some years now, this Council has sat twice a year with the objective of improving not only the status of the grower but also to advise on the activities of the Commodity Boards. As for improving the status of the grower, no one but the grower can certify the success of this aspect, which I, as a grower, regret to point out, has been anything but successful. We have, on numerous occasions, been led to believe that our welfare are the major interest of our representatives in the Council, but from reading the minutes of the Council, it is then apparent that contrary to our expectations, Council members seem to dwell more on motions for their own gain or recognition.

Another notable feature in the deliberations of the Council, is the obvious disregard by the Commodity Boards of the resolutions of the Council. It was originally thought that the Council is the ruling body of the Boards, but from reading the proceedings of the Council, one is immediately able to deduce that the Council wields very little or no authority at all. What then happens to the confidence of the grower in the Council? I quite endorse Sunia Faiva's comments, that its about time there is a reshuffle or reorganisation in the structure of the Council. How about attempting to dispose of the often-heard remark, 'more days more dough', and to get some real work done. I tend to think that the Council is getting into a rut and needs some fresh blood to pull it out, before its too late. I see no reason at all why the policy of a three yearly election for members should not be effected. We, the growers, hardly see our representatives at all, so how can they represent our interests and improve our relations with Government if they don't come to see us? It is getting to be a well known joke in Council circles, how members present a motion and after a few minutes of discussion, one hears the comment, "Fakafoki atu', (I withdraw the motion). So it goes on! Another thousands of pa'anga vanishes into thin air. For what purposes? God only knows.

Princess Anne Named Sportswoman Of Year

LONDON - - Princess Anne has been named Britain's Sportswoman of the Year by the British Sports Writers' Association.

Two months ago the 21-year-old Princess won the European three-day horse trials against the cream of the world's riders, both men and women, at Burghley, Lincolnshire.

She has been tipped strongly for a place in Britain's Olympic team at Munich next year.

It is the first time a member of the British Royal Famiy has been voted a sports award of this kind.

About 1000 British sports writers vote in the ballot. They made Princess Anne a clear winner with 360 votes.

"Dear Sir . . ."

"Revolution" and Plea for Help

Dear Sir. — I would like to comment on the article 'Revolution at 'Atalanga'.

Congratulations to Mr Fanamanu on his attempt to bring a 'new look' to the student hostel. Let's hope that he is the saviour whom the students have been waiting for. Let's also hope that the COST of improving and revolutionising the place (with TV sets) won't be an added cost to Government.

I feel that the very existence of 'Atalanga, and the failure of the part of the students themselves to make use of their time in New Zealand to the full, contribute a large part to the very few graduates who have spent their whole time at the place. (a record of three graduates!)

By being in 'Atalanga, students fall short of understanding people who are not Tongan; some tend to keep together because they lack the confidence to mix with palangis; their fluency in English, or their lack of which is further intensified by the speaking of Tongan most of the time at 'Atalanga, is a major cause for this lack of confidence.

Even if a student manages to get a degree, despite the lack of academic stimulus at 'Atalanga, he or she would still be handicapped as far as understanding people of a different culture; many students have failed to understand the outlook and values of New Zealanders. Students at 'Atalanga have not made the attempt to get to know other students; there are more than enough facilities at varsity which are set up especially for this reason.

That what is going on now at 'Atalanga can be called 'a revolution' is doubtful. The idea of a student council to promote student welfare, is not new; there was a student association; whose fault that it is no longer in existence? Who should make the first move to revive it?

Getting to know the Kiwis was always one of the aims of the ex-manager, Mr Feleti Tupou. He always encouraged the students to take part in what the university or the community had to offer. Students have failed to take advantage of these offers.

I would like to suggest that perhaps the best way to get good results from Tongan students (not only in the academic field alone) is to put them at varsity hostels or private homes. This is particularly needed by university students. The students would have first hand knowledge of a different way of life; of attitudes and values of people very different from their own. They would learn to 'get out' of their little world of Tonga and to see life through the eyes of a different culture. This is vital part of education.

'Atalanga is the ideal place for a holiday, and far too many students have lived up this idea; they, in the three or four years they have spent at 'Atalanga, have had a paid holiday.

Life at 'Atalanga is too narrow; it is remote from the academic life which varsity hostels offer.

'Atalanga will always be a replica of Tonga; social inequalities, Tongan attitudes and values are of great importance; a student is treated by many of the staff as Tongan, and not a student. (This latter has often caused grave misunderstanding between students and staff).

Tonga needs graduates, but graduates who have a wide outlook on life; who are successful in dealing with people who are different from them and who holds different values and attitudes. A degree is not a passport to understanding people, although it may be a passport to a job back home. In 'Atalanga, Tonga asks little; she gets little.

K. THAMAN.

Pineapple growers!

Weeds and grasses cost you money by using up the plant food and moisture which should be used by your pineapples. If weeds and grasses are killed and the ground kept free of weeds while the pineapples are growing, you will get a bigger and better crop. DU PONT "KARMEX" and "HYVAR" X have proven to be outstanding weedkillers for use in pineapples and both give control of weeds and grasses for long periods.

KARMEX® is a powder which you mix with water and spray onto bare soil to stop annual weeds and grasses growing. Use 4-8 lb "Karmex" per acre at planting and 2 lb per acre for follow-up applications.

HYVAR® X is a powder to be mixed with water and sprayed onto bare soil for the control of perennial weeds and grasses. Use 2-6 lb "HYVAR" X per acre after planting.

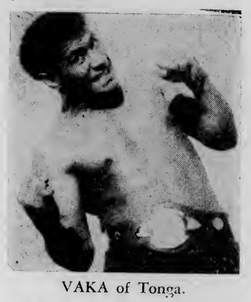
SOUTH SEAS TITLE BOUT FOR VAKA NEXT MONDAY

Downs Australian Champion Foster Bibron In Melbourne Warm — Up

In a thrilling warm-up for his forthcoming South Seas heavyweight title fight with Marika Naivalu next week, Mani Vaka last Monday trounced the Ausralian heavyweight champion Foster Bibron in a non title bout in Melbourne by a knockout in the seventh round.

Australian reports on the fight say that Vaka polished off Bibron with a right cross that sent the Australian champion slithering into his corner.

The Australian heavyweight champion could take no more punishment.



VAKA of Tonga.

Referee Terry Reilly crowned Vaka without puttting a count on the shattered Bibron. The fight was a feature on HSV7's TV **Ringside programme.**

Bibron, 6ft 3in, had towered over Vaka and worried him with piercing straight lefts in most rounds.

But Vaka, who had stalked Bibron in every round, saw the opening he had sought midway in the seventh.

BODY ATTACKS

Bibron (14.12¾) had worried Vaka with his height and reach in every round, but the Tongan countered those disadvantages with relentless body attacks.

At the end of the sixth Bibron and Vaka were level on 28 points each.

Vaka (13.10½) was confident he could land a blow that would drop Bibron.

He said after the fight: "I felt I could get through with a left hook and a right cross once Bibron began to tire.

"I felt him weakening in the sixth and knew then the opening would come.

"I saw the unprotected jaw in the seventh, threw a right and a left and down he went."

TO FIJI TODAY

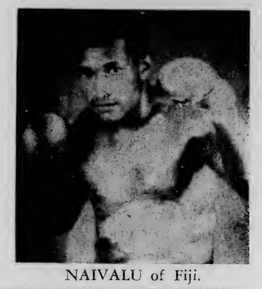
Vaka is expected to leave Tonga today for Suva where he is to meet the giant heavyweight champion of the South Seas, **Marika Naivalu of Vunidawa** at the Suva Town Hall on November 22. Naivalu will be defending the title he regained from Marika Momo, of Nadi, earlier this year.

A Fiji Times preview of the bout says that Naivalu has been in serious training for this fight and it will be the toughest of his career.

The fast-moving Vaka has victories over two of Fiji's heavyweights in Leweni Waqa and Filimone Naliva.

The two fighters are meeting for the first time.

The Vunidawan will have reach and weight advantage but if he is to win against Vaka, he has to be fast with his hands and feet to counter the Tongan's fast jabs.



NAIVALU of Fiji.

TOP RUGBY MAN COMING TO SEE US PLAY

A rugby match will be played at 'Atele on Saturday afternoon between the Police rugby team and a Remainders XV to be selected from rugby clubs in Tongatapu. The match, an exhibition game, will be played in honour of the visit of the President of the International Board of Rugby, Sir William Ramsay and his wife.

Sir William's visit is in response to an invitation from the Tonga Rugby Union extended to him by Tonga's High Commissioner in London, Baron Vaea.

As Tonga will tour Australia in 1973 and Wales in 1974, the T.R.U. feel that Sir William's visit will be a means of showing the top man in the rugby world the standard of rugby football here before the projected tours.

The afternoon will start off with a soccer game, followed by the rugby match.

Sir William and Lady Ramsay arrive in Tonga on Saturday and leave on Monday.

Steinlager sign of good beer

BP

There is only one BP—BRITISH PETROLEUM—the international oil company.

The BP letters, yellow in a green shield, is the symbol of the BP group of cf companies throughout the world. The symbol is found on installations, service stations, ships, road and rail trucks, at airports and on a complete range of packet products throughout the BP group's marketing network.

In Tonga the BP products now available for commercial use are super-grade petrol, auto diesel fuel and lighting kerosene.

Watch for the opening of the new Service Station to serve the needs of all Tongans.

INFORMATION

COMMONWEALTH SCHOLARSHIP AND FELLOWSHIP PLAN 1972 — 73
CANADIAN SCHOLARSHIP

Applications are invited for the Commonwealth Scholarship and Fellowship Plan as offered by the Canadian Government for a Tongan to study for a degree at a University in Canada beginning September, 1972.

This scholarship is open to all men and women who will not have reached their 35th birthday by the first October 1972. It is available in any field, except medicine and dentistry, but preference may be for geology and engineering.

The minimum qualification required is a good University Entrance or equivalent, with passes in the appropriate subjects for the field of study chosen.

Method of Application:

Application forms may be obtained from the Education Office, Nuku'alofa. They are also available from the Area Organisers in Vava'u and Ha'apai.

Candidates who are in the Civil Service and Statutory Boards must submit their applications through their Head of Department.

Candidates who are still attending school must submit their applications through their Principal.

Closing Date:

Completed application forms should be sent to the Director of Eudcation, Education Department, Nuku'alofa in time to reach him not later than Wednesday, November 24.

ADMISSIONS TO THE TEACHERS TRAINING COLLEGE

Applications are invited from suitably qualified persons, men and women, for admission to the Government Training College for the academic year 1972 to train as primary school teachers for service in Government schools.

Applicants must hold a Higher Leaving Certificate, as the minimum qualification, with passes in English and Maths and good marks in other subjects. Preference will be given to candidates who have passes in English and Maths and Science.

Candidates should apply by letter, stating their age, religion and present town of residence. Details of primary and secondary education should be included. Copies of two testimonials should be enclosed of which one should be from the Principal of your last secondary school.

The letters should be in English and in the candidates own handwriting. The applications should be addressed to the Director of Education, P.O. Box 61, Nuku'alofa and sent in time to reach him not later than Friday, January 7, 1972.

DIRECTOR OF EDUCATION.

SALE by TENDER
Second Hand Morris Minimoke
(P110 ex Coconut Replanting Scheme)

Tenders are invited for the purchase, as is, where is, of the above vehicle which may be inspected at the Government Store, Nuku'alofa between 8.00 am and 5.00pm Monday to Friday.

All tenders must be submitted in a sealed envelope marked "Tender for Minimoke" and must include 10% of the tendered price as a deposit and indication of good faith. This deposit is refundable. The highest or any tender not necessarily accepted.

Tenders will close with the Government Storekeeper, P.O. Box 48, Nuku'alofa at 4.00pm on Wednesday, December 1, 1971.

SOUTH PACIFIC FESTIVAL

The General Meeting of the South Pacific Festival Committee under the chairmanship of the Prime Minister, HRH Prince Tu'ipelehake last week agreed that districts would be responsible for providing food for the dancing groups at Fa'onelua Gardens according to the following schedule:

Hihifo— November 16, 18, 23, 25 and 30. December 2
Kolomotu'a— December 7, 9, 14, 16 21 and 23.
Kolofo'ou— January 11, 13, 18, 20, 25 and 27.
Vaini— February 1, 3, 8, 10, 15 and 17.
Tatakamotonga— February 22, 24 and 29. March 2, 7 and 9.
Lapaha— March 14, 16, 21, 23, 28 and 30.
Nukunuku— April 4, 6, 11, 13, 18 and 20.

UNIVERSITY OF THE SOUTH PACIFIC
SCHOOL OF EDUCATION
Lecturer (Preliminary) in Home ECONOMICS

Applications are invited from suitably qualified teachers for the above position in the programme for the Diploma in Education in the School of Education. It is a new post, and will be available from January, 1972. Preference wil be given to candidates with a teaching Diploma in Home Economics or a B.Ed in Home Economics, who have experience of teaching throughout the subject, preferably in a teachers college.

Salary scales (placing according to qualifications and experience):

Lecturer (Preliminary) Grade II - - scale $F2736 x 133 - 3598
Lecturer (Preliminary) Grade I - - range $F4640 - 5795

Other conditions of service - contract (2, 4 or 6 years) or permanent appointments: 10% annual taxable gratuity for contract appointment: contributions up to 10% of salary to an approved superannuation scheme. partly furnished accommodation at rental of 15% of salary (with upper limit of $1152 per annum), appointment allowance.

Formal applications should contain full name: date and place of birth: nationality: marital status; educational qualifications; employment history and experience: names and address of three references: general statement of physical fitness; date appointment could be taken up. A passport size photograph should be sent.

Further particulars, including Outline Terms of Service, are obtainable, from:

The Registrar (Post 71/32),
University of the South Pacific,
G.P.O. Box 1168,
Suva,
FIJI.

to whom completed applications should be returned by November 30, 1971.

VACANCY

Applications are called for a qualified auditor who will audit the Power Board's annual accounts for one financial year only.

Please state experience and age.

Applications should reach the office of the Manager, Tonga Electric Power Board, not later than November 22, 1971.

SUBSIDY SCHEME

The Department of Agriculture has available heifers 6 to 9 months old for distribution to farmers in the Cattle Subsidy Scheme.

The heifers will be sold 50% of market value (about $20 - $25 each).

They can be bought by those in the scheme who have attained the following standards:

1. Erected an adequate fence of either
   (a) Treated posts
   (b) Living posts showing signs of growth.
2. Established an adequate pasture.
3. Maintained this pasture and kept it free from weeds.
4. Have had the herd tuberculin tested.
5. Constructed a permanent water system for delivery of water into troughs for the stock.
6. Have adequate pasture to carry more cattle.
7. Agree to sign a declaration that they will not slaughter or resell the heifers before they have calved down.

Would farmers who qualify under the terms to buy the subsidised heifers, please contact the Livestock Section of the Department of Agriculture.

SCHOOL OF EDUCATION

Applications are invited for the following new posts which will become available from the beginning of 1972:

Senior Lecturer, Lecturer, Assistant Lecturer in Education.

Successful candidates will be involved in both the degree and diploma programmes.

For one post, candidates should have qualifications in educational and social psychology and for the other two, candidates should have special interests in the teaching methods of specific school disciplines. Preference in all three posts will be given to candidates with good teaching experience, broad educational interests and experience in teacher education. One of the candidates may be required to assume overall responsibility for the organisation of the teacher education programme.

Salary, according to experience and qualifications, in the following scales:

Assistant Lecturer $F3,000 - $F4,000
Lecturer $F4,300 - $F6,100
Senior Lecturer $F6,300 - $F7,500

10% gratuity for contract appointment, superannuation contributions, partly furnished housing at rental of 15% of salary, appointment and termination allowances.

Formal applications should contain full name; date of place of birth; nationality; marital status; educational qualifications; employment history and experience; names and addresses of three references; general statement of physical fitness; date appointment could be taken up. A passport-size photograph should be sent.

Further particulars, including outline terms of service, are available form:

The Registrar (Post 71/31),
University of the South Pacific,
G.P.O. Box 1168,
Suva, Fiji.

to whom completed applications should be returned by 14 December 1971.

STUDENTS PRESSURED BY ANNUAL EXAMS

Students of Queen Salote College take time out to catch up on some "swot" in the sun, between exams.

Senior students at Tonga's Secondary Schools are under pressure this week as the annual examinations get under way.

On Monday morning of this week 1,005 candidates throughout the Kingdom faced the examiners for the first of the Higher Leaving examination subjects. One hundred and eight more students have offered themselves than last year.

The large numbers taking part has created a problem for Education Department officials and the Department has therefore been forced to do away with the one centre, as has been the practice in recent years, and establish centres in each of the schools with students taking the examination.

One hundred and thirty students started examinations yesterday for the New Zealand School Certificate.

Starting next Monday forty seven candidates from Tupou High School will be sitting the Melbourne University Entrance with another seventy five sitting the Australian Leaving Certificate.

Later in the month a further fifty students from Tonga High School will be sitting the New Zealand University Entrance Examination which is held over the period November 26 until December 6.

TALI'EVA

GRAND OPENING — FRIDAY
FIGHT OF THE CHAMPIONS

WORLD'S HEAVYWEIGHT CHAMPIONSHIP
JOE FRAZIER vs MUHAMMED ALI

FINAU THEATRE

Co-Attraction: Lee Marvin in a thrilling detective story "POINT BLANK"

Rememberance Sunday Observed In Kingdom

Pay Homage To War Dead

In a simple but moving ceremony the Kingdom of Tonga led by His Majesty King Taufa'āhau Tupou IV, paid tribute to the fallen of two world wars at Rememberance Sunday ceremonies at the War Memorial in Nuku'alofa last Sunday.

With the firing of a single gun at 12 noon, two minutes silence was observed by the large gathering which included the Prime Minister His Royal Highness Prince Tu'ipelehake, the Acting British High Commissioner H. Arthington-Davy, Ministers of the Crown, church leaders, returned servicemen, a detachment of the Tonga Defence Force, the Girl Guides and Brownies and representative groups from St Josephs High School and Queen Salote College.

Wreaths were then placed on the War Memorial by His Majesty, the Prime Minister and the Deputy British High Commissioner followed by Ex-servicemen and groups represented at the function.

Special memorial prayers were offered by representatives of the various churches in Tonga and the ceremony concluded at 12.30 with the playing of the reveille followed by the Tongan and British National Anthems.

His Majesty created much interest when he arrived at the Rememberance Sunday service in the new Royal car, standing up.

This And That

The drilling site at Hofoa (like Kumifonua No. 1 at Ma'ufanga was) is the most spectacular attraction in Tonga at the moment. Travelling past the site on Sunday we were interested to observe the large gathering on the site.

* * *

We hear that the possibility of Black Gold is not the only topic of conversation. Rumours are flying that the genuine stuff has been found in Ha'apai. Next thing somebody will produce rubies and diamonds.

* * *

The main source of protein from the sea these days appears to be young barracuda (momoto) which arrive daily in boat loads at the shore to the west of Vuna Wharf to be snapped up by the populace at a price.

Our fisheries experts should take lessons as we note many of the fishermen are able to produce large quantities of fish daily, apparently without the aid of lines, nets or spear-fishing equipment.

THE SCRIBES.

BANKERS MEETING ENDS ON HIGH NOTE

(Continued from front page)

On Monday the Minister of Finance was host at a Government reception at the Dateline Hotel and on Sunday the party attended church at the Free Wesleyan Centenial Church in Nuku'alofa where they enjoyed the singing of the famous Maopa Choir. They also attended the Noon service at the War Memorial to observe Rememberance Sunday.

On Tuesday the party were guests to a luncheon hosted by the Assistant Secretary for Foreign Affairs, Crown Prince Tupouto'a, at Their Majesties country residence "Kauvai".

On Tuesday night a reception put on by the local business community at 'Oholei beach was thoroughly enjoyed by the distinguished visitors.

SOCCER SEASON OPENS SATURDAY

The official opening of the Soccer season by His Majesty the King will take place at "'Atele" on Saturday, November 21, 1971.

Invited guests to last week's opening are asked to attend at 1.30 p.m. His Majesty will arrive at 2.00 p.m. and the official programme will commence.

There will be a march past the Royal dais followed by speeches by the President of the Tongan Rugby Union Lupeti Finau and the president of the Soccer Association Hameti Mataele.

His Majesty will then deliver the opening address and present trophies to winners of the last competition.

A soccer match will then be played, following which an exhibition Rugby match will take place.

Bankers and Treasury officials in Conference at the Dateline Hotel this week with the Minister of Finance the Hon. M. U. Tupouniua in the Chair.

Rarotongan Dies In Tonga

A Rarotongan who had been living in Auckland for the past 20 years and was returning on the 'Lorena" to his homeland died in Tonga last Thursday morning.

He was John Metuatini, aged 50, single, who had been admited to Vaiola Hospital on Wednesday afternoon with a serious heart condition. He died of cardiac failure on the morning of the 11th and was buried at the Telekava Cemetery on Friday the 12th.

Mr Metuatini was returning to Rarotonga at the invitation of his cousin, the Premier of Rarotonga, Mr Albert Henry.

A personal request was received by the Prime Minister, His Royal Highness Prince Tu'ipelehake from Mr Albert Henry that Mr Metuatini be buried in Tonga.

FEHU'I

1. Ko e fē 'a e fānau ako 'oku teu hū ki he Ako Mā'olunga 'o Tongá pea mo e Kolisi Tongá? (Tali peesi 3).
2. Ko e hā e me'a na'e hoko 'i he Maka Fakamanatu 'o e Taú 'i he Sāpaté? (peesi 10).

Na'e pehē foki 'oku lahi hono faingamālié ke ne kau ai ki he timi 'a Pilitānia ki he fe'auhi Olympic 'i Munich he ta'u fo'oú.

Pineapple growers!

Weeds and grasses cost you money by using up the plant food and moisture which should be used by your pineapples. If weeds and grasses are killed and the ground kept free of weeds while the pineapples are growing, you will get a bigger and better crop. DU PONT "KARMEX" and "HYVAR" X have proven to be outstanding weedkillers for use in pineapples and both give control of weeds and grasses for long periods.

KARMEX® is a powder which you mix with water and spray onto bare soil to stop annual weeds and grasses growing. Use 4-8 lb "Karmex" per acre at planting and 2 lb per acre for follow-up applications.

HYVAR® X is a powder to be mixed with water and sprayed onto bare soil for the control of perennial weeds and grasses. Use 2-6 lb "HYVAR" X per acre after planting.

HUNT FOR TWO ESCAPED PRISONERS INTENSIFIED

The search for the two prisoners who escaped from a work party at Matatoa on November 12 is being intensified. Until yesterday only the prison staff had been involved but now the police have joined in.

The public is asked to help by reporting any sighting of the prisoners to the nearest police station or policeman.

The escaped men are :

Sione Kuli Puna (?1) of Kolofo'ou and Hafoka Luke (21) of Nomuka.

Both men were serving sentences for housebreaking and theft, Puna has escaped five times previously and Luke four.

The only reported sighting of the escapers came last week from the Kolomotu'a district.

A number of housebreakings and thefts since the prisoners have been at large are suspected to be their work.

Tongan Workers Home From N.Z.

The first group of Tongans to work in New Zealand under the New Zealand Employment Scheme returned to the Kingdom last week on the P & O Liner "Oriana".

The group which travelled to New Zealand in May of this year worked in industries in the Hutt Valley District near Wellington.

Although official advice has yet to be received it is understood from reliable sources, that because of the outstanding success of this first group, the second group to go to New Zealand early next year is expected to be well in excess of 100.

Members of the returning group were unanimous in their praise of the scheme and of its outstanding success. Each man will shortly receive a cheque from New Zealand for the money he has saved during the past six months, which, according to one man should average at around $600 per man.

Reports in the New Zealand Press concerning the Tongan workers have been highly complimentary. In every case the employers were more than satisfied with the performance of the Tongans, and many hundreds of friends were at Wellington Railway Station to offer the party a tearful farewell when they left.

A report from daily newspaper "The Evening Post" appears on Page 9.

The inside of a BOAC 747 jumbo jet as the passengers settle down for a long but comfortable trip to London. The Editor has just returned from a journey in a BOAC 747 and tells about it on Page 12.

Oil Drill Breakdown

Drilling at Kumifonua No. 2 exploration well at Hōfoa was held up for six hours on Saturday night when the diesel motor which operates the hoisting equipment on the rig, broke down.

It took a repair crew six hours to remove the motor and replaced it with another unit.

The breakdown occurred when the engine, which operates the hoisting equipment on the rig known as the "drilling string", blew up and threw a connecting rod through the side off the engine casing. Drilling activity was held up as this motor is responsible for hoisting drill rods and casing for the hole into position, and operating the turn-table unit which spins the drill in the hole.

According to latest reports drilling is proceeding smoothly with no hitches as was the case with Kumifonua No 1 at Ma'ufanga where trouble was experienced in placing the casing in the shaft.

"DEAR SIR..."

Letters to the Editor.

Surveying

Dear Sir.—I am surprised to learn that the Survey Department has neglected to sub-divide allotments which have already been approved by Government.

I was informed by a senior officer of the department that the work has fallen behind by three to four years merely because the department is under-staffed at present. I told him that I have known tax allotments which had been sub-divided and they were only approved recently. He said that these allotments were surveyed during Saturdays and public holidays and the surveying equipment was given to the allotment holders at their request to do their own survey work.

The staff should be increased and there are also survey trainees who can do the work. The department should engage the services of the trainees in sub-dividing allotments, subject to inspection by the Chief Surveyor.

The population is spending far more than it should have to spend in paying the salaries of the surveyors who are sub-dividing their allotments. They also have to hire two or three labourers, and provide food for the workers.

TEVITA TAUFALE.

Young Sellers

Dear Sir. — I wish to express my gratitude to the School Broadcasting Officer for his programme on Friday morning, October 29 concerning young children who sell baskets, peanuts, tomatoes in the market during school hours. It was only when he broadcast this that I really came became aware of the problem. It was rightly put when he said it would never help their future.

In his advice he mentioned that in the past it was possible for someone who had started from the bottom of the scale to rise to the top. Nowadays one has to not only possess Lower Leaving Certificate, but also Higher Leaving Certificate, New Zealand School Certificate or a degree before being assured of getting a job.

I sincerely believe that if my children are ignorant they will be bossed around by people with qualifications.

I only wish that I could live long enough to see for myself the results of my wrong doings.

I. HEMALOTO.

Courting Couples

Dear Sir. — I am concerned about the young lovers who often meet at night at the verandah of the Centenary Church at Nuku'alofa.

On many occasions I have seen courting couples sitting inside the building. Therefore, I suggest a caretaker be appointed to look after the church because sometimes I think it is like the foreshore at Pangai or the Fā'onelua Gardens.

We should keep a house of God holy.

M. VAIKONA.

Rural Broadcaster

Saulala Mafi, the rural broadcasting technical officer for the Agriculture Department returned to the Kingdom on November 9, after spending three months in Australia on a rural broadcasting training course held in Sydney.

The course aimed at improving agricultural and livestock production and at how the best use could be put to using the media of broadcasting to convey to the man on the land new methods and techniques, was specially aimed at developing countries.

Sponsored by the Australian Government in conjunction with the Australian Broadcasting Commission, trained radio personnel from 11 countries in Africa, Asia, and the Pacific Islands took part in the course. Private organisations and State Governments also co-operated in providing facilities for the course.

During the course of training Mr Mafi spent four weeks in country areas with Australian radio men on routine assignments.

Mr Mafi is a graduate of Gatton Agricultural College, Queensland, and has been with the Department of Agricultural since 1968. In 1970 he was transferred to the rural broadcasting section.

Mr Mafi said rural broadcasting techniques were of particular interest to him and he gained experience ,in collecting material production and directing will be of good practical use to Tonga.

SIX MONTH'S SINGING AND DANCING FOR FESTIVAL

Fā'onelua Gardens will be the scene of singing and dancing each Tuesday and Thursday until next May as 200 men and women from all over Tongatapu practise Tonga's indigenous dances and songs, like the lakalaka, me'etu'upaki, faha'iula, 'otuhaka and tau'a'alo, in preparation for the South Pacific Arts Festival which will be held in Suva from May 6 — 20 next year.

An executive committee under the chairmanship of the Hon. Prime Minister, Prince Tu'ipelehake has been formed to arrange Tonga's part in the Festival. Sub-committees have been formed to take care of the various aspects.

Under the leadership of the Hon. Ve'ehala and Malukava of Mu'a, the sub-committee for indigenous dancing and singing has begun the dancing practice in Fā'onelua Gardens every Tuesday and Thursday.

The commodity boards have offered the service of their trucks to bring in the dancers from the country to Nuku'alofa and take them back when the practice of the day is over. It is expected that this will go on until the party leaves for the festival in late April or early May.

The districts of Tongatapu have offered to provide food for the dancers and each district will have six turns.

The Government provides the kiki and the districts provide the food.

Commenting, the chairman of the sub-committee for indigenous dancings and singing, the Hon Ve'ehala, said that although his sub-committee is being pressed for time, it is making every effort to get the dancers well prepared for the festival.

The Government has offered to pay the return fare of the 200 people and arrangement are being made for a Government vessel to take them to Suva and back.

In response to a request from the festival organisers in Suva, Tonga will build a fale on the University of the South Pacific campus where demonstrations of tapa-cloth making, mat making and Tongan carvings will be displayed.

"It is also expected that the organizers will provide space in the festival centre where Tonga will display full sets of her postal stamps," the secretary to the executive committee, Mr John Kite said.

In preparation for the South Pacific Festival of Arts in Suva next May, these people from all over Tongatapu are practising the lakalaka at Fā'onelua Gardens, Nuku'alofa while the Hon. Ve'ehala and the instructor (far right) looks on.

All heads turn to watch the instructor's demonstration of the lakalaka, at the dancing lessons at Fā'onelua Gardens in Tuesday afternoon.

NEGLIGENT DRIVERS

Two men were fined $100 or a year's imprisonment in the Nuku'alofa Police Magistrate on November 18, on charges of negligent driving.

The magistrate was Sekonaia Tu'akoi.

Moroni B. Langford (66), of Liahona was charged following an accident in Halaloto. Langford was the driver of a car trying to overtake a bus when he ran into an oncoming van.

Takahava Tupou (39), truck driver for PWD, was driving along the road at Tofoa and pulled to a sudden halt when someone called from the roadside. As he reversed he ran into a car that was following.

'ATALANGA RESIDENT STUDENTS

These four photographs have been received from the manager of 'Atalanga in Auckland, Dr. Joe Fanamanu, with the request that the Chronicle publish them "so that parents can see how their sons and daughters look."

Mr Fanamanu says he is sure that most parents of students in the photographs have forgotten how their sons and daughters look.

"It may help to renew communication between parents and their children, bringing these students closer to their homes and families, thus emphasising the students' appreciation of their roles and obligations to Tonga."

Enlarged copies of the photographs have been made and are hanging on the walls in the common rooms of the boys and girls dormitories.

Mr Fanamanu says these photographs add tremendous improvement to the bare walls of the otherwise well-furnished common rooms and remind students contiously of the importance of being well dressed at all times.

The Students Administrative Council has been formed. Group I started from September 1 and will run for six months until the end of February, 1972. Group 2 will then take over for the next six months and so on, alternately.

MOVES TO SPREAD KNOWLEDGE OF COMMONWEALTH AFFAIRS AMONG MEMBER COUNTRIES

Commonwealth information experts meeting in London have proposed that steps be taken to spread knowledge of Commonwealth affairs among member countries.

The information officials, from 25 Commonwealth countries and associated States have, at the end of their talks, sent their proposals to the Commonwealth Secretary-General, Mr Arnold Smith.

They studied a comprehensive report by the Overseas Controller of the Central Office of Information, Mr Donald Kerr, who made a first-hand survey of 21 countries while he was on secondment to the Commonwealth Secretariat.

This report was approved by the Heads of Government Conference in Singapore in January.

Endorsing the findings of the report, the information specialists agreed that every effort should be made to increase the coverage of Commonwealth matters in the mass media.

It was felt that Commonwealth citizens should hear more about the Commonwealth co-operation which is extensive in many fields that concern their daily lives and general well-being.

The recommendations to Mr Smith call for a prompt start to be made on an information programme, supervised and co-ordinated by a small but effective information division in the Commonwealth Secretariat.

The programme would itself be an exercise in Commonwealth co-operation. It would publicise the multi-lateral links which illustrate the constructive and practical nature of the Commonwealth, but it would not promote publicity for individual Commonwealth members. This of course is the responsibility of national information services.

One recommendation calls for the encouragement of the production of governmental and private enterprise documentary films about the Commonwealth.

Another important proposal is that the relevance of Commonwealth association should be taught in schools. For this purpose, suitable current affairs material would to be made available. The setting up of a programme of Commonwealth studies is also seen as worthy of encouragement.

The London meeting, first of its kind, may well be followed by others to review progress made on the information programme and to discuss further co-operation in the field.

Tonga, the smallest member of the Commonwealth was not able to be represented at the meeting.

News Tip

Ring the Chronicle, Nuku'alofa 302B, or come to the Chronicle office, Premier's Office, if you think you know of a news item or have a news picture.

School News

Sisters Mary Agnette (left) and Mary Priscilla of St Mary's Technical School in the school's exhibition room, looking very pleased with the girl's work.

ST. MARY'S TECHNICAL SCHOOL

St Mary's Technical School held their annual exhibition of work last weekend. The 70 girls produced a comprehensive display of high stanard work.

Dressmaking exhibits for all ages, boys and girls, men and women and baby clothes, and all varieties of Tongan crafts, leatherwork, canework, crotchet, and knitting were displayed. Many were fascinated by the mothercraft project which was a baby's bassinette complete with everything necessary.

The cooking section was highlighted by decorated Christmas cakes.

The school has been in operation for six years. The present school building was completed in 1968 when the intake numbered 70.

The numbers have remained steady over the years but the standard and range of work has increased considerably. Parents have become aware of its very real educative value for their girls in preparing them for the future.

The teachers hope next year to be able to keep contact with past pupils so as to encourage them to maintain a high stanard of work until they have become independent. It is hoped to set aside an afternoon a week for them.

Next year 24 girls of 15 years of age will be accepted for the junior class, and older girls will be accepted to fill vacancies in upper classes.

Banana growers!

Weeds and grasses cost you money. When you first plant your bananas, weeds and grasses severely affect the growth of the crop. By spraying the ground with DU PONT "KARMEX" at 1½-3 lb per acre at planting time, bananas will make maximum growth which means easier harvesting and BIGGER YIELDS. In established bananas, an application of "WEEDFREE" 235 at 4 pints per acre plus "KARMEX" at 2-4 lb per acre will kill established weeds and grasses and also keep the ground clean for a long time.

"WEEDFREE"® 235 is a contact weedkiller which 'burns-off' weeds and grasses to ground level.

"KARMEX"® is a residual weedkiller which keeps the soil free of weeds for a long time.

no weeds — quicker growth — bigger crops.

TEARFUL FAREWELL FROM N.Z. FOR TONGAN WORKERS

The following article under the above headline appeared in the Wellington Evening Post of 15th of November, 1971 and is printed hereunder in full as a tribute to the first group of workers, who returned on the "Oriana" last week. They have been truly outstanding "Ambassadors of the Friendly Islands".

Editor.

IT WAS a tearful scene at the Wellington Railway Station last night when some 200 people, mainly from the Hutt Valley, assembled to bid farewell to 61 Tongan workmen who have assisting to alleviate a manpower shortage in the Hutt Valley for the past six months.

The Tongans sail on the "Oriana" from Auckland tonight for home after fulfilling a work contract, and it is believed each man is taking back to Tonga between $700 and $800 which will benefit the economy of Tonga, where jobs are few and money is scarce.

To assist Tonga's economy it was agreed by the governments of New Zealand and Tonga to allow 100 workers into New Zealand for six months.

The Hutt Valley Chamber of Commerce and Industry has been concerned at the shortage of labour in the valley. It offered jobs for the Tongan men to help fill this shortage as well as aiding the Tongans.

Finding accommodation was the problem. Eventually the Chamber had to accept the fact that accommodation could be found for only 61 of the men, and this after there had been a big feast in Tonga in the belief that 100 men were going to New Zealand.

The 61 men have now completed their stint. Late in January or early February another 71 will come, and about July of next year it is hoped to bring in about 100 after the 71 forming the second contingent returns home.

TRAIL BLAZERS

The man who was largely responsible for the organisation of the Tongans during their stay in the Hutt Valley was Mr E. C. D. Watson, chairman of the Hutt Valley Chamber of Commerce and Industry's immigration committee.

He today described the 61 Tongans as the trail blazers. He said they were a tremendous success, a credit to their country, and he was among those who were dewy-eyed last night when the Tongans were farewelled.

He said they were deeply religious people, and it said a lot for them when a party of 61 men in a strange country could overcome the climatic conditions, the working conditions, the food change, and accept a new concept in living and still "not put a foot wrong with the law."

"The Tongans were spread around in industry, and everyone who had them, wants more. They are terrific workers, and industry in the Hutt Valley is clamouring for more of them. Our only problem is finding sufficient accommodation for them," said Mr Watson.

"They were so well loved wherever they worked that there were tearful farewells from work last Friday. I am sure a number of them would like to stay in New Zealand for longer periods, or even permanently, but as their leader Paini Sikuea, said 'our hearts are really in Tonga.'

"Religiously they were mainly Methodists, and they had a choir of more than 30. They were magnificent singers and appeared in many churches of varying denominations as a choir. Each performance was enthusiastically appreciated.

"The Rev. Lata Pāhulu, an ordained Methodist minister was their chaplain, but like all the other men he was a worker," said Mr Watson.

Forty-one of the 61 Tongans were housed at the railwayman's camp at Gracefield. Whether it was at work or at the hostels those associated with the happy Tongans couldn't find adequate words to express the high esteem in which they held them.

They were described as "fantastic, tremendous and wonderful." Their religous observance is not likely to be forgotten, and the voice of Paini Sikuea, who could sing in bass or tenor equal skill is not likely to be forgotten by those who heard him.

The Tongans have left with many wonderful tributes paid to them.

INFORMATION

UNIVERSITY OF THE SOUTH PACIFIC SCHOOL OF EDUCATION

Applications are invited from qualified teachers for the newly established post of Lecturer (Preliminary) in Industrial Arts for the programme for the Diploma in Education. Preference will be given to candidates with good qualifications and experience in the field of industrial arts in secondary schools and teachers colleges. Experience in metal work crafts and technical drawing is essential.

Salary scales (placing according to qualifications and experience) :
Lecturer (Preliminary) Grade II - - scale $F2736 x 133 - 4598
Lecturer (Preliminary) Grade I - - range $F4640 - 5795

Other conditions of service - contract (2, 4 or 6 years) or permanent appointments: 10% annual taxable gratuity for contract appointment; contributions up to 10% of salary to an approved superannuation scheme. partly furnished accommodation at rental of 15% of salary (with upper limit of $1152 per annum), appointment allowance.

Formal applications should contain full name; date and place of birth; nationality; marital status; educational qualifications; employment history and experience; names and address of three references; general statement of physical fitness; date appointment could be taken up. A passport size photograph should be sent.

Further particulars, including Outline Terms of Service, are obtainable, from :

The Registrar (Post 71/32),
University of the South Pacific,
G.P.O. Box 1168,
Suva,
FIJI.

to whom completed applications should be returned by December 20, 1971.

VACANCIES

Applications are invited for the post of "under-study for the Editor 'Chronicle'". The minimum academic qualification is the New Zealand University Entrance with a good command of the English language, have a flair for writing and should be able to pick readily newsworthy events.

The successful candidate will spend six months working with the present Editor to give him the chance of experiencing the requirements of the post and the demands it places upon its editorial staff.

Should he prove suitable during the probationary period of six months, he should then be enrolled in a Polytechnic Institute in New Zealand to take a 3 year Diploma Course in Journalism.

The salary during the period of training will be $654 x 54 - 816 per annum.

All applications together with academic qualifications and testimonials should be addressed to the Secretary, Civil Service Staff Board, Prime Minister's Office, Nuku'alofa and should be received by him not later than 4.30pm Friday, December 3, 1971.

CHRISTMAS TURKEYS

A limited number of turkeys will be available from the Department of Agriculture for Christmas in the dressed weight range of 10lbs to 16lbs, at 50 seniti per lb.

Written applications in a plain envelope marked TURKEY should be deposited at the Department of Agriculture Headquarters before noon on Friday, December 3, at which time a draw will be conducted to determine the successful applicants, whose names will be posted on the Notice Board at 2pm of that day.

One turkey per household will be permitted, although if applications do not exceed numbers available a second turkey may be purchased.

Dressed turkeys will be available for collection from the Department of Agriculture on Thursday, December 23, between 10am and 12 noon.

VACANCIES

Applications are invited from young men and young women between the ages of 18 years and 25 years on January 1, 1972, for appointment to the non-established post of Agricultural Instructor Trainee. Applicants should preferably hold or have recently taken School Certificate, but a good Higher Leaving Certificate may be acceptable provided a 'B' pass in English and Mathematics has been gained or is expected to be gained.

Selected applicants will be required to become residential students at the Agricultural Staff Training Centre on the Government Farm for a period of approximately one year during which time considerable practical training in addition to classroom will be undertaken.

The commencing salary for the post is $330 per annum in the sale $330 x 30 - 420, but school certificate holders commence at the $360 point. Prospects for future promotion and/or selection for overseas training are good for suitable candidates who must be prepared for hard and often uncomfortable conditions in the field.

Applications in English, in the applicant's own handwriting should reach the Director of Agriculture before Friday, December 17, 1971 and be accompanied by copoies only of certificates, testimonials etc.

CUSTOMS NOTICE

Importers are advised that any cargo ex "Laganbank, 'Aoniu", and "Hifofua" not cleared by 3pm Friday, November 26, 1971, will be bonded by Customs.

S. P. Jones,
Collector of Customs.

FOR SALE

One each refrigerator, deep freeze and gas stove. Apply the Residency.

SCHOLARSHIP
WANGANUI COLLEGIATE SCHOOL

The Collegiate School of Wanganui, New Zealand, proposes to grant two scholarships for 1972 each to the value of $500 a year and tenable up to five years, subject to satisfactory progress at the school. The total school fee for 1972 is likely to be $1110 a year.

The scholarships are open to boys at full secondary level (Form III - VI) and preference may be given to boys entering at Form III.

Application forms may be obtained from the Education Department, Nuku'alofa. They are also available from the area organizers in Vava'u and Ha'apai.

The completed application forms must be sent, through the school principal, to reach the Director of Education not later than Friday, December 3, 1971.

FESTIVAL OF FOOTBALL FOR GUESTS FROM BRITAIN

By CHRIS

His Majesty opened the soccer season on Saturday at 'Atele before HRH Prince Tupouto'a, HRH Prince Tu'ipelehake, Ministers of the Crown, Nobles, over 3000 spectators and the guests of honour, the president of the International Board of Rugby Sir William and Lady Ramsay.

The opening of the soccer season was introduced by a march-past of 22 teams led by the Tonga College Band.

Following the march-past speeches were made by the President of the Tonga Rugby Association, Lupeti Finau and President of the Tonga Football Association, Hāmeti Mataele.

His Majesty then made and address congratulating all who had taken an interest in the game of soccer and said he looked forward to the game improving so that Tonga could take part in international competition in three years.

His Majesty then presented the trophies for last season: the Lion Shield to Kolofo'ou, Friendly Island Biscuit Cup to Veitongo A, Talamahu Canteen Cup to the Ma'ufanga Girls, Lali to Nuku 'alofa District.

Friendly games were then played between the following teams:

Men's

Veitongo A 1	Ha'ateiho 0
Ngele'ia 2	Toafaka'amu 0

Women's

Ha'ateiho 0	Ma'ufanga 0
Katokakala 1	Kolokakala 1

Following the soccer the rugby match was played between Remainders XV and the Police.

The afternoon's sport was thoroughly appreciated by all who attended and Sir William said that after watching Tongan rugby he was looking forward to seeing the Tongan team in Wales in 1974, where he felt sure they would give a good account of themselves.

Talilotu, Remainders wing three-quarter with the ball on hand dashing down the side line with Vanisi for the Police coming in.

Sir William Ramsay (right), President of the International Board of Rugby, with the President of the Tonga Rugby Union, Mr. Lupeti Finau, introduced to members of the Remainders XV by the captain, Siō Motu'apuaka.

His Majesty Taufa'ahau Tupou IV, Sir William and Mr. Tom Newland watched teams on parade at the football festival on Saturday.

Comeback 21-9 Win In Exhibition Rugby

The Remainders XV beat a Police XV 21–9 in an exhibition rugby match on Saturday at Tonga College for the president of the International Board of Rugby, Sir William Ramsay and Lady Ramsay, who visited the Kingdom from Saturday until Monday.

The Remainders XV came back after being down 6–3 at half time to score three converted tries and a try to the Police's only try in the second half.

From the kick-off the Police were in for real business, and were soon rewarded with a try. About 10 minutes from the start, from a maul on the Remainders twenty-five, Siaosi Sēlupe, the Police No. 8, picked up the loose ball and passed to Kei Tongi at centre, who set Siope for a try on the corner. 'Ilavalu missed the conversion.

Score 3 - 0 to the Police

Play moved from end to end with Police dominating all phase of play for the first 15 minutes of the game. At one stage the Remainders were on attack and were almost rewarded with a try, but Taufu'i on the right wing knocked it on two yards from the goal line.

The game progressed with the Remainders under pressure from the Police attack, but in a switch of play the Remainders were on the attack. From a set scrum on the Police twenty-five Metui, the Remainders half-back, dotted down on the blind side then switched back to the open side with Sione Mafi, the big No. 8, in support. Sione fended off three defenders before passing on to 'Uhila who passed it on to Panuve to crashed over for a try. He failed to convert his own try. Score 3 - 3.

'Ilavalu was almost in for try when he followed through a kick over by Malakai, but was caught from behind by Talilotu just short of the goal line.

Shortly after, the Police were penalised for an infringement midway between the upright and the touch line, and about 20 yards from the Police goal line. Tevita Leger, the Remainders flanker missed the easy penalty.

After a loose ruck on the half-way Saia Mapa picked up a loose ball and passed it on to Polutele who set up Siope for his second try on the corner. 'Ilavalu again failed with the conversion.

The Police led 6 - 3 at half time.

In the second half 'Ilavalu and Malakai changed position. Malakai at first-five brought more fire into the Police backline but lacked support.

For the Remainders Valita replaced 'Uhila at first five, Taufu'i moved in to second five-eight, and Tali moved out to the right wing.

Ten minutes into the second half, from a lineout in the Police twenty-five, Sione Mafi took the ball from the end of the line and fed it out to the backline. Valita threw a dummy then fed it back to the forwards and came behind his forwards in time to crash over for a try, to the left of the upright.

Lasike who replaced Peni Prescott at fullback was on target with the conversion. Score Remainders 8, Police 6.

The Remainders looked a much different team in the second half from a lineout, a yard from the Remainders goal line, a maul was formed. As the ball rolled out, Siale on the left wing for the Police, picked the ball up and dived over the goal line. He failed to convert his own try. Score: Police 9, Remainders 8.

From loose play midway between halfway and twenty-five, followed by a quick pass along the Remainders backline, Panuve, at centre, did a perfectly timed scissor with Tali, on the wing. Tali covered about 40 yards before feeding it back to the supporting forwards, but they knocked it on, Sione Mafi picked the ball from the end of the scrum and crashed over for a try. Lasike was on target with the conversion.

The Remainders were again in the lead by 13 - 9.

Kimbu picked a loose ball from halfway and weaved his way through half the Police defenders and passed it on to Tali who showed terrific sidestepping and swerving before scoring in the corner. Lasike made no mistake with the conversion. Score: Remainders 18 points, to 9.

The Remainders were repeatedly on the attack and good combination of both forwards and backs was rewarded with another try by Tali, but Lasike missed the conversion.

Final score Remainders 21, Police 9.

TONGAN GIRL WINS CERTIFICATE

Miss Vika Tu'ifua, daughter of Tu'ifua and Mele of Fasi mo e Afi, became the first Tongan Guide to receive a Brownie trainer's certificate recently in South Australia.

Miss Tu'ifua who had been training with the South Australian Girl Guide Association for the past six months, received her certificate from the South Australian Assistant Commissioner of Girl Guides, Mrs Brian Magarey at the Torrens Park Guide Hall, Kingswood earlier this month.

During her six months course in Australia Miss Tu'ifua also attended the International Trainers Conference in Sydney as well as training sessions throughout South Australia.

In a report to the local Girl Guides Association, Miss Muriel E. Brown, Immediate Past International Adviser for South Australia said that Vika has worked very hard with great enthusiasm and ambition to be of the greatest service to her country.

"She deserves congratulations for her ever present devotion to her family and country. It is one of the many characteristics which have made us value her friendship and her company whilst she has been with us. We shall all miss her exceedingly," Miss Brown said.

ROOM TO MOVE AND MOVIES TOO

By Jumbo Jet To London

By The EDITOR

The contrast could not be greater . . . to be transported from Tonga to London in about 48 hours and to start in a Hawker Siddley 748 aircraft and arrive in a BOAC Boeing 747 jumbo jet.

The occasion was the inaugural flight of BOAC's 747 from Sydney to London and the Chronicle was invited to go along for the ride and what a ride it was.

The flight from Tonga to Nadi and then on to Sydney is a sudden enough transformation, but to suddenly find yourself in Sydney's magnificent and very efficient new air terminal and then on board the 747 is a mind boggling experience.

The spaciousness of the aircraft hits you immediately. Gone is the old tunnel shape, in its place is an interior of straight walls, flat high ceiling and more width than ever before (21ft wide, 8ft 4in high)

The only comparisons in Tonga I could think of would be to describe the spaciousness as like walking into the observation lounge of the "'Olovaha" and the length of the 747 is about the same as the "Niuvakai".

And you really can walk about on the 747, although it did cross my mind that there could be difficulties if too many of the 350 passengers on board wanted to walk around at once.

Although there is a large number of passengers, BOAC has divided the interior of the 747 into five cabins and therefore I found myself surrounded by fewer people than I did when travelling on a Boeing 707.

Two things that have always irritated me about air travel have been the lack of leg and elbow room, but I do not have this complaint about the 747. My knees were not up against the seat in front of me and I could eat a meal without fear of putting my elbow in my neighbour's mouth.

Hongkong, a fascinating city of teeming millions and only just over a day away from Tonga by BOAC 747 from Sydney.

Having to keep hand baggage on the floor, usually in the way of your feet, has been another curse of conventional air travel, but on the BOAC 747 hand baggage is stowed overhead in hinged containers which take the place of hat racks. From the closed position, the front can be lowered and a lip prevents spillage when a full container is opened.

So, with all my bits and pieces stowed and comfortably seated with my legs stretched out, my BOAC 747 set out for London, first stop at Darwin and then Hongkong. BOAC has the only all-the-way-through 747 operating between Australia and Britain.

The flight across Australia takes a little over four hours at a height of 35,000 feet. At Darwin a few more passengers come on board and containers with food for the evening meal replace what more than 350 people consumed for lunch.

A light evening meal is served after leaving Darwin. Dinner comes later, soon after leaving Hongkong, which is 5½ hours away.

Between Darwin and Hongkong we see the first of the full-length feature films which are shown on 747s. A striking abstract painting on the facing wall in the middle of each section is flipped over and becomes a cinema screen. To hear the soundtrack it is necessary to use a set of headphones which under International Air Transport Association rules have to be hired by the passenger for $2.50. BOAC were apologetic about having to make the charge, but it is the rule. The headquarters can also be used to listen to one of seven programmes of entertainment to suit most tastes. These include, pop music, comedy, opera and a children's programme.

Hongkong was a myriad of lights when we made the approach for landing. The airport appears to be in the heart of the city and as we landed it seemed as if the tips of the wings would touch the high-rise apartment buildings on each side. On the return journey, in daylight, I was to get a much better impression of just how crowded Hongkong is and what a remarkable achievement it has been to build an airport out into the habour.

The journey to London then passed through Delhi, Teheran, Beirut and Frankfurt.

In next week's Chronicle I will write about London and the 60 Tongans who live in Britain.

Mani Vaka South Seas Champion

Mani Vaka, the Tonga heavyweight boxing champion became the new South Seas Champion when he stopped Marika Naivalu of Fiji at the end of the 13th round of their scheduled 15-rounder at the Suva Town Hall on Monday night.

This was the first time that a Tongan has held the title in years. Tom Hini was the last Tongan to become the South Seas Champion, in 1957.

Naivalu was defending his title for the first time since winning it from Marika Momo, also of Fiji, a year ago.

For the first two rounds Naliva was leading on points and Vaka was trying hard to beat his opponent who had longer reach and was fighting from the distance.

"Naliva was far better than I expected," Vaka said. He had fast lefts and quick footwork.

In the third round, Vaka moved in to close range and a good left hook. Blood started dripping from Naliva's nose.

Vaka said he was out for a knockout in the seventh round as he was out for a knockout as he was certain he could not win on points.

In the 13th round Vaka saw his chance and landed a good right cross which landed on Naivalu's jaw. This caught Naivalu unaware and Vaka followed with a left hook which put Naliva down on his knees as the bell went for the end of the round.

At the beginning of round 14, Naivalu's seconds threw in the towel and Vaka was declared winner by technical knockout.

Vaka is expected to leave in early January for Australia where he will be fighting for the Australian light-heavyweight title. Following this will be a fight for the Commonwealth heavyweight title held by Jack Bodel of England.

Mani Vaka wearing the South Seas belt (bottom) and the Tonga Boxing Association belt for heavyweight champion (top).

This And That

CHRONICLE DIARY

The law that requires motorbike riders and pillion passengers to wear a crash helmet is a sensible one and we are glad to see the police enforce it. However, we doubt that the helmets worns serve any useful purpose when they are not fixed under the chin. Also the safety helmet as worn around oil wells would hardly qualify as the approved or safe type for use on motorbikes neither would the toy model which we also see being worn lately.

* * *

His Majesty was kept waiting 15 minutes on Saturday for the arrival of the Rugby officials and their guest of honour and consequently the "football festival" was late in starting. Even in Tonga it can be discourteous to be late.

* * *

The Norwegian vessel, "Lorena", under repair in Nuku'alofa, is expected to leave next week, if trials are successful. All parts have arrived from overseas and assembly is taking place. Repairing the "Lorena" has been a real challenge for the staff of the Marine Department and it has tested their ingenuity.

Banana growers!

Weeds and grasses cost you money. When you first plant your bananas, weeds and grasses severely affect the growth of the crop. By spraying the ground with DU PONT "KARMEX" at 1½-3 lb per acre at planting time, bananas will make maximum growth which means easier harvesting and BIGGER YIELDS. In established bananas, an application of "WEEDFREE" 235 at 4 pints per acre plus "KARMEX" at 2-4 lb per acre will kill established weeds and grasses and also keep the ground clean for a long time.

"WEEDFREE"® 235 is a contact weedkiller which 'burns-off' weeds and grasses to ground level.

"KARMEX"® is a residual weedkiller which keeps the soil free of weeds for a long time.

no weeds — quicker growth — bigger crops.

Vava'u To Have Airstrip For Small Planes

By the Editor

Vava'u is to get an airstrip which in the first stage will bring it into direct air link with Tongatapu and eventually, when fully developed, could give it an air service to Fiji and Samoa.

Cabinet has approved the construction of a 2100ft runway which will cater for small aircraft like Cessna and the Britten Norman Islander, carrying about eight passengers.

It is also possible that the runway will be extended to 5400ft at a much later stage, capable of taking the present 30-seater HS 748 which lands at Fua'amotu. In any case, the construction of the first stage will be suitable for the HS 748, therefore if it is decided to extend it will not be necessary to reconstruct the first 2100ft.

The Government is considering the possibility of extending the runway in recognition of that the fact that to promote tourism in Vava'u an air service will be necessary.

One of the first positive signs of the potential tourism in Vava'u is the building of the Port Of Refuge Hotel. This is expected to open early next year and the high quality construction will make it as good as any of the hotels in Fiji, with magnificent views of the harbour from all bedrooms and its own beach.

The success of the hotel depends largely on the building of an airstrip.

A tender for the building of the airstrip has been submitted by D. G. Sundin and Co., the builders of the Port of Refuge Hotel, and this has been accepted by Cabinet in principle.

The site is at Holonga, about 5½ miles from Neiafu. The airport engineer for the construction company, Mr Don Dawson, a New Zealander, is due to arrive in the Kingdom with his wife next week to begin preliminary work on the airstrip.

Nobody can say when work will start but it is unlikely to be within three months, pending a survey being carried out by the Ministry Lands to settle compensation for the land which has been acquired to build the runway.

The cost of the first stage of the airstrip will be about T$56,000 and it is hoped that the United Kingdom Government will finance a portion.

The Australian Government is giving a Land-Rover equipped as a fire tender.

WILL OIL MEN COME BACK?

By The EDITOR

The search for oil in Tonga has so far proved negative and the drilling contractors are packing up and going home.

Whether they will be coming back to try again is anybody's guess at the moment, but early next year a meeting of the Tonga Oil Participants will be held to decide whether the geological information gained from the explorations in Tonga is encouraging enough to keep on trying.

Today the drilling equipment is being assembled on the foreshore ready for loading on to the "Sir Alan" which will probably sail at the weekend for Australia. Only the heavy equipment will go on the "Sir Alan" the rest will go on the "Niuvakai".

The drilling staff have been leaving in dribs and drabs already, but all should have gone in about 10 days.

Tonga Shell NV, operators for the Tonga Oil Participants announced late last week that the second exploration well on Tongatapu, Kumifonua No. 2 at Hofoa, had been abandoned, having reached a final depth of 5529ft. No oil or gas was encountered in the section drilled.

Kumifonua No. 1 well at Ma'ufanga was abandoned at 5525ft with the same result.

Although no oil or gas found in the two exploration well drills, a great deal of geological information had been obtained and the substantial task of analysing this information in detail was beginning, the manager for Tonga Shell, Mr A. Jackson, said in the statement.

The analysis work would be carried out partly in Tonga, but largely in the offices and laboratories of Shell's central office in the Hague.

The geological information would then be used to improve and if necessary, modify previous seismis, gravity, magnetic and geological information to provide a basis for better assessment of the prospects of the area by the Participants.

This work was expected to take some three to four months and the future of oil exploration in Tonga would be decided at a meeting of the six Participants, to be held in Europe early next year.

Kindy Kar

The most exciting car in Tonga is at the kindergarten in Nuku'alofa.

Because so many children are clambering over it it is hard to see its finer ponts but it has four bench seats with two steering wheels to each seat: there are two bulb horns attached to the front seats that really work and a crank handle that goes round with gay abandon - completely boy-proof.

This car is also the only one in Tonga with a telephone - that rings.

The lights glow only if you use your imagination, but kindergarten meets only in the daylight so there's no need for lights anyway.

The engine is so silent you don't even know its working. At least that is what we are led to believe, because with about 20 children driving it was hard to hear anything.

The car was built by the mechanical engineer at the PWD, Mr John Pollknow, with the help of other kindergarten fathers.

On the back is a coupling for a trailer which will be added later.

"DEAR SIR..."

Exam Transport

Dear Sir. — I would like to ask the Education Department to try to produce a boat communication system efficient enough to transport education officials to any outlying island in Ha'apai group on official duties except during very rough weather. I am sure the Education Department can obtain a seaworthy boat for this purpose. This will eliminate the possibility of accidents occurring when people from outlying islands transport their children to Pangai for examination in rough weather, as happened recently.

On the same day in which the accident occurred, I was driving back from the airport and met 20 students at Pelehake who were returning to Lavengatonga and Ha'asini after the afternoon examination. It was a cold rainy day and the children were drenched to the skin; some of them may have been sick as a result. Yet I believe the department has the mean of transport accessible to any part in Tongatapu.

I. HEMALOTO.

Letters to the Editor.

Retraction

Dear Sir. — In my letter to you of October 7, 1971, concerning the cartoon on the dust jacket of "Shirley Baker and the King of Tonga" there is the implication that the whole responsibility for this rests with the publishers, not with me. This is an unfair implication for which I apologise. The use of the cartoon as a dust jacket resulted from a misunderstanding between Oxford University Press and myself for which I must accept full blame.

NOEL RUTHERFORD.

All Steel Boat

The first steel boat to be built in Tonga was launched last week. The boat, measuring 16ft long, 5½ft wide and 2¾ft deep was designed and built by Mr 'Unga Tupou, a boilermaker for the Tonga Construction Company.

Mr Tupou was working only in his spare time and it took him four weeks to build the boat. The total cost was $150.

Mr Tupou said he will be building larger boats in the future and experimenting with inserting two air tanks on each side to increase the buoyancy.

The air tanks will be useful in rough weather, in keeping the boat upright, Mr Tupou said.

Commentary

THE FATE OF THE TONGAN LANGUAGE

Contributed by Futa Helu

There is at present a great emphasis on the inculcation of English in Tongan schools. Colleges, high-schools, and primary schools are desiging their courses in such a way that all subjects are taught in English. Some schools have even made English speech compulsory during school hours and actually cane students for speaking their own language. Volunteers of all description are trying to cram as much English as possible to our young children.

The motive behind all this commotion is the belief that to pass examinations one must learn English. This fact, which stems from the vagaries of political influence,and not from any peculiar excellence of English, is perverted in Tongan minds to mean that an English-speaking individual is the paragon of clairvoyance and profundity when the reverse is usually the case.

Although our schools and educators have been considering the question of how to improve English speech, writing in English and even thinking in English, they have never studied the question of the effects this all-out effort for English at all costs would have on Tongan. How would this insistence on English affect the form of the Tongan language? Would these effects strengthen or weaken Tongan?

A general theoretical answer to the first problem-how to improve English—is the confrontation of students with situations that foster the use of English.But the corresponding question of the fate of the Tongan language has never produced a ripple on the calm surfaces of our educators' complacency.

History offers two cases which show the struggle between the native tongue and foreign languages inadvertently introduced by clerks, educators, lawyers and a host of other officials purportedly to smother the delicate flame of the vernacular. First is the Italian language and its struggle against classical Latin and its rescue by Dante; second is the well-known case of English in its struggle against French and Latin and its subsequent liberation (actually its creation) by Langland and Chaucer.

Most of our Tongan "poets" writing in Tongan now are not of the stature or sensibility of Dante or Chaucer and moreover they are at present engaged in howling sickening sentimental and tearful songs through our radio. So the matter lies entirely with educators and the way they handle the present and future generations of school children, with the dosage of English they are prepared to treat them to.

One of the most valuable possessions of a people is its language because of its intimate and inextricable intertwining with culture. In its language all the aspirations and passion, indeed the identity, of a people are couched.

I can name a few people races, whose troubles spring primarily from lost nationality aggravated by lost language. A conspicuous case and one that is geographically and ethnically close to Tonga and Tongans is that of the Maoris of New Zealand. The Maoris are fighting a brave but forlorn battle to reconstruct their culture and language. It is forlorn because the political material necessary for the undertaking is forever lost to them, and moreover the Maoris are using the wrong weapon —bitterness. Their efforts can only be an affected and academic affair and are doomed to failure.

Tonga, however, is particularly fortunate that its monarch represents a unifying and reference principle from which springs pride, the true foundation of culture. That is the cultural significance of kingship.

I call upon educators in their role as defenders and promoters of culture to use discretion in this wholesale importation of English and, to continue the trading analogy, put up a protective tariff so that this deliberate dumping of English in Tonga should not eventually capture the market.

Exotic Places That Invite You To Stop Over

The second article on the inaugural flight of the BOAC 747 from Sydney to London by the Editor.

Hongkong, Delhi, Teheran and Beirut, exotic names on the way to London by BOAC's jumbo jet. I was sorry I did not have the time to stopover at some of them because these are fascinating places that deserve more than just the hour or so we had at the aiport.

By BOAC 747 To London

One of London's most famous landmarks, the Tower Bridge over the Thames River. Near it is the equally famous Tower of London.

In Hongkong, for instance, I was told it was possible to stay for a couple of days at one of the local Chinese hotels for very reasonable cost. The meals are Chinese and the accommodation is said to be spotlessly clean and comfortable. For those who would like to be able to break their journey and yet can't afford the luxurious type hotels, a Chinese hotel could be the answer.

The cabin crew of 14 changed at Hongkong and among the new stewardesses we had Chinese and Indian girls in addition to the British girls and British stewards.

In spite of the fact that there are over 350 passengers on board we never wanted for service. No request was too much trouble and the meal and drink service was quick and efficient all the way.

With the two wide aisles in the BOAC 747 it is possible to give a seat-side bar service with meals. It is based on two mobile bars for each cabin with drinks ranging from whisky to soft drinks contained in built-in refrigerated cupboards.

Meals also come on wheels. Insulated containers on trolleys carry 32 meals and 32 passengers can be served in 10 minutes.

After dinner another film was shown and then there was time for a short sleep before landing at Delhi, in the small hours of the morning, local time.

WALK AROUND

Although these stops are brief and are mainly for replenshing food supplies and fuel, it does give the passengers an opportunity to walk around.

At Delhi, before we were allowed to leave the terminal and board the 747 again, we had to pass through a security check. For the first time on this journey we were made aware of the hijack menace. The check involved passing through a metal frome, like a doorway. If any passenger was carrying a metal object it would register on a meter.

At Teheran we were not permitted to leave the aircraft, for security reasons. At Beirut we were allowed to go to the terminal but not allowed to leave the building until the time to leave. A guard of honour and band were drawn up on the tarmac in front of the terminal to farewell a visitng dignitary from Afghanistan. When we left the terminal to go on board the aircraft we again had to pass a security check.

The next stop was Frankfurt in Germany and only about an hour and a half flying time from London. On the way we passed over the Swiss alps and got a magnificent view from 35,000ft. It was even possible to see some of the villages nestling in the mountain valleys.

BAD POINTS

On this last leg of the journey to London I tried to think of some of the unfavourable points about travel in the 747. I came to the conclusion that its greatest drawback was the number of people. Unless you like being with large numbers of people you could prefer a smaller aircraft.

Although there were 13 toilets on board there were many times when queues formed and this was hardly an edifying spectacle for passengers who happened to be seated facing the toilet block in the middle of the aircraft.

My particular aversion to travelling with a large group was reinforced when we disembarked at Heathrow Airport, London and had 350 people trying to claim their luggage.

The luggage is brought from the aircraft on an endless belt into the baggage hall where it revolves on a roundabout until it is claimed. Two roundabouts are used for a 747 which could be carrying 1000 pieces of passengers luggage.

The system works on the assumption that each piece is labelled either A or B roundabout, but this is where the system broke down because much of the baggage, including mine, was not labelled this way, therefore I had to go from one roundabout to the other to keep a lookout for my luggage. When 350 people are doing the same thing, the chaos can be imagined.

Coping with the large number of people that a 747 carries is a problem that has not fully been ironed out yet.

SILENT ONE

After a four-day stay in London I was able to return on a BOAC VC10 to Sydney and later on to Nadi. It was difficult to compare the VC10 with the 747 because this time I was travelling first-class, but the claim BOAC make about the VC10 being the silent one is true. The airconditioning seemed to make more noise than the engines.

The route this time took us to Rome, Beirut, Rangoon, Hongkong, Darwin and Sydney.

The most memorable experience was being able to see India pass before my eyes as we flew from Bombay to Rangoon. Al-

(Continued next page)

The wide aisles allow for seat-side bar service.

BP

There is only one BP—BRITISH PETROLEUM—the international oil company.

The BP letters, yellow in a green shield, is the symbol of the BP group of cf companies throughout the world. The symbol is found on installations, service stations, ships, road and rail trucks, at airports and on a complete range of packet products throughout the BP group's marketing network.

In Tonga the BP products now available for commercial use are super-grade petrol, auto diesel fuel and lighting kerosene.

A LITTLE BIT OF TONGA IN U.K.

By the Editor.

On the top floor (17) of New Zealand House in the Haymarket, London, near Trafalgar Square, is a little bit of Tonga. It is the small suite of offices which is the Tonga High Commission in the United Kingdom.

Baron and Baroness Vaea.

David Tupou.

HANDICRAFTS WANTED IN LONDON

Tongan handicrafts are urgently wanted in London.

Baron Vaea told me he gets many requests for Tongan handicrafts to be displayed at bazaars and exhibitions throughout Britain. The British public has shown such great interest in the articles on display that they want to buy them and often they are sold to help a good cause.

If any Tongans can help by contributing handicrafts for display in London, they are asked to bring them to the Chronicle, Prime Minister's Office, Nuku'alofa. When sufficient have been received arrangements will be made to ship them to Britain.

It was one of the first places I called on my trip to Londo during the inaugural flight of the BOAC 747 from Sydney to talk with the High Commissioner, Baron Vaea and his assistant, David Tupou.

From Baron Vaea's office it was difficult not to be distracted by the magnificent view of th London skyline through the huge picture window facing his desk.

We talked about Tonga and Tongans and the latest news from home. I was able to hand over the Chronicles a day or tw earlier than they are usually received by mail and was interested to learn how avidly they are read by members of the whole Tongan community in and around London.

With the help of BOAC, I was also able to deliver a package of information brochures prepared by the Tonga Visitors' Bureau and tourist pamphlets from tour operators in the Kingdom. These were most welcome because of the requests the High Commission receives from all over the United Kingdom and Europe for information about Tonga. Until now the High Commission has had practically no printed material to distribute.

Many requests were received from children doing school projects on the Commonwealth, of which Tonga is the smallest member.

Particularly interesting was the information that German tourist agencies were inquiring about tour parties to Tonga.

Although the main role of the High Commission is a diplomatic one it also has a public relations function and acts as a centre of contact for Tongans in Britain.

About 50 Tongans are living in Britain. Some like Scotty Galloway, chauffeur for Baron Vaea, have been there many years.

Scotty is from Vava'u and went to Britain in 1956 managing Tongan boxers. When English managers took over, Scotty remained working in the north of England and only about a year ago came to London to drive for the Baron. Scotty has already mastered the London streets and the heavy traffic and in a year that is no mean achievement.

He speaks English with a Yorkshire or Lancashire accent (I'm not sure which) and I suspect his Tongan also has a similar accent after 16 years away from the Kingdom.

The night before I left to return to Tonga, Baron and Baroness Vaea entertained me at their home in Cricklewood, about 7 miles out of London. Here I was able to talk with some of the Tongan community who had gathered to meet me.

One of them was Finau Lave who joined the British Army in 1959 and was on leave after being shot in Northern Ireland. Two of his companions were killed.

With the help of David Tupou a list was compiled of most of the Tongans at present living in Britain, with a little information on what they are doing, where it was possible to obtain :

'Ofa Takulua : came 1970; nurse training sponsored by British Council, return to Tonga this year.

Lesieli Vealoloko : came August 1971; Audio/Visual Aid course sponsored by British Council; will return this year.

'Oto'ota Kioa: came 1970; working at Residence of High Commissioner.

Fololeni Fe'ao : came with High Commission in 1969; working at Residence.

Mr & Mrs 'Ake Fuka: came October 1971 on world tour leave from Fiji Government; 'Ake has been working for Fiji Government for 16 years in the Printing Department.

Scott Galloway: came in 1956 now the chauffer for the High Commissioner.

Kalo & Pita Liutai: Two children Tupou and Soane. Pita came in 1961 with a group of musicians. Kalo and children came in 1967 Address: 13 Walden House, Pimlico Road, London S.W.;

Fane Finau : came in 1964 for nurse training - now a qualified sister and a qualified State Registered Nurse (S.R.N.) Address: 42 Nevern Square, London S.W.5.

Semisi Fonua : came 1959; local preacher training at Cliff College, Yorkshire; working St Mary's Hospital, Paddington. Address: 84 Priory Park Rd., London N.W.6.

Finau Lave: came 1959; joined British Army 1962; served in Gilbraltar, Berlin, Norway, Denmark, Switzerland Libya, Aden, Borneo, Hongkong, Singapore, Mauritius, New Zealand, Thailand, Turkey, Cyprus, Canada, Bermuda, Northern Ireland. Address: 16 Esmond Rd., London N.W.6.

Robert Ramsay: came 1965 as a student: still studying. Address: 16 Esmond Rd., London, N.W.6.

George Naufahu: came 1956; heavyweight boxer; living in Chesterfield, Derbyshire.

Feleti Kaho: came 1958; heavyweight boxer; married with five children lives in Chesterfield, Derbyshire.

Taniela Lātū: came 1961 as a musician; living in Chesterfield, Derbyshire.

'Oto Tupou: came 1961; married, two children; living in Doncaster, Yorkshire.

'Alani Kaihau: came 1959; middleweight boxer; lives in Doncaster with wife and four children.

Sione Halafihi: came 1956; lightheavyweight boxer; lives in Bradford, Yorkshire with wife and two children.

Siamu Faletau: came 1958; lives in Doncaste with wife and two children.

Nanumi Halafihi: came 1958; lives near Bradford, Yorkshire with wife and three children.

Siaosi Tu'inukuafe: musician: came 1963; lives in Midlands.

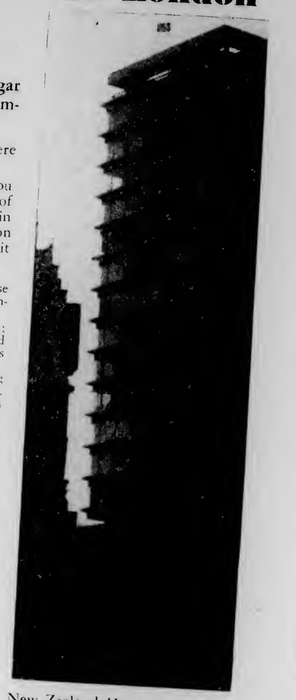
Sione Tu'ifua: came 1961 as a musician - continuing as a musician. Address: 28 Marylands Rd. London N.W.9.

Tū'uta Tu'ifua: brother of Sione; came 1966 as a musician: 27 Arid Rd., London N.W.6.

Daniel Takafua: came 1961 as an entertainer: working at Peter Jones (a well -known departmental store) Address: 99 The Chase, London S.W.9.

Tevita Funaki: came 1961; work in hotels; caterer; Address: 99 the Chase, London S.W.9.

BOAC 747 To London



New Zealand House in the Haymarket with the Tonga High Commission on the top floor.

Stella Fineanganofo: nurse training.

Lavinia Finau: came 1966 as a student.

Sione Vakameilalo: came 1960; musician.

Sifa Kivalu: came 1958 as a heavyweight boxer.

Uini Vaipulu, 'Ana Tufui and Lavinia nurse training.

Students: Paula Lavulo, Semisi Fonua, 'Ofa Taufe'ulungaki, Veiongo Mafi, Fusi Tāula, Siola'a Tu'itupou, Vakalotu Naufahu.

Also: Akesiu Lave, Latai Vea, Stella Skeen, Siōiuno Mafi.

Kipone Taufa and Manu Langi came from Saudi Arabia to England 1971.

Mele and Ma'u Taukolonga: came in 1959.

Exotic Places

(From Page 3)

though we were flying at 37,000ft the sky was so clear it was possible to even see boats on the rivers of India.

The worst feature of this journey was having to get out of the aircraft at Darwin at 1.30 in the morning in a temperature of 86 degrees, being herded into a stuffy room and then having to wait for our health check because the Health Department staff had not arrived. Somebody said they had slept in.

Not a very good introduction to Australia.

But BOAC were on hand immediately we boarded the aircra iately we boarded the aircraft again with a cool fruit drink and encouraged us to have a little more sleep before we were called for breakfast about an hour before landing at Sydney.

Fumigation Plant Attracts Interest From Overseas

The Agriculture Department has a automative fumigation plant at the Queen Sālote Wharf which has attracted interest overseas.

It has been designed by an electronic engineer living in Tonga, Mr Merv Holmes-Libis of Technical Services (Tonga).

The plant consists of a fumigation chamber and an operation room. The operator regulates the amount of gas according to the capacity of the contents in the chamber.

The gas used is methyl bromide and 1 lb of gas operates on 500 cubic feet for two hours.

The operator does not come in contact with the gas while fumigation is in progress.

In the control room the gas is in liquid form, where it is evaporated and circulates into the chamber by means pipes running along the ceiling. This makes it possible for the gas to disperse and pentrate deep down into the contents.

When time expires for the amount of gas required, an automatic fan operates to drive all the gas out before anyone is permitted into the chamber.

The designer believes the system is very efficient and overseas firms have shown great interest in it.

All fruit and vegetables for Fiji and the United States, fruits and vegetables and Tongan crafts for Samoa must be fumigated before they leave the Kingdom.

New Zealand is exempted from fumigations unless the cargo goes via Fiji.

Kape to be shipped to Samoa, outside the fumigation plant on Queen Sālote Wharf waiting to go into the shed to be treated.

PACIFIC PREDICTED WORLD'S MOST PROSPEROUS AREA

A British banker believes that in the next two decades the Pacific Basin will become the most prosperous area of the developing world.

In an essay on the future of world money, Mr William Clarke, author of several books on economics and a former financial editor of "The Times", forecasts that the region will be dominated by Hongkong and Singapore rather than by Tokyo and Sydney.

He is critical of Australian Government policy on banking and says that banking units will have to increase in size to cope with services expected of them.

The essay—"Money Market of the World : What the Future May Bring"—has been privately published by a firm of London stockbrokers, Laurie, Milbank and Company. It was circulated in Washington during the International Monetary Fund meeting.

In a section analysing the potential of world financial centres, Mr Clarke named Japan, Europe, North America, the Pacific Basin, Latin America and Africa in order of economic development and prosperity.

"The first three are developed areas and of these Europe and North America seem more likely to provide encouragement to their financial centres than Japan," he wrote.

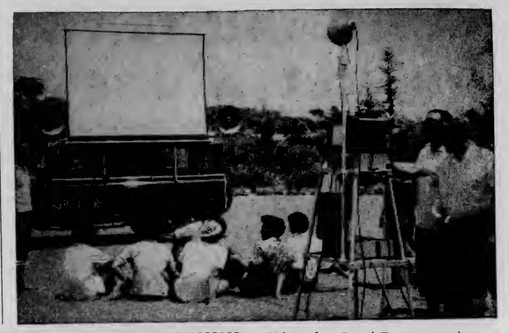
"The next three are developing areas and, of these, recent experience suggests that the Pacific Basin will continue to provide both the largest economc growth rate and the most encouraging climate for private banks and financial interests."

He defines the Pacific Basin as extending from California to the Malaysian Peninsula and from Japan to New Zealand.

"This vast region is primarily a developing area, though containing three highly prosperous countries — Japan, Australia and New Zealand. Yet the paradox is that these are precisely the ones which give least encouragement to foreign transactions in their midst.

"New Zealand hardly allows its own domestic banks off the monetary leash let alone foreign banks. Australia has protected its interest rates from outside influence and deliberately hampered foreign banks," Mr Clarke wrote.

Films For Farmers



Gifts of a Land-Rover, projector and other equipment for farm extension work have been received by the Department of Agriculture from the Tonga Produce Board.

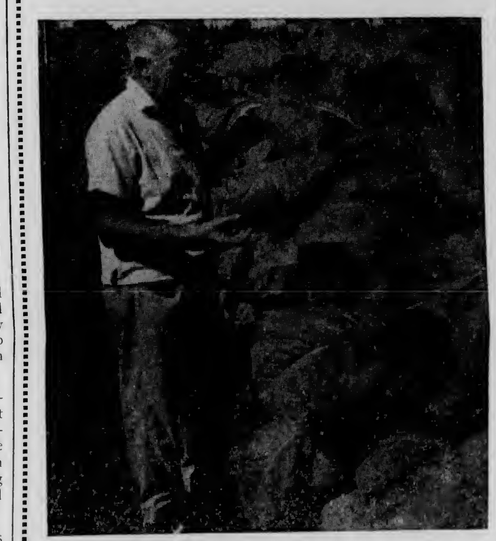
The gifts will be used in promoting agricultural activities, and showing films on, methods and techniques of farming.

The equipment will be under the care of the Audio Visual Aid section which is experimenting to find the best way it can be put into use.

It will be used in Tongatapu for a start, on a trial basis, but later it will be taken to other islands.

Last week the equipment was set up for demonstration in Fā'onelua Garden. The picture shows the Director of Agriculture, Mr John Pitman and the officer in charge of Audio Visual Aids, Mr S. Fonua, checking the film projector.

Ready For The Big Smoke



Guilio Masasso of Tokomololo admires his new crop of fine-leaf tobacco, grown from American seed given to him by a prominent overseas tobacco company to try out in Tonga, and now is ready for picking.

He has 1¼ acres of the new tobacco but hopes to have 40 acres eventually. It grew in 90 days, thanks to good rain and the right amount of sunshine.

From 2 tons of green leaf, Guilio expects to get 500 lb of dry leaf which he will sell locally.

He already sells twist of a dark tobacco which is popular with many local smokers. This is produced from a heavier leaf.

Red Cross News

A card evening at the home of Mr and Mrs Dan Tufui last Friday night raised more than $65 for the Tonga Red Cross.

The Red Cross Committee wishes to express its thanks to Mrs Jean Tufui and all those who helped with the evening.

Tourism Lashed

A freeze on all tourism development in Fiji was called for by the Rev. P. K. Davis (45), a former president of the Methodist Church in Fiji who left at the weekend after 20 years service there.

Mr Davis said in an interview with the Fiji Times that the "spurious stimulus" tourism gave to local culture "has the quality of a hothouse about it."

"It tends to be destructive of genuine national development", he said. "It is forced and artificial.

"My own view is that there ought to be a freeze on all tourist development for a while to give our society time to build up adequate social defences against the effects of tourism.

"We are going to find it increasingly difficult to build up right attitudes to work among our young people, who will be living in a kind of perennial holiday atmosphere because of tourism."

He said Fiji might be killing tourism by allowing it to develop too quickly.

Time For Freeze On Children's Pocket Money?

Have your children asked for a pocket money rise lately? More to the point, have you agreed to the request and dug deeper into your purse or your housekeeping?

Ten or fifteen cents more a week might not sound very much. But according to the financial experts, you are contributing to inflation just as much as the employer who grants his workers a 25% increase.

In fact, children these days are actually getting more than that. While husbands are hard put to prise even an extra 10% out of their bosses, our sons and daughters, if we bothered to work it out, are probably getting away with up to four times that figure.

Indeed, according to the latest estimate by a British economist, the world's annual pocket money bill is running out at a staggering $5000 million—and it is increasing all the time.

Certainly, a recent survey of pocket money increases in the United States suggests that American trades unions might do well to have children on their negotiating panels.

IN EXCESS

Across the country, allowances on average are far in excess of the biggest union settlements — sometimes up to 50%—and certainly greater than the rise in the cost of living.

American TV producer David Susskind, for example, has just given his 16-year-old son Andrew a rise of 35%—bringing his monthly allowance to $85. And some parents are being even more generous.

One thing is for sure. Whoever is suffering from inflation, it's definitely not the children!

Ten years ago, pocket money in Britain probably totalled no more than $42 million a year. Now, according to a report just compiled by a publishing group, it stands at a staggering $267 million.

The British report goes on. "The number of children aged between five and 15 will pass the nine million mark this year. By 1980 it will have group to more than 10 million. This the age group will increasingly wield significant spending power."

Where does all this money go? Who is benefiting from all this adolescent affluence?

In Britain—and the pattern is the same elsewhere — it is the sweet and ice cream manufacturers who come off best, sharing between them some $51 million.

Nearly $15 million is spent on magazines, papers and comics, and a further $6 million goes on books.

Children between five and 12 spend nearly $8 million a year on toys and games, while the 13 to 15 age group spend nearly $12 million on clothes.

Cosmetics account for $6 million and cinema visits nearly $12 million, while the boys spend $6 million on watching sport, and almost $2 million on stamp collecting.

BETTER OFF

The survey covered only the pocket money of children up to the age of 15. Older children still ,at school are, apparently even better off. Sixth-formers get at least six times more than the average allowance of the under-15s.

Shell Oil chief David Haven Barran who, at $154,000 a year, is Britain's most highly paid executive, certainly doesn't believe in matching his children's pocket money to his own salary.

His eight-year-old daughter gets 7c a week, his 10-year-old son gets just 2c more, and his eldest daughter who is 11 gets 21c a week.

Explains Mr Barran : "It's not that I am mean with pocket money. But I have a philosophy for the younger ones.

"I don't want them to think they should have special treatment because they are in a high-earning family. So I have decided that the youngsters should have a penny for every year of their lives. But it doesn't often work out like that because hardly ever have the right change."

PEN WRITING

Admitted To Wesleyan Colleges

The following candidates succesfully passed the Primary Entrance Examination for admission to Wesleyan Secondary Colleges in 1972.

Since some candidates may have been selected by other schools, all who wish to enter a Wesleyan college should register with the principal of their intended college or at the Church Offices at Neiafu, Pangai, 'Eua, Niuas and Nuku'alofa.

Registrations are to be accompanied by a $1 non-returnable registration fee which will be deducted from the 1972 fees.

TUPOU COLLEGE

GPS Haveluloto— Fatani Tavake Tuita, Fineasi Fonua, Feletika Wolfgramm, Kipiloti To'i Pale, Sioeli Pongia Mailau, Sualesi Fosita, Tevita Kaitu'u Fotu, Tevita Paipa Kaho.
GPS Nuku'alofa— Siosifa T. Fifita, Viliami M. 'Umufuke, Salesi Palu, Lainolo Faletau.

'THE SPY WITH A COLD NOSE'

A comedy starring . . .
Laurence Harvey, Daliah Lavi and Lionel Jeffries.

LOCAL PRODUCERS WILL GET T$3.70 A TON LESS FOR COPRA THIS MONTH

The price of copra for December has decreased T$3.70 against the price for November, the Tonga Copra Board has announced. The price of coconuts will be maintained at 1.2 seniti a nut.

During December, the local prices to be paid to copra producers throughout the Kingdom will be:

First grade, T$70.70 a ton.
Second grade, T$58.70 a ton.

The board said it regretted that because of the depressed state of the market, it had no alternative but to decrease the price.

The uncertain state of the world copra market was reflected in the market prices for the period October 16 to November 15, the period on which the local copra prices for December were calculated.

There were fluctations of up to US$4.50 between one day's price and the next, and on November 3, the market hit its lowest level for a long time at US$159.50 a ton. This same price was quoted for November 16, 17, 18 and 19.

The board's statement said it was virtually impossible to predict whether the present depressed state would continue for some time of whether prices would improve.

There had been active trading in copra and as the European market was flooded with the product, there was a rapid decline in prices.

Tonga's last shipment of 1200 tons on the "Laganbank" was sold for T$138.03 a ton which was T$9.63 less than the price on which the November local price was calculated.

Royal Patronage

His Majesty King Taufa'ahau Tupou IV named a reef-viewing boat "Palolo" for the Tonga Tourist and Development Co. Ltd., on Saturday and later the boat went to Pangaimotu to bring Her Majesty, Queen Mata'aho back from a fishing trip (see picture)

The boat, which is made of fibreglass has a glass-bottomed well through which passengers can see beneath the water. A distinctively colourful canopy keeps off sun and rain and beneath this are suspended two canoes.

The boat will be used on Nuku'alofa harbour along with a Skitug for which His Majesty is choosing a name. This will be used for cruising and waterskiing.

His Majesty Confers Degrees In Fiji

The first graduation ceremony at the University of the South Pacific takes place in Suva today. Degrees and diplomas will be conferred by the Chancellor, His Majesty King Taufa'ahau Tupou IV who left Tonga yesterday for the ceremony.

Seventeen students will graduate with degrees and 17 will be awarded with Diplomas in Education. Teachers who have successfully completed the programme in technical teacher training will be awarded Vocational Teachers Certificates.

Graduands include students from the Co[illegible] for s, the British Solomon Protectorates as well as Tonga.

The ceremony begins with a procession of graduates in full academic dress. The Pro-Chancellor Masiofo Fetaui'malemau Mata'afa of Samoa will then give a report covering the first four years of the university's development.

The main address will be given by His Majesty, after which the degree and diploma certificates will be conferred.

The ceremony will also mark the introduction of the university's new academic dress-gowns in lightweight tetron/cotto.. of tapa brown colour with hoods of various colours according to the degree held.

Their Majesties were given a ceremonial farewell at Fua'amotu airport yesterday and were met at Nausori Airport by the Governor-General of Fiji and Lady Foster, the Prime Minister Ratu Sir Kamisese Mara and Adi Lady Lala and an university party.

Shortly after arrival, Their Majesties left for Ratu Sir Edward Cakobau's home where they are staying.

Before the graduation ceremony today Their Majesties will be touring the university campus and meeting members of the staff and students.

Their Majesties return to Tonga on Saturday.

Prisoners Still At Large

Two prisoners, Puna Sione Kuli (21) and Luke Hafoka (21) who escaped from a work party at Matatoa on November 12, have still not been found.

A search party of police and prison staff are hunting for the two men but there have been no reports of their whereabouts.

The public is asked to help by reporting any sighting of the prisoners to the nearest police station or policemen.

WESLEYAN PASSES

Additional names of students who have passed the entrance examinations for admission to Wesleyan colleges. Other names are on Page 11.

This And That

CHRONICLE DIARY

* * *

With the advent of Christmas and misinale, palangis are being badgered to buy handicrafts. We know of one expatriate who had four salesman at his door on Saturday, one of them at 6.30 in the morning. Needless to say he did not get a good reception. We also hear that the handicraft selling pests at the hotel are just as active as ever.

* * *

The Anglican Bishop in Polynesia, the Rt. Rev. J. T. Holland and Bishop Fine Halapua were going to Ha'apai on Monday, but when they got down to Queen Salote at 6.30 am the "'Olovaha" was on the horizon. They learnt the hard way, like many other people, that the timetable has changed during the summer months to 6am, not 7am. A service and feast which had been specially arranged for Bishop Holland's visit had to be cancelled.

Travellers from Nandi to Tonga, or even Nausori to Tonga, by Air Pacific don't qualify to buy from a duty free shop. Apparently Fiji doesn't consider Tonga as being an overseas country.

* * *

It's a sobering thought that only two out of every 10 boys and girls leaving school this year are likely to find a job.

* * *

On the subject of crash helmets for motorbikes, we learn than one firm is selling helmets at the ridiculous price of T$25. Is there a Tongan who can really afford that and a motorbike too.

IKU'ANGA 'O E LEA FAKA - TONGA

Fa'u 'e Futa Helu

I he lolotongá ni 'oku tō ha fu'u fakamamafa ki hono ako'i 'o e lea 'Ingilisí 'i he ngaahi 'apiako 'i Tongá ni. Kuo fa'u 'e he ngaahi kolisi, ako mā'olunga, ngaahi ako si'i 'a e ngaahi koosi kehekehe 'o fakahangahanga ki hono faka'ai'ai 'o e fakahinohino 'o e sapuseki kotoa pē 'i he lea Pilitāniá. Kanoni'aki ia 'a e 'oho mai hangē ha fu'u peau 'a e ngāue 'ofa ta'e fa'alaua ko e taumu'a kotoa pē ki he tenge 'etau fānau nkí 'aki e lea 'Ingilisí.

'Oku tefito 'a e hoha'á ni mei he tui ko ia tokua 'o ka te fie lava 'i he ngaahi sivi, kuo pau ke te ako 'a e 'Ingilisí. Neongo 'oku ai ha mo'oni 'o e fakakaukaú ni, ka ko e tupu ia mei he ngaahi fetūkuaki 'a e mafai fakapolitikale, 'o 'ikai ko ha lelei mavahe 'o e lea Pilitāniá; pea 'oku toe 'i ai foki 'ene lanu kehe 'a e tuí ni 'i he 'atamai 'o e kakai Tongá 'o pehē, 'ilonga ia 'oku poto he kotekoté ko e toki tama ia 'oku tō atu 'i he 'atamai matalā mo e 'uhinga loloto kae 'osi mahalo ko ia e ma'ulalo taha he ongo me'a ko iá.

Ka neongo kuo fai heni hono fakakaukau'i pe 'e fakalaka fēfe'i 'a e 'Ingilisí 'i hono lea 'aki, tohi 'aki, fifili 'aki, kuo te'eki 'aupito ke vaka'i 'e he kau faiakó mo e kau taki; ako 'o e fonuá 'a e me'a 'e hoko ki he lea Tongá tupu mei he i'u'u 'ohofi faka'aufuli ko eni 'o e 'Ingilisí. Ko e hā e ngaahi liliu 'e hoko ki he fōtunga e lea Tongá tupu mei he fu'u taufetuli ko eni ki he lea Pilitāniá? 'E hoko e ngaahi liliu ni ko ha me'a ke fakatāsili pe ko e fakavaivai i 'o e lea Tongá?

Ko e tali fālahi kuo fai ki he 'uluaki palopolemá – pe 'e fēfē fakalaka e 'Ingilisí – ko e pehē pē ke fekau e fānaú ke nau lea noa'ia 'i he ngaahi lea kehe, hangē ko e Penitekosi, pea 'e hū fakamisiteli mai, hangē ko e Laumālie Mā'oni'oni, 'a e potó kiate kinautolu. Ko e fakamo oni mahino eni – 'a e 'ikai lava 'e he 'etau kau-fai kalama mo e kau faiako leá 'o tuhu'i mai 'a e 'elito 'o e palopolemá ke hoko ko e kī ki he ako'i 'o e 'Ingilisí – 'oku 'ikai ha'anau misi 'e taha ki he me'a 'oku nau faí. Kae kehe, ko e palopolema 'e tahá, 'a e iku'anga 'o e lea Tongá (kuo te'eki 'inasi ai ha ngaluolua 'i he vaha mohe mo e potu taha malū 'o e 'atamai si'etau kau faiako leá.

'Oku talanoa mai 'e he hisitōliá ha fo'i kuonga 'e ua na'e hoko ai ha fekuki 'i he vaha'a 'o e lea fakafonua mo ha lea kehe, 'a ia ne fakahū mai 'e ha fa'ahinga ta'e fakapotopoto ke ne puhi'i 'a e ulo'i afi pelepelengesi 'o e lea 'a e kakaí. Ko e 'uluaki 'a e lea 'Italí he'ene milimilisino mo e lea Latiná mo hono hanga 'e Tanité 'o 'aofi mo fakamo'ui e lea 'Italí. Ko hono ua 'a e 'Ingilisí pē, he kuonga ne fenuki ai 'a e Latiná mo e lea Falanisecé (hono fakahū atu 'e he kau Nōmaní) ke lolo 'a e lea Pilitāniá. Kae mālie kuo fanau'i ha ongo punake ko Langileni mo Sosa ke na kilala hake 'a e lea 'a e kakaí mo fakahanga e mata 'o e kuonga ko iá ki he ngaahi me'a fungani 'o e lea 'a e kakaí. Me'apango ko e kau punake 'o Tonga he 'aho ní 'oku 'ikai ke nau 'i he tu'unga 'o Tanité pe ko Sosa. pea ko e tokoiahi foki 'oku nau femo'uekina he fo'i ngāue ko e fetāngihi mei he ZCO pea ko e koto fakapiko ha falala ke nau tokoni mai ke malu'i e leá. Ko ia ai ko 'etau 'amanaki 'oku 'i he kau faiako leá pē, 'i he ngaahi founga te nau ngāue'aki ki hono faka'uli holo 'etau fānau mo fakafuofua'i 'a e fu'u huhu'a ta'e fakafuofua'i ko eni 'o e lea muli ke fulutāmakia ai 'etau lea totonú.

Ko e taha 'o e ngaahi koloa mahu'inga taha 'a ha fonua ka ko 'enau lea koe'uhi 'oku ha'i mo tāvani fakatahe ai 'a e sivilaise, ngaahi taukei, ngaahi fiefia mo e 'amanaki lelei 'a e kakai ko iá. Kuo lahi e ngaahi kakai 'oku tupu 'enau faingata'aiá ko e mole e fonuá pea toe hē mo e leá. 'Oku hā mahino eni he si'i kau Mauli 'o Nu'u Silá. 'Oku nau lolotonga tau 'i ha feingatau mālō mo ngalito'a ke toe fokotu'u fo'ou 'enau sivilaisé, kae me'apango kuo lau e fala 'o e kau Maulí ia he ko e maka-tu'unga fakapolitikale 'o e sivilaisé kuo māvae ta'engata ia mo kinautolu, pea 'ikai ko ia pē ka 'oku nau ngāue'aki 'a e me'atau hala – loto sauni mamahi. Ko ia kuo 'osi pau pē he'ikai lava si'enau feinga ko e me'a fakapoto pē te nau lava 'o fai pea 'ikai 'aonga ki ha taha.

'Oku 'asi heni 'a e monū'ia 'a Tonga 'i he kei hoko 'ene fuká ko e fakama'unga 'oku ne 'uuni mo ha'i fakataha 'a e loto'i Tonga kotoa pē pea mapuna mei ai 'a e fietangata 'o poletaki, 'a ia ko e makatu'unga tapuhā 'o e sivilaise kotoa pē. Ko e mahu'inga fakasivilaise ia 'o e tu'i.

'Oku ou fie ui he tohi ni ki he kau faiako mo e kau punake mo kinaetolu kotoa 'oku 'ofa he sivilaisé ke tau tu'u hake o fai fakapotopoto hono fakatau mo e fakahū mai 'o e 'Ingilisí, pea ke tau fa'u mo ha tute malu'i ke ke ta'ofi 'a e mahua ta'e fakafuofua mai ko eni 'o e 'Ingilisí ki Tonga ní, telia na'a ne kapasia 'e ia hotau māketí.

5. How has India offered to help Tonga? (Page 10).
6. It has nine storeys and 777 beds. Where is it? (Page 10).

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, December 9, 1971 Vol. VIII. No. 27 3 Seniti

Government Asked To Consider Changes On Six Issues

Six recommendations have been put to Government by the Nuku'alofa Chamber of Commerce "in the interest of the commercial sector of the community and for the overall long-term benefit of Tonga as a nation."

No reply on the recommendations has yet been received from Government.

The Chamber said in their report that their intention was to be positive and constructive and in no way derogatory to the present system.

"Change is inevitable and this Chamber hopes to encourage changes for the better through constructive recommendations to the Government on issues which they might otherwise not have the time or the opportunity to consider," the report said.

Recommendation 1: That the Government give serious consideration to the introduction of some form of worker's compensation insurance on a national scale.

In support of the recommendation the Chamber said that with an increase labour force and the probable development of secondary industries, the need to provide some form of security for workers in the event of industrial accident appears to be paramount. It could be financed by an annual levy on all employers.

Recommendation 2: That poultry be considered as fresh meat for import duty purposes.

Poultry is no longer a luxury item; it has become a basic protein food with prices below the better cuts of beef and pork, the report said.

The effect of the recommendation on local poultry growers was likely to be favourable as a more readily available supply of poultry would encourage poultry eating as a basic meat rather than a luxury as at present.

Recommendation 3: That a form of tax incentive be offered to encourage capital investment in new building and other development expenditure.

Recommendation 4: That consideration be given to liberalising the present of duty-free trading in Nuku'alofa.

The Chamber report said the present system of ex-bond store sales of cameras, household appliances and liquor is too slow and cumbersome and unnerving to the tourist. Nobody likes to hand over their money first and have to wait until the ship has sailed to discover whether the goods they purchased were put on board the ship or if the merchandise is in good condition.

"The Government's continued monopoly on the sale of radios is a further restrictive practice which will hamper the development of Tonga's tourist industry," the Chamber said.

Recommendation 5: That measures be taken to obtain a more favourable balance of trade with supply countries.

Every effort should be made to get New Zealand and Australia to relax their import restrictions on Tongan handicraft, the report said.

Recommendation 6: That a town planning committee be appointed to approve all new buildings erected in Nuku'alofa township.

Shipshape Again

The Norwegian freighter "Lorena" sailed from Nuku'alofa on Tuesday evening for the Cook Islands after being here since November 3 for repairs. It was the biggest engineering undertaking in the Kingdom and was carried out by the Marine Department.

The final cost has not yet been announced, but T$15,000 deposit has already been received by the department.

The "Lorena" broke down while on charter from New Zealand to the Cook Islands with a cargo of frozen meat. It was taken in tow by the "Hifofua" about 480 miles south of Tonga and brought to Nuku'alofa for repairs.

The original cause of the breakdown was the "Lorena's" thrust bearing, but the damage was greater than expected and involved major repairs to the gear box.

ESCAPED PRISONERS CAPTURED

Two prisoners who escaped from a working party at Matatoa on November 12, have been captured by the police.

Luke Hafoka, was picked up on Saturday night by Constable Laungāue when he and Puna Sione Kuli the other escaper, were walking along the road at the village of Afā. Kuli ran away on his own.

Kuli was picked up yesterday morning by Corporal Vunipola and members of the Police Mobile Unit, while he was walking along the road between the village of Niutōua and Afā, not far from where Hafoka was caught.

Both prisoners were unarmed when captured. They were not wearing prison clothing.

Police Swoop On Islanders

Police rounded up for deportation more than 30 illegal Pacific Island immigrants in raids on homes in the Auckland area on Tuesday, according to a Radio New Zealand news items yesterday.

Organised smuggling of Islanders into New Zealand was believed to be going on and it was suspected that the Islanders were being dropped off from small boats along the coast between Whangarei and Auckland.

The news item did not say if any Tongans had been picked up by the police.

"DEAR SIR..."

Letters to the Editor.

Tongan Language

Dear Sir. — With reference to Futa Helu's article "The Fate of the Tongan Language", it sounds like Futa is falling into the same trap as many philosophers, anthropologists, and colonial administrators who want to preserve "native cultures" as if they were in fact biological museums where "educated" people can view worlds of the past.

The fact is that Tonga and its people are facing the world of 1970's. A great majority of the people subsist on green bananas and manioke (it is used to be a disgrace to have manioke in one's garden) and supplement their diet with inferior quality mutton, canned fish and beef plus other imported foods.

The standard of living is getting poorer and many Tongans are emmigrating or try to emmigrate to New Zealand, the USA and other places.

The Tongan people face a very limited island environment and only through education can Tongans, especially the leaders, improve the standard of living.

By education, I mean the teaching of the ability to think, to solve problems, and to know where and how to find needed information.

I disagree with Futa's statement the "the motive behind all this commotion about English is the belief that to pass examinations one must learn English.

The fact is that there are very few books, if any, on fields such as agriculture, economics, medicine, politics, teacher training, navigation, fishing, nutrition, mathematics and arts, written in Tongan, and if an intelligent Tongan wants to educate himself he must be able to read and or speak a language such as English, German, Russian or French.

English seems to be the logical choice for Tongans as they have been exposed to it off and on for almost two centuries, and many of their neighbours use the English language.

The most important use of English then is to be able to educate oneself by reading or speaking with others.

By learning a second language it does not necessarily mean that one forgets his mother-tongue. Futa Helu is a prime example: by learning a number of languages other than Tongan he has been able to educate himself through reading and conversing with people of other cultures, and subsequently has contributed a great deal to improving Tongan. Nevertheless, he still remains one of the most eloquent of Tongan orators.

Most of the worlds great intellect have been bilingual or polylingual, and for Tongans to be bilingual Tongan - English speakers can only enchance their survival as "true-Tongans."

Learning a second language is not an easy task especially when young children do not realize how important it will be to them in the future. The teaching of English requires great hours of practice and instruction and the teaching of it, even if by coercion, in the schools of Tonga, is doing the Tongan people a favour and not trying to ruin the Tonga culture.

Unless Futa Helu can translate all of the education materials needed by Tongan children and professional people, English should be emphasised with even greater rigor.

Even at Tonga High School, supposedly the best in Tonga, the sixth form students, after 7-9 years at the school still can not understand the text books.

The illogical conclusion seems to me to be that teachers must be even more insistent on speaking English at school (because most students speak only Tongan at home). Only by doing so can young Tongans educate themselves so they can help to improve the standard of living. An improved standard of living seems to be of much greater important than setting up Tonga as a cultural museum of the past

..... sio atu.

R. THAMAN.

* * *

Dear Sir. — I would like to take the opportunity through your column to reply to Mr Futa Helu's contribution on "The Fate of the Tongan Language".

This kingdom needs, and must have for its future well-being, qualified and experienced Tongan people in the fields of education, medicine, agriculture, administration and the trades. Such higher levels of training required by these young people are not at present available within the Kingdom, thus necessitating overseas training. In order to qualify for entry into technical institutes, universities and trade training schemes abroad, Tongan pupils must sit overseas entrance examinations conducted in the English language. These examinations are largely competitive in nature, and thus Tongan pupils face the severe handicap of competition in a foreign language with New Zealand and Australian secondary school pupils, for entrance into these institutions of higher learning.

Mr Helu expresses his concern over the effects of what he calls "an all out effort for English" on Tonga's own native language.

I would like Mr Helu and other readers to consider the effects upon this Kingdom of a constant failure in the overseas training of Tongan students, owing to poor mastery of the English language; of failure to provide much needed Tongan doctors, **Tongan engineers,** Tongan teachers, Tongan administrators and Tongan tradesmen. The effects of such a failure would soon spell economic disaster for the Kingdom of Tonga.

On the other hand I am not envisaging an English speaking Tonga. This would be foolish. The future of Tonga linguistically as I see it is a bi-lingual or multi-lingual nation, and the world offers many successful examples of these: Russia, China, Canada, Switzerland, and the Republic of Eire, to name a few.

English to Tonga is vital, not only for the reasons given above but also for communication with the world around us, be it communication through tourism through business and trade, or through the channels of political intercourse. No longer can a nation, even one as small as this isolate itself from the affairs of the rest of mankind.

On one point however I do agree with Mr Helu. Of equal importance to the future of this state is the Tongan language, and this must not be neglected. Through the language of a people is carried their history, their folklore and their traditions, through language comes true national pride and national identity. A people who lose their language lose their identity.

I cannot foresee, however, any fear of this happening to Tonga. Unlike the situation in New Zealand quoted by Mr Helu, Tongan people here are in the majority, and this is your country. The language of government and administration is Tongan, the language of law is Tongan, of business and daily intercourse is Tongan, and will rightly so remain.

Mr Helu, you are bilingual, you speak and write fluently in both your native tongue and in the English language. Do you feel that your command of a foreign tongue has had a detrimental effect on your "Tonganness"?

DOUG JENKINS.

Copra Prices

Dear Sir. — May I ask why there has been a long delay in informing the growers who are engaged in making copra of the T$3.70 decrease in the price of copra a ton for the month of December.

The Acting Manager was fully aware of the precarious position of the prices for the copra in the Overseas Market and yet he neglected to inform the growers so that they may be able to sell their copra before the end of November.

The Acting Manager just announced on the eve of Tuesday, November 30 there would be a drop of T$3.70 a ton in the price of copra for December. Subsequently the A grade would be T$70.70 a ton and B grade would be T$58.70 a ton.

Whatever the reply by the Manager on this long delay, which is his responsibility, I would like to express to the representatives of the growers who are members of the Copra Board, that whenever there is an indication of a drop in the price of copra, please try your best to communicate it to the growers in time.

The T.C.B. is a public organisation and it is only fair that the coconut growers be informed fully of what is going on in the board.

The new prices are most depressing to the coconut growers and I am afraid this may result in a set back in the implimentation of the new coconut replanting scheme.

The attempt made by the growers to export nuts overseas is due to lack of financial resources since all activities nowdays require money. Is it right to penalise a local grower who attempts to improve his standard of living and the economic standof his country?

Is there anything such as reserved fund for regulating prices of copra or it is a mere whim.

VILI HINA (W. P. Wight).

The following editorial comment on the first graduation day at the University of the South Pacific appeared in the Fiji Times, last Thursday.

FIRST GRADUATION DAY OF U.S.P.

This is a memorable day in the history of education in Fiji and in the South Pacific.

The first graduates of the University of the South Pacific will receive degrees and diplomas from the Chancellor, King Taufa'ahau Tupou of Tonga.

Although the first local university graduates, these are not the first students from South Pacific countries to complete in Fiji courses in higher education.

The Fiji School of Medicine, from humble beginnings, has long been providing medical and dental courses, of increasing completeness and rising professional standards.

Derrick Technical Institute and Pacific Theological College have been providing courses that take students to a level where they can qualify for certificates of achievement that are internationally recognised.

These, together with facilities for teaching and nursing training, all add up to an impressive array of opportunities offered to young men and women in the South Pacific to qualify for professional and technical responsibilities at senior levels.

The University of the South Pacific has had its teething troubles. It still has them.

Its financial future is far from being assured.

Generous grants of buildings, equipment and money have come from the United Kingdom, New Zealand and Australia, and from commercial bodies and individuals.

But South Pacific territories other than Fiji and Nauru are in no position to contribute on any significant scale to the cost of maintaining the university, and the danger that looms is that some day the metropolitan sources of money will dry up, and Fiji will be left with the major burden of financing the university's continued existence.

Quite clearly, there is a continuing need for economy in both capital and recurrent expenditure and a good deal of missionary spirit on the part of administrators, staff and students.

The university has stretched out some tentative fingers to explore the special problems and circumstances of the South Pacific.

This is a process that should continue, with the eventual aim of making the university the place above all others where the South Pacific, in all its aspects, can be effectively studies, or where such study can be based.

Today's ceremony marks the first appearance of the Chancellor at the university in his official capacity.

King Taufa'ahau Tupou has an outlook on life that could well be taken as a model for the spirit that should inspire a university set in the South Pacific.

He is a constantly inquiring mind that leads him, with unbounded enthusiasm, to study aspect after aspect of knowledge, from mathematics to agriculture, from fishing to music, from football to teaching methods, studying each assiduously and then adapting what he has learned, with ingenuity and originality, to South Pacific life and conditions.

He is the spirit that moved the versatile "universal men" of the Renaissance, that rebirth and upsurge of learning that transformed Europe in the 15th and 16th Centuries.

It is the excitement of gaining knowledge, testing its truth and its value, and then adding to it in company with fellow scholars, that gives life to any institution of learning.

Today's graduates are the first of what will be, hopefuly, a long line of South Pacific university students who will savour that excitement, to their own benefit and that of the islands in which they live.

TONGA HIGH SCHOOL PRIZEGIVING

Plea To Complete Memorial Hall

An appeal for a revised plan of the Queen Salote Memorial Hall was made by the headmaster of Tonga High School, Mr L. G. Hyett in his report at the school's annual prizegiving last Thursday. "It looks more like a ruin than a memorial", he said.

Mr Hyett asked whether a revised plan could be devised whereby a three-stage project could be undertaken, both by Government and the people of Tonga.

On the present foundation, but as Stage I of a revised plan, could be a library which was "desperately" needed in Nuku'alofa. Mr Hyett said if a librarian could be appointed then the school could assist the library.

Stage II of the project could be a hall, which would not only be a necessary amenity for the town, but the school is in need of an assembly hall and an area where team teaching or large-scale instruction could be undertaken.

A third stage of the project could be a museum which would preserve relics of Tonga.

Also in his report, Mr Hyett, said he was concerned that so many students with successful academic records in Tonga were unable to meet the demands made on them overseas.

Mr Hyett spoke of two aspects of policy that helped make a well-run school yet allowed pupils some freedom in making decisions.

First, smaller classes were necessary, he said. Senior classes especially the fifth forms were too large.

Second, was need for constant re-selection of pupils. Students who could not cope with academic work must be redirected to a school that would provide them with courses more suitable to their talents.

"Pupils who cannot govern their behaviour and work habits would obviously be better off somewhere else", Mr Hyett said.

Equal top students at Tonga High School, Mele Kamoto and 'Ofa Tu'Fonetoa, are presented with their awards by Princess Siuilikutapu at the annual prizegiving night last Thursday.

AS OTHERS SEE US . . .

Lessons From Tonga

REPRINTED FROM THE MORMON "CHURCH NEWS", SALT LAKE CITY, UTAH.

Tonga is probably the smallest nation in the world. It is a kingdom, and has a population of only 80,000. But it can teach the rest of the world some important lessons.

Compared to other nations with populations running into the millions, this little kingdom doesn't influence world conditions to any great extent. But it could do so if the major nations would look to its virtues and emulate them.

Tonga is sincerely Christian at heart. And what are the significant points of evidence?

First and foremost, she observes a sacred Sabbath. There are no movies shown anywhere in the nation on Sunday. No business houses are open and no buses run on that day.

Her people go to church. Various denominations are represented there, and the people have complete religious freedom. The chapels of all faiths are full. Meetings begin early on Sunday morning. Others are held during the day, and some late at night. Invariably they are well attended.

MODESTY OF dress is the rule in Tonga. The only knees to be seen there are those of the American women tourists who become curiosities themselves as they walk about in mini-skirts where the women of the community wear ankle-length gowns—beautiful gowns—and stylish. Many look almost like evening dresses worn in America, only the Tongans use them for home and street wear.

Loyalty to their government is remarkable. They love their flag. There is no rioting in that land, no flag-burning, no protest marches. They sing their national anthem with fervor and revere their king.

The Tongan islands are not called the Friendly Islands for nothing. Friendliness is an accurate description. If loving one's neighbour, and sharing with him, is a Christian virtue, then these people are Christians in very deed.

IF HOSPITALITY is an expression of the Golden Rule then they obey the Master's command in great detail.

If enforcement of the law is a deterrent to crime, the Tongan police can take much credit for the low crime rate in that land.

It wasn't the size of the widow's mite mentioned in the scripture that brought forth the commendation of the Saviour, it was the whole-hearted attitude of the giver.

It is not her economic or military power that makes little Tonga outstanding among the nations of the world, for she boasts of no greatness in either line. It is her acceptance of God and the Sabbath, and the way her people try to obey the Golden Rule and otherwise live their religion that makes this land outstanding.

It is her willingness to put spiritual values above all else under the leadership of a king who will not relax his defence of Christian virtues to "keep up with the Joneses" in this modern day.

Can we learn a few lessons from Tonga?

What nations or individuals please God most, the mighty ones that flout His laws, or the humble ones that obey Him?

TDF PREPARED FOR MORE THAN WAR

The life of a soldier is not all training for war, as was shown at Camp Taliai on Sunday when the Tonga Defence Force conducted an end-of-the-year service of worship and entertained distinguished guests and families of the soldiers.

Speaking during the feast, the Commander of the TDF, Major R. McGregor, reviewed the work of the last 12 months and previewed the coming year. He said the past year had been one of interest because the TDF has been given new tasks and the introduction of a technical training scheme.

Apart from the purely military aspects, all ranks had been encouraged to take an interest in affairs outside the Army. Useful subjects taught at no cost to the TDF, had included first aid, operation of the telephone exchange, animal husbandry, carpentry, marine navigation, medical training, motor mechanics and the English language.

Major McGregor made special mention of Peace Corps volunteer Anne Losoff, who had taught English and also helped establish a library, all in her own time.

Early next year it was expected to begin the technical training scheme for 10 cadets. In January, three officer cadets would go to New Zealand for a 12-week course.

Most of the equipment ordered over the past 12 months, clothing and ammunition, was expected to arrive shortly. Major McGregor said, and it was hoped to take delivery of a patrol boat with the next 12 months.

Planned improvements were to build a new rifle range, new tennis courts and a swimming pool.

After the service and before the feast, guests were conducted around the camp. They were shown the renovated guardroom and training office, a new canteen and the technical workshop which had been completely refurbished ready for the training course next year.

As Major McGregor said, it had indeed been a year of progress for the TDF.

ENTRY LAW WON'T BE CHANGED

The Australian Federal Labour Party spokesman on immigration Senator Donald Willesee, says his party's immigration policy would not allow enough non-European people into Australia to upset "the normal balance of things."

Senator Willesee told the Senate that it did not matter whether people were "black white, brindle or Eskimoes," a Labour Government would not bring them into Australia "in such numbers that would upset the normal balance of things."

But Senator Willesee, speaking on the estimates committee report on the Department of Immigration, said that a Labour Government would change the system applying to visitors between Australia and New Zealand.

At the moment, any Australian could go to New Zealand irrespective of his racial background.

But New Zealanders of extractions other than European and Maori "had to get visas before entering Australia.

INFORMATION

VACANCY

Applications are invited for the post of Senior Executive Officer in the Ministry of Foreign Affairs which it is anticipated, will fall vacant in July, 1972. The salary scale for the post is T$1326 x 96 - 1710PB 1830 x 120 - 1950. Applicants for this vacancy should posses good educational qualifications, and preference will be given to candidates with a degree from a recognised university. Government officers who are interested in applying, and who possess a good educational background and experience must submit applications through their heads of departments.

All applications must be forwarded together with copies of qualifications and testimonials to reach the Secretary, Civil Service Staff Board, Prime Minister's Office, Nuku'alofa not later than 4.30pm Monday, January 17, 1972.

TO ALL USERS OF LIQUID GAS

The Tonga Construction Company advise users of liquid gas that the Havelu filling station will be closed between Christmas and New Year, from 4.30pm, Thursday, December 23, 1971, until 8.00am, Monday, January 3, 1972. During this period no gas will be issued.

For the convenience of customers who still have only one cylinder, a second 25lb bottle is now available against the usual refundable deposit of $10.

FOR SALE

One adult-size man's bike with baby seat, and one child's push chair; both items in good condition; R.T. Knowles No. 3, Havelu.

THE CAMERA CLUB OF TONGA

Next meeting, Monday, December 13 at the home of Mr & Mrs J. Nicolle, Railway Road. Talk by Mr R. Thaman, night photography. February competition: monochrone "Indoors" and colour "Tongan Spectacular".

Janet Madill,
Secretary.

RED CROSS BAZAAR

There will be a Red Cross Bazaar for the sale of children's clothing in the Red Cross Hall, commencing at 8 o'clock on Saturday morning December 11

EXPORTS OF PRODUCE TO FIJI

Notice has recently been received from the Secretary for Agriculture, Fisheries and Forests in Fiji, that no produce of Tonga will be permitted into Fiji without an import licence.

Applications for an import licence should be addressed by the exporter or his agent in Fiji to :

The Secretary for Agriculture,
Fisheries and Forests,
Department of Agriculture,
Suva, Fiji.

in which is stated the type of produce intended to be exported, the quantity and the addressee.

In addition to the import permit, the Fiji authorities also require that all produce is completely free of all soil, and is packed in clean new containers not previously used for any other purpose.

The import permit will state the treatment required prior to shipment, and no produce for Fiji will be accepted by the Department of Agriculture, in Tonga for inspection or fumigation without a valid import permit from Fiji being produced.

In general the requirements are :
Handicrafts, Costumes and Handicraft Raw Materials - -

Free of borer and subject to inspection on arrival; if feathers included, fumigation prior to shipment and accompanying certificate.

Foods - -
Root Crops :

Yams and Kumala	Free of all soil fumigate before shipment certificate to accompany and inspection on arrival
Taro	prohibited
Fruit	prohibited

Fumigation can only be carried out at Queen Salote Wharf, Nuku'alofa, or Neiafu wharf, Vava'u.

J. H. N. Pitman,
Director of Agriculture.

Fined For Interferring With Tap

Manase Taulanga of Vaini was fined 50 seniti by magistrate Hingano Helu, at the Mu'a Magistrate Court on November 26, on a charge of replacing a water tap without the permission of the Water Board. Taulanga pleaded guilty.

The Court was told by the Board's representative, 'Uha'one Halaifonu, that he saw a leaking tap at Taulanga's home and demanded that it to be stopped. A few days later when Halaifonu was inspecting the water taps he found that the leaking tap had been replaced by Taulanga without the Board's permission.

The magistrate said the public should not interfere with the Board's water taps. His verdict was based on an appeal by the prosecutor, Health Inspector, Tevita Hēlame, as vandals had been interfering with water taps on the road side.

Land Court In Session

Sittings of the Land Court began last week with a heavy list of 38 cases.

Mr Justice Roberts said it is hoped to complete these by the middle of February after which the Supreme Court will go on circuit to Ha'apai.

What You Can Do With Just Four Days In London

By the Editor, Airborne in a BOAC 747 Jumbo Jet

Four days in London! How can you possibly do all you want to in that time? Obviously you can't, so you don't even try. You select just a few things and do them thoroughly or just go as the spirit moves you, being careful not to waste a second. I chose the latter.

I had arrived at London's Heathrow Airport along with 350 other people on a BOAC 747 inaugural flight from Sydney. It seemed like yesterday I was in Tonga, but it was really the day before.

Heathrow is several miles out of London but the motorway into town is fast and from the top of a BOAC double-decker bus you can see a long way.

Actually the trip was fast until we really got into the fringe of London then it was a slow grind all the way to the BOAC terminal in Victoria.

A taxi then whisked me to my hotel in the Strand. The London taxi is still the best in the world and so is the driver. You feel so safe and comfortable as the traffic skims by you on all sides, but the driver never gives a sign that he is in the least bit perturbed, except to bellow one of his inimitable expressions at the careless or inconsiderate motorist.

He also knows the quickest way between two points and before long he has navigated the tricky traffic and deposited you on the door of your hotel with a quick look at Buckingham Palace and the Mall on the way.

The hotel, with nine floors and 777 beds was right in the Strand, within walking distance of many of the points of interest and the theatres. Just "down the street" was Trafalgar Square and Whitehall; Covent Garden was around the corner and within a stone's throw was the Thames River.

It was 18 years since I had been in London, Coronation Year, but it was still all very familiar. The changes I was to discover.

After so many hours in the BOAC 747 the first thing I wanted was a shower and a change of clothes and then it was out to walk the Strand and find a theatre where I could still get a booking for that night.

It was Saturday and the shops were still open, and because it was Saturday night a theatre with one empty seat was hard to find. However, I did get a cancellation for a play and I was all set for may first night on the town in London.

What had changed in London in 18 years, like everywhere was the price of things. Meals and drinks had soared and even the cheaper eating places like Lyons were charging relatively high prices for what you got. Worse than this was the lowering of standards. Lyons service was poor and the quality of food and cleanliness of the eating utensils left much to be desired. It was certainly not how I remembered it.

But London is not the place to go if you want a cheap holiday. You have to spend money if you want to enjoy it, so it is worth being impoverished for a few months to savour fully the delights of the moment that London has to offer.

It was apparent many people felt this way because the hotel was full of tourists, most of them from the United States but also a lot from Germany, France and Holland. Even the odd Russian could be heard spoken in the hotel restaurants.

In my four days London, I was out to see as many good shows as possible and enjoy a symphony concert. This I did on Sunday night at the Festival Hall after a day which began with a walk along the Thames embankment straight after an early breakfast, being a spectator at the annual Rememberance Day service at the Cenotaph in Whitehall, having a meal at a delightful little pub in Chelsea right on the river front as the guest of BOAC and then walking all the way back to my hotel along the river to the Strand, via Westminster Abbey and the Horse Parade.

The pavements of London are hard on the feet

Another excellent play I saw was "Voyage Round My Father" at the Haymarket Theatre and starring Alec Guiness. Seated in the row in front of me in the audience were two other famous men of the theatre, Michael Redgrave and Noel Coward.

And before or after a show there was always a characteristic English pub to go to, like the Captain's Cabin off Leicester Square.

Christmas was coming to London. The famous decorations were just going up in Regent Street, but the shops were full of luxury goods of all descriptions. In Oxford Street the big stores were just as full of people and I was interested to note some of them had closed-circuit television cameras suspended from the ceiling spaced throughout the store scanning for shoplifters.

One whole day I spent as the guest of the British Aircraft Corporation who took a party of journalists to Filton, just out of Bristol, where the Concorde aircraft is being built.

Bristol is about 150 miles from Paddington Station, but by fast train we arrived in about an hour and a half. As I ate my breakfast in the dining car, the green and pleasant English countryside whizzed by.

We saw a Concorde being constructed and another on the aerodrome having engine tests. We also heard about the amazing amount of work and research which has gone into this aircraft of the future, but that will be the subject of another article.

Besides talking with the Tonga High Commission and meeting Tongans, one of the last things I did in London was to go to the Commonwealth Institute (which I will also be writing about) and visiting the House of Parliament. The High Commissioner, Baron Vaea was my host and arranged for me to sit in the Diplomatic Gallery. A debate on Ireland was in progress and one of the speakers was the young Irish M.P. Bernadette Delvin.

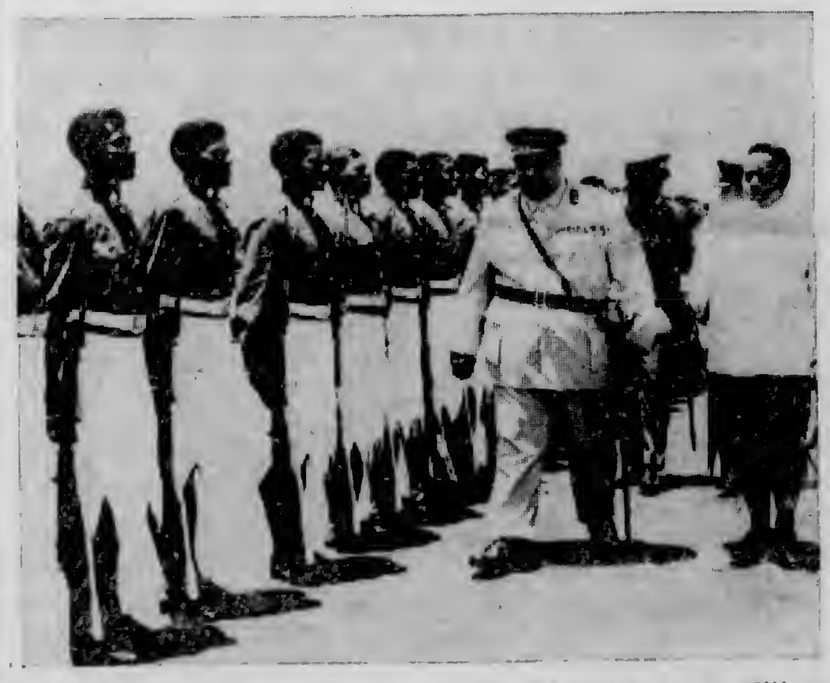
An exciting sidelight of getting to the House Parliament in the High Commission chauffered car was negotiating a huge crowd of demonstrating students outside Parliament.

Before I knew it my four days in London were up.

After last-minute shopping I was on my way to the BOAC terminal and then quickly I had completed the formalities and was in the double-decker bus speeding along the motorway back to Heathrow Airport where planes are taking off and landing every minute.

Soon my turn came to board the BOAC VC10 for the journey to Sydney via the Orient and eventually home to Tonga.

Fiji Guard of Honour



His Majesty inspecting a guard of honour of the Royal Fiji Military Force at Nausori Airport, accompanied by Major W. Masi.

His Majesty was in Fiji to confer degrees and present certicates at the University of the South Pacific's first graduation ceremony last Thursday. The King is Chancellor of the university.

Of the 33 graduates, 14 received Bachelor of Arts degrees, three Bachelor of Science and the remaining 16 Diplomas in Education.

(EDITORIAL COMMENT PAGE 3)

TALKS WITH KING ON INDIAN ASSISTANCE

The Indian High Commissioner, Mr Bhagwan Singh called on His Majesty King Taufa'āhau Tupou IV during the King's visit to Suva to confer degrees at the University of the South Pacific and was with him for nearly two hours. They exchanged views about the possibilities of India's assistance to Tonga in the field of setting up small-scale and cottage industries and also in training of Tongan personnel in technical fields.

The High Commissioner presented to His Majesty a 35mm print of the film on Their Majesties State Visit to India in October, 1971. Later, Their Majesties saw the film at a special screening at a mini theatre.

The High Commissioner also presented to His Majesty a tape containing the speeches delivered at the banquets held during Their Majesties' State Visit to India. Forty-two volumes of collected works of Mahatma Gandhi were also presented to His Majesty. During the visit to India His Majesty had shown keen interest in the philosophy of Gandhiji, the father of Indian nation.

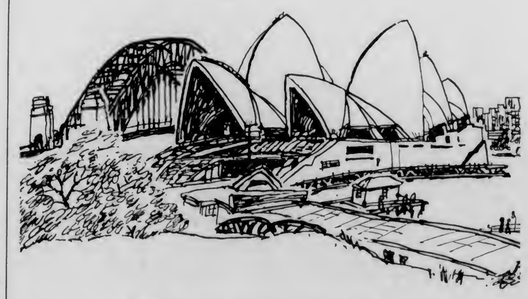
"I flew to Sydney from Nandi, and chose from five VC10 flights a week! Yes BOAC...."



For some people there is only one airline.

Go to Sydney via Nandi. Stop-over in fascinating Fiji or jet to Australia by the superb BOAC VC10.

Smooth and silent with its engines in the rear leaving the noise behind you, the VC10 flies five times a week to Sydney from Nandi. With BOAC's world-acclaimed international cabin service all the way.

Fly Fiji Airways to Nandi – and BOAC to Sydney, by VC10. See your Travel Agent.

BOAC takes good care of you

NEW SEARCH FOR HA'APAI TREASURE

By PAUA MANU'ATU

"I believe the three New Zealanders did find the gold-laden wreck of the English privateer, Port-au-Prince, off the coast of Ha'ano in Ha'apai in 1969," says Mr Joe Tu'ilatai Mataele.

Mr Mataele is leading and financing a new search for the treasure. He said he and Mr Charlie Orotera, a Japanese fisherman married to a Tongan girl, had permission from the Government to search.

"We have not yet found the gold, but we have seen something like strongboxes resting in the ocean floor covered by coral rocks.

"I'm not saying that what we had found is the treasure trove itself. But to prove it we have to get the right equipment to drag the box from the ocean floor because it is so heavy", Mr Mataele said.

The "Hifofua" would be useful in this if the Government permitted him to use it, he said.

He also requires diving equipment for his operation next month.

In 1969, three New Zealanders, all from Auckland, said they had found between 10 and 30 tons of bullion in three strongboxes in the Ha'ano wreck, and gold, silver coins and ornaments worth about $37½ million.

They also claimed they had hidden it somewhere else on the ocean floor.

Mr Mataele said that he had a photograph of the wreck taken by the three New Zealanders but he would not show it.

Based on the information he had and what he found, Mr Mataele said: "I have a good reason to believe their story is true".

He said that on the windward side of the island his party had located secret signs cut on the coastal cliff-face.

These signs were two "XL" marks, a quarter-a-mile apart with an arrow dead centre between the two "XL's". This gave a bearing on the exact spot of the wreck which is

Dawn Raids Put 20 Tongans In NZ Court

Thirty-eight islanders, most of whom are thought to have come from Tonga, were arrested in a series of dawn raids in Auckland last week in what the New Zealand police describe as the biggest clamp-down on illegal immigrants, says an Auckland Star story.

Seventeen of the men, all of whom were between 20 and 30, were later released when it was found they had applied for extension of expired work permits.

Superintendent L. R. Blake said some of the men had been in New Zealand for some time and had arrived as stowaways in ships or illegally in yachts.

Twenty-four police and three immigration officers began the raids in Ponsonby and Freemans Bay at 5 a.m.

They roused several of the men from bed to take them to the police station for questioning in a large police van.

A police officer said: "The Immigration Department was running the whole show. We were only there to assist.

COURT SINGING

Later 20 Tongans and a Samoan appeared in the Magistrate's Court on a variety of charges in breach of the Immigration Act (1964).

During part of the proceedings which took more than two hours choral singing could be heard from the remand room below the courtroom.

Nine of the 21 admitted overstaying the three months for which they had been granted permits.

They were: Sione Lulu Fainganuku (30), factory hand; Sione Kaveinga Vaka (30), freezing worker; Solomone Fonima Mālafu (25), unemployed freezing worker; Siosio Tu'ulaki Fenitani (30), baker's assistant; Ikunga Fetu'uano (25), rope maker; Nalesoni Laifone Halaevalu (28), storeman; Lopeti Finaulahi (35), storeman; Van'la Fotofili (23), cook; and Sione Silatolu Taulaki (25), wool store workman.

The Magistrate, Mr D. I. N. McLean detained them in custody with a view to deportation.

Most of those who overstayed did so by two or three months.

Three Tongans faced charges of entering New Zealand without having obtained a permit.

New From New Zealand

Mr William Gray Thorp and his wife had an audience with His Majesty on Tuesday afternoon when Mr Thorp presented his credentials as New Zealand's High Commissioner to Tonga. Mr Thorp is also accredited to Western Samoa and is based in Apia.

He was born in Nelson, New Zealand, is 49 and he and Mrs Thorp have four children.

Before taking up his present appointment, Mr Thorp was Commissioner for N.Z. in Hongkong and concurrently Minister to the Philippines. During his diplomatic service he has spend a great deal of time at the United Nations.

While in Tonga, Mr Thorp has been talking with Minister's and Government officials about New Zealand's role in the Pacific.

On Tuesday night he and Mrs Thorp were the guests of honour at a dinner hosted by the Minister of Foreign Affairs, Prince Tu'ipelehake. Last night Mr and Mrs Thorp were hosts at a reception at the Dateline Hotel and among the guests were many of the New Zealanders living in Tonga.

Mr and Mrs Thorp return to Apia tomorrow.

THE COMMONWEALTH UNDER ONE ROOF

BY THE EDITOR

Tonga is a member of the Commonwealth. Admittedly it is a new member and the smallest but it has a place of equal importance with all other member countries in a place I visited during my BOAC 747 flight to London, called the Commonwealth Institute.

With its gay cluster of flags flying in the wind, its lawns and pools and the twin peaks of its great copper roof soaring above the tree-tops, the Commonwealth Institute is a familiar and accepted feature of the British capital.

The Institute can be found in the High Street, Kensington, and is the successor of the Imperial Institute in South Kensington which was founded in 1887 by Queen Victoria. Renamed in 1958, the present building was opened by Her Majesty Queen Elizabeth in 1962.

Its purpose is to promote understanding of the Commonwealth and its peoples. Together with contributions from the other Commonwealth Governments it is financed by the British Government and administered by a Board of Governors of all the Commonwealth High Commissioners in London, including Tonga's Baron Vaea.

About 450,000 people visit the institute each year among them 100,000 schoolchildren brought by their teachers.

Exhibits on every country of the Commonwealth stimulate and excite the imagination, and learning for them becomes enjoyment. It is an unforgettable experience to step into the galleries where on all sides a rich and seemingly endless variety of exhibitions present the world of the Commonwealth and its peoples.

After passing through the introductory section, showing how Commonwealth people work together, the visitor is confronted with a panoramic view of the Commonwealth contained in some 60,000 square feet of exhibition space on three levels. The entire exhibition can be viewed from the central platform and each country can be recognised by characteristic features and sometimes by the background of rhythmic music from the Caribbean, Africa or Asia. Islamic domes suspended over the blue-tiled floor in Pakistan; the broad green leaves of a group of ban-

Commonwealth Under One Roof

(From Page 2)

ana trees in the West Indies; an oriental dragon flying high under the roof of the Hongking exhibit; the brilliant leaves of a Canadian maple in autumn : these and other conspicuous features draw the visitor to closer examination of the whole exhibition.

The art gallery at the Commonwealth Institute is one of the finest in Britain showing all that is best in the world of Commonwealth art.

The library contains about 25,000 volumes and more than 350 current periodicals are received regularly.

The cinema holds 450 people and documentary films on the Commonwealth are presented daily. After the film shows are over the cinema becomes a theatre where Commonwealth groups perform. Tongan dancers were to present a show there this month.

Many of the Commonwealth High Commissioners hold evening receptions in the galleries which are ideally suited for this purpose.

The activities of the Institute, however varied have a common purpose : to promote among the peoples of the Commonwealth a greater knowledge of one another, and, through knowledge, a greater understanding of the reality and importance of the Commonwealth association.

TONGA'S DISPLAY

Tonga has a very modest display, in the Western Pacific section on the upper gallery, sandwiched between Western Samoa and the Gilbert and Ellice Islands. In the showcase on the wall is a fakalaka, a cowrie shell necklace, a pandanus leaf tray, a handbag and a piece of tapa. The only picture is of the Ha'amonga.

Additional space has been offered to the Kingdom and the Institute has submitted an up-to-date contents list for a new exhibition, with a request for funds—about T$4000.

The curator, Mr J. H. Swain, told me the Institute was anxious to improve Tonga's exhibition but was still waiting to hear if the Kingdom accepted the additional space offered.

His proposals sounded existing and it is hoped the Government is able to take advantage of the opportunity to show the Kingdom with pride in the "Commonwealth under one roof".

"Dear Sir . . ."

Dear Sir. — It did not require complicated logic to convince me that the two authors in their letters to the Editor last week never read thoroughly my article "The Fate of the Tongan Language". Most of the views imputed on me cannot, by any stretch of the imagination, be inferred from my contribution.

I have no intention of recounting in detail the thesis of that article—that the fate of the Tongan language is at stake, and hence the need for discretion in the application of English—but can only invite the two gentlemen to study the said article and to level their critical velleities on me only after, and not before that event.

However, there are points that need clarification.

First : The polylingual nations like Canada and Russia are so because their populations are racial conglomerates, each component representing a very high percentage. The comparison with Tonga is ridiculous.

Second : Statistics show that our students overseas have been successful in the fields of education, history and geography but not in the scientific and engineering fields. In other words it is the emphasis we place on the syllabuses that is causing the failures.

Third : The aim of education is not the betterment of living conditions nor is it to teach us to think. These are incidental to the educational activity and this instrumentalist view is ruining education for us and is found in its most **virulent form** in South Sea area — the view that education should be a handmaid of society.

Mr Thaman gives it a socialistist twist by implying that economic consideration is all there is to life.

Fourth : The Maori culture, the Hawaiian, the Tahitian — they have all become museum pieces. Not so with Tonga. And why? Because a foreign language has thrown them into oblivion.

Let us rejoice! The inspiration of Tongan still springs and flows and is the only remaining cultural rampart in the South Seas, from which Polynesia will eventually propagate her experience and reconstruct her view of life.

Dear Sir. — It did not require complicated logic to convince me that the two authors in their letters to the Editor last week never read thoroughly my article "The Fate of the Tongan Language". Most of the views imputed on me cannot, by any stretch of the imagination, be inferred from my contribution.

Fourth : The Maori culture, the Hawaiian, the Tahitian — they have all become museum pieces. Not so with Tonga. And why? Because a foreign language has thrown them into oblivion.

Let us rejoice! The inspiration of Tongan still springs and flows and is the only remaining cultural rampart in the South Seas, from which Polynesia will eventually propagate her experience and reconstruct her view of life.

A request : do not use me as an example. Not all Tongans are Futa Helus. One swallow cannot make a summer nor can I alone shoulder the cultural burden of Tonga and carry it forward.

In closing let me say to my critics what the high priest Kemankar said to Supriya : "If you have a well-spring of your own, drink from it; and bring to us cool draughts in a gentle manner, but not as flood threatening the ancestral pond with the green of its gradual slopes mellowed by ages and its ancient trees bearing eternal fruit".

B U Y one of the latest motor oils in the world – BP Super Visco-static Motor Oil.

For highest engine protection, performance and reliability. BP Super Visco-static is a multigrade oil, formulated to look after every part of your engine, give it a longer life working at peak efficiency.

B U Y superior Lighting Kerosine – BP Lighting Kerosine

B U Y clean burning diesel fuel – BP Auto Diesel Fuel

No excess of sulphur because BP Diesel Fuel is refined from the finest crude oils

Happiness is at your BP Service Station SMILEY

Across the road from the old pumps in Nuku'alofa.

BP

BP IS HAVING EFFECT ON COMMUNITY OF TONGA

This supplement heralds British Petroleum's first direct sales to the public in Tonga, but the company has already had a considerable effect on the community of Tonga, indirectly, and directly.

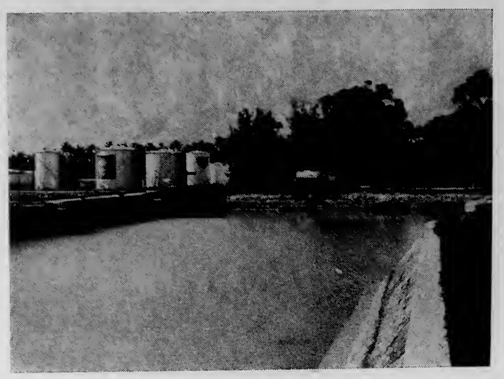
The Queen Salote Wharf and the new Vaiola Hospital are two of the latest additions to the public facilities of Tonga. These were financed by the British Government. This same Government holds the majority of shares in the parent company in Great Britain and from profits from such companies as British Petroleum, the British Government is able to continue to assist with the development of such countries as Tonga. By buying BP you are able, even very indirectly, to help Britain help Tonga.

Directly, British Petroleum has done much in the last 12 months to assist Tonga.

First the BP installation at Touliki and the airfield depot at Fua'amotu were constructed entirely by Tongan construction companies, with Tongan skills and labour. BP had enough faith in the local talents to employ them, and thus give them experience in yet another facet of construction.

Following the unfortunate sinking of the fuel barge "Lolomana'ia", it looked as though Tonga might have petrol and diesel rationing and power cuts to conserve fuel supplies.

It can be told now that there were only four week's supply of diesel fuel remaining in storage tanks at Touliki. British Petroleum understood the problem and sympathised with the people of Tonga. Within 21 days a tanker, the "Pacific Mariner", had been taken from the Australian coast, filled in Fiji, and was discharging at Queen Salote Wharf into BP storage.



The oil industry tanks at Touliki with an Air BP truck on the way to the airport.

Wharf Pipeline Was Good Planning

In spite of having every intention of using Tonga's own fuel barge, the "Lolomana'ia", BP had planned and constructed the pipeline from Queen Salote Wharf to their storage at Touliki, realising that one day the petroleum product consumption in the Kingdom would be too great for the barge to maintain supply. The sinking of the barge brought this line into use far earlier than was ever planned.

The reason why BP fuels are so good is the meticulous quality control that accompanys every gallon from the refinery to customers storage.

Even in Tonga petroleum products received on the "Pacific Mariner" for BP are thoroughly tested to ensure that they are still on specification before the products are accepted into storage on shore.

Pipes on the tankers can sometimes leak, allowing motor spirit into diesel, diesel into jet fuel, or any sort of contamination. All products have different specific gravities, different distillation properties, widely varying flash points characteristic individual colours and odours.

Before BP accepted their cargo of super, diesel and jet fuel from the last "Pacific Mariner", samples were drawn from each of the eight holds containing cargo for BP and tested on laboratory apparatus specially sent from Fiji. Visual, odour and specific gravity tests are straight forward, as long as the tester is fully experienced in ascertaining that product is all that it should be, but the distallation and flash point tests require specialised equipment and knowledge.

A BP agency truck loading Super and Diesel.

Practical Man To Solve Problems

The local Manager for BP South-West Pacific Limited, John Horsley, was placed in Tonga because of his experience in practical operations and sales in New Zealand.

Apart from the fact that he can direct his own company's operations he is conversant with the many aspects of fuel and lubricants applications, or alternatively can be of some assistance with problems of service station or garage management or accounting.

Even if you are not a BP customer, and you have a problem concerning the fuelling or lubricating of your car, truck, but stationary engine, or any other equipment or operation requiring the use of petroleum products, contact BP's man in Tonga. He will probably be the best man to help you here, and if it is a particularly difficult or technical point he has direct access to specialist technical or management experts in his head office.

John Horsley is not an agent – he is a British Petroleum employee, he can give you an immediate answer whether it is likely that BP can help or not, or can offer alternatives. He knows his company's policies.

BP South West Pacific Limited in Tonga is not a separate entity but is part of an extensive international group of companies, and as such has access to a combined wealth of ideas and assistance.

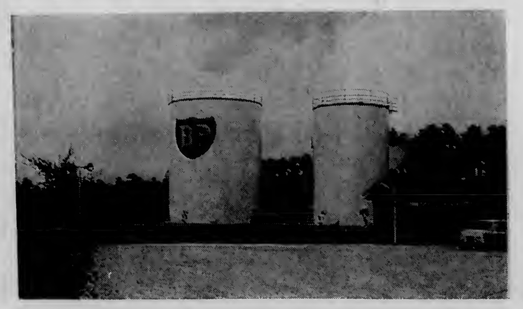
Overwing loading of BP Avgas 100/130 into a French military aircraft.

THE AVIATION SIDE

Every aeroplane that lands at Fua'amotu airfield and requires refuelling is of concern to Air BP, the aviation side of British Petroleum activities.

You will have seen the Air BP tank on the BP truck as it shuttles between Touliki and Fua'amotu transferring jet fuel for the Air Pacific Hawker Siddely 748 aeroplanes. These land six days a week and usually take on BP Jet Fuel for the onward flight to Apia, or the return flight to Nausori.

These of course are not the only type of aircraft to land at Fua'amotu. The New Zealand Civil Aviation Fokker F-27 Friendship lands periodically also to load with jet fuel, and occasionally aeroplanes requiring Aviation Gasoline arrive in the Kingdom. The latest of these was the French Military aircraft which required 1000 gallons of BP Avgas 100/130 octane fuel. This was another service that British Petroleum were able to perform.



The British Petroleum installation at Touliki.

INFORMATION

IMPORT CONTROL

In exercise of the powers conferred on him by the Exchange Regulations 1965, the Minister of Finance advises that as for 1971, the following items will be deemed prohibited imports without licence during the year 1972, namely, motor vehicles, motor scooters and motor cycles.

This is in continuance of the progressive liberalization of restrictions on imports.

THE FOLLOWING HOURS WILL BE OBSERVED BY THE POST OFFICE DEPARTMENT NUKU'ALOFA DURING CHRISTMAS HOLIDAY PERIOD

FRIDAY, December 24, 1971 - Open for service - - 9.00am – 12.00 noon.
SATURDAY, December 25, 1971 - Closed all day.
MONDAY, December 27, 1971 - Open for service - - 9.00am – 12.00 noon.
TUESDAY, December 28, 1971 - Closed all day.
WEDNESDAY, December 29, 1971 - Open for service - - 9.00am – 12.00 noon.
THURSDAY, December 30, 1971 - Closed all day.
FRIDAY, December 31, 1971 - Open for service - - 9.00am – 12.00 noon.
(Mailroom staff will be working throughout the Christmas holiday period).

BANK

The Banking Division of the Treasury will open during the Christmas Holidays only when tourist ships call at Nuku'alofa, which is December 24 and January 1, it will open only for change of foreign currency.

No deposits or withdrawal on bank accounts can be made during these times.

MARKETS

Public are advised that during the Christmas and New Year Holidays, the VUNA MARKET will be closed on Christmas, Boxing and New Year Days only. The cold storage compartment will be opened for normal business between 8.00am to 12.00pm only.

TALAMAHU MARKET will again be opened for normal business during Christmas and New Year Holidays except Christmas, Boxing and New Year Days. The market will be closed.

Importers are advised that any cargo ex "Aoniu", "Niuvākai" and "Tofua" not cleared by 3pm Monday, December 20, 1971, will be bonded by Customs.

S. P. Jones,
Collector of Customs.

VACANCY

Applications are invited for the post of female Radiotelephone Operator at the Fongoloa Receiving Station. The salary scale is T$300 - 720. The minimum educational qualifications is Higher Leaving Certificate with passes in English and Mathematics. However, prefference will be given to candidates with higher qualifications such as New Zealand School Certificate or its equivalent and candidates must have a good knowledge of English. All applications together with copies only of testimonials and educational qualifications should be forwarded to the Superintendent, Telegraphs and Telephones Department, Nuku'alofa to reach him not later than 4.30pm Monday, January 10, 1972.

UNIVERSITY OF THE SOUTH PACIFIC LIBRARY POSTS

Applications are invited from professionally qualified experienced librarians for the following posts :

Senior Assistant Librarian (Post 71/30)

The successful applicant will be responsible for supervising all cataloguing and classification (Library of Congress).

Assistant Librarian (Post 71/34)

The successful applicant may expect to work in any section of the library, and should have experience in cataloguing and/or acquisitions.

Salary scales placing in accordance with qualifications and experience,

Senior Assistant Librarian $F5900 x 200 - $7500
Assistant Librarian $F3500 x 200 - $5100 or $F2700 x 150 - $3000 x 200 - $3400

Other terms and conditions : contract (2 or 4 years) or permanent appointment: 10% anuual taxable gratuity for contract appointments; contributions up to 10% of salary to an approved superannuation scheme; partly furnished accommodation at a rental of 15% of salary; appointment and termination allowances; passages on appointment , long leave and termination; education allowances.

Formal applications should contain full name; date and place of birth; nationality; marital status; educational qualifications; employment history and experience; names and addresses of three referees; general statement of physical fitness; date appointment could be taken up. A passport-size photograph should be sent.

Further particulars, including outline terms of service, are available by quoting the above post numbers from :

The Registrar,
University of the South Pacific,
Box 1168,
Suva,
Fiji

to whom applications should be returned by January 28, 1972

500th VSA Worker From NZ

The 500th New Zealander to serve in the Pacific or Asia with Volunteer Service Abroad is Mr Peter Waddington (right), a 21-year-old motor mechanic from Lower Hutt, near Wellington.
Here he receives his air ticket, and volunteer's handbook from the director of New Zealand's Volunteer Service Abroad Mr Gordon Skipper.
Mr Waddington arrived in Tonga last week to look after a motor workshop and to service agricultural machinery for the Department of Agriculture.
He is one of 118 New Zealand volunteers who are still working in the field.

FESTIVITIES AT FA'ONELUA

Christmas is always busy time at the Fā'onelua Gardens and it is hoped that this year will be no exception.

A Tongan feast and entertainment will be provided for passengers from "Fairstar" which is spending Friday, December 24 in Nuku'alofa.

During the evening of that day, from 7 p.m. onwards, the Garden Committee is looking forward to choirs and church youth associations creating a true Christmas spirit by singing carols and performing nativity plays.

All interested in taking part in such a festival are asked to contact Mr Mr H. V. Barnard at the Treasury (Tel. 422) so that he can arrange a programme. A list of choirs and organisations who support this appeal will be given publicity together with a timetable of events.

All are invited to come to the garden that evening to join in welcoming the joyful festival of Christmas.

At 5 p.m. on Christmas Day, an inter-church service will be held in the Garden. The churches represented in the Committee arranging this function are Wesleyan, Anglican, Roman Catholic and Church of Tonga. All are invited to join in this combined service of worship.

Problems Delay Independence

New Zealand has said that the problems of small size, population and natural resources of the Niue and Tokelau islands had to be overcome before they could be independent from New Zealand.

"We are proceeding with transferring authority as quickly as deemed possible by the islanders themselves", Miss A. V. Stokes, New Zealand's representative, told the United Nations Decolonisation Committee.

She re-extended an invitation for a UN inspection team to visit the islands.

"The problems of remoteness, small size, lack of population and natural resources must be overcome before the people can make effective decisions over their future", Miss Stokes said.

New Zealand had continually reassured the people of Niue of financial assistance and New Zealand citizenship if and when it was wanted, she said.

"The final choice is their's alone", she added.

Mani Vaka To Defend Title In New Year

Mani Vaka has agreed to defend his South Seas heavyweight title against the Fiji heavyweight champion, Filimone Naliva of Ba, in Suva, early next year.

The president of the Tonga Professional Boxing Association, Mr Bill Wight, said on Monday the terms of the title bout contract are being forwarded to the challenger for his approval and signature.

The challenger defeated Vaka in 1969 in a disputed points decision but lost in their return bout in July when Vaka stopped Naliva in the sixth round.

Mr Wight said that negotiations are being made for the Commonwealth-rated Vaka to fight the Australian light-heavyweight champion Johnny Gorkom next month, if Vaka can make the weight.

Vaka said he was in serious training and could easily make the weight limit of 175lb well before the fight.

He is planning to leave for Pangai, Ha'apai, early next week for an exhibition bout, returning home for Christmas.

The Fiji heavyweight boxer Apiuta Qalulu of Suva has accepted a challenge by Tongan leading heavyweight contender, Fonomanu Sekona of Foui, to fight any heavyweight boxer in Tonga and Fiji.

On 1968, Qalulu and Sekona met in Nuku'alofa in a amateur tournament when the Fijian lost on technical knockout.

The Fijian recently turned professional and has three knockouts to his credit.

Mr Wight said that Qalulu is willing to fight Sekona either here or in Fiji.

STICKY BUSINESS

Tonga's Kintail Honey Co. Ltd., is in business. Last week the first honey was extracted and next Thursday two gallon drums are due to be shipped to the United Kingdom on the copra ship "Rowanbank".

The picture shows New Zealander Grant Ward and Andrew Fielea of the Department of Agriculture watching as frames from the hives spin round inside a vat and centrifugal force extracts the honey.

The honey comes from 400 hives spread throughout Tongatapu. Next year it is hoped to double the number of hives and in five year to have hives on 'Eua. The export aim is about 500 tons in 10 years.

Because of the humidity the liquidy of the honey was higher (19%) than desirable (17½%), but this will improve with experience, Mr Ward said.

Most of the equipment being used in the processing has come from New Zealand, but some of the vats were made in Tonga.

The Kintail Honey Company has a 52% Tongan holding and 48% New Zealand.

Police Swoop On Illegal Tongans

(From front page)

Tiki Tevita (30), plumber's workman, admitted entering in December 1966 without a permit, and Mr A. Satynand, for the Immigration Department, said he had arrived as a stowaway on board the "Kuala Lumpur".

In YACHT

Tevita Tanginoa (30), rope maker, who admitted entering in June 1970 without a permit, came in a yacht, said Mr Satynand.

Both these men were detained in custody with a view to deportation.

Mr C. Edwards represented Paul Tony Bourke (29), baker's assistant who entered no plea to a charge of entering illegally on February 8, 1963. Bourke was remanded on bail until January 27.

For much of the proceeding Mr Edwards was called on to act as interpreter.

Because of language difficulties and problems in identification, the rest, including the Samoan, were remanded in custody until later on the day.

All but one of the defendants had nothing to say to Mr McLean.

The one who did apologized for overstaying-and he asked if he could stay long enough to seek a tax refund.

300 ILLEGAL

Immigration authorities estimated there could be as many as 300 Pacific islanders living illegally in New Zealand after overstaying entry permits or jumping ship.

A spokesman said a clampdown on illegal immigrants was undertaken occasionally.

"In the past, we have often just approached illegal immigrants and asked them to leave without prosecuting them, but their number has built up now".

TREASURE HUNT

(From front page)

covered by coral rocks.

He believed that these marking were made by the three New Zealanders.

Mr Mataele said, "We used dynamite to blast the coral rocks to give us a good view of the ship itself.

"We saw cannons, brass fittings, iron bars, ships nails and wood," he said. "Some of the bars well-covered by coral were not recovered as our divers could not lift them."

Mr Mataele showed three of the several brass bars which were recovered from the Ha'ano wreck. The rest are being kept at the Police headquarters in Nuku'alofa.

Mr Mataele is planning to visit the United States at the end of the month on private matters and will take with him some of his findings for classification.

Dux Photos

School duxes who have not yet had their photographs taken for publication in the Chronicle are asked to call at the office and make arrangements as soon as possible. The first pictures will be published next week.

This And That

CHRONICLE DIARY

All electric power in Tongatapu will be switched off on Sunday, December 19, from 8 a.m. until 12 noon, weather permitting. This to carry out urgent powerhouse work to meet increased heavy demands.

* * *

You are not seeing double when you look at the film advertisements on Page 11. The same film is showing at two rival theatres and both parties are apparently happy to leave it that way. One operator get a 35mm print and the other a 16mm print of same films and only rarely does it happen that they both decide to screen the same film the same week.

* * *

A tourist agency tried to book cabin accommodation on the "'Olovaha" several days ago but was told to wait until bookings opened on the day before sailing. When they returned to the Tonga Shipping Agency on the stipulated day they were told the accommodation was completely booked apparently for Government officers. When the tourist agency complained that the cabins should have been allocated in order of application, the clerk replied: "The "'Olovaha" is for the Government and the people, not for tourists!" Not exactly the way to encourage tourism.

* * *

During the heavy rain last week the manager of Morris Hedstrom was seen floating rubber ducks on one section of the floor of the new store.

* * *

Congratulations to who ever is concerned for filling in the moat at the front of the Post Office in Nuku'alofa. We now wish they would do the same for the other side used by the public.

THE FIRST AND THE LAST

LEFT: The first baby of the year at Vaiola Hospital was born to Mrs Selemana Tonga Va'inga (30) of Pahu, Kolofo'ou, at 3.30 a.m. on New Year's Day when she gave birth to a 8lb 4oz girl.

The baby, named 'Alisi, was delivered by Dr. Taniela Palu assisted by Junior Staff Nurse 'Ema Manu'atu.

ABOVE: The last delivery of 1971 was twin girls born to Mrs Lucila Abolencia (29) wife of the Filipino power plant engineer at the Tonga Electric Power Board.

The twins, called Marilou and Marites, were four months premature and were delivered by caeserean section at 8.22 p.m. and 8.24 p.m. respectively on New Year's Eve. They weighed 5lb 14oz and 4lb 14oz.

Dr Leopino Foliaki was assisted by Dr Laumeesi Malolo at the delivery.

Dynamite Fishermen Target Of Act

By the Editor

An Act which it is hoped will help curb the activities of fishermen who use explosives was signed by His Majesty on December 23, 1971.

Under the Explosives Act the maximum penalty for using, selling, storing or transporting explosives contrary to the regulations is a fine of T$200 or imprisonment for six months or both a fine and imprisonment.

Where an owner or master of a vessel is charged and fined under the Act the Court may direct for the purpose of compelling payment of the fine that the boat be seized and sold along with the tackle and the offender's clothing and furniture.

Anyone found in possession of explosives or is suspected of using them may be arrested without warrant.

A citizen has the right of arrest under this clause.

"It will also be lawful for any police officer to stop and search for explosives any person whom he may find in any street or other public place at any hour of the day or night who acts in a suspicious manner or whom he may reasonably suspect of having explosives in his possession."

Any person who is proved to have had in his possession or under his control anything containing explosives shall be deemed to have been in possession of an explosive.

There is provision for awards to informers under the Act. Persons who give information to the police that leads to the conviction of an offender may be given half the fine imposed by the Court.

Mercy Mission

Dr 'Opeti Lutui of Ngu Hospital, Vava'u, was directed from Vaiola Hospital to go on a mercy voyage to Niuafo'ou last week, after a emergency call for medical help was received.

The vessel "Pākeina" which had sailed for Ha'apai to load bananas for Nuku'alofa was directed to Vava'u to pick up Dr. Lutui with medical supplies and equipment, and go to Niuafo'ou.

Help was unable to save the life of a Niuafo'ou woman, Matenoa Taufa who died in child birth. The baby also died.

"DEAR SIR..."

Letters to the Editor.

London Dancers

Dear Sir,

It is now some 12 months since I left Tonga after spending half a year as adviser to the Tonga Produce and Copra Boards. When I heard from Baron Vaea that the Tau'olunga Dancers from Houma, were appearing at the Commonwealth Institute in London, I made a two-hour train journey to see them.

There were several hundred people in the audience including a large number to the Tongan community in England, and there were people from many Commonwealth countries. The audience very quickly warmed to the rythem and beauty of the dancers and singers and several people according to the Tonga custom. came on to the stage to give the dancers money.

The group performed Tongan, Maori, Samoan, Hawaiian, and Tahitian dances—if I could be critical, I personally would have liked to have seen more Tongan dancing.

The show lasted for more than two hours and towards the end the audience demanded and got encores of the throbbing Tahitian dancing by the girls. All the group were then introduced to the audience and the 7-year old boy who did the mosquito dance earned special applause.

I only wish the dancing and singing could have continued as it brought back so many happy memories of Tonga, and I hope that I will have the chance of seeing them again before they leave. They were a credit to Houma and Tonga.

Could you please convey my best wishes to all my friends acquaintances throughout Tonga for a prosperous New Year.

BASIL JEUDA.

Tongan Language

Dear Sir,

I, as a young Tongan and very concerned with the well-being of Tonga, being very proud of my Tonganness, became interested in the discussions concerning-as Futa Helu puts it - "The fate of the Tongan language and therefore the need for discretion in the application of English," and so would like to take this opportunity and comment on them.

The inevitability of a foreign culture seeping into our own must be admitted; To retreat in order to save our own culture would obviously be foolish, just as it would be wrong to throw ours into the sea and taken in everything a foreign culture has to offer. The answer to trying to keep what we are proud of lies neither in retreatism nor in complete acceptance of another culture-its good and its bad.

To retreat is to say that we have all the answers and that none of our ways can be made better and vice-versa if we are expected to become Europeeans, as it seems to be happening in Hawaii, Tahiti and New Zealand.

I do not agree with Futa Helu that to lose our language is to lose our culture and that to lose our culture is to lose our identity. We can always have new cultures perhaps better ones.

A foreign language did not throw the Maori, Hawaiian, and Tahtian cultures into oblivion, but a foreign culture which overwhelmed the weaker culture.

The Maoris lost their sense of identity not because they couldn't speak English. It was because the Maori found himself lost in the everchanging world of the European as contrasted to his own traditionally oriented, resistant-to-change culture.

The two cultures failed to integrate-not only in language but in many other aspects of life-religion, law, art, custom, houses, clothes and so on.

I agree with Futa that the fate of the Tongan language is at stake. To me this springs from the fact that we are simply too small a country to be able to stand on our own two feet tand say that Tongan is important and that English should not overwhelm it.

There are certainly no incentives to encourage young Tongans to keep up their studies of the Tongan language. On the other hand English gives one the better chance to a better life; it makes one a proud Tongan who can look after himself and his family.

I suggest, however, that in trying to conserve our language we do not make a negative approach by lessening the emphasis placed so far on English; but rather make a positive one by emphasising Tongan also, as seems to have already been done by the Education Department by making Tongan compulsory for Higher Leaving and also by the fact that one must get 50 marks in Tongan to be able to pass the Higher Leaving.

TEVITA LATU.

Sailing

Dear Sir,

As soon as we arrived in Tonga my wife and I were determined to find a sailing boat. Eventually we were successful and are now the owners of an 18 foot Sailor Trailer which we share with Robert Knowles and Peter Wallis.

With a good deal of experience of sailing I am convinced that the waters of Tonga are among the finest in the world for small boat sailing. They are by no means dull with many islands to visit and reefs to sail round; but one must treat the reefs with respect and learn how to find one's way into each island. Sailing can be relaxing or exciting according to the strength of the wind, while undoubtedly sail boat racing is one of the most exciting sports in the world.

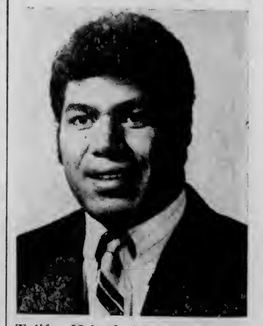
I would very much like to see more people take up sailing even if they have not done it before. Boat kits, which are not unduly expensive, can be ordered from abroad, and there are good boat builders here capable of the Yacht Club to order some kits, have them built and hire the boats out to members?

I would be happy to advise anyone thinking of buying a boat and would also be willing to give novices sailng lessons. We have taught some of our friends and without exception they have all become enthusiastic converts.

Apia has a very active Sailing Club with many boats and a comprehensive racing programme; yet the waters of Apia can in no way compare with the excellence of Tonga waters. Should we continue to lag behind in a sport and form of relaxation for which we have some of the finest natural facilities in the world?

KEN SAKER,
Civil Aviation Adviser.

Star Player



Tu'ifua Halaufia is currently playing defensive tackle for Utah State University's football team. He is the son of Mr and Mrs 'Aivini Halaufia.

BACARDI, ice and what?

and ginger
BACARDI rum, ginger ale, and ice—a spicy, daring new way to drink BACARDI rum.

and Coke
Pour BACARDI rum over ice and add enough Coca-Cola to drown a thirst. A classic drink and something else.

and tonic
Pour one jigger of BACARDI rum into a highball glass with two or three ice cubes. Add tonic water, a zest of lemon or lime and . . . Wow!

and what else?
Try BACARDI rum with anything — lime, orange, bitter lemon, crushed mint. You'll find anything goes with BACARDI rum.

Anything goes with BACARDI rum

BACARDI and the Bat Device are registered trade marks of BACARDI and Company Limited. 'Coca-Cola' and 'Coke' are the registered trade marks of The Coca-Cola Company.

Another Drop In Copra Price

Copra prices which will apply throughout the Kingdom during this month are T$6.20 a ton less than those for December, the Tonga Copra Board announced.

Copra prices which will apply throughout the Kingdom during this month are T$6.20 a ton less tan those for December, the Tonga Copra Board announced.

The current prices are:

First grade, T$64.50 a ton.

Second grade T$52.50 a ton.

The prices to be paid for coconuts will be maintained at 1.2 seniti a nut.

The board statement said the world copra prices had again fallen. For the period November 16 to December 15, the perion on which the January copra prices were calculated, the average market price was US$156.50 a ton This compares with an average price for the previous period of US$164.79.

It was apparent, the statement said, that the present depressed state of the market was due two main factors: the flooding of the European market with copra and the uncertainty in international currency markets. The board said it was hoped that the recent devaluation of the U.S. dollar and the reallignment of other foreign currencies to it, would bring about a stabilising effect on the world copra market and stem the downward trend in prices.

Tonga's last shipment of 1000 tons of copra was sold at Stg£64 a ton CIF which was approximately Stg£3 a ton less than the average price taken for the calculation of the December local prices.

The board said it wanted to assure producers that it was trying to give tthe best prices possible, but the present depressed and uncertain state of the market made a further drop in local prices inevitable.

FAMILY SIZE

Is this the biggest pineapple grown in Tonga? If not it must be very close to it. This pineapple is 1½ feet long and weighs 16lb.

It was grown by Simi Hōlani in Niutōua and he does not use fertilizer on his crop. His wife Ma'ata is shown with the pineapple.

"I always fly VC10. Superbly comfortable, serenely quiet. And a choice of ten flights a week."

For some people there is only one airline.

BOAC fly the smooth, silent VC10 from Fiji ten times a week – five one way, five the other. To Sydney or to Hawaii, Los Angeles, New York and London, with world-wide connections.

You relax in the world's most comfortable economy class seat, in a cabin that's as quiet as a library – because the four giant jets are mounted in the rear, leaving the noise behind you.

Plan your next flight now by BOAC VC10.

BOAC takes good care of you

MORE SIKALETI FOR YOUR MONEY

NEW BOOT COULD BE REVOLUTION IN ALL FOOTBALL

A new type of football boot which has all the front sprigs mounted on a turntable, has come on the market in Britain, and its makers believe it could represent a major development, in Soccer at least.

So far development of the boot has been confined to Soccer but it is probably legal in Rugby and League and could be useful to some backs, especially a first five-eight.

Managers of top Soccer clubs, – and few sportsmen in Europe are more critical than top Soccer managers—claim it could be an important piece of equipment both for the extra speed on the turn it can give a players, and for the number of knee and ankle injuries it could prevent.

SET IN CIRCLE

The new boot has seven sprigs. Of these, two are mounted normally at the heel, but the five others are set in a circle on the outside of a turntable which passes under the ball of the foot and beneath the toes. The turntable is hard to turn by hand, but a player with his weight on it can spin quickly around, while still getting a firm grip while running forward.

Tests at the Arsenal Soccer ground have shown that players can turn more quickly and in a shorter are using the new boots. They may save perhaps a tenth of a second—which means they have a start of about a yard when they set out in a new direction.

BIG ADVANTAGE.

Films of Arsenal players in training show clearly that players using the new boots have a considerable advantage in tight situations over players using ordinary sprigs.

The principle of the boots was developed more or less separately by Dr Bruce Cameron, an American orthopaedic surgeon from Houston, and Mr James Dymond, a Welsh engineer.

The pair were brought together by a British firm which is selling the boot in Britain.

Top Of His Vila Class

The only Tongan student attending the French Secondary School in Vila, New Hebrides, came first in the school's Form III annual examination last year.

He is Palavi 'Alekisanita (15), son of Mr Sione Palavi and 'Amelia of Fasi.

Topping a class of 24 pupils, Palavi, can speak fluently in English, French, Spanish and Tongan.

Palavi will leave for Vila this Saturday where he is intending to sit for his school certificate this year.

Islanders Blamed For Difficulties

The financial mess in the Cook Islands has been attributed to the islanders trying to have the best of two worlds.

Writing in the New Zealand Herald, staff correspondent Peter Scherer said the islanders were seeking to retain a relatively unspoiled Pacific community with some of the privileges of New Zealand citizenship.

At the same time, they had given themselves social welfare programmes, community services and elaborate bureaucracy more appropriate to a wealthier and more populous society.

Contributing to the disorder in the Cook Islands Government's financial administration were:

Inexperience and inefficiency in planning and budgeting;

Deficiencies in debt-collecting;

Lack of cost-benefit studies before capital commitment;

"Pork-barrel" politics and some irresponsible spending.

Scherer said the Premier and Finance Minister, Mr Albert Henry, was embarrassed by consistent reprimands in audit reports about over-spending.

He had changed the financial year to coincide with the calendar year and committed one year's aid from New Zealand to nine month's spending.

But the Premier did not realise a financial crisis was pending until the middle of this year.

Hango College News

The first students to enter Hango Agricultural College in 1969 graduated in the first Graduation Ceremony held at Hango on December 14.

The certificates were presented by the Rev. Sione Tonga Simiki, representing the President of the Free Wesleyan Church. His son, the Deputy Director of Agriculture Tomasi Simiki, presented the prizes and gave the address to the outgoing students.

In his speech, Tomasi Simiki said "Over a hundred years ago, Tupou College was established to train mind and mouth, and this has been the pattern ever since. The important thing about Hango is that it trains mind and hands."

The Principal, the Rev. Robin Nance, spoke of the strong school spirit which had existed among the pioneers.

He said they knew that later students would reap what they were sowing, but they worked hard and willingly in the early difficult days.

Captain of the graduating class, and Head Student, was Kisepi Havea, of 'Ohonua. Second was Tevita Toafa, of *Tokomololo, and third Semisi Pēlaki, of Va-va'u.*

The Tonga Simiki prize for the student showing the best school spirit was awarded to Tonga Keti, of 'Ahau, Tongatapu. First in Second year was 'Aniseko Tu'itupou, of Nukunuku, and in first year, Sione Fatafehi Hausia, of 'Ohonua.

Of the 16 graduating students, nine will be taking farming as a career, and for these it is hoped that loans will be arranged from the Agricultural Loans Council. Of the remainder, three are going to New Zealand for a year's further farming experience, three are joining the staff at Hango, and one has a scholarship to the Fiji School of Agriculture.

IMPROVING OUR LIVESTOCK

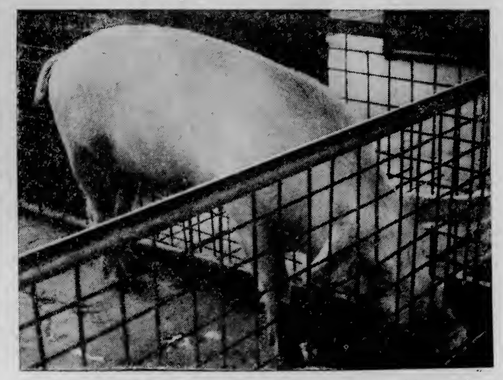
Pictures: Lisiate Tulua
Story: Hopoate Moengangongo

The Department of Agriculture is doing all it can to improve the standard of livestock and increasing meat production in the Kingdom. Extension work and subsidy schemes have been introduced.

Selected breeds of horses, pigs and cattle have been imported and raised at the Government Experimental Farm at Vaini, to be used by the department with its subsidy schemes.

Recently the department opened a veterinary clinic at Matāliku, a centre from which to run livestock extension work and teaching of annual husbandry principles.

A result of the pigs subsidy scheme is these two boars, a cross of the Berkshire boar with local sow.



A large white boar at the Government Experimental Farm pigsty.

One of two Clydesdale stallions which have been given to the department from New Zealand. They are being used to improve the standard of working horses in Tonga by crossing the Clydesdales with the local mares.

A farmer to qualify to buy these heifers must have :

1. Erected an adequate fence of treated post or living posts scheme showing signs of growth.
2. Established an adequate pastures.
3. Main pastures and kept free from weeds.
4. Have had the herd tuberculin tested.
5. A permanent water system for the stock.
6. Have adequate pasture to carry more cattle.
7. Agree to sign a declaration that he will not slaughter or resell the heifers before they are calved down.

These 9 month-old heifers grazing at the Government Farm at Vaini are part of the department's subsidy scheme and are sold at 50% of market value ($20 – $25 each).

VACANCY

Wanted : A girl to work at the "Tour Desk" of the TETA Tours Ltd., located at the Dateline Hotel.

Preference will be given to :

Applicants who have excellent spoken and written English, preferably knowledgeable of all aspects related to the Kingdom of Tonga.

One who within herself has the desire and personality to meet and entertain tourists.

All written applications will close on January 14, 1972, addressed to :

THE MANAGER,
TETA TOURS LTD.,
P.O. BOX 215,
NUKU'ALOFA.

PETER STUYVESANT

THE INTERNATIONAL PASSPORT TO SMOKING PLEASURE

JW3068Q.1

This 10 sene stamp has been issued by the Government of Western Samoa to mark the first South Pacific Judicial Conference in the area's history.

Conference Will Make History

For the first time in history, the three indigenous cultures of the South Pacific—Mirconesia, Melanesia and Polynesia—will formally meet to consider problems that concern them all.

At the first South Pacific Judicial Conference, to be held January 10 to 13 in Western and American Samoa, delegates from both Samoas, Australia, the Cook Islands, Guam, Fiji Papua-New Guinea, the U.S. Trust Territories, the Republic of Nauru, New Zealand, Hawaii the continental U.S. and Tonga discuss ways to bridge the Pacific's cultural barriers through justice and the law.

Tonga's delegate is Mr Justice Roberts.

The conference is the conception of Donald H. Crothers, (48) Chief Justice of the High Court of American Samoa. More than a year ago, he conferred with Chief Justice Barrie C. Spring of Western Samoa's Supreme Court on the possibility of a meeting between the judiciary of both Samoas. From there, the conference was expanded to embrace the whole of the South Pacific.

By bringing together magistrates, attorneys and law officers from all over the South Pacific, he and Mr Justice Spring, who are co-chairmen of the conference, hope to initiate an exchange of legal resources and ideas from which all the conference delegates and their countries can benefit. As it stands now, no such exchange exists. Each of the area's many legal and judicial systems operate independently. The South Pacific lacks even a common extradition process.

The South Pacific Judicial Conference will open on Monday, January 10, in Western Samoa's Land and Title Court, where delegates will be welcomed by Prime Minister Tupua Tamasese Lealofi IV. A tour of Apia and of the new Fono Building and a visit to the residence of Malietoa Tanumafili II, Western Samoa's head of state, are also scheduled. In honour of the conference, Western Samoa has issued a special 10-sene postage stamp.

On Tuesday, January 11, the conference will move to American Samoa. It will close on Thursday, January 13, after a farewell address by American Samoa's Governor John M. Haydon. Separate working sessions will be held for judges and attorneys.

Typhoid Taxing Accommodation At Hospital

Thirty-five typhoid cases have now been admitted to Vaiola Hospital and this is causing accommodation problems for the Ministry of Health.

The 33 bed isolation ward has 21 typhoid cases and 12 TB. The overflow of 14 typhoid cases have been admitted to the medical, surgical and children's wards.

To make room for the new typhoid cases this week, eight typhoid cases already recovering in the isolation ward were sent to their homes with instructions on how they were to be treated.

Half the TB cases in the isolation ward were released at the weekend to provide 13 beds for the new typhoid cases.

The Typhoid and TB Control Officer, Dr. Tili Puloka said 35 was the highest number of typhoid cases at one time experienced by the hospital in many years.

He also said it was not usual to send typhoid patients home until they were well enough, but in view of the number of more serious cases being admitted there was no alternative.

It had never been necessary to use other wards, besides the isolation ward for typhoid, Dr. Puloka said.

U. S. Tourist Dies On "West Star"

An American passenger on the cruise ship "West Star", Mr David Hackett (71) of Pennsylvania, died on board the ship early last Saturday.

Mr Hackett was found dead on the floor of his cabin bathroom.

Heart failure was the cause of death, according to Dr. Lutui Fonua of Vaiola Hospital and the ship's doctor who examined the deceased after his death.

The body of the deceased is embalmed at Vaiola until arrangements can be made for its return to United States.

Ten of the 25 Hawaiian delegates for the Pan Pacific and South East Asia Women's Association Conference in Auckland arrived here on Monday led by International President Mrs Margaret Little. They were the guests of honour at a afternoon tea hosted by the Tonga Branch at Langafonua on Tuesday. Pictured is Tonga Vice Presidents Mrs. Tupou Tonga presenting a shell necklace to the Hawaiian delegation's Vice-president, Mrs. Elsie Ho. Seated at left is Mrs J. Christensen, one of the Tonga branch vice-presidents.

22 Tongan Women Off To Auckland

Twenty two delegates to represent Tonga at the Twelfth International Conference of the Pan Pacific and South East Asia Women's Association in Auckland will leave by Air Pacific flight this afternoon.

The conference will open at the Auckland University next Monday and last until January 21.

The theme is "The role of the family in today's world". During the 12-day conference the delegates will talk about the family as a unit of society and how that society should be formed and governed.

They will discuss the many facets of society today and of the implications that will govern their own actions in the undertaking of social reform and welfare programmes.

Tonga's delegations will be led by its international president Mrs. 'Oto'ota 'Eva of Kolofo'ou and vice-president Mrs. Tupou Tonga of Fasi.

Other delegates are : Liu Tongilava, Mele Kamitoni, Vika Fetu'ufuka, Vāvāhe'a Kavapalu, Felila Tāmano, Mele Tautala Pale, Nānisi Helu, 'Eseta Finau, Siu 'A. Vakameitangake, Kalo La'akulu, Sisilia L. Tāufa, 'Olivia Mafile'o, Matelita Kavapalu, Lavinia Molitika, Saane Tiueti, Malinita M. 'Uhila, Katea Tonga, Meliame Misa, Siniva Helu, and Fale'aka Sipu.

CORRECTION

The Education Department has issued the following correction to the 1971 Higher Leaving Certificate examination results :

When the results were first printed, two candidates from Tailulu Girls' College were given as 'Eseta Taumoha'apai and 'Eseta Piutau Taumoha'apai.

The department wishes to clarify that Eseta Piutau gained a full certificate and 'Eseta Taumoha'apai obtained a two-subject pass.

CHRONICLE

English and Tongan editions published at Nuku'alofa each Thursday by the Information Office, Government of Tonga. Authorised for transmission by post as a newspaper.

NIUE'S FIRST HOTEL

Work has begun on a NZ$220,000 40-bed hotel on Niue Island at the southern of Alofi village, which is bordered by 60ft high cliffs.

It will be the island's first hotel and is being built and will be managed by the Niuean Government. The hotel will consist of three blocks. A core block will provide lounge, dining room, kitchen, public foyer, reception office and souvenir shop.

There will be two bedroom blocks, each two-storey structures, with five double rooms on the ground floor and five on the first floor. The roof design will be patterned on the traditional Niuean gabled roof.

The hotel is expected to be ready for occupation in mid-1973.

This And That

CHRONICLE DIARY

You had to be desperate for money or, an "idiot", as one intending customer who had given up said, to go to the Banking Division of the Treasury on Monday and battle in the crowd. It was the first day open after the Christmas Holidays and the scene was chaotic. After trying three times during the day to draw out money we had to borrow from a friend and wondered if it was really necessary for a key section of the Government service to completely close down for 10 days. Things should be different when Tonga gets its commercial bank.

* * *

Because a 15 seniti bulb is unobtainable in Nuku'alofa a reasonably modern car is off the road. The owner was refused a warrant of fitness because he had no light illuminating his rear number plate.

But we still see other vehicles with warrants, held together with wire and chewing gum, and with brakes that don't work. We also hear of another bus losing a wheel last week.

* * *

Boxer Viliami Sovaleni who was injured by a car in Papeete with the team to the South Pacific Games in September is still in Tahiti and won't be home until the doctors think he is fit to walk. He can only just move his foot. Meanwhile, he is reported to be receiving "royal" hospitality.

* * *

The cargo shed at Queen Salote Wharf last week was stacked to the roof with just about every inch of floor covered – and all of it had been landed from the "Aoniu" and the "Niuvākai". This was convincing evidence of just how vital Tonga's own ships are to the life of the Kingdom.

* * *

We hear the cruise ship "Orsova" will have on board a special group of Tongan passengers when it arrives at Nuku'alofa next Thursday. The ship comes direct from Auckland and has 22 Tongans who have been deported from New Zealand for illegal entry. They were arrested in the dawn raids on Ponsonby and Grey Lynn last month.

* * *

Two shells found in Tonga by John H. Fatu and L. J. Lancaster have been recorded as the largest in the world, according to information from the keeper of shell records, Dr R. J. L. Wagner of Delaware.

The shells were the strombus latissimus 9 3/5 inches and strombus thersites 6 inches.

1974 Could Be Peak Year For Bananas

Tonga may reach the peak of banana production for export by 1974, if the present trend continues, the Manager of the Tonga ProduceBoard Mr. A. Johansson, predicted this week.

He said the banana exports in the last few months had been increasing steadily and he hoped this continue. December topped the monthly shipments of 1971 with 19,458 cases. Total shipments for November were 10771 cases.

The 1971 banana export figure 119,755 cases at a value of T$348,741.25 compared to 142,616 cases in 1970, represented a further decline in banana production. It was the lowest year since 1963.

The past year's production was exported in 72lb and 56lb cases. The 56lb cases were introduced in the June shipment.

Produce exported through the Tonga Produce Board during 1971, was:

To New Zealand :

Commodity	Unit	Quantity
Bananas	72lbs case	62,461
"	56lbs case	57,294
Watermelons	Singles	51,438
Rockmelons	72lbs case	25
Plaintains	72lbs case	2,299
Tomatoes	15lbs carton	7,673
Pineapples	12 per case	2,709
Capsicum	12lbs case	9,088
Yams	40lbs box	895
Avocadoes	20lbs case	1,867
Taro (Tongan)	60lbs box	834
" (Futuna)	60lbs box	50
Mangoes	–	114
To Suva :		
Tomatoes	20lbs carton	285
Capsicum	12lbs case	110
Lettuce	–	6
To Australia :		
Vanilla	30lbs tins	50

Six growers from Fo'ui packed 692 cases of bananas for shipment in the "Tofua" yesterday. Five hundred and thirty-eight of these were packed by Hahano Vaha'i from his 33 acre plantation at 'Utukehe Beach.

As disease is so rife throughout Tonga many banana growers have been discouraged, but not Vaha'i who said if growers cooperated with the Department of Agriculture, diseases would not be a big problem.

The picture shows five of the six growers, from left: Sione Malateu, Halatoa Taani, Pōhahau Naulu, Konokono Kaumatule and Sione Fotu. Standing is the town officer Solo Vaha'i and the Tongatapu growers' representative in the Tonga Produce Board, 'Alipate Tupouniua.

Extension officer Saulala Mafi said growers in the Hihifo district were very cooperative and production had shown great improvement.

2.9 Jump In Price Index

The Consumer Price Index for Nuku'alofa rose sharply by 2.9 per cent from 102.8 in the September Quarter to 105.7 in the December quarter (September quarter 1969 = 100 compared to an increase of 1 per cent between the previous two quarters, says the Government Statistician Mr J. C. Cocker.

The increase in the average level of prices in Nuku'alofa came mainly from food 7 household operation and apparel groups.

In the food group, increases in the average prices of local foodstuff (mainly mutton flaps, tinned corned beef, milk powder and butter) combined led to a four per cent increase.

The household operation group recorded an increase of 2 per cent due to increases in the average prices of white benzine, kerosene stoves, towels, soap powder, blue and toilet paper.

Increases in the average prices of printed cotton, casement cloth, sewing cotton and infant's vests were mainly responsible for the 3 per cent increase in the apparel group.

The Consumers' Price Index measures the average change in prices of commodities purchased by family with weekly earning of not more than $24. Almost two-thirds of the all groups index belong to the food group.

Thrill For School Boys

Boys from Newington College, New South Wales, inspect the visitors book at the palace before they had an audience with His Majesty. The audience was the highlight of a two-week visit to the Kingdom for the party of 13 boys, the chaplain, two masters and two wives.

The school party has been entertained by the members of the Newington Old Boys Union in Nuku'alofa.

They are due to leave today on their journey to Australia.

While in Tonga they have been staying at Tupou College which has an historical link with Newington College.

His Majesty is among the famous old boys of Newington.

SERVANTS OF THE PEOPLE

HONOURABLE 'AKAU'OLA, Minister of Police, Minister in charge of Prisons. Principal Immigration Officer, Privy Councillor and Member of Parliament. A professional policeman with 14½ years service, he received police training in New Zealand, Australia and United Kingdom; from Taunga, Vava'u.

MR A. GREIFF, CPM, Police Adviser to the Government of the Kingdom of Tonga. Served in the Royal Marines before joining thet hen Colonial Police and served in Tanganyika and British Honduras.

CHIEF SUPERINTENDENT, P. K. NAUFAHU. Head of Department, he is responsible for the daily operation of the Force. 28 years service, he received training in Australia and United Kingdom; from Kolonga, Tongatapu.

IN THE SERVICE OF THE PEOPLE....

In the service of the people: This is the motto of many Commonwealth Police Forces, and the spirit of the declaration is instilled in the hearts of young Tongan Constables when sworn in during enrollment:" . . . do swear that I will without fear favour or affection diligently and faithfully . . . preserving the peace and in the preventing and detection of all offences against . . . His Majesty's subjects.

For those Officers who uttered these words 20 years ago, the significance of the wisdom of the definition of a policeman's dedication to public service implies great responsibilities; and for those whom retirement is drawing nigh, the closing of a life adventure.

Here then, are the Commissioned Officers of the Tonga Police Force.

SUPERINTENDENT P. A. PILIU. Officer in charge of Nuku'alofa Police District and Central Police Station which is the largest and busiest in the Kingdom. In addition to the capital his District includes seven villages....29½ years service, he was educated locally; from Tofoa, Tongatapu.

CHIEF INSPECTOR H. H. TONGA. Crown Prosecutor. He is in charge of the Prosecuting Section, and supervises all Magistrate and Supreme Court hearings on behalf of the Crown, in addition to preparing appeals. His office is at the Central Police Station. 14½ years service, he was trained in New Zealand and United Kingdom; from Neiafu, Vava'u but living at Kolofo'ou.

CHIEF INSPECTOR P. S. VIVILI, Officer Commanding Eastern District, Tongatapu. Stationed at Mu'a, his area covers 22 villages. 13 years service, he was trained in Australia and United Kingdom; from Hihifo, Niuatoputapu.

SERVANTS OF THE PEOPLE

From Page 2

DETECTIVE CHIEF INSPECTOR 'I. TONGA, Officer Commanding Criminal Investigation Department. He is responsible for criminal investigation throughout the Kingdom. His office is at Headquarters. 23 years service, he was trained in Australia; from Kolofo'ou.

CHIEF INSPECTOR F. TU'ITUPOU, Officer Commanding, Va'va'u District. 28 years service, he was trained in Fiji. His area covers Niuatoputapu, Niuafo'ou and the whole of Vava'u Group; from Kolonga, Tongatapu.

CHIEF INSPECTOR T. M. TI'O, Officer Commanding Police Training School, Mobile Unit and Traffic Section. 19 years service, he was trained in New Zealand, Fiji, Australia and United Kingdom; from Kolomotu'a.

INSPECTOR S. FILIMOEHALA, Officer Commanding, Ha'apai Group. 29½ years service, his area covers over 1500 sq. miles and 19 islands. Locally trained, he is from Ma'ufanga, Tongatapu.

INSPECTOR THE HONOURABLE 'AHOME'E, Officer in charge of Immigration and Passports. 14½ years service, he was trained in New Zealand and United Kingdom; from Ha'avakatolo, Tongatapu.

INSPECTOR U. TAUPAKI, Officer in charge of Special Branch. 23 years service, he was trained in United Kingdom; from Falehau, Niuatoputapu.

INSPECTOR S. FETU'U, Second in commanding Central Police District. 20 years service, he was locally trained; from Lifuka, Ha'apai.

DETECTIVE INSPECTOR L. LOVO, Second in command Criminal Investigation Department and Officer in charge of Crime at Central Police District. 20 years service, he was locally trained; from Houma, Tongatapu.

INSPECTOR F. PENITANI, Officer Commanding Western District, Tongatapu. His area covers 17 villages on the mainland and the island village of 'Atatā, 20 years service, he was trained in Fiji and United Kingdom; from Ha'afeva, Ha'apai.

SERVANTS OF THE PEOPLE

From Page 3

INSPECTOR T. F. MOA, on vacation leave, will be in charge of the Mobile Unit and Second In Command, Police Training School. 20½ years service, he was trained in Fiji and United Kingdom; from Fāhefa, Tongatapu.

SERGEANT MAJOR S. MA'ASI, Force Quartermaster. Office is at Headquarters. 3½ years service, he was formerly a Captain in the Tonga Defence Force; trained in New Zealand. From Tatakamotonga.

SERGEANT MAJOR T. TAUFA, Officer in charge of the Bailiff Section, which has Kingdom wide coverage. He is responsible for executing many thousands of warrants annually. 27 years service, he was locally trained; from Vaini, Tongatapu.

SUPERINTENDENT OF PRISONS, TEVITA TAPUFLUELU. Head of Department and responsible to the Minister for the administration of the five Prisons in the Kingdom. His office is at Hu'atolitoli General Prison, Vaini. Formerly an Inspector of Police. ...Tapueluelu served 24 years in that Department followed by 13½ years service in the Prison Department. From Neiafu, Va'va'u.

ASSISTANT SUPERINTENDENT OF PRISONS, SIOSAIA FIFITA MASIMA. Second In Command of the Prison Department. A former Police constable he transferred to this Department in 1942; trained in Australia; from Fakakakai, Ha'apai.

V. LIKIŌ, GAOLER. He is responsible for the operation of the Kingdom's largest Prison at Hu'atolitoli, which caters for remand, civil and criminal prisoners; includes female prison and maximum Security Block....A former Police Sergeant, he served 19 years in that department before transferring to Prisons in 1969. From Hihifo, Niuatoputapu.

This Way That Way Which Way	Teaching children (7-12) road safety	8m 15s
A Day at the Zoo	A mother takes her two children for a day's outing at Sydney Zoo	10m
A Day at the Beach	A city family spends a day at a coastal beach	10m

ROYAL PALACE IN AUSTRALIA?

The Australian Government intends to offer Queen Elizabeth a permanent royal residence near Canberra, according to the London Daily Mail's diarist Nigel Dempster.

He says the proposal has already been discussed tentatively by officials.

The diary continued: "The idea will give an uplift to Anglo-Australian relations, jaded after the recent EEC decision.

"It is largely the brainchild of "King Billy" McMahon (63), the Australian Prime Minister, who is a conservative traditionalist anxious to strengthen his country's ties with Britain.

The Daily Mail says Mr McMahon is an enthusiastic royalist and agrees with his advisers that one royal tour of Australia every seven years is no longer enough.

The diarist concludes: "They hope that all members or the Royal Family will visit Australia more frequently if they have their own home there.

Corrections

The new foreign exchange rates published in last weeks Chronicle should obviously have read effective January 3, 1972 and not 1971.

The twin girls born to Mrs Lucila Abolencia on New Year's Eve were four weeks premature and not four months as incorrectly stated in the caption to the picture on the front page of last week's Chronicle.

We apologise for any embarrasment or inconvenience we may have caused to those concerned by these errors.

TONGA PREPARES FOR SOUTH PACIFIC ARTS FESTIVAL IN SUVA

BY HOPOATE MOENGĀNGONGO

About 200 Tongans will be presenting five indigeous dances and songs at the South Pacific Arts Festival in Suva on May 6 to 20.

A government vessel has been arranged to take the participants to Suva in late April or early May, returning at the end of the festival.

Rehearsals of dancing and singing are being held every Tuesday and Thursday at Fa'onelua Gardens under the directorship of Hon Ve'ehala and Malukava.

Because of financial difficulties, the commodity boards are providing the transport for performers to and from their villages. The seven districts of Tongatapu are providing food, with a Government subsidy.

The first of the dances which will be presented at the festival is a Me'etu'upaki which is performed by women to the accompaniment of chanting and drumming. The dance on pagan times, was performed in front of the temple. The king beat the rhythm on a drum and the young chanted the words.

The 'Otuhaka is performed by women in a sitting position and expresses the meaning of the haka with hand movement.

The Fa'ahiula is of similar origin but the women stand and dance to the accompaniment of drums, clapping and chanting.

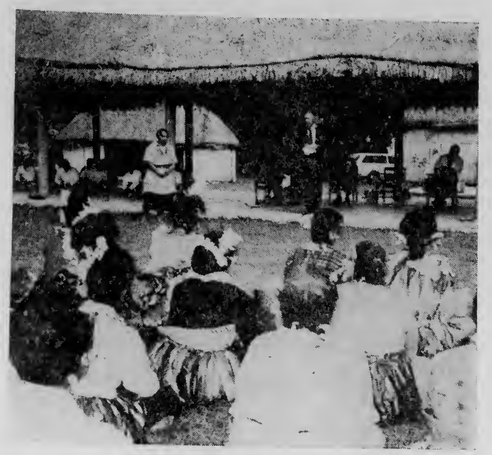
The words of the Tan'a'alo have been lost so new ones have been composed telling of the roving of double canoes. It is still chanted while pulling canoes ashore or bringing gifts to the King.

The relatively modern dance to be performed at the festival is the lakalaka. Two lakalakas composed by the late Queen Salote will be seen in Suva.

Another Tongan attraction at the festival will be a fale built of the canvas of the University to the South Pacific where demonstrations of tapa making and carving will take place.

Great interest and thusiasm has been raised among school children in Nuku'alofa at the prospect of having a painting selected for the festival. Several children have been selected to do a painting and the best will go to Suva.

Complete sets of Tongan stamps will be displayed at the festival centre.



The executive director of the South Pacific Arts Festival, Mr Victor Carrell speaks to the performers at a rehearsal in Fa'onelua Gardens just before Christmas. Also standing out in front is the Hon. Ve'ehala.

Sikei Toupili and Mrs Telēsia Salt, both from Ma'a, dressed for the rehearsal at the gardens just before Christmas.

Postings And Transfers Of Teachers

The Education Department announces the appointments and transfers of Government Primary School Teachers for the present school year beginning February 1.

In making these arrangements, account has been taken of all factors and aspects including valid requests for transfer and the present policy whereby all teachers are required to serve for three years on one of the outer islands.

Teachers whose names do not appear in the list of transfers are not affected and will remain at their present school.

All teachers on new appointment and on transfer must make sure that they complete their travel arrangements in good time to take up duty at their new school on February 1, the opening date of the new school year.

Travel arrangements: Teachers who are travelling away from Tongatapu should report to the Education Office at 9 a.m. on Thursday, January 20 to receive instructions about transfer and transport.

Teachers who are travelling from one school to another within Tongatapu should report to the Education Office at 9 a.m. on Tuesday, January 25 where some assistance with transport may be given.

Teachers travelling out of Ha'apai and Vava'u, should contact the Area Organiser where they will be informed of the arrangements. They should do this not later than January 20.

For teachers travelling within Ha'apai group, the Education Department will provide a boat to make a round trip. Details will be announced later.

The appointments and transfers are as follows :—

"DEAR SIR..."

COPRA BUYING

Sir,

I wish to express my dissatisfaction with the unsatisfactory decisions and services of the Tonga Copra Board in serving the growers at their copra-buying sub-stations in Tongatapu.

In the sub-stations at Nukunuku, Te'ekiu, Kolovai and Houma in the Hihifo District and Vaini, Pea, Pelehake, Kolonga, Talafo'ou, and Mu'a in Hahake.

The grower goes with his copra to the station on or about 8 a.m. and waits until well after 9 a.m. for the copra inspector and his staff to arrive.

On their arrival they begin to inspect the copra and classify it through wire netting, and may start weighing and paying the growers at 12 mid-day. The inspector declare business closed at 3 a.m. as they have to return to their headquarter at Havelu.

Sometimes they have to stop early because they haven't got enough cash to pay the growers. This forces them to return to Havelu earlier leaving growers in distress.

I have received the following answer in reply to my inquiries and investigations.

That the money received by the inspector for buying copra is received from the board's cashier in notes every morning. The inspector, however, has to go to Nuku'alofa to exchange several notes in coins before departing to the sub-station. Sometime he arrive there by midday.

The reason for closing at 3 p.m. is that the manager had allegedly issued instructions that any inspector or his staff did not report back before 4 p.m., there would be no overtime payment.

To avoid inefficiences, I suggest:

That the board's management be prepared to serve the people eight hours a day at the sub-stations, rather than leaving the growers waiting there for hours.

That the manager should accept the inspector's estimated amount of cash he takes to the sub-stations because the inspectors know by experienced how much money will be required for growers.

The important thing to remember is to serve the needs of the public but not to rule them.

V. TAFOKITAU TAPEALAVA.

Letters to the Editor.

EXPECTED ARRIVALS

ORSOVA : Today from Auckland.
SHOTA RUSTAVELI : Today from Sydney.
AONIU: Saturday from Suva via Apia.
'OLOVAHA : Tuesday from Ha'apai and Vava'u.
IBERIA : Wednesday from Pago Pago.

PROJECTED DEPARTURES

ORSOVA : Today for Suva.
SHOTA RUSTAVELI : Tomorrow for Suva.
PAKEINA: Tomorrow for Vava'u and the Niuas.
'OLOVAHA : Monday for Ha'apai and Vava'u.
IBERIA : Wednesday for Auckland.

UNIVERSITY OF THE SOUTH PACIFIC

The U.S.P: Centre Announces the following programme in Nuku'alofa starting at the end of this month.

MONDAY – ACCOUNTING,

New Voices . . . Literature of Development Countries
Both Starting January 31

TUESDAY – TECHNICAL ENGLISH

TECHNICAL DRAWING both starting January 25
TEACHING TECHNIQUES & TEACHING AIDS
ENGLISH FOR CIVIL SERVANTS
POLYNESIAN CULTURE all starting Febuary 1

WEDNESDAY – ARCHIVES RESEARCH GROUP
ORAL ENGLISH FOR YOUR JOB
SIMPLE ACCOUNTING FOR FAMILY FIRMS
all starting January 26.

TONGAN ORAL LITERATURE
starting Febuary 9.

THURSDAY – MANAGEMENT AND STAFF FOR SMALL FIRMS starting Febuary 10.

TONGAN HISTORY starting January 27

FRIDAY – The first public lecture will be on Friday, 21 at 8.00 p.m.
Speaker : Sione Tupouniua.
Subject : "CHANGE IN THE SOUTH PACIFIC"

Friday evening will be used for activities at monthly or less frequent intervals, lectures, films music and creative writing in English and Tongan.

THE NEXT CREATIVE WRITERS MEETING IS AT 8.00 P.M. ON JANUARY 19.....

SATURDAY – CREATIVE ARTS FOR TEACHERS 9.30 – 10.30. Starting January 20.

Detailed Programmes available from U.S.P Centre, Shortly, in the meantime all enquiries to Miss Margaret Blundell, 47 Sopu.

SOCCER UNDER WAY AGAIN

By CHRIS

After a long delay due to rain and holidays, Soccer started again for 1972 in fine weather at 'Atele on Saturday, before His Majesty and a large crowd.

It was most pleasing to see that nearly all the teams are now properly dressed in their team colours and it made quite an impressive sight to see games being played on the four pitches that have been provided.

The standard of play has improved considerably and the positional play of Kolofo'ou shows clear evidence of training and great interest. Next Saturday a representative team will be selected to play against a team from the cruise ship "Ocean Monarch" on January 26.

Tupou College showed good combination and a speed to beat Ha'ateiho 3 - 1. This College team has shown steady improvement since they started and will take a lot of beating this season.

Niuvakai B unexpectedly beat Tonga College by one goal to nil in a fast, well played game. The fast moving Ngele'ia A team could only draw two each with Fotu'afinemā and will have to recapture their old form if they want to get into the final again this year.

Veitongo B delighted their supporters by beating St. Andrew's 5 - 1. These Veitongo teams get great support from their village and the encouragement certainly keeps then on their toes.

The match between Kolofo'ou A and Tonga College A was excellent and although Kolofo'ou won by 2 goals to nil there is no doubt that the College team will give a good account of themselves as they acquire more skill. The positional play of Kolofo'ou was nice to watch, but there was still a tendency to hold the ball a little too long.

Toafaka'amu and Kauvai drew, each scoring goal and both teams showed good ball control. Veitongo A played like champions and beat Royal Guards 5 - 0. The Guards started very well and looked dangerous, but they were unable to take advantage of their scoring chances and seemed to lose heart in the second half. They should do much better than they have previously.

Ha'ateiho B beat Ngele'ia 2 - 0.

The girls played friendly games, with the exception of Ha'ateiho who beat Veitongo 2 - 1.

During the afternoon His Majesty presented instructional booklets, "Know the Game" which are published by the British Football Association. These were sent by Mr Basil Jeuda, specially for the girls.

SATURDAY DRAW

2.00 pm No. 1 Tonga College v Niuvakai A.
No. 2 Ha'ateiho B v Fua'amotu.
No. 3 Kauvai v Veitongo Youth Club.
3.00 pm No. 1 Lotoha'apai United v Veitongo B.
No. 2 Ha'ateiho A v Ma'ufanga.
No. 3 Kolofo'ou B v Niuvakai B.
4.00 pm No. 1 Fotu'afinemā v Tupou College.
No. 2 Langileka v Royal Guards.
No. 3 St. Andrew's v Toafaka'amu B.
5.00 pm No.1 Kolofo'ou A v Toafaka'amu.
No. 2 Veitongo A v Ngele'ia A.
No. 3 Tonga College B v Ngele'ia B.

WOMEN'S DIVISION

3.00 pm No. 4 Ha'ateiho v Ma'ufanga.
3.50 pm No. 4 Kauvai v Katokakala.
4.40 pm No. 4 Kolokakala v Veitongo. Youth Club.

The president and the secretary of the Tonga Soccer Football Association have arranged with the purser of the tourist ship "Ocean Monarch" a game of soccer between a ship's crew XI and a Tonga XI during the ship's next visit on January 26.

Boxing Starts January 28

The first amateur boxing tournament for this year will be held on Friday, January 28. The association has announced that nominations together with the fee of 50 seniti must be in by Wednesday, January 26.

The secretary, Mr D. Wendt, said that the committee is awaiting confirmation from Tahiti regarding an invitation for three Tongan amateur boxers to compete in a tournament in Papeete at the end of next month.

The Oceania Championships will also take place in Papeete during June.

Australia and New Zealand, as well as member countries of the South Pacific Games, are eligible to take part in this tournament.

It is hope that Tonga, for the first time will be represented, Mr Wendt said.

INFORMATION

ANNOUNCEMENT

The Education Department wishes to remind parents and guardians that school fees for the first term should be paid before the school year begins on February 1.

Pupils presenting themselves at school for enrolment will be asked to show receipts for fees paid and they should bring their receipts with them to school on the opening day.

DIRECTOR OF EDUCATION.

VACANCY

A vacancy has occurred in Co-operative Development for a recorder, whose duties will include maintenance of co-operative societies records; statistical records; routine correspondence and some typing with receptionist duties. Female applicants aged between 18 years and 25 years who are in possession of a Higher Leaving Certificate or an equivilent qualification, competent in both written and spoken English and Tongan, should apply in their own handwriting in English to the Co-operative Adviser, Department of Agriculture, P.O. Box 14, Nuku'alofa, not later than Monday, January 17, 1972. Salary will be upon a daily basis of T$1.25 a day.

TRIP TO 'EUA

The M.V. "JUST DAVID" will sail again for 'EUA this Saturday, January 15, at 9.00 a.m. from Faua Wharf, returning the same day.

Adults : 80c each way, students and children half pay.

A truck for a three-hour sightseeing tour can be arranged for those who want to visit 'Eua for the day.

FOR SALE

Deep Freezer, 16 cub ft.; used for only 9 months, still in good condition. Contact Mr and Mrs Tu'ifi'le'ila, Kolomotu'a: cost $160.

Tip News

Ring the Chronicle, Nuku'alofa 302B, or come to the Chronicle office, Premier's Office, if you think you know of a news item or have a news picture.

Intruders Had Bayonet At Host's Throat

By Paua Manu'atu.

THE TIME : 10.30 p.m. September 12, 1971.
THE PLACE : 12 Barclay Road, North Rocks, Sydney.
THE INCIDENT : A man's life was probably saved by a Tongan.

The Tongan, Mr Meli Faleola (45) of Ngele'ia, is a local lawyer who with his wife 'Ofa visiting Sydney, became the house guests of a dental surgeon Dr Walter Wearn (72) O.B.E. and his wife Polly.

One quiet night two men entered Dr. Wearn's house and attacked him with a bayonet.

Mr Faleola, who was in bed, was woken by Mrs Wearn's cries for help. Mr Faleola said, "It was like a nightmare. I woke up and dashed to the lounge where I saw Dr Wearn on the floor with blood on his head. A man was holding Dr. Wearn against the floor with a bayonet at his throat.

'Another man was at the doorway to the doctor's bed-room holding the door closed to keep Mrs Wearn out of the lounge."

Seeing the doctor helpless Mr Faleola attacked the two men. In the fight that developed the two men tried to escape.

"One of them who managed to get out first ran to a waiting car and sped off leaving the other running into a rose garden nearby with me in hot pursuit."

The two men were apprehended by the police later that night.

Dr and Mrs Wearn arrived in Nuku'alofa on Tuesday to visit their Tongan friends.

Dr Wearn is the president and honorary treasurer of the Royal Far West Childrens' Health Scheme Hospital, Manly.

Dr Wearn and his wife had an audience with His Majesty yesterday afternoon.

The couple plan to spend three weeks in the Kingdom before returning to Australia.

A Winning Choir

The Fasi Free Wesleyan Church Choir which won the church choir without accompaniment section of the Tonga Broadcasting Commission annual music festival held at the Mala'e Pangai on Friday night. The conductor is Sonu'u Vuni.

Winner of other sections were:

Traditional song without accompaniment: Fā'onelua

Womens' trio: Faifainoa

Lakalaka: Fā'onelua

Primary school choir: G.P.S. Haveluloto

New song unaccompanied: Tonga College Old Boys, Kolomotu'a

Mens' quartet: Fie'aonga.

Traditional song with accompaniment: Fangufangumana 'a Fusipala.

New song accompanied: Mapuhoi 'a Maui

Church choir with accompaniment: Lapaha Catholic Church and the Maopa Choir (equal).

This And That

CHRONICLE DIARY

The dispensary at Vaiola Hospital was due to open at 8.30 last Saturday morning but it didn't open until about noon. We hear that the duty dispenser apparently went missing and another had to be recalled from the bush. He didn't even have time to change his clothes before he had to deal with the people who had been waiting nearly four hours for dispensary service.

* * *

Bus operators abandon their service to locals on cruise ship days for the more lucrative tourist trade. Which means that workers in the outlying areas of Tongatapu come to work either very late or not at all. In the civil service no bus service is no excuse for not coming to work. With the tourist ship season reaching its peak we can see many civil servants starting out for work in the dark hours of the morning.

Talking about buses, since the latest warrant of fitness tests, only three are serviceable on the Hihifo run, instead of the usual seven.

* * *

We went to collect a parcel from the Post Office at Nuku'alofa on Monday at 3.45 p.m. only to be told parcels are no longer delivered over the counter after 3.30 p.m. We were surprised, as there had been no announcement. This is coming, we were told.

* * *

We received a newspaper from the Marshall Islands this week postmarked February 6, 1971. We wonder where it has been for nearly a year.

* * *

The Chronicle Office is still accepting gifts of handicrafts for display in London but the time is getting short. The packing case is about to be nailed down any day for despatch on a ship, but there is still a little room left to squeeeze in a few more handicrafts.

THE SCRIBES

Transformation At Old Hospital

Another transformation is taking place at the old Vaiola Hospital. These Ministry of Works painters are helping convert part of the old isolation ward into a centre for the University of the South Pacific. At the end of this month a programme of lectures will begin at the centre. (See Page 10)

Where Time Begins

Nuku'alofa, Thursday, January 20, 1972 Vol. VIII No. 33 3 Seniti

BE PREPARED FOR BIG RISE IN PRICE OF SUGAR

Three stores in Nuku'alofa have been advised from Australia there will be an increase in the price of white sugar from the next shipment, about the middle of next month.

The increase will be about four seniti a pound in two stores and nine seniti in another.

A spokesman for Riechelmann Bros. said, in December the price of white sugar went up from 9 seniti to 11 seniti a pound. Now they had been advised of a new increase which would put their price up to about 15 seniti a pound.

"There could even be a further increase", he said.

Morris Hedstrom had been advised of the increase and said they could be selling at approximately the same price.

Burns Philp said they had been advised of the increase and their new price would be about 20 seniti a pound, an increase of 9 seniti.

Lipoi and O. G. Sanft had not been advised of the increase by their agents in Australia.

The rising world price is responsible for the increase in. Tonga.

Stiff Fines For Liquor Offences

Two men who appeared at the Mu'a Magistrate court on Friday were fined $100 and sentenced to two years imprisonment for being in possession of intoxicating liquor without a permit, the maximum penalty for the offence. Failure to pay the $100 fine would incur two years imprisonment, a total of four years for the offence.

The men sentenced were Siaosi Puamau and Penisimani Kaitapu, both from Lapaha, both pleaded not guilty. The Magistrate was Sekonaia Tu'akoi.

On January 12, Magistrate Tu'akoi convicted Petelō 'Isitolo, also of Lapaha, for being in possession of intoxicating liquor, and fined him $105 or six months imprisonment.

Tongan Girl Is A VSA

A Tongan girl is one of the New Zealand VSAs arriving on Saturday for a year as a volunteer. She is Mary Meanata (picture Page 3). Her mother is Lesieli Soakai formerly of Pahu. Her father Vailima Meanata, who died last year in New Zealand, was a part-Maori. His father, Pita Meanata, a Maori, married Salote Vave of Kolofo'ou. VSA Mary is the eldest of six children and will be teaching at Chanel College, Vava'u.

New Recruits

New recruits for the Tonga Defence Force began their basic military training at Camp Taliai on Monday.

Eight of them are boys who left school last year who have been chosen as the first trade trainees for the TDF. They will be given a year's course in motor mechanics, conducted by Sergean Bruce Manson, seconded from the New Zealand Army.

The trade training will begin on January 31 and after that they will have one day a week on military training.

In the picture also are three Regular Force men who were being given military training.

From left, the new recruits are: Laumakia Tu'akoi, Siosiua Mahe, Hamoni To'a, Paula Havealeta, Pita Vi Hala'api'api, 'Alipate Tu'akimoana (all trainees), Saimone Tionisio Moala, 'Ofa Funaki (Regulars), Simione Lafo, Siopau Tāufa (trainee), 'Inoke Vi (Regular),

Absent from the photograph are S. Vaka and S. Apu, two Regular Force privates who have also been selected for the trade training course.

WORK ON QUEEN SALOTE MEMORIAL STATUE CAN NOW GO AHEAD

After over three years of negotiations, an agreement has been signed with the Australian sculptor Marc Clark to execute a memorial statue to Her Late Majesty Queen Salote Tupou.

The statue will cost $14,145 in Australian currency and is due to be completed by the middle of December this year. It could possibly be finished before that date and unveiled by then.

The site for the creation of the statue has not been chosen but it is expected to be in the Royal Tombs.

The statue will be in bronze and between seven and eight feet high, excluding the base. The style of dress will be the coronation garb and regalia worn by Her Majesty and a blend of Tongan dress. A bronze plaque with the coat of arms will be fixed to the pedestal.

Mr Clark is an acknowledged sculptor who has executed many works in Canberra, the Australian national capital. He has said in discussions that he favours bronze for the memorial statue because of its ageless quality and beauty. Burnished bronze would make an outstanding statue and could be kept in a polished state with periodic cleaning.

Mr Clark was reported to be very enthusiastic about what he considers a very challenging assignment.

PEN WRITING

"DEAR SIR..."

Letters to the Editor.

Tongan Language

Dear Sir,

The letter in the Chronicle, January 6, by Tevita Latu, is reminiscent of the distorted, rampant and critical velleities levelled out by Messr. Thaman and Jenkins of Futa Helu's article "The Fate of the Tongan Language". His references to "culture" can only be characterized as superficial.

A culture, in this context, is a way of life, which itself is rooted on certain basic attitudes toward life. Thus it has a psychological basis, and therefore the very existence of a culture and its identity, is "inextricably intertwined" with and neceessarily formulated in its language. This is even more so with Polynesian cultures.

Furthermore, a culture and its language signify an indispensable wealth of continual accumulation and development of knowledge and wisdom, over periods of ages that runs deep through the veins of a people. Tevita Latu exhibits dangerous ignorance when he presupposes, "We can always have new cultures . . . "A culture is no momentary affair of overnight and is certainly not akin to an adoptive child.

The comparison of cultures is one of attitudes toward life, and not of the paraphernalia, such as, shelter, clotthing, food and weapons. A comparison, then, would be meaningless since it would necessitate the adoption of a set of criteria, which can only be nominative. It is being submissive to pass judgement over our own culture as being backward.

If the Maori, Hawaiian and Tahitian cultures had been really "traditionally oriented and resistant-to-change" they would have all survived. India and China have exampled constancy, resourcefulness and sucess in keeping the spirit of the East aflame, amidst the thick of imperial domination by the European powers of the time.

The loss of any language, is attributable only to a loss of pride in one's culture and to a lack of gumption in a people. Here in Tonga it is preposterous to "pass the buck" on to its smallness of size. The survival of the Tongan language is centred in our minds and not in a demoralizing policy of appeasement.

English is not causative to "the better chance to a better life!" Why not Japanese or Tongan? There are very many, if not more, comfortable, happy and contented people in Tonga, who, in effect, do not know any English.

Finally, we may provide all sorts of incentives, make Tongan a compulsory subject, plus the 50% pass mark for Tongan as a pre-requisite to a pass in Higher Leaving, but if the syllabus and the subject matter are not effective the objective of rescuing the Tongan language, in this way, would be redundant, as at present.

TEVITA O. HELU.

* * *

Dear Sir,

I refer to Tevita Latu's criticism of Mr Helu's brilliant article "The Fate of the Tongan Language". Mr Latu shows a great capacity for misunderstanding deeper issues. Significantly he does not know what the word culture means and does not see that Mr Helu is arguing from the cultural level and cannot be met by purely economic considerations.

And dear Mr Latu, do not you know that the Higher Leaving examination is a lost cause and that the Tongan of the said examination is of no use to anybody.

JOHN HOENCKE.

Brass and Voice

Dear Sir. — I would like to warn those who ardently advocate the use of brass instrument for the accompaniment of choral singing. It is being intensified in Tonga especially in the classical anthem. An endeavour is being made to mould the human voice in concord with sound of brass instruments.

The sounds produced by brass the human voice, since they tend instruments are not in tune with to smother the human voice and alter the melody of the voice thus losing its proper tone. Brass also ruins the pleasantness and the wholesomeness of the human voice. The frequency with which the brass instrument changes from one note to another is extremely slow in comparison to the string instruments like violin, piano, and cello which are closely related to human voice and tend to improve and adorn it.

The famous classical anthems were composed by composers such as Handel, Mozart and Bach should be played by string instruments and not brass instruments

The pressure with which the students and some others are being digently taught to play the brass instruments is a great disadvantage to the progress that would have been made towards the higher instruments like string instruments. This is an obstacle to the improvement of the standard of music in Tonga

The brass instrument are suitable for such occasions as ceremonies, marching at the opening of the parliament, army marching and collecting money.

If music be our need then brass instruments is not the answer.

TU'IFONUALAVA FALEOLA.

Taken for Ride

Dear Sir.—Tonga, the islands where transport is practically non existent, with only a few horses, a couple of buses but no taxis.

This is the information given to passengers arriving in Tonga aboard at least two recent cruise ships, "West Star" and "Shota Rustavelli" in written brochures and verbally by shipboard agents of ground tour operators.

A smart move on their part no doubt as it fills up "the only buses available" and assures them of their profit from the short stay of somewhat sore seated tourists.

But is this a good image to create of Tonga, especially prior to tourists arriving here?

I think not and I have heard a number of recent tourists voice strong resentment to being forced, by misinformation, to take the "only bus trip available". One recent "West Star" passenger caught in this situation was an American journalist who has promised to enlighten his readers on how he was "taken for a ride in the Friendly Islands".

This situation is even more deplorable with the knowledge that the parties actively fostering this notion are in fact Tongans.

I. S. McINTYRE.

Carol Robinson

Jenny Wren

Elizabeth Harper

Simonetta Alessi

Ken Bogue

Twenty seven young New Zealanders have been selected as "school-leaver" and teacher volunteers by Volunteer Service Abroad to take up positions at schools in Tonga and they arrive on Friday and Saturday.

In all, 38 young people have been selected as one year school-leaver volunteers this year by VSA. Others will go to Fiji (5), British Solomon Islands (4), New Hebrides (3), Western Samoa, Papua/New Guinea and Thailand (2 each).

There are 118 New Zealand earlier volunteers still working in the field, and the total roll of serving and returned volunteers has now reached 500.

The objects of Volunteer Service Abroad, which was formed in 1962 are to foster mutual friendship, co-operation and understanding between the people of New Zealand and the peoples of the Pacific Islands and South-East Asia.

VSA is an independent organisation, but receives substantial help from the New Zealand Government, which pays volunteers fares, makes a grant for administration expenses and provides office accommodation.

The New Zealand Ministry of Foreign Affairs advises on projects, helps with selection of volunteers and, in countries where New Zealand maintains diplomatic posts, acts in the field on VSA's behalf.

GIRLS: Simonetta Alessi (Wellington High School) to a Catholic primary school; Helen Robbins (Villa Maria College, Christchurch) to Pea Primary school; Elizabeth Harper (St Mary's College, Wellington) to Holonga primary school; Carol Robinson (Sacred Heart College, Lower Hutt) to Chanel College, Vava'u; Mary Meanata (Seddon High School, Auckland) to Chanel College, Vava'u; Joan Skinner (St Mary's College, Wellington) to Ha'apai Primary School; Frances Thomas (Carmel College, Auckland) to Ma'ufanga Catholic Primary School; Rosemary Dixon (Hutt Valley High School) to Tupou High School, Nuku'alofa; Colleen Studd (Avondale College, Auckland) to Nukunuku Primary School, Tongatapu; Laura Harrington (Mairehau High School, Christchurch) to Siu'ilikutapu College, Vava'u; Paula Jameson (Avonside Girls' High School, Christchurch) to Pilolevu College, Ha'apai; Jenny Wren (Kaikorai Valley High School, Dunedin) to Tupou High School, Nuku'alofa; Helen Adeane (Nayland College, Nelson) to Nuku'alofa Middle School; Catherine Campbell (Whangarei Girls' High School) to Pilolevu College, Ha'apai.

BOYS: Richard Faulding (De La Salle College, Auckland) to St John's High School, Ma'ufanga; Bernard Green (Edmund Rice College, Rotorua) to Tupou College, Toloa, Bill Clark (Otago Boys' School, Dunedin) to Tupou College, Toloa; Bill van Peer (Hillmorton High School, Christchurch) to Mailefihi College, Vava'u; Ken Bogue (Mahurangi College, Warkworth) to Taufa'ahau College, Ha'apai.

Also arriving this week are NZ six teacher trainee volunteers and a trained teacher.

The trainees are Kathryn Stewart (Wanganui) to St Mary's High School, Margaret Ryan (Kumara) to St Mary's, Helen Selwood (Nelson) to St Marys, Suzanne James (Southbrook) to Nuku'alofa Middle School, Leigh Muller (North Shore) Queen Salote College, and Elizabeth Dowman (Hamilton) to Queen Salote.

The trained teacher, Judith Reid, (Rotorua) is going to Tonga High School.

UNIVERSITY OF THE SOUTH PACIFIC

The U.S.P: Centre Announces the following programme in Nuku'alofa starting at the end of this month.

MONDAY – ACCOUNTING,
NEW VOICES . . . .
LITERATURE OF DEVELOPING COUNTRIES
Both starting January 31

TUESDAY – TECHNICAL ENGLISH
TECHNICAL DRAWING both starting January 25
TEACHING TECHNIQUES & TEACHING AIDS
ENGLISH FOR CIVIL SERVANTS
POLYNESIAN CULTURE all starting Febuary 1

WEDNESDAY – ARCHIVES RESEARCH GROUP
ORAL ENGLISH FOR YOUR JOB
SIMPLE ACCOUNTING FOR FAMILY FIRMS
all starting January 26.

TONGAN ORAL LITERATURE
starting Febuary 9.

THURSDAY – MANAGEMENT AND STAFF FOR SMALL FIRMS starting Febuary 10.

TONGAN HISTORY starting January 27

FRIDAY – The first public lecture will be on Friday at 8.00 p.m.

Speaker : Sione Tupouniua.
Subject : "CHANGE IN THE SOUTH PACIFIC"

Friday evening will be used for activities at monthly or less frequent intervals, lectures, films music and creative writing in English and Tongan.

THE NEXT CREATIVE WRITERS MEETING IS AT 8.00 P.M. ON JANUARY 19.....

SATURDAY – CREATIVE ARTS FOR TEACHERS
9.30 – 10.30. Starting January 20.

Detailed Programmes available from U.S.P. Centre, Shortly, in the meantime all enquiries to Miss Margaret Blundell, 47 Sopu.

S. PACIFIC LEADERS TO MEET AGAIN

The Prime Minister, H.R.H. Prince Tu'ipelehake will be attending the second meeting of the South Pacific Forum to be held in Canberra, Australia, from February 23 to 25.

The Australian Prime Minister, Mr William McMahon, has been in touch with the leaders of the region concerning attendance and agenda items.

Much of the agenda for the forum will be related to the topics raised in the first meeting of the group in Wellington last year.

Regional shipping and trade will be discussed together with a report on the trade meeting held more recently in Wellington by officials of the governments involved.

President Hammer De Roburt of Nauru is expected to present detailed plans for establishing a regional disaster fund.

Premier Albert Henry of the Cook Islands is to report on a marine development project in his islands.

The Prime Minister of Fiji, Ratu Sir Kamisese Mara, is expected to bring up a subject crowded off the Wellington agenda — the role of the Press in developing countries.

'Atenisi Exam Results

The University Division of 'Atenisi College has announced the following examination results for 1971 :

Mathematics (Pure and Applied) 1 : 'Inoke Fotu Hu'akau, Pangai; Tevita 'Ofa-he-mo'oni Helu, Lotofoa.

Philosophy 1 : 'Osaiasi K. Tu'akalau, Vaotu'u; 'Epeli 'Uhamaka, Vaotu'u; Sione Tu'ifonualava Faleola, Neiafu; Tevita 'Ofa-he-mo'oni Helu, Lotofoa; 'Inoke Fotu Hu'akau, Pangai.

Tongan Culture 1 : Lātū Selu Tu'itupou, Lapaha; 'Inoke Fotu Hu'akau, Pangai; Sione Tu'ifonualava Faleola, Neiafu; Tevita 'Ofa-he-mo'oni Helu, Lotofoa; 'Epeli 'Uhamaka, Vaotu'u.

THE BIGGEST ENGINEERING JOB UNDERTAKEN IN THE KINGDOM

The biggest engineering job to be undertaken in the Kingdom by local workers was the repairing of the Norwegian freighter "Lorena" at the Marine workshop at Vuna Wharf.

The work which started on November 3 under the supervision of the Marine Superintendent Engineer, John Faletau, lasted six weeks.

The "Lorena", while on charter from New Zealand to the Cook Island with a cargo of frozen meat broke down and was taken in tow to Nuku'alofa by the "Hifofua".

The original cause of the break down was the "Lorena's" thrust bearing, but a thorough check of the vessel by the workshop staff showed there was greater damages than expected and major repairs were involved.

The story of the repairing of the "Lorena" is told in pictures :

ABOVE : The Marine Superintendent Engineer, Sione Faletau watches as the staff puts in position the main pinion shaft and gear wheel.

FAR RIGHT : The repairing of the thrust bearing.

RIGHT : The Tonga Construction Company crain was used to lift out the 2½-ton main pinion shaft and gear wheel from the "Lorena" to the workshop.

FAR LEFT : A specially designed 100-ton puller being used to lift out the main pinion shaft and gear wheel out of its bed plate.

LEFT : The propeller shaft being raised three inches for final repairing.

Some Air Fares Might Be Cut

Air Pacific might be able to cut some of its regional air fares, the chairman, Captain Gordon Allan, said in Suva last Friday, according to the Fiji Times.

Captain Allan said: "At the moment we have no plans to increase fares. In fact, we are going to do a special study about correcting some fares which are perhaps anomalously high."

Captain Allan cited the 450 mile Suva – Nuku'alofa and the 1500 mile Nausori – Tarawa routes.

He said there was a need to get fares down to a level which people could afford. Other fares could be kept at present levels because the airline was successfully maintaining the difference between revenue and expenditure.

Captain said the growth of Air Pacific's passenger traffic was contributing to this position. It was increasing 20% between Fiji, Tonga and Western Samoa; 15% between Fiji and the British Solomon Islands; and by about 10% between the Solomons and New Guinea and between Fiji and Gilbert and Ellice Islands.

The frequency of some services was being restricted because some destinations did not have enough hotel rooms.

Captain Allan said preparations for the start of jet services in April were going well, with the first BAC III airline o n order due to arrive at Nausori on March 14.

As soon as Tonga, the Solomons and the Gilbert and Ellice Islands had improved their airstrips, a second jet would be needed, he said.

At Air Pacific's board meeting in Suva last week, the shareholders – six Pacific Islands Governments and three international airlines – agreed to increase their shareholdings to help pay for jets.

Australia's Image Attacked

Australia's image among the newly independent Pacific Island countries has come under strong attack.

A half-page article in the Australian Financial Review said the image could stand refurbishing and there were signs the Federal Government was keen on doing that.

It said that to Fiji, Nauru, Tonga and Western Samoa, Australia was the major economic power.

"There is also a criss-cross of views of Australia as the largest exploiter, the biggest colonialist, the most racialist and a country that has preferred wider horizons in its foreign relations rather than contact with its immediate neighbours," the article said.

Australia should show more interest and use some of its technical and financial resources to help the new nations overcome their problems, the article said.

Australia continually came a "cropper" on immigration policy.

"Island feeling about Australian restrictiton is quite strong, and small wonder.

"The Fiji Prime Minister, Ratu Sir Kamisese Mara, for instance travels on a Brtish passport. But because he is non-European, he has to obtain a visa before entering Australia.

The head of the Prime Minister's department also travels on a British passport, but because he is European he can just walk into Australia without prior approval".

The article suggested Australia could declare that South Pacific Islands are of immediate concern to Australia and that coloured citizens could obtain easier entry while current restrictions would remain for others.

One Man, 100 Cases

Tutone Ma'asi of Ha'avakatolo, one of the biggest growers in the Hihifo district chucking a bunch of banana ready to be packed for shipment. In the last shipment on the "Tofua" he packed 100 cases.

Last year Ma'asi received two prizes at the annual agricultural show, the Tonga Produce Board Cup for the best banana plantation in production and the second prize for the best banana plantation not in production.

Tongan To Edit Pacific Journal

A new journal called Pacific Perspective will be launched in March, with Sione K. Tupouniua of Tonga as editor. He is a lecturer of political science at the University of the South Pacific and was educated at Harvard and Oxford.

Pacific Perspectives, to appear twice a year, will contain articles on social, political and economic matters as well as commentaries on affairs current in the area.

WEDNESDAY: Mails to all countries by Air Pacific plane - Registered Mail close 8.30 a.m., Ordinary mail close 9.00 a.m.

THURSDAY: Mails to all countries by Air Pacific plane - Registered Mail close 11.00 a.m., Ordinary mail close 12.00 noon.

FRIDAY: Mails to Apia and Pago Pago by Air Pacific plane - Registered mail close 8.30 a.m., Ordinary mail close 9 a.m.

SATURDAY: Mails to all countries by Air Pacific plane - Registered mail close 4.30 p.m. (Friday) Ordinary mail close 9.00 a.m. (Saturday).

This schedule is liable to alteration if any change occurs and the public will be advised immediately.

VACANCIES IN THE HEALTH DEPARTMENT FOR TONGAN OVERSEAS REGISTERED NURSES

Applications are called for 2 vacancies in the post of Health Sisters in the Health Department from overseas qualified and registered Tongan Nurses. The Salary scale for these posts is T$870 x 54 - 978 x 84 - 1230 EB 1326 x 96 - 1710 plus an uniform allowance at T$40 p.a. Living-in allowance at T$130 p.a. will be deducted if you live-in.

Applicants are requested to apply in your own handwriting in English, and to send copies of Certificates and testimonials to reach the Matron, Vaiola Hospital not later than 16th February, 1972.

SOUTH PACIFIC ARTS FESTIVAL 1972

Tonga's Committee for the South Pacific Arts Festival have undertaken to provide exhibits of art by adults resident in Tonga.

Accordingly, interested persons are invited to submit examples of their paintings which can be considered as exhibits to be submitted to the Tonga exhibition of art at the festival in May.

The works may be in oil, water colour or other medium and the only condition is that the work should have been carried out in Tonga. A specially appointed sub-committee will judge the examples of work submitted and make the final selection of those pieces which will be forwarded for display at the Tonga exhibition at the festival.

Interested persons who require further information should contact the Director of Education by letter, telephone or personal visit to the Education Office.

All examples of art should be submitted to the Director of Education in time to reach him not later than 28 February.

WIND CAUSES UPSETS

By CHRIS

The strong wind made ball control difficult and caused some unexpected results at Saturday's soccer before His Majesty and a large crowd of fans.

Most surprising was the defeat of Veitongo A - who have not lost a match for two years - by Ngele'ia A by 2 goals to nil.

This was a very fast and hard fought game but whilst Ngele'ia took full advantage of the wind in the first half to score twice, Veitongo were unable to take advantage of their many scoring chances.

Niuvakai A beat Tonga College in a fast and well controlled game by 3 - 1. The College team was always dangerous, but could not find the net.

Veitongo Youth Club beat Kauvai by the only goal scored and were well supported by their village who were cheering them on.

Veitongo B beat Lotoha'apai 3 - 0 in a well contested game where the wind again played quite a part.

Fotu'afinema beat Tupou College 2 - 1 in a surprise win as the Tupou team have an excellent defence and have shown great form this season.

Royal Guards did well to beat the greatly improved Langileka team 2 - 1. Both these teams were well turned out and gave a good display of controlled soccer. They are to be congratulated for their game.

Toafaka'amu B beat St Andrews by 2 - 1 and both teams seemed to suffer from the strong wind.

Kolofo'ou A gave a polished display of positional play and accurate passing to beat Toafaka'amu A 4 - 1. If Kolofo'ou continue to play the way they are now they will regain their old position as champions, so look out Veitongo.

Tonga College B beat Ngele'ia B 2 - 0 and saved the day for the College teams.

The girls gave a spirited display of soccer and the shorter pitch that has been provided for them seems to make them much faster and accurate.

Katokakala (The girls in blue) beat Kauvai 2 - 0 , but played a second game against Veitongo Youth Club and lost by the same margin.

The selectors are busy picking the Tonga representative team as it is now felt that Tonga can offer serious competition.

A match against the cruise ship "Ocean Monarch" has been arranged for January 26, and negotiations for a Fiji team to visit are in hand.

SOCCER DRAW

2.00pm 1 Toafaka'amu A v Niuvākai A
2 Ha'ateiho B v Veitongo B
3 Kolofo'ou B v Ngele'ia B
3.00pm 1 Ngele'ia A v Langileka
2 Toafaka'amu B v Lotoha'apai United
3 Kauvai v Niuvākai B
4.00pm 1 Tonga College A v Royal Guards
2 Fotu'afinemā v Ma'ufanga
3 St Andrew's v Veitongo Youth Club
5.00pm 1 Ha'ateiho A v Kolofo'ou A
2 Veitongo A v Tupou College
3 Tonga College B v Fua'amotu.

WOMEN DIVISION

3.00pm 1 Kauvai v Veitongo Youth Club
3.50pm 2 Katokakala v Kolokakala
4.40pm 3 Veitongo v Ha'ateiho
Bye for Ma'ufanga.

Next Wednesday a Tonga XI will play a team from the crew of the cruise ship "Ocean Monarch" at Mala'e Pangai at 3pm.

BOOK SALE

Books at reduced price will be on sale on Monday, January 24, at 9.00am.

This And That

CHRONICLE DIARY

Third Officer on the cruise liner "Iberia" which called at Nuku'alofa yesterday was Peter Alec Young who was in Tonga between 1953 and 1956 and was at the Side School for a year. His father, Kenneth G. Young, was the first Director of Works from 1953 to 1959 and is now living in Havants, Hampshire, United Kingdom. Mr and Mrs Young send greetings to their friends in Tonga. Peter Young will be back again when the "Iberia" returns on February 12.

* * *

It was a shock to many customers on Thursday afternoon when they found the liquor departments of Morris Hedstrom and Burns Philp bolted and barred. Because their licences had not been renewed the police instructed the stores to suspend selling of liquor. Both stores had written applying for renewal of their licences but these had not been officially granted. On Monday, about 4 p.m., the ban was lifted. As one store spokesman told us, rather charitably we thought, "It was all a misunderstanding".

THE SCRIBES

This is a picture we took in Nuku'alofa, not in some port in the Far East. We saw tourists from the "Iberia" yesterday taking a similar photograph. It looks suspiciously like begging to us. Tourists have told us that they are surprised to see begging in Tonga and we are concerned at the impression visitors get when they are confronted with this scene. The notice says: "Welcome visitors. Please I want some helps from you. Help! I have no family. I have no friend. I can't do any work."

BLIND BOY MAY GET TWO GOOD EYES

A Tonga College boy going blind, who left for Australia in July for operations in an attempt to save his sight, is reported to be making good progress and there is hope of him regaining sight in both eyes.

The boy is Makaafi Fāinga, son of Mr and Mrs 'Ikani Fāinga of Kolomotu'a.

His science master at Tonga College, Mr Bill Toussaint, is in Australia on leave and has written that Makaafi is in good spirits and that the dermoid cyst on his left eye has been removed. As the treatment on his left eye had just about been completed, Mr Toussaint was hoping to bring Makaafi back to Tonga with him, but now it looks as if something may also be done for the right eye which was previously thought inoperable, he said.

Dr Peter Anderson, an eye specialist at St Vincent's Hospital in Sydney has decided to make a corneal transplant in the right eye some time next month. This makes it unlikely that Makaafi would be ready to return to Tonga before the end of March or early April.

As Mr Toussaint's letter says, "he should have a good grasp of English by then anyway".

Mr Toussaint also said that Makaafi is very popular with the nurses and other patients at St Vincents.

Mr Toussaint speaks highly of the part played by Dr Anderson who is carrying out the operations free of charge, and Mr Roy Cousins, a former postal adviser to Tonga, who has been handling the arrangements in Sydney and looking after Makaafi.

Behind the whole project has been the Rotary movement.

Mr Toussaint is a member of the Rotary Club of Nuku'alofa and he first reported Makaafi's case to the club. The secretary, Mr H. V. Barnard, approached the Rotary Club of Bathurst, N.S.W. and they undertook to assist.

Both Dr Anderson and Mr Cousins are also Rotarians. Mr Cousins and the Director of Agriculture, Mr John Pitman, founded the Rotary Club of Nuku'alofa.

Local Rotarians lived up to their motto of "Service before Self" and rallied at the last minute before Makaafi left for Australia and ensured he was fully epuipped with clothing for the journey to Sydney and for the time he has had to spend there.

When Makaafi eventually returns to Tonga his air fare is being provided by the Vaiola Hospital Board of Visitors.

First Tongan Bishop For Roman Catholic Church

His Holiness, Pope Paul, has appointed the Most Reverend Patelesio Punou-ki-Hihifo Finau, S.M., M.A., Coadjutor-Bishop with right of succession to the present Bishop of Tonga the Most Reverend J. H. M. Rodgers, S.M., D.D. This means that Bishop Finau will become the first Tongan Catholic Bishop of Tonga on the resignation or death of the present bishop.

Bishop Rodgers said, "Bishop Finau's appointment was seen as a further advance in the policy of localisation of the Catholic Church everywhere.

His Holiness Pope Paul has conferred a signal honour on the new bishop and the Kingdom of Tonga also by inviting him to be consecrated bishop in Rome on February 13. The Pope himself will perform the ceremony.

By this significant gesture the Pope wishes to emphasise the policy of localisation and to give it a further impetus," Bishop Rodgers said.

Bishop Finau was born on March, 16 1934, in Ma'ufanga, Tongatapu, and his parents, Soane and Laumanu are still alive. He began his secondary education at 'Apifo'ou College and at the age of 12 (1946) was sent to New Zealand for schooling there. After a year in Tauranga to improve his English he entered St Patrick's College, Silverstream, where he remained five years, from 1948-1952, distinguishing himself both in sport and study (U.E.).

The next year saw him enter the seminary of the Marist Fathers at Greenmeadows to prepare for the priesthood. He was ordained priest in July, 1959, together with Father Soane Foliaki who had left for New Zealand together with him in 1946. They entered Silverstream and Greenmeadows together.

On his return to Tonga, Bishop Finau was given various responsible positions in the Church, both educational and pastoral. After a term as rector of Chanel High School, Kelana, Vava'u, he went to England on a Commonwealth scholarship for a year (1968), after which he went to Manila to the East Asian Pastoral Institute where doing special studies he graduated Master of Arts in catechetics. On returning to Tonga late in 1970 he was appointed Vicar-General of the diocese.

Bishop Rodgers, right, with his new Coadjutor-Bishop, Bishop Finau.

CUSTOMS NOTICE

Importers are advised that any cargo ex "Rowanbank", "Niuvākai", "Taveuni", "Tofua", "Waimea", "Hifofua" on December 23 and January 4, and "Aoniu" on December 24 and January 15, not cleared by 3pm Tuesday, January 25, 1972, will be bonded by Customs.

Ko e ta'ahine ko Mary Meanata (tā he peesi 3) Ko 'ene fa'eé ko Lesieli Soakai mei Pahu. Ko 'ene tangata'eiki ko Vailima Meanata, 'a ia na'a ne mate he ta'u kuo 'osi pea 'oku konga Mauli. Ko e tangata'eiki 'a Vailima ko e Mauli ko Pita Meanata na'ane mali mo Salote Vave mei Kolofo'ou.

Kau Hu Fo'ou

Kuo kamata he Mōnité 'a hono ako'i fakakautau 'a e kau hū fo'ou ki he Tau Malu'i Fonua 'a Tongá.

Pea ko e toko valu 'o kinautolu ko e kau talavou ne nofo mei he akó he ta'u kuo 'osi 'a ia kuo fili'i ke nau fai 'a e 'uluaki ako Fakatekinikale ma'a e Tau Malu'i Fonua. Te nau ako mekeniki 'o ta'u taha 'i he fakahinohino 'e Sātini Bruce Manson mei he kau sōtia Nu'u Silá.

'E kamata e ako ni he 31 'o Sanuali pea ko e 'aho 'e taha nai he uike kotoa te nau ako sōtia.

'Oku hā foki he taá mo e toko tolu 'o e kau sōtia tu'uma'u 'a ia te nau fai honau ako'i fakakautau.

Mei to'ohemá, ko e kau ako : Laumakia Tu'akoi, Siosiua Mahe, Hamoni To'a, Paula Havealeta, Pita Vi Hala'api'api, 'Alipate Tu'akimoana, (kau hū fo'ou) Saimone Tionisio Moala, 'Ofa Funaki, (ongo sōtia tu'uma'u), Simione Lafo, Siopau Taufa (kau hū fo'ou), 'Inoke Vi (sotia tu'uma'u).

'Oku 'ikai kau he taá ni 'a e kau sōtia tu'uma'u ko S. Vaka mo S. Apu ne fili'i ke na kau he ako fakatekinikalé.

KAMATA E NGAUE KI HE IMISI FAKAMANATU 'O KUINI SALOTE

Hili ha alea ne fe'unga mo e ta'u 'e tolu, ne toki lava hano fakamo'oni'i ha aleapau mo ha tangata tā maka fakamanatu 'Aositelēlia ko Marc Clark ke tā 'a e maka fakamanatu 'o 'Ene 'Afió ko Kuini Salote Tupou.

'E fe'unga 'a e totongi 'o e maká mo e $14,145 pa'anga 'Aositelēlia pea 'oku fakaanganga 'e 'osi 'i Tisema 'o e ta'u ni. Ka e māhalo pē na'a 'osi pē ia ki mu'a ai pea fai hano tatala e pulongá

'Oku te'eki ai mahino pē 'e tu'u 'i fē 'a e maka fakamanatu ka 'oku fakaanganga pē 'e tu'u 'i Mala'e Kula.

Ko e maka fakamanatu 'e ngaohi 'aki 'a e palasa pea 'e fe'unga hono mā'olungá mo e meimei futē nai 'e fitu ki he valu, 'o ta'ekau ai 'a e tu'u'angá.

Ko e fa'ahinga teuteu ko e teuteu fakatahoni pea mo ha fa'ahinga teuteu fakatonga 'a ia ko e fakama'u ia 'o 'Ene 'Afió.

Pea ko e maka fakamanatu palasa, pea 'e fokotu'u ai 'a e sila ki hono tu'u'angá.

Ko e tangata tā maka fakamanatu ongoongoa foki 'a Mr Clark 'a ia kuo lahi 'a 'ene ngaahi ngāue 'i Kenipela, 'a ia ko e kolomu'a ia 'o 'Aositelēliá. 'Oku ne pehē foki 'oku sai'ia 'i he Palasá koe'uhi ko 'ene fakafofo'ofa mo 'ene tolongá. Pea ko e fa'ahinga palasa ko ia 'e ma'u mei ai ha maka fakamanatu fakafofo'ofa moʻoni pea 'e lava pē ke tauhi ke ngingila ma'u pē 'aki hano toutou fakangingila.

'Oku pehē 'oku fu'u fiefia 'aupito 'a Mr Clark ke fai 'a e ngāue

TANGATA'EIKI

Ngaahi Tohi Ki He 'Etiti

Fua Niu

Tangata'eiki,

'Oku ou fie fakaha atu heni 'a 'eku ta'e fiemālie koe'uhi ko e ngaahi tu'utu'uni ta'e fakapotopoto kuo fai 'e he Potungāue Mataka 'a Tongá 'o felave'i mo e ngahi fua'anga niu 'i he vahefonua 'o Hihifo mo Hahake 'o pehē ni - Ko Nukunuku, Te'ekiu pea mo Houma (Vahe Hihifo), Ko Vaini, Pea, Pelehake Kolonga, Talafo'ou, Mu'a (Vahe Hahake). 'a ia 'oku pehē ni hono foungá :-

1. 'Oku 'alu atu 'a e tangata ngoue 'i he taimi 8.00 pongipongi, pe toe pongipongia ange, mo 'ene konga niu ke fua, pea ko e me'a 'oku hoko kuo pau ke ne tatali ai kae'oua kuo toki a'u ange 'a e 'Inisipēkita Mataka, 'i he 'osi 'a e 9.00 pongipongi, pe toe tuai ange he taimi ni'ihi.

2. 'Oku fai hono sivi, laulau, pea mo e ngaahi me'a kehekehe, ko ia ai, mahalo 'oku mau toki kamata ngāue 'i he taimi 12 ho'atā, ka 'i he hoko pē 'a e 3.00 efiafi, kuo ta'ofi leva 'e he 'Inisipēkita, ka nau foki ki Havelu.

3. Ko e taimi ni'ihi 'oku lolotonga atu pē 'a e fuaniu kuo ta'ofi, pea fakahā mai ke fai'aki ia he kuo 'osi 'a e pa'angá, pea 'oku nau foki kinautolu ki Havelu kae si'i nofo ai pe 'a e kakai mo 'enau niu, 'o nau toki foki tahataha atu ai pe ki honau ngaahi kolo taki taha mo e loto mamahi lahi. "Ko e me'a 'oku ongo, ko e 'amanaki 'ene ta'e hoko."

Kuo fai hono faka'eke'eke, pea ko e ngaahi tali eni 'o fakatatau mo e kupu takitaha 'o pehē :

Ko e tali ki he Kupu I: Tokua 'oku 'omai 'a e pa'anga mei he "Tauhi Pa'anga" (Cashier) he pongipongi, ko e pa'anga pepa pē, pea ko e me'a leva 'oku hokó. ko e 'alu 'a e 'Inisipēkita ki Nuku-'alofa 'o feinga ke ma'u ha .20, .10, .05, .02, .01, pea ko 'ene toki ma'u, pea toki 'alu atu ia ki he fua'anga niu.

II: Koe'uhi, tokua kuo 'osi tu'utu'uni 'e he Pule, ko 'ene hoko pe 'a e 3.00 efiafi, pea nau foki mai kinautolu, koe'uhi he kapau 'e laka atu he 4.00efiafi, pe ko e fe pe hano ngata'anga, he 'ikai pe ke toe ma'u ha totongi makehe (O.T) 'a e 'Inisipekita, pe ko e mātu'a ngāue lau'aho 'oku vahe'i kenau ngaue 'i he fua'anga niu ko ia.

FOKOTU'U ATU

1. 'Oku totonu ke teuteu 'e he Potungāue 'a e me'a kotoa, koe'uhi kae lava ke ma'u kakato 'e he tangata ngoue mo 'ene mataka 'a e houa 'e 8, ke fua ai 'enau niu 'i he ngaahi fua'anga niu, pea ka holo hifo, pea 7, pe 6, kae'oua 'e houa pe 'e 3 pe 4, he 'oku ta'e fakapotopoto ia.

2. 'Oku totonu ke tali 'e he Pule 'a e pa'anga 'oku fiema'u 'e he 'Inisipēkita 'o fakatatau ki he'ene taukei ki he fua'anga niu takitaha.

3. Pea sino-e-me'a ke tau manatu'i, ko 'etau ngāue fakasēvaniti 'oku fai, ka 'oku 'ikai ko ha'atau pule ki he kakai.

V. T. TAPEALAVA.

Lea Tonga

Tangata'eiki,

'Oku ou fie lave atu ki he fakaanga 'a Tevita Latu ki he fakamatala mahu'inga 'a Futa Helu ko e 'Iku'anga 'o e Lea Tonga". 'Oku fakamahino'i 'e Tevita Latu ko ha tokotaha ia 'oku faingata'a ke ne a'usia ha ngaahi 'uhinga loloto. Tautefito 'oku 'ikai ke 'uhinga ki ai 'a e fo'i lea ko e Sivilaise, pea toe 'asili ko e 'ikai ke ne fanongo 'oku lea mai 'a Helu mei he fungavaka 'o e sivilaisé pea he'ikai lava ke taa'i ia 'aki 'a e ngaahi 'uhinga faka'ikonomika 'ata'ataá pē.

Pea ko 'eni si'i Tevita Lātu, kuo ke fanongo ko ā ko e sivi Tutuku Mā'olungá kuo lusa ia pea 'oku 'ikai 'aonga ki ha fo'i tokotaha 'a e lēsoni Tonga 'o e sivi ko iá.

S. KENGIKE.

Me'aifi mo e Hiva

TOHI

Tangata'eiki. — 'Oku 'oatu heni 'eku kole ki he kau mateaki fonua 'o e faiva mūsika 'i he 'otu Tongá ni, ke mou fakatokanga'i lelei ange 'a hono ngāue'aki 'o e me'aifi palasá ki he hivá 'o hangē ko ia 'oku lolotonga feinga ki ai e tokolahi he ngaahi 'ahó ni, ka e tautautefito ki hono hiva'i 'o e ngaahi 'Anitema fakakalāsika 'a ia ko e feinga ke o'i 'a e le'o 'o e fa'ahinga 'o e tangatá ke fio pea mo e le'o 'o e me'aifi palasá, he ko e foungá ni 'oku fu'u fakatu'utāmaki 'aupito ia ki he tu'unga fakamūsika hotau fonua ko Tonga.

Ko e me'aifi palasá 'oku 'ikai kāinga lelei ia mo e le'o 'o e tangatá pea mo e fefiné, he 'oku ne 'iifia 'a e le'ó pea ne hanga 'o liliu e lanu 'o e le'ó 'o mole ai 'a hono lanu totonú, pea 'ikai ngata ai ka 'oku maumau ai 'a e ongo mālie mo e haohaoa 'a e le'o 'o e fa'ahinga 'o e tangatá. Ko e me'aifi palasá ko hono le'ó 'oku tuai 'o 'ikai faingofua 'a 'ene mafulifuli pe ngaofeofe holo 'o hangē ko e me'alea filó 'a e vaiolini, piano, selo etc. 'a ia ko e fa'ahinga me'alea pē ia 'oku kāinga lelei pea mo e le'o 'o e fa'ahinga 'o e tangatá he 'oku ne fakafāsili mo fakateunga 'a e le'ó.

Ko e ngaahi 'Anitema fakakalāsika na'e fa'u ia 'e he kau Punake Iloa 'o māmani hankē ko Hanteli, Mosa'ati, Paaki etc. na'e hanga pē 'enau fa'ú ke poupou'i 'e he me'alea filo ka 'oku 'ikai ko e me'aifi palasa.

'Oku mālohi 'a e vivili mo e feinga ke ako'i 'a e fānau akó pea mo e tokolahi ki he me'aifi palasá ka 'oku hoko ia ko hono ta'ofi 'o 'etau laka ki he me'alea mā'olungá 'a e me'alea filó. Pea 'i he'ene pehē 'oku hoko ia ko ha faingata'a ke toe fakalaka ange 'a e tu'unga fakamūsika 'o Tongá 'ene tu'u 'i he fo'i Kolopé.

Ko e tuha 'o e me'aifi palasá ke ngāue'aki pē ki he ngaahi kātoanga fakapolitikale 'a e fakauō, laka fale alea, maasi fakakautau, li pa'anga etc.

Pea kapau ko ha'atau fiema'u mūsika pea 'oua te tau ō ki he me'aifi palasá.

TU'IFONUALAVA FALEOLA.

Typhoid Not An Epidemic

By Paua Manu'atu

The outbreak of typhoid in Tongatapu is not an epidemic, says the Director of Health, Dr Supileo Foliaki.

Typhoid is under control at Vaiola Hospital with a marked decrease in numbers, he said. Only 16 cases were still receiving treatment this week. At the beginning of this month, there were 35 cases admitted to Vaiola Hospital, causing accommodation problems.

A call for maximum precautions was issued in a broadcast on Monday night by Health Officer Penaia Moa. To avoid sickness he recommended extra care with personal hygiene.

Cruise ships have been a little concerned about the typhoid. A produce order for "Iberia" was cancelled last week because of the outbreak.

In Fiji, health staff at airports and entry points have been instructed to watch for typhoid after the outbreak in Tongatapu.

A Fiji Medical Department spokesman said there was no real danger of the disease spreading from Tonga to Fiji.

He said modern treatment ensured that typhoid patients were properly cured.

PROGRESS ON NEW HOTELS

By the Editor

Two new hotel developments have been approved in principle by Cabinet. The International Dateline Hotel is to be extended and a new hotel is to be built at Ha'atafu by Tonga Tourist Development Co.

Land for the T$120,000 Dateline Hotel extension is still being negotiated, so the exact site has not been decided; but a building with a harbour outlook would appear to be obvious.

Negotiations are still going on for the land.

Intially the hotel will cater for 160 guests in fale-style quarters. The public facilities will in-

(Turn to back page)

The extension will be luxury accomomdation with a total of 140 beds. This will comprise 15 rooms and four suites, all air-conditioned with a music system and refrigeration.

It is planned to have the new extension completed by early next year to be ready for the BAC 111 aircraft which are expected to bring a lot more tourists to the Kingdom.

The occupancy rate of the Dateline Hotel during the last year has been high, but many more visitors could have been accommodated if larger planes could land at Fua'amotu airport.

The hotel to be built at Ha'atafu by Tonga Tourist Development will be a resort hotel, similar in Polynesian architecture to the Port of Refuge Hotel the same company is building at Vava'u.

GOLDEN DAYS

The holidays are nearly over. On Monday most children go back to school and these boys yesterday were making the most of the fine weather and their last few days of freedom. They are from the Ngele'ia and Fasi primary schools and were swimming off the American Wharf when our photographer, Lisiate Tulua, shot them.

INAUGURAL VOYAGE OF TONGA'S "TAULOTO"

The Tonga Shipping Agency freighter "Tauloto" will begin its inaugural voyage from Melbourne tomorrow. It is expected to arrive in Tonga about February 20.

The "Tauloto" will provide a regular express service from Melbourne/Sydney to Suva, Lautoka, Apia, Pago Pago, and Nuku'alofa. It will be the first time a unit express service has been available to Melbourne shippers.

Army Cadet Training To Start At Tonga College

The first army school cadet unit in the Kingdom is to be formed at Tonga College and will begin training on February 7.

The aim of cadet training for boys is to help qualities of leadership, self-respect and discipline; to improve their physical ability and to give the Tonga Defence Force wider contact with a source of potential recruits.

The strength of the Tonga College unit is to be 100 volunteers, selected in the first instance by the principal. The unit will be divided into four platoons, each of 25 boys. The TDF will select the members of each platoon.

The Tonga College band, either complete or in part, may be attached to the unit at the request of the principal for training or when required for ceremonial parades.

The commander of the TDF has the right to dismiss any cadet from the unit, but punishment for offences will be the sole responsibility of the principal

Basic training will begin on Monday, February 7, and will continue until Friday of that week from 2 p.m. to 5 p.m. After that training will be held every Thursday afternoon from 3 o'clock to 5 o'clock.

Additional training for NCOs may be carried out at Camp Taliai during the school holidays.

The scope of the training will cover drill, weapon training, first aid, radio and telephone operation and voice procedure, field craft and NCO training.

"DEAR SIR..."

Letters to the Editor.

Advertising

Sir.—It seem to me that there is something wrong in this country. In a news broadcast from ZCO a boy not yet 16 years old was fined by the Court for smoking. Also a man was fined for drinking a bottle of beer without having a permit.

I considered there should be no advertising of cigarettes, tobacco and liquor over the radio and in the Chronicle.

The law is right, only we are to blame for accepting such advertisements.

The moment a boy hears or reads an advertisement about "the best tobacco", a feeling develops inside him to try it, why don't we stop such advertisements. If not, the laws should be repealled.

I hope that if we ban these advertisements on radio and the Chronicle consumers will be fewer.

It will be waste of time to advise our sons to stop smoking and consuming liquor if we allow the advertisements of such luxuries to go on.

I'm not against the selling of liquor, cigarettes and tobacco, but I'm not in favour of the advertisements.

Let the children grow up and if they choose to smoke or drink it is their own fault.

'IKI TALAIASI KOULO.

Tour Operators

Dear Sir.—Having had ample opportunity to observe the reception and treatment of visitors to Tonga during the last four years, I must disagree with the writer of the letter in last week's Chronicle (who thinks such visitors are being "taken for a ride").

All who come here by ship or plane are offered alternatives of things to do and places to go, depending on the limitations imposed by the visitor's own schedule. Cruise ship passengers have the least amount of time, yet they understandably want to do and see as much as they can. Given the pressure of their limited time, organization to facilitate their desire is crucially necessary from the passenger's standpoint.

The present system is both simple and effective. Shipping agents choose and work with local tour operators to sell tickets on board ship for what they judge to be the most attractive tours. Passengers take their choice (or refuse the tours and just jump ashore to take their chances with what they can find themselves). This allows the passenger, if he wishes, to avoid competitive pressuring when he lands; and he has the implicit recommendation of the shipping agents for his cruise that the tours offered on board are the best available under the circumstances.

If a local tour operator thinks he has something better than those tours offered on any ship at present, he is free to strike his own bargain with the shipping agents.

Only one problem can arise out of this that will adversely affect the visitor – and this is what happened to cause the complaint referred to in Mr McIntyre's letter. If there is an unexpected, last minute increase in people signing up for a given tour, the local operator is hard put to stretch transport and food that he has prepared to meet the demand. The only real protection for the passenger is for the agent to refuse any last minute sales, and for tour operators to set their limits clearly for the guidance of the agents.

Certainly, it is unfair – and unwise – to imply that any responsible agents or operators in Tonga are out to cheat visitors. We well know that none would return if that were true, and fewer would come at all. No one wants that.

LAYTON P. ZIMMER.

* * *

Dear Sir.—Transportation is not easy to arrange anywhere in the world for hundreds of passengers arriving for one day on a cruise ship. In Tonga, as elsewhere, tours are sold on the ships by prior arrangement between shipping agents and responsible local tour operators. This is the only way to keep order on the wharf and to give assurance to the visitors that they will receive value for their money.

Present arrangements in Tonga have been shaped over the years and have proved generally satisfactory – except, perhaps, to latecomers on the tourism scene who, in the name of overseas stockholders, are in a hurry to take over so much of the business that Tongans have developed.

I wish Government would do something about loud critics who have little knowledge of the facts, have little knowledge of the facts, who have no conception whatsoever of local problems, and who are completely insensitive to local feelings. They come here and within five minutes are shouting that this or that is wrong; that things are done differently in some other country; that Tonga overnight should change policies which have evolved from long and practical experience of the local scene.

We local tour operators have given good service and good value for money received and will continue to try to do so. If anyone has justified complaints, we trust they will share them with us – "the parties actually fostering this", as Mr McIntyre refers to us Tongans who have built up our local businesses in tourism – rather than just with other guests in the Kingdom.

JOHN LEMOTO.

Sales or Service

Dear Sir. — It is accepted a normal requirement that the agency of a machine or an electronic device should ensure adequate servicing of that product. Yet in Tonga large supplies of radios, radiograms and tape-recorders are sold without, apparently, any adequate steps being taken to ensure the stocking of replacement parts or the servicing of the articles sold.

It seems to me grossly unjust to encourage the sale of expensive equipment which can then become useless because the agency selling the equipment is apparetly not in a position to carry out the simplest of repairs, such as the re-soldering of a delicate terminal wire, or the replacement of a pick-up cartridge.

This attitude of pressing sales but neglecting serving seems all the more reprehensible if the agency concerned is in the hands of Government.

For the sake of all these others, like me, who cannot enjoy their expensive equipment because they cannot get it serviced, I should be glad to be proved wrong by some authoritative statement informing all concerned what steps have been or are being undertaken to ensure the normal servicing of radio sets or radiograms that have been sold to them here.

ANGUS McBEAN.

Nursing Today

Dear Sir. — I wish to comment about the problems of nursing the sick these days. Advice and help is needed to improve the service of the nursing staff to keep up with the times.

Why is nursing is so unpopular in Tonga nowadays?

Why has the standard of the nursing service declined?

Why do the nursing staff not cooperate with each other?

As a patient at old Vaiola Hospital many years ago, I have seen cooperation and devotion to duty among the nurses when led by expatriates. They worked hard together and their service was second to none.

Today, there are more educated nursing staff who have trained overseas and joined the service. We then expected that the service would improve because of more educated staff and better equipment.

But when I have been to hospital lately, I wonder about the education as the standard of nursing services has not improved.

Looking at it as an outsider, I think the services of the nursing staff in the past was better than at present.

Teaching Aids Is Their Business

By Hopoate Moengāngongo

Establishing ways and means of assisting instructors in Government department with teaching aids is the object of the Audio Visual Centre formed a year ago with the advice of Mr. J. E. Sharp from the Centre of Educational Development Overseas, London.

The centre's commitments at present involve the production of teaching aids, one day courses for teachers in producing teaching aids, production of posters, photographs and slides. In future it is hoped to hold one to two week courses in production and use of teaching aids for all engaged in instructional work.

The centre is also involved in other miscellaneous work not only for Government departments but also for private individuals and other organisations.

Charges for these services are minimal and based only on the cost of the material used.

One of the old nurses dormitories at the old Vaiola Hospital is now the audio visual centre, under the supervision of the audio visual officer, Mr. Siosiua H. Fonua, with a training officer, Miss Lesieli H. Vealoloko and a graphic designer Mr. Molitika Siu.

A Peace Corps Volunteers, Mr George Koening has joined the staff as technician to maintain the centre's equipment and other audio visual equipment in Tonga.

Mr. Fonua, formerly a technical officer with the Department of Agriculture, had three months training in London at the C.E.D.O. and was transferred to the Premier's Department to establish the centre, with the advice of Mr Sharp. After 3½ months of introductory work Mr Sharp returned to London and the audio visual officer took over completely.

The training officer Miss Vealoloko has just returned from London where she took the same three-month course.

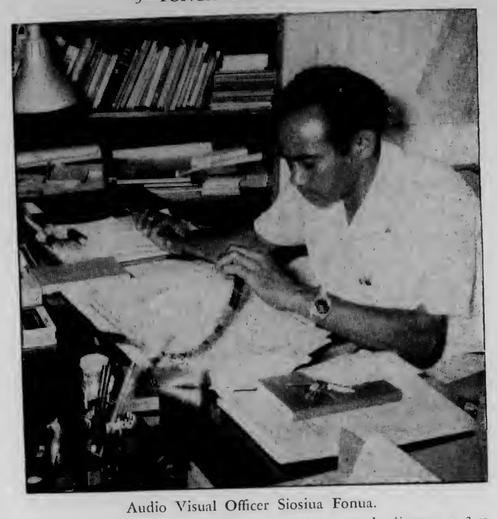
The centre hopes to recruit a second training officer, particularly a male teacher, who in turn will also do the London course.

All equipment and materials for the centre were provided by the British Government under technical assistance.

Equipment in use, or will be used by the Centre, includes a 16 mm projector, seven slides/filmstrip projector (both mains and battery), an electronic stencil cutter, a Gestetner duplicator, a 3 m Thermocopier, a spirit duplicator, a photographic enlarger, three taperecorders, two episcopes (for enlarging pictures for drawing), a Pentax SR Camera, a portable generator, card cutter, and an edge binding machine.

In addition, there is also material and stationery to enable the centre to run courses in production on a variety of teaching aids, from a single handout and posters to puppets.

Inquiries are invited as well as visits to the centre and the audio visual officer will help when and if required. The centre is not on the phone but the P.O. Box is 113, Nuku'alofa.



Audio Visual Officer Siosiua Fonua.

Graphic Designer Molitika Siu.

Capital Inflow Sustains Economy, Says Economist

Judging by the recent trend of capital from overseas flowing into the Kingdom, the economic outlook appears satisfactory. This was the theme of a paper presented to a conference of senior adversers at ECAFE in Bangkok last month by Tongan economist Mr J. C. Cocker.

He also attended the Asian Planner's Conference in November and although he did not present a paper, Mr Cocker expressed similar views in the speech he gave to the conference.

Mr Cocker said in his paper that Tonga was faced with declining export receipts caused initially by a fall in banana exports and later a fall in copra exports. However, although the adverse trade balance increased in 1970, official foreign exchange reserves continued to improve because of capital coming into the Kingdom.

Measures had been taken recently to reverse the drop in banana exports but it was still too early to assess their impact.

A substantial portion of the capital coming into the Kingdom in 1969 70 consisted of private transfers and the policy emphasis of the Second Development Plan may lead to a strengthening of private capital inflows in the immediate future, Mr Cocker said.

Expansionary fiscal policy had led to increased domestic demand and imports. The price level had remained relatively stable, however, because of the existence of price control.

DEVELOPMENTS

Commenting on recent economic developments, Mr Cocker said that towards the end of 1969, contraction in the traditional export sector and in government expenditure combined to generate a downward adjustment in demand and output.

Total export earnings and total government expenditure decreased by 12% and 6% respectively from their highest level in the decade of T$3,846,300 and T$3,166,400 respectively in 1968.

The contraction in the traditional export sector prior to 1970 was caused mainly by banana diseases which seriously affected banana production. Banana exports dropped by 61% from their unprecedented high level of T$1,739,000 at the end of 1968 to a mere T$684,000 in 1969. Although the loss from banana export earnings was partly compensated by higher receipts from copra exports, the impact of the damage done by the banana diseases led to a trade deficit of T$1,688,800 in 1969.

Towards the end of 1970 and during the first half of 1971, despite a further decline in exports by 21% to T$2,676,400 because of lower banana and copra exports in 1970, expansionary fiscal policies together with higher capital inflows led to a rise in economic activity. Government expenditure rose by 21% over its 1968/69 level to T$2,629,000 for the fical year ended June, 1970. The estimate for total government expenditure, both current and capital, for the fiscal year 1970/71 was a further increase of 36% to T$4,582,300. The increase in capital inflows was reflected in the increase in overseas reserves from T$872,000 in 1969 to T$1,331,000 in 1970.

Capital expenditure was financed from external sources, mainly grants from the United Kingdom Colonial Development and Welfare Funds. These grants in the fiscal year 1970/71 were expected to fall to T$445,000, only 31% of the estimated development expenditure of T$1,428,400, though expected to rise to 74% in 1971/72. Total public expenditure for the fiscal year 1971/72 was estimated to be T$4,539,400, Mr Cocker said, similar to the estimated budget provisions for the year 1970/71.

IMPORTS RISE

The recovery in domestic incomes and demand during 1970 was reflected in a rise in imports and also in the growth of household savings and business deposits with the Banking Section of the Treasury. Total deposits increased by 31% to T$713,000 at the end of 1970 and between January and December imports rose 9% from T$5,087,500 to T$5,539,400.

Mr Cocker said that available statistics indicated a slowing down in the rate of population growth. At the end of the 1970s the annual increase in population was down from more than 3% to 2.8%.

The gross domestic product for the Kingdom for the year ended June 1970 was estimated at T$9,635,300 and the per capital Kingdom.

Discussing policies and prospects, Mr Cocker said in his paper that fiscal policy together with capital inflows, was the main stimulus to the resumption of growth towards the end of the 1970s. The accelerated increases in the rate of government expenditure during 1970 and the first half of 1971 were the result of a revision of civil service salaries as well as the implementation of the Kingdom's second five-year development plan (1970–75).

An important aim of the first plan (1965–70) was to improve export performance. The expansion of copra production through a coconut replanting scheme was implemented. Free fertilisers and agricultural extension services were provided to boost banana production. Subsidy schemes for pigs and cattle were introduced to increase production for local consumption and hence to reduce imports of meat products. Tourism and fisheries were also promoted.

The plan also provided for infrastructure development such as the introduction of improvement of facilities for marketing of agricultural produce, increased expenditure on health and education and a family planning programme.

One problem of the first plan was the lack of proper balance between projects of short and long-term gestation, Mr Cocker said. This led, during the year 1965–70, to a raising of internal demand with little corresponding increase in output.

DIVERSIFICATION

The Kingdom's second development plan continues the broad policy mix of the first plan but with more emphasis on the diversification of the international sector of the economy. Particular emphassis was placed on the role of the privte sector in the development process. Foreign investment policy announced before 1970 was aimed at encouraging overseas companies to establish import substitution and export oriented industries in certain sectors of the economy. These industries related to preserving fruit, vegetables and agricultural produce, the further expansion of fishery production and to the development of the clothing and footwear, handicraft and tourist industries.

A great deal of interest was shown by the response of a large number of overseas companies and several projects have been approved, Mr Cocker said.

To guide and coordinate the development of the tourist industry, a tourist office was set up

Trophy Collector

Semisi Tau'atāina Finau (22) of Veitongo, the 1970 Tonga amateur welterweight champion, recently returned from New Zealand with an armful of boxing trophies.

The Wanganui Boxing Association trophy and four other trophies lined up in the picture represents five wins he had in amateur tournaments in New Zealand last year.

Finau said he entered and fought for the Wellington Amateur Boxing Association while he was working for the Ajax hardware factory in Lower Hutt.

Finau was among the group of 61 Tongans who worked in the Hutt Valley scheme last year.

Even A Picnic Can't Tempt Some Lazy Ants

Some ants are so lazy they won't event stir out of the nest for a picnic.

In fact, male ants never work a day in their brief lives. Their only duty is to mate - - and die.

A few of the hard-working females loaf on the job. And almost any ant will take a nap, but out of sight in the middle of its nest, thus preserving the family image.

Most ants, however, deserve their industrious reputation. Their great physical capacities and complex societies have helped them survive for some 70 million years, the National Geographic Society says.

The highly adaptable ants have spread all over the world, though they prefer the tropics and avoid arctic regions. The ant family Formicidae numbers about 6000 species, ranging in size from 1/25th of an inch to more than an inch long.

Like bees, ants are social insects living in colonies. Three castes dwell in an ant community: the queen ant, an amazing egg-laying machine; worker ants, sterile females who serve as nursemaids and soldiers; and males, who expire shortly after their nuptial flight with the queen.

After the flight, the queen establishes a colony, building herself a small nest in the earth, under a rock, or in a decayed tree. She lays a few eggs, tending them until a small nucleus of workers develops.

From then on, the queen does nothing but lay eggs. Her single mating leaves her productive for as long as 15 years.

Female workers excavate the nest, clean it, forage for food, care for the young, and defend the colony. Their work is never done. But entomologists studying army ants in Panama found that about 20 percent of the workers were careless housekeepers and lax nursemaids.

The leaf-cutting ants of tropical America are farmers. They cut tree leaf segments and carry them back to their immense nest - - often 16 feet deep-where they are used as beds for fungus spores. The ants plant and tend the fungus, their principal food.

MAKE "BREAD"

European harvester ants gather seeds and grain, storing them in granaries deep in their nests. After the harvesters husk the seeds, a "chewing society" assembles to masticate them for hours at a time. Saliva transforms the starch into sugar, and the result is a nourishing "ant bread".

Harvester workers take naps within the nest, but often rest at strategic passageways, where they block the way. Worker ants who act as guards usually have a thick skull protected by a helmet-tough skin.

Soldiers are essential, because, as a leading entomologist said, "Most ant societies are organized for total warfare . . . Fighting goes on constantly." The blood-red slavemaker ants of the United States raid other colonies to steal pupae. When the stolen ants hatch, they take over the work in their masters' nests.

Ants undoubtedly are successful, but they aren't infallible. With single-minded dedication, workers that specialize in nest-building may dig away until the whole nest caves in.

Economic Survey

(From Page 4)

in 1970. A major responsibility of the office was the systematic development of tourist resorts throughout the Kingdom and also the promotion of tourism abroad.

To aid the developmental and policy-making role of the Government, a statistics office was also established in 1971. The establishment of this office was motivated by the realisation that the success of economic policy depended on adequate information on the actual functioning of the Tongan economy and on the inter-relationships between the economic and non-economic factors.

Credit unions were introduced during 1970 to encourage and mobilize small savings. Co-operative societies have been encouraged to organise small-scale production in handicrafts and in agriculture.

MAIN PROBLEM

Mr Cocker said that the main problem which may hamper growth in the immediate future was the possibility of further deterioration in the external trade balance and its consequential deflationary impact on the economy.

He added, however that with the higher level of public expenditure and provided the recent trend of capital inflow into the Kingdom continued into 1972, the economic outlook appeared satisfactory.

Something To Sing About

A well-known Australian artist in television and stage shows, Bill Newman (39) of Sydney called in Nuku'alofa on the cruise ship "Iberia" last week.

He was accompanied by his wife, Eunice Bevege, and their three daughters.

In the picture, from right : Bill Newman, Mrs Newman, Police Constable Ane Kinahoi, who welcomed the Newmans in Nuku'alofa, the Newman's daughter and the Chronicle reporter, Paua Manu'atu who interviewed the Newmans on board the cruise ship "Iberia".

Mr Newman has been in television on for nine years. He was the compere of the musical television show "Sound of Music".

On the stage he played the leading role in productions of "South Pacific ", "Can, Can", "The Pajama Game", "Paint Your Wagon" and many others in Australia and England.

He has appeared in several BBC television and radio shows.

During the Pacific cruise on the "Iberia" Mr Newman has been entertaining the passengers.

Mrs Newman is also a television hostess, in Sydney and London.

The visit to the South Pacific is the first for the Newmans.

They were enthusiatic about their trip and said that they liked Tonga very much especially the people for their friendliness.

"We have had a marvellous time in touring your beautiful island. It was so fascinating", they said.

Exam Successes At 'Atenisi

Following are the candidates from 'Atenisi College who were successful in the New South Wales School Certificate Examination, 1971.

The candidates were required to take English, Mathematic and Science as compulsory subjects in addition to optional subjects like Art, Music, Commerce, History and Geography.

Thirty-three out of 69 candidates presented, were successful. They are :

7 Subjects Passed : Sione Tupou Tu'itahi, Pukotala; Heilala Fe'aomoeata, Matamaka; Siua Fotu Tameifuna, Niuatoputapu.

6 Subjects Passed : Hosea Vao, Felemea; Laki Tupou, Kolomotu'a.

5 Subjects Passed : Tevita Falala, Hā'ano, Vai-tafa Fanua, Houma Tt.; Susana Helu, Lotofoa; Lutimila Lakalaka, Niuatoputapu; 'Ofamo'oni Lui, Fua'amotu; Uina Maka, Lapaha; Senita Talanoa, Vaini; Lousiale Taufa, Nakolo; Sione Kolonesua Tupou, Houma.

4 Subjects passed : Lousi Afu, Lotofoa; 'Osaleni Fangunō, Vaini; Filimone Finau, Hā'ano; Salesi Finau, Fasimo e Afi; Siosaia Hafoka Fakaloka; Sione Tupou Halafihi, Lotofoa; Sunia Hā'unga, Masilamea; 'Ilomaisini Lea, Makave; Fili Mofuike, Kanokupolu; Tomasi Moore, Lotofoa; Setaita Tameifuna, Niuatoputapu; Loneti Ta'ufo'ou, Pangai Hp.; Vili Vaea Fisi, Kolovai; Viliami Vakapuna, Houma.

Following are the unsuccessful candidates with subjects passed.

3 Subjects Passed : Pousima Afemui, Viliami Fohoko, Paea-i-vaha'olalau Fifita, Taani Fisilau, Jeileli Fonua, 'Alekisānita Funaki, Falanisi Hiliau, Kolotile Mahe, Uaitemata Pāongo, Tevita Teniseni, Viliami Fine'eva Veilofia.

2 Subjects Passed : Sione Taufa 'Aloua, Petiola 'Api, Joshua Cocker, 'Aisea Folau, Faleovalu Helu, Saia Hu'akau, Moi Kaufononga, Lavinia Kaufusi, Viliami Koloi, Saimone Kolo-'ofa'i, Fatai Manu, 'Isaia Pilivi Moa, Osolua 'Ofa, Vainikolo Pāongo, Lepani Pasi, 'Esala Havea Toluta'u, Palu Talimalolo Tu'akalau, Viliami Tu'itakau.

1 Subject Passed : Siulolovao Fine, Va'ati, Fine, Tupou Fonokulafi, Lesieli Helu, Solo Tafeuni, Siō Tu'iano, Viliami Vea.

Break With Tradition

Marriage to outside people rarely happens in the Niuafo'ou settlement at 'Eua. But in the first two week of this year, four weddings to outsiders took place.

Above is one of the couples : Finau Lama, the second daughter of Mei Lama and 'Oneahi of Sapa'ata, 'Eua married S. Laufana Tutu'ila, the second son of Peni Tutu'ila and Lupe of Ha'asini.

The wedding was conducted by the Wesleyan Church minister for 'Eua district, the Rev. Sitiveni Mānoa at 'Ohonua.

This And That

CHRONICLE DIARY

Tonga comes in for some unfavourable publicity in two articles in last Saturday's Auckland Star weekend sport edition, the 8 o'clock (read by about 50,000). In a "special inquiry" the reporter describes one of the "hovels" that Tongans are living in Auckland. He writes: "It didn't help to hear that these conditions – hardly fit for animals – were similar to, if not a little better than those under which people would live in the Kingdom of Tonga". The article then goes on to quote Tongans in Auckland strongly criticising the system in the Kingdom. It would not be discreet to mention the subject of the second article.

* * *

The Rev Mōsese Lātū of Tonga has been appointed by the Methodist Church of Australia to minister to the people from the South Pacific living in Sydney.

* * *

Having to accept so many small denomination stamps from the post office when posting a letter may be a nuisance for some of us but not everyone is unhappy about. A Nuku'alofa man who sent a letter to Japan literally smothered in small denomination stamps – both sides of the envelope – received a letter back saying how much they enjoyed receiving the colourful envelope, so the Japanese writer had done likewise and liberally covered his envelope with small denomination stamps.

* * *

A leisurely drive along Vuna Road enjoying the scenery is no longer possible. A driver has to continually swerve to try to avoid the unavoidable potholes and passengers have to hold on to avoid being thrown about, or even out, if its a minimoke they are travelling in.

* * *

Back in the Kingdom for consultations with the Government is Tonga's High Commissioner in London, Baron Vaea. He is accompanied by his wife Tuputupu, and they will be staying for three weeks.

* * *

Visiting the Kingdom is Taiwan's Ambassador to Australia, Dr Shen. He has been talking with Ministers and Government officials and last night was the guest of honour at a reception at Monotapu Beach, hosted by the Minister of Foreign Affairs, H.R.H. Prince Tu'ipelehake.

* * *

A traveller to Vava'u has returned with a harrowing tale of his stay at the Government guest house. His mattress was infested with bed bugs and after the first sleepless night he took it off the bed and slept on the wire mattress. The cleanliness of the house leaves a lot to be desired, he said. We asked him to report these things to the proper authorities but his only reply was, "What's the use".

* * *

Indians in California believe swarms of butterflies that arrive every autumn came to wait for the souls of persons who would die that winter. With spring, the legend went, the butterflies would take these departed souls to an island far across the Pacific.

* * *

The handicraft pests have gone from in front of the hotel and guests can now come out of the door without being "attacked". Credit must go to the police who are keeping strict surveillance along the waterfront, especially on boat days.

THE SCRIBES

Rugby Season To Begin On March 18

The 1972 rugby football season in Tongatapu will start on March 18, the president of the Tonga Rugby Union, Mr Lupeti Finau, has announced.

He hopes the early start will give time to complete all the inter-club and inter-district competitions well before the Fiji rugby team visits Tonga in July and August.

Commenting on the prospects of meeting the Fijian team this year, Mr Finau said that inspite of the absence of a number of players who toured New Zealand in 1969, he believes Tonga has bright, talented players coming up.

"The prospect of getting a very much better team this year than the team that toured New Zealand in 1969 is very promising," he said.

Mr Finau said there were new faces forcing their ways into the national side. Experienced players would have to fight to hold their places. Fitness and speed would be the deciding factor of the coming series, he said.

Invitation To Tahiti

Confirmation has been received from Tahiti regarding an invitation for Tonga amateur boxers to compete in a tournament in Papeete at the end of next month.

The secretary of the Amateur Boxing Association Mr D. Wendt, said that Tonga will send a team of four boxers and a manager. Boxers will be selected shortly to represent Tonga in light-weight, welter, light-middle and middleweight.

The tournament will be against boxers from Hawaii, Tahiti and Tonga.

The Tongatapu amateur boxing championship for this year will start tomorrow afternoon at Hauhau 'o Taufa'ahau Theatre.

CLEAN-UP COMMITTEE

These men are going to clean up Kolofo'ou. They are the Kolofo'ou Beautifying Committee appointed by a public fono meeting of residents last week.

The committee's first meeting decided every householder in Kolofo'ou should be made to take part in the garbage removal service. According to the law all households within the Nuku'alofa area must take part in the garbage removal service.

The committee agreed that Kolofo'ou would be a more hygenic and healthy place to live in if the law was enforced.

The members of the committe are: Back row – Uliti Palu, Ma'afu Kavaliku, 'Olive Uikilifi (secretary), Kāseli Paipa, Tevita Folau. Front row – Siua Kaho, Sione Falepapālangi, Sione Fotu Vakameilalo, Hon. Luani (chairman), Koloamatangi, Hale Vete. Absent -- Māketi Tongilava and Fifita Fonua.

Three Tests During Tour By Fiji

The Fiji Rugby team to tour Tonga in July and August will play eight matches, including three tests.

The team will arrive in Tonga on Wednesday, July 5, and return to Fiji on August 7.

It is unlikely to be chosen until soon before the tour begins, following the usual series of trials.

The team will visit Ha'apai, which has not been on Fiji tour lists previously, to play a local combined representative side on July 26 at Pangai to be selected in Ha'apai and 'Eua.

Three days later, Fiji will play Vava'u—the second time a touring Fiji team has been seen in action there.

The fixture list is :

Saturday, July 8, Fiji v Country; Wednesday, July 12 Fiji v Colts; Saturday, July 15, Fiji v Tonga (1st test;); Wednesday, July 19, Fiji v Town; Saturday, July 22, Fiji v Tonga (2nd test); Wednesday, July 26, Fiji v Ha'apai; Saturday 29, Fiji v Vava'u; Saturday, August 5, Fiji v Tonga (final test).

New Hotels

(From front page)

clude a dining room, reception area, cocktail bar and lounge.

When fully staffed the hotel is expected to offer employment to 150 Tongans.

Construction will be carried out on the same principle as the Port of Refuge Hotel – local workers under a D. G. Sundin Construction Co. foreman with overseas technical experts.

The Vava'u hotel is at present at the fitting-out stage and when this is completed the builders will move from Vava'u to begin work on the new Ha'atafu hotel.

Twelve specialist workers on loan from the TCC are at present helping with the Port of Refuge Hotel.

QUIZ

1. What is the closing date for the 1972 Miss Tonga entries? (Answer Page 12).
2. What was the most expensive car in the world? (Page 6).
3. What will be the copra price for April? (Page 4).
4. Where can you go to learn to speak better English? (Page 10).
5. Why has an Island minister been appointed to a Sydney post? (Page 3).
6. What is the connection between Tonga and Berlin? (Page 6).

Tonga Opposes Reef "Republic"

'Our Special Concern'

By the Editor

Tonga will not recognise any claims to Minerva Reefs, a Government spokesman said this week commenting on a claim for recognition by an international group and the setting up of a "republic of Minerva" on the reefs.

The Government spokesman said that although the Kingdom had not made any formal declaration about the reefs, they were usually associated with Tonga.

Last week the Ocean Life Research Foundation of London and New York claimed ownership of the reefs as a republic with the idea of building a city on them.

A director of the foundation, Mr Mike Oliver, an American citizen told the Fiji Times on Monday after being informed of Tonga's attitude: "I don't care whether they recognise us or not.

"We will have no objection to anyone from Tonga, Japan or anywhere continuing to fish there. We will give all the greatest co-operation".

In 1966 the Tongan flag was raised on the reefs by Captain David Fifita and the survivors of the wrecked yacht Tuaikaepau when they returned to repair the graves of comrades who died there in 1962.

David Fifita and his men "occupied" the reefs for 102 days and because of this association Tonga would always look upon the reefs with special concern and had strong feelings about any claims.

The Government spokesman said the raising of the flag by David Fifita was believed to be in memory of the lost crew, not a formal declaration of Tonga's sovereignty.

TWO DREDGES

Mr Oliver said in Suva last week two dredges would be arriving at the reef in about three weeks to begin reclaiming up to 400 acres of 10ft above sea level. He said the intention was initially to build a port and later a "sea city" as a haven for people who wanted to escape from crippling taxes, riots, crime and drug addicts.

"We decided on Minerva after a worldwide search because research showed conclusively that

(Turn to back page)

Captain David Fifita shakes hands with Mr D. P. Twiss of New Zealand, a member of the Loch Lein crew when the ship visited Minerva Reefs in 1966. They are standing under the Tongan flag on the island they built on the reef. Coconut trees they planted can be seen in the foreground.

Mr Twiss produced this photograph after he read of the foundation's claim on Minerva. He was radio officer and a diver in the Loch Lein, a ship employed to assess the crayfish potential of Minerva reefs for a New Zealand company and the Tongan Government.

Captain Fifita was master of the Loch Lein during her research work in Tongan waters.

At Minerva a Tongan group reburied the bodies of the two Tongans who died there when the Tuaikaepau was wrecked in 1962.

Mr Twiss told the Fiji Times, members of the party hollowed out an area in the reef, cemented it and reburied the remains of the two men. They placed a copy of the book "Minerva Reef" by Olaf Ruhen, coconuts, watermelons and a rosary on the grave.

The Tongan flag was raised on the pole.

This photograph has been reproduced from the Fiji Times.

NADI TERMINAL – A NZ$2.2 million extension to the terminal at Nadi International Airport, Fiji, is to be build by Cubitts (NZ) Ltd.

Half-Million Loan From Britain

Britain has agreed to provide a loan of £250,000 (T$532,500) to Tonga under an agreement signed in Nuku'alofa on Tuesday. The signatories to the agreement were the Deputy Prime Minister and Minister of Finance, Hon. Mahe 'Uli'uli Tupouniua, on behalf of the Government of Tonga and the Acting British High Commissioner, Mr. H. A. Arthington-Davy, for the United Kingdom Government.

The loan will be drawn over a one year period and will be payable, on concessionary terms, over 25 years with a 2½ year grace period.

The loan will maintain the level of capital aid being given to Tonga annually and will support a wide range of projects within the Kingdom's development programme.

The loan is additional to continuing technical assistance to Tonga in the form of training in Britain and the provision of experts and equipment.

The signing of the loan agreement by the Acting British High Commissioner, Mr H. A. Arthington-Davy (left) and the Minister of Finance, the Hon. Mahe U. Tupouniua (right). In the middle is the Development Officer, Mr H. V. Barnard.

PEN WRITING

"DEAR SIR..."

Letters to the Editor.

Foreign Money

Dear Sir,

I would like to appeal to Government on the matter of allowing foreigners to invest in Tonga.

I am sure that great patriotic men like 'Aho'eitu, Tupou I and 'Ulukālala are very much perturbed in Pulotu over this breakdown in our system.

Now let us look at it from the modern, academic point of view. What is the reason behind our invitation with open arms to foreigners to invest in Tonga? Perhaps the logical answer is that we are incapable of investing in our own country. Are we? One may say that we are only capable of certain industries and not some.

Has there been a control from Government on this?

Tonga in the past, at present and in the future is fully competent of developing its own industries. We can build our own hotels, establish our own travel and promotion offices and everything there is on tourism. We can develop our light and also heavy industries. We can make Tonga a place for our descendants to be proud of as we are now enjoying the good work of our ancestors.

To be able to undertake these projects I would like to recommend the following:—

Establish a bank where-by those who are involved with industries can negotiate low interest and a long term loans.

Establish a department for industries. This department must have the potential to push and initiate industries.

Form a coordinating committee consisting of members from the private sector hired experts from overseas and from the Government to plan the industries viable at this stage, to carry out a feasibility study and then find an appropriate local body to undertake the project. When in actual operation the committee can stand behind as a sole adviser for the project.

Tonga should be proud of the fact that our neighbouring countries like Australia, New Zealand, America have recognized our stage of undevelopment and sent us volunteer workers. I am sure these good men and women are not here to see Tonga sell its soul to foreign investments. They are here to develop Tonga for her own people and not for other countries, not even for their own.

SIOSAIA 'TAUFA TOUTAI.

Taken For Ride

Dear Sir,

I was pleased to see my letter, "Taken for a Ride" produce some reaction. Unfortunately this reaction, while implying umbrage at my interference in the long-standing business of Tongans, completely misses the point I tried to make.

What I am concerned with, and I think the Government measure that Mr Lemoto considers should be applied to the "loud critics" could well take this up, is the misrepresented situation given to visitors prior to their arrival, concerning transport.

IAN S. McINTYRE.

Tongan Language

Dear Sir.—I am pleased a Tongan has raised the question of the Tongan language being overwhelmed by a foreign language.

Irrespective of the English being a second language, it has been proved that in classrooms and offices, English is the major language spoken, consequently the younger generation lacks the use of the good and proper Tongan.

It is unfortunate that not many books are written in Tongan thus preserving the validity of the Tongan language. Tonga should be grateful to Dr. Moulton for publishing a few books in Tongan, and rescueing part of the Tongan language.

Tonga is now in a position to be able to translate other knowledge into Tongans. It will enable a fair portion of the population to widen their knowledge, as not all Tongans can afford to have further education overseas. This will not only help with the development of the nation as a whole, but it will also preserve the Tongan language from being influenced by a foreign language.

T. KAVAPALU.

Nursing Today

Dear Sir,

I reply to V. Fifita's letter concerning the nursing service today, which these qustions were asked:

1. Why is nursing is so unpopular in Tonga nowadays?

Answer: Because of the salary. It should be reviewed so nursing is attractive. If anyone does choose nursing at the moment it is because she likes nursing. No one would choose nursing to make money because the salary is too small for her needs.

2. Why has the standard of the nursing service declined?

Answer: Because of inadequate staff. One person cannot adequately handle one patient at home, how can two or three nurses adequately look after 45 or more patients in hospital wards.

3. Why do the nursing staff not cooperate with each other?

Answer: The staff do cooperate with each other.

The impression of the letter is that the writer favours the expatriates rather than the locals to head the staff. How about the Tongans who were trained overseas to improve the service in the Kingdom.

Architect Of The Future

Salesi Mafi (19) an architectural cadet, with the Ministry of Works will be leaving the Kingdom shortly to study for a degree in architecture at the University of Auckland.

Salesi, a former student of Tonga High School, obtained University Entrance in 1970 and since then has served a year's cadetship with the Ministry of Works.

He is on a commonwealth scholarship and is expected to be away for at least seven years.

Salesi is a son of Mr and Mrs Moala Mafi of Kolofo'ou.

Two Tests In Australia

Tonga has been invited by the Australian Rugby Union to play two tests on its Australian tour next year.

Tonga's most important games to date have been against Fiji and the New Zealand Maoris.

ARU president, Mr Charles Blunt, said in Sydney: "We feel Tonga is entitled to play tests against us. They have a good record in recent years and are well up in the bracket of rugby countries.

Australia Reminded Of Close Link With South Pacific

The appointment of Tongan the Rev. Mōsese Lātū as minister to the South Pacific Islanders in Sydney was a reminder of Australia's close link with the South Pacific, the General Secretary for Methodist Overseas Missions, the Rev. C. F. Cribble, said in his address at the induction of Mr Lātū.

The induction was conducted by the State Secretary for Overseas Missions, in New South Wales, the Rev. Wesley Pidgeon, and the Rev. S. G. Cowled, for many years chairman of the church in Fiji.

Mr Lātū's appointment follows the concern expressed at the last annual meeting of the Board of Missions of the Methodist Church in Australia at the large number of young people from the South Pacific residing in Sydney as students, apprentices, nurses and trainees in many areas who were without a real ministry related to their own culture and language.

Mr Lātū comes from a family active in the life of the Free Wesleyan Church of Tonga. He was trained at Tupou College and the Navuso Agricultural School in Fiji. Later he was appointed to the work of developing agriculture in Milingimbi in the aboriginal work of Methodist Overseas Missions. At present there are four Fijians and one Tongan doing effective missionary work in Arnhem Land and exercising a ministry which enables them to get very close to the aboriginal people.

After five years at Milingimbi Mr Lātū was granted study leave and during 1971 was doing the United Faculty Course at the University of Sydney through Leigh College. Leigh College had requested an extra year and it was decided to appoint Mr Lātū a student pastor working in association with the Central Methodist administering to the South Pacific Islanders, many of whom have personal problems and problems of adjustment and other social and family problems.

GREAT CHANGES

In his address Mr Gribble said that although great changes were taking place in the area it would be the hope of all that Australia's ties with the people of the South Pacific would be strengthened both through the church and the Australian Government.

It was 150 years ago this year that the first missionary Walter Lawry set out from Parramatta in Australia to work in Tonga. Today there were three independent autonomous Conferences, Fiji, Tonga and Samoa, which were constituent Conferences of the General Conference of the Methodist Church of Australia.

"There is a growing feeling that we need in Australia some of the things that Christians of the South Pacific have to give us. They have a deep religious devotion. Within their cultures there is a friendly joyous attitude to life and a great capacity for caring. Many things in their scale of values we need", Mr. Gribble said.

It was significant that all the Australian Conferences had sent recommendations to the Mission Board that trained Pacific Island Ministers be brought to work in Australian Circuits both to share the thing the Pacific Church has to teach and to perhaps learn some of the things that would strengthen the church in the Pacific, Mr Gribble said.

"Many feel that the Australian Government should be doing more to aid the peoples of the South Pacific whose economies are weak and poor. Over the years our Australian aid to the South Pacific has been niggardly. Our immigration policy too has been to expressive. There is a feeling among of Pacific peoples today that Australian interest in the Pacific has yet to be awakened.

"Last financial year the government aid to the South Pacific area was $750,000. To Papua New Guinea the aid was $122,000,000. While we know that the situation in Papua New Guinea and the South Pacific area is different at important points it is surely the conviction of most Australians that we should be more generous with these friendly neighbours.

MANY PROBLEMS

"With regard to immigration there are many problems", Mr. Gribble said. In most Pacific areas there is over-population. With 80% of the population under the age of 25 years. Australia cannot solve for Pacific peoples their population problems they must attack this problem themselves and there are ways and means of solving it locally.

"We can do a good deal more than we have done. However, unlimited migration to Australia is not envisaged but steps could be taken to make short term arrangements which would help the people economically and to agree to certain selected people from the South Pacific obtaining Australian citizenship if they desire this. At present the regulations and proceedures for even short term study periods are far too rigid".

Mr Gribble said, "The Methodist Church at it's General Conference in May would have before it a positive and reasonable proposal of Pacific immigration and submit to the Government a request to consider a major change in policy on immigration in relation to the Pacific".

TONGAN MINISTER FOR SYDNEY

CO-OPERATIVE GIFT BOOKS FROM U.K.

Tonga has been chosen to receive T$20 worth of books from the Cooperatives College in Loughborough, Leicestershire. Each year gifts of books to developing countries are given as a memorial to Arnold Bonner, a senior tutor at the college for 35 years, who died in 1966.

The books will be presented to Tonga's student at the college, Siola'ā Tu'itupou, in a ceremony on June 23.

Mr Tu'itupou, a technical officer with the Department of Agriculture, on loan to the Co-operative Adviser, has been training at the co-operative College at Britain since October last year and will return to the Kingdom at the end of June.

Copra Price To Remain Fixed For 3 Months

The Tonga Copra Board has decided to break away from the normal monthly average price formula and adopt a fixed standard price for a trial period of three months from February 1.

The board said in a statement this week it was taking this action to give support to local producers during a crucial period.

With the depressed world market price it was not possible to avoid a further reduction in the local price paid to producers, the board said.

The price fixed to apply throughout the Kingdom until April 30, 1972 is :

1st grade T$70 a ton

2nd grade T$58 a ton

The price to be paid for coconuts will be maintained at 1.2 seniti a nut.

The Bank Line, the shipping company which transports Tonga's copra to Europe, has increased its freight charges by 10% from January 1. This has also affected the price which can be paid to local producers.

Discussing the world market price of copra and the effect it was having on the local price, the statement :

"During the period August 1971 to January 1972, there has been a drop of T$31.30 a ton in local prices, producers now getting only two thirds of what they were getting in August 1971. It has always been the board's policy to give local producers the very best prices possible and during the last six months in particular it has virtually bent over backwards to assist them in this respect.

On 13 July 1971 the world copra price was US$208.50 a ton. On 13 January, 1972, it stood at US$148.00 a ton, a drop over the six months of US$60.50. The main reasons for the downward trend in prices were :

(a) Strikes on the Western seaboard of the U.S. which later spread to the Eastern seaboard;

(b) Supplies from the Philippines, normally shipped to the U.S., were re-routed to Europe, with the result that the European market was flooded with copra. It thus became a buyers market with suppliers forced to sell at considerably lower prices than before;

(c) Uncertainty over currency exchange rates.

President Nixon invoked the Taft – Hartley Act which compelled the U.S.A. waterside strikers to return to work, for an 80 day cooling-off period. Even this did not prevent the downward movement of copra prices.

It can only be assumed that the U.S. ports were so congested with consignments built up over the period of the strike that very few vessels could enter to discharge new cargoes.

Just recently, on the expiry of the 80 days cooling-off period, the U.S. waterside workers went on strike again.

The present position is that the European market is still glutted with copra and buyers are thus able to purchase at their prices which are much lower than those asked by suppliers.

During the weekend 18/19 December, 1971, the U.S. dollar was officially devalued. It was expected that this would result in an increase in the world copra price but this did not materialise. Instead the price dropped even lower than before devaluation. The Philippines is the world's largest producer of copra and its currency is closely linked to the U.S. dollar; its rate of exchange remained unchanged".

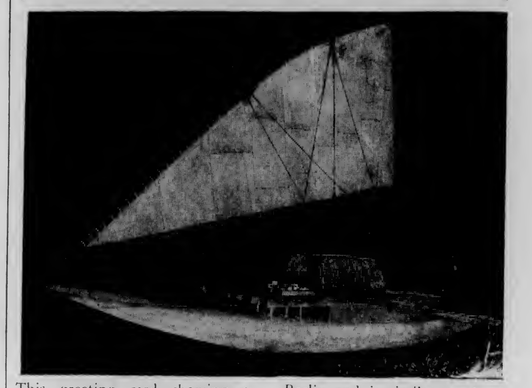
A Long Way From Home



This greeting card showing a Tongan outrigger canoe is from West Germany and sent to Mr and Mrs J. Pollnow, the mechanical engineer at the Ministry of Works, from the director of the West Berlin Museum, Professor Gerd Koch.

Mr and Mrs Pollnow met Dr Koch when they were in Germany at the end of 1970 and saw the canoe in the picture, in the museum.

The canoe was made in West Berlin and is similar to those used by Tongans when they welcomed Captain Cook. The canoe was built according to a drawing which appeared in Cook's account of his visits. The sail is made of paongo mat bound to the mast with a sennit string. A small fale with thatched roof is built on the canoe and the fireplace is made of hard black rocks.

Dr Koch visited the Kingdom when His Majesty was Minister of Education. He has written a book on Tonga in the German language.

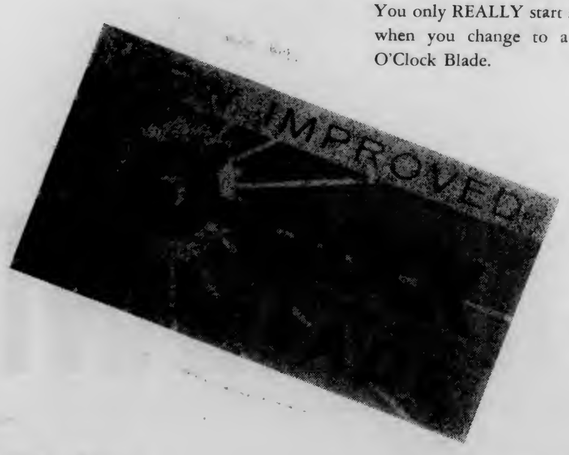
Dr Koch spent his days here with Feleti Sitoa of Nomuka, 'Amalani of Fungamisi and Fred Schoper of Nuku'alofa.

Mr and Mrs Pollnow also saw in the West Berlin Museum a ta'ovala made from coconut fibre and a piece of black tapa cloth, one of the gifts to Captain Cook presented during one of his three voyages to Tonga.

IT'S TIME YOU STARTED SHAVING

—REALLY SHAVING!

You only REALLY start shaving when you change to a Seven O'Clock Blade.



Smooth. Comfortable. Shave after shave after shave . . . . . .

Ask for a Seven O'Clock Blade at your usual store. Feel the difference.

Fullest Record Book In The World

Have you ever wanted to know what is the world's highest man-made structure, the world's most expensive car, or even who is the world's most often married women? The answers to questions such as these can be found in the Guinness Book of Records.

It first appeared in 1955, in English only. It was quickly recognised as a vast compendium of knowledge, some of it valuable, some of it frankly useless, covering every sort of record ever established, from sport to science, engineering to the world of nature.

In the last few years editions have appeared in Czech, Danish, French, Finnish, German, Italian, Japanese, Spanish and Swedish. Records get broken with alarming speed and so the Guinness Book is published every year to keep the information up to date.

Answers are : a TV tower of 2,100 feet in Plock, Poland; the Apollo 15 lunar vehicle – cost £15.8 million; Mrs Beverly Avery, of Los Angeles, who has had 14 husbands.

June Wedding

The engagement has been announced of Temaleti Fulivai, the second daughter of 'Anau and Talolakepa Fulivai of Hunga, Vava'u, to Michael Sek, second son of Mr & Mrs Frank Sek of Queanbeyan, New South Wales.

Miss Fulivai is at present on holiday in Australia. She was a former secretary to the Director of Education.

The marriage will take place in Sydney in June.

Mr Sek is a technical adviser at the Department of Works, Canberra. He is a keen rugby footballer and has represented New South Wales Country in the Australian championships.

He now plays for Queanbeyan Rugby Union Club and is a regular member of the first grade.

Petrol Checked, Grade Is Super

In response to inquiries about the quality of petrol, the local manager of British Petroleum South-West Pacific Ltd., Mr John Horsley, states that laboratory tests on the super-grade motor spirit imported by his company meets the specifications for 98 octane rating.

He said the results indicated that the super-grade petrol marketed by BP in Tonga is the same as the normal super spirit marketed by his company in Australia, New Zealand and Fiji.

Next Purchases Planned Early This Month

A GENERAL GUIDE TO THE TYPES OF HANDICRAFTS PURCHASED BY THE MULIKIHA'AMEA ENTERPRISES FOR EXPORT

In the hope that it will be helpful to the women of the Kingdom, these photos are published as a general guide only, to indicate the various types of Tongan handicrafts required by the Mulikiha'amea Enterprises for export.

Vava'u and Ha'apai residents should find this especially helpful. Time has not permitted us to purchase in Vava'u and Ha'apai previously, however, every attempt will be made to do so during February.

Our plans call for these purchases to be made in early February. All purchases will be paid for in Tongan currency at the time of purchase. Equal prices will be paid in each Island group and no favouritism will be shown.

VACANCIES
DRIVER FOR
TONGA VISITORS BUREAU

Candidates need not have a driving licence as the Tonga Visitors Bureau is prepared to teach the successful candidate to drive; but a current driving licence would be advantageous to applicants. Applicants must have the Higher Leaving Certificate and wish to advance in a growing organisation. Written applications from Tongan nationals between the ages of 22 – 30 years are invited and should be address to The Tourist Officer, Tonga Visitors Bureau, P.O. Box 37, Nuku'alofa before the February 19.

Applications are invited from males only between the ages of 18 and 25 years for the following vacant positions in the Telegraph and Telephone Department:

(a) Three vacancies in the Telephone Technical Staff. After a period of training in general telephone technical work, one will be given specialist training in cable jointing, one in exchange and telephone maintenance, and the other in telephone line and installation work. The commencing salary for these posts will be T$300 p.a. in the scale T$300 x 30 - 360EB 420 x 30 - 480EB 540 x 30 - 600PB 654 x 54 - 816.

(b) Two vacancies in the Radio Technical Staff. Successful applicants will after a period of training be employed at the transmitting station, 'Atele, as Technical Assistants for the operation and supervision of transmitting equipment. The commencing salary for these posts will be T$300 p.a. in the salary scale T$300 x 30 - 360EB 420 x 30 - 480EB 540 x 30 - 600 x 54 - 978.

(c) Four vacancies for telegraphists. Applicants for these posts must be prepared to accept posting to any of the Department's radiotelegraph stations throughout the Kingdom after completion of their training. The commencing salary for these posts will be T$300 p.a. in the salary scale T$300 x 30 - 360EB 420 x 30 - 480EB 540 x 30 - 600 x 54 - 978.

The minimum qualification for all positions is the Higher Leaving Certificate with passes in English and Mathematics; or an equivalent overseas certificate, although preference may be given to those who possess higher qualification. A very good knowledge of both written and spoken English is essential.

Applications must state clearly the position applied for. Those who wish to be considered for more than one position must make a separate application for each.

Applications should be submitted in the applicant's own handwriting with copies of educational certificates and testimonials and they must reach the Superintendent, Telegraph and Telephone Department, Nuku'alofa not later than Friday, February 25, 1972.

ENGLISH SUNDAY SCHOOL

Parents are reminded that the English Sunday School will commence on Sunday next, 6th February, 1972 at 9.00 a.m. in the Wesleyan Primary School, Nuku'alofa (at the rear of the Centenary Church). All English-speaking children are welcome.

(Mrs.) J. Finau,
Secretary.

VACANCIES IN THE HEALTH DEPARTMENT FOR TONGAN OVERSEAS REGISTERED NURSES

Applications are called for 2 vacancies in the post of Health Sister in the Health Department from overseas qualified and registered Tongan Nurses. The Salary scale for these posts is T$870 x 54 - 978 x 84 - 1230 EB 1326 x 96 - 1710 plus an uniform allowance at T$40 p.a. Living-in allowance at T$130 p.a. will be deducted if you live-in.

Applicants are requested to apply in your own handwriting in English, and to send copies of Certificates and testimonials to reach the Matron, Vaiola Hospital not later than February 16, 1973.

University Centre News

By MARGARET BLUNDELL

By the end of this week most classes at the University of the South Pacific Centre will have started and anyone who has still to register should do so at the next class. With Easter coming early it is a short term.

The programme is available during offices hours at the centre, at the old Vaiola Hospital.

English for civil servants, Tongan oral literature and management courses all begin next week.

Tomorrow night at 8 o'clock, the recording of Benjamin Britten's church opera "Noye's Fludde" will be played at the centre for all interested in hearing this very enjoyable piece of contemporary church music, with good singing by children.

Next Friday, Dr Lawrence of USP in Suva is expected on the "Canberra" and will hold two meetings for sixth-formers interested in finding out more about USP and another for parents and teachers. Look out for details of this next week.

Mr Anderson, UNDP physical sciences curriculum adviser is also here early this month and will be working with science teachers during the few days he is here.

A TOP AIRLINE – Air NZ is among the world's top airlines in terms of growth for the five years from 1965, according to a survey by a U.S. Magazine, Air Transport World. Of 101 airlines, Air N.Z. was sixth in cargo/ton/kilometre growth and 18th in passenger/kilometre growth.

Soccer Continues As Saturday's Big Attraction

By CHRIS

A most enjoyable afternoon of Soccer was witnessed by His Majesty and an enthusiastic crowd of about 2000 on Saturday.

Ha'ateiho A with Line Fāpiano back in the attack produced some excellent positional play and were just too good for Niuvakai A scoring the only goal of the match. Both these teams have shown great improvement and the game was a pleasure to watch.

Veitongo B had themselves a field day against Tonga College B and won by the handsome margin of 8 goals to nil.

Ngele'ia B gave a good showing by beating Kauvai by one goal to nil and this game showed that general improvement is taking place.

Lotoha'apai beat the fast moving Veitongo Youth Club 4 - 0 and will be a good team when they settle down a little more.

Royal Guards started very well and looked winners until half time they then got rather ragged in defence and allowed Toafaka'amu A to run out winners by 3 goals to 1. The Guards had every chance but seemed rather confused in their mid-field play.

Kolofo'ou A gave an excellent performance to beat Fotu'āfine:nā 2 - 0. Both teams combined well and showed good positional play but the boys from Kolofo'ou had that little extra and showed the result of intelligent training.

Ngele'ia A were too strong for Tonga College A and won 4 - 1. Ngele'ia A will be one of the hardest teams to beat if they continue their present form.

Ha'ateiho B beat Toafaka'amu B 2 - 0 in a rather scrappy game. Both teams need to get in some practice as they are inclined to pack too much and not let the ball run freely.

Veitongo A continued their winning vein by beating Sopu 5 - 0. Sopu played very well indeed but when Veitongo have their tails up they are a hard team to stop. It was a most excellent game and had the crowd really excited.

Tupou 'College beat Lāngileka by 2 - 0 in a closely fought game that showed that both teams were fast and fit. Niuvakai B beat St. Andrew's 3 - 0 to complete the afternoon's games.

The overall standard of play has improved considerably and it is also very pleasing to see that greater attention is being paid to the wearing of proper colours.

The representative match against the "Ocean Monarch", which resulted in a draw of 2 goals each, was excellent in every way and was thoroughly enjoyed by the 4000 spectators who crowded the mala'e.

It is worthy of note that the "Ocean Monarch" team recently beat the Fiji Police and have had many other wins in both Australia and New Zealand.

A race for the ball in last Thursday's Tonga v Ocean Monarch match . . . a 2–2 draw.

MISS TONGA CONTEST AGAIN IN AUGUST

The Miss Tonga contest is to be held again, this year organised by the Fā'onelua Garden Committee.

The idea for the contest originated with this committee and it was their intention to hold one last year, the chairman, Mr H. V. Barnard said, however, appreciating the needs of the Tonga Amateur Sports Association, the committe gave the association the privilege of holding the first one.

The 1972 contest has a threefold objective: the selection of the Kingdom's 1972 Beauty Queen, the selection of a Fā'onelua Beauty Princess and the raising of funds to enable the gardens to provide more amenities and to pay for the upkeep and maintenance of the property.

The committee, Mr Barnard, Mrs Tonga and Messrs S. Fua, L. Maka and S. Lipoi Tupou has agreed on the rules governing the contest and it was unanimous that more time should be allowed this year for firms, organisations and villages to select their candidates, hence the early announcement of the rules.

The 1972 Miss Tonga contest is open to any single Tongan national girl between the age of 16 and 25 living in the Kingdom. An entrance fee of $100 must be paid for each contestant.

All entries must be notified to Mr H. V. Barnard, Treasury, P.O. Box 87, Nuku'aofa, by July 14 using a simple form which will be available shortly and accompanied by the entrance fee. Late entries will not be accepted.

The committee reserves the right to reject any proposed contestant whom it is found does not qualify under the rules governing the contest or where it considers that her acceptance would not be in the best interests of the Kingdom.

It is hoped that many firms, organisations and villages will enter. There is no limit to the number of contestants any particular body can enter, provided the entrance fee of $100 is paid for each. Mr Barnard said now was the time to arrange functions to raise funds and to select contestants.

Fā'onelua is available for hire at a nominal charge to any firms, villages or organisation requiring it. Inquires to Mr S. Fua, E. M. Jones & Co. Ltd.

Judging will concentrate on selecting the most attractive girl to be Miss Tonga 1972. The panel of judges will comprise one person nominated by each of the sponsors. Contestants will not be subject to interview.

All contestants will be required to be in Nuku'alofa by August 12. Judging will be spread over three days, Monday 14, Wednesday 16 and Friday August 18. On each of the days, contestants will parade in different costumes: Monday, in old time traditional Tongan dress; Wednesday, in accepted Tongan day dress with vala and ta'ovala or kiekie of own choice; Friday in long evening dress.

The winner will receive a holiday overseas for herself and chaperone, with free air transport, accommodation and spending money. There will also be special prizes for girls placed second and third in the contest as well as mementoes for all other contestants.

The Fā'onelua Beauty Princess 1972 will be run in conjunction with the Miss Tonga contest. This will be open to any Tongan national girl between the age of 8 and 12 living in the Kingdom. An entrance fee of $10 must be paid for each contestant.

The girls will be judged by the same panel as for the Miss Tonga contest and will be required to parade in two different constumes; in old time traditional Tongan dreess and in accepted Tongan day dress.

The winner will receive a substantial prize to be announced shortly and there will also be gifts for the second and third with mementoes for all other contestants.

ROYAL TEACHER

The Queen Mata'aho Kindergarten started its new year with a new teacher – H.R.H. Princess Pilolevu. Her Royal Highness is seen here with some of her young charges. The Princess completed her kindergarten training in New Zealand last year.

Reef 'Republic' Opposed

(From front page)

the reefs did not belong to anyone," Mr Oliver said.

"By international law, one can claim by annexation only land above the sea that can be built upon. We have met this requirement by constructing two small islands of coral and sand on the reefs".

Mr Oliver said that after travelling by boat from Suva, representatives of the foundation raised the republic's flag on the reef on January 20.

Every country in the world had been asked to recognise the republic. The Prime Minister of Fiji, Ratu Sir Kamisese Mara has said he personally was not inclined to recognise the claim.

On Monday, Mr Olver said the 65ft Canadian trimaran Triptych would leave Suva that day for the Minerva Reefs so make soundings for the foundation. He was going to Brisbane to complete a contract with a dredging company for the reclamation of the land.

He said he was having difficulty with dredging companies.

"The problem is that they do not want to start work until the end of March.

"It is now the hurricane season and they have difficulty getting insurance cover, he said.

Saturday's Soccer Draw

2.00 pm
1. Tonga College A v Langileka.
2. Niuvakai A v Ngele'ia A.
3. Lotoha'apai v Niuvakai B.

3.00 pm
1. Toafaka'amu A v Fotu-'āfinemā.
2. Kolofo'ou B v Veitongo B.
3. St. Andrew's v Ngele'ia B.

4.00 pm
1. Kolofo'ou A v Royal Guards.
2. Ha'ateiho B v Veitongo Youth Club.
3. Kauvai v Ha'akame.

5.00 pm
1. Ha'ateiho A v Veitongo A.
2. Tupou College v Sopu.
3. Tonga College B v Toafaka'amu B.

WOMEN'S DIVISION

3.00 pm 1. Ma'ufanga v Kato Kakala.

3.50 pm 2. Veitonga v Veitongo Youth Club.

4.40 pm 3. Ha'ateiho v Kolo Kakala.

This And That

CHRONICLE DIARY

An order for a patrol boat for Tonga is being placed in Britain with Brooke Marine. The craft will cost T$100,000 will have a speed of 27 knots, be powered by twin V8 engines; 40ft long, it will draw 12 metres. It will carry a crew of four and be equipped with radar, radio-telephone and echo sounder. On the bow will be mounted a machinegun capable of firing armour-piercing incendiary bullets.

* * *

We hear of a tried and proven cockroach killer. Buy boric acid powder, spread it around the house and wait three weeks. The cockroaches eat the boric acid powder and in turn eat each other. In that way whole families of the insects are wiped out. The beauty of boric acid is that it is absolutely harmless to humans and animals. Even though the powder is lying around, children will be quite safe.

* * *

Although our story about an increase in sugar said the price wouldn't be going up until about the middle of this month, many small stores are already charging 15 seniti a pound. The Audit Department have been having a blitz on these offenders and some prosecutions are possible.

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, February 10, 1972 Vol. VIII No. 36 3 Seniti

NATIONAL SHIPPING LINE IS FORMED

A national shipping line has been formed by Tonga. It will be known as the Pacific Navigation Company, the Secretary to Government, Mr Taniela Tufui said yesterday.

The formation of the new company was approved by His Majesty King Taufa'ahau Tupou IV in Privy Council last week.

With the share capital of T$2 million, the company shareholders are the Tonga Government, Tonga Copra Board and Tonga Produce Board.

Mr Tufui said the company is to be registered this week but the date of beginning business is not yet determined.

The company, in operation, will take over the services provided by the Tonga Shipping Agency.

The government and the commodity boards vessels, will come under the Pacific Navigation Company with the exception of the fishing vessel "Ekiaki" which she will continue operation under the Ministry of Agriculture.

The vessels to be operated by the new shipping line are: "Tauloto", "Niuvakai", "Aoniu", "Hifofua", "'Olovaha", "Kao", "Pakeina", "'Ulufonua", "Fonualei", "Fanga'ilifuka", and the pilot launch "'Unga".

The board of directors will consist of 11 members with the Prime Minister, H.R.H. Prince Tu'ipelehake as Chairman.

An interim board of directors has been appointed from the Government and the commodity boards. It is: Minister of Finance, Hon. Mahe U. Tupouniua, the Secretary to Government, Mr Taniela Tufui, Mr 'Alipate Tupouniua and Mr S. Pousima Afeaki from the commodity boards.

The traditional handing over of the ship's bell in Hong Kong when the "Tauloto" became part of Tonga's merchant marine fleet. Right, is the general-manager of China Navigation Company, Mr C. G. N. Ryder, and the master of the "Tauloto", Captain J. Stott. The "Tauloto" is due to leave Sydney tomorrow and arrive in Nuku'alofa on February 21, via Island ports.

Increase In Flights Is Imperative

By THE EDITOR

An increase in the number of flights from Fiji to Tonga and Tonga to Samoa is unperative to cope with the demand from travellers and tourists.

It could be two years before Tonga will have the advantage of the new BAC III 80-seat planes Air Pacific is getting, but in the meantime the Kingdom is losing a lot of the tourist trade and earning a lot of criticism from travellers and tourists who find themselves stranded, waiting cancellations.

Of particular concern to tour operators is the number of tourists who arrive in the Kingdom for a short stay before going on to Samoa and Fiji and find they are unable to get a seat on the aircraft, even though they have confirmed bookings.

The Tonga Visitors Bureau can tell of many complaints from tourists of the unreliable service to and from Tonga.

A Canadian Television Corporation production manager has been waiting in Samoa for two weeks waiting for a booking to Tonga.

A married couple who arrived in Tonga with confirmed bookings tried several times to get back to Suva by air. Eventually they flew to Samoa, caught the "Tofua" and got back to Suva that way, via Tonga.

A tour operator said tour groups in Fiji and Samoa had been discouraged from going to Tonga because of the danger of being stranded.

He said he knows a lot more groups would include Tonga in their itinerarys if the air service was more reliable.

In view of the growing importance of tourism to the economy the situation should be viewed with concern.

THE NEW TUITA

His Majesty has announced the the appointment of Laufilitonga Tuita to the hereditary title and estates holder, Tuita.

The appointment took effect from February 3, 1972, following the death of his father, the Hon. Tuita (Toluafe), on February 2.

The new Hon. Tuita, received his early education at Tupou College, Nafualu and completed his studies at Wesley College, Paerata, Auckland. He entered the Tonga Defence Force in 1942 where he attained the rank of Lieutenant.

The Hon. Tuita entered the Civil Service as a clerk and interpreter in the Supreme Court and was later promoted to the post of Registrar of the Supreme Court where he worked for many years.

In 1956 Hon. Tuita was made Governor of Vava'u until 1963 when he was appointed to the dual ministerial post of the Minister of Lands and Health. Dr. Sione Tapa was appointed Minister of Health in 1970 leaving the Hon. Tuita with the portfolio of Minister of Lands.

The Hon. Tuita on several occassions has acted as deputy Prime Minister.

DECISION TO PLAINTIFF IN LAND CASE

Judgement in a land case concerning the validity of a permit has been granted to the plaintiff, Maria Edith Tu'inukuafe, against the Minister of Lands, 'Uliti Uata and Sione M. Lemoto. Mr Justice Roberts in his judgement said :

This case concerns a town allotment on Crown land situated in Nuku'alofa at the junction of Taufa'āhau and Wellington Roads. The allotment was granted in 1909 to Tu'ivakanō. In 1924 a lease of the allotment was granted to the father of the plaintiff which, after one renewal in 1945, expired in April 1966.

Tu'ivakanō died in 1926 without an heir and the allotment (subject to the lease) devolved to his widow, Kilisitina, as a life estate. Thus from 1926 to 1966 the owner of the allotment and, in fact, the lessor was the widow Kilisitina. On the date of expiry of the lease in 1966 the plaintiff was the lessee. An application for a further renewal was made by the plaintiff, but in 1963 it had been enacted as an amendment to the Land Act that a widow may not lease the land of her deceased husband.

NOT POSSIBLE

Thus it was not possible for the Minister of Lands to grant a renewal of the lease to plaintiff. Instead the Minister pursuant to section 19 (3) granted plaintiff a permit for the purpose of a trading site on the land. The permit was granted in the form of Form 6 of Schedule VIII of the Land Act. It was granted on July 24, 1969 and was to run for 10 years from April 18, 1966 until April 18, 1976, at a yearly rental of $200.

On the date when the permit was granted, Section 104 of the Land Act provided that a permit shall only be valid for the life of the grantee.

On November 9, 1967, about 19 months after the permit had commenced to run and four months after the granting of the permit, Act No. 9/67 came into force amending Section 104 and providing that a permit shall cease to be valid on and after the date of the death of either the grantee of that permit or of the landholder on the day of the issue of that permit.

On February 2, 1971 Kilisitina, the holder of the life estate and, thus the landholder, died. Approximately one month later the Minister of Lands informed plaintiff's son, as her manager, that, pursuant to the amended Section 104, the permit was cancelled. Plaintiff was invited to make application for a lease of the property. There were two other applicants, the second and third defendants.

On the April 16, 1971 plaintiff received a letter from Minister of Lands requesting her to submit a plan "as soon as possible" of the development of the property to be undertaken by her. These plans were submitted to the Minister of Lands three weeks later on May 7, 1971. In the meantime, however, Cabinet, on May 6, 1971 had approved the granting of leases to 'Uliti Uata and Sione Lemoto, the second and third defendants, and plaintiff was informed of this by letter from Secretary to Government dated May 12, 1971.

Plaintiff claims —

(1) That as her permit was granted prior to the coming into force of the Act amending Section 104 of the Land Act, the retrospective application of the amending provision is contrary to Clause 20 of the Constitution which provides that "It shall not be lawful to enact any retrospective laws in so far as they may curtail or take away or affect rights or privileges existing at the time of the passing of such laws." Consequently the cancelling of her permit was illegal and that, therefore, the permit is still valid and will remain so until April 4, 1976, the end of the expressed term, or the death of the grantee whichever is the sooner.

(2) That the granting of the leases to defendants second and third by the Minister of Lands with the approval of Cabinet, without Cabinet viewing or considering the plans of plaintiff, is contrary to the rules of equity, and should, therefore, be annulled by this Court.

Plaintiff was invited to apply for a lease owing to the cancellation of his permit and it is this which initiated plaintiff's application and finally led to the claim of plaintiff in equity with regard to the lease. If plaintiff's permit had not been cancelled the lease application would not have been made.

It has been submitted by the defence that it was the established practice, before the 1967 amendment to Section 104 of the Land Act, that on the death of the landholder any permit granted on his land immediately terminated and that, consequently, the 1967 amendment did not effect any change in the law. On this premise it was argued that the application of the 1967 amendment did not operate to vary the terms of the permit and, accordingly, was not retrospective.

ESTABLISHED PRACTICE

In support of the submission that the termination of a permit was the established practice, evidence was given that a Mr W. Wight held a permit on the estate of the noble Lasike and that when Lasike died in February, 1967, the permit was immediately terminated. In the case of Mr Wight, however, a new permit was granted to him by the new owner or landholder. Furthermore, this is the only case referred to in support of the submission of "established practice". I consider this quite insufficient to establish a practice or custom and it was no doubt due to the uncertainty of this that the Act of November 9, 1967 amending Section 104 of the Land Act was passed. A custom in order to become law must be established by long usage; the evidence adduced has failed to established by long usage and I am advised by the Hon. Assessor that there was, in fact, no such established custom.

Let us now consider the wording of Clause 20 of the Constitution : "It shall not be lawful to enact any retrospective laws in so far they may curtail or take away or affect rights or privileges existing at the time of the passing of such laws". It follows from this provision that no laws shall be applied retrospectively so as to affect, as stated, such rights or privileges. This Tongan constitutional provision follows a principle of interpretation well established by English common law.

What is meant by existing rights in Clause 20 of the Constitution? Existing rights are frequently being taken away or varied by legislation without any complaints that this is contrary to Clause 20. For example, my existing right to drive a car at a maximum speed of 30 m.p.h. along a certain highway may be curtailed or affected by a reduction by law of the permissible maximum speed, or an Act may permit the Police to close the highway altogether. What is then the meaning of existing right within the provision of clause 20?

PREJUDICAL EFFECT

It is stated in Maxwell's Interpretation of Statutes: "It is chiefly where the enactment would prejudicially affect vested rights, or the legality of past transactions, or impair contracts, that the rule in question prevails".

It is stated in Vol. 36 of the 3rd Edition of Halsbury. "Unless it is clearly and unambiguously intended to do so, a statute should not be construed so as to interfere with or prejudice established private rights under contracts or the title to property" and many cases are cited in support of this common law.

Almost all of the cases cited in relation to contract, however, are those relating to titles to land or insurance. The range is small, but from these cases it is quite clear that however narrowly the law may be interpreted the expression 'established private rights' or 'existing rights' must certainly include vested rights to land – and rights present or future established by contract in relation to land.

Clause 20 of the Contitution must be interpreted to include such rights. There can be no possible alternative.

Now, a permit in Form 6 of Schedule VIII of the Land Act granted pursuant to Section 19 and Section 103 and 104 is contractual in relation to land. The right to possession and user is granted, subject to specified conditions, for the consideration of a specified annual sum as rent.

When this form of permit was issued to plaintiff the conditions as to termination were those provided in Section 104 before the 1967 amendment, and in the permit itself; there was then no condition that the permit should terminate on the death of the landholder.

When plaintiff was granted her permit she had the right, subject to regular payment of rent, of possession for 10 years, to expire in April 1976 or on her death. This was her contractual and existing right and in so far as the subsequent amending legislation interfered with this right it is retrospective and contrary to the provision of Clause 20 of the Constitution.

This Court, therefore holds that the permit granted to the plaintiff on July 24, 1967 is valid for the period stated and that, accordingly, plaintiff is entitled to possession in terms of the permit. This Court enters judgment for the plaintiff in the terms stated and makes no ruling or order in relation to the lease application. No order as to costs.

Field Officer For Red Cross

Miss Katokakala Savieti (25) of Ngele'ia, formerly a primary school teacher, is the newly-appointed field officer of the Tonga Red Cross Society.

Miss Savieti will spend most of her time travelling through the Kingdom recruiting members into the society. Also she will be teaching first aid and general hygiene at the Teachers' Training College to Tonga Defence Force and at Agriculture Department instructors' courses.

Miss Savieti has been associated with the Tonga Red Cross for several years as a link leader in the Junior Red Cross.

She received training at the St. John Amblance Asociation in Suva.

The Tonga Red Cross was a branch of the British Red Cross Society, but now it is an independent society. The society however, must be recognised by the Tonga Government before it can register with Red Cross headquarter in Geneva.

In Tonga at present is Miss G. T. Scott,from Red Cross headquarters, advising on establishing the Tonga Red Cross national society.

"DEAR SIR..."

LETTERS TO THE EDITOR.

Rubbish Dumping

Dear Sir,

There should be some way to stop those who used the Nuku'alofa waterfront as garbage dump. The Minister of Police has already put out an notice saying that no one is allowed to dump garbage into the sea especially the Nuku'aofa beach front.

I don't think the tourist likes to see this, especially when they come to look at the Royal Palace and the British Commissioner's residency. These particular beachfronts are so ugly because of rubbish that has been dumped there. It will be easy for us to make it look nice and clean.

The Ministry of Health has selected a site to use as a garbage dump. They have provided a garbage truck to take away the garbage at a reasonable cost of 25 seniti a month. Twenty five seniti is not much compared to the beauty and cleanliness of our beachfront.

A tourist likes to visit our beachfront, but when they see garbage they may be not like to visit the beachfront again. We should all co-operate in cleaning our beachfront.

M. VAIKONA.

* * *

Tobacco Ads

Dear Sir,

I note with horror in your paper the use of full page and other advertisements for cigarettes.

It is incomprehensible to me how any reasonably intelligent person could treat as non-existent or inconsequential the vast amount of conclusive evidence that points to cigarettes as probably the biggest mass killer the world has ever known.

People smoke either because it has become a deeply entrenched habit or because it is used as a psychological prop.

However, my concern is not with these people who are beyond all but expert help, but with our young people, Tonga's future leaders. As well as seeing their elders smoking and hearing cigarettes advertised on the radio, our youth gain reinforcement of the idea that smoking is socially commendable every time they read your paper.

I fail to see how the revenue gained in carrying these advertisements could possible justify the great risk to the future potential of Tonga.

J. R. HARKNESS (MISS).

Hidden Beauty

Dear Sir. — As a tourist here in Tonga, I have very much enjoyed my stay of over two weeks. In particular, I found the island of Vava'u very beautiful and the people most friendly.

However, I think it is most distressing that the strange schedule of the "'Ilovaha" makes it impossible for visitors to admire "the most beautiful harbour in the Pacific"—unless there is a full moon!

I doubt whether the Tongans, either, very much enjoy waiting on the Vava'u docks until 2 or 3 o'clock in the rainy morning. What they certainly didn't appreciate (nor did the palangi) was not being able to eat until we reached Nuku'alofa.

Please forgive me for being so critical; but otherwise, I have nothing but praise for your beautiful kingdom.

ANTHONY ARNHOLD.

* * *

Rugby Tour

Dear Sir. — I am quite pleased with the programme of the proposed Rugby tour of Tonga by Fiji later on the year as announced by the Tonga Rugby Union. I am grateful to the president and Union members for their diligent work in promoting rugby in the kingdom.

However, I wish to refer to part of the programme regarding the Fiji side visiting Ha'apai and Vava'u. This is new, and is of historical significance, as this would be the first international side visit these islands. To mark this we must be able to produce a high standard of rugby. Therefore, I suggest that 'Eua form a combined team with Hahake and for Ha'apai and Vava'u to combine as one team to be called the "Tautahi", as has been done in the past.

In 1946 I was in a Vava'u representative side visiting Tongatapu. At the same time a Ha'apai side was visiting Tongatapu. This was the first occasion in which a combined team from the northern islands was selected and was called the "Tautahi".

I am sure if the Tongatapu Rugby Union lets the northern's island's union handle their games against Fiji they will be able to do it as well as it has been done in the past.

Drink Of Petrol Kills Baby Boy

A 17-month old boy, Keni Taukolonga, died after drinking a bottle of petrol last Friday. He was the adopted son of a Kolomotu'a businessman Mr Keni Taukolonga and 'Itanoa.

Mr Taukolonga, accompanied by his young son, went to help a friend in a plumbing works at Longolongo. Unknown to his father, the boy found a bottle of petrol and drank it.

He was rushed to hospital but died that night.

"I always fly VC10. Superbly comfortable, serenely quiet. And a choice of ten flights a week."

For some people there is only one airline.

BOAC fly the smooth, silent VC10 from Fiji ten times a week – five one way, five the other. To Sydney or to Hawaii, Los Angeles, New York and London, with world-wide connections.

You relax in the world's most comfortable economy class seat, in a cabin that's as quiet as a library – because the four giant jets are mounted in the rear, leaving the noise behind you.

Plan your next flight now by BOAC VC10.

BOAC takes good care of you

Reporter "Ashamed" At Tongans' Living Conditions In Auckland

"HOVELS ON OUR DOORSTEP" . . . the story was headed. It was a "special inquiry" by reporter Garth George in the Auckland Star's weekend paper, the 8 O'clock, on January 22, describing how a group of Tongans were living in a Ponsonby flat.

The following Saturday, January 29, the 8 O'clock published a reply to the article, by Dr Joe Fanamanu, the manager of 'Atalanga.

Extracts from the two articles are reprinted, in view of the interested they have aroused in Tonga.

HOVELS ON OUR DOORSTEP . . .

I walked into a hovel in a Ponsonby backstreet one night this week —and left feeling ashamed to be a New Zealander.

I also felt like a shower after having sat in the flea-ridden, stark and shabbily furnished "flat" for half an hour or so.

It was the home of a number of Tongans.

I've read about the terrible conditions in slums in big cities in other parts of the world. In fact, I've seen them in Chicago and New York. I did nt know how bad they were in Auckland.

It didn't help to hear that these conditions—hardly fit for animals – were similar to, if not a litle better than, those under which people would live in the kingdom of Tonga.

This is New Zealand, 1972, a modern democracy (so we're told) where social welfare is paramount irrespective of race, colour or creed.

The slum I visited was, I'm told, only one of many in the sprawling, ancient backstreets of Ponsonby, Freemans Bay and Kingsland.

It was also deribed as one of the better ones, since only three people lived in it compared with up to 10 in other similar-sized "flatts".

The main part of the "flat" consists of a room about 15ft. long and 8ft. wide, with the rear 5ft or so partitioned off to make a "kitchen".

Kitchen equipment consists of a tiny stove, which wouldn't be acceptable even in the cheapest motel; a small and obsolete refrigerator, a rusty sink surrounded by a bench covered in cracked and lifting linoleum; a table about 3ft by 2ft and three ricketty stools. The one the tennants had stopped working and for some days they had to light fires in a vacant section nearby to cook their meals.

The landlord eventually provided the "new" stove—one fast element, one slow and an oven barely big enough to cook a chicken in.

The rest of the main area, about 10ft by 8ft, is living and sleeping areas.

The dominant feature is an old double bed, in which a man and his wife can't sleep for fear of the springs giving way. So they sleep on mattresses on the floor—and freeze among the fleas.

The floors are bare (except for a strip of cracked lino in the kitchen), the curtains torn and tattered, the wallpaper (where there is wallpaper) peeling.

There's another bedroom—but its occupant has to sleep on the floor, too. His old single bed broke and has never been replaced.

The bathroom's not bad—apart from the gas heater on the wall above the bath.

Then there's the laundry—the piece de resistance—two cracked concrete tubs, a washing machine the Museum of Transport and Technology would love to have—and no hot water.

For that, advertised as fully furnished, $10 a week.

It must be said—indeed emphasized—that Tongans coming to New Zealand on three-month work permits often choose to pay such rents —and therefore get such conditions.

They are here for one purposes: To save enough money to send and take home to supplement the barely subsistence standard of living in Tonga. That is why they are prepared to live in slum conditions—the the rent is cheaper.

Members of Auckland's Tongan community say that Tonga's economy today very much parallels that of feudal England in the Middle Ages.

They say that of Tonga's population of some 80,000 a mere 300 or so control the money.

The rest of the population is reduced to serfdom, barely subsisting in an economic climate which is steadily growing worse, they claim.

NZ'S FAULT SAYS TONGAN LEADER.

The answer to Tongans living in hovels in Auckland lies with the New Zealand authorities, according to one of their leaders.

"They can earn good money here and they shouldn't be allowed to create slums in the city", and Dr Joe Fanamanu, manager of the Tongan Government's official residence for students in Auckland, who was formerly involved in public health in Tonga.

Garth George revealed in the 8 O'clock last week the extent of Ponsonby backstreet equalor, where Tongans who have come here for three months to work, live in hovels.

Some of the Tongans said they were forced to come here as wages so low in their own country and the "nobles" held all the power. They admitted taking cheap accommodation so they could save their money.

A Tongan who ranks as a noble, the Hon. Fielakepa, was in Auckland this week on holiday. I asked him about the allegations.

He agreed that Tongans could earn more money in New Zealand and that they came here for this. But he considered they gained benefits in knowledge and skill here which they could use back home again. He saw no dangers to Tongan society from any discontent this caused.

He was not prepared to discuss the other issues raised by the 8 O'clock, but said that Dr Fanamanu would speak about them on his behalf. He sat with us while I talked to Dr Fanamanu.

"What are your public health people doing? The doctor asked, holding up the page of the 8 O'clock showing photographs of derelict dwellings. "They should demand a proper deal from the landlords.

"Our people should not be given a chance to start slums like this in Auckland. It is your human duty to prevent it.

"These people have the money to pay for better places to live. You shouldn't allow five men to share a flat and pay $10. I have seen boys return from New Zealand with enough money to start up a business. This is how they do it".

He agreed that a lot of the fault lay with Auckland landlords, who exploited the Tongans.

Dr Fanamanu agreed Tongans could earn big money by coming here. But he disputed the claim that they had no opportunities back home.

"Tonga as a whole is poor" he said, "so the King and nobles cannot be rich.

"You don't blame the poor man because he can't produce a good meal for you. Why hate Tonga because she can't pay you what New Zealand does?

"There have been complaints for years tthat the King and the nobles control all the money, but it is the greatest misconception perpetrated by a dissident minority".

UNION NOW WELCOMES ISLANDERS

One of Australia's biggest trade unions has abolished an 82-year-old rule which has officially discriminated against Pacific Islanders and Asians since the 19th century.

The annual convention of the 150,000-member Australian Worker's Union decided unanimously to withdraw the rule, which was introduced with the founding of the union in 1890.

AWU Federal Secretary, Mr Tom Dougherty, said that, under the regulations, membership of the union by Islanders, Chinese, Japanese, Indians, New Guineans and similar racial groups had to be approved by the federal executive council.

He denied that this was a colour bar and said the rule had not been practiced for a long time.

He said the regulation should have been struck from the union rule book long ago.

Briefly...

COLD STORAGE – Scientists estimate that about 80% of the world's supply of natural fresh water is locked in the South Pole's ice cap.

BEWARE OF THE FEMALES – Only the female mosquito bites. Mouth parts of the male are not equipped for biting.

RESERVE TEETH – Sharks have five or six reserve sets of teeth behind their formidable onter row, National Geographic says. The teeth continuously move forward so that when the front teeth drop out, new ones take their place.

CHANGE OF GOVERNORS – The Governor-General of New Zealand, Sir Arthur Porritt, and Lady Porritt will leave New Zealand on September 5 at the end of their five-year term. The new Governor-General, Sir Denis Blundell and Lady Blundell, will arrive on September 26.

LUXURY CARPET – Woollen carpet with a 2-inch pile, made by New Zealand's UEB Industries and normally retailing at NZ$19 a square foot, has been sold to King Feisal of Iraq for his London flat.

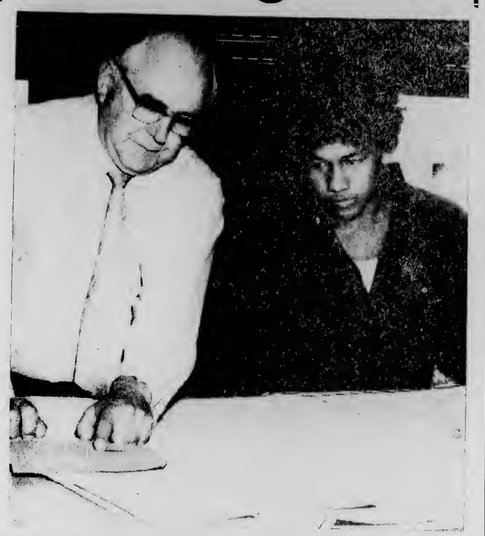
Learning Well



Napole Fekitoa an air-conditioning apprentice at Haden Engineering Pty Ltd, Roseberry, N.S.W. has plans explained to him by the factory superintendent, Mr Bob Mieran.

Haden Engineering, a leading Australian air-conditioning contractor, employed Napole in September for 3½ years. When the period ends, Napole must return to Tonga under agreement with the Australian Department of Immigration to impart the skills of his trade in his own country.

This is part of a scheme devised by his elder brother, a final student in applied chemistry at the University of New South Wales, to introduce a variety of metal trades industry services to Tonga and other Pacific islands.

Another brother is learning foundry work at a factory at St Peters, N.S.W.

Mr Mieran says Napole is learning well and has made a good impact on his work mates.

THE CHANGING LIFE OF THE BRITISH

Britain's population will have nearly a million more women than men—in 30 years' time. This is predicted by "Social Trends", a publication, recently released by the British Government's Statistical Services, which offers forecasts, facts and figures on British ways, patterns in living and dying, working and spending, learning and leisure.

Britain's man-in-the-street, says the survey, works harder today, just under 46 hours a week with overtime, if he is a manual worker. But his regular hours are only 40 a week. Twenty years ago these hours were 44 a week.

His wife is more likely to work too, for one in every three households has two wage earners. A third of Britain's 12 million wives and mothers work today. And about half the six million single women in Britain earn their own living.

But marriage continues in popularity. Today, twice as many women get married under 25 as before the war. They marry younger and have children earlier too.

WEEKLY INCOME

The average weekly income coming into a British home—however many people contribute to it—is T$70. How does it get spent? One eighth goes on housing. A mortgage on a new house takes up T$54 a month. Then one out of every T$10 is spent on food. Clothing takes a little more at eight per cent of family income, the family car costs the same, and about half this figure is taken up by entertainment each week.

Television is favoured by most people for relaxation, especially the middle aged, with gardening second. Young men in their 20's are the least interested in either: and this group, claims the survey, spends more time drinking a good proportion of the 35 million barrels of beer consumed by the nation each year.

They are also the keenest on sport, playing games four times as often as they watch them. Do-it-yourself work on homes and cars is gaining popularity; and young married women are the keenest followers of crafts and hobbies.

Although the cost of houses has risen by 60 per cent in the last seven years, nearly twice as many people own their houses.

Loans for house purchase rose by a half over that period, to more than T$1200 million.

MIGRATION

Migration to the countryside is another trend, with nearly a million leaving cities for more open spaces over the last 20 years. By far the greatest number—800,000—left London. But more than a third of the rural working population travel into cities every day to earn their living, over four times as many as 50 years ago.

With longer holidays, nearly six million people had a holiday outside Britain last year, and Spain was favoured by nearly a third.

All this and a longer life too. Britain's man-in-the-street if he survives the one in a hundred chance of being killed in a road accident, can expect to live for 69 years, 20 years more than at the turn of the century. When he dies, it is most likely to be from heart disease, which eventually kills over a quarter of the population.

But one detail has remained unchanged over the years—women still live longer than men.

Women with a winning way

The Heilala 'o Takuilau Women's cricket team from 'Eua which won the trophy for the inter-district tournament.

The team played two games against Tongatapu, and each had a win. 'Eua won the final against Tongatapu.

The team is: Back row: Lavenita 'Elone, 'Elenoa Lakalaka, Lasima Fa'u, 'Ilaisaane Moala, Fale Faka'osi (Secretary, 'Eua Sports Association) Ma'imoa Lihau (Captain) Halamehi Mala'e, Sulieti Pongi, (Vice-Captain) 'Alisi Foliaki, Ane Foliaki.

Front row: Soana Lavelua, Soana Lū'au, Fipē Tafea, Manu Funaki.

Water For All In Neiafu Is Nearer

The second stage of the Neiafu water project will begin this month, the manager-engineer of the Tonga Water Board, Mr M. C. Ramos said this week. This includes digging of a second well and the circulation of water to the whole town.

Digging of the first well, construction of a 20,000 gallon reservoir, and connecting of a pipeline to the Port of Refuge Hotel, the first stage of project, was completed last year.

Expenses of $28,000 for the initial stages of the project had been met by the Tongan Government but aid from UNICEF in the form of equipment and materials will be arriving, Mr Ramos said.

The handling of finances is being done by the Medical Department but on completion of the project the Water Board will take control.

The fees will be the same as Nuku'alofa — 55 seniti a 1000 gallons for the first 5000 gallons and 40 seniti a 1000 gallons for over 5000 gallons.

On completion of the project a third well will be sunk to meet the water requirements of the whole town, Mr Ramos said.

BACARDI, ice and what?

and ginger
BACARDI rum, ginger ale, and ice—a spicy, daring new way to drink BACARDI rum.

and Coke
Pour BACARDI rum over ice and add enough Coca-Cola to drown a thirst. A classic drink and something else.

and tonic
Pour one jigger of BACARDI rum into a highball glass with two or three ice cubes. Add tonic water, a zest of lemon or lime and . . . Wow!

and what else?
Try BACARDI rum with anything — lime, orange, bitter lemon, crushed mint. You'll find anything goes with BACARDI rum.

Anything goes with BACARDI rum.

BACARDI and the Bat Device are registered trade marks of BACARDI and Company Limited.
'Coca-Cola' and 'Coke' are the registered trade marks of The Coca-Cola Company.

INFORMATION

VACANCY

DRIVER FOR
TONGA VISITORS BUREAU

Candidates need not have a driving licence as the Tonga Visitors Bureau is prepared to teach the successful candidate to drive; but a current driving licence would be advantageous to applicants. Applicants must have the Higher Leaving Certificate and wish to advance in a growing organisation. Written applications from Tongan nationals between the ages of 22 – 30 years are invited and should be address to The Tourist Officer, Tonga Visitors Bureau, P.O. Box 37, Nuku'alofa before the February 19.

FOR SALE

National Panasonic Radio, 4 meter band, shortwave, leather bound, about 1 ft long and 10" high 11 months old; perfect condition.

Asking price $30.00. Inquire at Tulua Bros, Rainbow Studio, Tungi Arcade—Pete Kistler, Peace Corps, Mu'a.

Ford Falcon Car, model 1968 in good condition; reasonable price. Contact T. Ti'o, Police Training School.

THE CAMERA CLUB OF TONGA

Next meeting, Monday, February 14, at the residence of Mr and Mrs J. Nicolle, Railway Road at 8 p.m.

A programme of Samoan Slides will be shown.

Bring your competition entries – monochrome "Indoors" and colour "Tongan Spectacular"; and bring your "open" black and white or colour slides to be judged at this meeting.

New members are always welcome.

Janet Madill,
Secretary (c/- Vaiola Hospital).

ST PAUL'S LADIES GUILD

The next meeting of the St Paul's Ladies' Guild will be at the home of Mrs Miles, Haveluloto, 3 p.m., Monday, February 14. Programme: Election of officers for 1972: demonstration of cake icing and decoration. New members welcome.

CRUISE SHIPS

The Tonga Shipping Agency has issued a list of the following cruise ships scheduled to call at Nuku'alofa this month and next month.

CANBERRA : tomorrow
IBERIA : Saturday
WEST STAR : Saturday
WEST STAR : February 17
WEST STAR : March 4
NORTHERN STAR : March 9
WEST STAR : March 9
MARIPOSA : March 25
WEST STAR : March 25
WEST STAR : March 30.

USP Centre News

By MARGARET BLUNDELL

This week it looks as if the University of the South Pacific centre will be enrolling its 100th student. To mark this, **the 100th registration will be free.** The winner of this free place will be announced next week.

Futa Helu's class in Tongan oral traditions began on Wednesday and business people are reminded that the course in management for the small business starts at 5 p.m. today.

For people interested in reading there is a class in books which are now in paper-back, written by the people of other emerging countries.

Teachers who enjoy painting, acting or writing are reminded of the Saturday creative arts sessions from 9.30am to 10.30 am which are specially for them, as is also the course on teaching aids on Tuesdays.

John Porritt the Acting Director of Extension Services has written to say that there are now 10 Tongan students enrolled for the U.S.P. External Diploma of Education. This is five times as many as last year and all the four available subjects are represented: mathematics and education are the most popular

**Dewar's:
a smooth 26 ounces
of authentic Scotch.**

You can size up a Scotch by the company it keeps.
Dewar's 26 oz is the handy size for men who like their Scotch smooth.
Always good company.
It never varies.

Middleweights Had The Punch In First Championship Bouts

By PAUA MANU'ATU

Thirty-two boxers entered the preliminary amateur boxing bouts which began last Friday to select the representative team to take part in tournaments to be held in Tahiti early next month.

The team will consist of four boxers in light, welter, light-middle and middle-weight divisions.

The Tahiti Boxing Association will meet travelling and accommodation expenses.

The president of the the Tonga Amateur Boxing Association, Mr A. Johannson, said that Tonga will field its best at the tournament.

Highlight of Friday's bouts was the middleweight fight between Fine Solomone of Fo'ui and Semisi Tongotongo of Hōfoa. It was won by Solomone on a split decision.

Throughout the bout, Solomone showed his punching technique and fought from the distance by using his longer reach.

In the second round Solomone landed a fast left and right combination to the head which staggered Tongotongo. Solomone threw everything to make a knockout but the bell went to save Tongotongo.

The last round saw Tongotongo move in to close range and he fought well using his nicely-timed counter - punching.

Other results

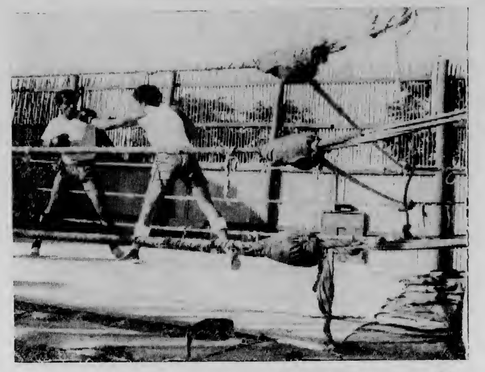
Lightweight: Matekihelea Lui, Fua-'amotu, outpointed Naisa Kolomalu, Sopa Hihifo.

Catch-weight: 'Asipeli Potauaine, Kolomotu'a, outpointed Nāsio, Tokomololo.

Light Middleweight: Tonga Moa, Ngele'ia defeated Sila Save, Sopa Hihifo on split-decision.

Light-heavy weight: Setefano Santos, Fatai, outpointed Bruce Sovaleni, Kolofo'ou.

Heavyweight: Talikavili Toluta'u defeated Mosese Toketā, Mu'a on split-decision.



Fine Solomone's left goes straight for Semisi Tongotongo's chin in their middleweight bout last Friday.

CHILDREN'S BOOK ABOUT TONGANS IN TONGAN

By BOB McCLELLAND

Being the editor of one of the publications, it is a sobering thought to realise that there is only the bible and the Chronicle printed in the Tongan language which children can read. Now, however, there is "Dolfini", a Tongan tale about Tongan children and a dolphin, written by Jean Tufui and published in both Tongan and English.

Mrs Tufui is the wife of the Secretary to Government Taniela Tufu'; the initial translation was done by Sioeli Matoto, translator for Mr Tufui when he was Crown Sol'citor, and edited by the Hon. Ve'ehala. One of the eye-catching attractitons of the book are the colourful illustrations by an Australian artist based on ideas of Mrs Tufui.

"Dolfini" has been published by Paul Hamlyn Ltd of Australia and is already sell:ng well in that country and New Zealand from an initial printing of 25,000.

The Tongan edition "Tolofini" is a printing of only 2000 which obviously will never make any money for the publisher, but it has been printed as a gesture to Tonga. Each year Paul Hamlyns print one book they know will not make any money as their contribution towards the encouragement of read'ng, especially in developing countries like Tonga. Supporting this is the price – the Tongan edition will sell for T$1 and the English for T$1.30.

The fact that it has been pr'nted in both languages is also a help towards promoting understanding of Tongan and English. Copies are being bought by the Department of Education, Mormon schools and Free Wesleyan schools for use in reading instruct'on.

It will also be sold at the Chronicle office, Fale 'o e Toutai and the Dateline Hotel. In Ha'apai it will be available through Ma'afu Enterprises.

It was disappointing to learn that the retail shops in Nuku'alofa had shown no interest in selling it.

Mrs Tufui describes "Dolfini" as a story of Tongan children. The three characters are Sunia, a Tongan boy whom she says is based on the young son of Masao Soakai; 'Ofa, a part-Tongan, part – New Zealand girl inspired by a now-grown-up cousin of her husband's; and Tim, Mrs Tufui's Australian brother as a child.

Sunia tells other tales of the Islands and the stories in the series which has been accepted for publication include (their present titles) "Marriner the Boy Chief", "The Treasure of the Port au Prince" and "Captain Cook the Papalangi".

Still being completed is "Beauregarde", a story of the Tufui's Great Dane dog (a familiar if sometimes terrifying sight in Nuku'alofa) in which he saves a hijacked plane.

Mrs Tufui's love of Tonga and especially Tongan children inspired her to write these stores, but she gives a lot of credit to the former superintendent of Mormon schools in Tonga, Orson White, for encouraging her to get them published. For any writer this can be a formidable and almost hopeless task; but tenacity has paid off and Tonga has a book in its own language that could be the first introduction to the joy of reading for a generation of Tongan children.

Soccer Players Not Afraid Of The Rain

Contrary to expectations, the Soccer WAS played in the rain last Saturday. The competition will never be postponed because of heavy rain, the Tonga Football Association says. The Association's Patron His Majesty, King Taufa'ahau has proposed this to let the players get experience of how to play in wet conditions.

Last Saturday the players were unable to control the ball when it floated in pools of water and the fields were so slippery that those playing barefeet and sandshoes could not stay on their feet, but experience was gained.

Veitongo A's performance in the conditions was the best when they beat Ha'ateiho A by the comfortable margin of 4-1. A feature of the match was the Veitongo players' ability to control the ball.

Kolofo'ou A lost a close contest with the combined Royal Guards and Fotu'afinemā team, 2-1.

In a fast game, Sopu raced away to a decisive win over Tupou Colleege, 7-2. The speed of the Tonga College A gave them win over Langileka by 4-3. Toafaka'amu A and Fotu'afinemā played to a 1 all draw.

This Saturday will see, Veitongo A meet a team from cru:se ship "West Star" and Kolofo'ou A will play the "Iberia" team.

DRAW

2.00pm	1	Veitongo A v West Star
	2	Fotu'afinemā v Niuvākai A
	3	Ha'ateiho B v Niuvākai B
3.00pm	1	Kolofo'ou A v Iberia
	2	Tonga College A v Tupou College
	3	Ngele'ia B v Lotoha'apai United
4.00pm	1	Toafaka'amu A v Ngele'ia A
	2	Sopu v Langileka
	3	St Andrew's v Ha'akame
5.00pm	1	Royal Guards v Ha'ateiho A
	2	Veitongo Youth Club v Tonga College B
	3	Veitongo B v Kauvai
	4.	Toafaka'amu A v Kolofo'ou B.

WOMEN'S

3.00pm		Ha'ateiho v Kauvai
3.10pm		Veitongo v Katokakala
4.20pm		Kolo Kakala v Veitongo Club.

Off To Work In N.Z.

The first group of 30 Tongans in the second intake going to New Zealand under the Tonga—New Zealand Government employment Scheme are farewelled at the airport by Assistant Secretary to Government, Mr John K:te, last Thursday.

On Saturday the second group of 21 workers under the scheme left for New Zealand and the final group of 30 left on Monday.

The 81 workers will be employed by in the Hutt Valley area, Wellington.

At the end of 5½ months these workers will return and be replaced by a third intake of about 60 workers. These are at present being selected and will possibly include men from another islands.

This And That

CHRONICLE DIARY

The Kingdom's only chemist shop has been cleaned out of boric acid powder. Ever since our item in last wek's This and That about boric acid powder being lethal to cockroaches, the rush has been on. More powder has been ordered from NZ and we are assured there will be enough for the greatest onslaught on cockroaches that can be imagined.

* * *

The South British Insurance Company has paid out the full insurance on the oil barge "Lolomana'ia" which was lost last October while under tow from Fiji.

* * *

Young New Zealanders planning a visit to Australia have been warned about unemployment in that country. It is now running at about 120,000 and unskilled jobs are becoming most difficult to find. There's a message in this for Tongans also.

* * *

The Soviet Envoy Extraordinary and Minister Plenipotentiary to New Zealand, Mr Anatoli Ivantsov, is a passenger in the Russian cruise ship "Shota Rustaveli" which arrived yesterday and leaves today. An official car has been placed at his disposal and he will pay a courtesy call on the Prime Minister.

* * *

We never were very good when it comes to figures and that's how we made the mistake in last wek's item about Tonga's new patrol boat. It does NOT draw 12 metres, that is the length of the boat. Twelve metres and 40 feet are about the same – so we have now been told.

* * *

What has been described as "official complications" has delayed the start of the Tonga Defence Force school cadet scheme at Tonga College "for a few weeks". It was to have started on Monday.

* * *

The Tonga Rugby Union will have the former All-Black hooker, Dennis Young, to coach the Tonga representative side for the games against Fiji this year.

Kamata'anga 'o Taimi

Nuku'alofa, Tu'apulelulu, Fepueli 10, 1972 — Voliume VIII Fika 36 Seniti 'e 3.

FOKOTU'U E KAUTAHA VAKA FAKAFONUA

Ko e anga fakafonua eni 'i Hong Kong hono foaki 'a e fafangu 'o e vaka 'i he hoko ko eni 'a e "Tauloto" ko e konga 'o e Folau Vaka Tongá. To'omata'u, ko e Pule-Seniale 'o e Kautaha Vaka China Navigation ko Mr C. G. Ryder pea mo e 'eikivaka 'o e Tauloto ko Kapiteni J. Scott. 'Oku 'amanaki tukufolau mai mei Senē 'a e Tauloto 'apongipongi pea 'e tau ki Nuku'alofa 'i Fepueli 21, hili ha'ane fou mai he ngaahi 'otu motú.

Kuo fokotu'u ha Kautaha Vaka fakafonua 'o Tonga. Pea 'e 'iloa ia ko e "Pacific Navigation Company", ne fakahā eni 'e he Sekelitali 'a e Pule'anga, ko Taniela Tufui 'aneafi.

Ko hono fokotu'u 'o e kautaha fo'ou ni na'e finangalo lelei ki ai 'a 'Ene 'Afio ko Taufa'ahau Tupou IV 'i he Fakataha Tokoni he uike kuo 'osí

Ko e 'inasi sino'i pa'anga 'a e kautaha ni ko e T$2 miliona, pea ko e kau ma'u 'inasi ai ko e Pule'anga Tonga, Kōmiti Mataka mo e Kōmiti Fo'i'akau 'a Tonga.

Na'e pehē foki 'e Taniela Tufui 'oku 'amanaki ke lēsisita 'a e kautahá ni 'i he uike ni ka 'oku te'eki ke mahino 'a e taimi 'e kamata ai.

'I ha tu'u 'a e kautahá ni kuo pau leva ke ne fetongi mo fai 'e ia 'a e ngāue 'oku lolotonga fai 'e he Kautaha Vaka Tongá.

Ko e ngaahi vaka kotoa 'a e Pule'angá mo e ongo Kōmiti Koloá kuo pau ke fakalele ia 'e he Pacific Navigation Company tuku kehe pē 'a e vaka toutai ko e "Ekiaki" 'a ia 'e kei pule'i pē 'e he Potungāue Ngoué.

Ko e ngaahi vaka eni 'e fakalele 'e he kautaha fo'ou: "Tauloto", "Niuvakai", "Aoniu", "Hifofua", "'Olovaha", "Kao", "Pakeina", "'Ulufonua", "Fonualei", "Fanga'ilifuka" mo e vaka pailate ko e "Unga".

'E pule'i e kautaha fo'ou ni 'e ha fakataha 'a e kau Talekita 'e toko 11 'a ia 'e sea ai 'a e 'Eiki Palēmiá ko Pilinisi Fatafehi Tu'ipelehake.

Kuo 'i ai foki ha kau fakafofonga ia kuo 'osi fokotu'u mei he Pule'angá mo e ongo Kōmiti Koloá 'a ia ko e kau Talekita 'o e Fakatahá. Pea ko kinautolu eni: Minisitā Pa'anga, Mahe U. Tupouniua, Sekelitali 'a e Pule'angá, Taniela Tufui, 'Alipate Tupouniua, mo Pousima Afeaki mei he ongo Kōmiti Koloá.

Tonu Ke Fakalahi Folau Vakapuna

FAI 'E HE 'ETITA

Ko hano fakalahi 'o e fepuna'aki mei Fisi ki Tonga mo Tonga ki Ha'amoa ko e founga pe ia 'e lava ke fakakakato e fiema'u 'a e kau folau mo e kau 'eve'eva mai ki Tonga.

Mahalo nai ki he ta'u 'e ua pea toki lave 'a Tonga he faingamālie ko ia kuo ma'u 'e he Air Pacific 'a e vakapuna fo'ou BAC III sea 'e 80, lolotonga ia 'oku mole ai pe 'a e fetu'utaki folau 'eve'eva pea toe lahi ange hono fakaanga'i 'e he kau folau mo e kau 'eve'eva 'a ia kuo nau mo'u nofoa mo 'iu he tatali 'i he fie folau.

'Oku ongo'i mo'oni eni 'e he ngahi Kautaha taki mamata 'i he tokolahi e kau 'eve'eva kuo nau tu'uta heni 'o nofo taimi si'i kae toki folau atu ki Fisi pe Ha'amoa 'a e 'ikai lava ma'u hanau sea neongo na'e 'osi fakapapau'i 'enau taimi foki.

Na'e fakahā mai 'e he Potungāue ki he Folau 'eve'eva 'a Tonga ni 'a e ngaahi launga 'a e kau folau 'eve'eva 'i he ta'epau 'a e fefolau'aki mei Tonga ni.

Kuo 'i ai ha tangata pule 'i he fa'u faiva ki he Televisone 'a Kanata ko e 'osi eni e uike 'e ua mo'ene feinga ke folau mai mei Ha'amoa ki Tonga ni. Na'e 'i ai foki mo e ongo mātu'a mali ne tu'ofiha 'ena feinga ke na ta'ofi hana sea vakapuna ki Suva. Ne faifai pea na toki puna leva ki Ha'amoa 'ona toki heka mai he "Tofua" ko 'ena feinga ki Suva.

Ne tala mai foki 'e ha tokotaha 'i he ngaahi kautaha takimamata fakalotofonua 'oku fu''u lahi 'aupito e kakai ia 'oku ngata pe 'i Fisi mo Ha'amoa ko 'enau manavasi'i na'a nau tukuvakaá 'i Tonga ni.

Na'a ne pehē foki 'e toe tokolahi ange 'a e kakai 'e fie ha'u kapau 'e toe pau ange 'a e ngaahi vakapuna.

'Oku tonu ke fu'u tokanga'i 'aupito e me'a ni, he 'oku kau e folau 'eve'eva 'i he makatu'unga 'o 'etau ma'u'anga pa'anga.

Fakanofo Ko Tuita

Kuo finangalo lelei 'a 'Ene 'Afio ke fakanofo 'a Laufilitonga Tuita ki he hingoa nōpele tukufakaholo mo ma'u tofi'a ko e Tuita.

Ko e fakanofó ni 'oku kamata ia mei he 'aho 3 'o Fepueli, 1972 hili 'a e pekia 'a 'ene 'eiki ko Tuita (Toluafe) he 'aho 2 'o Fepueli.

Na'e ako 'a Tuita (Laufilitonga) 'i he Kolisi ko Tupou 'i Nafualu pea hoko atu ai ki he Kolisi Ko Uesilē, Paerata 'i 'Aokalani. Na'e hū ki he Tau Malu'i Fonua 'a Tongá 'i he 1942 'o ne a'usia ai e lakanga ko e lafitani.

Na'ane kamata ngāue 'i he Pule'angá ko e kalake mo fakatonulea 'i he Fakamaau'anga Lahi ki mu'a pea ne toki hiki hake ai ki he Failēsisita 'o e Fakamaau'anga 'o fai fatongia ai ha ngaahi ta'u lahi.

'I he 1956 na'e fakanofo ai ko e Kōvana 'o Vava'u 'o a'u mai ki hono fakanofo ia 'i he 1963 ki he ongo lakanga fakaminisitā ko e Minisitā Fonua mo e Moui. Pea 'i he 1970 ne to'o atu ai 'a e Minisitā Mo'ui kia Sione Tapa meiate ia ka ne kei hokohoko mai pē 'i he Minisitā Fonuá 'o a'u mai ki he 'ahó ni.

Kuo tu'o lahi foki 'a e hoko 'a Tuita ko e Palēmia Le'ole'o.

HOPO KELEKELE MALOHI 'A E TALATALAAKI

Ko e tu'utu'uni eni 'a e Fakamaau Fonuá, Mr Justice Roberts 'i ha hopo kelekele 'i he vaha'a 'o e talatalaaki ko Maria Edith Tu'inukuafe pea mo e 'Eiki Minisitā Fonuá, 'Uliti Uata mo Mate Lemoto fekau'aki pea mo ha totonu faka-Lao na'e foaki ki he talatalaaki.

Ko e hopo'i eni ha 'api kolo 'oku tu'u 'i he tofi'a 'o e Pule'angá 'oku tu'u ia 'i Nuku'alofa 'i he tuliki 'o e fetaulaki'anga 'o e Hala Taufa'āhau mo e Hala Uelingatoni. Na'e foaki 'a e 'api ni ki ha Tu'ivakanō 'i he 1907. 'I he 1924, na'e foaki ai ha lisi 'o e 'api ni ki he tamai 'a e talatalaaki, pea hili hano fakafo'ou tu'o taha 'a e lisi ko eni 'i he 1945, na'e 'osi ia 'i Epeleli, 1966.

Na'e pekia 'a Tu'ivakanō 'i he 1926 'oku 'ikai 'i ai hano 'ea, pea hoko leva 'a e 'api lisi ni ko e 'api fakauitou 'o hono uaifi, ko Kilisitina. Mei he 1926 ki he 1966 ko e tokotaha ma'u 'api mo lesoa 'a e uitou ko Kilisitina, pea 'i he 'aho na'e 'osi ai 'a e lisi 'i he 1966 ko e talatalaaki 'a e Lesi'i. Na'e fai 'e he talatalaaki ha tohi kole ke toe fakafo'ou 'a e lisi ni, ka 'i he 1965 ia na'e fa'u ai ha lao fakatonutonu 'o e Lao Kelekele 'o pehē, he 'ikai ngofua ki ha uitou ke ne lisi atu 'a e kelekele 'o hono husepānii kuo pekiá.

Pea 'i he'ene peheé na'e 'ikai malava 'e he 'Eiki Minisitā Fonuá ke ne foaki ha fakafo'ou 'o e lisi 'a e talatalaaki. Kaekehe, na'a ne faka'aonga'i leva hono mafai kuo foaki ange 'e he kupu 19 (3) 'o e Lao Kelekelé 'o ne foaki 'aki ki he talatalaaki ha ngofua ke ne fefakatau'aki 'i he 'api ni. Na'e foaki 'a e ngofua ko eni 'i he Siuinga 6, Tēpile VIII 'o e Lao Kelekelé pea na'e fai ia 'i he 'aho 24 'o Siulai 1967 pea ke kamata ngāue'aki mei he 'aho 18 'o 'Epeleli 1966 'o toki 'osi ki he 'aho 18 'o 'Epeleli 1976 pea ke fe'unga 'a e totongi ngofuá mo e $200 'i he ta'u.

'I he 'aho na'e foaki ai 'a e ngofuá ni, na'e pehē ni 'a e tu'utu'uni 'a e Kupu 104 'o e Lao Kelekelé: "E 'aonga fakalao pē ha ngofua pehē ni 'i he kei mo'ui 'a ia na'a ne ma'u.

'I he 'aho 9 'o Nōvema 1967, hili ha māhina nai 'e 19 mei hono ngāue'aki 'o e ngofuá ni, pea māhina 'e 4 mei hono foaki, na'e paasi 'a e Lao Fika 9/67 'o ne fakatonutonu 'a e Kupu 104 'o e Lao Kelekelé 'o pehē 'e 'osi 'a e 'aonga 'o ha ngofua pehē ni 'i he mo e hili 'a e pekia 'a e tokotaha ma'u ngofuá pe ko e tokotaha ma'u kelekelé 'o e 'aho na'e foaki ai 'a e ngofua ko iá.

'I he 'aho 16 'o 'Epeleli 1971, na'e pekia 'a e tokotaha ma'u kelekelé, 'a Kilisitina, pea 'i he hili nai ha māhina 'e taha mei ai na'e fakahā leva 'e he Minisitā Fonuá ki he foha 'o e talatalaaki, 'a ia ko e pule ia 'o 'ene pisinisi, koe'uhi ko e kupu fakatonutonu ko ia 104, kuo fakata'e'aonga'i ai 'a 'ene ngofuá. Na'e fakahā ange leva 'e he 'Eiki Minisitaá ki he talatalaaki ke tohi kole ange ke ne lisi 'a e kelekelé. Na'e toe tohi kole lisi foki mo ha toko ua kehe, ko e faka'iloa ua mo e faka'iloa tolu.

'I he 'aho 16 'o 'Epeleli 1971, na'e ma'u ai 'e he talatalaaki ha tohi mei he 'Eiki Minisitā Fonuá 'o ne kole ange ai kiate ia ke fakahū ange ha'ane mape "'i he vave tahá" pea ke tu'u ange 'i he mape ko iá 'a e ngaahi langa 'oku 'amanaki ke ne fai 'i he 'api. Na'e fakahū atu leva 'a e mapé ki he 'Eiki Minisitā Fonuá 'i he 'aho 7 'o Mē 1971, 'a ia ko e 'aho ia 'e taha kimui mei hono tali 'e he Kapineti 'i he 'aho 6 ke foaki ha lisi 'o e 'api kia 'Uliti Uata mo Mate Lemoto, 'a e faka'iloa ua mo e tolu. Na'e fakahā leva ki he talatalaaki 'a e foaki ko eni 'i ha tohi mei he Sekelitali 'a e Pule'angá 'i he 'aho 12 'o Mē 1971.

'Oku kole 'a e talatalaaki 'o pehē—

(1) Koe'uhi na'e foaki 'a 'ene ngofuá kimu'a pea toki ngāue'aki 'a e lao fakatonutonu 'o e kupu 104 'o e Lao Kelekelé, 'oku fepaki leva 'a hono fakahokó ke fofonga kimui 'a e lao fakatonutonu ni, mo e kupu 20 'o e Konisitūtoné 'a ia 'oku pehē "'E 'ikai ngata 'aupito ke fokotu'u 'a e ngaahi laó koe'uhi ko ha me'a kuo fai 'i he me'a 'a ia 'e fakasi'isi'i ne to'o mei ai pe lilíu 'a e ngaahi ngofua, 'a ia 'oku lolotonga ngāue'aki 'i he taimi 'a ia 'e fakahoko ai ha lao pea 'i he-'ene peheé na'e ta'e fakalao 'a hono ta'ofi 'o e ngofuá ni 'e he Minisitaí ni 'oku 'ikai fe'unga ke fakamo'oni 'i kuo hoko 'a e me'a ni ko ha founga ngāue maheni pea 'ikai ngata ai ka 'oku tō'onga fale'i foki an 'e he 'Eiki Fakamaau Tokoni na'e 'ikai pē 'i ai ha fa'ahinga founga ngāue maheni pehē ia.

Tau vakai'i ange mu'a 'a e kupu 20 'o e Konisitūtoné 'a ia 'oku pehē mai: "E tapu 'aupito ke fokotu'u 'a e ngaahi laó koe'uhi ko ha me'a kuo fai 'i he me'a 'a ia 'e fakasi'isi'i pe to'o mei ai pe lilíu 'a e ngaahi ngofua 'a ia 'oku lolotonga ngāue'aki 'i he taimi 'a ia 'e fakahoko ai ha lao." 'Oku mahino mai heni 'a e 'ikai ngofua ke fofonga kimui ha lao 'i hono fakahoko koe'uhi ke ne mauman'i, 'o hangē ko ia ne u 'osi lave ki ai, ha ngaahi totonu pe monū'ia pehē ni. 'Oku mui-mui 'a e tu'utu'uni ko eni 'a e Konisitūtoné 'o Tongá ki ha fotunga-motu'a 'o e faka'uhinga lao ne fokotu'u 'e he ngaahi Fakamaau'anga 'o Pilitāniá.

'Oku 'uhinga leva ki he hā 'a e konga ko eni "ngaahi ngofua 'oku lolotonga ngāue'aki" 'oku hā 'i he kupu 20 'o e Konisitūtoné, hangē ko eni: ko hano to'o 'o 'eku ngofuá lolotonga ke u lele kā 'i he maile 'e 30 ki he houa 'e ha lao 'a ia te ne faksi'isi'i 'a 'eku ngofua ko ia pe ko ha lao 'a ia te ne fakangofua 'a e kau Polisi ke nau tāpuni 'a e hala lahi. Ko e hā nai 'a e 'uhinga 'o ha ngofua lolotonga 'i hono faka'aonga'i 'i he kupu 20 'o e Konisitūtoné?

'Oku hā 'i he Tohi Faka'uhinea Lao 'a Maxwell, Paaki 10 peesi 215 'o pehē— "'Oku toki faka'aonga'i pē 'a e lao ko iá ke 'oua 'e fofonga kimui ha lao 'i hono fakahokó, kapau 'e hoko 'i ai ke ne mauman'i ha ngaahi totonu kuo foaki pea ma'u, pe te ne uesia 'a e 'aonga fakalao 'o ha ngaahi aleapau na'e fai 'i he tuohili pe maumau'i ha ngaahi felotoi."

'Oku hā 'i he Voliume 36 'o e Paaki hono 3 'o e ngaahi Lao fai 'e Halsbury 'o pehē, "Tukukehe kapau 'oku, tuhu'i mahino mai pea mahino foki 'oku 'uhinga ke fakahoko ha lao ke fofonga kimui, 'oku 'ikai ngofua ke fakahoko ha lao ke kaunoa pe te ne tamate'i ha ngaahi totonu fakafo'itangata 'a ia kuo ma'u mei he ngaahi aleapau pe totonu ki ha kelekele pea 'oku lahi 'a e ngaahi hopo kuo fokotu'u ke poupou'i 'a e lao faka-Fakamaau'anga ko eni.

Meimei ko e ngaahi hopo kotoa kuo fokotu'u 'o feliave'i mo e aleapau 'oku 'i ai 'enau kaunga ki he totonu ki he kelekele pe malu'i (insurance). Neongo 'oku fāsi'i 'a e ta'ao 'a e ngaahi hopó ni, ka 'oku mahino mei a kinautolu neongo pe 'e fēfē hono fāsi'i 'o hano faka'uhinga 'o ha lao, ko e lea mahino ko ē ko e **ngaahi totonu fakafo'itangata pau pe ngaahi ngofua lolotonga kuo pau ke kau ai 'a e ngaahi totonu kuo ma'u 'i ha kelekele** – tatau ai pē pe ko e totonu lolotonga pe ko e totonu 'i he kaha'u 'a ia kuo fokotu'u 'e ha aleapau felāve'i mo e kelekele.

'I he'ene peheé kuo pau leva ke faka'uhinga'i 'a e kupu 20 'o e Konisitūtone he kau ai 'a e ngaahi totonu pehē ni. He 'ikai pea 'oku 'ikai toe 'i ai ha founga faka'uhinga lao 'a ia 'e kehe mei he faka'uhinga ko eni.

Sai, ko ha ngofua 'a ia kuo foaki 'i he Sipinga 6 'o e Tēpile VIII 'o e Lao Kelekelé, pea foaki ia 'o fakatatau ki he ngaahi fiema'u 'oku hā 'i he ngofuá; 'o hangē ko hono totongi 'e he tokotaha ma'u ngofuá ha pa'anga fakata'u.

'I he taimi na'e foaki ai 'e ngofua ko eni ki he talatalaaki, na'e hā 'a e ngaahi tu'utu'uni felāve'i mo hono fakata'e'aonga'i 'i he kupu 104 kimu'a pea toki paasi 'a e lao fakatonutonu 'o e 1967, pea 'i he ngofua ko eni na'e 'ikai hā ai ha tu'utu'uni 'o pehē 'e fakata'e'aonga'i ia 'i ha pekia 'a e tokotaha ma'u kelekelé.

'I hono foaki ange pē 'o e ngofua 'a e talatalaaki, na'a ne ma'u leva 'a e totonu ko eni 'i ha'ane totongi ha pa'anga fakata'u, ke ne ma'u 'a e 'api ni 'i ha ta'u 'e hongofulu pea ke toki 'osi 'i 'Epeleli 1976 pe 'i he'ene pekia. Ko e totonu ko eni 'a e talatalaaki ko e totonu fakaealeapau pea na'a ne lolotonga ma'u ia, pea koe'uhi na'e kaunoa 'a e lao fakatonutonu na'e toki fa'u 'i he totonu ko iá, na'e fofonga ia kimui 'i hono fakahokó 'o fenaki mo e tu'utu'uni 'a e kupu 20 'o e Konisitūtoné.

Ko ia ai 'oku tu'utu'uni 'e he Fakamau'angá ni 'o pehē ko e ngofua 'a ia na'e foaki ki he talatalaaki 'i he 'aho 24 'o Siulai 1967, 'oku kei 'aonga fakalao kae'oua kuo 'osi 'a e taimi na'e fai ki ai 'a e aleapau, pea 'i he-'ene peheé na'e totonu ke kei ma'u pē 'e he talatalaaki 'a e 'api kae'oua kuo 'osi 'ene ngofuá. "I always fly VC10. Superbly comfortable, serenely quiet. And a choice of ten flights a week."

For some people there is only one airline.

BOAC fly the smooth, silent VC10 from Fiji ten times a week – five one way, five the other. To Sydney or to Hawaii, Los Angeles, New York and London, with world-wide connections.

You relax in the world's most comfortable economy class seat, in a cabin that's as quiet as a library – because the four giant jets are mounted in the rear, leaving the noise behind you.

Plan your next flight now by BOAC VC10.

BOAC takes good care of you

Maa'i 'E he Faiongoongo E Nofo'anga 'O e Kau Tonga Nofo 'Aokalani

Ngaahi nofo'anga ta'etaau 'i hotau matafalé pē . . . ko e 'ulu'i tohi ia 'o e fakamatalá. Ko e faka'eke'eke mavahe ia na'e fai 'e he fai-nusipepa ko Garth George 'a e pepa ko e Star 'a 'Okalani 'oku pulusi 'i he ngata'anga 'o e uiké ko e "8 o'clock" 'i he 'aho 22 'o Sanuali, na'e fakamatala'i ai e anga e nofo totongi 'a e konga 'o e kau Tonga 'i ha fale 'i Ponisonipī.

Pea 'i he Tokonaki hono hokó, 'aho 29 'o Sanualí na'e pulusi ai 'i he "8 o'clock" ha tali ki he fakamatala ni 'e he pule 'o 'Atalangá, Dr. Joe Fanamanu.

Ko e ngaahi fakamatala eni mei he ongo fakamatala ko ia 'oku pulusi atu koe'uhi ko e mahu'inga'ia ai 'a Tongá ni.

NGAAHI NOFO'ANGA TA'ETAAU 'I HOTAU MATAFALE PĒ

Ne u hū ha pō 'e taha 'i he uike ni 'i he 'api feliha'a 'i he feitu'u pulipulia 'o Ponisonipī pea u 'alu mei ai kuo u ongo'i mā mo'oni ke u kei pehē ko e Nu'u Sila au.

Ne u toe ongo'i foki 'oku tonu ke u saoa hili 'eku nofo 'i he haafe houa nai 'i he fale kutufisi'a, feliha'a mo kovi hono naunau teuteu falé.

Ko e 'api nofo'anga ia 'o ha kakai Tonga.

Ne u lau 'i he fulikivanu 'o e anga e nofo 'i he ngaahi feitu'u kovi taha 'i he ngaahi kolo lalahi 'i he ngaahi feitu'u kehe 'o māmani. Ko hono mo'oní ne u sio ai 'i Sikākō, Niu 'Ioake. Ka ne 'ikai te u 'ilo'i 'oku anga pehē e kovi 'i 'Okalaní.

Ne ta'e malava ke u fanongá 'a e ngaahi tu'unga kovi ko 'ení—'oku meimei ta'e taau ki he fangamanú—'oku tatau mo ē, kapau 'oku 'ikai ke ki'i sai ange 'i hē, me'a ko ia 'oku nofo ai e kakai 'i he pule'anga Tongá.

Ko Nu'u Sila eni 1972, mo e Temokalati 'o onopooní (ko e me'a ia kuo 'iate ma'a kiate kitautolu) 'a ia 'oku mu'omu'a ai e lelei fakasōsialé 'o ta'e lau e matakali lanu pe fa'ahinga tui.

Ko e nofo'anga fulikivanu ko ia ne u 'a'ahi ki ai, ne talamai kiate au, ko e taha pē 'a 'o e ngaahi feitu'u kinoha'a, 'o e ngaahi feitu'u hala pulipulia 'o Ponisonipī, Filimeini Pei mo Kingiseleni.

Na'e toe pehē fokí ko e taha eni 'o e nofo'anga 'oku saiange he ko e toko tolu pē na'e nofo ai 'o fakafehoanaki mo e toko hongofulu nai 'oku 'nofo 'i ha ngaahi fale tatau pē.

Ko e konga lahi 'o e falé 'oku 'i ai e loki fute 15 lōloa fute 8 maaukupu, mo e ki'i peito ki' mui fute nai 'e 5.

Ko e ngaahi naunau peitó ko e ki'i sitou, 'a ia he 'ikai tali 'a 'e he 'motele' ma'ama'a tahá; ki'i 'ais' si'isi'i motu'a, me'a fufulu'anga ipu 'ume'ume mo e fungalaupapa kuo matangatanga hake e kāpeti; tēpile fute 'e 3 lōloa, fute 2 maaukupu mo e sea fengataliaki 'e tolu.

Na'e fakahā mai ko e sitou 'fo'ou' ki he falé.

K o e taha 'o e kau nofó kuo nofo ia mei he ngāué pea ne lahi e ngaahi 'aho mo 'enau tafu afi 'i he 'api ta'e nofo'i ofi ai 'o haka ai 'enau me'akaí.

Pea faifai ia pea 'omai 'e he taha ho'ona e 'api 'a e sitou "fo'ou" 'oku 'i ai ha haka'anga me'a vave 'e taha mo e māmālie pea mo ha ki'i 'ovani ko e moa pē 'e lava 'o ta'o ai.

Ko e toenga 'o e falé ko e fute 10 lōloa fute 8 maaukupu, 'oku nau nofo mo mohe a':

Ko e fōtunga 'o e fale ni ko e mohenga ki he tokoua, 'a ia he 'ikai lava ke mohe ai ha tangata mo hono mali telia na'a motu e sipilingí.

Ko ia 'oku nau mohe ': he fakamolū 'i he falikí—'o kutufisia ai. 'Oku 'i ai ē fu'u sea sofa motu'a, toloa sio'ata motu'a, mo e ki'i konga 'oku fa'u ke tautau ai e ngaahi kofú.

'Oku hala pasanga e falikí mo hano ki'i falik: (tukukehe pē e ki'i konga kāpeti mafunofuna 'i he peitó kuo mahae mo hangē ha konga holó e puipuí pea mahaehae e pepa 'aofí ('i he feitu'u 'oku 'i ai e pepa 'aofí).

Kuo fe'as''asi'i pē e uaea 'uhilá 'i fale. Pea hala 'atā ha pūlou 'o e ngaahi fo'i 'uhilá kuo te'elangoa.

'Oku toe 'i ai mo e loki mohe 'e taha ka 'oku mohe taha ai 'i he falikí pē. Kuo maumau hono mohengá pea 'oku te'eki ke fetongi mai.

'Oku ''kai fu'u kovi e loki kaukaú—tukukehe e kasa fakamafana vai 'i he holisi 'i 'olungá 'i he topu kaukaú.

Ko e feitu'u fai'anga foó—ko e ongo topu sima kuo mafahi, mīsini fō 'a :a 'e ficma'u 'e he Misiume 'o e Fe'alu'akí mo e Tekinikalé—pea hala mo ha vai mafana.

Pea 'oku tu'uaki e falé ni ko e fale naunau kakato, $10 ki he uike.

Kuo pau pē ke pehē—pea ko e mo'oni 'eni—ko e kau Tonga 'oku ha'u ki Nu'u Sila 'i he ngofua ngāue māhina 'e tolú 'oku nau fa'a loto pē ke totongi 'a e totong: nofo ko 'ení—ko ia 'oku nau nofo ai 'i ha ngaahi feitu'u pehē.

'Oku nau 'i heni ki he taumu'a pē 'e taha: Ke ma'u ha fo'i silini ke 'ave pea 'alu mo ia ke tokoni': 'aki e anga e nofo tu'utāmaki 'i Tongá. Ko ia 'oku nau fie nofo ai pē 'i he feitu'u kovi pehē—ko e ma'ama'a 'a e totongí.

'Oku pehē 'e ha kau mēmipa 'o e kakai 'i 'Okalaní 'oku tatau e 'ikonomika 'a Tongá he ta'imi ní mo e nofo fekainaki 'i 'Ingilani 'i he "Middle Ages".

'Oku nau pehē ko e ki'i toko 300 nai pē 'i he fu'u toko 80,000 'i Tonga 'oku nau pule'i e pa'angá.

Ko e toenga 'o e kakaí 'oku nau ngāue fakatamaio'eiki, pea mālō pē 'enau ke' mo'ui 'i ha tu'unga faka'ikonomika 'oku hoholo pē ki he kovi 'aupito, ko 'enau laú ia.

KO E KOVI PE 'A NU'U SILA.

Ko e tupu e nofo kovi pehē 'a e kakai Tonga 'i 'Okalaní ko e kovi pē 'a e kau pule 'i Nu'u Silá, ko e lau ia 'a e taha 'o e kau taki 'o e kau Tongá.

" 'Oku nau ma'u sil'ni lelei heni pea 'oku tonu ke 'oua 'e tukuange ke nau fakatupu ha feitu'u ta'e taau ki he nofo 'i he koló, ko e lau ia 'a Dr. Joe Fanamanu, Pule 'o e 'Api nofo'anga fakapule'anga ki he fānau ako 'i 'Okalaní, 'a ia na'e 'i he Potungāue Mo'ui 'i Tongá.

Ne fakatelefua'': 'e Garth George 'i he "8 O'clock" 'o e uike kuo 'osí 'a e lahi 'o e palakū 'i he feitu'u pulipulia 'o Ponisonipī, 'a ia 'oku nofo fakapuepuaka ai e kau Tonga 'oku omi 'o ngāue nīhina 'e tolu '' henī.

Na'e pehē 'e he kau Tonga 'e ni'ihi kuo kouna kinautolu ke nau ha'u ko e kovi 'a e vāhenga 'i honau fonuá pea ma'u 'e he "Hou'eiki Nōpelé" ia 'a hono kotoa 'o e mafaí. 'Oku nau pehē ko 'enau nofo ma'ama'á ke nau fakahaofi 'enau pa'angá.

Na'e 'i 'Okalani ha nōpele Tonga ko Fielakepa ': he uike ni ko 'ene mālōlō. Ne u fehu'i ange ki ai e ngaahi tukuaki'i ni.

Na'a ne pehē ko e mo'oni 'oku lahi ange e si'lini 'oku ma'u 'e he kakai Tonga 'i Nu'u Silá pea ko e 'uhinga ia 'o 'enau omaí. Ka na'a ne pehē 'oku nau toe ma'u foki mo e 'ilo mo e taukei tenau ala ngāue-'aki '' Tonga. 'Oku 'ikai ke tui ia 'e 'i ai ha fakatu'utāmaki 'e hoko ki Tonga tupu mei he ta'e fiemālie ko 'ení.

Na'e 'ikai fie fai ha'ane lau ki he ngaahi me'a kehe na'e hā 'i he "8 O'clock" ka na'a ne pehē 'e tali 'a 'e Dr. Fanamanu ma'ana. Na'e nofo pē mo kimautolu lolotonga 'eku talanoa mo Dr. Fanamanú.

Ko e hā e me'a 'oku fai 'e ho'omou kau ngāué ki he mo'uí? Ko e fokotu'u ia 'a e toketā mo ne fakahā hake e peesi 'o e "8 O'clock" na'e hā ai e ngaahi fakatātā 'o e ngaahi nofo'anga li'ekina '' 'Oku taau ke nau fakamālohi': e taha ma'u 'api ke ne fai lelei 'ene ngāué".

'Oku totonu ke 'oua 'e tukuange homau kakaí ke nau kamata ha feitu'u nofo'anga palakū 'i 'Okalani. Ko homou fatongia fakaetangta ia ke ta'ofi ia.

Ko e kakai koení 'oku 'i ai 'enau silini ke totongi 'aki ha feitu'u lelei kenau nofo ai. 'Oku 'ikai tonu ke mou tukuange ke nofo ha toko nima 'i ha fale pea nau tototngi $10. Kuo u sio he fānau tangata kuo nau foki ange mei Nu'u Sila ni mo 'enau silini 'o langa'aki 'enau pisinisi. Ko e founga ia 'oku nau faí.

Na'e tui foki 'a Dr. Fanamanu ko e lahi 'a e kovi mei he kau ma'u 'api 'i 'Okalani 'i he'enau ngāue kovi 'aki e kakai Tongá.

Na'e tu: 'a Dr. Fanamanu 'e lava ke lahi ange e pa'anga 'e ma'u 'e he kau Tongá 'i ha'anau omi ki Nu'u Sila. Ka na'a ne faka'ikai'i 'a e pehē 'oku 'ikai ha nau ngaahi faingamālie 'i Tonga. "Ko Tonga kotoá 'oku nau masiva", ko 'ene lau ia, ko ia ai he 'ikai lava ke ma'u koloa 'a e Tu'í mo e hou'eiki nōpelé.

'Oku 'ikai totonu ke ke tukuaki'i 'a e tangata masivá ko e 'ikai ke ne 'oatu ha'o me'a tokoni leleí. Ko e hā e me'a ke te fehi'i ai ki Tonga koe'uhi ko e 'ikai ke ne lava 'o totongi atu e me'a 'oku lava 'e Nu'u Silá?

Kuo laui ta'u e ngaahi lāunga ko e Tu'í mo e Hou'eiki Nōpele 'oku nau pule'i kotoa e pa'angá, ka ko e fakakaukau hala lahi taha ia 'oku tu'ulāhoko 'i he fakakauku 'a e ki'i falukunga kakai sí'i.

BACARDI, ice and what?

and ginger
BACARDI rum, ginger ale, and ice—a spicy, daring new way to drink BACARDI rum.

and Coke
Pour BACARDI rum over ice and add enough Coca-Cola to drown a thirst. A classic drink and something else.

and tonic
Pour one jigger of BACARDI rum into a highball glass with two or three ice cubes. Add tonic water, a zest of lemon or lime and . . . Wow!

and what else?
Try BACARDI rum with anything — lime, orange, bitter lemon, crushed mint. You'll find anything goes with BACARDI rum.

Anything goes with BACARDI rum.

BACARDI and the Bat Device are registered trade marks of BACARDI and Company Limited
'Coca-Cola' and 'Coke' are the registered trade marks of The Coca-Cola Company

Work Resumes On Queen Salote Memorial Hall

Work on the construction of Queen Salote Memorial Hall by the Tonga Construction Company resumed this week after nearly two years of inactivity.

The secretary of the hall committee, Mr Pousima Afeaki said yesterday that stage two of the project is under way and it was hoped would be completed in about three months.

Stage one was the foundations, stage two is the ground floor up to second floor level, stage three is from the second floor up to the roof and the final stage is the interior.

Mr Afeaki was not able to comment when asked why the work had been held up.

Sufficient money was on hand for the completition of stage two, Mr Afeaki said and the committee is to launch an appeal for funds to complete the next two stages.

When it is finished, the hall will contain a public library, an assembly hall and other premises which can be rented for public use.

Workmen on the job yesterday on the second stage of the delayed Queen Salote Memorial Hall project.

WHY AIR PACIFIC HAD TO LAND ON SUNDAY

The first commercial flight to operate in and out Tonga on a Sunday was an Air Pacific flight from Suva which landed last Sunday afternoon with 40 passengers and took off an hour later with 35 passengers on the return journey.

The flight operated under a special permit granted by Cabinet in accordance with the Sunday Observance Laws. Air Pacific was informed it could take off and land in a time when there were no church services—between one and two o'clock.

The reason for the special Sunday flight was the grounding of Friday's flight on arrival from Fiji. Heavy rain made visibility so poor the aircraft had to circle the airport several times before it landed.

Then the continuing rain and the flooding of the airfield made it impossible to continue the scheduled flight to Apia and eventually Nadi and Suva. The same aircraft would normally have operated the Saturday flight to Tonga but this had to be cancelled, hence the Sunday flight.

Air Pacific's Captain Peter Badgery telling the local agents, E. M. Jones Ltd, about the landing at Fua'amotu on Friday, said the visibility was so poor at one stage he almost landed in some bushes.

When he did touch down on a very wet runway, the aircraft went to within 100ft of the end of the runway before he could stop it. "It was too close", Captain Badgery said.

When the passengers were ready to board for the ongoing flight, the runway had about three inches of water covering it, according to Mr John Fua of E. M. Jones Ltd. Captain Badgery told him it was too risky to try because the runway was slippery. The aircraft has to build up a speed of about 80 m.p.h. before it is airborne and the 5000ft runway was too short under the conditions.

The delayed Air Pacific flight eventually took off on Saturday morning in good conditions after the passengers and crew had been accommodated in Nuku'alofa overnight.

"QUEEN" MAY FLOAT AGAIN

A Dutch salvage expert, Mr C. Kooy, flew to Hong Kong to draft a plan to refloat the 83,000-ton liner "Queen Elizabeth".

Mr Z. W. S. Moerkerk, a deputy manager of the salvage firm of Smittak, said the plan will be based on plugging the fire-swept wreck and lifting it by hundreds of thousands of plastic particles.

He said the particles, as big as sugar crystals, will be swollen in heat, giving them a lifting capacity big enough to surface the wreck.

This method was successfully used to salvage the 16,268-ton British bulk carrier London Valour, which sank off Genoa last year, he said.

Union Co Freight Rates Up

Union Steam Ship Co. freight rates to Tonga have been increased 7%, "due to rising costs". The new rate between Tonga and New Zealand will be T$26.38 instead of T$24.65.

The new rate applies immediately and becomes effective with the arrival of the "Taveuni" on February 24.

A Wellington report said the Union Company had met the New Zealand Minister of Transport for talks about its losses on the Pacific Island trade.

A company spokesman said: "Despite current operating losses on this trade, it will be the subject of further discussions with the Minister and the Government.

"Both the Union Company and the Government are fully aware of the importance of maintaining effective trading services with the Pacific".

The company has also increased freight rates on its transtasman and N.Z. coastal services.

AS OTHERS SEE US....

Tonga Offers Visitor A Regal Welcome

A staff columnist on the Seattle Times in the United States, Mr Robert Heilman, was a recent visitor to Tonga in the "West Star". In the Sunday, January 30 edition of his newspaper he wrote this report :

A democratic form of government in one version or another embraces most of the world's nations today.

But in Tonga, a constitutional monarchy under the protection of Great Britain, you can find a king without half trying.

The Kingdom of Tonga consists of three main groups of islands-Tongatapu, Ha'apai and Vava'u.

And Nuku'alofa, the capital, sports an imposing king who rides about in a swank and shiny automobile and lives in a gracious white palace which really looks like a plantation home in the Deep South, sans big pillars, however.

And King Taufa'āhau's home is a mecca for tourists.

Yet there are all kinds of royalty in this world.

Take Joe Tu'ilatai Mataele, for instance. He is a member of Parliament, and he is managing-director of the Waterside Federation of Tonga.

Joe continues to be proud and somehow regal even when when he is engaged in something like tour conductor. It was he who shepherded passengers from the "West Star", the cruise liner of Westours, Inc., Seattle-based travel agency.

Nuku'alofa was among ports of call on this air-sea trip from Papeete, Tahiti, to Suva, in the Fijis.

It rained when we were there. Who cared? Not Joe, who cheerfully pointed out that only the day before a rousing 6½ inches of silver drops had poured down on this lush and lovely island.

The passing scene, watched from a bus through silver curtains of raindrops, held the travelers enthralled.

Naked children splashed in puddles . . . white garments on a clothesline were left right there in the downpour . . pretty tourists posed in a carved wooden throne, topped by horrendous faces, the gods of another day . . . a two-wheeled cart, horse-drawn, splashed by on the muddy road . . .

A huge black sow trotted through some low brush, a dozen piglets hurrying along with her . . . wayside souvenir "shops" consisted of little more than tapa cloth spread out, holding carved figures of monkeys, turtles and the like . . .

Sales girls at first tried to hold prices to a standard but panicked as buses began to fill again and offered their treasures for half price . . .

The natives carried umbrellas or walked unsheltered, according to their whim . . . In a crisp and modern hotel with gleaming swimming pool, long bar and tempting menus, there was yet another dance troupe to perform the tangoes of the Tongas–a misnomer, of course, but traveling in the South Seas can give one a touch of madness . . .

Nuku'alofa is the capital of "The Friendly Islands", smallest kingdom in the world, the only Polynesian nation never dominated by foreign rule.

This pleasant city rests casually between ocean and lagoon on a coral island. It is peaceful . . . They say it has the look of 19th century New England.

At the edge of the sea, the cupola of the Royal Palace rises behind Norfolk pines, and the Royal Tombs are embraced by huge aprons of green lawns.

Tongan traditions have preserved the names of sovereigns down through 1000 years and more, and even before that-it is known-there were two kings, one spiritual and one temporal.

With all this atmosphere and a touch of travel-type imagination, one walks back to the sleek tour vessel thinking of himself for a moment as a Tonga king, preparing to board his regal yacht.

COURTESY CALL

Paying a courtesy call on the Prime Minister, Prince Tu'ipelehake, last week was the head of the Soviet legation in Wellington, New Zealand, Mr Antoli Ivantsov. He and his wife were passengers on the Russian cruise liner "Shota Rustaveli" which stayed overnight in Nuku'alofa last Wednesday and Thursday. (See also "This and That", back page).

YOUTH IS RESTLESS, SEMINAR TOLD

"Whether you live in Apia or Auckland, Suva or Sydney, young people are becoming impatient with the older generation. They want more education and more money. They see something of life in the world and they are restless about the customs and beliefs of their parents. Their parents get angry and want to assert their authority but the young people do not respond as they once did", Dr Francis Macnab, director of the fourth annual South Pacific Seminar on Marriage and Family Life, said in Apia.

"It was once thought that a large family was a sign of happiness and success. Now we know that large families can place heavy strains on the family resources, heavy strains on the health and happiness of the mother. It is difficult to educate a large family and keep them all healthy", he said.

"Once we thought if a wife could not have any children, it was her fault. Now we know it may sometimes be the fault of the husband. Once we thought that a nagging wife was a burden. Now we know that many things might be making her like this. Just as a person may become sick, so a marriage can become sick, and the man and wife can be helped to develop a happier relationship. Young people ask: How shall I choose a wife? What are the important things to look for these days?" said Dr Macnab.

These were only some of the many problems and issues discussed at the recent seminar, which was sponsored by the World Council of Churches, Geneva, as part of a five-year plan of seminars in the Pacific islands, he said.

Seminar delegates came from different professional groups and different churches: from the ministry of the church, teaching, medicine business, administration, youth work and community welfare: and from the Congregational, Methodist, Roman Catholic and Anglican Churches.

Tonga's delegates were the Rev Sāmiu Tupou and his wife 'Akanesi.

Reporting on the seminar Dr. Macnab said it set out to encourage an exchange of ideas and problems. It developed into a thorough discussion of the changes which were affecting the people, their homes and marriages, their families and way of life.

The seminar considered marriage and family in the broad context of human relationships, education, public health, family planning, economic development, pathology and disorder, counselling procedures and transcultural understanding.

It also gave careful a consideration of the attitude and role of the Christian church in helping people understand themselves, their problems and the changes that are affecting their lives, said Dr Macnab.

He said that the delegates would hold discussion groups and education programmes to help young people think about marriage and for older people to help them in their marriage and family relationships.

Basically, the seminar had recommended to hold more seminars, to send specially selected people to New Zealand and Australia to train in the field of marriage and family counselling; to set up a counselling service in Apia and to establish an educational programme in marriage and family counselling for ministers, doctors, teachers and nurses, said Dr. Macnab.

These recommendations will go to the World Council of Churches, the Pacific Conference of Churches, and the various religious and government bodies.

Home After 60 Years In N.Z.

An Aucklander who was born in Tonga, recently paid a short visit to the Kingdom for the first time since she left 60 years ago. She still speaks Tongan fluently.

Mrs Beta Williams was born at Pangai, Ha'apai, where her father, Mr Charlie Hoeft was a storekeeper. Her mother Siniva was a Tongan.

Mrs Williams was fascinated with the changes that had taken place in Nuku'alofa, but said the people have not greatly changed – "they are still friendly, sincere and cheerful".

One thing that did not impress her was the climate. Being 74 years old she considered Tonga too hot at this time of the year. She said it would be better to come when it was cold in New Zealand.

Mrs Williams returned to Auckland on the "Tofua" last week.

"Miss" Now Mrs

"Miss Vava'u 1971" changed her name last week when Sinitalela Peau Lomu (22) married Sitiveni Moa (24). The Rev. Senituli Koloi officiated at the service in the Fasi Free Wesleyan Church on Tuesday, February 8.

Sitiveni is the second son of Siua Moa, telegraphist officer at Va'a'u and Sinitalela is the fifth daughter of Lilian Mōmōtā and Peau Lomu of Neiafu

Sitiveni, formerly a clerk at the T.C.C. timberyard has recently returned from vacation in New Zealand.

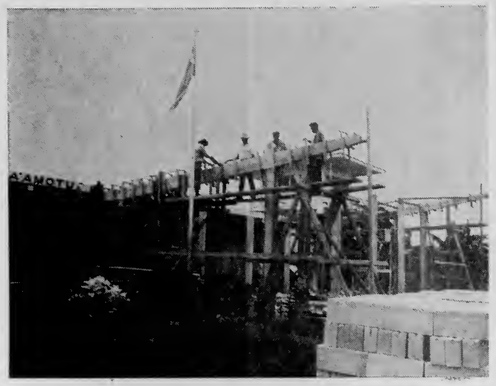
Vaeas Were Nauru President's Guests On Delivery Flight

Tonga's High Commissioner in London, Baron Vaea and his wife Tuputupu, at present in the Kingdom, flew from Amsterdam to Melbourne in Nauru's new Fokker Fellowship F28 jet on its delivery flight. They were guests of honour at the invitation of Nauru's President Hammer DeRoburt.

Air Terminal Improvements



Extensons of the passenger terminal at Fua'amotu by the Ministry of Works gets under way in the preparation for the large number of passengers expected when the pure jet service begins.

A more efficient system is being devised to allow a faster flow of passengers in and out of the terminal buildings. Arriving passengers will enter the terminal in three channels to check in at the Health, Immigration and Customs counters.

A different section will be for departing passengers and this should resolve the present confusion.

A separate section of the terminal will also provide a transit lounge for through passengers.

The new $5 million jet is the first Nauru aircraft.

Baron Vaea said the F28 carries 62 passengers at nearly 500 miles an hour. There was also a special suite for the president.

The new jet took 27 hours 5 minutes flying time from Amsterdam to Melbourne, the Baron said. Air Nauru expected to inaugurate its twice-weekly jet service between Melbourne and Nauru last week.

Negotiations were still under way for an onward leg to Micronesia and the Gilbert and Ellice Islands, he was told.

The delivery crew with five passengers were welcomed by President De Roburt at Melbourne airport.

Baron Vaea said that on behalf of the Government and people of Tonga he extended to President De Roburt best wishes for the success of the Air Nauru.

Nauru, about 8½ square miles and with a population of approximately 6000, is the world's smallest republic. Its main industry is phosphate mining.

The F28 was the first pure jet aircraft to land in Fua'amotu airport in March 1969. It took His Majesty, Ministers of the Crown, Government officials and businessmen on a demonstration flight, arriving over Pangai, Ha'apai, only 17 minutes after take-off.

Important Mormon Visitor

Elder A. Theodore Tuttle

Coming on the plane next Tuesday will be Elder A. Theodore Tuttle, member of the First Council of Seventy in the Church of Jesus Christ of Latter Day Saints, accompanied by by his wife.

The purpose of Elder Tuttle's visit is to tour Tonga and hold meetings with President James P. Christensen of the L.D.S. Tonga Mission. A great deal of his time will be spent interviewing each of the local elders and sisters serving fulltime missions in Tonga.

Elder Tuttle has also been granted an audience with the King together with another distinguished visitor, Dr Keith Oaks, president of Brigham Young University, on the day of his arrival.

Being an educator by profession, Elder Tuttle has served and supervised many seminaries and institutes of religion throughout the world. He is at present serving on the world-wide board of education for the trustees at the Brigham Young University.

Elder Tuttle served as a Marine officer in the South Pacific during World War II and later went on to receive his Bachelor of Arts and Masters of Arts Degree.

Fell 31,000ft And Lived

The survival of a Yugoslav stewardess who fell 31,000 feet when her DC-9 aircraft exploded over Czechoslovakia was attributed to an effect similar to ski jumping.

Vesna Vulovic, the only survivor of the crash which killed 27 people, was found lying on the side of a hill, serious injured with a broken left arm, a broken left leg, and brain concussion.

Experts are theorizing Vesna fell in the tail-piece of the plane, which then slid down the snow-covered slope. She is expected to recover.

SOCIAL EFFECTS OF TOURISM HARMFUL, PROFESSOR SAYS

The social effects of tourism are particularly harmful to Pacific culture says the Professor of Pacific Studies at the University of the South Pacific, R. G. Crocombe. He was speaking at the Honiara Technical Institute, British Solomon Islands, about the cultural problems of Pacific countries.

He said that where there was a high density of tourists there was bad race relations. He suggested that tour operators and airlines should be more responsible in their attitudes.

Quoting a New Guinea politician, Professor Crocombe said that misleading travel agents create false impressions, emphasising images of primitiveness, condescending notions of simplicity and exaggerated differences.

He acknowledged that tourists like to see esoterics, but while Pacific Islanders want to be understood they did not want to be seen into.

Professor Crocombe said the peoples of the Pacific countries should choose those outside cultures which would most easily integrate with their own. He said that unless Pacific islanders chose for themselves, the choice would be made for them by foreigners.

"We could probably define culture", he said, "as the way we live, the way we make and use things. Not always are we governed by traditional precedent. Technology is not tied to traditional precedent, in spite of the popular belief that it is linked to race.

Professor Crocombe took architecture in the Pacific countries as an example, pointing out that it has a beauty, using traditional themes equal to that of any other culture or country.

ECONOMIC POLICY

Turning to economics, Professor Crocombe said the Pacific areas must decide not only what kind of economic policy they want, but whose. He pointed out that the many different countries in the world used their money in many different ways.

It had been popularly believed that traditional culture is not consistent with productivity, but citing a study carried out in Samoa, Professor Crocombe showed that this was in fact not so. According to the study, it was the most traditional villages which were the most productive.

The social costs of economic activity must be counted, he said. Economists, and others, too often believe that the more money flowing into and out of a country, the more affluent the people. In many cases the opposite was true.

A survey done on an island in Fiji showed that the three main locally-produced exports were being replaced by the same products of foreign manufacture, at exhorbitant expense. Professor Crocombe suggested that this was because the local people had come to regard their own produce as inferior and turned to foreign products for reasons of social superiority learnt from external forces.

Indigenous cultures provide a number of social, psychological and economic services which were not adequately recognised. Professor Crocombe said. Imported ideas such as tourism, industrialization and urbanization had to be paid for.

He quoted an economist who said the people of Hawaii must pay $5 a day a tourist to cover the costs of the additional services pursuant of having a tourist industry.

GOVERNMENT SYSTEM

Speaking of the difficulties of choosing a system of government, Professor Crocombe pointed out that no government in the world had been created to cope with the needs of today let alone the needs of tomorrow. The British system was founded in the 17th and 18th centuries and even the Russian was devised last century.

He also pointed out the importance of linking bureaucracy with productivity, warning of the dangers bureaucracy can bring in the form of standardization and possibly stagnation.

In religion, many indigenous theologians recognised the need to reformulate the religious teachings to align them more closely with Melanesian concepts.

The 1950's and 1960's, said Professor Crocombe, had seen a tremendous reduction in social divisions in many parts of the world. Divisions of race, colour, tribe and religion, which had been strongly upheld have been greatly reduced because of a specific preference by the people for their reduction.

One world culture would be a bad thing and Professor Crocombe does not believe that it will come about. He sees the necessity in the 80's and 90's for people everywhere to have two languages and two cultures. With advanced communications shrinking the world to such an extent, grouping was important and a uniqueness as an identifying symbol invaluable.

Professor Crocombe said it was clear that Pacific cultures were not dead, but had been substantially modified and incorporated a great deal that was old and new.

He pointed out that newly independent countries were seeing a surge of creativity and new adaptations of what was one of man's most sort after needs — human dignity with a unique and valued identity.

THE INTERNATIONAL PASSPORT TO SMOKING PLEASURE

JW3068Q.1

WORLD-WIDE POPULARITY OF THE BBC

There is much evidence to support the view that the British Broadcasting Corporation's External Services have acquired a new young audience in most parts of the world.

Announcing this, the BBC annual report advances four main reasons for the continuing response to the BBC's external broadcasts.

The first reason – the BBC's continued reputation for telling the truth. The second point, states the report, is that while television has expanded greatly in the past 25 years world sales of radio receivers have grown even faster. Between 1950 and 1970 the total has multiplied about five times, from roughly 160 million radio sets to some 800 million sets.

Thirdly, the BBC has improved its technical facilities for broadcasting overseas. Transmitters in the United Kingdom are being modernised and increased in power. Over the years the BBC has developed a number of relay stations in various parts of the world to give regional coverage. In many cases this has made it possible to add a medium wave audience to those who previously could listen only on short wave. Improved reception has led directly to increases in audiences.

The fourth point is that the number of people politically interested and anxious to be politically well-informed has increased everywhere. "The world is hungry for news" says the report, "and the inclination, particularly in time of crisis, to turn to London for information would seem to be as strong now as it has ever been."

As an example of the BBC's reputation for credibility, the report quotes a story from the New York Herald Tribune. An American correspondent captured by Vietnamese Communist forces and later released in Cambodia described how he watched his captors, night after night, listening to the BBC's Vietnamese service. Their leader, when asked the reason for this assiduous listening, replied: "This is the not propaganda."

Clean Exit By Burglar

Police in Seattle say a burglar made a clean getaway from a woman's apartment with clothing, a bath towel, a wash cloth and three hand towels. The burglar also took a bath before leaving.

TONGA KEEN ON MAORI RUGBY TOUR

The New Zealand Maori team's proposed rugby tour of Tonga in September has been approved by the Tonga Rugby Union.

The union's president, Mr Lūpeti Finau, said a tour was suggested by the New Zealand Rugby Union Council, with two games be played in Tonga and six in Fiji, at the end of September or early in the 1973 season.

Mr Finau has requested three games to be played in Tonga instead of two and for the Maoris to visit Tonga first because the season ends with the Fiji rugby tour on August 5.

He said Tonga had approved the Maori tour of Tonga this year but if Fiji prefers 1973, the Tonga Union will agree.

The New Zealand Rugby Council will discuss the Maori tour of Tonga and Fiji at their meeting schedule for tomorrow in Wellington.

If the New Zealand Council approves the request for three games to be played here, it will be two provisional matches and one test.

AUSTRALIAN TOUR

The Australian Rugby Union has asked Tonga to play two tests on their tour next year, according to the Sydney Morning Herald.

These be Tonga's first full internationals against a senior Rugby Union country.

ARU president, Mr Charles Blunt, said he thought Tonga would accept the unions offer to raise the two international matches against Australia to the status of Tests.

Other matches on the suggested intinerary are against New South Wales, Queensland, Victoria, South Australia, New South Wales Country, Queensland Country, Sydney and the Australian Capital Territory.

The tour will be from mid-May until the end of June.

UNION OFFICERS

Tonga Rugby Union Officers for 1972 are: President, Lūpeti Finau; Secretary, Tafokitau Tāpealava; Treasurer, V. Sika; Committee — Paula L. Pāhulu; Viliami Salakielu; Sione Na'a Fiefia; 'Isileli Vaka'uta and Siaosi Mōleni.

National selectors: Lūpeti Finau; Kākolosi Kioa and John Pitman. Country Selectors: Viliami Salakielu, Sione Na'a Fiefia and Siaosi Mōleni. Town Selectors: 'Isileli Vaka'uta, Paula Tēvī and Samiuela Hala'unga.

19 CLUBS IN COMPETITION

Nineteen rugby club teams will compete in the Tongatapu senior inter-club rugby competition this season.

Tahimate Club from Pahu and Ha'asini are the two new clubs to enter the competition.

Others are: Police A, Police B, Kolofo'ou, Fasi, Ma'ufanga, Tavatu'utolu, Kolomotu'a, Hihifo, Nukunuku, Houma, Liahona College's Old Boys, Ha'ateiho, Folaha, Vaini, Lōtolu, Mu'a and Kolonga.

The rugby season will open on March 18.

King of all the filters

11s FOR TEN

Sporting Scene

From a scramble in the goal-mouth the referee's whistle goes and his hand is raised . . . Kolofo'ou A scores in its match against a team from the cruise ship "Iberia" at 'Atele last Saturday afternoon. The Tongan team won 2–1.

Ha'apai Champion Still Undefeated

The Ha'apai champion, Tipeti Moa of Pangai, retained his undefeated record by winning a split decision over Tevita Piu, of Kolofo'ou, in a billed 10-round light heavyweight bout which turned out to be a heavyweight fight, last Friday at Hauhau-'o-Taufa'āhau Theatre.

Judges George Singh and Fred Day scored the bout in favour of Moa, 48-45 and 97-95 respectively. Referee 'Isitolo Hafoka scored it a draw with 47 all.

Mr. Day used a 10-point scoring system while the other score's computed totals on a 5-point scale.

Throughout the fight, Piu proved most adept, with piston-like straight lefts and rights to the face and counter-punches. Moa carried the fight with his telling left and right combination.

Round seven saw Moa at his best with a barrage of punches ending with a tremendous right cross to the jaw which dropped Piu to the canvas for the mandatory count of eight.

Piu fought back in the final round in an effort to score a knockout but Moa managed to retaliate with counter punches as the bell went.

The fight would probably have ended in technical knockout or knockout, if the boxers had not been ordered to have 16 ounces gloves instead of 8-oz at the end of round three, because the 8-oz gloves were worn out.

Manu Tuineau of Hihifo, Ha'apai, also won a split decision over Sione Mafi Fifita, of Kolomotu'a in a six-round middleweight contest.

Boxers Invited To Noumea

A Noumea boxing promoter, Mr Sam Lai Sun has invited three professional boxers to fight at Noumea on March 11.

In his letter to the Tonga Professional Boxing Association he said he would like to have a heavyweight, light-heavyweight and middleweight boxers.

The Tonga association secretary, Tevita Moala, said yesterday the association would meet this week to select the best available boxers for Noumea.

First Polynesians In Coconut Community

Western Samoa has become the first Polynesian country to become a member of the Asian Coconut Community.

Tonga is considering applying for membership.

During its fifth session held in Jakarta, Indonesia, the community accepted Western Samoa's application for membership.

The other members are Ceylon, India, Indonesia and the Philippines.

The issues discussed at the meeting included an analysis of causes for low copra and coconut oil prices, standardising of quality, a consolidated approach to the European Economic Community (Common Market) and a United Nations project for production and research at the community's headquarters.

DISPOSAL BY TENDER GOVERNMENT QUARTERS – No. 2

The Government quarters building at the corner of the Mala'e Pangai and Taufa'āhau Road, adjacent to the Lands Department Office, is to be sold by public tender.

The building may be inspected by arrangements with the Ministry of Works, Nuku'alofa, where full details of the tender and the requisite form of tender may be obtained. Tenders must be submitted on the tender form in a sealed envelope, marked clearly 'Tender for Government Quarters', by Monday, March 6, 10a.m., to Hon. Minister of Works, Ministry of Works, Nuku'alofa.

SITUATIONS VACANT

Burns Philp (South Sea) Co. Ltd., Nuku'alofa invite written applications to fill the vacancies of:

(a) Merchandise Assistant - - Suitable man must be between 25–35 years and preferably had some retail marketing experience. Salary dependent on experience.

(b) Carpenter - - Capable of maintaining the company's various premises and general repairs and maintainence

Apply in writing to:
The Manager,
P.O. Box 55,

CHAMPAGNE FLIGHTS OVER TONGATAPU

By the Editor

"Losi" is a pretty bird with her silver, green and orange plumage. Her owners are very proud of her, so they brought her south to show us – and I for one was impressed.

I was one of about 80 in Tonga who went on courtesy flights on Monday in "Losi", Western Samoa's Polynesian Airline's new HS 748 aircraft.

It was a real champagne flight. As we flew over at 10,000ft Tongatapu and 'Eua on a sparkling Tongan morning, champagne was served to the passengers to mark the importance of the occasion.

Bruce Leonard, PAL's traffic and sales manager, was the bottle-opener and had to operate in the lavatory because to open the bottles in the cabin would endanger the passengers from flying corks, he said. Dodging flying corks will not be a normal hazard of flying in "Losi", I am sorry to say.

Although PAL's HS 748 is the same aircraft used by Air Pacific, being a later model there were one of two new features. The shades over the windows are made of dark-coloured clear plastic, in two sections, closing from top and bottom. When closed it is still possible to see out of the window, but the sun's glare is cut out and so is the heat.

Mr Leonard told me that when all the shades are over the windows the temperature in the cabin is reduced considerably – ideal for tropical flying.

"Losi" arrived on Monday morning with a party of about 40 from Samoa, including the Prime Minister Tupua Tamasese Lealofi IV, members of his Cabinet, directors of PAL and other dignitaries.

Before the departure from Faleolo Airport, Apia, the aircraft was officially christened "Losi".

The official party spent the night in Tonga and returned the following morning to Apia via Niue. They were the guests of honour at a reception at Fua'amotu Airport on Monday night, hosted by the Prime Minister.

PAL's new HS 748 will replace the DC3s on the regular flights between Apia and Pago Pago. From April 3 it will begin flights three times a week to Tonga and also make a weekly direct flight from Apia to Nadi.

The official party from Samoa on the inaugural flight of Polynesian Airline's HS 748 being welcomed to Tonga at Fua'amotu Airport.

USP Centre News

By Margaret Blundell

For the last few days Dr. Lawrance, head of the physics department in the University of the South Pacific School of Natural Resources has been visiting secondary schools and getting to know more of the background and problems of intending students from Tonga. There has been valuable discussion with both young people and their teachers. This activity has emphasised the value of the centre in its capacity as a liaison service between USP and schools.

The next writers' meeting is at 8.00 p.m. tomorrow at the centre. Like several other meetings, this is in both English and Tongan so anyone who writes poems or stories, or any other form, in either language is welcome. These meetings happen regularly on the third Friday of each month

Two other classes held in both Tongan and English are Paul Bloomfield's on Polynesian culture on Tuesdays and Futa Helu's on Tongan oral literature on Wednesdays, both interesting explorations of Tongan heritage.

The 100th student was registered at the class in English for civil servants on Tuesday and was Satua Tu'akoi from the Premier's Office.

This And That

CHRONICLE DIARY

A man we know consulted a doctor at the hospital last week and was given a prescription for tablets to collect from the dispensary. At the dispensary the man handed the slip of paper to one of the dispensers who glanced at it, went away and returned seconds later with a small package which he handed over. As the patient was leaving he decided to check the package and found a container of something that looked like Vaseline instead of tablets. Back he went to the dispenser who checked the prescription, apologised and handed over the tablets. Our patient friend left not entirely satisfied because he was wondering if he had got the right tablets after all. We too wondered how many patients went home with the wrong prescription. Not all are as different as tablets and Vaseline.

Rest easy at night because the police are on the job. We came home late one night recently and found three policemen patrolling around our house because a prowler had been reported in the area. They were still around at 3.30 a.m., a neighbour told us.

* * *

We bought a pound of sausages at one Nuku'alofa shop on Friday last and on Monday bought another pound of exactly the same brand at another store, but paid nine cents less this time! There is often a marked difference in prices between shops but we wonder why it has to be so great. Naturally we won't be buying our sausages at the first store in future. It pays to shop around in Nuku'alofa.

* * *

A trip to the blowholes at Houma and back is taking the tourist buses anything up to 3½ hours these days because of the state of the road. It is not hard to imagine how a visitor feels about Tonga after going through this test of endurance in one of our buses. Some of the holes in the road are large enough and deep enough for a man to lie down in.

A passenger on board the Russian cruise ship "Shota Rustaveli" was the head of the Soviet legation in Wellington Mr Antoli Ivanstov, the first Soviet diplomat to come to Tonga, paying a visit he is not likely to forget. The Government car in which he was being taken to Oholei Beach with his wife and Press secretary got stuck in the mud. Everyone except the driver got out and pushed, but to no avail.

The minister then took over the wheel himself while everyone else pushed and, by what was described as some very skilful driving, the car came unstuck.

* * *

Last Thursday's high wind cost the Tonga Electric Power Board about T$1000 because of wires knocked down by trees and the loss of revenue during the long time the power was off in some areas.

* * *

Tongan entertainers should not imitate Maori singing and dancing and wear tatty copies of Maori dress when they are performing before a cruise ship audience which includes a large number of New Zealanders. Remember, they have seen the real thing.

The Tonga Chronicle

Where Time Begins

Nuku'alofa, Thursday, February 24, 1972 Vol. VIII No. 38 3 Seniti

Maintain Connection With Minerva Reef

Tonga has established a refuge station on South Minerva Reef and, as a Government spokesman said, "is maintaining its special connection with the reef".

The station was set up on the reef on February 21 by the crew of the "Ekiaki" which sailed from Nuku'alofa on Saturday Morning. Captain Sioeli Fotu was in command and on board was the Government Informaton Officer and Editor of the Chronicle, Mr Robert McClelland. He has taken photos to record the event.

The "Ekiaki" returned to Nuku'alofa last night.

The refuge station consists of a box mounted on a tripod surmounted by a red square beacon. The box contains medical supplies, lifeboat rations, blankets, canvas cover and fishing equipment. The box is clearly marked "Supplies and maintained by the Government of Tonga."

A Notice to Mariners has been issued and the authorities in Fiji, New Zealand, Australia and the United Kingdom advised.

CEMENT SHORTAGE DELAYS CONSTRUCTION

Major constructional work in Tonga has now come to a halt, or is proceeding at very slow rate, as stocks of cement are running out.

Spokesmen for the Tonga Construction Company and the Ministry of Works have said that they have a small supply of cement left, and it has been ascertained from the Government Store, Morris Hedstrom Ltd., Burns Philp Co. Ltd., E. M. Jones Ltd., and Lipoi that they have no cement in stock at present.

They are expecting fresh supplies on the "Tauloto" due to arrive next Thursday.

The construction of the new building at Queen Salote College was held up on Monday when the supply of cement ran out.

The delay in the arrival of the "Tauloto" caused other shortages in sugar and flour.

Riechelmann Bros. and O. G. Sanft said that their stocks of flour is being used only for their bakeries.

Fresh supplies of sugar and flour are expected when the "Tauloto" arrives.

DUKE OF EDINBURGH'S AWARD SCHEME

The Overseas Secretary of the Duke of Edinburgh's Award Scheme, Commander L. E. Peyton Jones leaves today after a three days stop over to discuss with Government Officials and other sectors of the communities, the possibility of establishing a National Award Committee in Tonga.

The Duke of Edinburgh Award is a programme designed to offer young people the opportunity and incentive to serve others, to experience adventure, and to discover themselves new interests outside the scope of their environment.

Commander Peyton Jones said the scheme would provide the youngsters in Tonga with the incentive of doing useful works in their leisure time.

Young people can take part in the scheme through schools, youth organisations, place of employment or just on their own. They would be introduced to a wide ranging programme of cultural, practical and physical pursuits to be undertaken in their own time.

To qualify for the awards the scheme demands of each young person qualities of self discipline, enterprise, perseverance and effort as well as sense of service to others.

The scheme also offers adults, the opportunity of active involvement with the development of the new generation by sharing with them skills and interests which they themselves have found most rewarding in their lives.

The National Award Committe to be formed would have representative of different section of the communities and would have the entire authority to make the award.

Commander Peyton Jones talks with Miss Scott, the Red Cross Adviser, at the Red Cross Hall yesterday morning.

PRINCE TO PLAY SOCCER

The Crown Prince. Prince Tupouto'a will be playing his first game of soccer in the Kingdom on Saturday when he takes the field for the Neiufi XI in an exhibit game against the Hakulā XI to be played at 'Atele.

Neiufi XI: Langi Kavaliku (Captain), Peni Tupouniua, Paula Bloomfield, Prince Tupouto'a, Na'a Fiefia, Sioeli Matoto, Lātū-'ila Tonga, Tu'a Taumoepeau, Mana Lātū, Tevita Helu, Vaka Lataimaumi.

Hakulā XI: Hameti Mataele (Captain), Father Mayer, Tu'ipulotu Siaki, Fakafanua, Titi Wendt, Tākapu, Heinakau, Lolohea, Hill-Willis, Tom Newland, Eric Bateman.

Sunia Faiva giving a tuberculin test to one of the cattle at Sia'atoutai Theological College.

SCHEME TO ERADICATE BOVINE TUBERCULOSIS

The Livestock Section of the Department of Agriculture at present is conducting a scheme for the complete eradication of bovine tuberculosis from all cattle in the Kingdom. The scheme, being a voluntary one, would need the co-operation of all individuals in the Kingdom who owns cattle.

Bovine tuberculosis is an incurable disease of cattle which could be transmitted to the human population through the consumption of infected milk. The disease is of a progressive nature often results in, or contribute to the animal's death. In cattle the disease is spread within a herd by contact with the infected animals.

The only way to control the disease would be to identify the carrier and the infected animals, by the tuberculin test, and remove them permenantly from the herd.

Testing teams are moving from village to village in Tongatapu in an effort to have all cattle tested for tuberculosis. This requires a good liaison between the members of the department and the village communities.

An officer from the Livestock Section left on Monday to start testing cattle in the Ha'apai Group.

The majority of the positive reactor animals when slaughtered would still pass for human consumption and the owners would receive the full market value for it. About 10% of the reactors would be totally condemned and the department has agreed to replace these animals with young stocks, heifers or steers. For a farmer to qualify for a replacement animal, the condemned carcase must be examinated by a member of the Livestock Section.

An isolation centre had been set up at Vaini where T.B. positive cattles would be kept till they are in a condition to be slaughter. There would be no charge imposed on the grazing and supervising of these animals.

The majority of owners would not therefore subject to any financial hardship as a result of having their cattle tested except when for a small numbers that may have a portion of the carcase condemned.

Briefly . . .

FIRST - A dozen sheep privately shipped into the British Solmon Islands are the first ones to set foot in the protectorate. The sheep, 11 ewes and a ram of the Corriedale breed, will be run only on an experimental basis to see how they fare in the Solomon Islands.

NEW ZEALAND POLICY ON IMMIGRANTS

Asians and other non-Europeans with profeessional qualifications who meet normal entry requirements can usually expect to be accepted as immigrants to New Zealand, says the N.Z. High Commission in Suva in a background paper about the country's immigration policy.

British and European people traditionally constituted the bulk of new settlers, the paper said, however, New Zealand had always recogniseed a special responsibility towards the people of the Cook Island, Niue,the Tokelaus and Western Samoa in the South Pacific.

Cook Islanders, Niueans and Tokelau Islanders, who were New Zealand in relatively large numbers as potential settlers.

In 1971 there were about 40,000 Pacific Islanders in New Zealand, including students and visitors.

Provision for their entry would continue to be an important feature of the national immigration policy, the paper said.

New Zealand had developed strong links with Asia through political, aid, defence and trade relationships. There was a growing awareness of opportunities which could exist to replenish sources of skilled manpower from Asian countries.

Athough no active recruiting had been undertaken, Asians and other non-Europeans who held professional or comparable technical qualifications recognised in New Zealand whose English was satisfactory and who met normal entry requirements could usually expect to be accepted as immigrants if they had a specific job to come to, the paper said.

100,000 TOURISTS

New Zealand had more than 100,000 overseas tourists during 1971. Other temporary visitors included sponsored groups and students.

Opportunities existed for small groups of temporary workers from Tonga and Fiji to spend periods of up to six months in organised work schemes, the paper said.

Many people went to New Zealand each year also to combine sightseeing with work, particularly in jobs associated with the hotel industry and seasonal farm work.

The paper said the object of the Government-supported work schemes was to enable visitors to experience living and working conditions in New Zealand and have the opportunity to send earning home.

In 1971 there were about 3700 private overseas students, mostly from South-east Asia and the Pacific, in New Zealand.

More than 550 overseas students were in the country under different Government-sponsored programmes.

The paper said New Zealand received up to about 200 refugees or displaced persons each year. Most refugees reaching New Zealand came from Europe, but increasing numbers of refugees in Africa and Asia were presenting new problems.

Talks On Education

The distinguished visitors above are enjoying an audience with His Majesty, the King of Tonga. Forming a delegation of Church leaders as well as members of the Church Education Department (which is worldwide) of the Church of Jesus Christ of Latter Day Saints. These men are; (Left to Right) President James P. Christensen; Tonga mission, Elder A. Theodore Tuttle; Worldwide Board of Directors, His Majesty King Taufa'ahau; Dr. Dallin Oaks; President of Brigham Young University, Mr George Puckett; Superintendent of Church Schools in Tonga.

The topic of discussion with His Majesty was the role played by the Mormon Church School System here in Tonga. Reference was made to the number enrolled as well as the different courses offered to the students. Also there was mention of the number of Tongan Students that have begun to enter colleges and universities outside of Tonga and the many affects thereof. — ADVERTISEMENT

AUSTRALASIAN TITLE FOR SANTOS

Tongan Mannie Santos has won the vacant Australasian light-welterweight boxing championship with a dramatic sixth-round technical knockout over Australia's national lightweight title-holder Jeff White, in Melbourne last week.

Santos, 3lb the lighter at 9st 9½lb, charged out as the bell opened the sixth round and sent Queenslander White crashing under the bottom rope with a power-laden left hook to the jaw.

White regained his feet immediately but Santos swarmed all over him and drove him around the ring under a hail of punches.

VEITONGO SCORES THE BIGGEST WIN

By CHRIS

Saturday saw some very good soccer played at Tonga College before His Majesty and a large crowd with Veitongo A having a field day by over running Langi Leka by seventeen goals to nil.

This was the biggest win ever and was mainly due to Veitongo taking every opportunity of scoring. Langi Leka must not despair as they met Veitongo on one of "their days".

Ha'ateiho A were fully extended to notch a victory by just one goal to nil against Fotu'afinema. This game was good to watch as both teams showed good positional play and speed.

Tonga College turned in a good performance to beat Ha'ateiho B by the narrow margin of two goals to one. The College team is showing steady improvement, but needs to watch their positional play as there is still a tendency to "pack".

Ngele'ia B beat Niuvākai by five goals to nil in a rather ragged game with far too much running around.

Tonga College A maintained their good form by beating the fast moving Toafaka'amu team by the only goal scored. This was a very good performance and the Tonga College team is improving all the time and will be very hard team to beat as the season develops.

Royal Guards with a very good display of controlled soccer beat Niuvakai A by three goals to one. The Guard's defence showed up well and they should continue to do well.

Ngele'ia Awere well extended to beat Tupou College by the only goal scored and have to thank their goalkeeper for some very good saves.

Veitongo B beat Toafaka'amu B by five goals to nil in a rather scrappy game with too much running about. The ball should do the running not the players.

Kolofo'ou continued their winning way by beating a very good Sopu team by three goals to one. The right wing of the Kolofo'ou team showed excellent form and the two goals from that side were really first class efforts.

Kauvai beat St. Andrews by three goals to nil in a game where exchanges were fairly even.

ONLY 2½ HOURS FROM NUKU'ALOFA

LEIPUA GUEST HOUSE

AT PANGAI, 'EUA.

Boats to 'Eua leave from Fāua at 7 a.m. on Monday, Wednesday and Friday and return the same day.

Accommodation for six persons.

Bed and breakfast $3, lunch and dinner a la carte

Reservations to : P.O. Box 1, 'Ohonua, 'Eua or by telegram or radio telephone to :

Managed by Lilo Vaka'uta

VAKA'UTA & SONS, 'EUA.

"DEAR SIR..."

(Letter to the Editor)

Tongan Language

Dear Sir. — I am greatly amused after going through previous Chronicles to see how some people here in Tonga are too complacent in regard to their own culture. Perhaps it's due to misunderstanding of what culture really is. It seems that people think that there is no culture better than our own—at least to us as Tongans anyway. This is very good; but that shouldn't shut our minds from looking to improvements and changes of our culture. I am positive our culture is not the perfect one. We must find a way where we can improve so that to live a happy human life.

To improve, therefore, will involve a change. A change is necessary. Now, do not take me wrong here—I certainly want a change in our culture, but not the essence of our "culture". In other words, the very essence of our culture should be fostered and do away with some of our attitudes, behaviour and acts which are attached to our culture but not necessary. Some of the previous writers criticised Tevita Latu on this point and indicated that "culture" is something immutable. I think Tevita Latu has something which his critics don't have.

What is "culture"? The word is derived from a Latin word "cultare" which means "to cultivate". I define "culture" therefore, as "a mass of ideas, custom, acts and behaviour which consciously or unconsciously mould man's behaviour".

Does the Tongan language make a citizen of Tonga a Tongan? The answer is, no. It is his culture that makes him a Tongan, not the Tongan tongue.

Obviously, therefore, language and culture are distinct This presents me no difficulty at all in how we change the one and effect the other. For instance, I may have English as my prime tongue but am still very proud that I am a Tongan. My pride for being a Tongan is not because I live in Tonga or that I speak Tongan by because of my identify as a Tongan.

There is no need for despair. Our vernacular can be replaced by a foreign tongue but it won't ruin our culture.

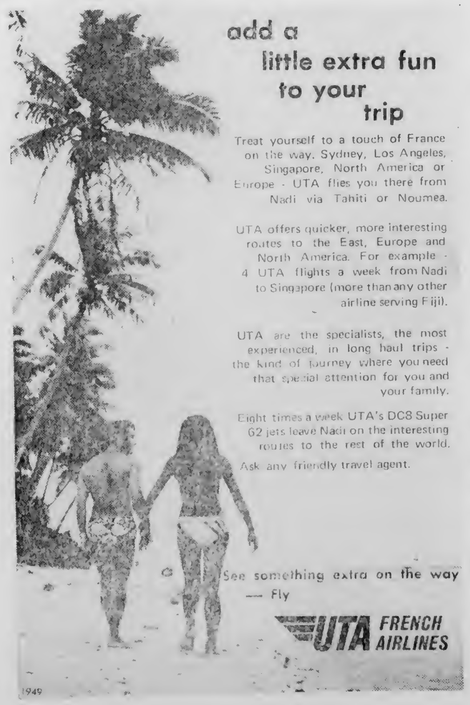
TEVITA N. ŌLOMU.

Eleven Stores Acquitted of Licensing Cases

Eleven retail stores charged with operating business without a licence have been acquitted in Nuku'alofa Court last week.

The stores are: E. M. Jones Ltd, Tonga Trading Co., Burns Philp., (S.S.) Co. Ltd., Tonga Electric Power Board, Hone Taumoepeau, Tutomu Nakao and three stores owned by 'Uliti Uata and sons.

Magistrate Sekonaia Tu'akoi said the prosecutor failed to prove the stores being opened and unlawfully selling goods to the public without a licence.



add a little extra fun to your trip

Treat yourself to a touch of France on the way. Sydney, Los Angeles, Singapore, North America or Europe - UTA flies you there from Nadi via Tahiti or Noumea.

UTA offers quicker, more interesting routes to the East, Europe and North America. For example - 4 UTA flights a week from Nadi to Singapore (more than any other airline serving Fiji).

UTA are the specialists, the most experienced, in long haul trips - the kind of journey where you need that special attention for you and your family.

Eight times a week UTA's DC8 Super 62 jets leave Nadi on the interesting routes to the rest of the world.

Ask any friendly travel agent.

Man's Most Loyal Friends Since Stone Age

Pigs, loyal friends of man since the Stone Age, now are giving their all in medical research.

The pig has a heart and circulatory system similar to man's, but conventional breeds are too large for laboratories, the National Geographic Society says.
